In addition to involvement in the EA scoping process, you may want to become an official party to the proceeding or become an "intervenor". Among other things, intervenors have the right to receive copies of case-related Commission documents and filings by other intervenors. Likewise each intervenor must provide copies of its filings to all other parties. If you want to become an intervenor you must file a Motion to Intervene according to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214) attached as appendix 2.

The date for filing timely motions to intervene in this proceeding has passed. Therefore, parties now seeking to file late interventions must show good cause, as required by § 385.214(b)(3), why this time limitation should be waived. Environmental issues have been viewed as good cause for late intervention. You do not need intervenor status to have your scoping comments considered.

Additional information about the proposed project is available from Ms. Lauren O'Donnell, EA Project Manager, at (202) 208–0325.

Lois D. Cashell,

Secretary.

[FR Doc. 94–13976 Filed 6–8–94; 8:45 am]

BILLING CODE 6717–01–P

[Docket No. CP94–561–000, et al.]

Columbia Gas Transmission Corporation, et al.; Natural Gas Certificate Filings

May 27, 1994

Take notice that the following filings have been made with the Commission

1. Columbia Gas Transmission Corp.

[Docket No. CP94–561–000]

Take notice that on May 20, 1994, Columbia Gas Transmission Corporation (Columbia), 1700 MacCorkle Avenue, SE., Charleston, West Virginia 25314–1599, filed in Docket No. CP94–561–000 a request pursuant to § 157.205 of the Commission's Regulations to construct and operate facilities to relocate an existing point of delivery to Corning Natural Gas Corporation (Corning) and to abandon approximately 1 mile of 4-inch and 6-inch lateral pipeline located in Steuben County, New York under Columbia's blanket certificate issued in Docket No. CP83–76–000, pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

---

[1] Arkla Energy Resources Company's application was filed with the Commission under section 7 of the Natural Gas Act and Part 157 of the Commission's regulations.

[2] In Docket No. CP94–541–000 filed on May 11, 1994, AER officially changed its name to NorAm Gas Transmission Company.

[3] The appendices referenced in this notice are not being printed in the **Federal Register**. Copies are available from the Commission's Public Reference Branch, room 3104, 941 North Capitol Street, NE, Washington, DC 20426, or call (202) 208–1371. Copies of the appendices were sent to all those receiving this notice in the mail.

Columbia proposes to relocate the Coopers Plains Measuring Station (Coopers Plains) serving Corning located at the terminus of Lines A–1 and A–3 in Steuben County, New York by constructing and operating a new delivery point for Corning on Line A–5 in Steuben County, New York approximately 1.63 miles east of the interconnection of Lines A–1 and A–5. Additionally, Columbia proposes to abandon, in place and partially by removal, 2,787 feet of 4-inch pipeline and 1,235 feet of 6-inch pipeline of Line A–1, and 1,235 feet of 6-inch pipeline of Line A–3. Columbia states that Lines A–1 and A–3 are in need of replacement due to deteriorating condition. Columbia states that the relocation and replacement of the measuring station and the retirement of the pipelines, agreed to by Corning, is the least costly replacement alternative and avoids the environmental impact of a river crossing by either Columbia or Corning. Columbia indicates that the relocation of Coopers Plains involves the relocation of flow control and tie-in facilities owned and operated by Corning. Columbia states that it would pay Corning a contribution in aid of construction of up to $37,000 to enable Corning complete the relocation of these facilities. Columbia states that the estimated cost of the abandonment of its facilities is $60,000.

Comment date: July 11, 1994, in accordance with Standard Paragraph G at the end of this notice.

2. Columbia Gulf Transmission Co.

[Docket No. CP94–562–000]

Take notice that on May 20, 1994, Columbia Gulf Transmission Company (Columbia Gulf), P.O. Box 683, Houston, Texas 77001, filed in Docket No. CP94–562–000 an abbreviated application pursuant to section 7(b) of the Natural Gas Act, as amended, and §§ 157.7 and 157.18 of the Federal Energy Regulatory Commission's (Commission) regulations thereunder, for permission to abandon a firm transportation service for Northern Natural Gas Company, a division of Enron Corp. (Northern), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Columbia Gulf states that it proposes to abandon a transportation service originally authorized by Commission order issued May 6, 1977, in Docket No. CP77–8–000. Columbia Gulf indicates that under the arrangement with Northern, Columbia Gulf would receive gas from various points offshore Louisiana into its existing offshore facilities and transport the gas to Columbia Gulf's facilities in Egan, Louisiana. Columbia Gulf further indicates that Northern pays a monthly demand charge for the service performed by Columbia Gulf. Columbia Gulf states that it has tendered to Northern, and Northern has executed, a service agreement effective February 1, 1994, providing that the remaining Part 157 service will be provided under Part 284. Columbia Gulf indicates that no facilities are to be abandoned.

Comment date: June 17, 1994, in accordance with Standard Paragraph F at the end of this notice.

3. Questar Pipeline Co.

[Docket No. CP94–563–000]

Take notice that on May 23, 1994, Questar Pipeline Company (Questar Pipeline), 79 South State Street, Salt Lake City, Utah 84111, filed in Docket No. CP94–563–000 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon natural gas transportation services contained in its FERC Gas Tariff, Original Volume No. 3 for: (1) Columbia Gas Transmission Corporation (Columbia), under Questar's Rate Schedule X–23, which was authorized in Docket Nos. CP80–7 *et al.*, and, (2) Northwest Pipeline Corporation (Northwest), under Questar's Rate Schedule X–19, which was authorized in Docket Nos. CP78–538–000 and CP78–434–000, all as more fully set forth in the application on file with the Commission and open to public inspection.

Questar says that Columbia, Northwest, and Questar have all mutually agreed to cancel the transportation services certificated as Rate Schedules X–23 and X–19. Questar further indicates that it does not propose to abandon any facilities in conjunction with the requested abandonment.

Comment date: June 17, 1994, in accordance with Standard Paragraph F at the end of this notice.

4. Texas Eastern Transmission Corp.

[Docket No. CP94–564–000]

Take notice that on May 23, 1994, Texas Eastern Transmission Corporation (Texas Eastern), 5400 Westheimer Court, P.O. Box 1642, Houston, Texas 77251–1642, filed in Docket No. CP94–564–000 a request pursuant to §§ 157.205 and 157.211 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.212) for authorization to modify an existing receipt point in order to use it additionally for deliveries, under Texas Eastern's blanket certificate issued in Docket No. CP82–535–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Texas Eastern proposes to reverse its existing check valve at Louisiana Intrastate Gas Corporation's (LIG) meter station located on Texas Eastern's Line No. 14 in St. Landry Parish, Louisiana. It is stated that this modification would enable the meter station to be used for deliveries of to LIG as well as receipt. The cost of the proposed modification is estimated at $150. It is asserted that the modification would have no effect on Texas Eastern's peak day or annual deliveries. Texas Eastern states that the proposed modification can be accomplished without detriment or disadvantage to Texas Eastern's other customers.

Comment date: July 11, 1994, in accordance with Standard Paragraph G at the end of this notice.

5. Pacific Gas Transmission Co.

[Docket No. CP94–566–000]

Take notice that on May 24, 1994, Pacific Gas Transmission Company (PGT), 160 Spear Street, San Francisco, California 94105–1570, filed in Docket No. CP94–566–000 a request pursuant to §§ 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.212) for authorization to install a new tap and meter set near Rathdrum, Idaho, for delivery of gas to Washington Water Power Company (WWP) and upgrade the existing Rathdrum Meter Station in Rathdrum, Idaho under PGT's blanket certificate issued in Docket No. CP82–530–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

PGT proposes to construct a new tap and meter station adjacent to PGT's existing meter station near Rathdrum, Idaho to serve WWP. PGT states that it entered into an interruptible (backhaul) transportation service agreement with WWP on December 15, 1993, to provide 25 MMBtu per day to PGT's existing delivery point at Rathdrum and 48,000 MMBtu per day to PGT's proposed Rathdrum Turbine Generating Meter Station. PGT also states that the generator would be used for peaking service (approximately 10 days per year). PGT and WWP anticipate that the scheduled date for delivery of gas from this new point would be September 1, 1994.

PGT also proposes to increase the flow capacity of its existing meter station near Rathdrum which serves WWP. PGT states that the current meter capacity is 1.7 MMcf per day; however, recent deliveries have been as high as 2 MMcf per day. PGT proposes to increase the meter capacity to 5.5 MMcf per day. PGT also states that the proposed changes will not impact PGT's peak day and annual deliveries to other customers and is not an increase in WWP's contract demands.

Comment date: July 11, 1994, in accordance with Standard Paragraph G at the end of this notice.

Standard Paragraphs

F. Any person desiring to be heard or to make any protest with reference to said application should on or before the comment date, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and/or permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

[FR Doc. 94–13974 Filed 6–8–94; 8:45 am]

BILLING CODE 6717–01–P

[Docket No. GP94–10–000]

Railroad Commission of Texas, Tight Formation Determinations—Texas-112, 113, 114, 115, Vicksburg Formation (M, R, S, & T Sands), FERC Nos. JD93–04541T, JD93–04589T, JD93–04590T, & JD93–04591T; Preliminary Finding

June 2, 1994.

The Railroad Commission of Texas (Texas) separately determined that the M, R, S, and T sands of the Lower Vicksburg Formation ("M sand," "R sand," "S sand," and "T sand") underlying parts of the McAllen Ranch Field in Hidalgo County, Texas, qualify as tight formations under section 107(c)(5) of the Natural Gas Policy Act of 1978.

For the reasons discussed below, the Commission issues this Notice of Preliminary Finding that the determinations are not supported by substantial evidence.

Background

1. Texas' Determinations

On February 16, 1993, the Commission received Texas' notices separately determining that the Vicksburg M, R, S, and T sands underlying parts of the McAllen Ranch Field in Hidalgo County, Texas, qualify as tight formations. Shell Western E & P Inc. (Shell) is the applicant before Texas. Texas' determinations are amendments of an earlier notice of determination (Texas-15 Addition 3, JD92–02505T) still pending before the Commission after the 45-day period was tolled by two staff letters.[1]

The recommended areas for the M, R, S, and T Sands consist of 3,010 acres, 1,440 acres, 11,700 acres, and 7,320 acres, respectively, with parts of the four areas overlapping one another.

Texas concluded that the sands meet the Commission's permeability guideline based on pressure build up (PBU) tests from five M Sand wells, three R Sand wells, 27 S Sand wells, and eight T Sand wells.[2]

Texas concluded that the same wells show that the sands meet the Commission's gas flow rate guidelines based on calculations using standard flow equations requiring, among other things, the permeability values calculated from the wells' PBU tests.

2. Staff's Tolling Letter and Texas' Response

By letter dated April 2, 1993, staff tolled the 45-day review period because, in pertinent part, the record did not include the PBU tests upon which all four determinations are based, nor was there documentation showing that the PBU tests represented initial reservoir permeabilities (i.e., prior to sustained production).

In response to staff's letter, Shell requested an informal conference with staff, which was held at the Commission's offices on May 4, 1993. At that meeting, staff requested Shell to provide the relevant PBU tests, documentation showing that the data wells were actually completed in the PBU-tested zones, and geophysical well logs showing how net pay thickness values were derived.

In its reply received October 28, 1993, Texas reaffirmed its determinations and provided, in pertinent part, additional documentation from Shell, including PBU tests and portions of daily drillers reports for 43 data wells, as well as a narrative discussion of how net pay thickness values were derived.

3. Staff's Second Tolling Letter and Texas' Response

By letter dated December 10, 1993, staff again tolled the 45-day review period because, in pertinent part, Texas October 28, 1993 response showed that several permeability values were derived from PBU tests run from 7 months to 12 years after the tested intervals were perforated. Therefore Texas was requested to explain why it believed such permeabilities represented original reservoir conditions, prior to sustained production. In addition, staff requested documentation showing when the tested wells were initially hydraulically fractured in order to clarify whether the permeabilities and flow rates reported

[1] TX–15 Addition 3 includes the same four sands as well as several other Lower Vicksburg sands.

[2] The M sand actually includes the M, N, and O sands. Shell refers to them as the M sand because it is the shallowest sand in a Texas-designated field consisting of the M, N, and O sands.

on PBU tests represented pre-stimulated conditions.

In its reply received April 18, 1994, Texas reaffirmed its determinations and concurred with additional data provided by Shell, including well logs for the data wells, a table showing perforation and fracturing dates for the data wells, and narrative discussions addressing the proper definition of "*in situ*."

Discussion

To qualify a formation as a tight formation, § 271.703(c)(2)(i)(A) of the regulations requires the jurisdictional agency to determine that the expected in situ gas permeability throughout the pay section is 0.1 millidarcy (md) or less. Our review shows that the PBU tests upon which Texas based its permeability finding for each sand include tests that were run from seven months to twelve years after the wells were completed and sustained production commenced.[4] Moreover, the records show that permeability in well drainage areas declines with production of natural gas. Therefore, for the following reasons, we preliminarily find that the permeability data in the records do not demonstrate that the sands meet the Commission's permeability guideline.

In previous tight formation proceedings, we held that the characteristics of a formation before the onset of sustained production from that formation must be evaluated to determine whether that formation meets the tight formation guidelines.[5] We have also held that current-day gas permeability and flow rate characteristics which are the result of years of sustained production do not demonstrate that a formation is a tight formation.[6] In accordance with these findings, the Commission preliminarily found in the Texas-81, Texas-156, and Texas-158 tight formation proceedings that the subject formations did not qualify as tight formations because current-day test values were the result of sustained production and/or water injection and did not represent original reservoir conditions.[7] Accordingly, we find that the PBU tests run from seven months to twelve years after the commencement of sustained production in wells do not sufficiently represent initial conditions found throughout the four sands.

Shell asserts that staff has incorrectly defined the term "*in situ*" permeability, and that the term simply means "in place" permeability that exists at the time that wells are drilled. Shell further asserts that the initial permeabilities of the sands prior to sustained production are immaterial to the delineation of the *in situ* permeabilities. In light of the Commission's previous findings, as discussed above, we find that Shell's assertions are without merit, especially because the records show that permeabilities derived from tests run long after production has commenced do not represent the permeabilities existing at the time the wells were drilled.

To qualify a formation as a tight formation, 271.703(c)(2)(i)(B) requires the jurisdictional agency to show that the expected pre-stimulation stabilized natural gas flow rate, against atmospheric pressure, for wells completed for production in the formation is not expected to exceed the depth-dependent maximum flow rated specified in the table in that section.[8] Our review of the parent Texas-15 Addition 3 record shows that wells completed in the four sands typically reach stabilized flow approximately 100 days after initial production commences. Moreover, the flow rates upon which Texas' determinations are based were calculated with equations that include the permeability values derived from the PBU tests described earlier. Lower permeability values result in lower flow rate values. Therefore, we find that the flow rate values calculated in those wells where the PBU tests were run from seven months to twelve years after production commenced do not represent the initial, pre-stimulation flow rates prior to sustained production.

In addition, our review shows that many of the M, R, and S sands data wells were either never fractured or were not fractured until several months to years after the wells were perforated.[9] Numerous pre-fracturing PBU tests in such wells show flow rates occurring after the 100-day stabilization dates that substantially exceed the stabilized flow rates upon which Texas' determinations are based. Therefore, we find that the record does not contain substantial evidence in support of the reported stabilized flow rates in such wells. We also believe that Texas should examine the actual, metered flow rates at or near the 100th production day in such wells, since measured flow rates are usually more accurate than calculated flow rates.

Under 275.202(a) of the regulations, the Commission may make a preliminary finding, before any determination becomes final, that the determination is not supported by substantial evidence in the record. Based on the foregoing facts, the Commission hereby makes a preliminary finding that Texas' determinations are not supported by substantial evidence in the records upon which they were made. Texas or the applicant may, within 30 days from the date of this preliminary finding, submit written comments and request an informal conference with the Commission pursuant to section 275.202(f) of the regulations. A final Commission order will be issued within 120 days after the issuance of this preliminary finding.

By direction of the Commission.

Lois D. Cashell,

Secretary.

[FR Doc. 94-13977 Filed 6-8-94; 8:45 am]

BILLING CODE 6717-01-P

[Docket No. CP94-565-000, et al.]

Texas Eastern Transmission Corp., et al.; Natural Gas Certificate Filings

June 1, 1994

Take notice that the following filings have been made with the Commission:

1. Texas Eastern Transmission Corp.

[Docket No. CP94-565-000]

Take notice that on May 23, 1994, Texas Eastern Transmission Corporation (Texas Eastern), P.O. Box 1642, Houston, Texas 77251-1642, filed in Docket No. CP94-565-000, an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon certain facilities in the Caillou Island and Lake Raccourci Fields, Timbalier Bay, located in Terrebonne Parish, Louisiana, all as more fully set forth in the application

---

[3] 18 CFR 271.703(c)(2)(i)(A) (1993).

[4] Although the M, S, and T sands also include PBU tests run shortly after well completion, our review of the records and the parent Texas-15 Addition 3 record shows that wells testing below 0.1 md following sustained production can substantially exceed 0.1 md at initial conditions.

[5] See 63 FERC 61,067 (1993) at 61,291. The Commission subsequently affirmed the determination after the applicant submitted data showing that original reservoir conditions also met the Commission's guidelines: 64 FERC 61,225 (1993).

[6] 57 FERC 61,129 (1991).

[7] See 64 FERC ¶ 61,004 (1993), 67 FERC ¶ 61,011 (1994), and 67 FERC ¶ 61,073 (1994). Final orders were not issued in Texas-81 and Texas-156 because the applicants withdrew the applications. Texas-158 is still pending before the Commission.

[8] 18 CFR 271.703(c)(2)(i)(B) (1993). The maximum allowable rates for the M, R, S, and T sands are 600 Mcf/day, 927 Mcf/day, 1,071 Mcf/day, and 1,238 Mcf/day, respectively.

[9] For the M and R Sands, the majority of the data wells were not hydraulically fractured for at least two years after perforation. We believe that this indicates good permeability in these sands.

which is on file with the Commission and open to public inspection.

Texas Eastern proposes to abandon several segments of pipeline which vary in diameter from 4-inch to 12-inch and vary in length from 0.22 miles to 2.45 miles, as well as ten platforms and associated piping, twenty-nine measuring stations, and one barge-mounted compressor.

Texas Eastern, it is said, has determined that there is no current or foreseeable future need for the subject facilities and proposes to abandon the facilities in order to eliminate ongoing maintenance and operating expenses associated with these facilities.

Comment date: June 22, 1994, in accordance with Standard Paragraph F at the end of this notice.

2. Panhandle Eastern Pipe Line Co.

[Docket No. CP94–568–000]

Take notice that on May 25, 1994, Panhandle Eastern Pipe Line Company (Panhandle), P.O. Box 1642, Houston, Texas 77251–1642, filed in Docket No. CP94–568–000, a request pursuant to section 7 of the Natural Gas Act, as amended, and §§ 157.205, 157.212 and 157.216 (18 CFR 157.205, 157.211 and 157.216) of the Commission's regulations under the Natural Gas Act, and Panhandle's authorization in Docket No. CP83–83–000 to: (1) Abandon the existing measurement facility for the Town of Hardesty, Oklahoma, and construct and operate new delivery facilities for the Town of Hardesty, and (2) modify the delivery facilities for the Town of Taloga, Oklahoma. Both towns are existing customers of Panhandle and these modifications are proposed in order to provide adequate service to both towns, all as more fully set forth in the application which is on file with the Commission and open for public inspection.

Panhandle states that the existing delivery points for the towns are located on field gathering lines. It is stated that because of declining wellhead production and pressures on these lines, reliable firm service cannot be guaranteed for the 1994/1995 heating season without a modification to the physical supply source for these delivery facilities. It is further stated that in order to service these customers Panhandle is proposing this modification to interconnect the delivery facilities into Panhandle's transmission system. Panhandle states that the existing pipelines that currently provide service to the towns will continue to be utilized as field gathering lines; therefore, Panhandle is not proposing the abandonment of any pipeline facilities.

Comment date: July 18, 1994, in accordance with Standard Paragraph G at the end of this notice.

3. Texas Eastern Transmission Corp.

[Docket No. CP94–567–000]

Take notice that on May 25, 1994, Texas Eastern Transmission Corporation (Texas Eastern), P.O. Box 1642, Houston, Texas 77251–1642, filed in Docket No. CP94–567–000 an application pursuant to section 7(b) of the Natural Gas Act, for permission and approval to abandon by sale to Newfield Exploration Company (Newfield) Texas Eastern's Line No. 62, a 4.8 mile non-contiguous lateral located in the Eugene Island Area, offshore Louisiana, all as more fully set forth in the application on file with the Commission and open to public inspection.

It is stated that Line No. 62 was constructed pursuant to Texas Eastern's Part 157 blanket construction certificate and that Line No. 62 is wholly owned by Texas Eastern. It is further stated that Line No. 62 is comprised of 4.8 miles of 8 inch pipeline and a related metering facility, that was constructed by Texas Eastern to access gas reserves in the Eugene Island Block 182 "A" area. Texas Eastern avers that Line No. 62 is a non-contiguous lateral which connects to Sea Robin Pipeline Company's pipeline system in Eugene Island Block 197 in offshore Louisiana.

Texas Eastern states that it entered into a gas purchase agreement dated February 28, 1984 (Gas Purchase Agreement), with Exxon Corporation (Exxon). It is further stated that pursuant to the Gas Purchase Agreement, the natural gas reserves located at or near Eugene Island Block 182 "A" were dedicated to Texas Eastern for its system supply. It is stated that on November 1, 1992; Newfield acquired from Exxon the natural gas reserves in Eugene Island Block 182 "A", and that Texas Eastern and Newfield, subsequently, mutually agreed to terminate the Gas Purchase Agreement on June 16, 1993.

Texas Eastern stated that it has transported, on an interruptible basis, the Eugene Island Block 182 "A" reserves on Line No. 62 for various shippers who purchase Newfield's reserves, since termination of the Gas Purchase Agreement. Therefore, Texas Eastern is requesting permission and approval to abandon by sale, Line No. 62 to Newfield for $650,000. However, it is stated that the Offer to Purchase between Texas Eastern and Newfield is contingent on Texas Eastern's receipt of the Commission authorization requested herein by July 1, 1994.

Texas Eastern submits that abandonment of Line No. 62 is in the public interest since such abandonment by sale to Newfield, will give Newfield an economic alternative to installing new and duplicative offshore facilities, and that abandonment by sale limits the environmental impact associated with duplicative facilities.

It is further asserted that the abandonment by sale to Newfield, will also allow Texas Eastern to avoid costs associated with the physical abandonment of Line No. 62, and the abandonment of the lateral will eliminate Texas Eastern's ongoing operation and maintenance costs associated with Line No. 62.

Comment date: June 22, 1994, in accordance with Standard Paragraph F at the end of this notice.

4. Equitrans, Inc.

[Docket No. CP94–569–000]

Take notice that on May 26, 1994, Equitrans, Inc. (Equitrans), 3500 Park Lane, Pittsburgh, Pennsylvania 15275, filed a request with the Commission in Docket No. CP94–569–000 pursuant to Sections 157.205 and 157.212(b) of the Commission's Regulations under the Natural Gas Act (NGA) for authorization to install a delivery tap under Equitrans' blanket certificate issued in Docket No. CP83–508–000 and CP86–676, pursuant to Section 7 of the NGA, all as more fully set forth in the request which is open to the public for inspection

Equitrans proposes to install a delivery tap on its H–106 line located in the City of Waynesburg, Greene County, Pennsylvania. Equitrans states that the tap would be instituted for deliveries to Equitable, an affiliate of Equitrans, to permit retail gas service of approximately 1 Mcf on a peak day to Howard Dohn of Waynesburg, Pennsylvania. Equitrans further states it would offer the proposed service within the existing certificated transportation entitlement of Equitable under Equitrans' Rate Schedule FTS.

Equitrans states that it has sufficient capacity to accomplish the proposed deliveries without detriment to its other existing customers.

Comment date: July 18, 1994, in accordance with Standard Paragraph G at the end of this notice.

5. K N Interstate Gas Transmission Co.

[Docket No. CP94–571–000]

Take notice that on May 27, 1994, K N Interstate Gas Transmission Co. (K N Interstate), P.O. Box 281304, Lakewood, Colorado 80228, filed in Docket No.

CP94–571–000 a request pursuant to §§ 157.205 and 157.212 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.212) for authorization to install and operate eight new delivery taps and appurtenant facilities under K N Interstate's blanket certificate issued in Docket No. CP83–140–000, *et al.*, pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

K N Interstate proposes to install eight new delivery taps in Thomas and Wichita Counties, Kansas; Adams, Furnas, Gosper and York Counties, Nebraska; and Fremont County, Wyoming, under existing transportation agreements between K N Interstate and K N Energy, Inc.; K N Interstate and Peoples Natural Gas Co.; and K N Interstate and Northern Gas Co. It is stated that the additional delivery points will facilitate the delivery of natural gas to direct retail customers. It is stated that the total cost of installing the eight delivery taps will be $148,550.

Comment date: July 18, 1994, in accordance with Standard Paragraph G at the end of this notice.

Standard Paragraphs

F. Any person desiring to be heard or to make any protest with reference to said application should on or before the comment date, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and/or permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

[Docket No. IR–15 –000]

Corn Belt Power Cooperative; Petition for Waiver

June 3, 1994.

Notice is hereby given that the Corn Belt Power Cooperative (Corn Belt) has filed on May pursuant to § 292.402 of sion's Regulations r waiver of certain oblig ed under §§ 292.303(a) (b) of the Commission s (18 CFR Part 292 Subpart plement section 210 o Utility Regulatory P 1978 (PURPA). Cor uly implemente sion's PURPA Regulations RPA implementa May 27, 1994.

Corn Belt ver on behalf of Boone Va perative, Butler Cour Cooperative v Electric Cooperative anklin Rural Electric Coo en Rural Electric Co dy County Rural Elect Hancock County Ru erative, Midland Power Cooperative, Humbolt County Rural Electric Cooperative, Iowa Lakes Electric Cooperative, Sac County Rural Electric Cooperative and Wright County Rural Electric Cooperative (Members). Specifically, Corn Belt seeks a waiver of the requirement contained in 18 CFR 292.303(a) which would require these member electric cooperatives to purchase power made available from any qualifying facility (QF) and of the obligation in 18 CFR 292.303(b) which would require Corn Belt to make sales to any QF. The applicant believes that purchases by the Members from QFs or sales by Corn Belt to QFs are unnecessary to encourage cogeneration or small power production and are not otherwise required by section 210 of PURPA.

Any person desiring to be heard or objecting to the granting of the petition for this waiver of the Commission's Regulations should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests must be filed within 30 days after the date of publication of this notice in the **Federal Register** and must be served on the applicant. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. RP94–266–000]

ANR Pipeline Co., Proposed Changes in FERC Gas Tariff

June 3, 1994.

Take notice that on May 31, 1994, ANR Pipeline Company (ANR) tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, the following tariff sheets, with an effective date of June 1, 1994:

Fourth Revised Sheet No. 9
Fourth Revised Sheet No. 13
Fourth Revised Sheet No. 16
Fourth Revised Sheet No. 18

ANR states that the above-referenced tariff sheets are being filed pursuant to the approved recovery mechanism of its tariff to implement recovery of $8.6 million of costs that are associated with its obligations to Dakota Gasification Company (Dakota). ANR proposes a reservation fee surcharge applicable to its part 284 firm transportation customers to collect ninety percent (90%) of the Dakota costs and an adjustment to the maximum base tariff rates of Rate Schedule ITS shippers to recover the remaining ten percent (10%). ANR has requested that the Commission accept the tendered sheets to become effective June 1, 1994.

ANR states that all of its Volume No. 1 customers and interested State Commissions have been mailed a copy of this filing.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426 in accordance with rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 385.214). All such motions or protests should be filed on or June 10, 1994. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this application are on file with the Commission and area available for public inspection.

Colorado Interstate Gas Co.; Tariff Filing

June 3, 1994.

Take notice that on June 1, 1994, Colorado Interstate Gas Company (CIG) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, Fifth Revised Sheet No. 11, reflecting an increase in the fuel reimbursement percentage for Lost, Unaccounted-For and Other Fuel Gas from 0.49% to 0.78% effective July 1, 1994.

CIG states that copies of this filing have been served on CIG's jurisdictional customers and public bodies, and that the filing is available for public inspection at CIG's offices in Colorado Springs, Colorado.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§ 385.211 and 385.214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214 and 385.211). All such petitions or protests should be filed on or before June 10, 1994. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

BILLING CODE 6717–01–M

[Docket No. CP94–573–000]

East Tennessee Natural Gas Co.; Request Under Blanket Authorization

June 3, 1994.

Take notice that on May 31, 1994, East Tennessee Natural Gas Company (East Tennessee), P.O. Box 2511, Houston, Texas 77252, filed in Docket No. CP94–573–000 a request pursuant to §§ 157.205 and 157.212 of the Commissions' Regulations under the Natural Gas Act (18 CFR 157.205, 157.212) for authorization to establish a new delivery point under East Tennessee's blanket certificate issued in Docket No. CP82–412–000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

East Tennessee proposes to establish a new delivery point for its firm transportation customer, Elk River Public Utility District (Elk River). In order to establish this point East Tennessee proposes to remove an existing Sewannee Sands meter and renovate the existing Sewannee meter number 75–9088. East Tennessee will install the necessary cross-over piping and riser to deliver gas to Elk River in Grundy County, Tennessee and will be located on an existing East Tennessee right-of-way. East Tennessee will install, own, operate and maintain all facilities and will be reimbursed 100% for its construction. It is stated that the proposal will not result in a change in authorized quantities of gas to be delivered to Elk River.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for

authorization pursuant to section 7 of the Natural Gas Act.

BILLING CODE 6717–01–M

[Docket No. RP94–259–000]

El Paso Natural Gas Co.; Tariff Filing

June 3, 1994.

Take notice that on May 31, 1994, El Paso Natural Gas Company (El Paso), tendered for filing and acceptance pursuant to part 154 of the Federal Energy Regulatory Commission's (Commission) Regulations Under the Natural Gas Act and section 31 of the General Terms and Conditions of El Paso's Second Revised Volume No. 1–A Tariff, certain tariff sheets.

El Paso states section 31.4(b) of its tariff provides the mechanism by which El Paso will adjust each Shipper's Monthly Amortized Amount for interest calculated on the unrecovered balance of its stranded investment cost in Washington Ranch. The tariff further provides that El Paso will adjust its rates for any differences resulting from the use of estimated interest versus actual interest and such differences shall be added to or deducted from the estimated interest for the upcoming six (6) month period.

El Paso states that no adjustment for differences in the estimated interest rate for the period January 1, 1994 through June 30, 1994 is necessary since the interest rate did not change.

El Paso states the Monthly Amortized Amount has been adjusted for estimated interest. The estimated interest has been calculated pursuant to § 154.67(c)(2)(iii) of the Commission's Regulations, for the period July 1994 through December 1994, on the unrecovered balance of the stranded investment costs. El Paso states that the revised Washington Ranch Reservation Surcharges and resulting Monthly Billed Amounts are shown on the tendered tariff sheets.

El Paso requests that the tendered tariff sheets be accepted for filing and permitted to become effective July 1, 1994.

El Paso states that copies of the filing were served upon all of El Paso's interstate pipeline system transportation customers and interested state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE. Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before June 10, 1994.

Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

BILLING CODE 6717–01–M

[Docket No. FP94–270–000]

Equitrans, Inc.; Proposed Changes in FERC Gas Tariff

June 3, 1994.

Take notice that on June 1, 1994, Equitrans, Inc. (Equitrans) tendered for filing as part of its FERC Gas Tariff First Revised Volume No. 1, the following proposed tariff sheets, with a proposed effective date of July 1, 1994:

Original Sheet No. 9
Original Sheet No. 10–19

Equitrans states that it is proposing to recover its Account No. 191 costs attributable to gas purchases made prior to September 1, 1993, that were incurred as a consequence of Equitrans providing a bundled merchant function. Equitrans states that this filing is being made to recover known and measurable purchase gas costs which have been incurred and booked in Account No. 191 (Account No. 191 Costs) as determined and allocated in accordance with the procedures set forth in § 27.2 of the General Terms and Conditions of Equitrans' FERC Gas Tariff as approved and made effective by the Commission.

Equitrans states that the total amount to be direct billed by this filing under § 27.2 (iii) of the tariff is $4,257,231.37. This amount reflects all unrecovered Account No. 191 Costs which have not been previously collected, plus interest calculated in accordance with § 154.305 of the Commission's Regulations as detailed in Schedule C2 hereto. The unrecovered Account No. 191 Costs include actual costs of gas purchased through August 31, 1993, plus adjustments booked to Account No. 191. Also included are anticipated carrying charges of $24,422.69 through the projected payment date of July 20, 1994.

Equitrans states that the balance reflected in its Account No. 191, does not reflect refunds owed to Equitrans from Texas Eastern Transmission Corporation pursuant to the Commission's "Order Approving Settlement" issued May 12, 1994 in Docket No. RP85–177, et al. (67 FERC ¶ 61,170), as well as certain other refunds which are due to Equitrans from various pipelines, producers, and marketers Pursuant to § 27.2(ii) of Equitrans' FERC Gas Tariff, Equitrans states that it will make subsequent section 4 filings to flow through refunds related to these matters to Equitrans' former sales customers on the same basis as Account No. 191 costs are allocated herein.

Any person desiring to be heard or protest this application should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before June 10, 1994. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

BILLING CODE 6717–01–M

[Docket No. RP94–275–000]

Northern Natural Gas Co.; Proposed Changes in FERC Gas Tariff

June 3, 1994.

Take notice that on June 1, 1994, Northern Natural Gas Company (Northern), tendered for filing changes in its FERC Gas Tariff, Fifth Revised Volume No. 1.

Northern states that the filing revises the current GSR surcharge and implements a GSR-Reverse Auction (R.A.) surcharge, both of which are designed to recover Northern's gas supply realignment costs. Therefore, Northern has filed Eighth Revised Sheet Nos. 50 and 51 to revise/implement these surcharges effective July 1, 1994.

Northern states that copies of this filing were served upon the Company's customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C., 20426, in accordance with sections 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before June 10, 1994. Protests will be considered by the Commission in determining the appropriate proceeding, but will not serve to make protestant a party to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for inspection.

BILLING CODE 6717–01–M

[Docket No. GT94–48–000]

Northwest Pipeline Corp.; Proposed Changes in FERC Gas Tariff

June 3, 1994.

Take notice that on May 26, 1994, Northwest Pipeline Corporation (Northwest) tendered for filing and acceptance termination notices for terminated service agreements with the following customers:

Rate Schedule ODL–1 Customers

Cascade Natural Gas Corporation
Northwest Natural Gas Company
Washington Natural Gas Company
The Washington Water Power Company

Rate Schedule DS–1 Customers

City of Buckley, Washington
Greeley Gas Company
Western Gas Supply

Rate Schedule SGS–1

Greeley Gas Company

Northwest states that the Commission issued an order on October 1, 1993, in Docket No. RS92–69, *et al.*, accepting Northwest's tariff sheets with eliminated all sales service on the Northwest system. Accordingly, Northwest states that it has terminated sales service to the above listed Rate Schedules ODL–1, DS–1 and SGS–1 customers as of November 1, 1993.

Northwest states that termination notices along with the actual volume and revenue data for the twelve months immediately preceding the date of each termination of service has been included in its filing.

Northwest states that a copy of this filing has been served upon all customers mentioned above who were parties to these rate schedules and upon affected states regulatory agencies.

Any person desiring to be heard or protest said filing should file a motion to intervene or protest with Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§ 385.214 and 395.211 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before June 10 1994. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

Northern Natural Gas Co.; Proposed Changes in FERC Gas Tariff

June 3, 1994.

Take notice that on June 1, 1994, Northern Natural Gas Company (Northern), tendered for filing changes in its FERC Gas Tariff, Fifth Revised Volume No. 1.

Northern states that the filing revises the current Stranded Account No. 858 and Stranded Account No. 858–R.A. surcharges, both of which are designed to recover costs incurred by Northern related to its contracts with third-party pipelines. Therefore, Northern has filed Seventh Revised Sheet Nos. 50 and 51 to revise these surcharges effective July 1, 1994.

Northern states that copies of this filing were served upon the Company's customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before June 10, 1994. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Pacific Gas Transmission Co.; Change in Rates

June 3, 1994.

Take notice that on June 1, 1994, Pacific Gas Transmission Company (PGT) tendered for filing and acceptance proposed tariff sheets to be a part of its FERC Gas Tariff, First Revised Volume No. 1–A and Second Revised Volume No. 1. PGT requests these tariff sheets become effective on July 1, 1994.

PGT further states that it is submitting these tariff sheets to comply with paragraphs 37 and 23 of the terms and conditions of First Revised Volume No. 1–A and Second Revised Volume No. 1, respectively of its FERC Gas Tariff, "Adjustment for Fuel, Line Loss and Other Unaccounted For Gas Percentages". These tariff changes reflect the new fuel and line loss surcharge percentage to become effective July 1, 1994. Also included, as required by paragraphs 37 and 23, are workpapers showing the derivation of the current fuel and line loss percentage in effect for each month the fuel tracking mechanism has been in effect.

PGT further states that a copy of this filing has been served on PGT's jurisdictional customers and interested state regulatory agencies.

Any person desiring to be heard or protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before June 10, 1994. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room

[Docket No. RP94-211-001]

Pacific Gas Transmission Co.; Notice of Compliance Filing

June 3, 1994.

Take notice that on June 1, 1994, Pacific Gas Transmission Company (PGT) submitted for filing pursuant to section 4 of the Natural Gas Act and § 154.63 of the Commission's Regulations thereunder, certain revised tariff sheets in compliance with the Commission's Order in this proceeding dated May 20, 1994. PGT states that the revised tariff sheets reflect the Commission's Order to add language to the Transportation General Terms and conditions of PGT's FERC Gas Tariff, First Revised Volume No. 1-A giving Releasing Shippers an option of selecting less stringent credit worthiness criteria for parcels of one year or less of service through PGT's Capacity Release Program contained in paragraph 28. PGT requests these tariff sheets become effective on May 21, 1994.

PGT states that copies of this filing has been served on PGT's jurisdictional customers and interested state commissions and all parties of record.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with § 385.211 of the Commission's Rules of Practice and Procedure. All such protests should be filed on or before June 10, 1994. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

Panhandle Eastern Pipe Line Co.; Technical Conference

June 3, 1994.

Take notice that a technical conference has been scheduled in the above-captioned proceedings for Thursday, June 16, 1994 at 10 a.m., in a hearing room at the offices of the Federal Energy Regulatory Commission, 810 First Street, NE., Washington, DC 20426.

The purpose of this conference is to allow the participants to discuss issues related to Panhandle Eastern Pipe Line Company's general refund liability in Docket No. RP88-262, and its liability for refunds arising from its customers' conversions from firm sales service to firm transportation service (the D-2 refund issue).

In particular, the parties should be prepared to discuss Panhandle's draft revised refund report circulated to parties in this proceeding on April 29, 1994, and Panhandle's refund liability, as a result of D-2 Billing after conversions, for the period prior to the effective date of the Docket No. RP88-262 rates.

All interested persons and staff are permitted to attend.

BILLING CODE 6717-01-M

[Docket No. TM94-4-5-000]

Midwestern Gas Transmission Company; Rate Filing

June 3, 1994.

Take notice that on May 31, 1994, Midwestern Gas Transmission Company (Midwestern), tendered for filing as part of its FERC Gas Tariff, Second Revised Volume No. 1, Second Revised Tariff Sheet No. 7 for a proposed effective date of July 1, 1994, pursuant to Article I of the Stipulation and Agreement filed by Midwestern in Docket No. RP91-78 and accepted by the Commission on July 25, 1992.

Midwestern states that this filing reflects revisions in the recovery of take-or-pay and contract reformation costs billed to Midwestern by its upstream supplier, Tennessee Gas Pipeline Company (Tennessee) pursuant to section XXX of Tennessee's General Terms and Conditions.

Midwestern further states that the revised demand surcharge amount reflects a reduction to zero from the previously effective demand surcharge amount, which was filed on December 1, 1993, in Docket No. TM94-2-5. The current volumetric charge will not change.

Midwestern states that copies of the filing have been mailed to all of its jurisdictional customers and affected state regulatory commissions.

Any person desiring to be heard or to make any protest with reference to said filing show file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules and Regulations. All such protests should be filed on or before June 10, 1994. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file and available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RP94-260-000]

Natural Gas Pipeline Company of America; Proposed Changes in FERC Gas Tariff

June 3, 1994

Take notice that on May 31, 1994, Natural Gas Pipeline Company of America (Natural) tendered for filing as part of its FERC Gas Tariff, Sixth Revised Volume No. 1, Fifth Revised Sheet No. 25, to be effective July 1, 1994.

Natural states that the filing is submitted to commence recovering, effective July 1, 1994, $1,952,840 net premium paid for coal gasification supplies which is part of its gas supply realignment program.

Natural requested whatever waivers may be necessary to permit the tariff sheet as submitted herein to become effective July 1, 1994.

Natural states that copies of the filing are being mailed to Natural's jurisdictional customers and interested state regulatory agencies.

Natural states that it has reached a tentative settlement with members of the Natural Customer Group (NCG) regarding recovery from them of GSR costs. Natural suggests that members of the NCG may preserve their rights by filing an abbreviated protest which may be supplemented if the settlement is not approved.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules and Regulations. All such protests should be filed on or before June 10, 1994. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

Lois D. Cashell,

Secretary.

[FR Doc. 94-13986 Filed 6-8-94; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. CP94-578-000]

NorAm Gas Transmission Company; Application

June 3, 1994.

Take notice that on June 1, 1994, NorAm Gas Transmission Company (NGT), a subsidiary of NorAm Energy Corporation, whose main office is located at 1600 Smith Street, Houston, Texas 77002, filed an abbreviated application pursuant to section 7(b) of the Natural Gas Act (NGA), as amended and part 157 of the Federal Energy Regulatory Commission's (Commission) Regulations thereunder (18 CFR 157.7 and 157.18), requesting issuance of a Commission order authorizing NGT (formerly Arkla Energy Resources Company) to abandon an existing transportation and exchange transaction with Tennessee Gas Pipeline Company. NGT's proposal is more fully set forth in the application which is on file with the Commission and open to public inspection.

This transaction provided for Tennessee to receive for the account of NGT certain quantities of gas produced in Mississippi Canyon Block 148, Offshore Louisiana, and to transport such quantities to NGT at various points of delivery.

This transportation and exchange service was previously certificated on November 15, 1994, under Docket No CP84-248-000 (29 FERC ¶ 61,184) and, according to NGT and Tennessee, has been inactive, is no longer necessary and has been terminated by the written consent of both parties. No facilities will be abandoned as a result of the abandonment of this service. As such, certificate authorization is no longer necessary.

NGT states that, although the contract between Tennessee and NGT was filed by Tennessee as part of Tennessee's tariffs, due to administrative oversight the contract was never included in NGT's tariffs.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 24, 1994, file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceedings. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein or if the Commission on its own review of the matter, finds that a grant of the certificate for the proposal is required by the public convenience and necessity. If the Commission believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be necessary for NGT to appear or be represented at the hearing.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RP94-272-000]

NorAm Gas Transmission Company; Filing

June 3, 1994.

Take notice that on June 1, 1994, NorAm Gas Transmission Company (NGT) tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1, the following revised tariff sheets, with a proposed effective date of July 1, 1994:

Second Revised Sheet No. 4.3
Alternate Second Revised Sheet No. 4.3

NGT states that these revised tariff sheets are filed in compliance with § 5.7(c)(ii)(2)(B), First Revised Sheet Nos. 107 and 108 of NGT's tariff.

NGT states that pursuant to said tariff provision, the proposed tariff sheets adjust NGT's cashout balancing revenue credit for the period January through March 1994.

Any person desiring to be heard or protest the proposed tariff sheets should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 214 and 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.214, 385.211). All such motions or protests should be filed on or before June 10, 1994. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. RP94-269-000]

Southern Natural Gas Co.; GSR Cost Recovery Filing

June 3, 1994.

Take notice that on May 31, 1994, Southern Natural Gas Company (Southern) submitted for filing as part of its FERC Gas Tariff, Seventh Revised Volume No. 1, the following tariff sheets to reflect an increase in GSR billing units effective June 1, 1994, due to new transportation commitments under Rate Schedule FT:

Eighth Revised Sheet No. 15

Eighth Revised Sheet No. 17
Sixth Revised Sheet No. 29
Sixth Revised Sheet No. 30
Sixth Revised Sheet No. 31

Southern states that copies of the filing were served upon Southern's customers and interested state commissions

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before June 10, 1994. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of Southern's filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717–01–M

[Docket No. RP94–264–000]

Southern Natural Gas Co., GSR Cost Recovery Filing

June 3, 1994.

Take notice that on May 31, 1994, Southern Natural Gas Company (Southern) set forth its revised demand surcharges and revised interruptible rates that will be charged in connection with its recovery of GSR costs associated with the payment of price differential costs under realigned gas supply contracts or contract buyout and transactional costs associated with continuing realignment efforts during the period February 1, 1994 through April 30, 1994. These GSR costs have arisen as a direct result of customers' elections during restructuring to terminate their sales entitlements under Order No. 636. Southern tendered for filing as part of its FERC Gas Tariff, Seventh Revised Volume No. 1, the following tariff sheets, with the proposed effective date of July 1, 1994:

Ninth Revised Sheet No. 15
First Alternate Ninth Revised Sheet No. 15
Ninth Revised Sheet No. 17
First Alternate Ninth Revised Sheet No. 17
Seventh Revised Sheet No. 18
First Alternate Seventh Revised Sheet No. 18

Southern states that copies of the filing were served upon Southern's customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before June 10, 1994. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of Southern's filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717–01–M

[Docket No. RP94–261–000]

Tennessee Gas Pipeline Co., Change Pursuant to Tariff Adjustment Provisions

June 3, 1994.

Take notice that on May 31, 1994, Tennessee Gas Pipeline Company (Tennessee) filed to revise its recovery of take-or-pay and contract reformation costs pursuant to Article XXV of the General Terms and Conditions of Volume One of its FERC Gas Tariff. As part of the filing, Tennessee tendered for filing as part of its FERC Gas Tariff, Fifth Revised Volume No. 1, the following revised tariff sheets to be effective July 1, 1994:

Second Revised Sheet Nos. 38–42

Tennessee states that the purpose of the filing is to reflect the recovery of an additional $68,574 of buyout/buydown costs, including interest, which are in the nature of excess royalty settlement payments. Tennessee's total additional costs of $164,132 have been allocated under an equitable sharing formula of 50% absorption-41.8% demand-8.2% volumetric in conformance with the Stipulation and Agreement approved by Order of the Commission on June 25, 1992, in Docket Nos. RP86–119, *et al.*

Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426 in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before June 10, 1994. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Secretary.

[FR Doc. 94–13998 Filed 6–8–94; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. RP94–262–000]

Texas Eastern Transmission Corp.; Proposed Changes in FERC Gas Tariff

June 3, 1994

Take notice that on May 31, 1994, Texas Eastern Transmission Corporation (Texas Eastern) filed a limited application pursuant to section 4 of the Natural Gas Act, 15 U.S.C. 717c (1988), and the Rules and Regulations of the Federal Energy Regulatory Commission (Commission) promulgated thereunder to recover gas supply realignment costs (GSR Costs) incurred as a consequence of Texas Eastern's implementation of Order No. 636.

Texas Eastern states it is filing to recover GSR Costs from customers in accordance with the procedures set forth in § 15.2(C) of the General Terms and Conditions of Texas Eastern's FERC Gas Tariff, Sixth Revised Volume No. 1, and in accordance with the Commission's order issued April 22, 1993 (April 22 Order), September 17, 1993 (September 17 Order) and December 17, 1993 (December 17 Order) in Docket Nos. RS92–11–000, RS92–11–003, RS92–11–004, RP88–67–000, et al., (Phase I/Rates), and RP92–234–001. Texas Eastern states that Order No. 636 and the April 22, September 17 and December 17 Orders permit Texas Eastern to file this limited Section 4 filing to continue recovery of its GSR Costs.

Texas Eastern states that the filing includes known and measurable GSR Costs incurred since the date of its previous quarterly filing, plus carrying charges through May 31, 1994, totalling $29,414,633. Additional interest of $676,421 at the current FERC annual rate of 6.00% is added for carrying charges from June 1, 1994 to the projected payment dates. The proposed effective date of the filing is July 1, 1994.

Texas Eastern states that copies of the filing were served on firm customers of

Texas Eastern and interested state commissions, as well as current interruptible customers.

Inasmuch as Texas Eastern's global settlement has been approved, without modification, by the Commission and upon its effective date such settlement would resolve any issues that may be presented by the instant proceeding, Texas Eastern requests that the Commission not establish any proceedings in the instant docket prior to the effective date of Texas Eastern's global settlement.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before June 10, 1994. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 94–13999 Filed 6–8–94; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. RP94–263–000]

Texas Eastern Transmission Corp., Proposed Changes in FERC Gas Tariff

June 3, 1994.

Take notice that on May 31, 1994, Texas Eastern Transmission Corporation (Texas Eastern) tendered for filing as part of its FERC Gas Tariff, Sixth Revised Volume No. 1, the following tariff sheets, with a proposed effective date on July 1, 1994:

Original Sheet No. 186
Original Sheet No. 187
Original Sheet No. 188
Sheets Nos. 189–199

Texas Eastern states that the above tariff sheets are filed pursuant to section 15.2(B) of the General Terms and Conditions of Texas Eastern's FERC Gas Tariff, Sixth Revised Volume No. 1. Texas Eastern states that the purpose of this filing is to refund a net overrecovery in its Account No. 191 attributable to gas purchases made prior to June 1, 1993, the date of implementation of Order No. 636 on Texas Eastern's system. Texas Eastern states that the overrecovery resulted due to a large refund payment from Koch Gateway Pipeline Company (Koch, formerly United Gas Pipe Line Company). Texas Eastern states that the refund payment, totalling $2,771,946.90 results in a credit balance as of April, 1994, of $2,737,007, which Texas Eastern proposes in the instant filing to refund to its customers pursuant to its FERC Gas Tariff, plus carrying charges calculated in accordance with Section 154.305 of the Commission's regulations.

Texas Eastern states that under the terms of its Order No. 636 Global Settlement in Docket No. RP85–177–119, et al. (Settlement), approved by order issued May 12, 1994, it has agreed to refund all amounts collected under its account No. 191 direct billings that exceed a cap of $121 million. Texas Eastern states that while the Settlement is not yet effective, the Commission's approval of the instant proposal of a direct billing refund will reduce the amount of the refunds payable under the Settlement when it becomes effective, by providing for disposition of the instant refund amounts at an earlier date. Texas Eastern states that the allocation methodology for the instant direct billing refund is the same as provided in the Settlement.

Texas Eastern states that copies of its filing have been served on all firm customers of Texas Eastern and applicable state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before June 10, 1994. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on a file with the Commission and are available for public inspection in the public reference room.

Transwestern Pipeline Co.; Reports of Refunds

June 3, 1994.

Take notice that on May 27, 1994, Transwestern Pipeline Company (Transwestern) tendered for filing two refund reports. Transwestern states that the reports document refunds of amounts pertaining to IT revenue credit and firm reservation charges due customers under Transwestern's settlement in Docket No. RP93–34.

Transwestern states that it is filing the refund reports pursuant to Articles III and IV of the Joint Stipulation and Agreement filed on November 23, 1993, in the above referenced docket. Additionally, in accordance with

---

[1] Order No. 497, 53 FR 22139 (June 14, 1988), III FERC Stats. & Regs. ¶ 30,820 (1988); Order No. 497–A, *order on rehearing*, 54 FR 52781 (December 22, 1989), III FERC Stats. & Regs. 30,868 (1989); Order No. 497–B, *order extending sunset date*, 55 FR 53291 (December 28, 1990), III FERC Stats. & Regs. ¶ 30,908 (1990); Order No. 497–C, *order extending sunset date*, 57 FR 9 (January 2, 1992), III FERC Stats. & Regs. ¶ 30,934 (1991), rehearing denied, 57 FR 5815 (February 18, 1992), 58 FERC ¶ 61,139 (1992); Tenneco Gas v. FERC (affirmed in part and remanded in part), 969 F. 2d 1187 (D.C. Cir. 1992), Order No. 497–D, *order on remand and extending sunset date*, III FERC Stats. & Regs. Preambles ¶ 30,958 (December 4, 1992), 57 FR 58978 (December 14, 1992); Order No. 497–E, *order on rehearing and extending sunset date*, 59 FR 243 (January 4, 1994), 65 FERC ¶ 61,381 (December 23, 1993), Order No. 497–F (*order denying rehearing and granting clarification*), 66 FERC ¶ 61,347 (March 24, 1994).

§ 154.67(c)(2)(iii) of the Commission's Regulations, Transwestern states that interest is included on the refund amounts.

Any person desiring to protest said filings should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with § 385.211 of the Commission's Regulations. All such protests should be filed on or before June 10, 1994. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717–01–M

[Docket No. CP94–213–001]

Transwestern Pipeline Co.; Amendment

June 3, 1994.

Take notice that on May 27, 1994, Transwestern Pipeline Company (Transwestern), 1400 Smith Street, Houston, Texas 77002, submitted an amendment to its abbreviated application filed February 3, 1994, in Docket No. CP94–213–000. Transwestern's amendment seeks authorization for an abandonment by sale to Mewbourne Oil Company (Mewbourne) of certain small diameter pipelines, meter stations and related facilities located in Lipscomb County, Texas and Ellis County, Oklahoma, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Transwestern states that the submitted amendment revises the original February 3, 1994, application in three respects: (1) Net book value amount for the South Higgins facilities and the Trenfield facilities has been changed from $252,950 to $369,127 as of December 31, 1993. The original application inaccurately stated that the sales price was equal to the net book value of the facilities. The sales price to Mewbourne will remain at $252,950; (2) Journal entries for Account 108 and 101 on Exhibit Y of the original application inaccurately showed the original cost of the facilities to be $252,950 instead of $1,123,220. As revised, Transwestern feels Exhibit Y is consistent with the accounting treatment applicable to the abandonment by sale of a non-operating unit and will not reflect a gain or loss on the sale of these facilities in its accounting records; and, (3) Exhibit Z–1 of the original application incorrectly listed the Squire No. 1 well rather than the Squire No. 2 well, and the length of pipe of the subject facilities. With respect to the Trenfield facilities, the following line and segments should be revised as follows: MC–2–02 should be 1,408 feet rather than 9,500 feet; MC–2–09 should be 10,788 feet which was previously not included; and MC–2–11 should be 5,600 feet rather than 5,131 feet.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 10, 1994, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 or 385.214) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party in any proceeding herein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Transwestern to appear or to be represented at the hearing.

BILLING CODE 6717–01–M

[Docket No. RP94–267–000]

Wyoming Interstate Company, Ltd.; Notice of Proposed Changes in FERC Gas Tariff

June 3, 1994.

Take notice that on May 31, 1994, Wyoming Interstate Company, Ltd. (WIC), tendered for filing proposed changes in its FERC Gas Tariff, First Revised Volume No. 1 and Second Revised Volume No. 2. WIC states that the proposed changes would increase revenues from jurisdictional transportation service by $3.6 million based on the 12-month period ending February 28, 1994, as adjusted. WIC requested an effective date of July 1, 1994.

WIC states that the rates filed herewith are designed to enable WIC to recover its jurisdictional cost of service.

WIC states that copies of WIC's filing have been served on WIC's jurisdictional transportation customers.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington DC 20426, in accordance with 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before June 10, 1994. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

Agency Information Collection Activities Under OMB; Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The

ICR describes the nature of the information collection and its expected cost and burden.

DATES: Comments must be submitted on or before July 11, 1994.

FOR FURTHER INFORMATION: For further information, or to obtain a copy of this ICR, contact Sandy Farmer at EPA, (202) 260–2740.

SUPPLEMENTARY INFORMATION:

Office of Prevention, Pesticides and Toxic Substances

Title: Notice of Supplemental Distribution of a Registered Pesticide Product. (*EPA ICR No.:* 0278.05; *OMB No.:* 2070–0044). This is a request for extension of the expiration date of a currently approved collection with no changes. The current clearance expires on January 31, 1995.

Abstract: Under section 3(e) of the Federal Insecticide, Fungicide, Rodenticide Act (FIFRA), pesticide registrants may distribute or sell their registered pesticide product under another person's name. Such distribution and sale is termed "supplemental distribution". To participate in this program, registrants must notify the Agency each time they make their product available for supplemental distribution. To notify the Agency, registrants must complete and submit *EPA Form No.:* 8570–5, *titled:* "Notice of Supplemental Distribution of a Registered Pe icide Product". The form requests following information: a) EPA regist number of the product to b buted; b) distributor company nu c) name and address of the basic registrant; e) name to be used stributed product; f) name and the distributor; g) signature the appropriate distribut officer and date signed; a e and title of the appropriat ci registrant company signed.

records to comply with the NSPS. Manufacturers must give 30 days advance notice of scheduled certification testing, report the results of the certification tests, and submit a statement biennially certifying that no changes have been made to the model line that affect emission performance. Manufacturers must affix labels to wood heaters and must prepare an owner's manual in accordance with the regulations. Testing laboratories must apply to EPA for accreditation and report the results of the initial and annual proficiency tests. Both manufacturers and laboratories are required to keep records pertaining to certification tests.

EPA uses the information supplied by the manufacturers to ensure that best demonstrated technology is being applied to reduce emissions from wood heaters and to ensure compliance with the certification procedures and emission standards. EPA uses the information from the testing laboratories to grant or deny accreditation and to assist in enforcement and compliance activities. Commercial owners are required to maintain names and addresses of previous owners of used wood heaters. This information is necessary to prevent the sale of new, uncertified wood stoves under a claim that they are exempt used stoves.

Burden Statement: The public reporting burden for this collection of information is estimated to average 1 hour per response for reporting, and 5 hours per recordkeeping annually. This estimate incl es the time needed to review instr ons, search existing data sources, gat and maintain the data needed, and plete and review the collection o ormation.

Respond Manufacturers, distributors retailers of residential wood heate d laboratories that conduct ce tion tests.

Estimate of Respondents: 54 for reporting a for recordkeeping.

Estimate of Responses per Respondent

Estimat l Annual Burden on Respondent: 75 hours.

Frequen ollection: On occasion for test res nually for laboratory proficiency and biennially for a manufact tification that no changes h made t model line that a ssion pe mance.

Availability of FY 93 Grant Performance Reports for Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability of grantee performance evaluation reports.

SUMMARY: EPA's grant regulations (40 CFR 35.150) require the Agency to evaluate the performance of agencies which receive grants. EPA's regulations for regional consistency (40 CFR 56.7) require that the Agency notify the public of the availability of the reports of such evaluations. EPA recently performed end-of-year evaluations of eight state air pollution control programs (Alabama Department of Environmental Management, Florida Department of Environmental Protection, Georgia Environmental Protection Division, Kentucky Department for Environmental Protection, Mississippi Bureau of Pollution Control, North Carolina Department of Environment, Health, and Natural Resources, South Carolina Department of Health and Environmental Control and Tennessee Department of Conservation and Environment) and 16 local programs (Knox County Department of Air Pollution Control, Tn—Chattanooga-Hamilton County Air Pollution Control Bureau Tn—Memphis-Shelby County Health Department, Tn—Nashville-Davidson County Metropolitan Health Department, Tn—Jefferson County Air Pollution Control District, Ky—Western North Carolina Regional Air Pollution Control Agency, NC—Mecklenburg County Department of Environmental Protection, NC—Forsyth County Environmental Affairs Department FL—Palm Beach County Public Health Unit, Fl—Hillsborough County Environmental Protection Commission, Fl—Dade County Environmental Resources Management, Fl—Jacksonville Air Quality Division, Fl—Broward County Environmental Quality Control Board, Fl—Pinellas County Department of Environmental Management, Fl—City of Huntsville Department of Natural Resources, Al—Jefferson County Department of Health, Al). These audits were conducted to assess the agencies' performance under the grants made to them by EPA pursuant to section 105 of the Clean Air Act. EPA Region IV, has prepared reports for the twenty-four agencies identified above and these 105 reports are now available for public inspection.

ADDRESSES: The reports may be examined at the EPA's Region IV office, 345 Courtland Street, NE., Atlanta, Georgia 30365, in the Air, Pesticides, and Toxics Management Division.

FOR FURTHER INFORMATION CONTACT: Linda Thomas, at the above Region IV address, for information concerning States of Alabama, Florida, Mississippi, Georgia, and local agencies. Vera Bowers, at the above Region IV address, for information concerning the States of Kentucky, North Carolina, South Carolina, Tennessee, and local agencies.

Dated: May 25, 1994

Science Advisory Board, Environmental Engineering Committee; Open Meeting

Under Public Law 92–463, notice is hereby given that the Environmental Engineering Committee (EEC) of the Science Advisory Board will meet June 28–30, 1994 in room 3 north of the conference center on the ground floor of the mall area at EPA Headquarters Building, 401 M Street SW, Washington D.C. The meeting, which is open to the public, will start at 9:00 AM on the June 28 and adjourn by 4:00 on June 30.

On June 28, the EEC will review the *Technology Innovation Strategy of the United States Environmental Protection Agency*, External Discussion Draft, January 1994. The Agency plans to provide the Committee with comments already received on the strategy. The charge for this review is still in the negotiation process. On June 29, the EEC will conduct consultations on waste minimization and combustion issues for the Office of Solid Waste. On June 30, the EEC will be briefed on the Use Cluster Scoring System, the Hazardous Waste Identification Rule, and Superfund Presumptive Remedies. The Committee will consider a draft contribution to the "Re-inventing the Science Advisory Board" effort, discuss its contribution to the Science Advisory Board's Futures Project, and consider what activities it might usefully undertake in FY95.

An agenda for the meeting and a copy of the charge is available from Ms. Dorothy Clark, Staff Secretary, Science Advisory Board (1400F), U.S. Environmental Protection Agency, 401 M Street, SW., Washington D.C. 20460 (202–260–6552). Members of the public desiring additional information about the conduct of the meeting should contact Mrs. Kathleen Conway, Designated Federal Official, Environmental Engineering Committee by mail at the address above, by telephone at 202/260–2558, by fax at 202/260–7118, or by internet at

Conway Kathleen@epamail.epa.gov.

Anyone wishing to provide written comment should supply Mrs. Conway with 35 copies. Anyone wishing to make brief oral comments should contact Mrs. Conway by 2:00 Eastern Time June 22.

Dated: June 3, 1994.

Donald G. Barnes,

Staff Director, Science Advisory Board

[FRL–4894–8]

Pennsylvania: Final Determination of Adequacy of the Commonwealth's Municipal Solid Waste Permit Program

AGENCY: Environmental Protection Agency (Region III).

ACTION: Notice of final determination of full program adequacy for the Commonwealth of Pennsylvania's application.

SUMMARY: Section 4005(c)(1)(B) of the Resource Conservation and Recovery Act (RCRA), as amended by the Hazardous and Solid Waste Amendments (HSWA) of 1984, requires states to develop and implement permit programs to ensure that municipal solid waste landfills (MSWLFs) which may receive hazardous household waste or small quantity generator waste will comply with the revised Federal MSWLF Criteria (40 CFR part 258). RCRA section 4005(c)(1)(C) requires the Environmental Protection Agency (EPA) to determine whether states have adequate "permit" programs for MSWLFs, but does not mandate issuance of a rule for such determinations. EPA has drafted and is in the process of proposing a State/

Tribal Implementation Rule (STIR) that will provide procedures by which EPA will approve, or partially approve, state/tribal landfill permit programs. The Agency intends to approve adequate state/tribal MSWLF permit programs as applications are submitted. Thus, these approvals are not dependent on final promulgation of the STIR. Prior to promulgation of the STIR, adequacy determinations will be made based on the statutory authorities and requirements. In addition, states/tribes may use the draft STIR as an aid in interpreting these requirements. The Agency believes that early approvals have an important benefit. Approved state/tribal permit programs provide interaction between the state/tribe and the owner/operator regarding site-specific permit conditions. Only those owners/operators located in state/tribal areas with approved permit programs can use the site-specific flexibility provided by 40 CFR part 258 to the extent the state/tribal permit program allows such flexibility. EPA notes that regardless of the approval status of a state/tribe and the permit status of any facility, the federal landfill criteria will apply to all permitted and unpermitted MSWLF facilities.

The Commonwealth of Pennsylvania, through the Pennsylvania Department of Environmental Resources (PADER) applied for a determination of adequacy under section 4005 of RCRA. EPA has reviewed Pennsylvania's MSWLF permit program application and proposed a determination on November 4, 1993, that Pennsylvania's MSWLF permit program is adequate to ensure compliance with the revised MSWLF Criteria. EPA is today issuing a final determination that the Commonwealth of Pennsylvania's program is adequate.

EFFECTIVE DATE: The determination of adequacy for the Commonwealth of Pennsylvania shall be effective June 9, 1994.

FOR FURTHER INFORMATION CONTACT: USEPA Region III, 841 Chestnut Building, Philadelphia, Pennsylvania 19107, Attn: Mr. Andrew Uricheck, mailcode (3HW53), telephone (215) 597–7936.

SUPPLEMENTARY INFORMATION:

A. Background

On October 9, 1991, EPA promulgated revised Criteria for MSWLFs (40 CFR part 258). Subtitle D of RCRA, as amended by the Hazardous and Solid Waste Amendments of 1984 (HSWA), requires states to develop permitting programs that incorporate the Federal Criteria under 40 CFR part 258. Subtitle D also requires in section 4005 that EPA determine the adequacy of state municipal solid waste landfill permit programs to ensure that facilities comply with the revised Federal Criteria. To fulfill this requirement, the Agency has drafted and is in the process of proposing a State/Tribal Implementation Rule (STIR). The rule will specify the requirements which state/tribal programs must satisfy to be determined adequate.

EPA intends to approve state/tribal MSWLF permit programs prior to the promulgation of STIR. EPA interprets the requirements for states or tribes to develop "adequate" programs for permits or other forms of prior approval, as imposing several minimum requirements. First, each state/tribe must have enforceable standards for new and existing MSWLFs that are technically comparable to EPA's revised MSWLF criteria. Next, the state/tribe must have the authority to issue a permit or other notice of prior approval to all new and existing MSWLFs in its jurisdiction. The state/tribe also must provide for public participation in permit issuance and enforcement as required in section 7004(b) of RCRA. Finally, EPA believes that the state/tribe must show that it has sufficient compliance monitoring and enforcement authorities to take specific action against any owner or operator that fails to comply with an approved MSWLF program.

EPA Regions will determine whether state/tribal programs are "adequate" based on the criteria outlined above.

B. Commonwealth of Pennsylvania

On July 23, 1993, Pennsylvania submitted an application for adequacy determination for its MSWLF permit program. On November 4, 1993, EPA published a tentative determination of adequacy for all portions of Pennsylvania's program. Further background on the tentative determination of adequacy appears at 58, FR 58862–58864, November 4, 1993.

A public comment period began on November 4, 1993, and ended on December 22, 1993. In this notice of tentative determination, EPA announced that a public hearing would be held on December 22, 1993, in Harrisburg, PA. A public hearing was held on December 22, 1993. No one requested the opportunity to speak or offered public comments at the public hearing.

In the Commonwealth's final application for adequacy determination, Pennsylvania proposed non-regulatory revisions to those portions of their existing program which did not fully meet the Federal requirements in EPA's 40 CFR part 258. EPA tentatively determined in the November 4, 1993 **Federal Register** that once minor changes as described below were made, Pennsylvania's MSW landfill permitting program would ensure compliance with 40 CFR part 258. PADER has made the changes specified in the November 4, 1993 **Federal Register**, and as listed below.

Subpart A—General

The current Pennsylvania requirements fully comply with 40 CFR 258.1 (hereinafter referred to as § 258.—), Purpose, Scope, and Applicability; § 258.2, Definitions; and § 258.3, Consideration of other Federal laws.

Subpart B—Location Restrictions

1. The current Pennsylvania requirements fully comply with § 258.11, Floodplains; § 258.12, Wetlands; and § 258.15, Unstable areas.

2. Airport Safety (§ 258.10) and Seismic Impact Zone (§ 258.14) siting restrictions are addressed by Pennsylvania's revision of their permit application forms requiring permittees to comply with the notification requirements of § 258.10 (PADER Form D) and to consider seismic impacts in their design as stated in § 258.14 (PADER Form 24).

3. Fault Areas (§ 258.14)—Pennsylvania has provided a certification from the Pennsylvania Geologic Survey which states that there are no Holocene Faults in the Commonwealth of Pennsylvania, and therefore this requirement is not applicable. EPA concurs with this position.

4. Closure of Existing MSWLF Units (§ 258.16)—Section 258.16 will not be adopted by Pennsylvania, since Pennsylvania has certified that no currently operating landfills are sited in areas impacting airport safety (§ 258.10), floodplains (§ 258.11), or unstable areas (§ 258.15), as defined in these sections.

Subpart C—Operating Criteria

1. The current Pennsylvania requirements fully comply with: § 258.20, Hazardous Waste Exclusion, § 258.21, Daily Cover; § 258.22, Disease Vector Control; § 258.24, Air Criteria; § 258.25, Access Requirements; § 258.26, Run-on/Run-off; § 258.27, Surface Water; and § 258.29, Record Keeping.

2. Explosive Gas Control (§ 258.23)—Pennsylvania's program meets these requirements through Pennsylvania Code, title 25, chapter 273, section 292 (273.292), which requires regular passive-venting and monitoring of

facility structures. If critical levels of methane gas are reached in facility structures or at the facility boundary, the owner/operator is required to conduct active venting on the landfill system. In the event of an emergency situation, Pennsylvania requires the owner/operator to immediately implement their previously prepared and approved contingency plan (see 25 Pa. Code section 273.303).

3. Liquids Restrictions (§ 258.28)—Pennsylvania revised permit application Form 25 to prohibit the recirculation of leachate except at those landfills that have a composite liner.

Subpart D—Landfill Design

1. In accordance with § 258.40(b) and (c), Pennsylvania has demonstrated that their alternate liner system, consisting of a double synthetic liner/double leachate collection system design (25 Pa. Code sections 273.251–273.258), ensures compliance with the requirements of this section. Pennsylvania has made this demonstration through mathematical modeling, using the Hydrologic Evaluation of Landfill Performance (HELP) and Multimedia Exposure Assessment (MULTIMED) Models. Pennsylvania's modeling shows that this liner system meets the § 258.40 performance standard under worst-case assumptions anywhere in the Commonwealth. Pennsylvania-specific data were used as input parameters to the models when available and appropriate. In addition, worst-case conditions were assumed for other parameters where data from Pennsylvania were not applicable or available.

Pennsylvania's existing regulations also allow an option of using two feet of natural (clay) material for the secondary (lower) liner, in place of a second synthetic liner. Additional PADER modeling documentation did not fully demonstrate that this option would meet the § 258.40 performance standard under worst-case assumptions throughout the Commonwealth. Therefore, PADER has revised their MSW permit application forms relating to liner design (Form 24) to require any applicant proposing this option to provide a demonstration that the liner system meets the performance standards of 40 CFR 258.40 on a case-by-case, site-specific basis, through the use of mathematical modeling.

Subpart E—Ground-Water Monitoring and Corrective Action

1. The current Pennsylvania requirements fully comply with: § 258.50, Applicability; § 258.51, Ground-water monitoring systems; and § 258.57, Selection of Remedy.

2. Ground-Water Sampling and Analysis Requirements (§ 258.53), Detection Monitoring Program (§ 258.54) and Assessment Monitoring Program (§ 258.55)—Through the use of existing authorities and appropriate permit conditions, Pennsylvania will require Appendix I sampling of leachate collected in the detection zone of the liner system. Based on the results of that testing, Pennsylvania will require the owner/operator to include any detected parameters exceeding the Maximum Contaminant Level (MCL) in the routine ground-water sampling and analysis program (25 Pa. Code section 273.284). If appendix I MCL's are exceeded in the sampling wells, sampling for all appendix II parameters will be required. If ground-water degradation has been detected in accordance with 25 Pa. Code section 273.286, Pennsylvania will require that a ground-water assessment plan be prepared and implemented. With these mechanisms in place, through the revisions of PADER Forms 8, 19, 50, and 51, Pennsylvania's program ensures compliance with the requirements of these sections.

3. Assessment of Corrective Measures (§ 258.56) and Selection of Remedy (§ 258.57)—Pennsylvania's program will ensure compliance with these sections through Pennsylvania's abatement plan requirements (25 Pa. Code section 273.287). In the event that an abatement plan must be prepared and implemented by an owner/operator, Pennsylvania requires that the permit be modified. The permit modification process includes public involvement.

4. Implementation of the Corrective Action Program (§ 258.58)—Pennsylvania ensures compliance with the requirements of this section through both 25 Pa. Code section 273.287 and the Clean Streams Law, which prohibits pollution of any waters in the Commonwealth.

Subpart F—Closure and Post-Closure Care

1. Closure Criteria (§ 258.60)—Pennsylvania requires, through a revised Form 24, flexible membrane final covers. However, Pennsylvania may approve a clay cap in situations where the use of a flexible membrane cover may be impracticable. In addition, Pennsylvania requires the use of a drainage layer to further limit infiltration by diverting rainfall from the cap, thus further ensuring that the final cover system meets the EPA performance criteria. Pennsylvania, through Form 24, requires that the final cover be in place within six months of the last receipt of waste. Time extensions for construction of the final cover can be granted by Pennsylvania where weather conditions prohibit proper cover construction, or where it is technically impractical to construct a final cover within six months.

2. Post-Closure Care Requirements (§ 258.61)—Although Pennsylvania's regulations do not specifically state that post-closure must occur for 30 years, Pennsylvania requires that post-closure continue until leachate generation ends and gas collection is no longer necessary (25 Pa. Code sections 271.314, 271.341 and 271.342). In addition, Pennsylvania requires that bonds needed for financial assurance be calculated for a minimum period of thirty (30) years. With these requirements in place, EPA has determined that Pennsylvania's program ensures compliance with the requirements of this section.

Subtitle G—Financial Assurance

1. The current Pennsylvania requirements fully comply with: § 258.70, Applicability; and § 258.74, Allowable Mechanisms.

2. Financial Assurance for Post-Closure Care (§ 258.72) and Financial Assurance for Corrective Action (§ 258.73)—Pennsylvania considers a facility to be active until final closure is reached. At the time of final closure, the owner/operator must have a bond that is based upon the total estimated cost to Pennsylvania for completing final closure. Through the above mechanisms, EPA believes that Pennsylvania's program will ensure compliance with these sections.

C. Public Comments

EPA Region III received the following written public comments on its tentative determination of full program adequacy approval of the Pennsylvania MSW landfill permitting program.

One commenter urged EPA to reconsider its approach in approving the Pennsylvania liner system on a statewide worst case approach, believing that the 40 CFR part 258 regulations do not allow such an option, but only provide for a site-specific variation to the prescribed composite liner. This same writer also stated that the double geomembrane liner design proposed by the State of Florida was found to fail "reasonable" worst case assumptions statewide, in an independent review by a landfill design consultant.

The Agency believes that the flexibility afforded to an approved state to approve an alternate liner design, as long as that design meets the design performance standard, allows the application of a statewide alternate

design, again as long as it can be demonstrated that the standards are met on a statewide basis. There are at least four statements in the October 9, 1991 Preamble to the 40 CFR part 258 regulations supporting the position that it was EPA's intent to allow a statewide option. The Agency also has discussed this at technical training seminars (based on the 40 CFR part 258 Technical Manual) held in 1992 for the EPA regional staffs and the state agencies, the discussion of which addressed alternatives to landfill designs in approved states, including the adoption of a design standard that meets the performance standard in all locations in a state.

We do not consider comments on the assumptions contained in the State of Florida's demonstration applicable to Pennsylvania, since we are requiring a Pennsylvania-specific demonstration of compliance to EPA's performance standard. We also note that this commenter stated that "(the Florida consultant) is not familiar with the assumptions used by the State of Pennsylvania . . .".

Another commenter requested that PADER be required to hold a public hearing for each new landfill permitted, and be required to respond to public comments, rather than be allowed the option of doing so based on public interest. PADER has authority to hold a public hearing on every new landfill permitted in the Commonwealth, and in recent years, has held a public meeting or hearing on all new landfills. PADER's regulations provide for public notice and require PADER to evaluate all comments received and address applicable comments prior to a permit decision. Comments can also be submitted to PADER at any time during the operation of the facility. In regard to a related concern that any proposed corrective action measures be discussed at a public meeting, PADER also assured EPA that any such action would be considered a "major permit modification", and thus subject to PADER's public participation requirements.

This same commenter noted that EPA requested additional modeling and leachate data and narrative information concerning PADER's documentation of their liner system alternative, and stated that EPA should not approve the Pennsylvania liner system until this information was received. EPA agrees with this comment, and delayed issuing this Final Determination until this data was submitted and reviewed. This new documentation provided additional support to PADER's position that their double synthetic liner system meets EPA's 40 CFR part 258 performance standards anywhere in Pennsylvania. It did not fully demonstrate that the option of using a clay liner as the second (secondary) liner of PADER's double liner requirement could meet the standard anywhere in the state. Therefore, PADER will require any permittee proposing to choose this option to demonstrate that the EPA performance standards are maintained on the site-specific basis.

This writer opposed the recirculation of any leachate. EPA disagrees with this comment, as 40 CFR 258.28(a)(2) clearly authorizes the recirculation of leachate under certain circumstances. He also suggested that PADER require tests for "all chemicals regulated by the EPA". PADER has agreed to a groundwater monitoring program that EPA believes is adequate to cover all the chemicals listed in appendices I and II, the limits of the groundwater sampling required under 40 CFR part 258.

This commenter also asked that seismic impact concerns should be considered at all locations in the Commonwealth. PADER has clarified their statement and intent to revise permit application forms to insure that all permit applicants in Pennsylvania will be required to address seismic concerns.

Two commenters stated that Pennsylvania should be required to adopt a minimum 30 year post-closure care period for all post-closure care requirements, not just for their (existing) bonding requirements. EPA believes that PADER's existing requirement that post-closure care continue until leachate generation ends and gas collection is no longer necessary fully satisfies EPA's concern that care continue until the landfill wastes are stabilized. The PADER regulations require the bond to be maintained for at least 10 years after the facility reaches final closure, which is defined as the date that no further maintenance is needed at the site. We note that 40 CFR 258.61(b) allows an approved state to decrease (or increase) the length of the post-closure care period based on landfill specific concerns.

One commenter raised the issue of whether or not Pennsylvania ground-water samples would be filtered or not filtered. 40 CFR 258.53 states that ground-water samples shall not be field filtered prior to laboratory analysis. This commenter expressed the opinion that double samples, one unfiltered, and one filtered, would be preferable. PADER, in fact, requires that groundwater samples be both filtered and unfiltered prior to analysis.

This commenter expressed the opinion that municipal incinerator ash should not be accepted at MSW landfills in Pennsylvania. EPA's position on Municipal Waste Combustor (MWC) ash was that it was excluded from regulation as a hazardous waste under RCRA Subtitle C. The Supreme Court decision on May 2, 1994, however, ruled that MWC ash is not excluded from Subtitle C hazardous waste rules, meaning that if a specific combustor's ash fails the EPA prescribed tests and is determined hazardous, then that ash would not be allowed in a MSW landfill. PADER considers ash as a special handling waste, requiring additional handling and/or analysis considerations. In light of the recent Court ruling, and assuming no new Federal legislation to preempt it, PADER would require any MWC ash failing the Toxicity Characteristic Leaching Procedure (TCLP) tests to be handled in accordance with hazardous waste program requirements.

A commenter expressed concern that allowing PADER an option to approve, on a site-specific basis, a clay final cap on steep slopes (because of PADER's significant past experience that clay caps on steep slopes are more stable than flexible membranes) would encourage landfill operators to create steeper than normal slopes, to take advantage of any possible economic savings. They feared that steeper slopes would lead to even higher landfills, thereby creating a potential for increased runoff problems and visual pollution. EPA does not agree. First, depending on site-specific conditions, a synthetic cover is not always more expensive. Secondly, the final elevation and side slope geometry of a landfill is set during the permitting process based on stability and drainage design considerations, rather than final cover material.

One commenter maintained that it was premature to approve the Pennsylvania program before the publication of the final State/Tribal Implementation Rule (STIR). EPA disagrees with this statement, in that the Agency is not utilizing the draft STIR as a regulation which binds either the Agency or the states. Instead, EPA is using the draft STIR as guidance for evaluating state permit programs, and maintains its discretion to approve state permit programs utilizing the draft STIR and/or other criteria which assure compliance with 40 CFR part 258. In addition, the public has the opportunity to comment on the criteria used by EPA to assure the adequacy of state MSWLF permit programs with each tentative determination published in the Federal

Register. The Agency discusses these criteria in each tentative determination published, including Pennsylvania's tentative determination. To date, tentative and/or final determinations have been issued for at least 38 states.

A commenter expressed concern that PADER has not yet established a wellhead protection program under Section 1428 of the Safe Drinking Water Act, and the possible negative impact of approval of their MSWLF permitting program without this program in place. States are not required to have a wellhead protection program in place in order to receive approval of the MSWLF permitting program. PADER is currently developing regulations for a wellhead protection program, in cooperation with EPA.

One commenter requested EPA to direct PADER to develop additional discretionary siting criteria to accompany the 40 CFR part 258 criteria, with the intent that the State take a more direct role in the siting of landfills. EPA is satisfied that the existing PADER regulations, with minor changes as described in the Pennsylvania Tentative Determination and this Final Determination, are adequate to ensure compliance with 40 CFR part 258, and we have no authority to direct PADER to adopt additional requirements.

This same commenter questioned the Commonwealth's consideration of seismic impacts in their review process. As stated previously, PADER agreed to revise their permit application forms to require all permit applicants to consider seismic impacts on location and design decisions.

A commenter also questioned if PADER had the resources and expertise to make the determinations required under 40 CFR part 258, and to take timely enforcement action. EPA believes that since the PADER staff is one of the largest and most experienced MSW landfill staffs among Region III states, having been involved with permitting decisions on over 50 landfills since 1988, that they are fully capable of making such determinations. The commenter also questioned PADER's reliance on information and data provided mainly by permit applicants. PADER reviews and evaluates all information received as part of the permit application. In addition, their regulations allow them considerable flexibility to require any additional information they feel is necessary to make their decisions.

A commenter stated that PADER did not have adequate hazardous waste screening requirements, and provided detailed suggestions on screening, tracking, and the financing of a hazardous waste program. These suggestions exceed the 40 CFR part 258 requirements, and are beyond EPA's authority to require them. PADER's regulations require all facilities to have a Commonwealth-approved waste analysis and acceptance plan. As part of the waste acceptance plan and site operational plan, the operator must identify how incoming waste are to be inspected to make sure no regulated quantities of hazardous waste are accepted at the facility. PADER requires that a waste screening plan be implemented at all facilities. The waste analysis and acceptance plan approved at the facilities addresses the standards for accepting residual (non-hazardous) waste.

This same commenter requested that PADER be directed to conduct research on ash treatment options. This is beyond the requirements of 40 CFR part 258. The commenter further suggested that MSW wastes be disposed of in dedicated landfill areas to facilitate possible future landfill reclamation. This is also not required by 40 CFR part 258. PADER has taken significant steps to prevent landfill disposal of recyclables, batteries, and yard waste. They also require facilities to keep records on where and when waste is disposed so reclamation may be easier in the future.

A commenter criticized Pennsylvania's implementation of financial assurance requirements under the Pennsylvania Municipal Authorities Act, and requested that EPA withhold final program approval until the Commonwealth prepares an approved plan for correcting their current procedures. The MSW requirements in Pennsylvania, including the financial assurance requirements, are administered by PADER through the Solid Waste Management Act, the Municipal Waste Planning, Recycling and Waste Reduction Act, and the municipal waste regulations, rather than the Municipal Authorities Act. PADER's authority requires the permit applicant to have the appropriate bonding and insurance requirements in place prior to the issuance of a permit. EPA is satisfied that PADER's existing authorities and procedures fulfill the requirements of 40 CFR part 258, subpart G.

A commenter suggested that the addition of a requirement to add a bentonite mat underneath the secondary liner would significantly improve liner performance, and that EPA should therefore require this statewide. EPA disagrees. It could not be required unless determined to be needed to meet either a site-specific performance standard, or a statewide alternate liner requirement. While this has not been demonstrated to be needed for PADER's double synthetic liner system, it is an option for permittees to evaluate in performance modeling.

Two commenters objected to routine sampling of Appendix II parameters in leachate collected from the leachate detection system, on the grounds that it is excessive (costly) and goes beyond the intent of the groundwater monitoring screening process in 40 CFR 258. PADER agreed that the detection zone leachate system will only be routinely monitored for the Appendix I parameters. Appendix II analysis is required only in monitoring wells, and only if and when Appendix I criteria are exceeded in those wells.

D. Decision

Taking into consideration the public comments received as a result of our tentative determination, and revisions made to the PADER program as a result thereof, I conclude that the Commonwealth of Pennsylvania's application for adequacy determination meets all of the statutory and regulatory requirements established by RCRA. Accordingly, Pennsylvania is granted a determination of adequacy for all portions of its municipal solid waste permit program.

Section 4005(a) of RCRA provides that citizens may use the citizen suit provisions of section 7002 of RCRA to enforce the Federal MSWLF criteria in 40 CFR part 258 independent of any State/Tribal enforcement program. As explained in the preamble to the final MSWLF criteria, EPA expects that any owner or operator complying with provisions in a state/tribal program approved by EPA should be considered to be in compliance with the Federal Criteria. See 56 FR 50978, 50995 (October 9, 1991).

Today's action takes effect on the date of publication. EPA believes it has good cause under section 553(d) of the Administrative Procedure Act, 5 U.S.C 553(d), to put this action into effect less than 30 days after publication in the **Federal Register**. All of the requirements and obligations in Pennsylvania's program are currently in effect as a matter of Commonwealth law. EPA's action today does not impose any new requirements with which the regulated community must begin to comply, nor do these requirements become enforceable by EPA as federal law. Consequently, EPA does not find it necessary to give notice prior to mak its approval effective.

Compliance With Executive Order 12866

The Office of Management and Budget has exempted this notice from the requirements of section 6 of Executive Order 12866.

Certification Under the Regulatory Flexibility Act

Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that this approval will not have a significant economic impact on a substantial number of small entities. It does not impose any new burdens on small entities. This notice, therefore, does not require a regulatory flexibility analysis.

Authority: This notice is issued under the authority of sections 2002, 4005 and 4010(c) of the Solid Waste Disposal Act, as amended; 42 U.S.C. 6912, 6945 and 6949(a)(c).

Dated: June 1, 1994.

Peter H. Kostmayer,

Regional Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 2014]

Petitions for Reconsideration of Actions in Rulemaking Proceedings

June 2, 1994.

Petition for reconsideration has been filed in the Commission rulemaking proceedings listed in this Public Notice and published pursuant to 47 CFR 1.429(e). The full text of this document is available for viewing and copying in room 239, 1919 M Street, NW., Washington, DC or may be purchased from the Commission's copy contractor ITS, Inc. (202) 857–3800. Oppositions to this petition must be filed June 24, 1994. See § 1.4(b)(1) of the Commission's rules (47 CFR 1.4(b)(1)). Replies to an opposition must be filed within 10 days after the time for filing oppositions has expired.

Subject: Amendment of part 97 of the Commission's Rules Concerning Message Forwarding Systems in the Amateur Service. (PR Docket No. 93–85, RM Nos. 7649, 7669, 7675, 7676, 7681, 7904)

Number of Petitions Filed: 1.

GENERAL SERVICES ADMINISTRATION

Public Buildings Service

Proposed United States Courthouse-Federal Building, City of Sacramento, CA; Notice of Availability for a Final Environmental Impact Statement

The U.S. General Services Administration (GSA) hereby gives notice that a Final Environmental Impact Statement (FEIS) has been prepared in accordance with the National Environmental Policy Act (NEPA) for a new U.S. Courthouse-Federal Building within the downtown area of the City of Sacramento, California. The site is bordered by H Street to the North, I Street to the South, 5th Street to the West, and 6th Street to the East.

The FEIS is on file and may be obtained from U.S. General Services Administration, Region 9, Attn: Lou Lopez, Public Buildings Service, Planning Staff (9PL), 525 Market Street, 35th Floor, San Francisco, California 94105–2799 ((415) 744–5253). A limited number of copies of the FEIS are available to fill single copy requests. Loan copies of the FEIS are available for review at the GSA Sacramento Field Office, 650 Capitol Mall, suite-5515, Sacramento, California.

Written comments on the FEIS should be sent no later than Monday, July 11, 1994 to Lou Lopez at the above listed address.

Dated: May 31, 1994.

Aki K. Nakao,

Acting Regional Administrator (9A).

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

[GN #2252]

Hearing Procedures for Scientific Misconduct

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: The Office of Research Integrity (ORI) is publishing the revised Guidelines for Hearings Before the Research Integrity Adjudications Panel of the Departmental Appeals Board (DAB). Publication is intended to provide notice to the scientific community and the general public of the procedures followed by the DAB, based on their experience and applicable legal principles, on conducting hearings on ORI findings of scientific misconduct. These hearings are provided upon the request of the accused scientist and are made available for scientists who receive or apply for Public Health Service (PHS) support under grants, contracts, or cooperative agreements or who conduct research in PHS laboratories. The availability of hearings was first announced by ORI in November 1992. See 57 FR 53125, Nov. 6, 1992. These Guidelines were revised by the DAB on May 5, 1994, and will apply to any request for a hearing that occurs after the date of publication. They are published below.

FOR FURTHER INFORMATION CONTACT: Director, Division of Policy and Education, Office of Research Integrity, 5515 Security Lane, Rockville, MD 20852, (301) 443–5300.

Lyle W. Bivens,

Director, Office of Research Integrity.

Departmental Appeals Board Guidelines, Hearings Before the Research Integrity Adjudications Panel

I. What These Guidelines Are for and How To Get More Information

These guidelines will help you understand how to proceed before the Research Integrity Adjudications Panel, which is part of the Departmental Appeals Board in the Office of the Secretary of HHS. The Board may modify these guidelines to fit the needs of a particular case. In all cases, our objective is to fairly and promptly develop and consider a complete record of relevant and material evidence so that we can issue a sound decision.

These guidelines are intended for use in cases where HHS (through the Office of Research Integrity of the Public Health Service or the Deputy Assistant Secretary for Grants and Acquisition Management) proposes debarment or other administrative actions for scientific misconduct.

Below, we use the term "Respondent" to mean the person or organization which received a notice of proposed findings of scientific misconduct from HHS. The Respondent and HHS are the "parties" in the case.

Soon after a case is docketed at the Board, we will inform the parties of the name of a Board staff attorney who can respond to questions about procedures for the case. If you have general questions, there is a contact listed at the end of these guidelines.

II. How the Review Process Starts; Time Limits

HHS provides written notice to the Respondent of proposed findings of

scientific misconduct. The Respondent has thirty days after receiving the HHS notice to request a hearing by submitting a written request to the Research Integrity Adjudications Panel, Departmental Appeals Board, room 637–D, Humphrey Building, 200 Independence Avenue SW., Washington, DC 20201. At the same time, the Respondent must send a copy of the request to the official who sent the HHS notice.

If the Respondent does not file the hearing request within thirty days, the proposed HHS findings and remedies will be made final.

The filing date is the postmark date (or, if hand delivered or transmitted by fascimile, the date received by the Board). If the deadline falls on a Saturday, Sunday, or legal holiday, the filing date is the next business day.

III. How the Dispute Is Framed and What the Respondent's Hearing Request Must Include

The HHS written notice should clearly summarize the basis for the HHS proposed findings of misconduct and proposed administrative actions. HHS may, however, include with the notice an investigative report, and refer to that report (or specific parts of it) for any findings or legal conclusions underlying the proposed findings of misconduct or proposed administrative actions.

The Respondent's hearing request must include a succinct statement identifying specific factual findings and administrative actions, set out in the written notice or report and relied on by HHS, which Respondent disputes. Factual findings that are stated or adopted in the notice and that are not specifically disputed by Respondent must be considered as facts to which Respondent has admitted. Administrative actions which are not specifically disputed in the request will be considered accepted. The hearing request should also identify any legal issues which the Respondent intends to raise.

Thus, the written notice, any parts of the report relied upon in the notice, and Respondent's hearing request together frame the dispute before the Panel. If HHS wishes to add new proposed findings of misconduct to the Panel proceeding, HHS must timely move to amend its findings.

IV. Establishing the Panel For the Case

The Research Integrity Adjudications Panel will consist of three members. Immediately after we receive the request for hearing, the Chair of the Board will designate from Board staff a Presiding Panel Member of the Research Integrity Adjudications Panel which will hear and decide the case. The Panel is assisted by a staff attorney who also functions as the parties' contact for questions about case status and procedures. The Presiding Panel Member chairs the Panel, sets procedures, presides at the preliminary conference and the hearing, and generally leads development of the case.

Upon request of either party, one of the other two Panel Members for the case will be a scientist or other expert from outside the board. This request should be timely made in order to avoid any delay in these proceedings.

Only unbiased and disinterested experts will be appointed.

V. Acknowledgement of Request for Hearing

The Presiding Panel Member will send the parties a written notice that we received the hearing request. This acknowledgment will describe the next steps and may include special information (such as earlier Board decisions which may be relevant) or requests for clarification. The acknowledgment will tell HHS to promptly notify the Presiding Panel Member and the Respondent of the name, address and telephone number of HHS's representative.

The acknowledgment also will tentatively schedule the preliminary conference (see VI below), usually for a date and time within two weeks of the acknowledgment. The date and time are tentative. Please advise the Board staff attorney immediately whether the proposed date and time are convenient and what telephone number we should use. Note that we will not permit any substantial delay, so that if the date is inconvenient, a party generally should request a postponement of no more than a few days.

VI. Preliminary Conference

The next step is the preliminary conference, which is designed for the Presiding Panel Member to discuss scheduling and other matters with the parties. Generally, this conference is conducted by telephone. The parties should be prepared to discuss anything that will enable the case to proceed fairly and efficiently, including: (1) Whether HHS has sufficiently defined the findings to which the Respondent must respond; (2) what documents, if any, should be submitted by whom and deadlines for submission; (3) the date, location and anticipated length of the hearing; (4) who the parties' witnesses will be and the general nature of their proposed testimony; (5) specification of disputes of fact and their materiality to the findings of scientific misconduct; (6) whether there is any need for briefing of issues prior to hearing; (7) simplifying, narrowing and clarifying issues; (8) stipulations or admissions of undisputed facts, authenticity of documents, admissibility of documents, and qualifications of expert witnesses; and (9) any other matter which the Presiding Panel Member finds it appropriate to discuss.

The conference will be audiotaped. At the end of the conference, after consulting the parties, the Presiding Panel Member will decide how the results of the conference will be noted for the record (for example, we may keep a copy of the tape in the record or summarize the results of the conference in a written document kept in the record).

VII. The Right To A Hearing; Waiver

The Respondent is entitled to an in-person hearing.

The Respondent may choose to waive his or her right to an in-person hearing so that the Panel will review and decide the case on the basis of the written record (including briefs and documents which both parties would be allowed to submit). This review may be accompanied by oral presentation by telephone.

If the Respondent chooses to proceed this way, the Presiding Panel Member will ask whether the HHS representative agrees to dispense with an in-person hearing (since HHS may have witnesses it wishes to present). Even if both parties agree to a review on the written record, the Presiding Panel Member may require the parties to participate in a telephone conference to respond to questions about issues in the case.

VIII. Hearing Procedures

The Presiding Panel Member will determine the place and time of the hearing after consulting the parties in the preliminary conference (see VI above). Generally, hearings are set at a site which is most convenient for the largest number of participants and which has appropriate facilities.

The Presiding Panel Member will preside at the hearing. Other Panel Members will attend as much of the hearing as the Members decide among themselves; all Members, of course, will have full access to the transcript of the hearing and the rest of the record. The hearings will be as informed as reasonably possible, consistent with the need to establish an orderly record. There are no formal rules of evidence applicable; however, the Presiding Panel Member may refer to the Federal Rules of Evidence for guidance.

The Presiding Panel Member generally will admit documents and testimony into the record unless clearly irrelevant, immaterial or unduly repetitious, so the parties should avoid frequent objections to questions and documents.

The HHS written notice, any report (or part of a report) relied on in the notice, and the Respondent's hearing request will be included in the record in any scientific misconduct hearing. They do not themselves constitute evidence, but frame the dispute; the notice and report may also contain findings which are considered admitted because not disputed in the hearing request. (See section III above). The Respondent should not consider the written notice and report to be a comprehensive summary of all the evidence that HHS may present at a hearing. HHS may present other relevant evidence at the hearing if HHS identifies it in a timely manner and no later than its final witness and exhibit list (which generally is submitted at least 30 days prior to the hearing), according to the procedures set by the Presiding Panel Member.

Both parties may make opening and closing statements, may present witnesses as agreed upon in the prehearing conference and may cross examine opposing witnesses. The Panel Members may ask questions as well. Witnesses will be warned that any false statement may be a basis for criminal prosecution

Hearings [illegible] open to the public. Generally, [illegible] witnesses' presence in the hearing [illegible] om when not testifying will be re[illegible] ed if a party requests it.

The hea[illegible] will be transcribed at Departme[illegible] pense and each party will be provid[illegible] opy of the transcript (this usu[illegible] es about ten days, unless th[illegible] cript is lengthy). Generall[illegible] anscript and all other material[illegible] ecord are matters of public r[illegible]

IX. Post-[illegible] Briefing

The P[illegible] Panel Member, after consulti[illegible] rties at the end of the hearing, [illegible] de whether post-hearing [illegible] l be allowed or required [illegible] set deadlines for briefing[illegible]

X. The [illegible] cision

Gene[illegible] anel will complete its review [illegible] a written decision within [illegible] ter the last action in the proc[illegible]

The F[illegible] cision will be the final agency [illegible] remedies specific to the Pub[illegible] Service (such as prohibi[illegible] ce on advisory committees, boards or peer review groups). On debarment under 45 CFR part 76 and 48 CFR 9.4 and 309.4, the Panel's decision will be a recommendation to the Deputy Assistant Secretary for Grants and Acquisition Management (DASGAM), who generally will make a final decision within thirty days of the Panel recommendation. DASGAM may reject findings of fact which form the basis for the Panel decision only if DASGAM determines them to be arbitrary and capricious or clearly erroneous.

XI. Burden of Proof

HHS must always prove scientific misconduct by a preponderance of the evidence.

XII. Submitting Material to Panel, Contacts With Panel

Whenever a party submits anything to the Panel, that party must include a statement that he or she has at the same time given a copy to the other party.

Time limits for filing briefs and documents will be set by the Presiding Panel Member. Calculating filing deadlines is done in the same manner as for the request for hearing (see II above).

No party may engage in any ex parte contact with Panel Members or any other Board staff. This means that you must never provide written materials to the Panel without giving a copy to the other party, and you must never communicate orally with Panel Members or other Board staff about matters in the case outside the presence of the other party. Exceptions: you may speak to the Board attorney assigned to your case on purely procedural matters, or for guidance, the Panel may refer to a provision on ex parte contacts contained in the Board's published procedures (45 CFR 16.17).

The materials submitted to the Panel during a proceeding under these Guidelines are considered public records and may be disclosed to any person requesting the record. See 58 FR 29228 (May [illegible]).

XIII. Panel's Po[illegible]

A. In General

The Panel, o[illegible] through the Presiding Pane[illegible] may exercise the Board's ple[illegible] ority to take whatever actio[illegible] nel deem necessary for fa[illegible] ete, and expeditious res[illegible] f the case. For guidance, the Pa[illegible] refer to 45 CFR part 16 (in partic[illegible] CFR 16.13).

B. Discovery

The Presidin[illegible] ember may order a party to [illegible] information which the Presiding Panel Member determines may be directly relevant and material to dispositive issues in the case and likely to be important to a sound decision. Failure of a party to comply with such an order may result in the panel drawing a negative inference from the failure (that is, the panel may assume that the evidence would substantiate the proposition for which the evidence was sought). The Respondent may also have rights to certain information under the Freedom of Information Act, but this is independent of the process in these guidelines.

* * * * *

Questions? If you have any questions about these procedures, call Andrea M. Selzer, Senior Attorney, at 202/690–6012. In her absence, please call the Departmental Appeals Board at 202/690–5501 and ask for assistance with the Research Integrity Adjudications Panel guidelines.

Issuance: September 30, 1992.

Revised: May 5, 1994.

BILLING CODE 4160–17–M

Centers for Disease Control and Prevention

[Announce[illegible] Number 453]

Coopera[illegible] reements for Active Varicella S[illegible]illance and Epidemic[illegible] Studies

Introduct[illegible]

The Ce[illegible] or Disease Control and Prevention[illegible]C) announces the availabili[illegible] scal year (FY) 1994 funds for [illegible]ram for competitive cooperati[illegible]ement applications to conduct [illegible]ance and case investiga[illegible] varicella disease (chicken[illegible]nds will be provided to conduct [illegible]rveillance and epidemi[illegible]dies to monitor disease [illegible]or to licensure of varicella[illegible] and continuing for a period a[illegible]ne licensure.

The P[illegible]lth Service (PHS) is commit[illegible]ieving the health promot[illegible]isease prevention objecti[illegible]lthy People 2000," a PHS-le[illegible]ctivity to reduce morbid[illegible]rtality and to improve the qua[illegible] This announcement is relat[illegible]iority areas of immun[illegible] infectious diseases, and sur[illegible]nd data systems. (For orderin[illegible] "Healthy People 2000," se[illegible]tion "Where to Obtain Addition[illegible]nation.")

Authority

This program is authorized under sections 301(a) and 317(k)(3) of the Public Health Service Act [42 U.S.C. 241(a), 247b (k)(3)].

Smoke-Free Workplace

The Public Health Service strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of all tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

Eligible Applicants

Eligible applicants for this program are the official State and local public health agencies. To ensure statistical validity, these surveillance areas must have populations of at least 100,000 to provide a sufficient number of varicella cases each year during the anticipated period of declining varicella incidence after vaccine licensure and expected wide use of the vaccine in children.

Availability of Funds

Approximately $500,000 is available in FY 1994 to fund 2 to 4 cooperative agreements. It is expected that the average award will be $165,000, ranging from $100,000 to $250,000. It is expected that awards will begin on or about August 15, 1994, and will be made for a 12-month budget period within a project period of up to 5 years. Funding estimates may vary and are subject to change. Continuation awards within the project period will be made on the basis of satisfactory progress and the availability of funds. There are no matching or cost participation requirements; however, the applicant's anticipated contribution to the overall program costs, if any, should be provided on the application. Funds awarded under this cooperative agreement cannot be used to supplant existing State expenditures in this area.

Objectives

1. To establish a reporting system to accurately define the baseline incidence and epidemiological profile of varicella disease prior to licensure and wide use of varicella vaccine.

2. To maintain and expand the reporting system to obtain similar data for a period of time after vaccine licensure in order to identify changes occurring in the epidemiology of varicella as a result of vaccine usage, and to ascertain the immunization status of cases and evaluate the demographic and clinical profiles of vaccinated and unvaccinated cases.

Purpose

The purpose of these cooperative agreements is to provide assistance to selected State, city, or local areas in developing, maintaining and evaluating active surveillance systems that will provide (1) age-, gender-, race-, and ethnicity-specific incidence and clinical information on cases of varicella disease prior to or at the time of licensure of varicella vaccine in a defined population; and (2) similar information in addition to immunization status of cases following licensure of varicella vaccine.

Program Requirements

In conducting the activities to achieve the purpose of this program, the recipient will be responsible for the activities listed under Item A. (Recipient Activities) and CDC will be responsible for the activities listed under Item B. (CDC Activities). The application should be presented in a manner that demonstrates the applicant's ability to address the proposed activities in a collaborative manner with CDC.

A. Recipient Activities

1. Survey and describe the demography of health care providers, physicians, schools, and institutions within the surveillance area or population under study and identify appropriate reporting and sampling units for surveillance and epidemiologic studies.

2. Establish, maintain, and evaluate an active surveillance system with the capacity to monitor varicella disease trends in a well-defined population and to identify changes in disease incidence and prevalence as a result of the use of varicella vaccine.

3. Using this active surveillance system, collect, analyze and disseminate information that should include age-, gender- and race- and ethnicity-specific incidence of varicella disease; clinical data on reported cases that include the types of complications, rates of hospitalization, lengths of stay, and use of serologic tests to confirm the diagnosis of varicella; detection of outbreaks; and, in selected samples of cases, incidence of illness in household contacts and information on the number of school days lost to children and work days lost to adult patients and parents of children with varicella disease. Such information will likely require specific investigation (follow-up of each reported case in the study population).

4. Following licensure of the vaccine, the immunization status of all reported cases, including age of vaccination, other vaccines simultaneously administered, etc., should be ascertained in addition to the information obtained prior to licensure, as described in item 3 above. With wide use of the vaccine, it is anticipated that the incidence of varicella disease will be reduced (by 50%–90%) to a level that will permit the collection of more detailed data for all cases (e.g., incidence of illness in household contacts, number of school days lost to children and work days lost to adult patients and parents of children with varicella disease, risk of specific complications and clinical course of disease).

5. Participate in the analysis of data, writing of reports and presentation of findings.

The timing of activities following the establishment of an active surveillance system will depend on when the vaccine is licensed and how quickly populations become vaccinated. Pending the availability of funds, recipients may be requested to perform the following additional activities:

1. Compare trends in incidence and the epidemiology of varicella before and after licensure of varicella vaccine.

a. This should include, but not be limited to, rates of disease specific for age, sex, race and ethnicity, and if feasible, other demographic characteristics such as socioeconomic status.

b. Determine the relative impact of vaccine use with respect to age-specific rates of complications and hospitalization.

2. Ascertain the immunization status of cases and evaluate the demographic and clinical characteristics of vaccinated and unvaccinated cases.

3. Evaluate the surveillance system for the purpose of recommending methods that can be used to enhance national surveillance.

B. Centers for Disease Control and Prevention (CDC) Activities

1. Provide technical assistance in the design and execution of the project.

2. Provide assistance to recipients regarding development and implementation of all surveillance activities, data collection methods including case investigation forms, and analysis of data.

3. Assist in the development and implementation of data management processes, including development of computer programs for data entry and interim analyses.

4. Participate in the analysis of data, writing of reports, presentation and publication of findings, and development and dissemination of

information to enhance national surveillance.

Review and Evaluation Criteria

A. Initial Application

Applications will be reviewed and evaluated according to the following weighted criteria:

1. The applicant's understanding of the purpose of the proposed activity and the feasibility of accomplishing the outcomes described. (10%)

2. The extent to which background information and other data demonstrate that the applicant has the appropriate organizational structure, administrative support, and ability to access [illegible] sources of [illegible]. (15%)

3. The adequacy of the description of appropriate plan, and the extent to which these proposed sources of case reports will ensure an adequate sample size and representativeness of populations at risk for varicella to ensure that the epidemiologic analysis of the impact of varicella vaccine, and the assessment of cases with respect to vaccination status will be appropriate and statistically valid. (15%)

4. The adequacy of the plan for establishing the active surveillance system described under recipient activities and supporting evidence that the applicant can implement and maintain these systems. (25%)

5. The extent to which the applicant demonstrates capacity for timely access to public health surveillance data from the jurisdiction or area under study, and capacity to integrate future surveillance activities into existing surveillance systems. (15%)

6. The degree to which the proposed objectives are specific, measurable, time-phased, and consistent with the defined purpose of this program, and the quality of the methods and instruments to be used to evaluate the program. (15%)

7. The qualifications, including training and experience, of project personnel and the projected level of effort by each toward accomplishment of the proposed activities. (10%)

In addition, consideration will be given to the extent to which the budget is reasonable, clearly justified, and consistent with the intended use of cooperative agreement funds.

B. Continued Funding

Continuation awards within the project period will be made on the basis of the following criteria:

1. The degree to which accomplishments in the prior budget period show that the applicant is meeting its objectives;

2. The extent to which objectives for the new budget period are consistent with the purpose of the cooperative agreement and are specific, measurable, and time-phased.

3. The degree to which the proposed methods of achieving the stated objectives are likely to be successful.

4. The adequacy of methods and plans to evaluate program activities.

5. The extent to which the budget is clearly explained, reasonable, and consistent with the intended use of the cooperative agreement funds.

Executive Order 12372 Review

Applications are subject to Intergovernmental Review of Federal Programs as governed by Executive Order 12372. This order sets up a system for State and local review of proposed Federal assistance applications. Applicants should contact their State Single Point of Contact (SPOC) as early as possible to alert them to prospective applications and receive any necessary instructions on the State process. For proposed projects serving more than one State, the applicant is advised to contact the SPOC of each affected State. A current list of SPOCs is included in the application kit. If SPOCs have any State recommendations on applications submitted to CDC, they should forward them to the CDC, Attention: Elizabeth M. Taylor, Grants Management Officer, Procurement and Grants Office, 255 East Paces Ferry Road, NE., Mailstop E–16, Atlanta, Georgia 30305, no later than 60 days after the application deadline date for the new awards. The granting agency does not guarantee to "accommodate or explain" for State process recommendations it receives after that date.

Public Health System Reporting Requirements

This program is not subject to the Public Health System Reporting Requirements.

Catalog of Federal Domestic Assistance Number

The Catalog of Federal Domestic Assistance Number is 93.185, Immunization Research, Demonstration, Public Information and Education, Training, and Clinical Skills Improvement Projects.

Other Requirements

Paperwork Reduction Act

Projects that involve the collection of information from 10 or more individuals and funded by the cooperative agreement will be subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act.

Application Submission and Deadline

The original and two copies of the completed application Form PHS–5161–1 must be submitted to Elizabeth M Taylor, Grants Management Officer, Procurement and Grants Office, Centers for Disease Control and Prevention (CDC), 255 East Paces Ferry Road, NE., Mailstop E–16, Atlanta, Georgia 30305 on or before June 30, 1994.

Applications will be considered to meet the deadline if they are:

1. Received on or before the stated deadline date, or,

2. Sent on or before the deadline date and received in time for submission to the independent review group. (Applicants must request a legibly dated U.S. Postal Service postmark or obtain a legibly dated receipt from a commercial carrier or the U.S. Postal Service. Private metered postmarks will not be acceptable proof of timely mailing.)

Applications which do not meet the criteria in 1. or 2. above, are considered late applications. Late applications will not be considered in the current competition and will be returned to the applicant.

Where To Obtain Additional Information

A complete program description, information on application procedures, an application package, and business management technical assistance may be obtained from Eddie L. Wilder, Senior Grants Management Specialist, Procurement and Grants Office, Centers for Disease Control and Prevention (CDC), 255 East Paces Ferry Road, NE., Mailstop E–16, Atlanta, Georgia 30305, telephone (404) 842–6805.

Programmatic technical assistance may be obtained from Sandra J. Holmes, Ph.D., M.H.A., Medical Epidemiologist, Surveillance, Investigation and Research Branch, National Immunization Program, Centers for Disease Control and Prevention (CDC), Mailstop E–61, Atlanta, Georgia 30333, telephone (404) 639–8257.

Please refer to Announcement Number 453 when requesting information and submitting an application in response to this Request for Assistance.

Potential applicants may obtain a copy of "Healthy People 2000" (Full Report; Stock No. 017–001–00474–0) or "Healthy People 2000" (Summary Report; Stock No. 017–001–00473–1), referenced in "Introduction," through the Superintendent of Documents, Government Printing Office,

Washington, DC 20402–9325, telephone (202) 783–3238.

Dated: June 3, 1994.

Ladene H. Newton,

Acting Associate Director for Management and Operations, Centers for Disease Control and Prevention (CDC).

BILLING CODE 4163–18–P

Food and Drug Administration

Advisory Committee Meeting; Amendment of Notice

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration is announcing an amendment to the notice of a meeting of the Blood Products Advisory Committee which is scheduled for June 21 and 22, 1994. This meeting was announced in the Federal Register of May 20, 1994 (59 FR 26506). The amendment is being made to announce the agenda for June 22, 1994. There are no other changes. This amendment will be announced at the beginning of the open portion of the meeting.

FOR FURTHER INFORMATION CONTACT: Linda A. Smallwood, Center for Biologics Evaluation and Research (HFM–300), Food and Drug Administration, 1401 Rockville Pike, Rockville, MD 20852–1448, 301–594–6700.

SUPPLEMENTARY INFORMATION: In the Federal Register of May 20, 1994, FDA announced that a meeting of the Blood Products Advisory Committee would be held on June 21 and 22, 1994. On page 26507, column 1, the "*Type of meeting and contact person*" and the "*Open committee discussion*" portions of this meeting are amended to read as follows:

Type of meeting and contact person. Open committee discussion, June 21, 1994, 8 a.m. to 8:30 a.m.; open public hearing, 8:30 a.m. to 9:30 a.m., unless public participation does not last that long; open committee discussion, 9:30 a.m. to 5:30 p.m.; open committee discussion, June 22, 1994, 8 a.m. to 8:45 a.m.; open public hearing, 8:45 a.m. to 9:45 a.m., unless public participation does not last that long; open committee discussion, 9:45 a.m. to 1:30 p.m.; open public hearing, 1:30 p.m. to 3:30 p.m., unless public participation does not last that long; open committee discussion, 3:30 p.m. to 6 p.m.

Open committee discussion. On June 21, 1994, the committee will discuss and provide recommendations on plasma collected by apheresis, particularly with regard to infrequent donations of different frequencies, and on autologous blood donation, and in the afternoon, will discuss and provide recommendations on red cell loss during source plasma collection and plateletpheresis, and will hear an informational summary of regulatory issues concerning stem cells. On June 22, 1994, the committee will discuss and provide recommendations on issues related to sample collection kits labeled for detection of human immunodeficiency virus (HIV) infection. The discussion will reexamine the approach described in Federal Register notices of February 17, 1989 (54 FR 7279), and July 20, 1990 (55 FR 30982), to evaluate the safety and effectiveness of collection kits. The notices provided guidance as to FDA's concerns at that time. However, in light of subsequent scientific and technological developments and the changing nature of the HIV epidemic, FDA has been reconsidering the information provided in those notices and recognizes that other approaches may be useful in reviewing HIV collection kits. The committee will also consider and make recommendations on appropriate post-marketing studies of novel sample (e.g. dried blood spots, urine, oral fluid) collection systems intended for professional use only. Additionally, the discussion will focus on specimen collection systems intended for over-the-counter purchase and home use, which provide test results anonymously, along with telephone counseling and medical referral. The question whether approval of an HIV home collection test would create a precedent applicable to over-the-counter (OTC) testing for other serious medical conditions also may be raised.

Dated: June 3, 1994.

Linda A. Suydam,

Interim Deputy Commissioner for Operations.

[FR Doc. 94–14016 Filed 6–8–94; 11:44 am]

BILLING CODE 4160–01–F

Office of Inspector General

Statement of Organization, Functions, and Delegations of Authority

AGENCY: Office of the Secretary, HHS, Office of Inspector General.

ACTION: Notice.

SUMMARY: This notice amends Part A (Office of the Secretary) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health and Human Services to reflect organizational changes in chapter AF, Office of Inspector General (OIG).

EFFECTIVE DATE: This notice is effective on June 9, 1994.

FOR FURTHER INFORMATION CONTACT: Joel J. Schaer, (202) 619–0089.

SUPPLEMENTARY INFORMATION: Chapter AF, the Office of Inspector General's Statement of Organization, Functions and Delegations of Authority Chapter AF, published in the **Federal Register** on November 7, 1989 (54 FR 46775), is amended as follows:

1. Section AF.10, Office of Inspector General—Organization, is revised to read as follows:

Section AF.10 Office of Inspector General—Organization

There is at the head of the OIG a statutory Inspector General, appointed by the President and confirmed by the Senate. The Office of Inspector General consists of six organizational units:

A. Immediate Office of the Inspector General (AFA)

B. Office of the Principal Deputy Inspector General (AFA1).

C. Office of Audit Services (AFH)

D. Office of Investigations (AFI)

E. Office of Evaluation and Inspections (AFE).

F. Office of Civil Fraud and Administrative Adjudication (AFL).

2. Section AFJ.10, Office of Investigations—Organization, is revised to read as follows:

Section AFJ.10 Office of Investigations—Organization

The Office of Investigations comprises the following components:

A. Immediate Office.

B. Criminal Investigations.

C. Investigations Policy and Oversight.

3. Section AFL20, Office of Investigations—Functions, is revised by deleting existing paragraph C., and by redesignating existing paragraph D. to read as the new paragraph C.

4. A new section AFL.00, Office of Civil Fraud and Administrative Adjudication (OCFAA)—Mission, is added to read as follows:

Section AFL.00 Office of Civil Fraud and Administrative Adjudication (OCFAA)—Mission

The Office of Civil Fraud and Administrative Adjudication is responsible for protecting the government-funded health care programs and deterring fraudulent conduct by health care providers through the negotiation and imposition of civil money penalties, assessments and program exclusions. It works with various investigative agencies and organizations in the development of health care civil fraud cases, including *qui tam* cases referred by the Department of Justice.

5. A new section AFL.10, Office of Civil Fraud and Administrative Adjudication—Organization, is added to read as follows:

Section AFL. 10 Office of Civil Fraud and Administrative Adjudication—Organization

The Office of Civil Fraud and Administrative Adjudication comprises the Assistant Inspector General and an immediate staff.

6. A new section AFL.20, Office of Civil Fraud and Administrative Adjudication—Functions, is added to read as follows:

Section AFL.20 Office of Civil Fraud and Administrative Adjudication—Functions

This office is directed by the Assistant Inspector General for Civil Fraud and Administrative Adjudication.

1. The office provides policy guidance and technical expertise to the Department, other Federal agencies, carriers, intermediaries, providers and private organizations on civil fraud law and regulations, penalties, sanctions and other remedies. It maintains liaison with the Department of Justice on the civil fraud aspects of health care and other HHS investigations.

2. The office coordinates and helps investigate matters arising under the Program Fraud Civil Remedies Act, the Civil Monetary Penalties Law, and the Medicare and Medicaid Patient and Program Protection Act, including alleged misconduct by health care entities and others under Medicare and the State health care programs. It assists the Department of Justice to investigate and evaluate civil fraud lawsuits brought under the qui tam provisions of the Federal False Claims Act and related statutes.

3. The office directs and coordinates medical reviews on civil money penalty and exclusion cases to ensure that findings and conclusions are correct and supported by medical records. It evaluates proposals to exclude individuals and entities from participation in the Department's health care programs. It conducts administrative reviews on proposed exclusions and provides written reports incident to the reviews. It negotiates, implements and monitors settlement agreements and exclusion requirements and, in cases of default, implements penalty provisions. It assists in investigations related to requests for reinstatement by excluded individuals and entities, and conducts administrative reviews in accordance with regulations, and adjudicates the requests for reinstatement. It maintains indices of sanctioned individuals and entities and prepares reports of sanction and penalty activities for distribution.

Dated: May 27, 1994.

June Gibbs Brown,

Inspector General.

BILLING CODE 4150–04–M

Public Health Service

Agency for Toxic Substances and Disease Registry; Statement of Organization, Functions, and Delegations of Authority

Part H, Public Health Service (PHS), Chapter HT (Agency for Toxic Substances and Disease Registry), of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health and Human Services (50 FR 25129–25130, dated June 17, 1985, as amended most recently at 58 FR 7568, dated February 8, 1993) is amended to reflect organizational changes within the Agency for Toxic Substances and Disease Registry (ATSDR) that will: (1) Establish the Public Health Practice Coordination Group within the Office of the Assistant Administrator, ATSDR; (2) revise the functional statement for the Division of Toxicology; and (3) revise the functional statements for the Division of Health Assessment and Consultation (DHAC) and the Office of the Director, DHAC. The revised functional statements will provide a more accurate description of the responsibilities of the Divisions.

After the functional statement for the Office of Program Operations and Management (HTB1), insert the following:

Public Health Practice Coordination Group (HTB2)

(1) Coordinates follow-up actions at sites evaluated by the Division of Health Assessment and Consultation (public health assessments), Division of Health Studies (health investigations), Division of Health Education (community health education), and other parts and programs of ATSDR as appropriate; (2) coordinates inter-divisional community involvement plans for sites where more than one division is conducting site activities; (3) coordinates ATSDR's Minority Health Program; (4) coordinates ATSDR's Minority Health Program; (4) coordinates other special projects as required.

Delete the functional statements for the Division of Health Assessment and Consultation (HTB6) and the Office of the Director (HTB61) and insert the following:

The mission of ATSDR is to prevent or mitigate adverse human health effects and diminished quality of life resulting from exposure to hazardous substances in the environment. In particular, the Division is responsible for mitigating the public health impacts to communities resulting from expostures to hazardous substances in the environment and for undertaking appropriate interventions to prevent adverse health effects. In order to fulfill that mission, the Division: (1) Conducts public health assessments and other related health activities such as site review updates and Record of Decision reviews, to determine the health implications of releases or threatened releases of hazardous substances into the environment; in particular, such activities are conducted for Superfund, Resource Conservation and Recovery Act (RCRA), petitioned, and other sites; (2) conducts and evaluates exposure pathways analyses and other exposure screening analyses to identify impacted communities, to include biologic sampling, personal monitoring and health surveys, and related environmental assessments, as appropriate; (3) identifies and implements appropriate intervention at impacted communities to prevent exposures and/or adverse health effects; (4) provides health and medical consultations and technical support to address public health hazards at Superfund, RCRA, petitioned, and other sites where hazardous materials have been released into the environment; (5) issues public health advisories when a release or threatened release of a hazardous substance poses an imminent health hazard; (6) establishes a center of excellence for the development of innovative approaches, applied research methods and procedures for the analysis and use of health, demographic, and environmental data, and community health concerns.

Office of the Director (HTB61)

(1) Plans, directs, coordinates, evaluates, and manages the operations of the Division of Health Assessment and Consultation;

(2) develops goals and objectives and provides leadership, policy formation, and guidance in program planning and development;

(3) provides program management, administrative and logistical support services for the division;

(4) coordinates division activities with other components of ATSDR and other Federal, State and local agencies;

(5) Initiates specific research and medical activities as appropriate to the Division's mission and program needs;

(6) oversees implementation of a quality assurance and training program for the Division's activities.

I delete the functional statement for the Division of Toxicology (HTS) and insert the following:

(1) Coordinates all activities associated with toxicologic profiles and toxicologic research;

(2) Identifies and publishes a list of the most hazardous substances related to Superfund releases and sites;

(3) Provides chemical-specific consultations as needed;

(4) Initiates research to expand knowledge of the relationship between exposure to hazardous substances and adverse human health effects through toxicologic studies of hazardous substances;

(5) Coordinates ATSDR toxicology activities with the Environmental Protection Agency, National Toxicology Program, and other appropriate Federal, State, local, or public programs.

Dated: May 27, 1994.

David Satcher,

Administrator.

BILLING CODE 4160–70–M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Public and Indian Housing

[Docket No. N–94–3714; FR–3397–N–04]

NOFA for Public and Indian Housing Family Investment Centers; Amendment and Notice of Waiver of Requirements

AGENCY: Office of the Assistant Secretary for Public and Indian Housing, HUD.

ACTION: Amendment and notice of waiver of publication requirements.

SUMMARY: This notice further amends a NOFA that was published in the **Federal Register** on February 28, 1994 (59 FR 9592), and was amended on April 19, 1994 (59 FR 18570). This amendment: (1) Includes Comprehensive Improvement Assistance Program (CIAP) language, where appropriate; (2) decreases the amount of funds made available competitively under the NOFA for Family Investment Centers (FIC) for Public and Indian Housing; and (3) announces the award of $2 million to the Chicago Housing Authority (CHA) on an emergency basis for eligible purposes. In conjunction with the announcement of the award to the CHA, the Secretary is also publishing his reasons for waiving the requirements of paragraphs (1), (2), and (3) of section 102(a) of the Department of Housing and Urban Development Reform Act of 1989.

FOR FURTHER INFORMATION CONTACT: Marcia Y. Martin, Office of Resident Initiatives (ORI), or Dom Nessi, Director, Office of Native American Programs (ONAP), Department of Housing and Urban Development, 451 7th Street SW., Washington, DC 20410; telephone numbers: ORI (202) 708–3611; and ONAP (202) 708–1015 (these are not toll-free numbers). Hearing- or speech-impaired persons may use the Telecommunications Device for the Deaf (TDD) by contacting the Federal Information Relay Service on 1–800–877–8339 or 202–708–9300 (not a toll-free number) for information on the program.

SUPPLEMENTARY INFORMATION: On February 28, 1994, the Department published its NOFA for Public and Indian Housing Family Investment Centers (59 FR 9592).

The NOFA was amended for the first time on April 19, 1994 (59 FR 18570), and is being amended further by this notice. This amendment clarifies that Comprehensive Improvement Assistance Program (CIAP) language was inadvertently left out of the NOFA in the sections on Ranking Factors and Checklist of Application Submission Requirements.

The Department also is announcing that of the $63 million being made available under the NOFA, it intends to make $2 million available immediately to the Chicago Housing Authority (CHA) for purposes of demonstrating in public housing comprehensive, coordinated, and strategic approaches to neighborhood revitalization and the serious issue of violent crime reduction. As a result, the amount of funding available for competitive awards under the NOFA is decreased to $67 million.

Recently, the Department was charged by the President with determining effective measures for addressing the urgent problems of violent crime at public housing developments in Chicago, such as in the Robert Taylor Homes and Stateway developments. As a result of dialogues and needs assessments undertaken with CHA and local agencies and service providers, HUD determined that comprehensive, long-term efforts would be most effective in addressing the lack of educational and employment training opportunities for residents of these developments.

The Secretary has also determined, under section 102(a)(3) of the Department of Housing and Urban Development Reform Act of 1989 (42 U.S.C. 3545(a)) (HUD Reform Act), that the Department's Family Investment Centers program is an appropriate emergency funding resource to address the range of services identified by CHA. The funds will be used to: coordinate services utilizing public and private resources; assess and address personal welfare issues, and correlated crime; expand and improve the delivery of support services; provide funding for essential training and services that cannot otherwise be provided; improve the capacity of management to assess the training and service needs of eligible families; and coordinate the provision of training and services that meet such needs. HUD expects that this funding will demonstrate the importance of long-term commitments to local neighborhood revitalization and to servicing the educational, employment, and personal welfare needs of public housing residents, thereby reducing crime and its root causes.

In making his determination that the requirements of paragraphs (1), (2), and (3) of section 102(a) of the HUD Reform Act should be waived to make FIC funds available immediately to CHA, the Secretary has stated:

> There is an immediate need to effect this funding because of the emergency provisions which prevail in Chicago. As you know, we have already committed to make modernization assistance available to CHA out of the special reserve under section 14(k) of the 1937 Act [United States Housing Act of 1937, 42 U.S.C. 14371] for emergencies. The CHA emergency includes severe problems of firearms control, drugs, and youth gangs, all of which have been demonstrated in the recent CHA "sweeps" efforts. These same near-siege conditions apply to Family Investment Center funding. (Secretary's Memorandum on Family Investment Center Emergency Determination, June 3, 1994.)

Accordingly, FR Doc. 94–4413, the NOFA for Public and Indian Housing Family Investment Centers, published at 59 FR 9592 (February 28, 1994), and amended at 59 FR 18570 (April 19, 1994), is further amended as follows:

1. In the Summary on page 9592, column 1, the first sentence is amended by revising the total amount of funding available under the NOFA from "$69 million" to "$67 million".

2. Under the heading "Allocation Amounts" on page 9592, in the third column, the first sentence of the second paragraph is amended by revising the total amount of funding available under the NOFA from "$69 million to "$67 million", and the following new sentence is added to the end of the second paragraph, as amended, to read as follows:

Further, the Department intends to make $2 million available immediately as emergency funds for the Chicago Housing Authority (CHA), for purposes of demonstrating in public housing developments a comprehensive, coordinated, and strategic approach to neighborhood revitalization and the serious issue of violent crime reduction.

3. On page 9596, column 1, paragraph (j) of Section I.G(1) is revised to read as follows:

(j) The extent to which the HA has demonstrated that it will commit to its FIC part of its formula allocation of Comprehensive Grant Program (CGP)/ Comprehensive Improvement Assistance Program (CIAP) funds for CGP/CIAP-eligible activities that result in employment, training, and contracting opportunities for eligible residents [25 points].

4. On page 9596, column 2, paragraph (k) of Section I.G(2) is revised to read as follows:

(k) The extent to which the HA has demonstrated that it will commit to its FIC part of its formula allocation of Comprehensive Grant Program (CGP)/ Comprehensive Improvement Assistance Program (CIAP) funds for CGP/CIAP eligible activities that result in employment, training, and contracting opportunities for eligible residents [25 points].

5. On page 9597, column 2, paragraph (18) of Section III.A is revised to read as follows:

(18) Certification of the extent to which the HA will commit to its FIC part of its formula allocation of Comprehensive Grant Program (CGP)/ Comprehensive Improvement Assistance Program (CIAP) funds for CGP/CIAP-eligible activities that result in employment, training, and contracting opportunities for eligible residents;

6. On page 9598, column 1, paragraph (5) of Section III.B is revised to read as follows:

(5) Certification of the extent to which the HA will commit to its FIC part of its formula allocation of Comprehensive Grant Program (CGP)/Comprehensive Improvement Assistance Program (CIAP) funds for CGP/CIAP-eligible activities that result in employment, training, and contracting opportunities for eligible residents.

7. On page 9599, column 1, paragraph (11) of Section III.C is revised to read as follows:

(11) Certification of the extent to which the HA will commit to its FIC part of its formula allocation of Comprehensive Grant Program (CGP)/ Comprehensive Improvement Assistance Program (CIAP) funds for CGP/CIAP-eligible activities that result in employment, training, and contracting opportunities for eligible residents.

Dated: June 3, 1994.

Joseph Shuldiner,

Assistant Secretary for Public and Indian Housing.

[FR Doc. 94–14059 Filed 6–8–94; 8:45 am]

BILLING CODE 4210–33–P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[NV–030–4210–05; NVN 57164]

Notice of Realty Action; Recreation and Public Purposes Act Classification; Douglas County, Nevada

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The following described land, comprising 2.50 acres, has been examined and is determined to be suitable for classification for lease or conveyance pursuant to the authority in the Recreation and Public Purposes Act, as amended (43 U.S.C. 869 *et seq.*):

Mt. Diablo Meridian, Nevada

T. 14 N., R. 20 E.;
Sec. 8, SE¼SE¼NW¼NW¼.
Containing 2.50 acres.

SUPPLEMENTARY INFORMATION: The public land is located two miles south of Carson City. The land is not needed for Federal purposes. Lease or conveyance is consistent with current BLM land use planning and would be in the public interest. There is currently an application on file by Douglas County to construct a fire and sheriff's station on the site.

The lease/patent, when issued, will be subject to the provisions of the Recreation and Public Purposes Act and to all applicable regulations of the Secretary of the Interior, and the following reservations to the United States:

1. A right-of-way thereon for ditches and canals constructed by the authority of the United States. Act of August 30, 1890 (43 U.S.C. 945).

2. All minerals deposits in the land so patented, and to it, or persons authorized by it, the right to prospect for, mine and remove such deposits from the same under applicable law and regulations to be established by the Secretary of the Interior. Upon publication of this notice in the **Federal Register**, the lands will be segregated from all other forms of appropriation under the public land laws, including the general mining laws but not the mineral leasing laws, the material disposal laws, or the Geothermal Steam Act. The segregation shall terminate upon issuance of a conveyance document or publication in the **Federal Register** of an order specifying the date and time of opening.

DATES: On or before July 25, 1994, interested parties may submit comments.

ADDRESSES: Written comments should be sent to: Walker Resource Area Manager, Bureau of Land Management, 1535 Hot Springs Road, Suite 300, Carson City, NV 89706–0638. Any adverse comments will be reviewed by the State Director. In the absence of any adverse comments, the classification will become effective 60 days from the date of publication of this notice in the **Federal Register.**

FOR FURTHER INFORMATION CONTACT: Charles J. Kihm, Walker Area Realty Specialist, Bureau of Land Management, 1535 Hot Springs Road, Suite 300, Carson City, NV 89706–0638; (702) 885–6000.

Dated: May 26, 1994.

John Matthiessen,

Walker Resource Area Manager.

[FR Doc. 94–13954 Filed 6–8–94; 8:45 am]

BILLING CODE 4310–HC–M

[UT–040–03–4210–05, UTU–71137]

Notice of Realty Action; Recreation and Public Purposes (R&PP) Act Classification; UT

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Realty Action, recreation and public purpose conveyance.

SUMMARY: The following described public land in Garfield County, Utah has been examined and found suitable for lease or conveyance under the provisions of the Recreation and Public Purposes Amendment Act of 1988, (Pub L. 100–648). The lands to be conveyed and the proposed patentees are as follows:

Patentee: Antimony Town.
Location: Salt Lake Meridian, Utah, T. 31 S., R. 2 W., Sec. 10, NW¼SE¼SE¼, containing 10 acres.
Patentee: Boulder Town.
Location: Salt Lake Meridian, Utah, T. 33 S., R. 4 E., Sec. 3, Lot 6, containing 9.27 acres.
Patentee: Escalante Town.
Location: Salt Lake Meridian, Utah, T. 35 S., R. 2 E., Sec. 24, NE¼SE¼NE¼, containing 10 acres.

These lands are hereby segregated from all forms of appropriation under the public land laws, including the mining laws.

The communities propose to use the lands as solid waste transfer stations. The lands are not needed for Federal purposes. Conveyance is consistent with current BLM land use planning and would be in the public interest.

The patent when issued will be subject to the following terms, conditions and reservations:

1. All minerals, including oil and gas, shall be reserved to the United States, together with the right to prospect for, mine and remove the same. The Secretary of the Interior reserves the right to determine whether such mining and removal of minerals will interfere with the development, operation and maintenance of the transfer station.

2. A right-of-way will be reserved for ditches and canals constructed by the authority of the United States (Act of August 30, 1890, 26 Stat. 391; 43 U.S.C. 945).

3. The conveyance will be subject to all valid rights and reservations of record.

4. The communities listed above assume all liability for and shall defend, indemnify, and save harmless the United States and its officers, agents, representatives, and employees (hereinafter referred to as the United States), from all claims, loss, damage, actions, causes of action, expense, and liability resulting from, brought for, or on account of, any personal injury, threat of personal injury, or property damage received or sustained by any person or persons (including the patentee's employees) or property growing out of, occurring, or the release of hazardous substances from the above listed tracts, regardless of whether such claims shall be attributable to: (1) the concurrent, contributory, or partial fault, failure, or negligence of the United States, or (2) the sole fault, failure, or negligence of the United States.

5. Provided, that the title shall revert to the United States upon a finding, after notice and opportunity for a hearing, that the patentee has not substantially developed the lands in accordance with the approved plan of development on or before the date five years after the date of conveyance. No portion of the land shall under any circumstance revert to the United States if any such portion has been used for solid waste disposal or for any other purpose which may result in the disposal, placement, or release of any hazardous substance.

6. If, at any time, the patentee transfers to another party ownership of any portion of the land not used for the purpose(s) specified in the application and approved plan of development, the patentee shall pay the Bureau of Land Management the fair market value, as determined by the authorized officer, of the transferred portion as of the date of transfer, including the value of any improvements thereon.

DATES: For a period of 45 days from the date of publication of this notice in the **Federal Register**, interested persons may submit comments regarding the proposed conveyance of the lands to the District Manager, Cedar City District Office, 176 D.L. Sargent Drive, Cedar City, Utah 84720.

Application comments: Interested parties may submit comments regarding the specific use proposed in the application and plan of development, whether the BLM followed proper administrative procedures in reaching the decision, or any other factor not directly related to the suitability of the lands for transfer stations.

Any adverse comments will be reviewed by the State Director who may vacate or modify this realty action and issue a final determination. In the absence of any adverse comments, this notice will become the final determination of the Department of the Interior on August 8, 1994.

FOR FURTHER INFORMATION CONTACT: Detailed information concerning this action is available for review at the Escalante Resource Area office by contacting Gregg Christensen, P. O. Box 225, Escalante, Utah 84726 or telephone (801) 826–4291.

Dated: May 31, 1994

Gordon R. Staker,

District Manager.

BILLING CODE 4310–DQ–P

Fish and Wildlife Service

Notice of Receipt of Applications for Permit

The following applicants have applied for a permit to conduct certain activities with endangered species. This notice is provided pursuant to Section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*):

Applicant: U.S. Fish and Wildlife Service, PRT–697823, Assistant Regional Director, Ecological Services, Region 5

The applicant requests an amendment to their current permit to include take activities for the following species: Delmarva fox squirrel (*Sciurus niger cinereus*); Roanoke logperch (*Percina rex*); duskytail darter (*Etheostoma* [*Catonotus*] sp.); Lee County Cave isopod (*Lirceus usdagalun*); harperella (*Ptilimnium nodosum*); running buffalo clover (*Trifolium stoloniferum*); sandplain gerardia (*Agalinis acuta*); shale barren rock-cress (*Arabis serotina*); and smooth coneflower (*Echinacea laevigata*) for the purpose of scientific research and enhancement of propagation or survival of the species as prescribed by Service recovery documents.

Written data or comments should be submitted to the Regional Director, U.S. Fish and Wildlife Service, and must be received by the Regional Director within 30 days of the date of this publication.

Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents to the following office within 30 days of the date of publication of this notice: U.S. Fish and Wildlife Service, Phone: (413) 253–8627; FAX: (413) 253–8482.

Ralf Pisapia,

Assistant Regional Director, Ecological Services.

BILLING CODE 4310–55–P

Bureau of Land Management

[920–4210–06; NMNM 022486]

Notice of Proposed Continuation of Withdrawal; New Mexico

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The United States Department of Agriculture, Forest Service, proposes that a 1,265.42-acre withdrawal for the Bear Springs, Bland, La Cueva, Las Conchas, Sulphur Flat, Borrego Ranger Station, and San Ceronimo Administrative Sites; Cerro Pelado Lookout; Horseshoe Springs Recreation Area; and Paliza Recreation Area, all in the Sante Fe National Forest, continue for an additional 20 years. The lands

will remain closed to mining, but will be opened to such forms of disposition as may by law be made of the National Forest System lands, and have been and will remain open to mineral leasing.

DATES: Comments should be received by September 7, 1994.

ADDRESSES: Comments should be sent to State Director, BLM New Mexico State Office, P.O. Box 27115, Santa Fe, New Mexico 87502, 505–438–7502.

FOR FURTHER INFORMATION CONTACT: Georgiana E. Armijo, BLM New Mexico State Office, 505–438–7594.

SUPPLEMENTARY INFORMATION: The United States Department of Agriculture, Forest Service, proposes that the existing land withdrawal made by Public Land Order No. 1515 be continued for a period of 20 years pursuant to Section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714 (1988).

The lands are described as follows:

New Mexico Principal Meridian

Santa Fe National Forest

Paliza Recreation Area (466.19 acres)
T. 17 N., R. 3 E.,
Sec. 9, S½ of lot 1;
Sec. 10, S½ of lot 1;
Sec. 15, lot 3 and SW¼NW¼;
Sec. 16, lot 1, S½NE¼, NE¼SW¼, S½SW¼, and N½SE¼;
Sec. 21, lots 3 and 4.

Sulphur Flat Administrative Site (223.85 acres)
T. 19 N., R. 3 E.,
Sec. 16, lots 1, 2, and SW¼.

Horseshoe Springs Recreation Area (150 acres)
T. 19 N., R. 3 E.,
Sec. 18, E½NE¼NE¼, E½W½NE¼NE¼, SE¼NE¼SW¼NE¼, NE¼SE¼SW¼NE¼, S½SE¼SW¼NE¼, SE¼NE¼, NE¼SE¼, N½NE¼NW¼SE¼, SE¼NE¼NW¼SE¼, and NE¼SE¼NW¼SE¼;
Sec. 17, W½NW¼NW¼.

La Cueva Administrative Site (65.49 acres)
T. 19 N., R. 3 E.,
Sec. 20, lots 7 and 8.

Bear Springs Administrative Site (130 acres)
T. 17 N., R. 4 E.,
Sec. 29, S½ of lot 3, lot 4, NE¼SW¼SW¼, N½SE¼SW¼, SE¼SE¼SW¼, and W½SW¼SE¼.

Las Conchas Administrative Site (59.89 acres)
T. 18 N., R. 4 E.,
Sec. 3, lots 16 and 27.

Cerro Pelado Lookout (160 acres)
T. 18 N., R. 4 E.,
Sec. 19, NE¼.

Bland Administrative Site (10 acres)
T. 18 N., R. 4 E.,
Sec. 25, SE¼SW¼SE¼NW¼, SW¼SE¼SE¼NW¼, NE¼NW¼NE¼SW¼, and NW¼NE¼NE¼SW¼.

The areas described aggregate 1,265.42 acres in Sandoval County.

The purpose of the withdrawal is to protect the Bear Springs, Bland, La Cueva, Las Conchas, Sulphur Flat, Borrego Ranger Station, and San Geronimo Administrative Sites; Cerro Pelado Lookout; Horseshoe Springs Recreation Area; and Paliza Recreation Area, all in the Santa Fe National Forest. The withdrawal segregates the lands from settlement, sale, location, and entry, including location and entry under the mining laws, but not the mineral leasing laws. No change is proposed in the purpose of the withdrawal, but the lands will be opened to such forms of disposition as may by law be made of the National Forest System lands.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments in connection with the proposed withdrawal continuation may present their views in writing to the State Director in the New Mexico State Office.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the land and its resources. A report will also be prepared for consideration by the Secretary of the Interior, the President, and the Congress, who will determine whether or not the withdrawal will be continued and, if so, for how long. The final determination on the continuation of the withdrawal will be published in the **Federal Register**. The existing withdrawal will continue until such final determination is made.

Dated: May 31, 1994.

Frank Splendoria,

Acting Associate State Director.

Office of Surface Mining Reclamation and Enforcement

Information Collection Submitted to the Office of Management and Budget for Review Under the Paperwork Reduction Act

The proposal for the collection of information listed below has been submitted to the Office of Management and Budget for approval under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35). Copies of the proposed collection of information and related form and explanatory material may be obtained by contacting the Bureau's clearance officer at the phone number listed below. Comments and suggestions on the requirements should be made directly to the Bureau clearance officer and to the Office of Management and Budget, Paperwork Reduction Project (1029–0099), Washington, DC 20503, telephone 202–395–7340.

Title: Maintenance of State Programs and Procedures for Substituting Federal Enforcement of State Programs and Withdrawing Approval of State Programs 30 CFR Part 733.

OMB Number: 1029–0099

Abstract: This information collection requirement allows any interested person to request that OSM evaluate an approved State program.

Bureau Form Number: 1029–0099.

Frequency: On Occasion

Description of Respondents: Any interested person (individuals, businesses, institutions, organizations)

Annual Responses: 3

Annual Burden Hours: 495

Estimated Completion Time: 165 hours

Bureau clearance officer: John A Trelease (202) 343–1475

Dated: April 22, 1994.

Andrew F. DeVito,

Chief, Branch of Environmental and Economic Analysis

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337–TA–355]

Certain Vehicle Security Systems and Components Thereof; Decision Not To Review an Initial Determination Terminating Investigation Based on a Summary Determination of Patent Invalidity and To Affirm the Presiding Administrative Law Judge's Decision Not To Terminate the Investigation Based Upon Complainant's Withdrawal of its Complaint

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined not to review an initial determination (ID) (Order No. 18) issued on April 19, 1994, by the presiding administrative law judge (ALJ) in the above-captioned investigation terminating the investigation based on summary determination of patent invalidity. The Commission also determined to affirm the ALJ's denial of complainant's motion to terminate the investigation based upon withdrawal of its complaint

FOR FURTHER INFORMATION CONTACT: Andrea C. Casson, Esq., Office of the General Counsel, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436, telephone 202–205–3105.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation, which concerns allegations of violations of section 337 of the Tariff Act of 1930 in the importation, sale for importation, and sale after importation of certain vehicle security systems and components thereof, on August 25, 1993. Complainant Code-Alarm, Inc. ("Code-Alarm") alleged infringement of claims 1–16 of U.S. Letters Patent 5,049,867 (the '867 patent). The complaint named four respondents: Audiovox Corp. ("Audiovox"); Directed Electronics Inc. ("Directed"); Magnadyne Corporation ("Magnadyne") and Nutek Corporation ("Nutek"). On January 3, 1994, Code-Alarm and Audiovox filed a joint motion to terminate the investigation with respect to Audiovox on the basis of a license agreement, and the ALJ granted that motion in an ID that was not reviewed by the Commission. 59 FR 11308 (March 10, 1994).

On September 3, 1993, respondent Directed Electronics Inc. ("Directed") filed a motion for summary determination of the investigation on the ground that the '867 patent is invalid under 35 U.S.C. 102(b) by reason of an on-sale bar. Respondents Magnadyne and Nutek subsequently joined in Directed's motion. Code-Alarm and the Commission investigative attorney (IA) opposed the motion for summary determination.

After discovery and the filing of pre-hearing statements, and six days before the trial before the ALJ was to begin, Code-Alarm filed a motion to terminate the investigation based upon withdrawal of its complaint. Respondents filed an opposition to Code-Alarm's motion to terminate, and the IA filed a response supporting a motion to terminate with prejudice.

On February 7, 1994, the ALJ issued an order (Order No. 16) denying the motion to terminate as of that time, pending resolution of issues raised by the motion for summary determination and other outstanding motions. The ALJ postponed the trial and a set schedule for supplemental briefing regarding Directed's motion for summary determination. The parties thereafter filed supplemental documents regarding the motion for summary determination, in which they maintained their original positions. On April 19, 1994, the ALJ denied Code-Alarm's motion to terminate the investigation based on withdrawal of its complaint and issued an ID (Order No. 18) terminating the investigation based on summary determination of invalidity based on an on-sale bar.

Code-Alarm petitioned for review of the ID and appealed the ALJ's denial of its motion for termination of the investigation based on withdrawal of its complaint. The IA petitioned for review of the ID granting summary determination. Respondents filed an opposition to both petitions. Respondents and the IA filed responses in opposition to Code-Alarm's appeal of the denial of the motion to terminate based upon withdrawal of the complaint. Respondents also filed a motion to strike Code-Alarm's petition for review and a conditional opposition to notices of withdrawal filed by Code-Alarm's outside counsel. Respondents' motion to strike was denied by the Commission, and the Commission allowed complainant's outside counsel to withdraw from representing complainant notwithstanding respondents' conditional opposition.

This action is taken under the authority of section 337 of the Tariff Act of 1930, 19 U.S.C. 1337, and section 210.53 of the Commission's Interim Rules of Practice and Procedure, 19 CFR 210.53.

Copies of the nonconfidential version of the ID and all other nonconfidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone 202–205–2000. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on 202–205–1810.

Issued: June 3, 1994.

By order of the Commission.

Donna R. Koehnke,

Secretary.

INTERSTATE COMMERCE COMMISSION

[Finance Docket No. 32513]

Missouri Pacific Railroad Company—Trackage Rights Exemption—Northeast Kansas & Missouri Division, Mid-Michigan Railroad Company, Inc.

Northeast Kansas & Missouri Division, Mid-Michigan Railroad Company, Inc., has agreed to grant overhead trackage rights to Missouri Pacific Railroad Company over approximately 65 miles of rail line from milepost 42.7 at Hiawatha, KS, to milepost 107.7 at Upland, KS, in Brown, Nemaha and Marshall Counties, KS. The trackage rights were to become effective on or after May 27, 1994.

This notice is filed under 49 CFR 1180.2(d)(7). If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10505(d) may be filed at any time. The filing of a petition to revoke will not stay the transaction. Pleadings must be filed with the Commission and served on: Joseph D. Anthofer, General Attorney, 1416 Dodge Street, Omaha, NE 68179.

As a condition to use of this exemption, any employees adversely affected by the trackage rights will be protected pursuant to *Norfolk and Western Ry. Co.—Trackage Rights—BN*, 354 I.C.C. 605 (1978), as modified in *Mendocino Coast Ry., Inc.—Lease and Operate*, 360 I.C.C. 653 (1980).

Decided: June 2, 1994.

By the Commission, David M. Konschnik, Director, Office of Proceedings.

Sidney L. Strickland, Jr.,

Secretary.

BILLING CODE 7035–01–P

DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Pursuant to the Clean Water Act

In accordance with Departmental policy, 28 CFR 50.7, notice is hereby given that a proposed consent decree in *United States and Commonwealth of Pennsylvania* v. *Delaware Regional Water Quality Control Authority*, Civil Action No. 91–2787, was lodged on May 24, 1994 with the United States District Court for the Eastern District of Pennsylvania.

The Consent Decree concerns violations of the Federal Water Pollution Control Act (also known as the "Clean Water Act"), 33 U.S.C. 1251 *et seq.*, and the Pennsylvania Clean Streams Law, 35 P.S. § 691.2 *et seq.*, at the defendant's publicly-owned municipal and residential wastewater treatment plant located in Chester, Pennsylvania.

The complaint in this action alleged that, from 1986–91, the defendant discharged pollutants into the Delaware River in excess of several of the effluent limitations established in its National Pollutant Discharge Elimination system ("NPDES") permit; discharged, on several occasions, untreated wastewater into tributaries of the Delaware River; failed to operate all of its facilities and equipment as required by its permit; and failed to comply with certain sampling and reporting requirements of its permit. The proposed Consent Decree requires defendant to comply fully with all terms and conditions of its NPDES permit, to construct and operate an additional secondary clarifier at its plant by May 1, 1997, and to pay a civil penalty of $350,000, plus interest that has accrued on that sum since May 1992.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the proposed consent decree. Comments should be addressed to the Assistant Attorney General for the Environment and Natural Resources Division, Department of Justice, Washington, D.C. 20530, and should refer to *United States and Commonwealth of Pennsylvania* v. *Delaware Regional Water Quality Control Authority* (E.D. Pa.), DOJ Ref. # 90–5–1–1–3445.

The proposed consent decree may be examined at the office of the United States Attorney, 615 Chestnut Street, suite 1300, Philadelphia, Pennsylvania 19106; the Region III Office of the Environmental Protection Agency, 841 Chestnut Building, Philadelphia, Pennsylvania 19107; and at the Consent Decree Library, 1120 G Street NW., 4th Floor, Washington, DC 20005, (202) 624–0892. A copy of the proposed consent decree may be obtained in person or by mail from the Consent Decree Library, 1120 G Street NW., 4th Floor, Washington, DC 20005. In requesting a copy please refer to the referenced case and enclose a check in the amount of $6.75 (25 cents per page reproduction costs), payable to the Consent Decree Library.

John C. Cruden,

Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

[FR Doc. 94–13953 Filed 6–8–94; 8:45 am]

BILLING CODE 4410–01–M

Notice of Lodging of Consent Decree Pursuant to the Clean Water Act

In accordance with Departmental policy, 28 CFR 50.7, notice is hereby given that a proposed consent decree in *United States* v. *City of Madison, Florida and State of Florida*, Civil Action No. *TCA–94–40220*, was lodged on May 16, 1994 with the United States District Court for the Northern District of Florida (Tallahassee Division).

The proposed consent decree resolves the United States' civil claims against the City of Madison ("City") and the State of Florida for violations of Sections 301 and 402 of the Clean Water Act, 33 U.S.C. 1311 and 1342, resulting from the discharge of pollutants from the City's wastewater treatment plant, in violation of the City's National Pollutant Discharge Elimination System ("NPDES") Permit. The proposed consent decree requires that the City pay the United States $100,000 in civil penalties for past violations of the Clean Water Act and provides for stipulated civil penalties to be paid for any failure by the City to comply with its NPDES Permit limitations in the future.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the proposed consent decree. Comments should be addressed to the Assistant Attorney General for the Environment and Natural Resources Division, Department of Justice, Washington, DC 20530, and should refer to *United States* v. *City of Madison, and State of Florida*, DOJ Ref. #90–5–1–1–3938.

The proposed consent decree may be examined at the office of the United States Attorney, 315 S. Calhoun Street, suite 510, Tallahassee, Florida 32301; the Region IV Office of the Environmental Protection Agency, 345 Courtland Street NE., Atlanta, Georgia 30365; and at the Consent Decree Library, 1120 G Street NW., 4th Floor, Washington, DC 20005, (202) 624–0892. A copy of the proposed consent decree may be obtained in person or by mail from the Consent Decree Library, 1120 G Street NW., 4th Floor, Washington, DC 20005. In requesting a copy please refer to the referenced case and enclose a check in the amount of $5.50 (25 cents per page reproduction costs), payable to the Consent Decree Library.

John C. Cruden,

Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410–01–M

Notice of Lodging of Consent Decree Pursuant to the Clean Air Act

In accordance with Departmental policy, 28 CFR 50.7, notice is hereby given that a proposed consent decree in *United States* v. *Sun Company, Inc (R&M) and Atlantic Refining & Marketing Corp.*, Civil Action No. 94-CV-3246, was lodged on May 26, 1994 with the United States District Court for the Eastern District of Pennsylvania. The Consent Decree settles an action brought under Section 113 of the Clean Air Act (the "Act"), 42 U.S.C. 7413, seeking an injunction and civil penalties for defendants' violations of (1) procedural and substantive requirements imposed by Pennsylvania's implementation plan (SIP) enacted pursuant to Section 110 of the Act; 42 U.S.C. 7410; (2) the Prevention of Significant Deterioration

(PSD) requirements of 42 U.S.C. 7470, *et. seq.*, and the regulations promulgated thereunder; and (3) the New Source Performance Standards (NSPS) promulgated pursuant to 42 U.S.C. 7411. Pursuant to the Consent Decree, defendants have agreed to pay a civil penalty of $1.4 million and undertake certain corrective actions directed towards reducing emissions of nitrogen oxides, sulfur dioxide and particulate matter.

The Department of Justice will receive, for a period of thirty (30) days from the date of this publication, comments relating to the proposed consent decree. Comments should be addressed to the Assistant Attorney General for the Environment and Natural Resources Division, Department of Justice, Washington, DC 20530, and should refer to *United States v. Sun Company, Inc., et. al.*, DOJ Ref. #90-5-2-1-1744.

The proposed consent decree may be examined at the office of the United States Attorney, 615 Chestnut Street, Twelfth Floor, Philadelphia, PA 19106; and at the Consent Decree Library, 1120 G Street NW., 4th Floor, Washington, DC 20005, (202) 624-0892. A copy of the proposed consent decree may be obtained in person or by mail from the Consent Decree Library, 1120 G Street NW., 4th Floor, Washington, DC 20005. In requesting a copy please refer to the referenced case and enclose a check in the amount of $8.50 (25 cents per page reproduction costs), payable to the Consent Decree Library.

BILLING CODE 4410-01-M

[AAG/A Order No. 87–94]

Privacy Act of 1974; Systems of Records

Pursuant to the Privacy Act of 1974 (5 U.S.C. 552a), notice is given that the Drug Enforcement Administration (DEA) proposes to modify an existing system of records entitled, "Investigative Reporting and Filing System (IRFS), Justice/DEA–008."

The DEA proposes to modify its IRFS system which covers drug enforcement-related records to (1) more clearly describe the categories of individuals covered by the system and the categories of records in the system, (2) provide specificity with respect to the routine uses of the information in the system, (3) remove unnecessary exemptions, (4) more accurately respond to other notice captions, in particular those captions identified as "Retrievability," and "Retention and Disposal," and (5) reflect that an automated index, containing limited, unclassified data, will be available to Federal Law enforcement agencies. The index will assist these agencies in determining whether DEA may have a more detailed record which is relevant to their law enforcement responsibilities, and which may be made available to them upon request.

Title 5 U.S.C. 552a(e)(4) and (11) provide that the public be provided a 30–day period in which to comment on the new routine uses of a system of records. The Office of Management and Budget (OMB), which has oversight responsibility under the Act, requires that it be given a 40-day period in which to review this system.

Therefore, please submit any comments by July 11, 1994. The public, OMB and the Congress are invited to send written comments to Patricia E. Neely, Systems Policy Staff, Justice Management Division, Department of Justice, Washington, DC 20530 (Room 850, WCTR Building).

A description of the modified system of records is provided below. In addition, the Department has provided a report to OMB and the Congress in accordance with 5 U.S.C. 552a(r).

Dated: June 3, 1994.

Stephen R. Colgate,

Assistant Attorney General for Administration

SYSTEM NAME:

Investigative Reporting and Filing System, Justice/DEA–008.

SYSTEM LOCATION:

Drug Enforcement Administration; 700 Army Navy Drive, Arlington, VA 22202; and field offices. For field office addresses, see appendix identified as "DEA Appendix—List of Record Location Addresses, Justice/DEA–999."

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

A. Drug offenders

B. Alleged drug offenders; and

C. Persons suspected of drug offenses.

D. Defendants.

Such individuals may include individuals registered with DEA and responsible for the handling, dispensing, or manufacturing of controlled substances under the Comprehensive Drug Abuse Prevention and Control Act of 1970.

CATEGORIES OF RECORDS IN THE SYSTEM:

Subpart A:

Subpart A is (1) a manual index (which serves as a backup to the automated index described in subpart B) and (2) paper case file records consisting of: Criminal Investigative Files; Regulatory Audit and Investigatory Files; and General Investigative Files. These files may include investigative and confidential informant reports and all documented findings and investigative "lead" information relative to preregistrant inspections, investigations, targeted conspiracies, and trafficking situations, etc. The reports pertain to the full range of DEA criminal drug enforcement and regulatory investigative functions that emanate from the Comprehensive Drug Prevention and Control Act of 1970.

For example, records in the Criminal Investigative Case Files may include a systematic gathering of information targeted on an individual or group of individuals operating in illegal drugs either in the United States or internationally; reports on individuals suspected or convicted of narcotics violations; reports of arrests; information on drug possession, sales, and purchases by such individuals; and information on the transport of such drugs, either inside the United States or internationally, by such individuals. Records in the Regulatory Audit and Investigatory Files may include similar investigative reports regarding those individuals specifically identified under item C. of the "Categories of Individuals Covered by the System." Records in the General Investigative Files may generally include fragmentary or low priority information on an individual which is not significant enough to open a case file.

Subpart B:

Subpart B is an automated index containing limited, summary-type data which are extracted from and which point to the case files described in subpart A above. Examples of such data include: Record number; subject name (person, business, vessel), aliases and soundex; personal data; (occupation(s), race, sex, date and place of birth, height, weight, hair color, eye color, citizenship, nationality/ethnicity, alien status); special considerations (fugitive, armed/dangerous); resident and criminal address (business and personal); miscellaneous numbers (telephone, passport, drivers license, vehicles registration, social security number, etc.); relevant case file numbers, with indicators for active investigations; date/stamp (event) data

(Subpart B will contain no classified information.)

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

This system is established and maintained to enable DEA to carry out its assigned law enforcement and criminal regulatory functions under the Comprehensive Drug Abuse Prevention and Control Act of 1970 (Pub. L. 91–513), Reorganization Plan No. 2 of 1973, and Title 21 United States Code; and to fulfill United States obligations under the Single Convention on Narcotic Drugs.

PURPOSE:

The records in this system have been compiled for the purpose of identifying, apprehending, and prosecuting individuals connected in any way with the illegal manufacture, distribution, or use of drugs.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Relevant records or any relevant facts derived therefrom may be disclosed to:

(1) Other Federal, State, local, and foreign law enforcement and regulatory agencies, and components thereof, to support their role in the detection and monitoring of the distribution of illegal drugs in the United States or such other roles in support of counterdrug law enforcement as may be permitted by law; direct, electronic, "read only" access by Federal law enforcement agencies only to subpart B of this system of records may be permitted to enable these agencies to: (i) Identify DEA law enforcement information or activities which may be relevant to their law enforcement responsibilities and, where such information or activities is identified, request access to the underlying case files records described in subpart A, and (ii) ensure appropriate coordination of such activities with DEA; (2) Other Federal, State, local, and foreign law enforcement and regulatory agencies, and components thereof, to the extent necessary to elicit information pertinent to counter-drug law enforcement; (3) Foreign law enforcement agencies through the Department of State (with whom DEA maintains liaison), and agencies of the U.S. foreign intelligence community to further the efforts of those agencies with respect to the national security and foreign affairs aspects of international drug trafficking; (4) individuals and organizations in the course of investigations to the extent necessary to elicit information about suspected or known illegal drug violators; (5) Federal and state regulatory agencies responsible for the licensing or certification of individuals in the fields of pharmacy and medicine to assist them in carrying out such licensing or certification functions; (6) any person or entity to the extent necessary to prevent an imminent or potential crime which directly threatens loss of life or serious bodily injury; (7) news media and the public pursuant to 28 CFR 50.2 unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy; (8) a Member of Congress or staff acting upon the Member's behalf when the Member or staff requests the information on behalf of and at the request of the individual who is the subject of the record; (9) National Archives and Records Administration and the General Services Administration in records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906; and (10) to a court or adjudicative body before which DEA is authorized to appear when any of the following is a party to litigation or has an interest in litigation and such records are determined by DEA to be arguably relevant to the litigation: (i) DEA, or any subdivision thereof, or (ii) any employee of DEA in his or her official capacity, or (iii) any employee of DEA in his or her individual capacity where the Department of Justice has agreed to represent the employee, or (iv) the United States, where DEA determines that the litigation is likely to affect it or any of its subdivisions.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM: STORAGE:

Records described in subpart A of the "Categories of Records in the System" are maintained on standard index cards and in standard file folders at DEA Headquarters and field offices. Records described in subpart B are stored on a computer database at the DEA and on a mainframe at the Department of Justice Computer Center.

Retrievability:

Information will be retrieved by accessing either the manual or automated index by name and by cross-referencing the name with a number assigned to the case file. In addition to other Federal law enforcement agencies (reference routine use a. above), the law enforcement components of the Department of Justice may have direct, electronic, "read only" access (under subsection (b)(1) of the Privacy Act) to subpart B of the "Categories of Records in the System/" These data will assist DOJ law enforcement components in identifying whether there may be detailed records which reside in subpart A of this system of records that may be relevant to their law enforcement responsibilities. Where such records are identified, DOJ law enforcement components may request access.

Safeguards:

Access is limited to designated employees with a need-to-know. All records are stored in a secure area of a secure building. In addition to controlled access to the building, the areas where records are kept are either attended by responsible DEA employees, guarded by security guard, and/or protected by electronic surveillance and/or alarm systems, as appropriated. In addition, paper records, including the manual index, are in locked files during off-duty hours and unauthorized access to the automated index is also prevented through state-of-the-art technology such as encryption and multiple user ID's and passwords.

RETENTION AND DISPOSAL:

Paper records will be transferred to the Washington National Records Center 10 years after date of last entry; and destroyed 25 years after date of last entry. The related index will be deleted 25 years after date of last entry. Approval pending DEA records management and the NARA.

SYSTEM MANAGER(S) AND ADDRESS:

Assistant Administrator, Operations Division, Drug Enforcement Administration, Freedom of Information Section, Washington, D.C. 20537.

NOTIFICATION PROCEDURE:

Inquiries should be addressed to: Drug Enforcement Administration, Freedom of Information Section, Washington, D.C. 20537.

RECORD ACCESS PROCEDURE:

Same as above.

CONTESTING RECORDS PROCEDURE:

Same as above.

RECORD SOURCE CATEGORIES:

(a) DEA personnel, (b) Confidential informants, witnesses and other cooperating individuals, (c) Suspects and defendants, (d) Federal, State and local law enforcement and regulatory agencies, (e) foreign law enforcement agencies, (f) business records by subpoena, and (g) drug and chemical companies.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Attorney General has exempted this system from subsections (c)(3) and (4), (d), (e)(1), (2) and (3), (e)(5) and (8), and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j)(2). In addition, the system has been exempted from subsections (c)(3), (d), and (e)(1), pursuant to subsection (k)(1). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553(b), (c) and (e) and have been published in the Federal Register.

[FR Doc. 94-14013 Filed 6-[illegible]-94; 8:45 am]

BILLING CODE 4410-09

[AAG/A Order No. 89-94]

Privacy Act of 1974; System of Records

Pursuant to the Privacy Act of 1974 (5 U.S.C. 552a), notice is given that the Federal Bureau of Investigation (FBI) proposes to describe a separate system of records entitled, "FBI Counterdrug Information Indices System" (CIIS) (JUSTICE/FBI-016).

The newly described FBI system reflects that automated indices, containing limited data, will be available to Federal law enforcement agencies. The indices will assist these agencies in determining whether the FBI may have a more detailed record which is relevant to their law enforcement responsibilities, and which may be made available to them upon request.

Title 5 U.S.C. 552a(e)(4) and (11) provide that the public be provided a 30-day period in which to comment on the new routine uses of a system of records. The Office of Management and Budget (OMB), which has oversight responsibility under the Act, requires that it be given a 40-day period in which to review these systems.

Therefore, please submit any comments by July 11, 1994. The public, OMB and the Congress are invited to send written comments to Patricia E. Neely, Systems Policy Staff, Justice Management Division, Department of Justice, Washington, DC 20530 (Room 850, WCTR Building).

A description of the system of records is provided below. In addition, the Department has provided a report to OMB and the Congress in accordance with 5 U.S.C. 552a(r).

Dated: June 3, 1994.

Stephen R. Colgate,

Assistant Attorney General for Administration.

JUSTICE/FBI-015

SYSTEM NAME:

FBI Counterdrug Information Indices System (CIIS) (JUSTICE/FBI-016)

SYSTEM LOCATION:

The Department of Justice (DOJ) Computer Center, Rockville, Maryland, and at FBI Headquarters, Washington, DC.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who relate in any manner to official FBI drug law enforcement investigations including, but not limited to, subjects, suspects, victims, witnesses, and close relatives and associates who are relevant to an investigation.

CATEGORIES OF RECORDS IN THE SYSTEM:

The records in the system will consist of automated indices to information located in drug law enforcement case files of the FBI. Examples of the case files include those concerning the distribution of controlled substances, continuing criminal enterprises, racketeering enterprises, Organized Crime Drug Enforcement Task Forces cases, and organized crime-drug intelligence cases.

These automated indices contain limited summary type data extracted from the case files. These indices will serve as a pointer system to FBI case files containing drug law enforcement information; but the system does not contain the case files themselves. Access to the case file information must be gained by separate contact with the appropriate FBI office, outside this system, after the system has been queried. The system will facilitate better exchange of drug law enforcement information between and among the FBI and DEA, and such other law enforcement agencies as may participate in the counterdrug investigative information sharing program which this system serves.

Only specified data fields from these records will be provided. Examples of data fields included are name, case file number, race, sex, name identifiers (alias, true-name, main, reference, individual, non-individual), locality indicators, date of birth, place of birth, ID numbers, addresses, violation codes, investigative classification, and office of origin. Data fields from cases also include status, date case was opened, date case was closed, and point-of-contact information such as squad assigned, and auxiliary office. Additional point-of-contact information will be provided via a table of field offices and telephone numbers.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Authority for this system is found at 28 U.S.C. 534, and 44 U.S.C. 3101.

PURPOSE:

The records in this system have been compiled for the purpose of identifying, apprehending, and prosecuting individuals connected in any way with the manufacture, distribution, and use of illegal drugs. The system, by promoting the enhanced sharing of drug intelligence, is intended to facilitate enhanced cooperation between and among the FBI and DEA and such other law enforcement agencies as may participate in the drug law enforcement information sharing program it serves, eliminate duplication of efforts, and enhance the safety of law enforcement personnel who conduct these inherently dangerous investigations.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

System records or any pertinent information derived therefrom may be disclosed (through electronic or other means in the case of participating Federal law enforcement agencies, and through other, non-electronic means as appropriate in other cases) to:

(1) Federal, state, local, and foreign law enforcement agencies, and components thereof, to support their role in the detection and monitoring of the distribution of illegal drugs in the United States or such other roles in support of counterdrug law enforcement as may be permitted by law; direct, electronic, "read only" access, by Federal law enforcement agencies only, to the automated indices of this system of records may enable these agencies to: (i) Identify FBI law enforcement information or activities which may be relevant to their law enforcement responsibilities and, where such information or activities are identified, request access to information in FBI case files relating to drug law enforcement, and (ii) ensure appropriate coordination of such activities with the FBI;

(2) Federal, state, local, and foreign law enforcement agencies, and components thereof, to the extent necessary to elicit information pertinent to counterdrug law enforcement;

(3) Foreign law enforcement agencies with whom the FBI maintains liaison, and agencies of the U.S. foreign

intelligence community to further the efforts of those agencies with respect to the national security and foreign affairs aspects of international drug trafficking;

(4) Individuals and organizations in the course of investigations to the extent necessary to elicit information pertinent to counterdrug law enforcement;

(5) Any person, organization, or entity within the private or public sector, domestic or foreign, to the extent necessary to prevent an imminent or potential crime which could or does directly threaten loss of life, serious injury, or serious loss of property;

(6) The news media and/or the public pursuant to 28 CFR 50.2 unless it is determined that release of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy;

(7) A Member of Congress or staff acting upon the Member's behalf, when the Member or staff requests the information on behalf of and at the specific request of the individual who is the subject of the record;

(8) National Archives and Records Administration and the General Services Administration for records management inspections conducted under the authority of 44 U.S.C. 2904 and 2906; and

(9) To a court or adjudicative body before which the FBI is authorized to appear when any of the following is a party to litigation or has an interest in litigation and such records are determined by the FBI to be arguably necessary to the litigation: (i) The FBI, or any subdivision thereof, or (ii) any employee of the FBI in his or her official capacity, or (iii) any employee of the FBI in his or her individual capacity where the DOJ has agreed to represent the employees, or (iv) the United States, where the FBI determines that the litigation is likely to affect it or any of its subdivisions.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING AND RECORDS IN THE SYSTEM:

STORAGE:

Records described in this system are stored on a mainframe computer at the DOJ Computer Center, and on back-up storage devices at FBI Headquarters, which are accessible by the FBI.

RETRIEVABILITY:

Information in the automated indices will be retrieved by name or other unique identifier. In addition to other Federal law enforcement agencies (reference routine use above), the law enforcement components of the DOJ may have direct, electronic, "read only" access (under subsection (b)(1) of the Privacy Act) to this system. This data will assist DOJ law enforcement components in identifying whether there may be detailed records which reside in the case files of the FBI that may be relevant to their law enforcement responsibilities. Where such records are identified, DOJ law enforcement components may request access to them.

SAFEGUARDS:

Access is limited to designated agency employees with a need-to-know. All records are stored in a secure area of a secure building. In addition to controlled access to the building, the areas where records are kept are either attended by responsible employees, guarded by security personnel, and/or protected by electronic surveillance and/or alarm systems, as appropriate. In addition, unauthorized access to the automated indices is also prevented through state-of-the-art technology such as encryption and user ID's and multiple passwords.

RETENTION AND DISPOSAL:

The automated indices in this system relate to case files which are characterized as either permanent or temporary, governed by NARA criteria in making such assessments. Depending on the nature of the case files to which they relate, the automated indices in this system will be retained permanently or disposed of in accordance with the FBI Records Disposition Schedule developed jointly by NARA and the FBI and approved by the United States District Court for the District of Columbia, Washington, DC.

SYSTEMS MANAGER(S) AND ADDRESS:

Director, Federal Bureau of Investigation, Washington, DC 20535.

NOTIFICATION PROCEDURE:

Inquires should be addressed to: Federal Bureau of Investigation, Freedom of Information/Privacy Acts Section, 9th Street and Pennsylvania Avenue, NW., Washington, DC 20535

RECORD ACCESS PROCEDURES:

Same as above.

CONTESTING RECORDS PROCEDURE:

Same as above.

RECORD SOURCE CATEGORIES:

The data maintained in the automated indices in this system is derived from information in FBI drug law enforcement related case files, which are not part of this system.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

The Attorney General has exempted this system from subsections (c) (3) and (4), (d), (e) (1), (2) and (3), (e)(4) (G) and (H), (e) (5) and (8), (f) and (g) of the Privacy Act pursuant to 5 U.S.C. 552a (j)(2). Rules have been promulgated in accordance with the requirements of 5 U.S.C. 553 (b), (c) and (e) and have been published in the **Federal Register**.

BILLING CODE 4410–02

Antitrust Division

Notice Pursuant to the National Cooperative Research and Production Act of 1993 the Compressor Crankshaft Failure Control Survey Project

Notice is hereby given that, on May 13, 1994, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Southwest Research Institute ("SwRI") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Pursuant to Section 6(b) of the Act, the identities of the parties are CNG Transmission Corporation, Clarksburg, WV; Consumers Power Company, Jackson, MI; El Paso Natural Gas Company, El Paso, TX; Natural Gas Pipeline Company of America, Lombard, IL; Southern California Gas Company, Los Angeles, CA; Southern Natural Gas Company, Birmingham, AL; and Tennessee Gas Pipeline Company, Houston, TX. The general area of planned activity include studying the industry's experiences in failures of reciprocating compressor crankshafts by developing a survey designed to document the causes and costs of recent crankshaft failures and assembling responses to the survey; preparing a database based on the survey responses and analyzing the data; and producing a list of potential solutions and a technical plan addressing the problem and presenting the plan to the industry for implementation.

Membership in this venture remains open, and SwRI intends to file

additional written notification disclosing all changes in membership.

Constance K. Robinson,

Director of Operations, Antitrust Division.

BILLING CODE 4410–01–M

Notice Pursuant to the National Cooperative Research and Production Act of 1993—"Ultra Low Emission Engine Program"

Notice is hereby given that, on May 13, 1994 pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Southwest Research Institute ("SWRI") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing changes in its membership and project status. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, Suzuki Motor Corporation, Engine Design Division and Toyota Motor Corporation have withdrawn from participation; and the period of performance has been extended for one year to September 30, 1994.

No other changes have been made in either the membership or planned activity of the group research project. Membership in this group research project remains open, and SwRI intends to file additional written notification disclosing all changes in membership.

On November 13, 1991, SwRI filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on December 9, 1991, 56 FR 64276.

This last notification was filed with the Department on April 1, 1993. A notice was published in the **Federal Register** pursuant to Section 6(b) of the Act on April 20, 1993, 58 FR 21318.

Constance K. Robinson,

Director of Operations, Antitrust Division.

DEPARTMENT OF LABOR

Office of the Secretary

Agency Recordkeeping/Reporting Requirements Under Review by the Office of Management and Budget (OMB)

Background: The Department of Labor, in carrying out its responsibilities under the Paperwork Reduction Act (44 U.S.C. Chapter 35), considers comments on the reporting/recordkeeping requirements that will affect the public.

List of Recordkeeping/Reporting Requirements Under Review: As necessary, the Department of Labor will publish a list of the Agency recordkeeping/reporting requirements under review by the Office of Management and Budget (OMB) since the last list was published. The list will have all entries grouped into new collections, revisions, extensions, or reinstatements. The Departmental Clearance Officer will, upon request, be able to advise members of the public of the nature of the particular submission they are interested in.

Each entry may contain the following information:

- The Agency of the Department issuing this recordkeeping/reporting requirement.
- The title of the recordkeeping/reporting requirement.
- The OMB and/or Agency identification numbers, if applicable.
- How often the recordkeeping/reporting requirement is needed.
- Whether small businesses or organizations are affected.
- An estimate of the total number of hours needed to comply with the recordkeeping/reporting requirements and the average hours per respondent.
- The number of forms in the request for approval, if applicable.
- An abstract describing the need for and uses of the information collection.

Comments and Questions: Copies of the recordkeeping/reporting requirements may be obtained by calling the Departmental Clearance Officer, Kenneth A. Mills ((202) 219–5095). Comments and questions about the items on this list should be directed to Mr. Mills, Office of Information Resources Management Policy, U.S. Department of Labor, 200 Constitution Avenue, NW., room N–1301, Washington, DC 20210. Comments should also be sent to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for (BLS/DM/ESA/ETA/OAW/MSHA/OSHA/PWBA/VETS), Office of Management and Budget, room 3001, Washington, DC 20503 ((202) 395–7316).

Any member of the public who wants to comment on recordkeeping/ reporting requirements which have been submitted to OMB should advise Mr. Mills of this intent at the earliest possible date.

Office of the American Workplace

Secretary of Labor's Task Force on Excellence in State and Local Government Through Labor-Management Cooperation; Establishment

In accordance with the provisions of the Federal Advisory Committee Act and Office of Management and Budget Circular A–63 of March 1974, and after consultation with GSA, the Secretary of Labor has determined that the establishment of the Task Force on Excellence in State and Local Government through Labor-Management Cooperation is in the public interest.

The Task Force will investigate the current state of labor-management cooperation in State and local government and report back to the Secretary in response to the following questions:

1. What, if any, new methods or institutions should be encouraged or required to enhance the quality, productivity and cost-effectiveness of public sector services through labor-management cooperation and employee participation, recognizing the broad variety of functions performed by different levels of government and various other agencies and public organizations?

2. What, if any, changes to legal frameworks which impact on labor-management relations, including, collective bargaining and civil service legislation could be considered to enhance cooperative behaviors that would improve the delivery of services by reducing conflict, duplication and delays?

3. What, if any, should be done to increase the extent to which workplace problems are resolved directly by the parties themselves rather than through recourse to administrative bodies and the courts?

4. What, if anything, can be done to improve the coordination between appropriate executive and legislative bodies to enhance labor-management relations in the public sector and to create a climate where productivity improvement, innovation and risk taking are encouraged and rewarded?

5. What conditions are necessary to enable elected political leaders, public managers, public employees and labor organizations to work together to achieve excellence in state and local government? What are the obstacles, and how can they be overcome?

6. What examples of successful cooperative efforts are appropriate to serve as public sector models? Why have some initially successful efforts failed, and what can be done to enhance prospects for success?

The Task Force will be composed of up to 15 members representing the viewpoints of labor, management, agencies which administer collective bargaining laws covering State and local government employees, labor relations neutrals and the public.

The Task Force will function solely as an advisory body and in compliance with the provisions of the Federal Advisory Committee Act. Its charter will be filed under the Act 15 days from the date of this publication.

Interested persons are invited to submit comments regarding the establishment of the Secretary of Labor's Task Force on Excellence in State and Local Government through Labor-Management Cooperation. Such comments should be addressed to Charles Richards, U.S. Department of Labor, 200 Constitution Avenue NW., room S2302, Washington, DC 20210.

Signed at Washington, DC, this 26th day of May 1994.

Robert B. Reich,

Secretary of Labor.

NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

Agency Information Collection Under OMB Review

AGENCY: National Endowment for the Humanities.

ACTION: Notice.

SUMMARY: The National Endowment for the Humanities (NEH) has sent to the Office of Management and Budget (OMB) the following proposals for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

DATES: Comments on this information collection must be submitted on or before July 11, 1994.

ADDRESSES: Send comments to Ms. Susan Daisey, Assistant Director, Grants Office, National Endowment for the Humanities, 1100 Pennsylvania Avenue, NW., room 310, Washington, DC 20506 (202–606–8494) and Mr. Steve Semenuk, Office of Management and Budget, New Executive Office Building, 726 Jackson Place NW., room 3002, Washington, DC 20503 (202–395–7316).

FOR FURTHER INFORMATION CONTACT: Ms. Susan Daisey, Assistant Director, Grants Office, National Endowment for the Humanities, 1100 Pennsylvania Avenue NW., room 310, Washington, DC 20506 (202) 606–8494 from whom copies of forms and supporting documents are available.

SUPPLEMENTARY INFORMATION: All of the entries are grouped into new forms, revisions, extensions, or reinstatements. Each entry is issued by NEH and contains the following information: (1) The title of the form; (2) the agency form number, if applicable; (3) how often the form must be filled out; (4) who will be required or asked to report; (5) what the form will be used for; (6) an estimate of the number of responses; (7) the frequency of response; (8) an estimate of the total number of hours needed to fill out the form; (9) an estimate of the total annual reporting and recordkeeping burden. None of these entries are subject to 44 U.S.C. 3504(h).

Category: New Collection.
Title: Generic Clearance Authority for the National Endowment for the Humanities.
Form Number: Not applicable.
Frequency of Collection: On occasion.
Respondents: Applicants for NEH support, NEH grantees, NEH panelists and reviewers.
Use: Application for NEH Grant Programs, Reporting Forms for NEH Grantees, Panelists and Reviewers and Program Evaluation.
Estimated Number of Respondents: 73,805.
Frequency of Response: Various.
Estimated Hours for Respondents to Provide Information: 4.4386 hours per respondent.
Estimated Total Annual Reporting and Recordkeeping Burden: 327,596 hours.

Juan Mestas,
Deputy Chairman.

BILLING CODE 7536–01–M

Arts in Education Advisory Panel; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), as amended, notice is hereby given that a meeting of the Arts in Education Advisory Panel (Overview/Special Projects Section) to the National Council on the Arts will be held on June 28–29, 1994. The panel will meet from 9:30 a.m. to 5 p.m. on June 28, 1994 and from 9 a.m. to 5 p.m. on June 29, 1994. This meeting will be held in room M–07 at the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

Portions of this meeting will be open to the public on June 28, 1994 from 1 p.m. to 5 p.m. and on June 29, 1994 from 9 a.m. to 5 p.m. to review and discuss current Arts in Education program efforts and to make recommendations to the Arts in Education Program.

The remaining portion of this meeting from 9:30 a.m. to 12 p.m. on June 28, 1994 is for the purpose of panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman of February 8, 1994. This session will be closed to the public pursuant to subsection (c) (4), (6), and 9(B) of section 552b of Title 5, United States Code.

Any person may observe meetings, or portions thereof, of advisory panels which are open to the public, and may be permitted to participate in the panel's discussions at the discretion of the panel chairman and with the approval of the full-time Federal employee in attendance.

If you need special accommodations due to a disability, please contact the Office of Special Constituencies, National Endowment for the Arts, 1100 Pennsylvania Avenue NW., Washington, DC 20506, 202/682–5532, TYY 202/682–5496, at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from Ms. Yvonne Sabine, Committee Management Officer, National Endowment for the Arts, Washington, DC 20506, or call 202/682–5439.

Dated: June 3, 1994.

Yvonne M. Sabine,
Director, Office of Panel Operations, National Endowments for the Arts.

NATIONAL SCIENCE FOUNDATION

Special Emphasis Panel in Bioengineering and Environmental Systems; Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting.

Name: Special Emphasis Panel, Bioengineering and Environmental Systems.
Date and Time: June 30, 1994, 8:30 am–5 pm.
Place: Conference Room 580, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230.
Type of Meeting: Closed.
Contact Person: Fred G. Heineken, Program Director, BES, room 565, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA. 22230, Telephone: (703) 306–1319.
Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to NSF for financial support.
Agenda: to review and evaluate proposals for Bioengineering and Environmental Systems as part of the selection process for group awards.
Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the government in the Sunshine Act.

Dated: June 6, 1994.

M. Rebecca Winkler,
Committee Management Officer.

[FR Doc. 94–14063 Filed 6–8–94; 8:45 am]
BILLING CODE 7555–01–M

Special Emphasis Panel in Electrical and Communication Systems; Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting:

Name: Special Emphasis Panel in Electrical and Communication Systems (#1196).
Date and Time: June 27–28, 1994, 8:30 a.m. to 5 p.m.
Place: National Science Foundation, room 530.
Type of Meeting: Closed.
Contact Person: Dr. Radhikishan Baheti, Program Director, Systems Theory, Division of Electrical and Communication Systems, Room 530, NSF, 4201 Wilson Blvd., Arlington, VA 22230, Phone (703) 306–1339.
Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to NSF for financial support.
Agenda: To review and evaluate research proposals as part of the selection process for awards.
Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within exemptions 4 and 6 of 5 U.S.C. 552b. (c)(4) and (6) the Government in the Sunshine Act.

Dated: June 6, 1994.

M. Rebecca Winkler,
Committee Management Officer.

BILLING CODE 7555–01–M

Special Emphasis Panel in Electrical & Communication Systems; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting:

Name: Special Emphasis Panel in Electrical & Communication System.
Date and Time: June 28–29 8 am–5 pm.
Place: National Science Foundation, 4201 Wilson Blvd., Room 530, Arlington, Virginia 22230.
Contact Person: Dr. George Lea, Program Director, ECS, room 675, National Science Foundation, 4201 Wilson Blvd.
Telephone: 703/306–1339.
Type of Meeting: Closed.
Purpose of: To provide advice and recommendations concerning proposals.
Meeting: submitted to NSF for financial support.
Agenda: To review concept papers submitted to NSF for possible later proposal submissions (National Challenge Groups—Fiscal Year 1994).
Reason for Closing: The proposals being reviewed include information of a proprietary confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C.552b(c)(4) and (6) of the Government Sunshine Act.

Dated: June 6, 1994.

M. Rebecca Winkler,
Committee Management Officer.

Special Emphasis Panel in Science & Technology Infrastructure; Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting:

Name: Special Emphasis Panel in Science & Technology Infrastructure.
Date and Time: June 27–29, 1994, 8:30 am–5 pm.
Place: National Science Foundation, 4201 Wilson Blvd., rooms 375, 380, & 1235. Arlington, Virginia 22230.
Contact Person: Dr. Nathaniel Pitts, Director, Office of Science and Technology Infrastructure, room 1270, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA.
Telephone: 703/306–1318.
Type of Meeting: Closed.
Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to the facilities modernization component of the Academic Research Infrastructure Program.
Reason for Closing: The proposals being reviewed include information of a proprietary confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c) (4) and (6) of the Government in the Sunshine Act.

Dated: June 6, 1994.

M. Rebecca Winkler,
Committee Management Officer.

Special Emphasis Panel in Undergraduate Education; Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92–463, as amended), the National Science Foundation announces the following meeting:

Name: Special Emphasis Panel in Undergraduate Education.
Date and Time: June 29, 1994: 7:30 p.m. to 9 p.m., June 30, 1994: 8:30 a.m. to 5 p.m., July 01, 1994; 8:30 a.m. to 1 p.m
Place: Holiday Inn Arlington at Ballston, I–66 and Glebe Road, 4610 North Fairfax Drive, Arlington, VA 22203.
Type of Meeting: Closed
Contact Person: Dr. James Lightbourne, Program Director, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230, Telephone: (703) 306–1667.
Purpose of Meeting: To provide advice and recommendations concerning proposals submitted to NSF for financial support.
Agenda: To review and evaluate unsolicited proposals submitted to the Mathematical Sciences and Their Applications Throughout the Curriculum (CCD–MATH) Program Panel Meeting
Reason for Closing: The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552 b. (c)(4) and (6) of the Government in the Sunshine Act.

Dated: June 6, 1994.

M. Rebecca Winkler,
Committee Management Officer

NUCLEAR REGULATORY COMMISSION

Appointments to Performance Review Boards for Senior Executive Service

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Appointment to Performance Review Boards for Senior Executive Service.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has announced the following appointments to NRC Performance Review Boards.

The following individuals are appointed as members of the NRC Performance Review Board (PRB) responsible for making recommendations to the appointing and awarding authorities on performance appraisal ratings and performance awards for Senior Executives:

New Appointees

James L. Blaha, Assistant for Operations, Office of the Executive Director for Operations
Frank J. Miraglia, Deputy Director, Office of Nuclear Reactor Regulation
Stephen G. Burns, Director, Office of Commission Appellate Adjudication
John B. Martin, Regional Administrator, Region III
Elizabeth Q. Ten Eyck, Deputy Director for Operations, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards
Bill M. Morris, Director, Division of Regulatory Application, Office of Nuclear Regulatory Research

In addition to the above new appointments, the following members are continuing on the PRB:

Jesse L. Funches, Deputy Controller, Office of the Controller
Francis P. Gillespie, Director, Program Management, Policy Development & Analysis Staff, Office of Nuclear Reactor Regulation

Martin Malsch, Deputy General Counsel for Licensing and Regulation, Office of the General Counsel
Luis A. Reyes, Deputy Administrator, Region II
John C. Hoyle, Assistant Secretary, Office of the Secretary

The following individuals are appointed as members of the NRC PRB Panel that was established to review appraisals and make recommendations to the appointing and awarding authorities for NRC PRB members:

Karen D. Cyr, Associate General Counsel, Office of the General Counsel
James L. Milhoan, Deputy Executive Director for Nuclear Reactor Regulation, Regional Operations and Research, Office of the Executive Director for Operations

In addition to the above new appointments, the following member will continue on the PRB Panel: Hugh L. Thompson, Jr., Deputy Executive Director for Nuclear Materials Safety, Safeguards and Operations Support, Office of the Executive Director for Operations.

All appointments are made pursuant to Section 4314 of Chapter 43 of Title 5 of the United States Code.

EFFECTIVE DATE: June 9, 1994.

FOR FURTHER INFORMATION CONTACT: James F. McDermott, Secretary, Executive Resources Board, U.S. Nuclear Regulatory Commission, Washington, DC 20555, (301) 492–4661.

Dated at Rockville, Maryland, this 27th day of May, 1994.

For the U.S. Nuclear Regulatory Commission.

James F. McDermott,

Secretary, Executive Resources Board.

BILLING CODE 7590–01–M

OFFICE OF MANAGEMENT AND BUDGET

National Information Infrastructure; Public Meeting

AGENCY: Office of Management and Budget.

ACTION: Notice of public meeting.

SUMMARY: The Clinton Administration has announced a public meeting to promote the security, integrity, and reliability of information on the emerging National Information Infrastructure (NII) in Washington on July 15, 1994. The meeting is sponsored by the NII Security Issues Forum and the U.S. Advisory Council on the NII. The Forum was established under the auspices of the Information Infrastructure Task Force (IITF) by Ron Brown, Secretary of Commerce. The public is invited to appear before the IITF and members of the Advisory Council at this meeting.

DATES: Persons wishing to be on the program should submit a 1–2 page position statement and requests to appear by June 28, 1994.

ADDRESSES: Position statements and requests to appear should be sent to the NII Security Issues Forum—Public Meeting, c/o U.S. Treasury Department, 3090 Annex, Washington, DC 20220. Statements may also be submitted via fax to (202) 622–2057 or through electronic mail. The Internet address is NII.SECURITYT@REAS.SPRINT.COM, and the X.400 address is /PN=NII.SECURITY/PRMD=GOVT+TREAS/ADMD=TELEMAIL/C=US.

FOR FURTHER INFORMATION CONTACT: For further information regarding the Public Meeting, contact Mr. Marty Ferris, U.S. Treasury Department, at (202) 622–1110. For information regarding the NII Security Issues Forum, contact Ms. Virginia Huth, Office of Management and Budget, at (202) 395–3785.

SUPPLEMENTARY INFORMATION: The public meeting will be the first step of a dialogue with the Administration to assess the security needs and concerns of users, service providers, information providers, State, local and tribal governments and others.

"Americans will not use the NII to its full potential unless they trust that information will go where and when they want it and nowhere else," declared Sally Katzen, Administrator of the Office of Information Regulatory Affairs at OMB and chair of the Forum. "The Federal government is a primary user of the NII and thus a catalyst for change. Yet the NII will be designed, built, owned, operated, and used primarily by the private sector, making it essential that security on the NII be considered in partnership with the public."

The NII is envisioned as an advanced, digital network of networks that will allow individuals, businesses, government services providers, and others to send, receive, and share information, whether video, audio, text, or data, when and where they want it and at a reasonable cost. The U.S. Advisory Council represents industry, labor, academia, public interest groups, and state and local governments, and has identified security as a major concern.

Effective security will ensure the reliability of public networks especially during emergencies, the privacy of financial, health and other personal transmissions, the protection of intellectual property, the ability to send authenticated business messages, protection against the unauthorized interception of communications, and the integrity of financial transactions.

The public is invited to appear before the IITF and members of the Advisory Council at a public meeting to be held July 15, 1994, from 9 a.m. to 4 p.m. at the Commerce Department Auditorium in Washington, DC. Persons wishing to be on the program should submit a 1–2 page position statement and request to appear to the NII Security Issues Forum by June 28, 1994.

Position statements should address security needs from the point of view of a specific user sector or application of the NII such as health services, electronic mail, libraries, small business, education, manufacturing, environmental monitoring, electronic commerce, entertainment, electronic publishing, electronic data interchange, or government services.

Position statements should address three principal questions:

1. How will you use the NII?
2. What security exposures or risks are of concern to you?
3. What kinds of approaches should be taken to address these security concerns?

More information about the Clinton Administration's National Information Infrastructure initiative can be obtained from the IITF Secretariat. Inquiries may be directed to Yvette Barrett at (202) 482–1835, by e-mail to ybarrett@ntia.doc.gov, or by mail to U.S. Department of Commerce, IITF Secretariat, NTIA, Room 4892, Washington, DC, 20230.

For inquiries over the Internet to the IITF Gopher Server, gopher, telnet (login=gopher), or anonymous ftp to iitf.doc.gov. Access is also available over the World-Wide-Web. Questions may be addressed to nii@ntia.doc.gov.

For access by modem, dial (202) 501–1920 and set modem communication parameters at no parity, 8 data bits, and one stop (N,8,1). Modem speeds of up to 14,400 baud are supported.

Sally Katzen,

Administrator, Office of Information and Regulatory Affairs.

BILLING CODE 3110–01–M

Standards for the Classification of Federal Data on Race and Ethnicity

AGENCY: Executive Office of the President, Office of Management and Budget (OMB), Office of Information and Regulatory Affairs

ACTION: Advance Notice of Proposed Review and Possible Revision of OMB's Statistical Policy Directive No. 15, Race and Ethnic Standards for Federal Statistics and Administrative Reporting; and Announcement of Public Hearings on Directive No. 15.

SUMMARY: During the past few years, OMB's Statistical Policy Directive No. 15, Race and Ethnic Standards for Federal Statistics and Administrative Reporting, has come under increasing criticism. These standards are used governmentwide for recordkeeping, collection, and presentation of data on race and ethnicity in Federal statistical activities and program administrative reporting. Since the standards were first issued 17 years ago, citizens who report information about themselves and users of the information collected by Federal agencies have indicated that the categories set forth in Directive No. 15 are becoming less useful in reflecting the diversity of our Nation's population. Accordingly, OMB currently is undertaking a review of the racial and ethnic categories in the Directive. (See Appendix for the text of Directive No. 15.)

ISSUES FOR COMMENT: OMB is interested in receiving comments from the public on (1) the adequacy of the current categories, (2) principles that should govern any proposed revisions to the standards, and (3) specific suggestions for changes that have been offered by various individuals and organizations.

ADDRESS: Written comments on these issues may be addressed to Katherine K. Wallman, Chief, Statistical Policy, Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC. 20503.

DATE: To ensure consideration, written comments must be provided to OMB on or before September 1, 1994.

PUBLIC HEARINGS: To provide additional opportunities to hear views from the public on Directive No. 15, OMB has scheduled a series of hearings, as follows:

Date/Time	Location
July 7, 1994 10:00 a.m.	Thomas P. O'Neill, Jr. Federal Building Auditorium 10 Causeway Street Boston, Massachusetts (Local arrangements contact: Harold Wood, Bureau of the Census Regional Office, (617) 424–0500)
July 11, 1994 10:00 a.m.	State Capitol Building Old Supreme Court Chambers 200 East Colfax Street Denver, Colorado (Local arrangements contact: Jerry O'Donnell, Bureau of the Census Regional Office, (303) 969–7750)
July 14, 1994 10:00 a.m.	Federal Reserve Bank of San Francisco Interpretive Center 101 Market Street San Francisco, California (Local arrangements contact: Vicki Cooper-Murphy, Bureau of Labor Statistics Regional Office, (415) 744–7166)

If you wish to present an oral statement at any of these hearings, please contact the Statistical Policy Office (at the address below) by telephone or fax (do no use electronic mail) by July 1, 1994, and provide the following information: your name, address, telephone and fax numbers, and the name of the organization which you represent. After July 1, please call the appropriate local arrangements contact identified above to be placed on the hearing schedule. Persons testifying are asked to bring three (3) copies of their statement to the hearing. Written statements will also be accepted at the hearings. Depending on the number of persons who request to present their views, the hearings in each location may be extended to the following day.

ADDRESS: Requests to be placed on the hearing schedule should be directed to the Statistical Policy Office, Office of Management and Budget, 725 17th Street, N.W., Washington, D.C. 20503. Telephone: (202) 395–3093. Fax number: (202) 395–7245.

ELECTRONIC AVAILABILITY AND COMMENTS: This document is available on the Internet via anonymous File Transfer Protocol (ftp) from *ftp.census.gov* as */pub/docs/ombdir15.txt* in ASCII format (do not use any capital letters in the file name). For those who do not have ftp capability, the document can also be obtained through the gopher (*gopher gopher.census.gov*) and HTTP servers (accessible by mosaic, cello, lynx, etc.), or by sending an electronic mail message to *ftpmail@census.gov* with the following lines in the message area:

open
get/pub/docs/ombdir15.txt
quit

Comments may be sent via electronic mail to an OMB x.400 mail address, which is */s=ombdir15/c=us/admd=telemail/prmd=gov+eop*. The Internet address is *ombdir15@eop.sprint.com*. Comments sent to this address will be included as part of the official record. Do not use this electronic mail address to have your name included in the hearing schedule.

For assistance using electronic mail, ftp, gopher, or HTTP, please contact your system administrator. You may also want to send an electronic message to *access@census.gov* with a subject of *HELP* and nothing in the message area. You will receive by return electronic mail "FAQ (Frequently Asked Questions)" and more information on how to access the services on *census.gov*.

FOR FURTHER INFORMATION CONTACT: Suzann Evinger, Statistical Policy Office, Office of Information and Regulatory Affairs, Office of Management and Budget, Telephone: (202) 395–3093.

SUPPLEMENTARY INFORMATION:

Background

Development of Directive No. 15.—Developmental work on the categories in OMB's Directive No. 15 originated in the activities of the Federal Interagency Committee on Education (FICE), which was created by Executive Order in 1964 More than 30 Federal agencies were members or regular participants in FICE's work to improve coordination of educational activities at the Federal level. The FICE Subcommittee on Minority Education completed a report in April 1973 on higher education for Chicanos, Puerto Ricans, and American Indians and sent it to then Secretary of Health, Education, and Welfare (HEW) Caspar Weinberger for comment. He showed particular interest in the portion of the report that deplored the lack of useful data on racial and ethnic groups. Further, he encouraged the implementation of the report's second recommendation which called for the coordinated development of common definitions for racial and ethnic groups, and the Federal collection of racial and ethnic enrollment and other educational data on a compatible and nonduplicative basis.

In June 1974, FICE created an Ad Hoc Committee on Racial and Ethnic

Definitions whose 25 members came from Federal agencies with major responsibilities for the collection or use of racial and ethnic data. This Ad Hoc Committee was charged with developing terms and definitions for the collection of a broad range of racial and ethnic data by Federal agencies on a compatible and nonduplicative basis. It took on the task of determining and describing the major groups to be identified by Federal agencies when collecting and reporting racial and ethnic data. While the Ad Hoc Committee recognized that there is frequently a relationship between language and ethnicity, it made no attempt to develop a means of identifying persons on the basis of their primary language. The Ad Hoc Committee wanted to ensure that whatever categories the various agencies used could be aggregated, disaggregated, or otherwise combined so that the data developed by one agency could be used in conjunction with the data developed by another agency. In addition, the Ad Hoc Committee thought that the basic categories could be subdivided into more detailed ethnic subgroups to meet users' needs, but that to maintain comparability, data from one major category should never be combined with data from any other major category.

In the spring of 1975, FICE completed its work on a draft set of categories, and an agreement was reached among OMB, the General Accounting Office (GAO), the HEW's Office for Civil Rights, and the Equal Employment Opportunity Commission (EEOC) to adopt these categories for a trial period of at least one year. This trial was undertaken to test the new categories and definitions and to determine what problems, if any, would be encountered in their implementation.

At the end of the test period, OMB and GAO convened an Ad Hoc Committee on Racial/Ethnic Categories to review the experience of the agencies that had implemented the standard categories and definitions and to discuss any potential problems that might be encountered in extending the use of the categories to all Federal agencies. The Committee met in August 1976 and included representatives of OMB; GAO; the Departments of Justice, Labor, HEW, and Housing and Urban Development; the Bureau of the Census; and the EEOC. Based upon the discussion in that meeting, OMB prepared minor revisions to the FICE definitions and circulated the proposed final draft for agency comment. These revised categories and definitions became effective in September 1976 for all compliance recordkeeping and reporting required by the Federal agencies represented on the Ad Hoc Committee.

Based upon this interagency agreement, OMB drafted for agency comment a proposed revision of the race and ethnic categories contained in its circular on standards and guidelines for Federal statistics. Some agencies published the draft revision for public comment. Following the receipt of comments and incorporation of suggested modifications, OMB on May 12, 1977, promulgated for use by all Federal agencies the racial and ethnic categories now contained in Directive No. 15, the text of which appears in the Appendix. This meant that for the first time, standard categories and definitions would be used at the Federal level in reporting and presentation of data on racial and ethnic groups. While OMB requires the agencies to use these racial and ethnic categories, it should be emphasized that the Directive permits collection of additional detail if the more detailed categories can be aggregated into the basic racial and ethnic classifications set forth in the Directive.

As demonstrated by this brief history, the present categories were developed through a deliberate cooperative process; participation of the agencies that use the categories was an essential element in that process.

1988 Proposed Revision.—The standards promulgated in 1977 have not been revised since that time. OMB did, however, publish in the January 20, 1988, **Federal Register** a draft Statistical Policy Circular soliciting public comment on a comprehensive revision of existing Statistical Policy Directives. Among the proposed changes was a revision of Directive No. 15 that would have added an "Other" racial category and required classification by self-identification. While this proposal was supported by many multi-racial and multi-ethnic groups and some educational institutions, it drew strong opposition from Federal agencies such as the Civil Rights Division of the Department of Justice, the Department of Health and Human Services, the EEOC, and the Office of Personnel Management, and from large corporations.

Respondents who opposed the change asserted that the present system provided adequate data, that any changes would disrupt historical continuity, and that the proposed change would be expensive and potentially divisive. Some members of minority communities interpreted the proposal as an attempt to provoke internal dissension within their communities and to reduce the official counts of minority populations. Because it was evident from all of these comments that this proposal would not be widely accepted, no changes were made at the time to Directive No. 15.

1993 Hearings.—During 1993, Congressman Thomas C. Sawyer, Chairman of the House Subcommittee on Census, Statistics, and Postal Personnel, held a series of four hearings (April 14, June 30, July 29, and November 3) on the measurement of race and ethnicity in the decennial census. OMB testified at the hearing on July 29. Information on these hearings may be obtained by contacting the Subcommittee at (202) 226–7523.

Workshop.—As a first step in undertaking its review of the racial and ethnic categories, OMB asked the Committee on National Statistics (CNSTAT) of the National Academy of Sciences to convene a workshop to provide an informed discussion of the issues surrounding a review of the categories. Convened on February 17–18, 1994, the workshop included representatives of Federal agencies, academia, social science research, interest groups, private industry, and local school districts. A report on the workshop will be forthcoming from CNSTAT.

Interagency Committee. OMB has established an Interagency Committee for the Review of the Racial and Ethnic Standards, whose members represent the many and diverse Federal needs for racial and ethnic data, including statutory requirements for such data. The Committee will be an integral part of this review process, by assisting OMB in the evaluation and assessment of proposed changes, for example, on the quality of resulting data and costs of implementation.

Suggested Changes and Criticisms

Your comments are invited on any aspect of Directive No. 15; if you are satisfied with the existing racial and ethnic categories, it would be useful for OMB to know that also. You may also wish to comment on the following suggestions and criticisms about the Directive that OMB received during the recent hearings and the CNSTAT workshop:

—adding a "multi-racial" category to the list of racial designations so that respondents would not be forced to deny part of their heritage by having to choose a single category;

—adding an "other" category for individuals of multi-racial backgrounds and those who want the option of specifically stating a unique identification;

—providing an open-ended question to solicit information on race and ethnicity, or combining concepts of race, ethnicity, and ancestry;

—changing the name of the "Black" category to "African American";

—changing the name of the "American Indian or Alaskan Native" category to "Native American";

—including Native Hawaiians as a separate category or as part of a "Native American" category (which would also include American Indians, Aleuts, and Eskimos), rather than as part of the "Asian or Pacific Islander" category;

—including Hispanic as a racial designation, rather than as a separate ethnic category; and

—adding a "Middle Easterner" category to the list of ethnic designations.

The critiques of the current standard and the proposals for change include as well a number of other concerns. For example:

—The categories and their definitions have been criticized for failing to be comprehensive and scientific. As cases in point, using the present definitions there are no proper categories for the original Indian population of South America or for Australian aborigines.

—Some have suggested that the geographic orientation of the definitions for the various racial and ethnic categories is not sufficiently definitive. They believe that there is no readily apparent organizing principle for making such distinctions and that definitions for the categories should be eliminated. Others disagree, stating that the current definitions of the racial and ethnic categories have served their uses well and thus should be maintained.

—The identification of an individual's racial and ethnic "category" often is a subjective determination, rather than one that is objective and factual, no matter what the process for arriving at the categories. Consequently, it has been suggested that it may no longer be appropriate to consider the categories as a "statistical standard."

—The issue of self-identification of race and ethnicity versus third party identification also has been raised. This issue will merit increased attention if multi-racial and/or multi-ethnic categories or identification procedures are adopted.

—Some have proposed eliminating the five-category combined racial and ethnic classification in favor of separate, mutually exclusive, racial and ethnic categories. The combined format now permitted by the Directive is particularly suitable for observer identification, and is used by the Department of Health and Human Service's Office for Civil Rights, the Equal Employment Opportunity Commission, and the Office of Federal Contract Compliance because it facilitates aggregating data on the minority groups with which these agencies are concerned. The use of the Hispanic category in the combined format does not, however, provide information on the race of those selecting it. As a result, the combined format makes it impossible to distribute persons of Hispanic ethnicity by race and, therefore, reduces the utility of the four racial categories by excluding from them persons who would otherwise be included. Thus, the two formats currently permitted by Directive No. 15 for collecting racial and ethnic data do not provide comparable data.

—The perceived importance of historical comparability of racial and ethnic data has been questioned by some. Since the names of the categories have changed in the decennial censuses, and agencies use different methods even internally to collect the data, there is less continuity in racial and ethnic data than many believed. As a result, it has been suggested that this review of Directive No. 15 should have a more forward-looking approach, rather than being bound by past history.

—Some have suggested that consideration be given to collecting racial and ethnic data using "categories for response" that can be decoupled from "categories for reporting data." For example, the response categories could permit responses reflecting multiple origins; later these data would be aggregated into reporting categories following a set of standards and guidelines to make the reported data more useful for various program, administrative, and statistical purposes.

—There have also been suggestions that the classification of persons by race and ethnicity be eliminated entirely. Proponents of this view assert that the categories merely serve to perpetuate an over-emphasis on race in America and contribute to the fragmentation of our society.

Federal Uses of Racial and Ethnic Data

Given the broad range of suggestions and criticisms, OMB believes that a comprehensive review of all the categories is warranted. It is important to stress comprehensive, because these categories are not used simply for statistical purposes. Thus, while the use of the racial and ethnic categories in the collection of decennial census data is most widely known—and has most often been cited in the 1993 hearings and in the correspondence OMB receives—the categories are also used by Federal agencies for civil rights enforcement and for program administrative reporting. Some important examples of the Federal Government's uses of racial and ethnic data are:

- enforcing the requirements of the Voting Rights Act;
- reviewing State redistricting plans;
- collecting and presenting population and population characteristics data, labor force data, education data, and vital and health statistics;
- establishing and evaluating Federal affirmative action plans and evaluating affirmative action and discrimination in employment in the private sector;
- monitoring the access of minorities to home mortgage loans under the Home Mortgage Disclosure Act;
- enforcing the Equal Credit Opportunity Act;
- monitoring and enforcing desegregation plans in the public schools;
- assisting minority businesses under the minority business development programs; and
- monitoring and enforcing the Fair Housing Act.

These examples of statutory requirements are mentioned to foster public awareness and understanding of the Federal Government's many different needs for racial and ethnic data. Appreciation of the intended uses of the data helps determine what categories make sense. Further, these uses need to be taken into account when changes to the categories are suggested. In any event, OMB believes that it is essential for the Federal agencies to study the possible effects of any proposed changes to the categories on the quality and utility of the resulting data for a multiplicity of purposes.

General Principles for the Review of the Racial and Ethnic Categories

The critiques and suggestions for changing Directive No. 15 have underscored the importance of having a set of general principles to govern the current review process. The following principles were drafted in cooperation with Federal agencies serving on the Interagency Committee. Comments on these principles are welcomed.

1. The racial and ethnic categories set forth in the standard should not be interpreted as being scientific or anthropological in nature.

2. Respect for individual dignity should guide the processes and methods for collecting data on race and ethnicity; respondent self-identification should be facilitated to the greatest extent possible.

3. To the extent practicable, the concepts and terminology should reflect clear and generally understood definitions that can achieve broad public acceptance.

4. The racial and ethnic categories should be comprehensive in coverage and produce compatible, nonduplicated, exchangeable data across Federal agencies.

5. Foremost consideration should be given to data aggregations by race and ethnicity that are useful for statistical analysis, program administration and assessment, and enforcement of existing laws and judicial decisions, bearing in mind that the standards are not intended to be used to establish eligibility for participation in any Federal program.

6. While Federal data needs for racial and ethnic data are of primary importance, consideration should also be given to needs at the State and local government levels, including American Indian tribal and Alaska Native village governments, as well as to general societal needs for these data.

7. The categories should set forth a minimum standard; additional categories should be permitted provided they can be aggregated to the standard categories. The number of standard categories should be kept to a manageable size, as determined by statistical concerns and data needs.

8. A revised set of categories should be operationally feasible in terms of burden placed upon respondents and the cost to agencies and respondents to implement the revisions.

9. Any changes in the categories should be based on sound methodological research and should include evaluations of the impact of any changes not only on the usefulness of the resulting data but also on the comparability of any new categories with the existing ones.

10. Any revision to the categories should provide for a crosswalk at the time of adoption between the old and the new categories so that historical data series can be statistically adjusted and comparisons can be made.

11. Because of the many and varied needs and strong interdependence of Federal agencies for racial and ethnic data, any changes to the existing categories should be the product of an interagency collaborative effort.

The agencies recognize that these principles may in some cases represent competing goals for the standard. Through the review process, it will be necessary to balance statistical issues, needs for data, and social concerns. The application of these principles to guide the review and possible revision of the standard ultimately should result in consistent, publicly accepted data on race and ethnicity that will meet the needs of the government and the public while recognizing the diversity of the population and respecting the individual's dignity.

Sally Katzen,

Administrator, Office of Information and Regulatory Affairs.

APPENDIX

DIRECTIVE NO. 15

Race and Ethnic Standards for Federal Statistics and Administrative Reporting (as adopted on May 12, 1977)

This Directive provides standard classifications for recordkeeping, collection, and presentation of data on race and ethnicity in Federal program administrative reporting and statistical activities. These classifications should not be interpreted as being scientific or anthropological in nature, nor should they be viewed as determinants of eligibility for participation in any Federal program. They have been developed in response to needs expressed by both the executive branch and the Congress to provide for the collection and use of compatible, nonduplicated, exchangeable racial and ethnic data by Federal agencies.

1. **Definitions**

The basic racial and ethnic categories for Federal statistics and program administrative reporting are defined as follows:

a. *American Indian or Alaskan Native.* A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliations or community recognition.

b. *Asian or Pacific Islander.* A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. This area includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.

c. *Black.* A person having origins in any of the black racial groups of Africa.

d. *Hispanic.* A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race.

e. *White.* A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

2. **Utilization for Recordkeeping and Reporting**

To provide flexibility, it is preferable to collect data on race and ethnicity separately. If separate race and ethnic categories are used, the minimum designations are:

a. *Race:*
—American Indian or Alaskan Native
—Asian or Pacific Islander
—Black
—White

b. *Ethnicity:*
—Hispanic origin
—Not of Hispanic origin

When race and ethnicity are collected separately, the number of White and Black persons who are Hispanic must be identifiable, and capable of being reported in that category.

If a combined format is used to collect racial and ethnic data, the minimum acceptable categories are:
—American Indian or Alaskan Native
—Asian or Pacific Islander
—Black, not of Hispanic origin
—Hispanic
—White, not of Hispanic origin.

The category which most closely reflects the individual's recognition in his community should be used for purposes of reporting on persons who are of mixed racial and/or ethnic origins.

In no case should the provisions of this Directive be construed to limit the collection of data to the categories described above. However, any reporting required which uses more detail shall be organized in such a way that the additional categories can be aggregated into these basic racial/ethnic categories.

The minimum standard collection categories shall be utilized for reporting as follows:

a. *Civil rights compliance reporting.* The categories specified above will be used by all agencies in either the separate or combined format for civil rights compliance reporting and equal employment reporting for both the public and private sectors and for all

levels of government. Any variation requiring less detailed data or data which cannot be aggregated into the basic categories will have to be specifically approved by the Office of Management and Budget (OMB) for executive agencies. More detailed reporting which can be aggregated to the basic categories may be used at the agencies' discretion.

b. *General program administrative and grant reporting.* Whenever an agency subject to this Directive issues new or revised administrative reporting or recordkeeping requirements which include racial or ethnic data, the agency will use the race/ethnic categories described above. A variance can be specifically requested from OMB, but such a variance will be granted only if the agency can demonstrate that it is not reasonable for the primary reporter to determine the racial or ethnic background in terms of the specified categories, and that such determination is not critical to the administration of the program in question, or if the specific program is directed to only one or a limited number of race/ethnic groups, e.g., Indian tribal activities.

c. *Statistical reporting.* The categories described in this Directive will be used at a minimum for federally sponsored statistical data collection where race and/or ethnicity is required, except when: the collection involves a sample of such size that the data on the smaller categories would be unreliable, or when the collection effort focuses on a specific racial or ethnic group. A repetitive survey shall be deemed to have an adequate sample size if the racial and ethnic data can be reliably aggregated on a biennial basis. Any other variation will have to be specifically authorized by OMB through the reports clearance process. In those cases where the data collection is not subject to the reports clearance process, a direct request for a variance should be made to OMB.

5. **Effective Date**

The provisions of this Directive are effective immediately for all new and revised recordkeeping or reporting requirements containing racial and/or ethnic information. All existing recordkeeping or reporting requirements shall be made consistent with this Directive at the time they are submitted for extension, or not later than January 1, 1980.

4. **Presentation of Race/Ethnic Data**

Displays of racial and ethnic compliance and statistical data will use the category designations listed above. The designation "nonwhite" is not acceptable for use in the presentation of Federal Government data. It is not to be used in any publication of compliance or statistical data or in the text of any compliance or statistical report.

In cases where the above designations are considered inappropriate for presentation of statistical data on particular programs or for particular regional areas, the sponsoring agency may use:

(1) The designations "Black and Other Races" or "All Other Races," as collective descriptions of minority races when the most summary distinction between the majority and minority races is appropriate;

(2) The designations "White," "Black," and "All Other Races" when the distinction among the majority race, the principal minority race and other races is appropriate; or

(3) The designation of a particular minority race or races, and the inclusion of "Whites" with "All Other Races," if such a collective description is appropriate.

In displaying detailed information which represents a combination of race and ethnicity, the description of the data being displayed must clearly indicate that both bases of classification are being used.

When the primary focus of a statistical report is on two or more specific identifiable groups in the population, one or more of which is racial or ethnic, it is acceptable to display data for each of the particular groups separately and to describe data relating to the remainder of the population by an appropriate collective description.

OFFICE OF PERSONNEL MANAGEMENT

Request for Reclearance of Information Collection OPM Form 2809–EZ1

AGENCY: Office of Personnel Management

ACTION: Notice

SUMMARY: In accordance with the Paperwork Reduction Act of 1980 (title 44, U.S. Code, chapter 35), this notice announces a request for reclearance of an information collection. OPM Form 2809–EZ1, Enrollment Change and Brochure Request, is used only at Open Season to request an enrollment change, insurance plan brochures and other informational materials. If OPM Form 2809–EZ1 is used to request plan brochures, an OPM Form 2809–EZ2 is furnished to the enrollee for use if a plan change is desired.

Approximately 102,531 OPM Forms 2809–EZ1 are completed annually. Each form takes approximately 30 minutes to complete. The annual burden is 51,266 hours.

For copies of this proposal, contact C. Ronald Trueworthy on (703) 908–8550.

DATES: Comments on this proposal should be received July 11, 1994.

ADDRESSES: Send or deliver comments to—

Lorraine E. Dettman, Chief, Retirement and Insurance Group, Operations Support Division, U.S. Office of Personnel Management, 1900 E Street, NW., room 3349, Washington, DC 20415.

and

Joseph Lackey, OPM Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, NW., room 3002, Washington, DC 20503.

FOR INFORMATION REGARDING ADMINISTRATIVE COORDINATION—CONTACT: Mary Beth Smith-Toomey, Chief, Forms Analysis & Design, (202) 606–0623.

Office of Personnel Management.

Lorraine A. Green,

Deputy Director.

RAILROAD RETIREMENT BOARD

Determination of Quarterly Rate of Excise Tax for Railroad Retirement Supplemental Annuity Program

In accordance with directions in section 3221(c) of the Railroad Retirement Tax Act (26 U.S.C., section 3221(c)), the Railroad Retirement Board has determined that the excise tax imposed by such section 3221(c) on every employer, with respect to having individuals in his employ, for each work-hour for which compensation is paid by such employer for services rendered to him during the quarter beginning July 1, 1994, shall be at the rate of 40 cents.

In accordance with directions in section 15(a) of the Railroad Retirement Act of 1974, the Railroad Retirement Board has determined that for the quarter beginning July 1, 1994, 37.5 percent of the taxes collected under sections 3211(b) and 3221(c) of the Railroad Retirement Tax Act shall be credited to the Railroad Retirement Account and 62.5 percent of the taxes collected under such sections 3211(b) and 3221(c) plus 100 percent of the taxes collected under section 3221(d) of

the Railroad Retirement Tax Act shall be credited to the Railroad Retirement Supplemental Account.

Dated: June 1, 1994.

By Authority of the Board.

Beatrice Ezerski,

Secretary to the Board.

BILLING CODE 7905–01–M

RESOLUTION TRUST CORPORATION

Coastal Barrier Improvement Act; Property Availability; Oak Valley, Riverside County, CA

AGENCY: Resolution Trust Corporation.

ACTION: Notice.

SUMMARY: Notice is hereby given that the property known as Oak Valley, located in Beaumont and Calimesa, Riverside County, California, is affected by Section 10 of the Coastal Barrier Improvement Act of 1990 as specified below.

DATES: Written notices of serious interest to purchase or effect other transfer of all or any portion of this property may be mailed or faxed to the RTC until September 7, 1994.

ADDRESSES: Copies of detailed descriptions of this property, including maps, can be obtained from or are available for inspection by contacting the following person: Mr. V. Jackson Carney, III, Resolution Trust Corporation, c/o Landmark Land Companies, 2500 Landmark Drive, LaPlace, LA 70068, (504) 466–7469; Fax (504) 651–6057.

SUPPLEMENTARY INFORMATION: The Oak Valley property is located in north central Riverside County northwest of the junction of Interstate 10 and State Route 60, within the city limits of Beaumont and Calimesa, California. The site contains habitat for the Federally-listed endangered Least Bell's vireo and Stephen's kangaroo rat. The Oak Valley property consists of approximately 6,725 acres of undeveloped land except for an eighteen hole golf course which occupies approximately 202 acres. The property is contiguous with Noble Creek Park, which is managed by the Beaumont Cherry Valley Recreation and Park District, and adjacent to De Anza Park, which is managed by the Riverside County Regional Park and Open-Space District. This property is covered property within the meaning of Section 10 of the Coastal Barrier Improvement Act of 1990, Public Law 101–591 (12 U.S.C. 1441a–3).

Written notice of serious interest in the purchase or other transfer of all or any portion of this property must be received on or before September 7, 1994, by the Resolution Trust Corporation at the appropriate address stated above.

Those entities eligible to submit written notices of serious interest are:

1. Agencies or entities of the Federal government;
2. Agencies or entities of State or local government; and
3. "Qualified organizations" pursuant to section 170(h)(3) of the Internal Revenue Code of 1986 (26 U.S.C. 170(h)(3)).

Written notices of serious interest must be submitted in the following form:

Notice of Serious Interest

RE: [insert name of property]

Federal Register Publication Date:

_____

1. Entity name.

2. Declaration of eligibility to submit Notice under criteria set forth in the Coastal Barrier Improvement Act of 1990, Public Law 101–591, section 10(b)(2), (12 U.S.C. 1441a–3(b)(2)), including, for qualified organizations, a determination letter from the United States Internal Revenue Service regarding the organization's status under section 501(c)(3) of the U.S. Internal Revenue Code (26 U.S.C. 170(h)(3)).

3. Brief description of proposed terms of purchase or other offer for all or any portion of the property (e.g., price, method of financing, expected closing rate, etc.).

4. Declaration of entity that it intends to use the property for wildlife refuge, sanctuary, open space, recreational, historical, cultural, or natural resource conservation purposes (12 U.S.C. 1441a–3(b)(4)), as provided in a clear written description of the purpose(s) to which the property will be put and the location and acreage of the area covered by each purpose(s) including a declaration of entity that it will accept the placement, by the RTC, of an easement or deed restriction on the property consistent with its intended conservation use(s) as stated in its notice of serious interest.

5. Authorized Representative (Name/Address/Telephone/Fax).

BILLING CODE 6714–01–M

Coastal Barrier Improvement Act; Property Availability; Reserve Residential, St. John the Baptist Parish, LA; Airline Industrial North, St. John the Baptist Parish, LA

AGENCY: Resolution Trust Corporation.

ACTION: Notice.

SUMMARY: Notice is hereby given that the properties known as Reserve Residential and Airline Industrial North, located in Reserve, St. John the Baptist Parish, Louisiana, are affected by Section 10 of the Coastal Barrier Improvement Act of 1990 as specified below.

DATES: Written notices of serious interest to purchase or effect other transfer of all or any portion of these properties may be mailed or faxed to the RTC until September 7, 1994.

ADDRESSES: Copies of detailed descriptions of these properties, including maps, can be obtained from or are available for inspection by contacting the following person: Mr. V. Jackson Carney, III, Resolution Trust Corporation, c/o Landmark Land Companies, 2500 Landmark Drive, LaPlace, LA 70068, (504) 466–7469; Fax (504) 651–6057.

SUPPLEMENTARY INFORMATION: The Reserve Residential property is located in the northwest portion of the intersection of Airline Highway (U.S. Hwy 61) and the Codshalk Canal in Reserve, Louisiana. The site is subject to the State's Coastal Zone Management Program, it has recreational value, and is adjacent to St. John the Baptist City Park. The Reserve Residential property consists of approximately 227.4 acres of undeveloped land. The site is bounded to the north by vacant land, to the west by St. John the Baptist Parish Airport, and to the south by Airline Highway.

The Airline Industrial North property is also located in the northwest portion of the intersection of Airline Highway (U.S. Hwy 61) and the Codshalk Canal in Reserve, Louisiana. The site is subject to the State's Coastal Zone Management Program, it has recreational value, and is adjacent to St. John the Baptist City Park. The Airline Industrial North property consists of approximately 122.37 acres of undeveloped land. The site is bounded to the north by St. John the Baptist Parish Airport, to the east by vacant land, to the west by Terra Haute plantation, and to the south by Airline Highway. These properties are covered properties within the meaning of Section 10 of the Coastal Barrier Improvement Act of 1990, Public Law 101–591 (12 U.S.C. 1441a–3).

Written notice of serious interest in the purchase or other transfer of all or any portion of these properties must be received on or before September 7, 1994, by the Resolution Trust Corporation at the appropriate address stated above.

Those entities eligible to submit written notices of serious interest are:

1. Agencies or entities of the Federal government;
2. Agencies or entities of State or local government; and
3. "Qualified organizations" pursuant to section 170(h)(3) of the Internal Revenue Code of 1986 (26 U.S.C. 170(h)(3)).

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–34148; File No. S7–18–94]

EDGAR Review

AGENCY: Securities and Exchange Commission.

ACTION: Request for comments.

SUMMARY: The Securities and Exchange Commission ("Commission") is requesting public comment on the performance of the operational Electronic Data Gathering, Analysis, and Retrieval (EDGAR) system. Responses will be used in the evaluation of EDGAR's readiness for and acceptability in support of mandated EDGAR filing for all domestic registrants.

DATES: Comments should be received on or before July 11, 1994.

ADDRESSES: Comments should be submitted in triplicate to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. All comment letters should refer to File No. S7–18–94. All comments received will be available for public inspection and copying in the Commission's Public Reference Room, 450 Fifth Street NW., Washington, DC 20549.

FOR FURTHER INFORMATION CONTACT: David T. Csoenhafer, Director, at (202) 942–8800, Office of Planning, Administration and Security, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549.

SUPPLEMENTARY INFORMATION: The Electronic Data Gathering, Analysis, and Retrieval (EDGAR) system is an information system developed by the Securities and Exchange Commission (SEC) to automate the filing, processing, and dissemination of more than 11 million pages of registration statements and applications received by the SEC each year. Begun in January 1989, and implemented for operational use in July 1992, the operational EDGAR system will ultimately receive submissions from over 15,000 companies that are registered with the SEC.

Currently, some 3,400 companies file reports electronically through EDGAR. Based on implementation and operation to date, the Commission is now contemplating expansion of EDGAR beyond this initial group of mandated filers, to include all domestic registrants as well as most third party filings with respect to those registrants. To this end, public comment is sought on the performance and success of the operational EDGAR system to date.

Respondents are asked to, as applicable:

- Identify the group they best represent: registrant, investment company, third-party filer, filing agent, training agent, secondary market (disseminator/service bureau), or the public;
- Identify the year they first began using EDGAR (Pilot or Operational system);
- Estimate the number of test filings they have submitted via EDGAR since it went operational on July 15, 1992; and
- Estimate the number of live filings they have submitted via EDGAR since it went operational on July 15, 1992

Respondents are asked to comment on EDGAR performance in the following areas:

- Integrity (e.g., are filings processed correctly?, are fees calculated correctly?, does the content of disseminated filings equal what was submitted?);
- Reliability (e.g., availability of EDGAR, CompuServe and dissemination systems);
- Responsiveness (e.g., speed of filing, acceptance, notification and queries);
- Stability (e.g., lack of interruptions or outages);
- Security (e.g., safeguards against inappropriate access, use or modification of data);
- Capacity (e.g., adequacy of phone lines, storage and processing power); and
- Usability (e.g., ease-of-use and user-friendliness).

Respondents are also asked to:

- Identify any reason why the SEC should not adopt a rule requiring mandated EDGAR filing by all domestic registrants (as well as third parties making filings with respect to these registrants)

Third-party filers are encouraged to also comment on the experience of being a third-party filer.

Although participation is voluntary, responses are encouraged to ensure the valid assessment of EDGAR performance and capabilities

Dated: June 2, 1994.

Jonathan G. Katz,

Secretary

[FR Doc. 94–13963 Filed 6–8–94; 8:45 am]

BILLING CODE 8010–01–M

[Release No. 34–34155; File No. SR–CHX–94–14]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by the Chicago Stock Exchange, Inc., to Establish a Policy Relating to the Automatic Execution Feature of the Midwest Automated Execution System

June 3, 1944.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on May 31, 1994, the Chicago Stock Exchange, Inc. ("CHX" or "Exchange") filed with the Securities and Exchange Commission ("Commission" or "SEC") the proposed rule change as described in Items I, II and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The CHX has published to members a policy relating to the automatic execution feature of the Midwest Automated Execution ("MAX") System which, *inter alia*, automates the Exchange's Guaranteed Execution System ("BEST System") pursuant to Article XX, Rule 37 of the CHX Rules.[1]

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

I. Purpose

The MAX System automates the requirements of Rule 37 of Article XX (the BEST System) which guarantees executions at the best market up to a certain size for agency orders. Numbered paragraph 7 under Rule 37[2] allows Specialists and floor brokers to seek relief from the requirements of the BEST System in unusual trading situations. For example, on January 26, 1994, the Exchange filed SR–CHX–94–2 which set forth a temporary policy that dealt with one type of unusual trading situation. That policy expired on April 9, 1994.[3]

The purpose of this rule filing is to publish to members a new policy that describes procedures to be followed in the event that unusual trading situations arise in the future which might require relief from the automatic execution feature of MAX in a particular stock.[4] In the event that the automatic execution feature is switched to the manual mode, the Exchange will disseminate this fact to MAX terminals as an administrative message, if time permits.

2. Statutory Basis

The proposed rule change is consistent with section 6(b)(5) of the Act in that it is designed to promote just and equitable principles of trade, to remove impediments and to perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The proposed rule change has been endorsed by the Exchange's Floor Procedures Committee.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change constitutes a stated policy, practice or interpretation with respect to the meaning, administration or enforcement of an existing rule of the Exchange and therefore has become effective pursuant to section 19(b)(3)(A) of the Act and subparagraph (e) of Rule 19b–4 thereunder. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying at the Commission's Public Reference Room, 450 Fifth Street NW., Washington, DC 20549. Copies of the filing will also be available for inspection and copying at the principal office of the CHX. All submissions should refer to File No. SR–CHX–94–14 and should be submitted by June 30, 1994.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 94–14030 Filed 6–8–94; 8:45 am]

BILLING CODE 8010–01–M

---

[1] The policy, which was included in a Notice To Members dated May 31, 1994, states, in part, that beginning with the opening on April 4, 1994, specialists have had the ability to switch their MAX terminals off automatic execution at their respective posts. This new functionality is being implemented to allow specialists to timely switch to a manual execution mode when a certain analyst's report is broadcast on cable T.V., if market conditions in a particular stock warrant it. Specialists should switch to manual mode only when absolutely necessary and are required to return to the automatic execution functionality immediately when the primary market quotes accurately reflect market conditions. A specialist cannot remain in manual mode, under this paragraph, for more than 10 minutes without securing the permission of two (2) floor officials.

In all other instances, when a specialist believes it is necessary to be in a manual execution mode, he or she must always seek the permission of two (2) floor officials before switching to manual. This new functionality cannot be used merely because of a volatile market, but shall only be permitted when the primary market quotes are inaccurate due to market conditions. For example, this new functionality might be used if it became apparent that the NYSE invoked its unusual market conditions rule (pursuant to SEC Rule 11Ac1–1). Floor officials must be satisfied that the conditions which permit putting an issue on manual mode are present before granting a specialist's request to switch to the manual mode and shall monitor the conditions which formed the basis for their decision to ensure that specialists' return to the auto-execution feature when such conditions are no longer present. Specialists also have the responsibility, and are required, to immediately reinstate MAX's automatic execution functionality when the primary market quotes accurately reflect market conditions.

Specialists are reminded that when operating in the manual mode they still have the responsibility to fill customer orders according to CHX rules—including the BEST Rule. All pricing executions will be reviewed for accuracy.

The Exchange and the Committee on Floor Procedure anticipate that this capability will only be utilized on an infrequent basis and only in unusual circumstances.

[2] CHX Rule 37, Paragraph 7 states that in unusual trading situations, a specialist or floor broker may seek relief from the requirements of Rule 37, Paragraphs 1 through 6 from two members of the Committee on Floor Procedure or a designated member of the Exchange staff who would have authority to set execution prices.

[3] The temporary policy in File No. SR–CHX–94–2 was amended by the Exchange to provide for a "sunset" provision whereby the effectiveness of the policy would terminate on April 9, 1994. See letter from J. Craig Long, Foley & Lardner, to Louis A. Randazzo, Attorney, Office of Derivative and Exchange Oversight, SEC, dated February 2, 1994.

[4] The Commission notes that the policy does not permit specialists to switch to manual execution mode merely because a certain analyst's report is broadcast on cable television. The Commission would be concerned if the MAX terminals were switched off automatic execution in the absence of market conditions that resulted in inaccurate primary market quotes.

Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change by National Association of Securities Dealers, Inc., Relating to Application for Membership in the Association

June 3, 1994.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] notice is hereby given that on May 4, 1994, the National Association of Securities Dealers, Inc. ("NASD" or "Association") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the NASD.[2] The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The NASD is proposing to amend sections 1(b) and 1(c) to Article III of the NASD By-Laws and Schedule C to the By-Laws to modify the process by which an applicant applies for membership in the Association. Below is the text of the proposed rule change. Proposed new language is italicized and deleted language is bracketed.

By-Laws Article III Membership

Application for Membership

Sec 1. (a) Application for membership in the Corporation, properly signed by the applicant, shall be made to the Corporation, on the form to be prescribed by the Corporation, and shall contain:

(1) An acceptance of and an agreement to abide by, comply with, and adhere to, all the provisions, conditions, and covenants of the Certificate of Incorporation, the By-Laws, the rules and regulations of the Corporation as they are or may from time to time be adopted, changed or amended, and all rulings, orders, directions and decisions of, and sanctions imposed by, the Board of Governors or any duly authorized committee, the provisions of the federal securities laws, including the rules and regulations adopted thereunder, including the rules of the Municipal Securities Rulemaking Board and the Treasury Department, provided, however, that such an agreement shall not be construed as a waiver by the applicant of any right to appeal as provided in the Act;

(2) An agreement to pay such dues, assessments, and other charges in the manner and amount as shall from time to time be fixed by the Board of Governors pursuant to these By-Laws;

(3) An agreement that neither the Corporation, nor any officer or employee thereof, nor any member of the Board of Governors or of any district or other committee, shall be liable, except for willful malfeasance, to the applicant or to any member of the Corporation or to any other person, for any action taken by such officer or member of the Board of Governors or of any district or other committee, in his official capacity, or by any employee of the Corporation while acting within the scope of his employment or under instruction of any officer, board, or committee of the Corporation, in connection with the administration or enforcement of any of the provisions of the rules of the Corporation as they are or may from time to time be adopted, or amended, or any ruling, order, directive, decision of, or penalty imposed by, the Board of Governors or any duly authorized committee, the provisions of the federal securities laws, including the rules and regulations adopted thereunder, including the rules of the Municipal Securities Rulemaking Board and the Treasury Department; and

(4) Such other reasonable information with respect to the applicant as the Board of Governors may require.

(b) Any application received by the Corporation shall be referred to the District Committee of the [d]*D*istrict in which the applicant has his principal place of business, and if [a majority of the members of] such District Committee *or a Subcommittee designated by such District Committee* determines that the applicant has satisfied all of the admission requirements of the [By-Laws] *Corporation*, it shall [recommend the applicant's admission to the membership and promptly notify the Secretary of the Corporation of such recommendation] *promptly notify the Association's Membership Department of its determination.*

(c) If [a majority of the members of] such District Committee *or a Subcommittee designated by such District Committee* determines that the applicant fails to satisfy all of the admission requirements of the [By-Laws] *Corporation*, it shall promptly notify the [Secretary of the Corporation who shall thereafter take appropriate action as of the date when posted to the membership roll] *Association's Membership Department of its determination.*

(d) Each member shall ensure that this membership application with the Corporation is kept current at all times by supplementary amendments to the original application

* * * * *

Schedule C

* * * * *

Part I—Applications For Membership

(1) Pre-Membership Interviews

(a) An applicant for membership in the Corporation shall furnish to the District Office *staff* for the District in which it has or intends to have its principal place of business:

(1) A copy of its [current submission to the Securities and Exchange Commission pursuant to Rule 15b1–2(c) under the Securities Exchange Act of

---

[1] 15 U.S.C. 78s(b)(1) (1988)

[2] The NASD amended the proposed rule change once subsequent to its original filing on March 11, 1994. This amendment changes the requirement that an applicant for membership in the NASD submit a copy of its "current submission to the Securities and Exchange Commission pursuant to Rule 15b1–2(c) under the Securities Exchange Act of 1934" to require that the applicant submit "Form BD filed with the Central Registration Depository." This amendment is technical in nature in that it corrects a deficiency that arose out of the 1992 amendments to the broker-dealer registration process which deleted Rule 15b1–2(c) and requires that Form BD be submitted to the NASD. See Securities Exchange Act Release No. 31660 (Dec. 28, 1992), 58 FR 11 (Jan. 4, 1993) (adoption of rule amendments to broker-dealer registration and reporting requirements).

1934] *Form BD filed with the Central Registration Depository*;

(2) Its most recent trial balance, balance sheet, supporting schedules and computation of new capital;

(3) A copy of its written supervisory procedures;

(4) A list of all officers, directors, general partners, employees and other persons who will be associated with it at the time of admission to membership;

(5) A description of business activities in which it intends to engage; and

(6) Such other relevant information and documents as may be requested by the District Office *staff*.

Unless otherwise determined by *a Subcommittee designated by* the District [c]Committee, an applicant's failure to respond or a materially inadequate response to a request for information by the District Office *staff* within sixty (60) days of the request shall result in the termination of that application.

(b) Before an applicant shall be admitted to membership in the Corporation, and within a reasonable period of time after receipt of the foregoing information, the District Office *staff* shall schedule a pre-membership interview at which responsible personnel of the applicant, as determined by the District Office *staff*, shall personally appear at the District Office. At such interview, the applicant shall demonstrate, in accordance with the criteria listed in section (1)(c) hereof, the appropriateness of its admission to membership in the Corporation to conduct the type of business intended in the manner specified in its submission. Unless otherwise determined by *a Subcommittee designated by* the District (c)Committee, an applicant shall have twelve (12) months, from the date of application made in accordance with section 1(a) above, to complete the pre-membership review process. Failure to complete requirements for review by *a Subcommittee designated by* the District [c]Committee by that date shall result in the termination of that application.

(c) The pre-membership interview shall address the applicant's business plans to determine their adequacy and consistency with the federal securities laws and the rules of the Corporation; good business practices in the investment banking or securities business; a member's fiduciary obligation to its customers; and the public interest and the protection of investors. The pre-membership interview and shall review, among other things,

(1) The nature, adequacy, source and permanence of applicant's capital and its arrangements for additional capital should a business need arise;

(2) The applicant's proposed recordkeeping system;

(3) The applicant's proposed internal procedures, including compliance procedures;

(4) The applicant's familiarity with applicable NASD rules and federal securities laws;

(5) The applicant's capability to properly conduct the type of business intended in view of the:

A. Number, experience and qualifications of the persons to be associated with it at the time of its admission to membership,

B. Its planned facilities,

C. Arrangements, if any, with banks, clearing corporations and others, to assist it in the conduct of its securities business,

D. Supervisory personnel, methods and procedures; and

(6) Other factors relevant to the scope and operation of its business.

(d) Within thirty (30) days after the conclusion of such pre-membership interview, or if further information and/or documents are requested, within thirty (30) days of the receipt of such information or documents, [the District Office] *a Subcommittee designated by the District Committee shall consider the application and* shall notify the applicant in writing whether its application has been granted, denied, or granted subject to restrictions on its business activities, and provide the rationale for such determination.

(e) In all cases where restrictions are placed on its business activities, the applicant shall, prior to approval of membership, execute a written agreement with the Corporation agreeing to abide by the restrictions specified in the determination and agreeing not to modify its business activities in any way inconsistent with such agreement without first notifying the Corporation and receiving its written approval. These restrictions shall remain in effect and are binding on the applicant and all successors to the ownership or control of the applicant until modified pursuant to [paragraph] *section* (3) below.

(2) Procedures for Review by the District Committee and the Board of Governors

(a) The [District Office's] *Subcommittee's* determination shall be [reviewed] *subject to review* by the relevant District Committee upon request made by the applicant, *filed* within 15 *calendar* days *after the date* [of receipt] of the notification. Until completion of the District Committee's review, an applicant denied membership shall not be admitted to membership, and an applicant admitted to membership subject to restrictions on its business activities may engage in business consistent with such restrictions only after it has executed the agreement required by [paragraph] *section* (1)(e) hereof.

(b) In connection with review by the District Committee, the applicant shall have the right to appear before a *Hearing* [s]*Subcommittee* of the District Committee, or the *Hearing* [s]*Subcommittee* may require such appearance. The applicant may present evidence and be represented by counsel. The *Hearing* [s]*Subcommittee* may request additional information to assist it in reaching a determination. A record shall be kept of the proceedings. *No member of the District Committee who served as a member of the Subcommittee designated pursuant to Section 1(d) shall participate in the determination by the District Committee.*

(c) The District Committee, after consideration of the record before it *developed by the Hearing Subcommittee* and the criteria contained in section (1)(c), above, shall within a reasonable time after *the* close of the record, notify the applicant in writing that its application has been granted, denied or granted subject to restrictions on its business activities and provide the rationale for such determination. The District Committee's determination shall be made independent of the determination of the [District Office] *Subcommittee designated by the District Committee* and shall not be limited thereby.

(d) The District Committee's determination shall be [reviewed] *subject to review* by the [Board of Governors] *National Business Conduct Committee (NBCC)* upon request made by the applicant, *filed* within 15 *calendar* days *after the date* [of receipt] of the notification. The [Board of Governors] *NBCC* may call for review any District Committee determination within forty-five *calendar* days [of] *after* the date of the notification. During the pendency of such review, an applicant denied membership shall not be admitted to membership and an applicant admitted to membership subject to restrictions on its business activities may engage in business consistent with such restrictions only after it has executed the agreement required by [paragraph] *section* (1)(e), above.

(e) In connection with review by the [Board of Governors] *NBCC*, the applicant shall have the right to appear before a [s]Subcommittee of the [Board

of Governors] *NBCC*, or the *NBCC* [s]Subcommittee may require such appearance. The applicant may supplement the record developed before the District Committee and be represented by counsel. The NBCC [s]Subcommittee may request additional information to assist the [Board of Governors] *NBCC* in reaching a determination. A record shall be kept of the proceedings.

(f) *Unless a matter is called for discretionary review by the Board of Governors (Board) pursuant to Section (2)(g),* [T]the [Board of Governors] *NBCC*, after consideration of the record before it *developed by the NBCC Subcommittee*, and the criteria stated in Section (1)(c), above, shall within a reasonable period of time after close of the record before it, notify the applicant in writing that its application has been granted, denied or granted subject to restrictions on its business activities, provide the rationale for such determination, *and shall constitute final action for the NASD for purposes of section (2)(h) below.* The [Board of Governors'] *NBCC's* determination shall be made independent of the determinations of the [District Office] *Subcommittee designated by the District Committee* and District Committee, and shall not be limited thereby. *In the event of discretionary review by the Board of Governors, the decision of the Board shall constitute final action of the NASD for the purposes of section (2)(h) below and the applicant shall be promptly notified in writing that its application has been granted, denied or granted subject to restrictions in its business activities, and shall be provided the rationale for such determination.*

(g) *Determinations of the NBCC may be reviewed by the Board of Governors solely on the request of one or more Governors. Such review, which may be undertaken solely at the discretion of the Board, shall be in accordance with resolutions of the Board governing the review of NBCC determinations. In reviewing any NBCC determination of an application for membership, the Board may affirm, reverse of modify any decision to accept, deny or accept subject to restrictions, an applicant. Discretionary review by the Board shall operate as a stay of any action or denial by the Subcommittee designated by the District Committee and any determination by the NBCC, until a decision is rendered by the Board.*

[(g)] *(h)* The applicant may apply for review of the *NBCC's or the* Board of Governors' determination to the Securities and Exchange Commission in accordance with Section 19 of the Securities Exchange Act of 1934, as amended.

[(h)] *(i)* In any case where restrictions have been placed upon its business activities by the Board of Governors, *NBCC*, [or] a District Committee, *or a Subcommittee designated by a District Committee*, the applicant shall, prior to approval of membership, execute the agreement required by paragraph (1)(e), above.

(3) Removal of Restrictions Imposed

(a) Upon written request by the member, any restrictions on the business activities of a member shall be reviewed and may be removed or modified by *a Subcommittee designated by* the District Committee for the District in which the member currently has its principal place of business, when, in the [District Committee's] *Subcommittee's* judgement, the member has demonstrated that such action is appropriate in light of the criteria contained in section (1)(c), above. In doing so, the District Committee shall consider the circumstances which gave rise to the imposition of the restrictions, the operations of the member since the imposition of the restrictions and any new evidence submitted in connection with the member's request.

(b) Any modification of restrictions shall be subject to review by *the District Committee and the NBCC or* the Board of Governors and the SEC pursuant to the procedures provided in Section (2), above. A refusal *by a Subcommittee designated by a District Committee* to *remove or* modify *any restrictions* shall be similarly reviewed but only upon [application] *request* of the member filed with the [Board of Governors] *District Committee that is filed* within ten *calendar* days *after the date* of notification of such refusal.

(c) Should the restrictions on a member's activity be modified, the agreement required by [paragraph] *section* (1)(e), above, shall be modified accordingly.

(4) Changes in Ownership or Control of Existing Members

Should the ownership or control of an existing member change, the Corporation may, in its discretion, condition continuance in membership in the Corporation on prompt compliance with the pre-membership interview procedures contained in this part I.

(5) Notification to the District Office of Certain Events

Members are required to notify in writing the Corporation's District Office for the District in which the member's main office is located no later than ten (10) business days after any of the following specified events: (1) Any merger of the member; (2) an acquisition by the member; (3) an acquisition of the member or substantially all of its assets; and (4) any change in the entity ownership or partnership capital of the member which results in one person or entity owning 50% or more of such equity ownership or partnership capital.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the NASD included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The NASD has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

By-Laws

Sections 1(b) and 1(c) to Article III of the NASD By-Laws currently provide that any application for membership in the Association shall be referred to the District Committee of the NASD district in which the applicant has its principal place of business, and that such District Committee shall make the determination as to whether the applicant satisfies or fails to satisfy all of the admission requirements of the NASD By-Laws. However, the provisions governing pre-membership interviews in Schedule C to the NASD By-Laws currently contemplate a possible three-step process under which the initial determination for Association eligibility is made by District Office staff with review, if appropriate, by the District Committee upon request by the applicant.

Although the provisions of Schedule C contemplate review of applications for membership in the Association by the District Office staff, no District, in fact, has ever made such a determination at a staff level. Additionally, such action would be inconsistent with the governing By-Law provision that requires that the District Committee shall make such an initial determination. The proposed rule change, therefore, would amend the NASD By-Laws and Schedule C to

modify and make consistent the process by which an applicant applies for membership in the Association in that it would require all initial applications for membership be reviewed by either the District Committee or a Subcommittee of the District Committee, with a right of appeal to the full District Committee.

Subsection 1(b) and 1(d) to Article III of the NASD By-Laws are proposed to be amended to establish the authority of a District Committee to designate a Subcommittee to make a determination of admissibility of an applicant and to require a designated Subcommittee to promptly notify the Association's Membership Department of its determination. The phrase "a majority of the members of" is proposed to be eliminated from Subsection 1(b) as unnecessary.

Schedule C

As an initial matter, Schedule C is proposed to be amended throughout by referencing the phrase "a Subcommittee designated by the District Committee" in place of the phrases "District Committee" or "District Office" wherever such replacement conforms the language of Schedule C to the proposed change in the By-laws establishing the ability for the District Committee to delegate authority to a Subcommittee to review and determine the admissibility of an applicant.

Subsection (1)(a) to part I of Schedule C to the By-Laws is proposed to be amended to clarify that applications for membership in the Association are to be furnished to the District Office staff. Subsection 1(a)(6) is proposed to be amended to clarify that the applicant must provide in connection with its application submission such other relevant information and documents as may be requested by the District Office staff.

Subsection 1(b) to part I of Schedule C to the By-Laws is proposed to be amended to clarify that the scheduling of an applicant's pre-membership interview and the determination of which responsible personnel shall appear on behalf of the applicant at such interview will be determined by the District Office staff.

Subsection (1)(d) to part I of Schedule C to the By-Laws is proposed to be amended to clarify that the District Committee's designated Subcommittee, rather than the District Office, shall consider the application submission.

Subsection 2(a) to part I of Schedule C to the By-Laws is proposed to be amended to clarify that it is the determination of the designated Subcommittee, rather than the District Office, which will be reviewed by the District Committee upon request of the applicant. Subsection 2(a) to part I of Schedule C to the By-Laws is also proposed to be amended to clarify that the applicant's request for review must be filed within 15 calendar days after notification of the Subcommittee's determination.

Subsection 2(b) to part I of Schedule C to the By-Laws is proposed to be amended to clarify that, in connection with review by the District Committee, an applicant is entitled to appear before a Hearing Subcommittee of the District Committee and that no member of the District Committee who served as a member of the Subcommittee originally designated to review the applicant's submission and no member of the Hearing Subcommittee shall participate in the determination resulting from the District Committee's review.

Subsection 2(c) to part I of Schedule C to the By-Laws is proposed to be amended to clarify that the District Committee's determination of the record developed before it shall be made independent of the determination of the Subcommittee designated by the District Committee.

Subsection 2(d) to part I of Schedule C to the By-Laws is proposed to be amended to clarify that the District Committee's determination shall be subject to review by the National Business Conduct Committee ("NBCC") upon request made by the applicant filed within 15 calendar days after the date of notification to the applicant by the District Committee of its determination.

Subsection 2(e) to part I of Schedule C to the By-Laws is proposed to be amended to clarify that in connection with review by the NBCC, the applicant has the right to appear before a Subcommittee of the NBCC.

Subsection 2(f) to part I of Schedule C to the By-Laws is proposed to be amended to clarify that the NBCC's determination of the record developed before it shall be made independent of the determination of the Subcommittee designated by the District Committee, and shall constitute final action for the NASD for purposes of Subsection (2)(h) to part I of Schedule C to the By-Laws unless called for discretionary review by the Board of Governors. Subsection 2(f) to part I of Schedule C to the By-Laws is also proposed to be amended to clarify that a decision by the Board pursuant to its power of discretionary review shall constitute final action for purposes of Subsection (2)(h) to part I of Schedule C to the By-Laws and that such determination and its rationale shall be communicated to the applicant in writing.

Proposed new Subsection (2)(g) to part I of Schedule C to the By-Laws is intended to clarify that review by the Board of Governors of NBCC determinations is discretionary and may occur solely on the request of one or more governors, and not at the request of the applicant. Such discretionary review of the Board shall be in accordance with the resolutions of the Board governing the review of NBCC determinations. The Board may affirm, reverse or modify an NBCC decision. The commencement of the review shall operate as a stay of any action by the Subcommittee designated by the District Committee and any determination by the NBCC until a decision is reached by the Board.

Old Subsection (2)(g) to part I of Schedule C to the By-Laws is proposed to be designated Subsection (2)(h) and states that the applicant may apply for review to the Securities and Exchange Commission of any determination by the NBCC or the Board.

Old Subsection (2)(h) to part I of Schedule C to the By-Laws is proposed to be designated Subsection (2)(i) and clarifies that the requirements of the Subparagraph apply to determinations of restrictions placed on the applicant made by the NBCC or a Subcommittee designated by the District Committee, as well as to such determinations made by the Board or a District Committee.

Subsection (3)(a) to part I of Schedule C to the By-Laws is proposed to be amended to clarify that review and removal or modification of restrictions placed on the applicant shall be done by a Subcommittee designated by the District Committee.

Subsection (3)(b) to part I of Schedule C to the By-Laws is proposed to be amended to clarify that modifications of restrictions shall be subject to review by the District Committee and the NBCC, as well as by the Board and the SEC. Subsection (3)(b) to part I of Schedule C to the By-Laws is also proposed to be amended to clarify that the refusal by a Subcommittee designated by the District Committee to remove or modify restrictions shall also be subject to review, but only upon request of the member filed with the District Committee within ten calendar days after the date of notification of such refusal.

The NASD believes that the proposed rule change is consistent with the provisions of section 15A(b)(8) of the Act,[3] which require, among other things, that the rules of the Association provide a fair procedure for the denial of membership to any person seeking membership therein or the prohibition or limitation by the Association of any person with respect to access to services offered by the Association or a member thereof, in that the proposed rule clarifies the process by which an applicant for membership in the Association is accepted, denied or accepted with limitations and eliminates any ambiguity in the Association's By-Laws and the Schedules to the By-Laws with respect to the application and administration of such process.

[3] 15 U.S.C. 78o–3.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The NASD does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

A. By order approve such proposed rule change, or

B. Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the NASD. All submissions should refer to file number SR–NASD–94–14 and should be submitted by June 30, 1994.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[4]

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-M

[Release No. 34–34151; File No. SR–NASD–94–19]

Self-Regulatory Organizations; National Association of Securities Dealers, Inc.; Order Approving Proposed Rule Change to Provide the NASD With Discretionary Authority to Exclude an Issuer From the Nasdaq Stock Market or Impose Additional or More Stringent Criteria for Inclusion in the Nasdaq Stock Market

June 3, 1994.

I. Introduction

On April 6, 1994, the National Association of Securities Dealers, Inc. ("NASD" or "Association") filed with the Securities and Exchange Commission ("SEC" or "Commission") a proposed rule change pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")[1] and Rule 19b–4 thereunder.[2] The rule change adds provisions to Schedule D to the NASD By-Laws clarifying the NASD's discretionary authority to exclude an issuer from the Nasdaq Stock Market ("Nasdaq") or require additional or more stringent criteria for inclusion in Nasdaq

Notice of the proposed rule change together with its terms of substance was provided by issuance of a Commission release and by publication in the **Federal Register**.[3] Three comments were received in response to the Commission release, one expressing general support and two opposing the proposal. This order approves the proposed rule change.

[1] 17 CFR 200.30–3(a)(12) (1993).

[2] 15 U.S.C. 78s(b)(1) (1988).

[3] 17 CFR 240.19b–4 (1993).

[3] Securities Exchange Act Release No. 33899 (Apr. 12, 1994), 59 FR 18171 (Apr. 15, 1994).

II. Description

According to the NASD, it submitted this rule filing primarily to address concerns about the increasing number of applications for inclusion in Nasdaq by companies controlled or substantially influenced by persons with a history of securities or commodities violations.[4] The NASD also indicated that its proposal to amend Sections 1 and 2 of Part II to Schedule D[5] is intended to codify certain principles underlying Nasdaq. First, the NASD states, that as operator of Nasdaq, it is entrusted with the authority to preserve and strengthen the quality of and public confidence in its market. Second, Nasdaq stands for integrity and ethical business practices in order to enhance investor confidence, thereby continuing to the financial health of the economy, and supporting the capital formation process. Third, inclusion in Nasdaq carries with it an implicit expectation that all Nasdaq issuers, from new public companies to companies of international stature, share these objectives. The proposal further clarifies that the NASD, in addition to applying the enumerated criteria set forth in Parts II and III to Schedule D, may exercise broad discretionary authority over the initial and continued inclusion of securities in Nasdaq in order to maintain the quality of and public confidence in its market. Under this broad discretion, and in addition to its authority under Subsection 3(a), the proposal notes that the NASD may deny initial inclusion or apply additional or more stringent

[4] In addition, this rule change corrects a technical deficiency in the NASD's rules. The proposal amends Part II, Section 3(a) of Schedule D to the NASD's By-Laws which currently provides the NASD, under certain circumstances, with the authority to apply additional or more stringent criteria for the initial or continued inclusion of particular securities or to suspend or terminate the inclusion of a security otherwise qualified for inclusion in Nasdaq. For many years, the NASD has interpreted Section 3(a) to authorize the NASD to deny inclusion of a security in Nasdaq. The NASD believes authority to deny inclusion is inherent in Section 3(a), otherwise the NASD would be required to include a security in Nasdaq in order to terminate the security's inclusion. The NASD has determined that its authority to deny inclusion of particular securities in Nasdaq in compliance with the enumerated provisions of Section 3(a) should be stated expressly. The proposed rule change, therefore, amends Part II, Section 3(a) of Schedule D to clarify this authority.

[5] NASD Manual, Schedules to the By-Laws, Schedule D, Part II, Secs. 1 & 2, (CCH) ¶¶ 1804 & 1804. Nasdaq includes both Nasdaq SmallCap Market and Nasdaq National Market securities. Sections 1 and 2 to Part II of Schedule D include the qualification requirements for domestic and Canadian securities and for non-Canadian foreign securities and American Depositary Receipts, respectively. The qualification requirements in Sections 1 and 2 of Part II to Schedule D apply to both the Nasdaq SmallCap Market and Nasdaq National Market securities.

criteria for the initial or continued inclusion of particular securities or suspend or terminate the inclusion of particular securities based on any event, condition, or circumstance which exists or occurs that makes initial or continued inclusion of the securities in Nasdaq inadvisable or unwarranted in the opinion of the NASD, even though the securities meet all enumerated criteria for initial or continued inclusion in Nasdaq.

The NASD is concerned about an increase in recent years in the number of applications for inclusion in Nasdaq by issuers that are managed, controlled or influenced by persons with a history of significant securities or commodities violations.[6] In particular, the NASD is concerned about issuers substantially influenced by persons who have previously been the subject of a significant sanction for violations of state or federal securities laws, self-regulatory organization ("SRO") rules and regulations, or the subject of a felony conviction in connection with the purchase or sale of securities or commodities. The NASD believes that applications from these issuers for inclusion in Nasdaq reflect a pattern of activity in which persons with a history of securities or commodities violations seek to continue their violative conduct in the securities markets through the management, control or influence of a publicly-held company. The NASD has indicated that a case-by-case review of issuer applications has previously resulted in denials of certain applications pursuant to the "catch-all" provision of Part II, Section 3(a)(3) of Schedule D.[7]

In exercising discretion about whether to include an issuer in Nasdaq, the NASD will form a reasonable belief as to whether certain persons connected with an issuer may be predisposed to engage in further violative conduct contrary to interests of the investing public. In these cases, the NASD believes that the history of prior violative conduct raises concerns regarding the continuing potential for conduct in connection with the operation of the company or the market for its securities that would be considered fraudulent and manipulative, contrary to just and equitable principles of trade, or otherwise raise investor protection concerns.

The NASD's concern regarding situations where a person with a history of securities or commodities law violations manages, controls or influences a Nasdaq issuer is heightened by the fact that inclusion of the securities of such issuers in Nasdaq would exempt the transactions in these securities from Commission rules adopted to prevent certain fraud and abuse in the penny stock market. In August 1989, the Commission adopted Rule 15c2–6 to address sales practice abuses in low priced over-the-counter ("OTC") securities.[8] In general, this rule prohibits broker-dealers from selling a "designated security" to, or effecting the purchase of a "designated security" by, any person, unless the broker-dealer has approved the purchaser's account for such transactions and received from the purchaser a written agreement to the transaction.[9] On April 10, 1992, the Commission adopted the Penny Stock Disclosure Rules[10] which, in general, require that broker-dealers: (1) Furnish to a customer a risk disclosure document; (2) disclose the current bid and ask quotations and the commissions; and (3) provide monthly updates on the value of the securities. Among other exemptions, the Commission excluded from the scope of Rule 15c2–6 and the Penny Stock Disclosure Rules all issuers authorized or approved for inclusion in Nasdaq. The NASD believes that continued vigilance is required to ensure that inclusion in Nasdaq is not used as a vehicle to avoid compliance with the Penny Stock Disclosure Rules. The NASD further believes that prospective investors in the securities of a Nasdaq company are entitled to assume that securities included in Nasdaq meet the system's standards.[11]

III. Comments

As noted above, the Commission received three comment letters in response to the NASD's proposed rule change. The Task Force on Listing Standards of Self-Regulatory Organizations of the Federal Regulation of Securities Committee, Section of Business Law of the American Bar Association ("ABA Task Force") expressed general support for the NASD's initiative, but indicated concern over the retroactive application of the NASD's rule. In particular, the ABA Task Force is concerned that the NASD may exclude a current issuer based on a previously disclosed condition. The ABA Task Force believes that the NASD should only apply the rule retroactively to issuers where there is a change in control, disclosure of new material information, or other meaningful change in circumstance.[12] A second commenter opposed the proposal, asserting that the discretion accorded the NASD was unlimited and could lead the NASD to exclude an issuer from Nasdaq on a basis wholly unrelated to the legitimate concerns of administering Nasdaq.[13] Finally, a third commenter argued that the NASD's comparison to the NYSE and Amex rules is misplaced. In particular, this commenter argued that the rules of these exchanges provide greater procedural protection to issuers in that an appeal within the NYSE or Amex provides an automatic stay of the initial decision but does not with an

---

[6] As a result of its concerns, on June 2, 1993, the NASD filed a proposal to amend Part II, Section 3(a). Securities Exchange Act Release No. 32605 (July 9, 1993), 58 FR 38150 (July 15, 1993) (Commission notice of File No. SR–NASD–93–32). Concurrent with the filing of the instant proposal, the NASD withdrew File No. SR–NASD–93–32. Letter from T. Grant Calhoun, Vice President and General Counsel, NASD, to Mark P. Barracca, Branch Chief, SEC (Apr. 6, 1994).

[7] Section 3(a)(3) provides that "[t]he Association may, in accordance with Article IX of the NASD's Code of Procedure, apply additional or more stringent criteria for the initial or continued inclusion of particular securities or suspend or terminate the inclusion of an otherwise qualified security if * * * the Association deems it necessary to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, or to protect investors and the public interest." NASD Manual, Schedules to the By-Laws, Schedule D, Part II, Sec. 3(a)(3), (CCH) ¶ 1805 ("Section 3(a)(3)").

[8] Securities Exchange Act Release No. 27160 (Aug. 22, 1989), 54 FR 35468 (Aug. 28, 1989).

[9] 17 CFR 240.15c2–6(a).

[10] The Penny Stock Sales Practice and Disclosure Rules of the Act are comprised of Rule 3a51–1 providing definitions of penny stocks and Rules 15g–1 to 15g–6, 15g–8 and 15g–9. In general, the Penny Stock Rules have been enacted to require more stringent regulation of broker-dealers that recommend penny stock transactions to customers. Under Rule 3e51–1 of the Act, Nasdaq securities are excluded from the scope of the Penny Stock Disclosure Rules, except that Nasdaq SmallCap securities under $5.00 are deemed penny stocks for purposes of Section 15(b)(6) of the Act. See, Securities Exchange Act Release No. 30608 (Apr. 20, 1992), 57 FR 18004 (Apr. 28, 1992).

[11] See In the Matter of Tasaway, Inc., Securities Exchange Act Release No. 11291 (Mar. 13, 1975), 45 SEC 706, 6 SEC Docket 427 ("primary emphasis must be placed on the interests of prospective future investors").

[12] Letter from John F. Olson, Chair, Committee on Federal Regulation of Securities, ABA Section on Business Law, and Robert Todd Lang, Chair, Task Force on Listing Standards of Self-Regulatory Organizations, ABA Section on Business Law, to Jonathan G. Katz, Secretary, SEC (Apr. 29, 1994). According to the letter, it was prepared by members of the ABA Task Force, circulated among the members and a substantial majority of the members agree with it. Nonetheless, the letter indicated that it does not represent the official position of the ABA, the Section of Business Law, the Federal Regulation of Securities Committee or the ABA Task Force.

[13] Letter from Andrew J. Telsey to Jonathan G. Katz, Secretary, SEC (Apr. 26, 1994). This commenter also asserted that the proposal was tantamount to a prior restraint on speech and a violation of the United States Constitution's guarantee of free speech. The Commission is convinced that the proposal, as designed, will have no such consequences. The NASD's proposal is similar in many respects to that of existing authority vested in other securities markets.

appeal within the NASD of an NASD decision.[14]

The NASD responded to these comments in letters dated May 17 and May 25, 1994.[15] With respect to the concerns of the ABA Task Force, the NASD believes that limiting this authority to prospective issuers or to issuers undergoing a material change in circumstance would inappropriately restrict its oversight of Nasdaq and hinder its review of individual issuers. In addition, the NASD believes that prospective investors are entitled to assume that the NASD protects the quality and integrity of Nasdaq.[16]

The NASD also believes that assertions that the proposed rule would provide the NASD boundless discretion are unwarranted. First, the nature and scope of the NASD's discretionary authority is set forth in the proposed new language. In addition, any determination to exclude an issuer will be made on a case-by-case basis in accordance with the procedures set forth in Article IX of the NASD's Code of Procedure,[17] and an aggrieved party may request the NASD to review its initial determination.[18] In addition, the NASD indicated that an issuer may request, or the NASD may voluntarily grant, a stay pending appeal within the NASD. Indeed, in the past, the NASD has delayed immediate delisting when the matter presented novel policy issues. Finally, if the aggrieved party is dissatisfied with a final determination of the NASD, it may then request that the Commission stay the NASD's action, and ultimately it may obtain review of the Commission's final order in the United States Court of Appeals.

IV. Discussion

Under Section 19(b) of the Act, the Commission must approve a proposed NASD rule change if it finds that the proposal is consistent with the requirements of the Act and the rules and regulations thereunder that govern the NASD.[19] No other finding is required.[20] In evaluating a given proposal, the Commission must examine the record before it and all relevant factors and necessary information.[21] Section 15A of the Act addresses with some specificity the requirements applicable to NASD rules, and those are the standards against which the Commission must measure the NASD proposal.[22]

The Commission has determined to approve the NASD's proposal. The Commission believes that the rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to the NASD, including the requirements of Sections 15A (b)(6) and 15A (b)(9) of the Act.[23] Section 15A(b)(6) requires, in part, that the rules of a national securities association be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. Section 15A(b)(9) requires that the NASD's rule not impose any burden on competition not necessary or appropriate in furtherance of the Act. In addition, the Commission believes that the rule change will further the goals of Section 11A in that it will help preserve and strengthen the nation's securities markets.[24]

The Commission believes that inclusion of a security for trading in Nasdaq, like listing on an exchange, should not depend solely on meeting quantitative criteria, but should also entail an element of judgment given the expectations of investors and the imprimatur of listing on a particular market.[25] Securities listed for trading or included in Nasdaq often qualify for margin loans and are exempt from many of the state blue sky laws, which apply concepts of merit regulation to determine whether investors in that state may purchase the issuer's securities.

Almost twenty years ago, the Commission held in *In the Matter of Tassaway*[26] that the NASD is vested with discretionary authority to deny an issuer's request that its securities be included in Nasdaq. In that decision, the Commission stated that while exclusion from Nasdaq may hurt existing shareholders, the primary emphasis must be placed on the interest of prospective public investors and that this latter group is entitled to assume that the securities in Nasdaq meet the NASD standards. Although the Commission is of the view that the NASD's current rules authorize it to exclude an issuer, the proposal would clarify that authority. The Commission believes that this rule change provides greater protection to both existing and prospective investors. This rule change provides investors greater assurance that the risk associated with investing in Nasdaq is market risk rather than the risk that the promoter or other persons exercising substantial influence over the issuer is acting in an illegal manner.

The rule change will address the increase of applications by issuers for inclusion in Nasdaq where a person with a history of significant securities or commodities law violations is in a position to manage, control or influence the issuer to the detriment of investors. The rule change also responds to the related concern that inclusion of these securities in Nasdaq would exempt the

[14] Letter from Joseph McLaughlin, Brown & Wood, to Jonathan G. Katz, Secretary, SEC (May 6, 1994).

[15] Letters from T. Grant Callery, Vice President and General Counsel, NASD, to Mark P. Barracca, Branch Chief, SEC (May 17, 1994) and Suzanne F. Rothwell, Associate General Counsel, NASD, to Mark P. Barracca, Branch Chief, SEC (May 25, 1994).

[16] In connection with its prior proposal, SR-NASD-93-32, the NASD responded to a similar comment by the ABA Task Force by stating that limiting its discretion in the suggested manner would impose an arbitrary restriction on the NASD's oversight of Nasdaq. This, the NASD argued, could undermine public confidence in Nasdaq and would be contrary to interests of retail and institutional investors, issuers, broker-dealers and the public. See Securities Exchange Act Release No. 33899 (Apr. 12, 1994), 59 FR 18171 (Apr. 15, 1994) (Commission notice of File No. SR-NASD-94-19); File No. SR-NASD-93-32, Amendment No. 2 (File No. SR-NASD-93-32 was withdrawn by the NASD concurrent with the filing of File No. SR-NASD-94-19).

[17] NASD Manual, Code of Procedure, Art. IX, Sec. 1, (CCH) ¶ 3101. The NASD also noted that its Code of Procedure has been subject to public notice and comment; Securities Exchange Act Release No. 19097 (Oct. 4, 1982), 47 FR 44903 (Oct. 12, 1982) (Commission notice of SR-NASD-82-11), and has been approved by the Commission, Securities Exchange Act Release No. 21838 (Mar. 12, 1985), 50 FR 11035 (Mar. 19, 1985) (Commission approval of SR-NASD-82-11). The NASD also noted that its authority to exclude an issuer or to impose additional or more stringent criteria under the proposed rule is substantially similar to the authority it currently exercises under Section 3(a)(3).

[18] NASD Manual, Code of Procedure, Art. IX, Secs. 6 & 8, (CCH) ¶¶ 3106 & 3108.

[19] 15 U.S.C. 78s(b).

[20] The Commission's statutory role is limited to evaluating the rule as proposed against the statutory standards, and does not require the SRO to prove its proposal is the least burdensome solution to a problem.

[21] In the Securities Acts Amendments of 1975 ("1975 Amendments"), Congress directed the Commission to use its authority under the Act, including its authority to approve SRO rule changes, to foster the establishment of a national market system and promote the goals of economically efficient securities transactions, fair competition, and best execution. Congress granted the Commission "broad, discretionary powers" and "maximum flexibility" to develop a national market system and to carry out these objectives. Furthermore, Congress gave the Commission "the power to classify markets, firms, and securities in any manner it deems necessary or appropriate in the public interest or for the protection of investors and to facilitate the development of subsystems within the national market system." S.Rep. No. 75, 94th Cong., 1st. Sess., at 7 (1975).

[24] *Id.* § 78k-1(a)(1)(A).

[25] See, e.g., *In the Matter of Silver Shield Mining and Milling Company*, Securities Exchange Act Release No. 6214 (Mar. 18, 1960) ("use of the facilities of a national securities exchange is a privilege involving important responsibilities under the Exchange Act"); *In the Matter of Consolidated Virginia Mining Co.*, Securities Exchange Act Release No. 6192 (Feb. 26, 1960) (same).

[26] Securities Exchange Act Release No. 11291 (May 13, 1975), 45 SEC 706, 6 SEC Docket 427.

transactions in these securities from Commission rules adopted to prevent certain fraudulent sales practices and abuses in the penny stock market.[27] The Commission agrees that with respect to the Nasdaq SmallCap Market, the rule change furthers the purposes of the Penny Stock Rules adopted under the Act. The rule change will provide the NASD with authority to ensure that securities which would otherwise be subject to the Penny Stock Rules merit this exemption when entering Nasdaq and continue to merit this exemption thereafter.

As indicated above, one commenter raised due process concerns. In the context of excluding issuers from Nasdaq, the Commission believes these concerns are addressed by the statutory and regulatory authority and obligations of the NASD. The Act requires the NASD to adopt and enforce rules designed, among other things, to prevent fraudulent and manipulative acts and practices and to protect investors and the public interest.[28] The Act further requires that the NASD's rules provide a fair procedure when prohibiting or limiting access to Nasdaq,[29] which includes notification of the specific grounds for prohibiting or limiting access, providing an opportunity to be heard, and maintaining a record.[30] In accordance with these obligations, the NASD has established quantitative and qualitative criteria for inclusion in Nasdaq,[31] and procedures to review decisions to deny or limit access to an issuer the NASD determines does not satisfy the criteria for inclusion.[32] Those procedures provide an opportunity for a hearing[33] and, although not explicit, an opportunity to request a stay from the NASD. In addition to these obligations, the Act and Commission rules require the NASD to notify the Commission promptly of any final or summary action to prohibit or limit access to Nasdaq.[34] The Act and Commission rules further provide that any final action by the NASD is subject to review by the Commission.[35] In addition, the Commission may stay summary action by the NASD on its own motion or upon an application by the issuer.[36] Finally, a person dissatisfied with a final determination of the Commission may seek review of that decision by the United States Court of Appeals.[37]

The Commission believes that this rule strikes the appropriate balance between protecting investors and providing a marketplace for issuers satisfying the disclosure requirements under the federal securities laws. This rule change clarifies the NASD's current practice of using its authority under Section 3(a)(3) of Part II to Schedule D. The authority granted under Section 3(a)(3) is discretionary in nature and this rule change will continue to allow the NASD to exercise its discretion in applying the standards of Section 3(a)(3) on a case-by-case basis. The rule change will also provide important guidance to the NASD review process, and will alert issuers seeking inclusion in Nasdaq, as well as current Nasdaq issuers, that the NASD considers an issuer's connection to a person with a history of significant securities or commodities violations in determining whether to grant initial or continued inclusion of the security, and that the security may be subject to additional criteria as a condition for initial and continued inclusion in Nasdaq. The rule change establishes the NASD's discretionary authority under Part II, Sections 1 and 2 of Schedule D to deny initial inclusion or apply additional or more stringent criteria for the initial or continued inclusion of particular securities or suspend or terminate the inclusion of particular securities based on any event, condition, or circumstance which exists or occurs that makes initial or continued inclusion of the securities in Nasdaq inadvisable or unwarranted, even though the securities meet all enumerated criteria for initial or continued inclusion in Nasdaq. Nonetheless, the Commission expects that before the NASD exercises its discretionary authority under the new rule, it will consider as one of several factors the extent to which events or circumstances giving rise to the proposed action were previously disclosed.

V. Conclusion

In conclusion, for the reasons stated above, the Commission finds that the rule change is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade and, in general, to protect investors and the public interest. The Commission therefore finds that the proposed rule change is consistent with the requirements of the Act.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change SR–NASD–94–19 be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[38]

Margaret H. McFarland,

Deputy Secretary.

[Release No. 34–34137; File No. Phlx–94–25]

Self-Regulatory Organizations; Notice of Filing and Immediate Effectiveness of Proposed Rule Change by the Philadelphia Stock Exchange, Inc. Relating to the Modification of Trading Hours on the Big Cap Index

June 1, 1994.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on May 6, 1994, the Philadelphia Stock Exchange, Inc. ("Phlx" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Phlx. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

[1] 15 U.S.C. 78s(b)(1) (1988).

[2] 17 CFR 240.19b–4 (1993).

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to modify the trading hours applicable to the Phlx's Big Cap Index ("Index"), a broad-based index. The trading hours originally proposed in connection with the Index were from 9:30 a.m. to 4:10 p.m. on business days. The Phlx now proposes to modify Phlx Rules 101 and 1101A to reflect that the trading hours of the Index from 9:30 a.m. to 4:15 p.m. on business days. Because the Exchange believes that this proposal is an extension of an existing policy of the Exchange to trade broad-based indexes until 4:15 p.m., it has submitted this proposed rule change effective immediately upon filing so that the Index will be open for trading until 4:15 p.m. each business day from the time it commences trading on May 17, 1994.

The text of the proposed rule change is available at the office of the Secretary, Phlx, and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose Of, and Statutory Basis For, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change, and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose Of, and Statutory Basis For, the Proposed Rule Change

On April 28, 1994, the Commission issued an order approving the Exchange's proposal to list and trade options on the Index.[3] That proposal had specified that the trading hours for the Index would be from 9:30 a.m. to 4:10 p.m., and the Commission approved the proposal with these trading hours in effect. However, the Exchange states that the trading hours were communicated incorrectly to Commission staff while the proposal was pending. The Exchange states that it intended for the Index to be open until 4:15 p.m. on each business day, consistent with all of the other broad-based indexes listed on the Exchange (as well as all other broad-based indexes listed on all other options exchanges). Further, the Exchange states that its Board of Governors approved the Index with the intention of having it trade until 4:15 p.m.[4] Traditionally, it has been the policy of the Phlx, as well as all of the other options exchanges, to trade broad-based indexes until 4:15 p.m. Additionally, early materials that were distributed to the public announcing the new Index and showing its specifications indicated that the Index would close at 4:15 p.m. Because at the time this proposal was filed the Index had not yet started trading, the Exchange does not expect any customer confusion regarding the change in the closing time of Index. Accordingly, the Exchange is submitting this filing as an extension of an existing policy and practice of the Exchange and requests that the filing be effective immediately upon filing pursuant to section 19(b)(3)(A).

The Exchange believes that the proposed rule change is consistent with section 6 of the Act, and, in particular, section 6(b)(5) thereof, in that it will foster cooperation and coordination with persons engaged in regulating, clearing, settling, and processing information with respect to and facilitating transactions in securities; remove impediments to and perfect the mechanism of a free and open market and a national market system; and, in general, protect investors and the public interest.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Phlx does not believe that the proposed rule change will impose any burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, and Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change constitutes a stated policy, practice, or interpretation with respect to the meaning, administration, or enforcement of an existing Exchange rule, it has become effective pursuant to section 19(b)(3)(A) of the Act and subparagraph (e) of Rule 19b–4 thereunder. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC. Copies of such filing also will be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by June 30, 1994.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

[4] Phlx Rule 101 states that its Board of Governors shall determine by resolution the hours during which business may be transacted on the Exchange.

[Investment Company Act Rel. No. 20333; 813–128]

ABS Employees' Venture Fund Limited Partnership and Alex. Brown Investments Incorporated; Notice of Application

June 2, 1994.

AGENCY: Securities and Exchange Commission ("SEC").

ACTION: Notice of Application for Exemption under the Investment Company Act of 1940 ("Act").

APPLICANTS: ABS Employees' Venture Fund Limited Partnership (the "Venture Partnership") and Alex. Brown Investments Incorporated (the "General Partner"), on behalf of themselves and all partnerships identical in all material respects (other than investment objective and strategy) that may be offered in the future to the same class of investors as those investing in the Venture Partnership (the "Subsequent Partnerships") (the Venture Partnership and the Subsequent Partnerships, collectively "the Partnerships") and any direct or indirect wholly-owned subsidiaries of Alex. Brown Incorporated that may be formed to serve as general partners of the Subsequent Partnerships.

RELEVANT ACT SECTIONS: Exemption requested under section 6(b) from all of the provisions of the Act except sections 9, 17 (except for certain provisions of sections 17(a), (d), (f), (g), and (j) as described herein), 30 (except for certain provisions of sections 30(a), (b), (d), and (f) as described herein), and 36–53, and the rules and regulations thereunder.

SUMMARY OF APPLICATION: Applicants seek an order exempting them from most of the provisions of the Act and permitting certain joint transactions. Each Partnership will be an employees' securities company within the meaning of section 2(a)(13) of the Act.

FILING DATE: The application was filed on January 13, 1994, and amended on May 17, 1994.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the SEC orders a hearing. Interested persons may request a hearing by writing to the SEC's Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on June 27, 1994, and should be accompanied by proof of service on applicants, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request such notification by writing to the SEC's Secretary.

ADDRESSES: Secretary, SEC, 450 Fifth Street, NW., Washington, DC 20549. Applicants, 135 East Baltimore Street, Baltimore, Maryland 21202.

FOR FURTHER INFORMATION CONTACT: James E. Anderson, Staff Attorney, at (202) 942–0573, or Robert A. Robertson, Branch Chief, at (202) 942–0564 (Division of Investment Management, Office of Investment Company Regulation).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained for a fee from the SEC's Public Reference Branch.

Applicants' Representations

1. The Venture Partnership is a limited partnership organized under the laws of the State of Maryland. The General Partner, a wholly-owned subsidiary of Alex. Brown Incorporated, is a Maryland corporation that acts as the general partner of the Venture Partnership. All of the executive officers and directors of the General Partner and any corporation created to serve as general partner of the Subsequent Partnerships will be employees of Alex. Brown Incorporated or its subsidiaries.

2. The Venture Partnership's investment strategy will be to invest in particular securities in which each individual limited partner has elected to participate on a case-by case basis. The General Partner will screen investment opportunities that come to its attention through Alex. Brown & Sons Incorporated ("Alex. Brown") or other affiliates of Alex. Brown, and will inform the limited partners of the availability of certain of these opportunities for investment through the Venture Partnership. The General Partner will not recommend investments or exercise investment discretion. Capital contributions made to the Venture Partnership by participating limited partners will be allocated *pro rata* to the capital sub-accounts relating to a particular investment, and limited partners who elect not to participate in particular investment will have no interest therein.

3. Each Subsequent Partnership will be structured as a limited partnership. Certain Subsequent Partnerships may have an investment strategy similar to that of the Venture Partnership and will invest in securities in which individual limited partners have elected to participate on a case-by-case basis through allocations to capital sub-accounts. Other Subsequent Partnerships may be operated as pooled entities managed by their general partners. The General Partner is expected to serve as general partner for the Subsequent Partnerships, although one or more separate, wholly-owned subsidiaries of Alex. Brown Incorporated may be created to serve as general partner of the Subsequent Partnerships.

4. Each Partnership will offer limited partnership interests only to persons who are: (a) Employees of Alex. Brown who are present or former managing directors or principals of Alex. Brown or partners of Alex. Brown's predecessor, Alex. Brown Partners, or employees holding positions equivalent to managing director or principal with other wholly-owned subsidiaries of Alex. Brown Incorporated; (b) "accredited investors" as defined in rule 501(a)(6) of regulation D under the Securities Act of 1933; and (c) in the opinion of the General Partner (or in the case of any Subsequent Partnership, its general partner), sufficiently knowledgeable, sophisticated, and experienced in business and financial matters to be capable of evaluating the merits and risk of the partnership investment, able to bear the economic risk of such investment, and able to afford a complete loss of such investment. The Partnerships are intended to allow the participants to diversify their investments and to have the opportunity to participate in investments that might not otherwise be available to them or that might be beyond their individual means.

5. Alex. Brown Incorporated or its affiliates will bear all expenses incurred in connection with the organization of each Partnership. The Venture Partnership will bear its own operating expenses. No compensation will be paid to the General Partner for its services to the Venture Partnership and the General Partner will not receive reimbursement for its own expenses. Because the General Partner receives no compensation for its services to the Venture Partnership, it will not register as an investment adviser under the Investment Advisers Act of 1940. Applicants will consider at the time of formation of any Subsequent Partnership whether the General Partner (or any entity acting as general partner for such Subsequent Partnership) will be required to register as an investment adviser.

6. The General Partner of each Partnership will contribute capital to the Partnership in an amount equal to at least 1% of the aggregate initial capital contributions of that Partnership's initial limited partners. Each general partner will be capitalized so as to satisfy existing Internal Revenue Service guidelines regarding the characterization of an entity for federal income tax purposes as a partnership, rather than as an association taxable as a corporation.

7. Each Partnership will send its limited partners an annual report regarding its operations and valuation of Partnership assets as carried on the books of the Partnership. The report will set out information with respect to each limited partner's distributive share of income, gains, losses, credits, and other

items for federal income tax purposes. The annual report of the Venture Partnership and of each Subsequent Partnership with a similar investment strategy will contain unaudited financial statements because these Partnerships' assets will consist only of initial capital contributions and investments selected by individual limited partners. These Partnerships will maintain a file containing any financial statements and other information received from the issuers of the investments held by such Partnerships, and will make such file available for inspection by their limited partners. The annual report of each other Partnership will contain financial statements audited by independent public accountants.

Applicants' Legal Analysis

1. Section 6(b) provides that the SEC shall exempt employees' securities companies from the provisions of the Act to the extent that such exemption is consistent with the protection of investors. Section 2(a)(13) defines an employees' security company, among other things, as any investment company all of the outstanding securities of which are beneficially owned by the employees or persons on retainer of a single employer or affiliated employers or by former employees of such employers.

2. Applicants submit that the exemptions requested are consistent with the protection of investors in view of the substantial community of interest among all of the parties and the fact that each Partnership is an "employees securities' company" as defined in section 2(a)(13) of the Act. The Partnerships are organized and managed by persons who will be investing in the Partnerships, and will not be promoted by persons seeking to profit from fees or investment advice or from the distribution of securities.

3. On behalf of the Partnerships, applicants request relief from all of the provisions of the Act, and the regulations thereunder, except sections 9, 17 (except for certain provisions of sections 17 (a), (d), (f), (g), and (j) as described herein), 30 (except for certain provisions of sections 30 (a), (b), (d), and (f) as described herein), and 36–53, and the rules thereunder.

4. Section 17(a) provides, in relevant part, that it is unlawful for any affiliated person of a registered investment company, or any affiliated person of such person, acting as principal, knowingly to sell any security or other property to such registered investment company or to purchase from such registered investment company any security or other property. An exemption is requested from section 17(a) to permit the Partnerships to: (a) Purchase from Alex. Brown, or from an Alex. Brown affiliate, securities or interests in properties previously acquired for the account of Alex. Brown or the Alex. Brown affiliate; (b) sell to Alex. Brown or Alex. Brown affiliates securities or interests in properties previously acquired by the Partnerships; (c) invest in companies, partnerships, or other investment vehicles offered, sponsored, or managed by Alex. Brown or by an Alex. Brown affiliate ("Alex. Brown Sponsored Vehicles"); (d) purchase securities from Alex. Brown Sponsored Vehicles, except that bridge financing in Alex. Brown Sponsored Vehicles will be limited to 50% of the assets of a Partnership; (e) invest in securities of entities for which Alex. Brown or its affiliated persons have performed investment banking or other services and from which they may have received fees; (f) purchase interests in a company or other investment vehicle in which Alex. Brown or Alex. Brown affiliates or their respective employees own 5% or more of the voting securities, or that is otherwise affiliated with the Partnership or Alex. Brown; (g) purchase securities that are underwritten by Alex. Brown (including a member of a selling group) on terms at least as favorable to the Partnership as those offered to investors other than "affiliated persons" (as defined in the Act) of Alex. Brown; (h) participate as a selling securityholder in a public offering that is underwritten by Alex. Brown or by an Alex. Brown affiliate or in which Alex. Brown or an Alex. Brown affiliate acts as a member of the selling group; (i) invest in money market funds managed or underwritten by Alex. Brown or Alex. Brown affiliates; (j) purchase short-term instruments from, or sell such instruments to, Alex. Brown or Alex. Brown affiliates at market value; and (k) enter into repurchase transactions with Alex. Brown or Alex. Brown affiliates.

5. Any assets of a Partnership invested in a money market fund managed by an Alex. Brown affiliate will be invested in only those money market funds that do not impose sales loads or redemption fees, and will be subject only to those fees charged to and paid by persons unaffiliated with Alex. Brown investing in that fund. Furthermore, a Partnership purchasing any other short-term instrument from Alex. Brown or an Alex. Brown affiliate will pay no fee in connection with that purchase. No Partnership will acquire more than 3% of the total outstanding voting stock of any investment company.

6. Section 17(d) makes it unlawful for any affiliated person of a registered investment company, acting as principal, to effect any transaction in which the company is a joint or joint and several participant with the affiliated person in contravention of such rules and regulations as the SEC may prescribe. Rule 17d–1 was promulgated pursuant to section 17(d) and prohibits most joint transactions unless approved by order of the SEC. An exemption is requested pursuant to section 17(d) and rule 17d–1 to permit the Partnerships to participate in joint transactions, including the following: (a) An investment by one or more Partnerships in a non-Alex. Brown Sponsored Vehicle, (i) in which Alex. Brown, an Alex. Brown affiliate or an affiliated person thereof, an Alex. Brown Sponsored Vehicle, an employee, officer, or director of the General Partner, or certain transferees of the aforementioned (collectively, "Affiliates") is a participant or plans to become a participant, and/or (ii) with respect to which Alex. Brown or an Alex. Brown affiliate is entitled to receive placement fees, investment banking fees, brokerage commissions, or other economic benefits or interests; (b) an investment by one or more Partnerships in an Alex. Brown Sponsored Vehicle; and (c) an investment by one or more Partnerships in an Alex. Brown Sponsored Vehicle in which an Affiliate is a participant or plans to become a participant, including situations in which an Affiliate has a partnership or other interest in, or compensation arrangement with, the Alex. Brown Sponsored Vehicle.

7. Section 17(f) permits a registered investment company to maintain self custody of its securities and similar investments subject to such rules and regulations as the SEC prescribes for the protection of investors. An exemption is requested from section 17(f) and rule 17f–1 to the extent necessary to permit Alex. Brown to act as custodian for the Partnerships without a written contract.

8. Section 17(g) and rule 17g–1 generally require that a majority of the board of directors of an investment company who are not interested persons take certain actions and make certain approvals concerning bonding. An exemption is requested to the extent necessary to permit the Partnerships to comply with rule 17g–1 without the necessity of having a majority of the board of directors of the General Partner who are not "interested persons" take such action and make such approvals as set forth in rule 17g–1. Except for the

requirements of approval by non-interested directors, the Partnerships will comply with rule 17g–1.

9. Section 17(j) and rule 17j–1 require that every registered investment company adopt a written code of ethics and that every access person of a registered investment company report transactions in any security in which the access person has, or by reason of the transaction acquires, any direct or indirect beneficial ownership. Applicants request an exemption from the requirements of rule 17j–1, with the exception of rule 17j–1(a), because they are burdensome and unnecessary in light of the community of interest among the partners of the Partnerships.

10. Section 30 of the Act generally requires a registered investment company to file quarterly and annual reports with the SEC and make semi-annual reports to its stockholders. An exemption is requested from sections 30(a) and 30(b) to the extent necessary to exempt the Partnerships from filing annual and quarterly reports with the SEC. The pertinent information that would be contained in such filings must, pursuant to the terms of the partnership agreements, be sent to the limited partners of the Partnerships. Exemptive relief from section 30(d) is necessary to permit the Partnerships to report annually, rather than semi-annually, to the limited partners. Exemptive relief from section 30(f) is necessary to exempt the General Partner and any other persons who may be deemed to be members of an advisory board of a Partnership from filing Forms 3, 4, and 5 under section 16 of the Securities Exchange Act of 1934.

Applicants' Conditions

An order granting the requested exemptions will be subject to the following conditions set forth in the application:

1. Each proposed transaction otherwise prohibited by section 17(a) or section 17(d) and rule 17d–1 (the "Section 17 Transactions") will be effected only if the General Partner, or in the case of any Subsequent Partnership, its general partner, determines that:

(a) The terms of the transaction, including the consideration to be paid or received, are fair and reasonable to the limited partners and do not involve overreaching of the Partnership or its limited partners on the part of any person concerned; and

(b) The transaction is consistent with the interests of the limited partners, the Partnership's organizational documents and the Partnership's reports to its limited partners.

In addition, the General Partner, and any general partner of any Subsequent Partnership, will record and preserve a description of such affiliated transactions, their findings, the information or materials upon which their findings are based and the basis therefor. All such records will be maintained for the life of the Partnerships and at least two years thereafter, and will be subject to examination by the Commission and its staff. All such records will be maintained in an easily accessible place for at least the first two years.

2. In any case where purchases or sales are made from or to an entity affiliated with a Partnership by reason of a 5% or more investment in such entity by a director, officer or employee of the general partner of that Partnership, such individual will not participate in the general partner's determination of whether or not to effect such purchase or sale.

3. The General Partner, and any general partner of any Subsequent Partnership, will adopt, and periodically review and update, procedures designed to ensure that reasonable inquiry is made, prior to the consummation of any section 17 Transaction, with respect to the possible involvement in the transaction of any affiliated person or promoter of or principal underwriter for the Partnerships, or any affiliated person of such a person, promoter, or principal underwriter.

4. No general partner of any Partnership will invest the funds of that Partnership in any investment in which a "Co-Investor" has or proposes to acquire the same class of securities of the same issuer, where the investment involves a joint enterprise or other joint arrangement within the meaning of rule 17d–1 in which the Partnership and the Co-Investor are participants, unless any such Co-Investor, prior to disposing of all or part of its investment, (a) gives that general partner sufficient, but not less than one day's, notice of its intent to dispose of its investment, and (b) refrains from disposing of its investment unless the Partnership has the opportunity to dispose of the Partnership's investment prior to or concurrently with, on the same terms as, and *pro rata* with the Co-Investor. The term "Co-Investor" means any person who is: (a) An "affiliated person" (as such term is defined in the Act) of the Partnership; (b) Alex. Brown Incorporated, its subsidiaries and controlled entities ("Alex. Brown Incorporated"); (c) an employee, officer, or director of Alex. Brown Incorporated; (d) Alex. Brown Sponsored Vehicles; (e) any entity with respect to which Alex. Brown Incorporated provides management, investment management or similar services as manager, investment manager, or general partner or in a similar capacity, and for which it may receive compensation, including without limitation, management fees, performance fees, carried interests entitling it to share disproportionately in income and capital gains or similar compensation; or (f) a company in which an officer or director of the General Partner (or of any other general partner of a Partnership) acts as an officer, director, or general partner, or has a similar capacity to control the sale or other disposition of the company's securities. The restrictions contained in this condition, however, shall not be deemed to limit or prevent the disposition of an investment by a Co-Investor: (a) To its direct or indirect wholly-owned subsidiary, to any company (a "parent") of which the Co-Investor is a direct or indirect wholly-owned subsidiary, or to a direct or indirect wholly-owned subsidiary of its parent; (b) to immediate family members of the Co-Investor or a trust established for any such family member; (c) when the investment is comprised of securities that are listed on a national securities exchange registered under section 6 of the Securities Exchange Act of 1934, as amended (the "1934 Act"); or (d) when the investment is comprised of securities that are national market system securities pursuant to section 11A(a)(2) of the 1934 Act and rule 11Aa2–1 thereunder.

5. The general partner of each Partnership will send to each limited partner who had an interest in the Partnership, at any time during the fiscal year then ended, Partnership financial statements. Such financial statements will be unaudited in the case of the Venture Partnership and each Subsequent Partnership with a similar investment strategy, but in the case of all other Partnerships will be audited by the Partnerships' independent accountants. At the end of each fiscal year, the general partner of each Partnership, other than the Venture Partnership and each Subsequent Partnership with a similar investment strategy, will make an appraisal or have an appraisal made of all of the assets of the Partnership as of such fiscal year end. The appraisal of the Partnership assets may be by independent third parties appointed by the general partner and deemed qualified by the general partner to render an opinion as to the value of Partnership assets, using such methods and considering such

information relating to the investments, assets and liabilities of the Partnership as such persons may deem appropriate, but in the case of an event subsequent to the end of the fiscal year materially affecting the value of any Partnership asset or investment, the general partner may revise the appraisal as it, in its good faith and sole discretion, deems appropriate. In addition, within 90 days after the end of each fiscal year of each of the Partnerships or as soon as practicable thereafter, its general partner shall send a report to each person who was a limited partner at any time during the fiscal year then ended, setting forth such tax information as shall be necessary for the preparation by the limited partner of his or her federal and state income tax returns and a report of the investment activities of the Partnership during such year.

6. Each Partnership and its general partner will maintain and preserve, for the life of each such Partnership and at least two years thereafter, such accounts, books, and other documents as constitute the record forming the basis for the financial statements and annual reports of such Partnership to be provided to the limited partners, and agree that all such records will be subject to examination by the Commission and its staff. All such records will be maintained in an easily accessible place for at least the first two years.

For the SEC, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,

Deputy Secretary.

[FR Doc. 94–13961 Filed 6–8–94; 8:45 am]

BILLING CODE 8010–01–M

[Release No. 35–26060]

Filings Under the Public Utility Holding Company Act of 1935 ("Act")

June 3, 1994.

Notice is hereby given that the following filing(s) has/have been made with the Commission pursuant to provisions of the Act and rules promulgated thereunder. All interested persons are referred to the application(s) and/or declaration(s) for complete statements of the proposed transaction(s) summarized below. The application(s) and/or declaration(s) and any amendments thereto is/are available for public inspection through the Commission's Office of Public Reference.

Interested persons wishing to comment or request a hearing on the application(s) and/or declaration(s) should submit their views in writing by June 27, 1994, to the Secretary, Securities and Exchange Commission, Washington, DC 20549, and serve a copy on the relevant application(s) and/or declarant(s) at the address(es) specified below. Proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Any request for hearing shall identify specifically the issues of fact or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in the matter. After said date, the application(s) and/or declaration(s), as filed or as amended, may be granted and/or permitted to become effective.

Indiana Michigan Power Company (70–6458)

Indiana Michigan Power Company ("I&M"), One Summit Square, P.O. Box 60, Fort Wayne, Indiana 46801, an electric utility subsidiary of American Electric Power Company, Inc., a registered holding company, has filed a post-effective amendment to its application-declaration under Sections 9(a), 10 and 12(d) of the Act.

By orders dated June 11, 1980 and June 25, 1980 (HCAR Nos. 21618 and 21642, respectively), I&M was authorized to enter into an agreement of sale ("Agreement") with the City of Rockport, Indiana ("City") concerning the construction, installation, financing and sale of pollution control facilities ("Facilities") at I&M's Rockport Plant. Under the Agreement, the City may issue and sell its pollution control revenue bonds ("Revenue Bonds") or pollution control refunding bonds ("Refunding Bonds"), in one or more series, and deposit the proceeds with the trustee ("Trustee") under an indenture ("Indenture") entered into between the City and the Trustee. The proceeds are applied by the Trustee to the payment of the costs of construction of the Facilities, or, in the case of proceeds from the sale of Refunding Bonds, to the payment of the principal, premium (if any) and/or interest on Revenue Bonds to be refunded.

I&M was also authorized to convey an undivided interest in a portion of the Facilities to the City, and to reacquire that interest under an installment sales arrangement requiring I&M to pay as the purchase price semiannual installments in such an amount, together with other monies held by the Trustee under the Indenture for that purpose, as to enable the City to pay, when due, the interest and principal on the Revenue Bonds. The City issued and sold its Revenue Bonds, in one series, in the aggregate principal amount of $40 million.

By subsequent orders dated December 4, 1984 and December 12, 1984 (HCAR Nos. 23514 and 23528, respectively), the Commission authorized I&M to enter into amendments to the Agreement with the City providing for the disposition and acquisition of the Project in connection with the issuance by the City of $110 million principal amount of pollution control bonds ("Series 1984 A Bonds"), also in one series, to finance the construction of the remainder of the Project.

Then, by order dated August 2, 1985 (HCAR No. 23781), the Commission authorized I&M to enter into further amendments to the Agreement with the City providing for the issuance and sale of an aggregate principal amount of $150 million, in three additional series, of pollution control bonds ("Series 1985 A Bonds"), each in the principal amount of $50 million with a maturity of August 1, 2014. The third series of the Series 1985 A Bonds were fixed rate bonds bearing interest at 9¼% per annum, payable semiannually, and subject to optional redemption following an initial period not to exceed ten years ("Fixed Rate Bonds"). The proceeds of the Series 1985 A Bonds were used to cover a portion of the cost of construction of the Project and to refund the outstanding short-term Series 1984 A Bonds in the principal amount of $110 million.

I&M now proposes to have the City issue and sell, no later than December 31, 1995, an additional series of Refunding Bonds in the aggregate principal amount of up to $50 million ("Refunding Fixed Rate Bonds"). The proceeds of the sale of the Refunding Fixed Rate Bonds will be deposited with the Trustee and applied by the Trustee, and used together with other funds supplied by I&M, to provide for the early redemption of the Fixed Rate Bonds at a price of 102% of their principal amount.

It is contemplated that the Refunding Fixed Rate Bonds will be sold by the City pursuant to arrangements with Goldman, Sachs & Co. While I&M will not be a party to the underwriting arrangements for the Refunding Fixed Rate Bonds, the Agreement provides that the Refunding Fixed Rate Bonds shall have such terms as shall be specified by I&M.

I&M is advised that the Refunding Fixed Rate Bonds will bear interest semi-annually. It is expected that the Refunding Fixed Rate Bonds will mature at a date or dates not more than 40 years from the date of their issuance. The Refunding Fixed Rate Bonds may be subject to mandatory or optional redemption under circumstances and

terms specified at the time of pricing, and, if it is deemed advisable, may also include a sinking fund provision. In addition, the Refunding Fixed Rate Bonds may not be redeemable at the option of the City in whole or in part at any time for a period to be determined a the time of pricing the Refunding Fixed Rate Bonds. Finally, I&M may provide some form of credit enhancement for the Refunding Fixed Rate Bonds, such as a letter of credit, surety bond or bond insurance, and I&M may pay a fee in connection therewith. Any letter of credit would not exceed a face amount of $50 million and would be for a term of from one to five years. Drawings will bear interest at a rate not exceeding 1% above the bank's prime rate and annual fees will not exceed 1.25% of the face amount of the letter of credit.

It is not possible to predict precisely the interest rate which may be obtained in connection with the issuance of the Refunding Fixed Rate Bonds. However, I&M has been advised that, depending on maturity and other factors, the annual interest rate on obligations, interest on which is so excludable from gross income, historically has been, and can be expected at the time of issuance of the Refunding Fixed Rate Bonds to be, 1½% to 2½% or more lower than the rates of obligations of like terms and comparable quality, interest on which is fully subject to Federal income tax.

Moreover, I&M will not agree, without further order of this Commission, to the issuance of any Refunding Fixed Rate Bond by the City if: (1) The stated maturity of any such bond shall be more than forty years; (2) the rate of interest to be borne by any such bond shall exceed 8% per annum; (3) the discount from the initial public offering price of any such bond shall exceed 5% of the principal amount thereof; or (4) the initial public offering price shall be less than 95% of the principal amount thereof. Further, I&M will not enter into the proposed refunding transaction unless the estimated present value savings derived from the net difference between interest payments on a new issue of comparable securities and on the securities to be refunded is, on an after tax basis, greater than the present value of all redemption and issuing costs, assuming an appropriate discount rate. The discount rate used shall be the estimated after-tax interest rate on the Refunding Fixed Rate Bonds to be issued.

WPS Resources Corporation, (70–8379)

WPS Resources Corporation ("WPS Resources"), a Wisconsin corporation not currently subject to the Act, 700 North Adams Street, Green Bay, Wisconsin 54307, has filed an application requesting an order: (1) Approving the direct acquisition by WPS Resources, under sections 9(a)(2) and 10 of the Act, of all the outstanding shares of common stock of Wisconsin Public Service Corporation ("Wisconsin Public Service"), and, through such acquisition, the indirect acquisition of 33.1% of the outstanding shares of Wisconsin River Power Company ("Wisconsin River Power"), and (2) granting WPS Resources and its subsidiary companies, upon consummation of the proposed transaction, an exemption under section 3(a)(1) of the Act from all of the provisions of the Act, except section 9(a)(2).

Wisconsin Public Service, a public-utility company and a public-utility holding company exempt from registration by order of the Commission under section 3(a)(2) of the Act,[1] is principally engaged in the production, transmission, distribution and sale of electricity to approximately 347,000 customers in northeastern Wisconsin and upper Michigan. Wisconsin Public Service also engages in the purchase, distribution, transportation and sale of natural gas to approximately 190,000 customers in northeastern Wisconsin and upper Michigan. Total operating revenues for 1993 were $680.6 million, of which $493.2 million (72%) was from electric service and $187.4 million (28%) was from gas service. In 1993, Wisconsin Public Service derived 97.8% of its operating revenues and 98.6% of its net income from operations in Wisconsin, and 2.2% of its operating revenues and 1.4% of its net income from operations in Michigan.

Wisconsin River Power, a Wisconsin corporation, owns and operates two dams and related hydroelectric plants on the Wisconsin River with an aggregate installed capacity of about 35 megawatts. The output of the plants is sold, at the sites of the plants, to the three companies which own the outstanding capital stock of Wisconsin River Power, substantially in proportion to their stock ownership interests.[2] Total assets of Wisconsin River Power at December 31, 1993 were $6.06 million, representing 0.51% of Wisconsin Public Service's total assets of $1.2 billion. Wisconsin Public Service's share of Wisconsin River Power's net income for 1993 was $310,000, representing 0.50% of Wisconsin Public Service's total net income of $62 million.

Wisconsin Public Service proposes to reorganize by forming a holding company over itself. Under an Agreement and Plan of Share Exchange ("Plan"), one share of common stock, $1 par value, of WPS Resources, a corporation organized to facilitate the reorganization, will be exchanged for each share of common stock, $4 par value, or Wisconsin Public Service outstanding ("Exchange") at the effective time of the Plan, and the outstanding shares of WPS Resources common stock held by Wisconsin Public Service prior to the effective time of the Plan will be canceled. Following the Exchange, all of the outstanding common stock of WPS Resources will be owned by the former Wisconsin Public Service common shareholders, and WPS Resources will own all of the outstanding common stock of Wisconsin Public Service. Wisconsin River Power will remain a subsidiary of Wisconsin Public Service.[3] There will be no exchange of the outstanding preferred stock or first mortgage bonds of Wisconsin Public Service in connection with the exchange.

The holders of the common stock of Wisconsin Public Service approved the Plan at the annual meeting of shareholders held on May 5, 1994. The Wisconsin Public Service Commission approved the formation of a holding company by order dated May 31, 1994.

The principal reasons for the proposed restructuring are: (1) To create a structure which can more effectively address the growing national competition in the energy industry; (2) to facilitate selective diversification into nonutility businesses which are related to the utility business of Wisconsin Public Service or energy conservation or energy resources or which otherwise benefit the service territory of the utility; (3) to separate the utility and nonutility businesses; and (4) to provide additional flexibility for financing and for maintaining appropriate utility capital ratios.

The application states that following the restructuring, WPS Resources and its subsidiaries will meet the requirements for an exemption under section 3(a)(1). WPS Resources, Wisconsin Public Service and River Power are and will continue to be predominantly intrastate in character and will continue to carry on their

[1] *Wisconsin Public Service Corporation*, 1 S.E.C. 512 (1936).

[2] See *Wisconsin Public Service Corporation*, 27 S.E.C. 539 (1948) (approving the acquisition by the utility of the capital stock of transmission or distribution facilities.

[3] Wisconsin Public Service, by means of a non-cash dividend, will transfer to WPS Resources all the outstanding stock of its nonutility subsidiary companies, WPS Communications, Inc. and Packerland Energy Services, Inc.

business substantially in Wisconsin, the state in which they are organized.

Southern Indiana Gas and Electric Company (70–8407)

Southern Indiana Gas and Electric Company ("SIGECO"), 20 N.W. Fourth Street, Evansville, Indiana 47741–0001, an Indiana public-utility holding company exempt from registration under sections 3(a)(1) and 3(a)(2) of the Public Utility Holding Company Act of 1935 ("Act") by order and pursuant to rule 2, has filed an application under sections 9(a)(2) and 10 of the Act in connection with the proposed acquisition of all of the outstanding common stock ("Lincoln Common Stock") of Lincoln Natural Gas Company, Inc. ("Lincoln"), an Indiana public utility corporation engaged in the gas utility business.[4]

A wholly-owned subsidiary of SIGECO, Spencer Energy Corp., an Indiana corporation ("Spencer"), will be merged with and into Lincoln (the "Merger") pursuant to an Agreement and Plan of Merger among SIGECO, Spencer and Lincoln ("Agreement"), with Spencer ceasing to exist and Lincoln the surviving corporation. Spencer was incorporated for the sole purpose of effecting SIGECO's acquisition of the Lincoln Common Stock and consummating the transactions described herein and is not engaged in any business.

SIGECO is a publicly held operating public utility engaged in the generation, transmission, distribution and sale of electricity and the purchase of natural gas and its transportation, distribution and sale in a service area which covers ten counties in southwestern Indiana.[5] At December 31, 1993, SIGECO served 118,163 electric customers and supplied gas service to 100,398 customers in Evansville and 63 other nearby communities and their environs.[6]

Lincoln is a closely held public utility corporation which owns and operates a gas distribution system in the City of Rockport, Spencer County, Indiana, and surrounding territory. Lincoln serves approximately 1,330 customers in Spencer County in southwestern Indiana and owns, operates, maintains and manages plant, property, equipment and facilities used and useful for the transmission, transportation, distribution and sale of natural gas to the public. Lincoln's gas service territory is adjacent to SIGECO's gas service territory.

In the Merger, the holders of Lincoln Common Stock issued and outstanding immediately prior to the Merger would be entitled to receive shares of common stock, without par value, of SIGECO ("SIGECO Common Stock") having a market value of approximately $1,350,000 in accordance with the formula contained in the Agreement, and each share of common stock, no par value ("Spencer Common Stock"), of Spencer issued and outstanding immediately prior to the Merger would be converted into one share of Lincoln Common Stock. Any shares of Lincoln Common Stock held in treasury by Lincoln at the effective time of the Merger will be canceled.

The number of shares of SIGECO Common Stock to be exchanged in the transactions will be determined by their average closing market price over a five-day period before the relevant closing date. After the consummation of the Merger, Lincoln will operate as a gas utility subsidiary company of SIGECO but, if appropriate, SIGECO may eventually merge Lincoln into itself.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010–01–M

[4] SIGECO is a holding company as defined under section 2(a)(7)(A) of the Act by virtue of SIGECO's ownership of 33% of the capital stock of Community Natural Gas Company, Inc., an Indiana corporation, which is a gas utility company serving customers in southwestern Indiana.

[5] The only property SIGECO owns outside of Indiana is approximately eight miles of electric transmission line which is located in Kentucky. SIGECO does not distribute any electric energy in Kentucky.

[6] For the twelve months ended December 31, 1993, approximately 79% of SIGECO's total utility operating revenues were derived from its electric operations and approximately 21% from its gas operations.

DEPARTMENT OF STATE

[Public Notice 2017]

International Telecommunications Advisory Committee (ITAC) Standardization Sector; Meeting Notice

The Department of State announces that the United States International Telecommunications Advisory Committee (ITAC), Telecommunications Standardization Sector Study Group A will meet on June 28, 1994, in room 1406 from 9:30 a.m. to 1:00 p.m., and the Standardization Sector Group, on June 29, 1994, in room 1105 from 9:30 to 3, at the U.S. Department of State, 2201 "C" Street NW., Washington, DC 20520.

The agenda for Study Group A will include a debrief of the recent ITU–T Study Group 3 meeting and continue preparations for the September 27-October 7, Geneva ITU–T Study Group 1 meeting, and discuss issues related to ITU–T Study Group 2 activities.

The agenda for the Standardization Sector meeting (formerly the CCITT USNC) will include a debrief of the April meeting of TSAG, the ITU council-related activities covering strategic planning, etc.

Members of the General Public may attend the meetings and join in the discussions, subject to the instructions of the chair. Admittance of public members will be limited to the seating available. In this regard, entrance to the Department of State is controlled. If you are not presently named on the mailing list of the Telecommunications Sector C Group, and wish to attend please call 202–647–0201 no later than 5 days before the meeting. Enter from the C Street Main lobby. A picture ID will be required for admittance.

Dated: June 1, 1994.

Earl S. Barbely,

Chairman, U.S., ITAC for ITU-Telecommunication Standardization Sector

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Passenger Facility Charge (PFC) Approvals and Disapprovals

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Monthly Notice of PFC Approvals and Disapprovals. In April 1994, there were eight applications approved.

SUMMARY: The FAA publishes a monthly notice, as appropriate, of PFC approvals and disapprovals under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IV of the Omnibus Budget Reconciliation Act of 1990) (Pub. L. 101–508) and part 158 of the Federal Aviation Regulations (14 CFR part 158). This notice is published pursuant to paragraph d of § 158.29.

PFC Applications Approved

Public Agency: Metropolitan Washington Airports Authority, Alexandria, Virginia.

Application Number: 94–02–U–00–DCA.

Application Type: Use PFC Revenue.

PFC Level: $3.00.

Total Approved Net PFC Revenue: $166,739,071.

Charge Effective Date: November 1, 1993.

Estimated Charge Expiration Date: November 1, 2000.

Class of Air Carriers Not Required to Collect PFC's: No change from previously approved application of August 16, 1993.

Brief Description of Project Approved for Use Only: Thirty-five gate north passenger terminal complex.

Decision Date: April 6, 1994.

For Further Information Contact: Robert Mendez, Washington Airports District Office, (703) 285–2570.

Public Agency: City of La Crosse, La Crosse, Wisconsin.

Application Number: 94–01–C–00–LSE.

Application Type: Impose and Use PFC Revenue.

PFC Level: $3.00.

Total Approved Net PFC Revenue: $795,299.

Earliest Charge Effective Date: July 1, 1994.

Estimated Charge Expiration Date: August 1, 1997.

Class of Air Carriers Not Required to Collect PFC's: None.

Brief Description of Projects Approved for Collection and Use: Planning studies, Runway safety equipment, Security access system, Taxiway safety improvements, Runway safety improvements, Land acquisition, New aircraft rescue and firefighting (ARFF) building and associated safety items.

Decision Date: April 6, 1994.

For Further Information Contact: Franklin Benson, Minneapolis Airports District Office, (612) 725–4221.

Public Agency: County of Marquette, Marquette, Michigan.

Application Number: 94–02–U–00–MQT.

Application Type: Use PFC Revenue.

PFC Level: $3.00.

Total Approved Net PFC Revenue: $459,700.

Charge Effective Date: December 1, 1992.

Estimated Charge Expiration Date: April 1, 1996.

Class of Air Carriers Not Required to Collect PFC's: No change from previously approved application of October 1, 1992.

Brief Description of Projects Approved for Use Only: Perimeter deer fencing, Terminal security.

Decision Date: April 6, 1994.

For Further Information Contact: Dean Nitz, Detroit Airports District Office, (313) 487–7300.

Public Agency: City of Midland, Midland, Texas.

Application Number: 94–02–U–00–MAF.

Application Type: Use PFC Revenue.

PFC Level: $3.00.

Total Approved Net PFC Revenue: $30,372,250.

Charge Effective Date: January 1, 1993.

Estimated Charge Expiration Date: January 1, 2010.

Class of Air Carriers Not Required to Collect PFC's: No change from previously approved application of December 16, 1993.

Brief Description of Projects Approved for Use Only: Rehabilitate airfield taxiways, Reconstruct runway 4/22, Rehabilitate runway 16L/34R, Construct new terminal complex.

Decision Date: April 14, 1994.

For Further Information Contact: Ben Guttery, Southwest Region Airports Division, (817) 222–5614.

Public Agency: Bert Mooney Airport Authority, Butte, Montana.

Application Number: 94–01–C–00–BTM.

Application Type: Impose and Use PFC Revenue.

PFC Level: $3.00.

Total Approved Net PFC Revenue: $410,202.

Earliest Charge Effective Date: July 1, 1994.

Estimated Charge Expiration Date: May 1, 2000.

Class of Air Carriers Not Required to Collect PFC's: Nonscheduled air taxi/commercial operators.

Determination: Approved. Based on information submitted by the public agency, the FAA has determined that the proposed class accounts for less than 1 percent of the total enplanements at Bert Mooney Airport.

Brief Description of Projects Approved for Collection and Use: Airport layout plan update, Runway 11/29 rehabilitation, Taxiway C extension, Taxiway D widening, Taxiways B and E rehabilitation, Americans with Disabilities Act terminal compliance, Modify loading bridge, Rehabilitate taxiway A lighting.

Brief Description of Projects Approved for Collection Only: Purchase new ARFF vehicle, Expand ARFF garage and update maintenance building, Air carrier apron reconstruction, Runway 15/33 rehabilitation.

Decision Date: April 17, 1994.

For Further Information Contact: David B. Gabbert, Helena Airports District Office, (406) 449–52171.

Public Agency: Clark County Department of Aviation, Las Vegas, Nevada.

Application Number: 94–03–U–00–LAS.

Application Type: Use PFC Revenue.

PFC Level: $3.00.

Total Approved Net PFC Revenue: $944,028,500.

Charge Effective Date: June 1, 1992.

Estimated Charge Expiration Date: September 1, 2014.

Class of Air Carriers Not Required to Collect PFC's: No change from previously approved applications of February 24, 1992, August 21, 1992, and June 7, 1993.

Brief Description of Projects Approved for Use Only: Railroad track relocation, Runway 7L/25R extension—design and construction.

Decision Date: April 20, 1994.

For Further Information Contact: Joseph Rodriquez, San Francisco Airports District Office, (415) 876–2805.

Public Agency: Outagamie County, Appleton, Wisconsin.

Application Number: 94–01–C–00–ATW.

Application Type: Impose and Use PFC Revenue.

PFC Level: $3.00.

Total Approved Net PFC Revenue: $3,233,645.

Earliest Charge Effective Date: July 1, 1994.

Estimated Charge Expiration Date: September 1, 2000.

Class of Air Carriers Not Required to Collect PFC's: None.

Brief Description of Projects Approved for Collection and Use: Land acquisition—parcel 42, Security fencing, Runway 11/29 grooving and airfield signage, Land acquisition—Doell property, Taxiway D and G reconstruction, ARFF building expansion, Snow removal vehicle, Terminal apron reconstruction and expansion, General aviation apron, PFC administration.

Brief Description of Projects Approved-in-Part for Collection and Use: Terminal water line.

Determination: Approved-in-part. Certain portions of facilities in the terminal are not Airport Improvement Program (AIP) eligible, and, accordingly, are not PFC eligible. Airport safety and snow removal vehicles.

Determination: Approved-in-part. The safety (security) vehicle is not AIP eligible, and therefore, not PFC eligible.

Brief Description of Projects Approved for Collection Only: Stormwater drainage improvements—phase I, Terminal baggage claim expansion, Install emergency generator, Acquire friction testing vehicle, Stormwater drainage improvements—phase II, Taxiway B reconstruction.

Brief Description of Project Withdrawn: Land acquisition—parcel 57.

Determination: Outagamie County requested that the land acquisition, parcel 57, be withdrawn from the PFC application by letter dated April 8, 1994.

Decision Date: April 25, 1994.

For Further Information Contact: Franklin Benson, Minneapolis Airports District Office, (612) 725–4221.

Public Agency: Chattanooga Metropolitan Airport Authority, Chattanooga, Tennessee.

Application Number: 93–01–C–00–CHA.

Application Type: Impose and Use PFC Revenue.

PFC Level: $3.00.

Total Approved Net PFC Revenue: $7,177,253.

Earliest Charge Effective Date: July 1, 1994.

Estimated Charge Expiration Date: October 1, 2002.

Class of Air Carriers Not Required to Collect PFC's: Air carriers operating under Part 135 or Part 298 of the Federal Aviation Regulations, on an on-demand, non-scheduling basis, and not selling tickets to individual passengers.

Determination: Approved. Based on information submitted by the public agency, the FAA has determined that the proposed class accounts for less than 1 percent of the total enplanements at Chattanooga Metropolitan Airport.

Brief Description of Projects Approved for Collection and Use: Bag claim devices, Loading bridges, Security system, Miscellaneous terminal improvements, General project (terminal building), Master plan/Part 150 update, Airfield signage, Ramp security system, PFC administration.

Brief Description of Project Disapproved: Widen/strengthen Taxiway A.

Determination: Disapproved. The FAA determined that the public agency did not provide justification that this project met the objectives of section 158.15(a) as required under section 158.25(b)(7).

Brief Description of Projects Withdrawn: Concourse seating, Airfield fill and drainage.

Determination: These projects were withdrawn by the Chattanooga Metropolitan Airport Authority by letter dated December 27, 1993.

Decision Date: April 26, 1994.

For Further Information Contact: Charles Harris, Memphis Airports District Office, (901) 544–3495.

BILLING CODE 4910–13–M

Federal Highway Administration

Environmental Impact Statement; Belknap, Merrimack, Rockingham, and Strafford Counties, NH

AGENCY: Federal Highway Administration (FHWA), DOT.
ACTION: Revised notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an Environmental Impact Statement *will not* be prepared for a proposed highway project in Belknap, Merrimack, Rockingham and Strafford Counties, New Hampshire. A "Notice of Intent" to prepare an EIS was published in the **Federal Register** on June 1, 1990.

FOR FURTHER INFORMATION CONTACT: Thomas D. Myers, Assistant Division Administrator, Federal Highway Administration, 279 Pleasant Street, suite 204, Concord, New Hampshire 03301–2509, Telephone: (603) 225–1606, or William R. Hauser, Administrator, Bureau of Environment, New Hampshire Department of Transportation, P.O. Box 483, J.O. Morton Building, Concord, New Hampshire 03302–0483, Telephone (603) 271–3226.

SUPPLEMENTARY INFORMATION: The Federal Highway Administration (FHWA), in cooperation with the New Hampshire Department of Transportation (NHDOT), has determined that it will not prepare an environmental impact statement as previously intended for a proposed highway project to serve transportation needs from the Concord area to the Dover, Somersworth and Rochester (Tri-Cities) area, a distance of about 50 kilometers (30 miles). Portions of twenty-one communities, primarily in Strafford and Merrimack Counties were included in the study. As consensus was being reached on which alternatives would be carried into the DEIS for full evaluation it became apparent based upon public input, agency coordination, constraint evaluation and funding-availability that a full new location alternative highway was not feasible. Consensus was reached that upgrading of the existing US Routes 4 and 202 and NH Route 9 corridors would serve the bulk of the transportation needs supplemented with possible short bypasses of portions of the Towns of Epsom and Northwood.

Further improvements to these corridors will be considered on a case-by-case basis, consistent with this consensus, in future development of New Hampshire's Transportation Plan, as financial feasibility and local commitment are demonstrated. The National Environmental Policy Act process will be continued as required for such proposed actions that may emerge from the above procedure. However, this overall environmental impact statement process for a new 50-kilometer (30-mile) facility has been terminated.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program)

Issued on: May 31, 1994.

Thomas D. Myers,

Assistant Division Administrator, Concord, New Hampshire.

[FR Doc. 94–14044 Filed 6–8–94; 8:45 am]
BILLING CODE 4910–22–M

Environmental Impact Statement: County of Los Angeles, California

AGENCY: Federal Highway Administration (FHWA), DOT.
ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an Environmental Impact Statement will be prepared for a proposed highway project in Los Angeles County, California.

FOR FURTHER INFORMATION CONTACT: C. Glenn Clinton, Chief, District Operations, Federal Highway Administration, California Division, 980 9th Street, suite 400, Sacramento, California 95814–2724, Telephone: (916) 551–1310.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the California Department of Transportation (Caltrans) will prepare an environmental impact statement (EIS) on a proposal to improve Interstate Route 10 in Los Angeles County, California. The proposed improvement would involve adding one High Occupancy Vehicle (HOV) lane in each direction on the route, between Interstate Route 605 and Interstate Route 210/State Route 57 for a distance of 18.0 kilometers (11.2 miles). To construct the two new HOV lanes, this proposed project would include pavement rehabilitation, widening of existing freeway bridges and necessary roadside improvements such as guardrails and soundwalls.

Improvements to the corridor are considered necessary to improve the level of service by increasing the person carrying capacity of this section of I–10, relieving existing and anticipated increase peak period traffic congestion. The proposed project is also an integral element of the I–10 portion of the proposed regional freeway-based HOV system in Los Angeles County.

At this time two alternatives are being considered, Alternative 1, widening the half-width of the section to a total of 24.7 meters (81 feet) and Alternative 4, the no-build alternative. Two other build alternatives with wider half-sections were considered during the scoping process, but removed from further consideration due to the minimal benefits to be derived versus the impacts of the acquisition of significantly more right of way than Alternative 1.

The scoping process was initiated in 1993 by contacting, by letter and newspaper notices, elected officials, federal, state, regional and local agencies as well as corridor residents. The scoping process is tentatively completed with a scoping summary report prepared.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the FHWA at the address provided above.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Research, Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program)

Issued on: June 2, 1994.

Douglas Bennett,

Acting Chief, District Operations "B", Federal Highway Administration.

BILLING CODE 4910–22–M

National Highway Traffic Safety Administration

[Docket No. 94–48; Notice 1]

John Russo Industrial, Inc.; Receipt of Petition for Determination of Inconsequential Noncompliance

John Russo Industrial, Inc. (Russo) of San Jose, California, has determined that some of its trucks fail to comply with requirements of several Federal motor vehicle safety standards (FMVSS) in 49 CFR part 571. These are FMVSS No. 113, "Hood Latch Systems," FMVSS No. 120, "Tire Selection and Rims for Motor Vehicles other than Passenger Cars," FMVSS No. 205, "Glazing Materials," and FMVSS No. 207, "Seating Systems." Russo has filed an appropriate report pursuant to 49 CFR part 573, "Defect and Noncompliance Reports." Russo has also petitioned to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 *et seq.*) on the basis that the noncompliance are inconsequential as they relate to motor vehicle safety.

This notice of receipt of a petition is published under Section 157 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1417) and does not represent any agency decision or other exercise of judgement concerning the merits of the petition.

All noncompliances covered by this petition were discovered on July 13, 1993 during inspection of vehicles by NHTSA's Office of Vehicle Safety Compliance (File NCI 3288).

1. FMVSS No. 113, "Hood Latch Systems"

In April 1991, Russo completed one Command/Communications van (Gillig chassis) and, in July 1991, one Hazardous Materials van (Spartan chassis). These vehicles do not comply with the hood latching requirements in S4.2 of FMVSS No. 113, in that their front opening hoods, which in any open position partially or completely obstruct a driver's forward view through the windshield, are not provided with a second latch position on the hood latch system or with a second hood latch system.

Russo supports its petition for inconsequential noncompliance with the following:

[49 CFR 571.113 S3] definition, "Hood means any movable exterior body panel forward of the windshield that is used to cover [an] engine, luggage, storage, or battery compartment." The forward face panels on our vehicles are below the windshield, and are not used as compartment, storage, or any criteria to classify it as a hood.

Paragraph S4.2 of standard 113 states, "A front opening hood which, in any open position partially or completely obstructs a driver's forward view through the windshield must be provided with a second latch position on the hood latch system or with a second hood latch system."

The access panels in question are not classified as a hood mechanism, therefore [they] do not need to follow these guidelines. If the panel were left open it would not obstruct the driver's view enough to cause a driving hazard.

Our testing of this design consisted of the air flow testing of up to 78 mph with a head wind of 14 mph that brought the total air speed to 92 mph. Air flow only holds the access panel down more securely. The panel cannot fly up as a result of the air flow.

Panels of similar design are easily found on hundreds of thousands of on-road vehicles including GMC Astro 9500, Chevrolet Titan 90, Ford CLT 9000, Freight Liner cab overs, and many other vehicles I have found in researching my response.

The Hazmat and Command vehicles are built with windshields which are much larger than those of typical van or cab over engine type vehicles. This large windshield is provided partially as a styling feature and partly to provide exceptional visibility in low speed maneuvering situations. The small area of windshield which would be blocked if the access panel could physically be lifted up by air flow, would not even be in the field of view on typical vehicles in this class.

2. FMVSS No. 120, "Tire Selection and Rims for Motor Vehicles Other Than Passenger Cars"

From 1989 through 1991, Russo completed one Command/Communications van (Gillig chassis) and one Hazardous Materials van (Spartan chassis) and modified six Ford F350 and nine F800 trucks. These vehicles do not have the label required by S5.3 of FMVSS No. 120, which includes the size designation of the tires, the size designation of the rims, and the cold inflation pressure of the tires. Russo states that the noncompliances are due to removal of labels after the purchaser took delivery of the vehicles.

Russo supports its petition for inconsequential noncompliance with the following:

The Act states that the labels must be installed by us. NHTSA * * * says that the customer can do whatever they want to the vehicle once they get it, "they can even cut seatbelts * * *." Then we respectively state that no manufacturer whether Chevrolet or John Russo should be made to do anything anytime anyone decides to remove a sticker. We are not Chevrolet, we are a small minority family business across the street that [was] asked to install bodies on [the San Jose Fire Department's] chassis under their total supervision.

* * * * * *

The rim width missing will not affect the safety of the vehicle. All vehicles involved *...*

the petition belong to one user. The user has redundant data and all information available, plus all the resources to possess the information. The vehicle has this information. The user has all the incomplete vehicle manuals. The customer has a whole city fleet and its own service department and had ordered cab and chassis to match their tire and rim fleet specifications before we even got the contract to build the bodies.

When these vehicles were first delivered, engraved labels were requested in place of the white labels that we normally install. This was done.

When the new person took over, yellow NTEA labels were requested. This was complied with.

* * * * *

No safety benefit to anyone has come out of this.

* * * * *

Without waving this petition for exemption due to inconsequential non-compliance, we will notify the Deputy Chief of the San Jose Fire Dept. of our offer to supply and install new decals if they wish in a coordinated verifiable supervised manner. We shall document it for NHTSA and send NHTSA all copies of the labels.

* * * * *

There has to be fairness and a limit to a manufacturers' accountability especially in view of the circumstances and the years of service we have rendered to this user in the former administration. We cannot be held accountable for situations beyond our control. Those Labels Were There and They Had Been Removed (emphasis original)

3. FMVAA No. 205, "Glazing Materials"

In April 1991, Russo completed one Command/Communications van (Gilling chassis) and, in July 1991, one Hazardous Materials van (Spartan chassis). These vehicles do not comply with the glazing materials marking requirements in section 6 of FMVSS No. 205, which state that windshields must be marked AS–1 and windows to the right and left of the driver's position must be marked AS–2. The subject vehicles had no marking on the windshields, and the markings on the windows to the right and left of the driver's position were AS–3, not AS–2. Russo provided a photocopy of a purchase order for AS–1 windshield glass which it claims were used for the windshields. Russo further provided a copy of a letter from the supplier of the cockpit side windows stating that the windows in question were marked AS–3. These materials are available in the NHTSA Docket Section.

Russo supports its petition for inconsequential noncompliance with the following:

The windshields that were installed in these vehicles were labeled AS–1.

The [installers] had shown us the windshield label on the windshield stock plate before the installation and fitting process. The San Jose Fire Dept.'s Battalion Chief Master Mechanic was also shown the label at this time and he said this to Mr. Shifflet [of NHTSA's Office of Vehicle Safety Compliance] during his visit.

We have a sample of the label that the glass company that supplies the Fire Dept. [a]nd all of California had supplied to show DOT.

The windshield that was supplied to us by San Jose Glass contained this label:

Laminated

16 CFR 1201 M550

CATT II AS–1

DOT 273

* * * * *

The labeling on the driver's and passenger's window is also inconsequential to vehicle safety as shown by supporting data that the glass manufacturer uses all the same AS–2 glass except for a very slight insignificant light transmission in AS-certified configuration.

4. FMVSS No. 207, "Seating Systems"

In April 1991, Russo produced a Command/Communications van (1989 Gillig chassis) with an 18,000 pound gross vehicle weight rating. The vehicle is a specially configured portable meeting room for use at the scene of disasters. It is a closed, straight body van-type vehicle consisting essentially of a cab for vehicle operation and a cargo area which Russo converted into a conference room.

Section 4.4 of FMVSS No. 207 requires that all seats not designed to be occupied while the vehicle is in motion are to be conspicuously labeled to that effect. The seats located in the meeting room area of this vehicle are not designed to be occupied while the vehicle is being operated, but are not labeled as such.

Russo supports its petition for inconsequential noncompliance with the following:

A sign in the cab states that only two people are to be seated in the cab. This is a specially configured portable meeting room for disasters. The vehicle was configured for a specific purpose by the user and the construction of the body layout was very closely supervised by the fire department to the detail. The user (as mentioned to NHTSA) * * * stated that [the vehicle] is only used for meetings at the disaster scene. Many command centers are trailers, only for use as scene command.

There is a very big sign on the vehicle stating that it is a command and communications center. This is an official vehicle in case of a disaster, designed to only be occupied by a driver and one passenger while in motion.

We were contracted to build a vehicle for the user for [a] specific purpose. In the case of a severe emergency, where a command station is required, this vehicle is called in to act as the meeting and communications center. This vehicle is not a response vehicle, and is only brought to the scene after the situation has been evaluated by the on scene command team as critical. The vehicle is then used as a center and checkpoint to all incoming and outgoing personnel at the scene.

This vehicle was built to the strict specification of the City of San Jose Fire Department. It was ordered with seat belts for the driver and one passenger only as the back communications and meeting areas [were] not to be occupied when the vehicle was in motion. The fire department is aware of the vehicle configuration and is fully capable of instructing its employees that the back sections are not to be occupied when the vehicle is in motion.

Interested persons are invited to submit written data, views, and arguments on the petitions of Russo, described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, room 5109, 400 Seventh Street, SW., Washington, DC 20590. It is requested but not required that six copies be submitted.

All comments received before the close of business on the closing date indicated below will be considered. The application and supporting materials, and all comments received after the closing date, will also be filed and will be considered to the extent possible. When the petition is granted or denied, the notice will be published in the **Federal Register** pursuant to the authority indicated below.

Comment closing date: July 11, 1994.

(15 U.S.C. 1417; delegations of authority at 49 CFR 1.50 and 49 CFR 501.8)

Issued on June 3, 1994

Barry Felrice,

Associate Administrator for Rulemaking

UNITED STATES INFORMATION AGENCY

U.S. Advisory Commission on Public Diplomacy Meeting

AGENCY: United States Information Agency.

ACTION: Notice.

SUMMARY: A meeting of the U.S. Advisory Commission on Public Diplomacy will be held on June 15 at the Voice of America facilities, Wilbur J. Cohen Federal Building, 330 Independence Avenue, SW., Washington, DC from 9:30 a.m.–12:30 p.m. The Commission will meet with the following from the United States Information Agency's Bureau of Broadcasting to discuss policies and programs: Messrs. Goeffrey Cowan, Director, Voice of America; Charles Fox, Director, Worldnet Television and Film Service; Richard Lobo, Director, Office of Cuba Broadcasting; Robert Komosa, Director, VOA Engineering; and Richard Caldwell, director, Telecommunications.

FOR FURTHER INFORMATION: Please call Betty Hayes, (202) 619–4468, if you are interested in attending the meeting. Space is limited and entrance to the building is controlled.

Dated: June 6, 1994.

Rose Royal,

Management Analyst, Federal Register Liaison.

BILLING CODE 8230–01–M

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Request for Public Comment: Possible Barriers to the Access for U.S. Agricultural Products to the Korean Market

AGENCY: Office of the United States Trade Representative.

ACTION: Notice of request for public comment concerning possible barriers to the access for U.S. agricultural products to the Korean market.

SUMMARY: The United States Trade Representative (USTR) is seeking public comment on problems exporters of U.S. agricultural products may be having with respect to access to the Korean market. In particular, USTR seeks comments with respect to 77 products covered by a 1989 Agreement between the United States and the Republic of Korea.

DATES: Written comments from interested persons are due on or before July 8, 1994.

FOR FURTHER INFORMATION CONTACT: Peter Collins, Deputy Assistant USTR for Asia and the Pacific (202) 395–6813; Len Condon, Deputy Assistant USTR for Agricultural Affairs (202) 395–5006; or Thomas Robertson, Assistant General Counsel (202) 395–6800, Office of the United States Trade Representative.

SUPPLEMENTARY INFORMATION:

Background

Certain U.S. exporters of agricultural products have informed USTR that their access to the Korean market has been limited by unjustifiable regulatory barriers imposed by the Korean Government. They claim that these regulatory barriers lack scientific basis and have a discriminatory effect on U.S. agricultural products. In particular, they point to what they consider to be inappropriate food safety regulations (such as shelf life limitations that lack scientific basis and unnecessarily burdensome "self specification" requirements); inappropriate human, animal, and plant health and safety regulations; and customs misclassification problems. USTR requests all interested persons to provide additional information concerning these and other alleged barriers that may be imposed by the Korean government.

In a 1989 exchange of letters, the governments of the Republic of Korea and the United States agreed, among other things, that Korea would liberalize import restrictions on 62 agricultural products, implement tariff reductions for seven products, and subject eight products to automatic import approval. The two governments also agreed that these commitments would remain unimpaired by restrictions or requirements directly or indirectly affecting importation of the agricultural products. USTR therefore is particularly interested in any restrictions or requirements directly or indirectly affecting importation of the 77 products covered by the 1989 Agreement, each of which is listed in the Annex to this notice.

Requirements for Submissions

Comments must be in writing, state clearly the information and claims presented, filed with 20 copies by July 8, 1994, and addressed to: Deputy General Counsel, Office of the United States Trade Representative, room 223, 600 17th Street, NW., Washington, DC 20506. Interested persons may, upon advanced request, inspect at the USTR public reading room any written submissions, except that confidential business information will not be made available in this manner if: (1) the person furnishing such information certifies in writing that such information is business confidential, the disclosure of such information would endanger trade secrets or profitability, and such information is not generally available; and (2) the information submitted is clearly marked "BUSINESS CONFIDENTIAL" in a contrasting color ink at the top of each page on each copy, and shall be accompanied by a nonconfidential summary of the confidential information. USTR retains the right to deny confidential treatment of information if such information is not entitled to protection under the law. The public file will be available for inspection in the USTR Reading Room, room 101, which is open to the public from 10 to 12 noon, and from 1 pm to 4 pm, Monday thru Friday. An appointment to review the file may be made by calling Brenda Webb at (202) 395–6186.

Irving Williamson,

Deputy General Counsel.

ANNEX

HS. No.	Product description
0206.220000	Livers of bovine animals, frozen.
0206.300000	Edible offals of swine, fresh/chilled
0206.410000	Livers of swine, frozen.
0206.490000	Edible offals of swine (excluding liver), frozen.
0206.800000	Other edible offal, fresh/chilled.
0206.900000	Other animal offal, frozen.
0207.100000	Poultry (ducks), not in pieces, fresh/chilled.
0207.230000	Duck, whole, frozen.
0207.391000	Poultry cuts (duck), fresh/chilled.
0207.431000	Poultry cuts (duck), frozen.
0504.001000	Guts of animals
0713.100000	Peas.
0713.200000	Chickpeas.
0713.330000	Kidney beans
0713.390000	Other beans.
0713.400000	Lentils.
0713.500000	Broad beans.
0713.900000	Other dried legumincus vegetables.
0802.120000	Almonds, shelled.
0802.210000	Filberts, in shell.
0802.220000	Filberts, shelled.
0802.310000	Walnuts, in shell
0802.320000	Walnuts, shelled
0802.500000	Pistachios.
0802.909000	Pecans and macadamia nuts
0804.400000	Avocados.
0806.200000	Raisins.
0807.100000	Melons.
0807.200000	Papayas.
0809.200000	Cherries, fresh.
0810.100000	Strawberries, fresh
0810.400000	Cranberries, bilberries and other fruits of the genus vaccinium, fresh.
0810.909000	Kiwifruit, fresh
1001.100000	Durum wheat.
1001.901000	Meslin wheat
1001.909000	Other wheat
1002.000000	Rye.
1004.000000	Oats.
1208.100000	Flour and meals of soybeans.
1214.100000	Alfalfa products
1507.100000	Soybean oil, crude.
1507.901000	Soybean oil, refined.
1507.909000	Soybean oil, other.
1512.111000	Sunflower seed oil, crude.
1512.191010	Sunflower seed oil, refined.

ANNEX—Continued

HS. No.	Product description
1515.210000	Corn oil, crude.
1515.290000	Corn oil, other.
1601.001000	Sausages.
1602.311000	Canned turkey.

2007.911000	Jams, fruit jellies and marmalades of citrus.
2007.991000	Jams, fruit jellies and marmalades of other.
2007.999000	Puree and pastes of other.
2008.111000	Peanut butter.

ANNEX—Continued

HS. No.	Product description
2008.200000	Pineapple, in airtight containers.
2008.400000	Pears, prepared/preserved.
2008.700000	Peaches, in airtight containers.
2009.500000	Tomato juice.
2106.109000	Other protein concentrates and textured protein substances (over 48% protein content).
2106.909010	Coffee creamer.
2106.909090ex	Popcorn.
2301.102000	Greaves.
2302.100000	Corn gluten feed.
2304.000000	Soybean cake.

ANNEX—Continued

HS. No.	Product description
2309.100000	Dog and cat food.
2309.901010	Mixed feed for pigs.
2309.901030	Mixed feeds for fish.
2309.901090	Mixed animal feeds, other.
2309.903020	Feed additives (chiefly on the basis of vitamins).
2309.903030	Feed additives (chiefly on the basis of micro minerals).
3502.100000	Egg albumin.
3504.002030	Protein isolates.
4410.100000	Wood particleboard.

Sunshine Act Meetings

Federal Register

Vol. 59, No. 110

Thursday, June 9, 1994

This section of the FEDERAL REGISTER contains notices of meetings published under the "Government in the Sunshine Act" (Pub. L. 94-409) 5 U.S.C. 552b(e)(3).

FEDERAL ELECTION COMMISSION

"FEDERAL REGISTER" NUMBER: 94-13590.

PREVIOUSLY ANNOUNCED DATE AND TIME:
Tuesday, June 7, 1994, 10:00 a.m.
Meeting Closed to the Public.

The following item was erroneously noted on the agenda:

Briefing on Allocation Regulations.

PREVIOUSLY ANNOUNCED DATE AND TIME:
Thursday, June 9, 1994, 10:00 a.m.
Meeting Open to the Public.

The following item was deleted from the agenda:

Advisory Opinion 1994-14: Scott Lehman of Tsakanikas for U.S. Congress

The following item was added to the agenda:

Advisory Opinion 1994-10: Robert F. Bauer on behalf of Franklin National Bank

DATE AND TIME: Tuesday, June 14, 1994 at 10:00 a.m.

PLACE: 999 E Street, N.W., Washington, D.C.

STATUS: This Meeting Will Be Closed to the Public.

ITEMS TO BE DISCUSSED:

Compliance matters pursuant to 2 U.S.C. § 437g.
Audits conducted pursuant to 2 U.S.C. § 437g, § 438(b), and Title 26, U.S.C.
Matters concerning participation in civil actions or proceedings or arbitration
Internal personnel rules and procedures or matters affecting a particular employee

DATE AND TIME: Thursday, June 16, 1994 at 10:00 a.m.

PLACE: 999 E Street, NW., Washington, DC. (Ninth Floor.)

STATUS: This Meeting Will Be Open to the Public.

ITEMS TO BE DISCUSSED:

Correction and Approval of Minutes
Convention Regulations: Final Rules and Explanation and Justification
Advisory Opinion 1994-12: James S. Todd for the American Medical Association
Advisory Opinion 1994-14: Scott Lehman of Tsakanikas for U.S. Congress
Administrative Matters

PERSON TO CONTACT FOR INFORMATION:
Ron Harris, Press Officer, Telephone: (202) 219-4155.

Delores Hardy,
Administrative Assistant.

(Holder Name) (Billing Address - 1)

* _____ * _____ * _____ * _____
(Billing Address - 2) (City) (State) (Zip Code)

(hereafter called the holder) is hereby authorized to use National Forest lands for a recreation residence for personal recreational use on the * _____ National Forest, subject to the provisions of this permit including items * _____ through * _____, on page(s) * _____ through * _____. This permit covers * _____ acres.

Described as: (1) Lot * _____ of the * _____ tract.
(A plat of which is on file in the office of the Forest Supervisor.)

OR (2) * _____ as shown on the attached map.
(Legal Description)

The following improvements, whether on or off the lot, are authorized in addition to the residence structure:

*

This use shall be exercised at least 15 days each year, unless otherwise authorized in writing. It shall not be used as a full-time residence to the exclusion of a home elsewhere

THIS PERMIT IS NOT TRANSFERABLE
PURCHASERS OF IMPROVEMENTS ON SITES AUTHORIZED BY THIS PERMIT MUST SECURE A NEW PERMIT FROM THE FOREST SERVICE.

THIS PERMIT IS ACCEPTED SUBJECT TO ALL OF ITS TERMS AND CONDITIONS.

ACCEPTED: * _____ * _____
HOLDER'S NAME AND SIGNATURE DATE

APPROVED: * _____ * _____
AUTHORIZED OFFICER'S NAME AND SIGNATURE TITLE DATE

BILLING CODE 1505-01-C

Note: Permit clauses revised as a result of the reformulation of the recreation residence policy as described in this notice are printed in italics.

Terms and Conditions

I. Authority And Use And Term Authorized

A. This permit is issued under the authority of the Act of March 4, 1915, as amended (16 U.S.C. 497), and title 36, Code of Federal Regulations, sections 251.50–251.64. Implementing Forest Service policies are found in the Forest Service Directives System (FSM 1920, 1950, 2340, 2720; FSH 2709.11, chap. 10–50). Copies of the applicable regulations and policies will be made available to the holder at no charge upon request made to the office of the Forest Supervisor.

B. The authorized officer under this permit is the Forest Supervisor, or a delegated subordinate officer.

C. This permit authorizes only personal recreation use of a noncommercial nature by the holder, members of the holder's immediate family, and guests. Use of the permitted improvements as a principal place of residence is prohibited and shall be grounds for *revocation* of this permit.

D. Unless specifically provided as an added provision to this permit, this authorization is for site occupancy and does not provide for the furnishing of structures, road maintenance, water, fire protection, or any other such service by a Government agency, utility association, or individual.

E. *Termination* at End of Term: This authorization will *terminate* on *_____. (insert date)

II. Operation and Maintenance

A. The authorized officer, after consulting with the holder, will prepare an operation and maintenance plan which shall be deemed a part of this permit. The plan will be reviewed annually and updated as deemed necessary by the authorized officer and will cover requirements for at least the following subjects:

1. Maintenance of vegetation, tree planting, and removal of dangerous trees and other unsafe conditions.
2. Maintenance of the facilities.
3. Size, placement and descriptions of signs.
4. Removal of garbage or trash.
5. Fire protection.
6. Identification of the person responsible for implementing the provisions of the plan, if other than the holder, and a list of names, addresses, and phone numbers of persons to contact in the event of an emergency.

Note: Forest Supervisors may include other provisions relating to fencing, road maintenance, boat docks, piers, boat launching ramp, water system, sewage system, incidental rental, and the Tract Association. Regional Foresters may add specific provisions that Forest Supervisors should include in the plan.

III. Improvements

A. Nothing in this permit shall be construed to imply permission to build or maintain any improvement not specifically named on the face of this permit or approved in writing by the authorized officer in the operation and maintenance plan. Improvements requiring specific approval shall include, but are not limited to: Signs, fences, name plates, mailboxes, newspaper boxes, boathouses, docks, pipelines, antennas, and storage sheds.

B. All plans for development, layout, construction, reconstruction or alteration of improvements on the *lot*, as well as revisions of such plans, must be prepared by a licensed engineer, architect, and/or landscape architect (in those states in which such licensing is required) or other qualified individual acceptable to the authorized officer. Such plans must be approved by the authorized officer before the commencement of any work.

IV. Responsibilities of Holder

A. The holder, in exercising the privileges granted by this permit, shall comply with all present and future regulations of the Secretary of Agriculture and all present and future federal, state, county, and municipal laws, ordinances, or regulations which are applicable to the area or operations covered by this permit. However, the Forest Service assumes no responsibility for enforcing laws, regulations, ordinances and the like which are under the jurisdiction of other government bodies.

B. The holder shall exercise diligence in preventing damage to the land and property of the United States. The holder shall abide by all restrictions on fires which may be in effect within the forest at any time and take all reasonable precautions to prevent and suppress forest fires. No material shall be disposed of by burning in open fires during a closed fire season established by law or regulation without written permission from the authorized officer.

C. The holder shall protect the scenic and esthetic values of the National Forest System lands as far as possible consistent with the authorized use, during construction, operation, and maintenance of the improvements.

D. No soil, trees, or other vegetation may be removed from the National Forest System lands without prior permission from the authorized officer. Permission shall be granted specifically, or in the context of the operations and maintenance plan for the permit.

E. The holder shall maintain the improvements and premises to standards of repair, orderliness, neatness, sanitation, and safety acceptable to the authorized officer. The holder shall fully repair and bear the expense for all damage, other than ordinary wear and tear, to National Forest lands, roads and trails caused by the holder's activities.

F. The holder assumes all risk of loss to the improvements resulting from acts of God or catastrophic events, including but not limited to, avalanches, rising waters, high winds, falling limbs or trees and other hazardous natural events. In the event the improvements authorized by this permit are destroyed or substantially damaged by acts of God or catastrophic events, the authorized officer will conduct an analysis to determine whether the improvements can be safely occupied in the future and whether rebuilding should be allowed. The analysis will be provided to the holder within 6 months of the event.

G. The holder has the responsibility of inspecting the site, authorized rights-of way, and adjoining areas for dangerous trees, hanging limbs, and other evidence of hazardous conditions which could affect the improvements and or pose a risk of injury to individuals. After securing permission from the authorized officer, the holder shall remove such hazards.

H. In case of change of permanent address or change in ownership of the recreation residence, the holder shall immediately notify the authorized officer.

V. Liabilities

A. This permit is subject to all valid existing rights and claims outstanding in third parties. The United States is not liable to the holder for the exercise of any such right or claim.

B. The holder shall hold harmless the United States from any liability from damage to life or property arising from the holder's occupancy or use of National Forest lands under this permit.

C. The holder shall be liable for any damage suffered by the United States resulting from or related to use of this permit, including damages to National Forest resources and costs of fire suppression. Without limiting available civil and criminal remedies which may be available to the United States, all timber cut, destroyed, or injured without authorization shall be paid for at stumpage rates which apply to the unauthorized cutting of timber in the State wherein the timber is located.

VI. Fees

A. Fee Requirement: This special use authorization shall require payment in advance of an annual rental fee.

B. Appraisals:

1. Appraisals to ascertain the fair market value of the *lot* will be conducted by the Forest Service at least every 20 years. The next appraisal will be implemented in *_____ (insert year).

2. Appraisals will be conducted and reviewed in a manner consistent with the Uniform Standards of Professional Appraisal Practice, from which the appraisal standards have been developed, giving accurate and careful consideration to all market forces and factors which tend to influence the value of the *lot*.

3. If dissatisfied with an appraisal utilized by the Forest Service in ascertaining the permit fee, the holder may employ another qualified appraiser at the holder's expense. The authorized officer will give full and complete consideration to both appraisals provided the holder's appraisal meets Forest Service standards. If the two appraisals disagree in value by more than 10 percent, the two appraisers will be asked to try and reconcile or reduce their differences. If the appraisers cannot agree, the Authorized Officer will utilize either or both appraisals to determine the fee. When requested by the holder, a third appraisal may be obtained with the cost shared equally by the holder and the Forest Service. This third appraisal must meet the same standards of the first and second appraisals and may or may not be accepted by the authorized officer.

C. Fee Determination:

1. The annual rental fee shall be determined by appraisal and other sound business management principles (36 CFR 251.57(a)). The fee shall be 5 percent of the appraised fair market fee simple value of the *lot* for recreation residence use.

Fees will be predicated on an appraisal of the *lot* as a base value, and that value will be adjusted in following years by utilizing the percent of change in the Implicit Price Deflator-Gross National Product (IPD–GNP) index as of the previous June 30. A fee from a prior year will be adjusted upward or downward, as the case may be, by the percentage change in the IPD–GNP, except that the maximum annual fee adjustment shall be 10 percent when the IPD–GNP index exceeds 10 percent in any one year with the amount in excess of 10 percent carried forward to the next succeeding year where the IPD–GNP index is less than 10 percent. The base rate from which the fee is adjusted will be changed with each new appraisal of the lot, at least every 20 years.

2. If the holder has received notification that a new permit will not be issued following expiration of this permit, the annual fee in the tenth year will be taken as the base, and the fee each year during the last 10-year period will be one-tenth of the base multiplied by the number of years then remaining on the permit. If a new term permit should later be issued, the holder shall pay the United States *the total amount of fees foregone*, for the most recent 10 years period in which the holder has been advised that a new permit will not be issued. This amount may be paid in equal annual installments over a 10-year period in addition to those fees for existing permits. Such amounts owing will run with the property and will be charged to any subsequent purchaser of the improvements.

D. Initial Fee: The initial fee may be based on an approved Forest Service appraisal existing at the time of this permit, with the present day value calculated by applying the IPD–GNP index to the intervening years.

E. Payment Schedule: Based on the criteria stated herein, the initial payment is set at $*_____ per year and the fee is due and payable annually on *_____ (insert date). Payments will be credited on the date received by the designated collection officer or deposit location. If the due date(s) for any of the above payments or fee calculation statements fall on a nonworkday, the charges shall not apply until the close of business of the next workday. Any payments not received within 30 days of the due date shall be delinquent.

F. Interest and Penalties

1. A fee owed the United States which is delinquent will be assessed interest based on the most current rate prescribed by the United States Department of Treasury Financial Manual (TFM–6–8020). Interest shall accrue on the delinquent fee from the date the fee payment was due and shall remain fixed during the duration of the indebtedness.

2. In addition to interest, certain processing, handling, and administrative costs will be assessed on delinquent accounts and added to the amounts due.

3. A penalty of 6 percent per year shall be assessed on any indebtedness owing for more than 90 days. This penalty charge will not be calculated until the 91st day of delinquency, but shall accrue from the date that the debt became delinquent.

4. When a delinquent account is partially paid or made in installments, amounts received shall be applied first to outstanding penalty and administrative cost charges, second to accrued interest, and third to outstanding principal.

G. Nonpayment Constitutes Breach: Failure of the holder to make the annual payment, penalty, interest, or any other charges when due shall be grounds for termination of this authorization. However, no permit will be terminated for nonpayment of any monies owed the United States unless payment of such monies is more than 90 days in arrears.

H. Applicable Law: Delinquent fees and other charges shall be subject to all the rights and remedies afforded the United States pursuant to federal law and implementing regulations (31 U.S.C. 3711 *et seq.*).

VII. Transfer, Sale, and Rental

A. Nontransferability: Except as provided in this section, this permit is not transferable.

B. Transferability Upon Death of the Holder:

1. If the holder of this permit is a married couple and one spouse dies, this permit will continue in force, without amendment or revision, in the name of the surviving spouse.

2. If the holder of this permit is an individual who dies during the term of this permit and there is no surviving spouse, an annual renewable permit will be issued, upon request, to the executor or administrator of the holder's estate. Upon settlement of the estate, a new permit incorporating current Forest Service policies and procedures will be issued for the remainder of the deceased holder's term to the properly designated heir(s) as shown by an order of a court, bill of sale, or other evidence to be the owner of the improvements.

C. Devolution of Ownership: If the holder through voluntary sale, transfer, enforcement of contract, foreclosure, or other legal proceeding shall cease to be the owner of the physical improvements, this permit shall be terminated. If the person to whom title to said improvements is transferred is deemed by the authorizing officer to be qualified as a holder, then such person to whom title has been transferred will be granted a new permit. Such new permit will be for the remainder of the term of the original holder.

D. Notice to Prospective Purchasers: When considering a voluntary sale of the recreation residence, the holder shall provide a copy of this special use permit to the prospective purchaser.

before finalizing the sale. The holder cannot make binding representations to the purchasers as to whether the Forest Service will reauthorize the occupancy.

E. Rental: The holder may rent or sublet the use of improvements covered under this permit only with the express written permission of the authorized officer. In the event of an authorized rental or sublet, the holder shall continue to be responsible for compliance with all conditions of this permit by persons to whom such premises may be sublet.

VIII. Revocation

A. *Revocation* for Cause: This permit may be *revoked* for cause by the authorized officer upon breach of any of the terms and conditions of this permit or applicable law. Prior to such *revocation* for cause, the holder shall be given notice and provided a reasonable time—not to exceed ninety (90) days—within which to correct the breach.

B. *Revocation* in the Public Interest During the Permit Term:

1. This permit *may be revoked during its term* at the discretion of the authorized officer for reasons in the public interest. (36 CFR 251.60(b.) In the event of such *revocation* in the public interest, the holder shall be given one hundred and eighty (180) days' prior written notice to vacate the premises, provided that the authorized officer may prescribe a date for a shorter period in which to vacate ("prescribed vacancy date") if the public interest objective reasonably requires the *lot* in a shorter period of time.

2. The Forest Service and the holder agree that in the event of a *revocation* in the public interest, the holder shall be paid damages. *Revocation* in the public interest and payment of damages is subject to the availability of funds or appropriations.

a. Damages in the event of a public interest *revocation* shall be the lesser amount of either (1) the cost of relocation of the approved improvements to another *lot* which may be authorized for residential occupancy (but not including the costs of damages incidental to the relocation which are caused by the negligence of the holder or a third party), or (2) the replacement costs of the approved improvements as of the date of *revocation*. Replacement cost shall be determined by the Forest Service utilizing standard appraisal procedures giving full consideration to the improvement's condition, remaining economic life and location, and shall be the estimated cost to construct, at current prices, a building with utility equivalent to the building being appraised using modern materials and current standards, design and layout as of the date of *revocation*. If *revocation* in the public interest occurs after the holder has received notification that a new permit will not be issued following expiration of the current permit, then the amount of damages shall be adjusted as of the date of *revocation* by multiplying the replacement cost by a fraction which has as the numerator the number of full months remaining to the term of the permit prior to *revocation* (measured from the date of the notice of *revocation*) and as the denominator, the total number of months in the original term of the permit.

b. The amount of the damages determined in accordance with paragraph a. above shall be fixed by mutual agreement between the authorized officer and the holder and shall be accepted by the holder in full satisfaction of all claims against the United States under this clause: *Provided*, That if mutual agreement is not reached, the authorized officer shall determine the amount and if the holder is dissatisfied with the amount to be paid may appeal the determination in accordance with the Appeal Regulations (36 CFR *251.80*) and the amount as determined on appeal shall be final and conclusive on the parties hereto: *Provided further*, That upon the payment to the holder of the amount fixed by the authorized officer, the right of the Forest Service to remove or require the removal of the improvements shall not be stayed pending final decision on appeal.

IX. Issuance of a New Permit

A. Decisions to issue a new permit or convert the *permitted area* to an alternative public use *upon termination of this permit* require a determination of consistency with the Forest Land and Resource Management Plan (Forest plan).

1. Where continued use is consistent with the Forest plan, the authorized officer *shall issue a new permit, in accordance with applicable requirements for environmental documentation.*

2. If, as a result of an amendment or revision of the Forest plan, the *permitted area* is within an area allocated to an alternative public use, the authorized officer *shall conduct a site specific project analysis* to determine the range and intensity of the alternative public use.

a. If the project analysis results in a finding that the use of the *lot* for a recreation residence may continue, the holder shall be notified in writing, this permit shall be modified as necessary, and a new term permit shall be issued following expiration of the current permit.

b. If the project analysis results in a decision that the *lot* shall be converted to an alternative public use, the holder shall be notified in writing and given at least 10 years continued occupancy. The holder shall be given a copy of the project analysis, environmental documentation, and decision document.

c. A decision resulting from a project analysis shall be reviewed two years prior to permit expiration, *when that decision and supporting environmental documentation is more than 5 years old.* If this review indicates that the conditions resulting in the decision are unchanged, then the decision *may be implemented.* If this review indicates that conditions have changed, a new project analysis shall be made to determine the proper action.

B. In issuing a new permit, the authorized officer *shall* include terms, conditions, and special stipulations that reflect new requirements imposed by current Federal and State land use plans, laws, regulations, or other management decisions. (36 CFR 251.64)

C. If the 10-year continued occupancy given a holder who receives notification that a new permit will not be issued would extend beyond the expiration date of the current permit, a new term permit shall be issued for the remaining portion of the 10-year period.

X. Rights and Responsibilities Upon Revocation or Notification That a New Permit Will Not Be Issued Following *Termination* of This Permit

A. Removal of Improvements Upon *Revocation* or Notification That A New Permit Will Not Be Issued Following *Termination* Of This Permit: At the end of the term of occupancy authorized by this permit, or upon abandonment, or *revocation* for cause, Act of God, catastrophic event, or in the public interest, the holder shall remove within a reasonable time all structures and improvements except those owned by the United States, and shall return the *lot* to a condition approved by the authorized officer unless otherwise agreed to in writing or in this permit. If the holder fails to remove all such structures or improvements within a reasonable period—not to exceed one hundred and eighty (180) days from the date the authorization of occupancy is ended—the improvements shall become the property of the United States, but in such event, the holder remains obligated and liable for the cost of their removal and the restoration of the *lot*.

B. In case of *revocation* or notification that a new permit will not be issued following *termination* of this permit,

except if *revocation* is for cause, the authorized officer may offer an *in-lieu lot* to the permit holder for building or relocation of improvements. *Such lots* will be nonconflicting locations within the National Forest containing the residence being terminated or under notification that a new permit will not be issued or *at nonconflicting locations* in adjacent National Forests. Any *in-lieu lot* offered the holder must be accepted within 90 days of the offer or within 90 days of the final disposition of an appeal on the *revocation* or notification that a new permit will not be issued under the Secretary of Agriculture's administrative appeal regulations, whichever is later, or this opportunity will terminate.

XI. Miscellaneous Provisions

A. This permit replaces a special use permit issued to: *_____ (Holder Name) on *_____ (Date), [*

B. The Forest Service reserves the right to enter upon the property to inspect for compliance with the terms of this permit. Reports on inspection for compliance will be furnished to the holder.

C. Issuance of this permit shall not be construed as an admission by the Government as to the title to any improvements. The Government disclaims any liability for the issuance of any permit in the event of disputed title.

D. If there is a conflict between the foregoing standard printed clauses and any special clauses added to the permit, the standard printed clauses shall control.

Note: Additional provisions may be added by the authorized officer to reflect local conditions.

Public reporting burden for this collection of information, if requested, is estimated to average 1 hour per response for annual financial information; average 1 hour per response to prepare or update operation and/or maintenance plan; average 1 hour per response for inspection reports, and an average of 1 hour for each request that may include such things as reports, logs, facility and user information, sublease information, and other similar miscellaneous information requests. This includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Department of Agriculture, Clearance Officer, OIRM, room 404–W, Washington, DC 20250; and to the Office of Management and Budget, Paperwork Reduction Project (OMB control number 0596–0082), Washington, DC 20503.

Department of Transportation

Federal Aviation Administration

Proposed Policy Regarding Airport Rates and Charges; Notice

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Docket No. 27782]

Proposed Policy Regarding Airport Rates and Charges

AGENCY: Department of Transportation, Federal Aviation Administration.

ACTION: Notice of proposed policy.

SUMMARY: The Department of Transportation (DOT) and Federal Aviation Administration (FAA) are publishing for comment a proposed policy statement with respect to fair and reasonable, and nondiscriminatory airport rates and charges. Specifically, the proposed policy statement sets forth FAA policy regarding airport practices that DOT/FAA would consider to be consistent with Federal requirements for airport rates and charges for aeronautical uses. The proposed policy statement would assist airport proprietors and users in negotiating rates and charges and would be the basis for FAA to evaluate complaints of non-compliance with applicable law governing airport rates and charges.

DATES: Comments must be received on or before August 8, 1994.

ADDRESSES: Comments on this notice should be mailed in quadruplicate to: Federal Aviation Administration, Office of Chief Counsel, Attn.: Rules Docket (AGC–10), Docket No. 27782, 800 Independence Ave. SW., Washington, DC 20591. Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must include a preaddressed, stamped postcard on which the following statement is made: "Comments to Docket No. 27782." The postcard will be date stamped and mailed to the commenter.

FOR FURTHER INFORMATION CONTACT: John Rodgers, Director, Office of Aviation Policy, Plans and Management Analysis, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591, (202) 267–3274; Barry L. Molar, Manager, Airports Law Branch, Office of Chief Counsel, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591 (202) 267–3473.

SUPPLEMENTARY INFORMATION:

Request for Comments

Commenters are requested to identify recommended changes to the proposed policy statement and to identify legal, policy, financial or administrative principles or practices relied on to support each modification. Commenters are also requested to describe how each such modification will better comport with governing legal requirements and with the objectives of managing and developing the nation's air transportation system effectively to promote safety and efficiency and better serve aeronautical users, the traveling public and their communities than would the proposed policy statement. Further, comment is requested on the consistency of the proposed policy statement with practices now prevailing in the industry.

The proposed policy statement would have airports use historical costs as the basis for the aeronautical rate base, unless the airport and aeronautical users agree to a different methodology. This proposal is consistent with the prevalent practice in the airport industry. Because historical costs provide a reliable and verifiable valuation methodology on which to base rates and charges, they are consistent with the policy statement's goal of encouraging local resolution of disputes. Historic costs are also the generally used methodology in public utility regulation. Historic cost valuation assures that airport users will pay for the facilities currently in use, rather than for replacement facilities.

Nevertheless, we recognize that there are alternative approaches to historic cost valuation, including replacement costs and other methodologies. We solicit comment on how other valuation methods would comport with applicable legal requirements and promote efficient use of airport resources. To facilitate analysis of any recommended alternatives, the agency is particularly interested in examples in which the proposed methodology has been used in comparable circumstances to establish a rate base.

All comments received on or before the closing date for comments will be considered before adoption and publication of a final policy statement. The proposed policy statement may be changed in light of comments received. All comments will be available in the Rules Docket for examination by interested persons.

Public Meeting

A public discussion will be held in Washington, DC at which views may be expressed orally. A notice setting forth the location, date and time of the discussion and procedures for participation will be published in the **Federal Register**.

The Secretary of Transportation and the FAA are charged with promoting and maintaining a national aviation system that operates safely and efficiently. The Federal government pursues this objective by investing Federal funds, via grants-in-aid, in modern airport facilities sufficient to handle current and future air traffic and by facilitating local investment in such facilities. Transportation goals are also advanced when airport rates and charges are reasonable and consistent with airport development needs, and airport revenues are employed in the aviation system.

Traditionally, these goals have been pursued effectively at the local airport level through negotiation regarding operating costs, capital investment needs and financing strategies. Airlines, airport management and investors in airport securities have proven adept at striking a reasonable balance. As a result, the public interest has been served in the establishment of a safe air transportation system, airport rates and charges that have broad acceptance, continued growth of the national aviation system, and affordable air travel.

In publishing this proposed policy statement and associated administrative procedures for review of airport compliance, DOT/FAA continue to encourage negotiations between airport proprietors and aeronautical users as the primary means of setting airport rates and charges. Adversarial proceedings are no substitute for prompt and productive negotiations between directly interested local parties.

Nonetheless, where needed to ensure the interests of airports, their users and the traveling public, the Secretary and the Administrator are prepared to take a more active role in airport-airline disputes. Normally, the Federal role will be to assist parties unable to resolve fee disputes locally to conclude their own agreements successfully. In appropriate circumstances, the Secretary and the Administrator have broad legal authority to review the legality of proposed airport rates and to take all necessary investigatory and enforcement actions in aid of that authority. Where an impasse could have a significant adverse impact on air transportation, or otherwise involves a significant policy issue, parties directly affected will have the opportunity, through a streamlined procedural process being proposed concurrently, to seek a determination as to compliance with the principles set forth in this proposed policy statement. In these proceedings, DOT/FAA would not determine a specific level of legally acceptable rate, but rather would determine whether a rate was or was not in compliance with requirements that

rates be fair and reasonable and not unjustly discriminatory.

To provide guidance to parties engaged in their own negotiations and to make clear the criteria to which DOT/FAA would refer in addressing disputes over airport rates and charges, DOT/FAA have assembled, in a single policy statement, guidelines whose elements are based on various statutes, judicial and administrative decisions and historic industry practice. The fundamental requirement is that airport rates and charges imposed on aeronautical users be fair, reasonable and not unjustly discriminatory. This requirement is based on statutory mandates and obligations assumed by airport owners or operators (sponsors) as a condition for receiving Federal financial assistance. In addition, in accordance with relevant federal statutory provisions, airport sponsors are required to use airport revenue for the benefit of the airport system.

While the proposed policy statement would provide guidance for many airport charging practices, it cannot address each issue that may arise in this complex and fact-specific area. DOT/FAA does expect that the proposed policy statement would reduce uncertainty and, accordingly, the need to bring matters to the FAA for resolution through the administrative process. DOT/FAA intend that publication of the policy statement would help focus airport-airline rate negotiations on solutions that benefit airports and airlines alike. The FAA will consider the challenged rate after consideration of all the circumstances of the particular case in light of the basic principles articulated in the proposed policy statement.

DOT/FAA do not intend the policy statement to limit unduly the flexibility of airport proprietors to respond to a wide range of local conditions. In addition, this proposed policy statement is intended to preserve the credit ratings of airport revenue bonds by assuring capital markets that the Federal framework maintains the flexibility necessary for airport practices to meet local needs and changing conditions on a timely basis. High credit ratings can reduce the cost of airport infrastructure and ultimately of air transportation by lowering the financing costs of airport capital projects. Conversely, lower credit ratings can increase the financing costs of airport infrastructure development.

The proposed policy statement is intended to assist in maintaining a balance between airport infrastructure development and the preservation of safe and efficient transportation. Airlines should benefit from assurances that airport-related costs will be fair and reasonable. Airport operators should benefit from being afforded the flexibility necessary to tailor financial management, pricing, and investment strategies to meet local needs and conditions. DOT/FAA recognize that there is no single procedure or fixed methodology for establishing rates and charges in use in the industry and that the standard of reasonableness does not compel a single approach or a single fee. Airport proprietors may adopt procedures and methdologies that serve their objectives so long as they comply with applicable Federal requirements, including the requirement to keep airport revenues employed in the airport system.

This proposed policy statement is based on existing statutes, regulations, policies and judicial and administrative precedent. These sources are described below. The requirement that airport user charges be fair and reasonable and not unjustly discriminatory is based in two statutes, the Airport and Airway Improvement Act of 1982, as amended, 49 U.S.C. App. 2201 *et seq.* (AAIA) and the Anti-Head Tax Act, 49 U.S.C. App. 1513(a)–(d) (AHTA).

a. Airport and Airway Improvement Act

The AAIA authorizes the Secretary of Transportation to make grants-in-aid to airport sponsors to finance airport development in the interests of safety, efficiency and capacity. In exchange for grant funds, airport sponsors agree to follow Federal requirements for the implementation of airport development projects and for operation of the airport. The Secretary has delegated the authority to administer the grant-in-aid program to the FAA.

Section 511(a) of the AAIA, 49 U.S.C. App. 2210(a), requires airport sponsors to the give various assurances satisfactory to the Secretary as a condition for receipt of grants. Under the authority of section 512 of the AAIA, 49 U.S.C. App. 2211, the FAA incorporates these assurances as part of the grant agreement between the sponsor and the FAA.

Of central importance to airport rates and charges is the requirement in section 511(a)(1) that airports be made available on fair and reasonable terms and without unjust discrimination. DOT/FAA construe this provision to include a requirement that rates and charges imposed on aeronautical users be fair and reasonable and without unjust discrimination. Also relevant is section 511(a)(9), which obligates the airport sponsor to maintain a fee and rental structure that will make the airport as self-sustaining as possible, but to exclude the Federal share of airport development from the airport's rate-base. In addition, section 511(a)(12) obligates the airport sponsor, with certain exceptions, to use airport revenue on the capital and operating costs of the airport or closely related transportation facilities. Section 519 of the AAIA grants general authority to the FAA to conduct investigations and hearings and to issue orders and regulations to carry out its provisions. Under section 519(b), the FAA may withhold approval of new entitlement grants and payments of funds under all existing grants for up to 180 days before issuing a final determination regarding compliance.

b. Anti-Head Tax Act

The requirement of reasonableness is also incorporated in the AHTA, which is part of the FAAct. Section 1113(a), 49 U.S.C. App. 1513(a), generally prohibits State and local taxation of air commerce and passengers traveling in air commerce. Section 1113(b) excludes from the prohibition reasonable landing fees and other charges to aircraft operators using the airport. Based on these provisions, the courts have consistently interpreted the AHTA to bar unreasonable landing fees as prohibited taxation. These provisions must also be implemented consistent with U.S. international obligations regarding airline user charges, pursuant to section 1102(a) of the FAAct, 49 U.S.C. App. 1502(a).

Section 1113(e) contains another exception to the AHTA's general prohibition. Section 1113(e) authorizes airport operators to impose a passenger facility charge approved by the FAA on paying passengers enplaned at the airport. Subsection 1113(e)(7)(B) generally prohibits inclusion of the cost of capital projects paid for with PFC revenue in the airport's rate base.

c. Other Sources

In addition to these statutory mandates, many airports have assumed the obligation to charge fair and reasonable and not unjustly discriminatory rates in connection with transfers of Federal property. Under the authority of the Surplus Property Act of 1944, 50 U.S.C. 1622(g), the Federal government has transferred for airport use title to real property to numerous airport operators around the country.

Judicial decisions and administrative decisions reviewing the reasonableness of airport rates and charges, though relatively few in number, have also provided guidance. The most recent is the decision in *Northwest Airlines* v.

Kent County, ____ U.S. ____, 114 S.Ct 855(1994).

FAA statements of policy regarding the administration of the airport grant program, principally FAA Order 5190.6A, Airport Compliance Requirements (October 1989) provide an additional basis for some of the matters addressed. Finally, prevailing practices regarding cost allocation, economic and financial modeling and generally accepted accounting practices have been considered, as they apply specifically to airport rates.

Additional FAA Actions Relating to Airport Rates and Charges

In addition to this proposed policy statement, DOT/FAA are taking a variety of other actions to assure that airports comply with Federal requirements relating to airport rates and charges and the use of airport revenues.

First, DOT/FAA are concurrently publishing in the **Federal Register** a Notice of Proposed Rulemaking proposing new procedural regulations for review of complaints regarding airport proprietor compliance with Federal obligations. The proposal regulation includes special expedited procedures for review of carrier complaints about an increase in airport rates and charges. Second, under the authority of section 518 of the AAIA, 49 U.S.C. App. 2217, the FAA is notifying airport sponsors to make available to the public full financial statements and audit reports maintained by the airport sponsor. Third, under the authority of section 507(c)(3) of the AAIA, 49 U.S.C App. 2206(c)(3), the FAA will consider the availability of accumulated surplus from nonaeronautical activities and the use of such surplus in selecting projects for funding with AIP discretionary funds. In addition, the FAA will continue to scrutinize the capital improvement plans submitted with applications for passenger facility charges to assure that the amount and duration of the PFC will not result in revenues that exceed amounts necessary to finance the specific projects.

With respect to the requirements for the use of airport revenues, the FAA is strengthening the audit procedures set forth in the compliance supplement to the single audits of state and local governments under the Single Audit Act. Additionally, the FAA is developing and implementing an action plan to counsel those airports identified as potentially in noncompliance and initiating enforcement actions where continuing noncompliance is found. Enforcement actions may include suspension or reduction of any AIP discretionary or entitlement funds. In addition, the FAA is working closely with the Office of Inspector General to address issues of unlawful revenue diversion.

The Proposed Policy Statement

Accordingly, DOT/FAA propose to adopt a new policy statement regarding the establishment of airport rates and charges as follows:

POLICY REGARDING THE ESTABLISHMENT OF AIRPORT RATES AND CHARGES

Introduction

DOT/FAA reiterate here the fundamental position that the issue of rates and charges is best addressed at the local level by agreement between users and airports. By providing guidance on standards applicable to airport rates and charges imposed for aeronautical use of the airport, DOT/FAA intend to facilitate direct negotiation between the proprietor and aeronautical users and to minimize the need to seek direct Federal intervention to resolve differences over airport rates and charges. Because DOT/FAA encourage direct resolution of airport fee issues, the FAA does not generally monitor practices established by agreement, except with respect to requirements for the use of airport revenue.

Principles Applicable to Airport Rates and Charges

1. In general, DOT/FAA rely upon airport proprietors, aeronautical users, and the market and institutional arrangements within which they operate, to ensure compliance with applicable legal requirements. Direct Federal intervention will be available, however, where needed.

2. Rates, fees, rentals and other charges ("rates and charges") imposed on aeronautical users must be fair and reasonable.

3. Airport rates and charges may not unjustly discriminate against aeronautical users or user groups.

4. Airport proprietors must maintain a fee and rental structure that in the circumstances of the airport makes the airport as financially self-sustaining as possible.

5. In accordance with relevant Federal statutory provisions governing the use of airport revenue, airport proprietors must keep airport revenue employed in the local airport system.

Local Negotiation and Resolution

1. In general, DOT/FAA rely upon airport proprietors, aeronautical users, and the market and institutional arrangements within which they operate, to ensure compliance with applicable legal requirements. Direct Federal intervention will be available, however, where needed.

1.1 DOT/FAA encourage direct resolution of differences at the local level between aeronautical users and the airport proprietor. Such resolution is best achieved through adequate and timely consultation between the airport proprietor and the aeronautical users. Airport proprietors should engage in adequate and timely consultation with aeronautical users about airport rates and charges.

1.1.1 Airport proprietors should consult with aeronautical users well in advance of introducing significant changes in charging systems and procedures or in the level of charges. The proprietor should provide adequate information to permit aeronautical users to evaluate the airport proprietor's justification for the change and to assess the reasonableness of the proposal. For consultations to be effective, airport proprietors should give due regard to the views of aeronautical users and to the effect upon them of changes in rates and charges. Likewise, aeronautical users should give due regard to the views of the airport proprietor and the financial needs of the airport.

1.1.2 Airport proprietors and aeronautical users should consider the public interest in establishing airport rates and charges.

1.1.3 Airport proprietors and aeronautical users should make a good-faith effort to reach agreement. Absent agreement, airport proprietors are free to act in accordance with their proposals, subject to review by the FAA upon complaint by the user or, in unusual circumstances, on DOT/FAA's initiative.

1.2 Where airport sponsors and aeronautical users have been unable, despite all reasonable efforts, to resolve disputes between them, DOT/FAA will act to resolve the issues raised in the dispute.

1.2.1 First, DOT/FAA will offer its good offices to facilitate parties' reaching a successful outcome in a timely manner. Prompt resolution of these disputes is always desirable since extensive delay can lead to uncertainty for the public and a hardening of the parties' positions.

1.2.2 Second, where negotiations between the parties are unsuccessful and a complaint is filed alleging that airport rates and charges violate an airport sponsor's federal grant obligations, DOT/FAA will, where warranted, exercise the broad statutory authority to investigate and review the

legality of those rates and charges. Where an impasse could have a significant adverse impact on air transportation, or otherwise involves a significant policy issue, parties directly affected will have the opportunity, through a streamlined procedural process, to seek DOT/FAA's determination as to compliance with the principles set forth in this proposed policy statement.

1.3 Airport proprietors must retain the ability to respond to local conditions with flexibility and innovation. However, an airport proprietor is encouraged to achieve consensus and agreement with its airline tenants before implementing a practice that would represent a major departure from this guidance. However, the requirements of any law, including the requirements for the use of airport revenue, may not be waived, even by agreement with the aeronautical users.

Fair and Reasonable Rates and Charges

2. Rates, fees, rentals and other charges ("rates and charges") imposed on aeronautical users must be fair and reasonable.

DOT/FAA consider the aeronautical use of an airport to be any activity that involves, makes possible, is required for the safety of the operations of, or is otherwise directly related to, the operation of aircraft. Aeronautical use includes services provided by air carriers related directly and substantially to the movement of passengers, baggage, mail and cargo.

2.1 Revenues from rates and charges for aeronautical uses (aeronautical revenues) may not exceed the costs to the airport proprietor of providing airport services and facilities currently in aeronautical use (aeronautical costs) unless otherwise agreed to by the affected aeronautical users.

2.1.1 Aeronautical users may receive a cross-credit of non-aeronautical revenues only if the airport proprietor agrees. Agreements providing for such cross-crediting are commonly referred to as "residual agreements" and generally provide a sharing of non-aeronautical revenues with aeronautical users. The aeronautical users in turn agree to assume part or all of the liability for non-aeronautical costs. An airport proprietor may not require aeronautical users to cover losses generated by non-aeronautical facilities except by agreement.

2.1.2 In other situations, an airport proprietor assumes all liability for non-aeronautical costs and retains all non-aeronautical profits for its own use in accordance with Federal requirements. This approach to airport financing is generally referred to as the compensatory approach.

2.1.3 Airports frequently adopt charging systems that employ elements of both approaches. Federal law does not require a single approach to airport financing.

2.2 The "rate base" is the total of all aeronautical costs that may be recovered from aeronautical users through rates and charges. Airport proprietors must employ a reasonable, consistent and "transparent" (i.e., clear and fully justified) method of establishing the rate base and adjusting the rate base on a timely and predictable schedule.

2.3 Costs that may be included in the rate base (allowable costs) are limited to: operating and maintenance expenses directly and indirectly associated with the provision of aeronautical facilities and services; all capital costs directly associated with the provision of aeronautical facilities and services currently in use; and current costs of planning future aeronautical facilities and services.

2.3.1 Where airport proprietors have expended funds from non-aeronautical sources to finance capital investments for aeronautical use, the implicit capital cost of these funds may be included in the aeronautical rate base in addition to the cost of the asset. DOT/FAA consider it reasonable to use, as a measure of the implicit capital cost, the average rate of interest on airport revenue bonds prevailing of similarly-sized airports at the time the funds were spent for the capital projects.

2.3.2 Airport proprietors may include reasonable environmental costs in the rate base to the extent that the airport proprietor incurs a corresponding actual expense (an example of an actual expense is the cost of providing acoustical insulation for homes). All revenues received based on the inclusion of these costs in the rate base are subject to Federal requirements on the use of airport revenue.

2.3.3 Airport proprietors are encouraged to establish rates and charges with due regard for economy and efficiency.

2.3.4 The airport proprietor may include in the rate base amounts needed to fund short-term cash reserves to protect against the risks of cash-flow fluctuations associated with normal airport operations.

2.4 Airport proprietors must comply with the following practices in establishing the rate base, provided, however, that one or more aeronautical users may agree to a rate base that deviates from these practices in the establishment of those users' rates and charges.

2.4.1 Airport assets must be valued according to their historic cost to the original airport proprietor. Subsequent airport proprietors shall acquire the cost basis of the original airport proprietor. An airport proprietor may not employ current cost and replacement cost methods to value airport assets.

2.4.2 The costs of facilities not yet built and operating may not be included in the rate base. The airport proprietor may include in the rate base the costs of land that facilitates the current operations of the airport.

2.4.3 The rate base of an airport cannot include costs associated with another airport unless (1) the proprietor of the first airport is also the proprietor of the second airport; (2) the second airport is currently in use; and (3) the costs of the second airport to be included in the first airport's rate base reflect the aviation benefits that the second airport provides or is expected to provide to the aeronautical users of the first airport.

2.5 At all times, airport proprietors must comply with the following practices:

2.5.1 Indirect costs may not be included in the rate base unless they are based on a reasonable, transparent cost allocation formula calculated consistently for other units or cost centers of government.

2.5.2 The value of airport development or planning projects paid for with government grants and contributions and passenger facility charges (PFCs) may not be included in the rate base.

2.5.2(a) Exception: In the case of gates and related areas, or another terminal facility that is occupied by one or more carriers on an exclusive or preferential use basis, the rates and charges paid to use those facilities shall be no less than the fees charged for similar facilities that were not financed with PFC revenues.

Prohibition on Unjust Discrimination

3. Airport rates and charges may not unjustly discriminate against aeronautical users or user groups.

3.1 Unless aeronautical users agree, the rates and charges imposed on any aeronautical user or group of aeronautical users may not exceed the costs allocated to that user or user group under the cost allocation methodology adopted by the airport proprietor that is consistent with this guidance.

3.2 A properly structured peak pricing system that allocates limited resources using price during periods of congestion will not be considered to be unjustly discriminatory. An airport proprietor may, consistent with the

policies expressed in this policy statement, establish rates and charges that maximize the efficient utilization of the airport.

3.3 Relevant provisions of the Convention on International Civil Aviation (Chicago Convention) and many bilateral aviation agreements specify, inter alia, that charges imposed on foreign airlines must not be unjustly discriminatory, must not be higher than those imposed on domestic airlines engaged in similar international air services and equitably apportioned among categories of users. Charges that are inconsistent with these principles will be considered unjustly discriminatory or unfair and unreasonable.

3.5 Allowable costs—costs properly included in the rate base—must be allocated to aeronautical users by a transparent, reasonable and not unjustly discriminatory rate-setting methodology. The methodology must be applied consistently and cost differences must be determined quantitatively.

3.5.1 Common costs (costs not directly attributable to a specific user group or cost center) must be allocated according to a reasonable, transparent and not unjustly discriminatory cost allocation formula that is applied consistently.

Requirement of Financial Self-Sufficiency

4. Airport proprietors will maintain a fee and rental structure that in the circumstances of the airport makes the airport as financially self-sustaining as possible.

4.1 If market conditions or demand for air service do not permit the airport to be financially self-sustaining, the airport proprietor should establish long-term goals and targets to make the airport financially self-sustaining.

4.2 The federal obligation to make the airport as financially self-sustaining as possible does not justify the inclusion of environmental costs in the rate base unless an airport proprietor incurs actual costs.

Requirements Governing Revenue Application and Use

5. In accordance with relevant Federal statutory provisions governing the use of airport revenue, airport proprietors must keep airport revenue employed in the local airport system.

5.1 Whether or not total airport revenues exceed full current airport costs—

(a) aeronautical revenues may not exceed aeronautical costs; and

(b) the airport proprietor must keep all airport revenue and assets (aeronautical and non-aeronautical) employed in the local airport system in accordance with relevant Federal statutory provisions governing the use of airport revenue.

5.2 The progressive accumulation of substantial amounts of airport revenues may warrant an FAA inquiry into the airport proprietor's application of revenues to the local airport system.

5.3 The airport proprietor should consider the conversion of a reasonable amount of surplus airport revenues into airport improvements, which may include types of development that are not eligible for grants of funds under the Airport Improvement Program.

5.4 Indirect costs may not be included in the rate base unless they are based on a reasonable, transparent cost allocation formula calculated consistently for other units or cost centers of government.

5.5 If an airport proprietor generates a surplus from non-aeronautical sources, such revenue shall be expended in accordance with relevant Federal statutory provisions governing the use of airport revenue for the capital or operating costs of the airport, the local airport system, or other local facilities directly and substantially related to air transportation.

Issued in Washington, DC, on June 3, 1994

[Docket No. 27783; Notice No. 94–18]

RIN 2120–AF–43

Rules of Practice for Federally Assisted Airport Proceedings

AGENCY: Federal Aviation Administration (FAA), (DOT).

ACTION: Notice of proposed rule (NPRM).

SUMMARY: This NPRM proposes to establish rules of practice for the filing of complaints and adjudication of compliance matters involving Federally assisted airports. The proposed rule would address exclusively airport compliance matters arising under the Airport and Airway Improvement Act (AAIA) of 1982, as amended; certain airport-related provisions of the Federal Aviation Act of 1958, as amended; the Surplus Property Act; as amended; predecessors to those acts; and regulations, grant agreements, and documents of conveyance issued or made under those acts. The proposed rule is intended to expedite substantially the handling and disposition of airport-related complaints, and to provide an efficient process for the agency to resolve disputes between air carriers and airport proprietors regarding whether airport fees and charges comply with Federal requirements. The NPRM would also amend the FAA's existing complaint and adjudication procedures, 14 CFR Part 13, "Investigative and Enforcement Procedures," to remove from the coverage of part 13 the airport-related matters that would be handled under the new part 16.

DATES: Comments must be received on or before August 8, 1994.

ADDRESSES: Comments on this notice may be mailed, in duplicate, to: Federal Aviation Administration, Office of the Chief Counsel, Attn.: Rules Docket (AGC–10), Docket No. 27783, 800 Independence Avenue, SW., Washington, DC 20591. Comments delivered must be marked Docket No. 27783. Comments may be examined in room 915F weekdays between 8:30 a.m. and 5 p.m. except on Federal holidays.

FOR FURTHER INFORMATION CONTACT: Barry Molar, Airport Law Branch (AGC–610), Office of the Chief Counsel, (202) 267–3473, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they desire. Comments relating to the economic effects that might result from adoption of the proposals contained in this notice are invited. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 27783." The postcard will be dated and time stamped and returned to the commenter.

All communications received on or before the closing date for comments will be considered by the Administrator before taking action on the proposed rule. The proposal contained in the notice may be changed in light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each substantive public contact with DOT/FAA personnel concerning this rulemaking will be filed in the docket.

Availability of NPRM

Any person may obtain a copy of this NPRM by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Inquiry Center, APA–430, 800 Independence Avenue SW., Washington, DC 20591, or by calling (202) 267–3464. Requests must identify the notice number of this NPRM. Persons interested in being placed on the mailing list for future NPRM's also should request a copy of Advisory Circular No. 11–2A, Notice of Proposed Rulemaking Distribution System, which describes application procedures.

Background

In addition to its plenary responsibility for aviation safety, the Federal Aviation Administration (FAA) is responsible for administering Federal laws that impose certain economic requirements on the operation of airports in the National Aviation System. These laws include the Airport and Airway Improvement Act of 1982, as amended, (AAIA) which provides for Federal grants to airport sponsors and imposes conditions on the grants in the form of assurances by those sponsors; the Surplus Property Act, which provides for the transfer of Federal property to local governments for airport use and, like the AAIA, requires specific assurances from the sponsor for the use of the property; section 308(a) of the Federal Aviation Act of 1958, as amended (FAAct), which prohibits an airport operator from granting an exclusive operating right at an airport that has received Federal funds; and the Anti-Head Tax Act, section 1113(a)–(d) of the FAAct, which prohibits local taxes on air travel but expressly permits the imposition of reasonable fees.

The FAA, concurrently with the publication of this NPRM, has published for public comment a notice of proposed policy on the standards for determining whether airport rates and charges are "fair and reasonable" within the meaning of the above statutes. The FAA will refer to that policy statement, as revised after review of the comments received, in the implementation of these laws and in adjudicating complaints brought before the agency involving airport rates and charges.

The Secretary of Transportation and the FAA Administrator have the authority and responsibility to receive complaints and adjudicate matters of compliance with these statutes. Typically, complaints received by the FAA involve an allegation of economic discrimination toward an airport tenant or a claim that an exclusive right has been granted by the airport operator. However, two recent disputes between airlines serving a major airport and the airport operator indicate that the FAA may soon receive cases involving more complex rates and charges issues. In both cases, the airlines filed suit in court but did not file an administrative complaint with the FAA. In *Northwest Airlines, Inc., et al.* v. *County of Kent, Michigan*, the airline tenants at the Grand Rapids Airport challenged various aspects of a new rate structure at the airport. The Supreme Court issued a decision substantially in favor of the airport operator in January 1994. _____ U.S. _____, 62 U.S.L.W. 4103 (1994). In 1993, the Air Transport Association and tenant airlines at Los Angeles International Airport filed suit in U.S. District Court to challenge a substantial increase in landing fees at the airport. The District Court for the Central District of California dismissed the airline complaint in February 1994, citing among other things the lack of a private right of action for complaints under the Anti-Head Tax Act.

Even though no administrative complaint was filed in the Los Angeles case, the Department of Transportation

became involved after the City announced that airlines that did not pay the new fees would be barred from operation at the airport. In November 1993, Secretary of Transportation Federico Peña convened the parties to the dispute in Washington, DC, to assist in a settlement of the controversy. The product of the ensuing discussions was an agreement by the parties that permitted continued litigation of the issues without the threat of interruption of air service to the traveling public.

Shortly after the Los Angeles discussions, Secretary Peña issued a letter, dated December 10, 1993, outlining the Department's prospective policy on involvement in airport-airline fee disputes. The Secretary noted the significant potential impact on air travelers and on the national air transportation system of unresolved airport-airline disputes. While reaffirming the Department's historic reliance on good faith negotiations and agreement by the local parties, the Secretary announced a more active and engaged approach to disputes that could not be resolved at the local level. The letter included the Secretary's direction to the FAA to streamline the procedural rules for handling airport-airline fee disputes. In keeping with the approach announced by the Secretary, and the expressed need for a more effective, streamlined enforcement and adjudication procedure, the FAA proposes the adoption of a revised and updated procedural rule adapted specifically to the investigation and adjudication of airport-related complaints within the jurisdiction of the FAA.

Existing FAR Part 13

At present, enforcement of the requirements imposed on airport proprietors as a condition of the acceptance of Federal grant funds or property is accomplished through the administrative procedures set forth in 14 CFR part 13. Requirements include, without limitation: (a) The obligation to provide access to the airport on fair and reasonable terms without unjust discrimination; (b) the prohibition on grants of exclusive rights; (c) the obligation to use all airport revenue on capital or operating costs of the airport, the sponsor's airport system or other transportation projects directly related to air transportation, consistent with 49 U.S.C. App. 2210(a)(12); (d) the obligation to make the airport as self-sustaining as possible; (e) the obligation to ensure that, to the maximum extent practicable, at least 10 percent of concession businesses are small business concerns owned and operated by socially and economically disadvantaged businesses (DBE's); and (f) the obligations pursuant to section 505(d) of the AAIA that at least 10 percent of AIP funds shall be expended with DBE's.

The application of part 13 procedures to enforcement of airport grant agreements began in 1979, largely as the result of the enactment of a civil rights statute, Section 30 of the Airport and Airway Development Act, as amended (ADAP). Section 30, reenacted as section 520 in the AAIA, as amended, is similar to Title VI of the Civil Rights Act (CRA), but is not an amendment to the CRA. For this reason, the Title VI administrative process provided in 49 CFR part 21 does not cover section 520 cases, and it was necessary to provide another avenue of administrative process for compliance matters.

Accordingly, the FAA added ADAP to the list of statutes in part 13 under which the Administrator conducts investigations. In 1988, the FAA amended the applicability provisions of part 13 to refer to the Airport and Airway Improvement Act of 1982 (AAIA) and to the Airport and Airway Safety and Capacity Expansion Act of 1987.

While the scope of part 13 was thereby enlarged to accommodate a range of airport enforcement matters, no attempt was made to revise the complaint or hearing procedures to address the particular requirements of airport cases. In the late 1980's, the number and complexity of complaints from aeronautical users regarding airport sponsor compliance with grant assurances and other Federal obligations began to increase. In 1987, an amendment to the AAIA compressed the time available to the agency to reach a final decision in a case in which grant funds could be withheld. In effect, section 519 of the AAIA, as amended in 1987, prohibits the Secretary from denying a grant of entitlement funds or from withholding payments under a grant for more than 180 days without providing opportunity for a hearing and issuing a determination of a violation. Using the complex formal hearing procedures of subpart D of part 13, it would be practically impossible to meet the 180-day deadline in the statute for completion of the entire hearing and final decision process. The difficulty of meeting the 180-day deadline arises from a number of characteristics of part 13:

- There are no explicit deadlines for completion of the investigative phase of a complaint.
- There is no guidance or direction on the processing of complaints that are treated as reports of violations under § 13.1. The absence of procedures for processing such cases has led to delays in disposition of cases, confusion as to the status of regional determinations under § 13.1 as judicially appealable final agency orders, and confusion over the procedures and standards for obtaining FAA headquarters review of regional determinations under § 13.1.
- The lack of more streamline adjudicatory procedures has tended to encourage the practice of submitting out-of-channel appeals and pleas for action directly to the Administrator and Secretary of Transportation. The submission of these requests diverts agency resources from investigations and leads to confusion regarding the contents of the administrative record.
- Some elements of part 13 today do not facilitate an expedited and definitive finding on compliance. For example, multiple, potentially duplicative an drawn-out hearings and the current administrative review process for hearing officer's decisions under subpart D make timely decisionmaking exceedingly difficult
- FAA experience with part 13 indicates that some provisions permit parties to prolong litigation once the FAA has initiated formal proceedings. Subpart D of part 13 includes, for example, open-ended subpoena provisions, and permits discovery and motions practice without time limit if the hearing officer chooses to allow it. Also, part 13 places no clear limits upon the successive filing of dispositive motions under § 13.49 by all parties.

Part 13, in short, does not provide a structure that regularly facilitates the final administrative disposition of airports-related cases within prescribed time limits, and cannot be relied upon to afford expedited resolution of disputes that may be needed in major airline-airport cases. For these purposes, and consistent with the Secretary's direction for a more streamlined process, a new procedural rule is necessary to focus exclusively on airport matters; to avoid duplicative and unnecessary steps; and to offer expeditious treatment, especially in cases with substantial potential impact on air transportation. In support of these objectives, the rules proposed here would:

1. Require parties to undertake serious attempts at informal resolution of their dispute prior to the filing of a complaint.

2. Focus administrative resources as a priority on resolving complaints which,

if not expeditiously resolved, may result in substantial adverse impact on air transportation.

3. Provide for a single complaint procedure, rather than for formal and "informal" complaints as in part 13. This will avoid duplicate complaints and investigations on the same subject.

4. Limit "standing" to persons directly and substantially affected by the specific dispute at issue, i.e. persons with a substantial actual and present interest in the outcome of an issue that is ripe for decision. Part 16 could not be used to obtain advisory opinions on speculative actions or academic questions.

5. Set clear time limits on the actions of all parties, including the agency, from the time a complaint is filed through final agency decision.

6. Provide procedural flexibility, e.g., to shorten time limits and eliminate procedural steps in a particular proceeding, consistent with fairness to those affected, where circumstances require special expedition.

7. Promote the likelihood of informal resolution of cases by the affected air carrier and airport parties without expensive formal hearings, by rendering a public initial agency determination of compliance in a short time frame.

8. Limit the number of formal pleadings and require that the documentary evidence relied upon by the parties be submitted promptly with the pleadings.

9. Require that parties serve all pleadings and documents on each other and the FAA, and use overnight or hand-delivery when the need for expeditious resolution of the matter is particularly acute.

10. Provide for an expedited process for investigatory hearings that will provide a full record, without undue complexity, regarding proposed increases in airport rates and charges in cases of particular significance.

11. Provide hearing procedures that permit the scope of each hearing to be tailored to the complexity and circumstances of the particular case, and rely on briefing and oral argument where there are no genuine issues of material fact in dispute.

12. Clearly establish the burden that each party must carry to make its case.

13. Limit *amicus* participation to the filing of briefs.

14. Prohibit interlocutory appeals and requests for reconsideration, and focus instead on an effective appeals process.

Subparts A through I of the proposed rule set forth a comprehensive procedure for the filing, investigation, and adjudication of complaints filed with the FAA against airports, and for appeal of agency decisions regarding such complaints. Subpart J of the proposed rule includes a special procedure for the receipt and investigation of complaints by airlines against an airport alleging that an airport fee increase is unreasonable or unjustly discriminatory.

The normal complaint procedure would result in an initial determination by the agency, within approximately six months of the filing of a complaint, whether the airport was in violation of its Federal obligations. This time period would include two round of responsive pleadings by the complainant and respondent, and a reasonably expeditious investigation and preparation of decision by the FAA.

The special subpart J procedure would result in an initial determination within 120 days of the complaint. Typically, this determination would be whether the challenged rate was fair and reasonable within the meaning of the relevant statutes. Under subpart J, the agency would appoint a presiding officer who will act independently to conduct an expedited investigatory hearing on the complaint. The presiding officer would then prepare a report of investigation for transmittal to the Assistant Administrator for Airports, who would consider the hearing record and report in issuing the initial determination of compliance.

Both the investigatory hearing under subpart J and the adjudicatory hearing under subpart F would provide an open and fair process for efficient and expedited consideration of complaints involving Federally funded airports. In both procedures, the time allowed for issuance of a compliance decision represents a considered balance between the interest in expedited resolution of disputes and the need for adequate time for investigation and deliberation before issuing agency decisions in these potentially complex cases. In subpart J, for example, the relatively short time provided for an interim determination on a complaint is sufficient to allow for oral investigatory hearing.

Within the constraints imposed by the effort achieve expedition, the investigatory hearing would provide complainants and airports the opportunity to develop the record before the FAA through streamlined procedures that permit cross-examination, adversary process, and limited discovery. In the atypical case in which an adjudicatory hearing would be held (under section 519 of the AAIA or section 1002 of the FAAct), the proposed hearing procedures are intended to permit the FAA to complete compliance hearings within 180 days, while assuring that a sponsor receives a fair hearing and opportunity to present evidence and argument to support its position. That process would provide substantial procedural safeguards, although it would not conform in every respect to the provisions of the Administrative Procedure Act (APA). The hearings mandated by section 519 of the AAIA and section 1002 of the FAAct are not an "agency adjudication required by statute to be determined on the record after opportunity for an agency hearing" within the meaning of section 554 of the APA. Accordingly, provisions of section 554 of the APA do not apply to the adjudicatory hearing proposed in this rule.

Description of the Proposed Rule

Subpart A—General Provisions

Subpart A would include provisions of general applicability to proceedings brought under part 16, definitions of terms used in the regulation, and a provision on separation of functions.

The regulation would apply to complaints, investigations and adjudications regarding compliance by airports with the following:

(a) Sections 308 and 1113 of the Federal Aviation Act of 1958, as amended, 49 U.S.C. App. 1347 and 1513;

(b) Obligations contained in grant-in-aid agreements (grant assurances) issued under airport financial assistance legislation enacted over the years, and obligations directly imposed by that legislation (including obligations relating to use of disadvantaged business enterprises); and

(c) Obligations contained in deeds of transfer for property transferred from the United States to airport proprietors (proposed section 16.1(a)).

The proposed regulation would also specify that if a grant assurance concerns a requirement that is within the authority of another Federal agency, that agency's administrative processes should be used and that the FAA would defer to the other Federal agency's authority (proposed § 16.1(b)). For example, the grant assurances require compliance with the Davis-Bacon Act relating to the payment of union-scale wages on Federally funded construction projects. Allegations of violation of the Davis-Bacon Act would continue to be adjudicated by the Department of Labor, not by the FAA under proposed part 16.

The proposed definitions (proposed section 16.3) are for the most part derived from the definitions of like or similar terms in 14 CFR part 13. The proposed definition of agency attorney would specify the FAA attorneys who can be responsible for investigating and prosecuting complaints. To assure compliance with the proposed rules on separation of functions in cases that go on to hearings under proposed subpart F, attorneys holding certain positions and working in certain offices of the FAA would be precluded from functioning as agency attorneys at any stage of the proceedings. Such attorneys would be available to advise the FAA decisionmaker or to serve as a hearing officer.

The proposed definition of hearing officer would require the hearing officer to be an attorney. FAA attorneys holding certain positions and working in specific offices would be precluded from functioning as hearing officers to assure compliance with the proposed rule on separation of functions.

Proposed § 16.5, requiring the separation of prosecutorial and adjudicatory functions in hearings, is based on FAR § 13.203, relating to civil penalty adjudications. Separation of functions is not required by statute because hearings under part 16 would not be subject to APA hearing requirements; however, the separation is provided to promote confidence in the impartiality and integrity of decisions under the new procedures. Separation of prosecutorial and adjudicatory functions would be provided from the time of the issuance of an initial determination in all cases in which an opportunity for hearing is provided, including cases in which the respondent waives hearing and appeals the initial determination in writing to the Administrator. When separation applies, the Assistant Administrator for Airports would be considered as performing the investigatory and prosecutorial function and would not participate in the decision of the Administrator or hearing officer.

Subpart B—General Rules Applicable to Complaints, Proceedings, and Appeals Initiated by the FAA

This subpart would apply to all phases of the investigations and adjudications under this part.

Proposed § 16.11 would provide for expediting any portion of an investigation or adjudication. While the normal procedures in this proposal are designed to be completed efficiently, in some circumstances there is a need to resolve an issue even more quickly. The section would authorize the Assistant Administrator for Airports to take a variety of steps appropriate to the particulars of any given case. The section is intended to provide flexibility to adopt such special procedures to assure sufficiently rapid decisionmaking and procedural fairness in the circumstances of the individual case.

The proposed rules on filing and service of documents, computation of time, and motions (proposed §§ 16.13, 16.15, 16.17, and 16.19), are based on similar provisions in the Federal Rules of Civil Procedure, the Department's Rules of Practice in Proceedings (14 CFR part 302), the Rules of Practice in Civil Penalty Actions (14 CFR part 13 subpart G), and the National Transportation Safety Board's Rules of Practice in Air Safety Proceedings (49 CFR part 821). These rules have been used for many years, are well-know to the aviation bar, and have proven to be effective.

Subpart C—Special Rules Applicable to Complaints.

Under proposed § 16.21, a potential complainant, *i.e.*, a person directly affected by the alleged noncompliance, would be required to engage in good faith efforts to resolve the disputed matter informally with potentially responsible respondents before filing a complaint with the FAA under part 16. Informal resolution may include mediation, arbitration, use of a dispute resolution board, or other form of third-party assistance. The Department's preference for informal resolution in lieu of formal complaint to the FAA is clearly stated in the notice of proposed policy statement published concurrently with this proposed rule.

Under this section, it would be necessary for the potential complainant or his representative to certify that good faith efforts had been made to achieve informal resolution. To protect the parties, and for consistency with Rule 408 of the Federal Rules of Evidence, the certification would not include information on monetary or other settlement offers made but not agreed upon in writing.

Section 16.23 Complaints, Answers, and Other Documents

Section 16.23 would specify the information to be included in a complaint, the additional pleadings allowed and the information to be contained therein, and the method for filing a motion to dismiss. In addition, it would shift to the complainant and the respondent the burden of providing all available supporting documents on which they rely and serving them upon all parties as specified in § 16.15.

Finally, it would provide that the FAA will have 20 days to docket and review the complaint. In the event that the complaint is not dismissed, the FAA will notify both the complainant and named respondent in writing within 20 days after the complaint is received that an answer shall be filed within 20 days of the date of service of the notification. The complainant's reply is due within 15 days of the answer, and the respondent's rebuttal, if any, is due within 15 days of the reply.

Section 16.25 Dismissals

Complaints that clearly do not state a cause of action that warrants investigation by the jurisdiction of the Administrator, as well as those that do not come within the jurisdiction of the Administrator under the authorities set forth in this part, would be dismissed with prejudice, within 20 days after receipt of the complaint. As a final order of the agency, a dismissal would be appealable to a United States Court of Appeals.

Section 16.27 Incomplete Complaints

Section 16.27 deals with a second category of complaint—one which states a *prima facie* cause of action and falls within the jurisdiction of the Administrator but is deficient as to one or more of the filing requirements set forth in § 16.23(b). Incomplete complaints would be dismissed within 20 days after the receipt of the complaint, without prejudice. Since the complainant would be able to refile, this dismissal would not be appealable to the FAA decision-maker or to a United States Court of Appeals.

Section 16.29 Investigations

Under § 16.29, where the FAA finds reasonable grounds to investigate the matters described in a complaint, it would conduct an investigation. Where there is little dispute about factual matters, or where documentary submissions alone are deemed sufficient to make a record for decision, the investigation may consist entirely of a review of the arguments and materials submitted by the parties in pleadings, *i.e.*, the complaint, answer, reply, and rebuttal. The FAA may rely on this review for its initial determination on compliance. Because the FAA could rely exclusively on information and documentary evidence filed with the pleadings, parties would be expected to provide thorough submissions in order to protect their interests.

Alternatively, the FAA could supplement the submissions by requesting additional information from a party or by field investigation if appropriate. Further, if necessary information is not furnished voluntarily the FAA could use its authority under the FAAct and the AAIA to subpoena witnesses for deposition and production of documents. By permitting the FAA to

render its initial determination based on the pleadings and material submitted therein, this section in effect permits the grant of initial summary judgment.

Section 16.31 Initial Determinations After Investigations

Section 16.31 provides procedures for issuance of the FAA's initial determinations and orders, and for issuance of the final decision on appeal of the initial determination in cases that do not involve a hearing. The Assistant Administrator for Airports, or a designee, would issue an initial determination in every case in which the FAA investigates a complaint. The agency would be required to issue an initial determination in 120 days from the due date of the last pleading (*i.e.*, reply or rebuttal), but the date could be extended for up to 60 days for good cause, or due to delay caused by the complainant. If there is no appeal of the initial determination, it would become the final decision of the Administrator. If a party adversely affected by the initial determination does not file an administrative appeal, the FAA proposes that the final decision would not be judicially reviewable.

The initial determination is intended to provide a prompt and authoritative indication of the agency position on a complaint. Consistent with the view that local parties are best positioned to resolve disputes, the initial determination should provide guidance to airport proprietors and airport users in resolving the matter without further process. While the initial determination can be appealed, the FAA expects that in many instances the initial decision would resolve the issues raised in the complaint to the satisfaction of the parties. In such cases, the parties may find it more beneficial to negotiate a solution based on the FAA's initial position than to continue to litigate the matter.

Section 16.33 Final Decision Without Hearing

If the initial determination finds the sponsor in compliance and dismisses the complaint, the complainant could appeal the determination by a written appeal to the Administrator within 30 days. Reply briefs could be filed within 20 days, and the Administrator would be required to issue a final agency decision on appeal within 30 days of the due date for the reply briefs. The FAA would not provide opportunity for a hearing on the dismissal of a complaint.

If the initial determination contains a finding of noncompliance and the respondent is entitled to a hearing, the determination would provide the sponsor the opportunity elect an oral evidentiary hearing under subpart F. The procedure for electing or waiving a hearing is set forth in Subpart E. If the respondent waives hearing and instead elects to file a written appeal to the Administrator, a final decision would be issued by the Administrator or a designee under § 16.33.

Subpart D—Special Rules Applicable to Proceedings Initiated by the FAA

Section 16.101 would make clear the FAA's continuing authority to initiate its own investigation of any matter within the applicability of this part without having received a complaint, as authorized by section 313 and section 1002 of the Federal Aviation Act and section 519 of the Airport and Airway Improvement Act.

Section 16.103 serves three purposes: (1) To require a notice setting forth the specific areas of concern to the FAA, following the initiation of an investigation; (2) to establish the time limit for a response; and (3) to encourage and provide time for informal resolution. In the event the issues raised are not resolved informally, the FAA could proceed to issue an initial determination under § 16.31.

Subpart E—Proposed Orders of Compliance

Subpart E is similar to § 13.20 of part 13, but provides a more streamlined and expedited procedure for the sponsor to elect to exercise the option of requesting a hearing, in keeping with the purpose of proposed part 16. If the initial determination proposes a sanction against the sponsor subject to section 519(b) of the AAIA or section 1002 of the FAAct, the respondent could file a request for hearing within 30 days after service of the determination. If the respondent elects a hearing, the agency will issue a hearing order.

Alternatively, if the respondent waives hearing and instead files a written appeal (within 30 days), the Administrator would issue a final decision in accordance with the procedures set forth in § 16.33.

During the 30-day period before an election of hearing or written appeal is due, the respondent and complainant would be encouraged to negotiate a resolution of the dispute based on the initial determination.

If the respondent fails to respond, the initial determination becomes final.

Subpart F—Hearings

Proposed subpart F would state the procedures for initiating and conducting adjudicative hearings. The hearing order, issued by the Deputy Chief Counsel under proposed § 16.201, would set the scope of the hearing by identifying the issues to be resolved, as well as assigning the hearing officer.

If no material facts that require oral examination of witnesses are in dispute, the hearing could be limited to submission of briefs and oral argument. If the hearing follows an investigatory hearing under subpart J, the record from the subpart J proceeding would be made part of the adjudicative hearing record, and the hearing officer could limit the submission of evidence to avoid duplication of the prior proceeding.

In the hearing, the agency attorney would represent the agency's position before the hearing officer, and would have the same status as any other representative of a party.

The proposed rules include commonly used adjudicatory procedures such as representation of the parties by attorneys, intervention, participation by non-parties, pretrial procedures and discovery, the availability of compulsory process to obtain evidence, and procedures for use at the hearing. They are based on similar provisions in the Federal Rules of Civil Procedure, the Department's Rules of Practice in Proceedings (14 CFR Part 302), the Rules of Practice in Civil Penalty Actions (14 CFR part 13 subpart G), and the National Transportation Safety Board's Rules of Practice in Air Safety Proceedings (49 CFR part 821). These provisions are intended to provide the parties with a reasonable opportunity to prepare their cases, while allowing the process to be completed expeditiously.

Subpart G—Initial Decisions, Orders and Appeals

Proposed subpart G provides procedures for issuance of initial decisions and orders by hearing officers, appeals of the initial decision to the FAA decisionmaker and for the issuance of consent orders. Proposed § 16.241 governing initial decisions and administrative appeals is based on 14 CFR 13.20(g)–(i). However, shorter time periods are provided to accommodate the time limits of section 519 of the AAIA. In addition, the proposed rule would include a provision for *sua sponte* review of an initial decision by the FAA decisionmaker, consistent with the practice under 14 CFR 302.28(d).

Proposed § 16.243 governing disposal of cases by consent orders is derived from 14 CFR 13.13.

Subpart H—Judicial Review

Proposed Subpart H would contain rules applicable to judicial review of final agency orders. Proposed

§ 16.247(a) would set forth the basic authority to seek judicial review. The provision is based on 14 CFR 13.235. Specific reference to section 519(b)(4) of the AAIA has been added. Proposed § 16.247(b) would identify FAA decisions and actions under part 16 that the FAA does not consider to be judicially reviewable final agency orders.

Subpart I—Ex Parte Communications

The proposed rule on *ex parte* communications is based on subpart J of the Rules of Practice in Air Safety Proceedings of the NTSB, 49 CFR Part 821, subpart J.

Subpart J—Alternate Procedure for Certain Complaints Concerning Airport Rates and Charges

Proposed subpart J would provide a special procedure for the expedited resolution of certain significant disputes involving the fees that airport operators charge airlines. The procedure would involve a formal investigation, including an evidentiary investigative hearing. The concept of the investigatory hearing derives from subpart F of part 13. However, special provisions governing the conduct of discovery, hearing, and initial determination in the subpart J proceeding are intended to assure that the investigative process can be completed within the time frame provided in the rule. If the conditions for the use of subpart J are met, the airline filing the complaint could request either the subpart J procedure or the investigatory procedures under § 16.29.

Proposed § 16.401 sets forth the conditions necessary to request the special procedure. A subpart J proceeding would be available only to carriers holding authority under sections 401, 402, or 418 of the FAAct or operating under an exemption for scheduled service under 14 CFR part 298.

A complaint requesting subpart J procedures would have to meet the general requirements of Part 16 and the complainant would have to request the use of subpart J procedures. In addition, subpart J would only be available for a complaint alleging that an increase in an airport rate or charge is unreasonable or unjustly discriminatory. The request would be granted if the Assistant Administrator for Airports determines that the complaint involves an issue that if not resolved in an expedited manner could have a significant adverse impact on air transportation. The FAA also proposes that subpart J could be used when the Assistant Administrator for Airports determines that a complaint raises a significant policy issue, without regard to the significance of the potential impacts of the case.

The subpart J proceeding would be more than usually resource-intensive for the agency, because of the expedited schedule and the formal investigatory hearing. The limitation of complainants under subpart J to scheduled air carriers and the limitation of the subject matter to significant disputes over airport fees is intended, therefore, to limit use of agency resources for an expedited hearing procedure to those cases that have the greatest potential effect on the traveling public.

Section 16.403 would establish requirements for the filing of complaints and would establish procedures for ruling on the request for use of subpart J procedures. The Administrator would rule on the request for use of subpart J procedures within seven days. If the complaint did not meet the requirements for use of subpart J but otherwise satisfied part 16, the complaint would be processed under subparts B and C exclusively.

If the Assistant Administrator for Airports determined to employ subpart J procedures, the respondents would be required to file an answer within 21 days of the Administrator's notice.

Under § 16.405, the Assistant Administrator for Airports would issue a notice and order of investigation within seven days after the answer is served. The notice and order of investigation would identify the presiding officer for the investigation, the allegations and scope of investigation and the date by which the presiding officer is directed to issue a report of investigation. The report will generally be due 60 days after the answer was filed. Under § 16.407, the presiding officer may not be an agency attorney, as defined in subpart A, or a person otherwise involved in the investigation of airport compliance matters. Accordingly, while the presiding officer could be an FAA or other DOT attorney, or another FAA employee with experience relevant to the issue, the presiding officer would not be a person with any prior involvement in the case at hand or a person whose regular duties involved enforcement of airport compliance.

Proposed § 16.411 sets forth procedures for a subpart J investigation, including an expedited investigatory hearing. The procedures are derived from existing part 13 and the hearing procedures in proposed part 16, subpart F.

Proposed § 16.413 would require the preparation of a report of investigation which would be provided to the Assistant Administrator and served on the parties. Under proposed § 16.415, the Assistant Administrator would issue an initial determination after review of the record developed in the investigation, including the presiding officer's report. The initial determination would be appealable to the Administrator or his designee under the provisions of § 16.31.

Proposed § 16.415 would provide for automatic suspension, 30 days after the initial determination, of eligibility to receive new Airport Improvement Program grants or payments under existing grants if the initial determination finds that the challenged rate or charge is unreasonable or unjustly discriminatory. However, the suspension would be deferred if the respondent issued an appropriate rescission of the disputed rate or charge pending completion of the proceeding under part 16.

Request for Comments

Interested persons are invited to comment on any aspect of the proposed rules. The FAA is particularly interested in comment on the following issues:

1. Whether the proposed rule strikes the right balance between providing an opportunity to be heard, on the one hand, and producing an expeditious agency decision, on the other.

2. Whether the overall time frames provided from complaint to initial agency determination and from appeal to final agency decision are practical.

3. Whether the particular time limits provided for each procedural step are adequate.

4. The placement of responsibility for investigation, hearing, and adjudication of complaints received by the FAA.

Regulatory Evaluation Summary

This notice proposes to adopt a new procedure for the filing, investigation, and adjudication of complaints against airports for violation of certain statutes administered by the FAA. The new procedures would be substituted for existing procedures under 14 CFR part 13. While the proposed rule differs in many details from the existing rule, the costs to a complainant and respondent involved in the complaint process would be virtually identical to the costs involved under the existing rule. Accordingly, the expected economic impact of this proposed amendment would be so minimal that a full Regulatory Evaluation is not warranted.

International Trade Impact Statement

This rule is not anticipated to affect the import of foreign products or

services into the United States or the export of U.S. products or services to foreign countries.

Regulatory Flexibility Determination

The Regulatory Flexibility Act (RFA) of 1980 was enacted by Congress to ensure that small entities are not unnecessarily or disproportionately burdened by Government regulations. The RFA requires a Regulatory Flexibility Analysis if a rule would have a significant economic impact, either detrimental or beneficial, on a substantial number of small entities. Based on the potential relief that the rule will provide and the criteria of implementing FAA Order 2100.14A, Regulatory Flexibility Criteria and Guidance, the FAA has determined that the rule will not have a significant economic impact on a substantial number of small entities.

Federalism Implications

The regulations proposed herein would not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Paperwork Reduction Act

This proposed rule contains no information collection requirements that require approval of the Office of Management and Budget pursuant to the Paperwork Reduction Act of 1980 (44 U.S.C. 3507 *et seq.*)

Conclusion

For the reasons discussed in the preamble, and based on the findings in the Regulatory Flexibility Determination and the International Trade Analysis, the FAA has determined that this proposed regulation is not economically significant under Executive Order 12866. However, due to the public interest in this rulemaking, this proposed rule is considered significant under the Executive Order. The FAA certifies that this proposal, if adopted, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. This proposal is considered significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979).

List of Subjects

14 CFR Part 13

Enforcement procedures, Investigations, Penalties.

14 CFR Part 16

Enforcement procedures, Investigations.

The Proposed Amendments

Accordingly, the Federal Aviation Administration proposes to amend part 13 and adopt new part 16 of the Federal Aviation Regulations (14 CFR parts 13 and 16) as follows:

PART 13—INVESTIGATIVE AND ENFORCEMENT PROCEDURES

1. The authority citation for part 13 continues to read as follows:

Authority: 49 U.S.C. 106(g) and 322; 49 U.S.C. App. 1354(a) and (c), 1374(d), 1401–1406, 1421–1432, 1471–1473, 1481, 1482, 1484–1489, 1523, 1655(c), 1808–1810, 2157(e) and (f), 2218, 2219; 16 U.S.C. 6002, 6004; 49 CFR 1.47.

2. Section 13.3 is amended by adding paragraph (d), to read as follows:

§ 13.3 Investigations (general).

* * * * *

(d) A complaint against the sponsor, proprietor, or operator of a Federally-assisted airport shall be filed in accordance with the provisions of part 16 of this chapter. Notwithstanding other provisions of this part, complaints, investigations, and agency decisions involving violations of the legal authorities listed in § 16.1 of this chapter are governed exclusively by the provisions of part 16 of this chapter.

3. A new part 16 is added to read as follows:

PART 16—RULES OF PRACTICE FOR FEDERALLY ASSISTED AIRPORT ENFORCEMENT PROCEEDINGS

Subpart A—General Provisions

Sec

16.1 Applicability and description of part
16.3 Definitions.
16.5 Separation of functions.

Subpart B—General Rules Applicable to Complaints, Proceedings Initiated by the FAA, and Appeals

16.11 Expedition and other modification of process.
16.13 Filing of documents.
16.15 Service of documents on the parties and the agency.
16.17 Computation of time
16.19 Motions

Subpart C—Special Rules Applicable to Complaints

16.21 Pre-complaint resolution.
16.23 Complaints, answers, replies, rebuttals, and other documents.
16.25 Dismissals.
16.27 Incomplete complaints.
16.29 Investigations.
16.31 Initial determinations after investigations.
16.33 Final decisions without hearing.

Subpart D—Special Rules Applicable to Proceedings Initiated by the FAA

16.101 Basis for the initiation of agency action.
16.103 Notice of investigation.
16.105 Failure to resolve informally.

Subpart E—Proposed Orders of Compliance

16.109 Orders terminating eligibility for grants, cease and desist orders, and other compliance orders.

Subpart F—Hearings

16.201 Notice and order of hearing.
16.202 Powers of a hearing officer.
16.203 Appearances, parties, and rights of parties.
16.207 Intervention and other participation.
16.209 Extension of time.
16.211 Prehearing conference.
16.213 Discovery.
16.215 Depositions.
16.217 Witnesses.
16.219 Subpoenas.
16.221 Witness fees.
16.223 Evidence.
16.225 Public disclosure of evidence.
16.227 Standard of proof.
16.229 Burden of proof.
16.231 Offer of proof.
16.233 Record.
16.235 Argument before the hearing officer
16.237 Waiver of procedures.

Subpart G—Initial Decisions, Orders and Appeals

16.241 Initial decisions, orders, and appeals.
16.243 Consent orders.

Subpart H—Judicial Review

16.247 Judicial review of a final decision and order.

Subpart I—Ex Parte Communications

16.301 Definitions.
16.303 Prohibited ex parte communications.
16.305 Procedures for handling ex parte communications.
16.307 Requirement to show cause and imposition of sanction.

Subpart J—Alternate Procedure for Certain Complaints Concerning Airport Rates and Charges

16.401 Availability of alternate complaint procedure
16.403 Answer and other documents.
16.405 Notice and order of investigation
16.407 Presiding officer.
16.409 Parties.
16.411 Investigation procedures
16.413 Report of investigation.
16.415 Initial determination.
16.417 Eligibility for grants pending final agency decision.

Authority: 49 U.S.C. 106(g), 322; 49 U.S.C. 1110, 1111, and 1115; 49 U.S.C. App. 1349

(a) and (c), 1354 (a) and (c), 1482 (a), (b) and (c), 1486, and 1513 (a) through (d) and (f); 49 U.S.C. 1718 (a) and (b), 1719, 1723, 1726 and 1727; 49 U.S.C. App. 2204 (a), (b), (c), (d) and (h), 2210(a), 2211(a), 2215, 2218, 2219, and 2222(c); 50 U.S.C. App. 1622(g); 49 U.S.C. App. 1655(c); 49 CFR 1.47.

Subpart A—General Provisions

§ 16.1 Applicability and description of part.

(a) *General.* The provisions of this part govern all proceedings involving Federally-assisted airports, whether the proceedings are instituted by order of the FAA or by filing with the FAA of a complaint, under the following authorities:

(1) Section 308 of the Federal Aviation Act of 1958, as amended, 49 U.S.C. App. 1349, prohibiting the grant of exclusive rights for the use of any landing area or air navigation facility on which Federal funds have been expended.

(2) Requirements of the Anti-Head Tax Act, section 1113 (a) through (d) of the Federal Aviation Act, 49 U.S.C. App. 1513 (a)–(d).

(3) The assurances contained in grant-in-aid agreements issued under the Federal Airport Act of 1946, 49 U.S.C. 1101 *et seq.*

(4) The assurances contained in grant-in-aid agreements issued under the Airport and Airway Development Act of 1970, as amended, 49 U.S.C. 1701, *et seq.*

(5) The assurances contained in grant-in-aid agreements issued under the Airport and Airway Improvement Act of 1982, as amended, (AAIA) 49 U.S.C. App. 2201 *et seq.*, specifically section 511(a), 49 U.S.C. App. 2210(a).

(6) Section 505(d) of the Airport and Airway Improvement Act of 1982, as amended, 49 U.S.C. App. 2214(d).

(7) Obligations contained in property deeds for property transferred under to section 16 of the Federal Airport Act (49 U,S.C. 1115), section 23 of the Airport and Airway Development Act (49 U.S.C. 1723), or section 516 of the Airport and Airway Improvement Act (49 U.S.C. App. 2215).

(8) Obligations contained in property deeds for property transferred under the Surplus Property Act (50 U.S.C. 1622(g)).

(b) *Other agencies.* Where a grant assurance concerns a statute, executive order, regulation, or other authority that provides an administrative process for the investigation or adjudication of complaints by a Federal agency other than the FAA, complaints shall use the administrative process established by those authorities. Where a grant assurance concerns a statute, executive order, regulation, or other authority that enables a Federal agency other than the FAA to investigate, adjudicate, and enforce compliance under those authorities on its own initiative, the FAA may defer to that Federal agency.

(c) *Other enforcement.* If a complaint or action initiated by the FAA involves a violation of the Federal Aviation Act or FAA regulations, except as specified in paragraphs (a)(1) and (a)(7) of this section, the FAA may take investigative and enforcement action under 14 CFR part 13, "Investigative and Enforcement Procedures."

(d) *Effective date:* This part applies to a complaint filed with the FAA on or after [effective date of final rule].

§ 16.3 Definitions.

Terms defined in the Acts are used as so defined. As used in this part:

Act means a statute listed in § 16.1 of this part or any regulation, agreement, or document of conveyance issued or made under that statute.

Administrator means the Administrator or his designee.

Agency attorney means the Deputy Chief Counsel; the Assistant Chief Counsel and attorneys in the Airports/Environmental Law Division of the Office of the Chief Counsel; the Assistant Chief Counsel and attorneys in an FAA region or center who represent the FAA during the investigation of a complaint or at a hearing on a complaint, and who prosecute on behalf of the FAA, as appropriate. An agency attorney shall not include the Chief Counsel, the Assistant Chief Counsel for Litigation, or any attorney on the staff of the Assistant Chief Counsel for Litigation who advises the FAA decisionmaker regarding an initial decision of the hearing officer or any appeal to the decisionmaker or who is supervised in that action by a person who provides such advice in an action covered by this part.

Assistant Administrator means the Assistant Administrator for Airports.

Complainant means the person submitting a complaint.

Complaint means a written document meeting the requirements of this part filed with the FAA by a person directly and substantially affected by anything allegedly done or omitted to be done by any person in contravention of any provision of any Act, as defined in this section, as to matters within the jurisdiction of the Administrator.

FAA decisionmaker means the Administrator of the FAA or any person to whom the Administrator has delegated the authority to issue a final decision and order of the Administrator on appeal from the initial decision of a hearing officer.

File means to submit written documents to the FAA for inclusion in the Enforcement Docket or to a hearing officer or presiding officer as appropriate.

Final decision and order means a final agency decision on the disposition of a complaint or on a respondent's compliance with any Act, as defined in this section, and directs appropriate action. A final decision and order that finds noncompliance may direct any sanction authorized by applicable laws.

Hearing officer means an attorney designated by the FAA in a hearing order to serve as a hearing officer in a hearing under this part. The following are not designated as hearing officers: the Chief Counsel and Deputy Chief Counsel; the Assistant Chief Counsel and attorneys in the FAA region or center in which the noncompliance has allegedly occurred or is occurring; and the Assistant Chief Counsel and attorneys in the Airports and Environmental Law Division of the FAA Office of the Chief Counsel.

Initial decision means a decision made by the hearing officer in a hearing under subpart F of this part.

Initial determination means a non-final agency decision following an investigation, including an investigation by investigative hearing under subpart J of this part.

Mail means U.S. first class mail; U.S. certified mail; and U.S. Express mail.

Noncompliance means anything done or omitted to be done by any person in contravention of any provision of any Act, as defined in this section, as to matters within the jurisdiction of the Administrator.

Party means the complainant(s) and the respondent(s) named in the complaint and, when an initial determination providing an opportunity for hearing is issued under § 16.31 and subpart E of this part, the agency.

Person means an individual, professional or other association, business or other private organization, including a sole proprietorship, partnership, or corporation, or a State or any agency of a State, such as a municipality or other political subdivision of a State, a tax-supported organization, or an Indian tribe or pueblo.

Personal delivery means hand delivery or overnight express delivery service.

Presiding officer means a person designated by the Assistant Administrator to preside over the investigation provided in subpart J of this part, who is neither an agency attorney as defined in this section or a

person otherwise engaged in the investigation of airport compliance.

Respondent means any person named in a complaint as a person responsible for things done or omitted to be done in contravention of any provision of any Act as to matters within the jurisdiction of the Administrator.

Sponsor means:

(1) Any public agency which, either individually or jointly with one or more other public agencies, has received Federal financial assistance for airport development or planning under the Federal Airport Act, Airport and Airway Development Act or Airport and Airway Improvement Act.

(2) Any private owner of a public-use airport who has received financial assistance from the FAA for such airport; and

(3) Any person to whom the Federal government has conveyed property for airport purposes under section 13(g) of the Surplus Property Act of 1944, as amended.

§ 16.5 Separation of functions.

(a) Proceedings under this part, including hearings under subpart F of this part, will be prosecuted by an agency attorney.

(b) After issuance of an initial determination in which the FAA provides the opportunity for a hearing, an agency employee engaged in the performance of investigative or prosecutorial functions in a proceeding under this part will not, in that case or a factually related case, participate or give advice in an initial decision by the hearing officer, a final decision by the Administrator or designee on written appeal, or final decision by the FAA decisionmaker, and will not, except as counsel or as witness in the public proceedings, engage in any substantive communication regarding that case or a related case with the hearing officer, the Administrator on written appeal, the FAA decisionmaker, or agency employees advising those officials in that capacity.

(c) The Chief Counsel, the Assistant Chief Counsel for Litigation, or an attorney on the staff of the Assistant Chief Counsel for Litigation advises the FAA decisionmaker regarding an initial decision, an appeal, or a final decision regarding any case brought under this part.

Subpart B—General Rules Applicable to Complaints, Proceedings Initiated by the FAA, and Appeals

§ 16.11 Expedition and other modification of process.

Under the authority of 49 U.S.C. 1354(a) and 2218(a), the Assistant Administrator may conduct investigations, issue orders, and take such other actions as are necessary to fulfill the purposes of this part, including the extension of any time period prescribed where necessary or appropriate for a fair and complete hearing of matters before the agency. Notwithstanding any other provision of this part, upon finding that circumstances require expedited handling of a particular case or controversy, the Assistant Administrator may issue an order directing any of the following prior to the issuance of an initial determination:

(a) Shortening the time period for any action under this part consistent with due process;

(b) If other adequate opportunity to respond to pleadings is available, eliminating the reply, rebuttal, or other actions prescribed by this part;

(c) Authorizing a presiding officer to adopt expedited procedures;

(d) Designating alternative methods of service; or

(e) Directing such other measures as may be required.

§ 16.13 Filing of documents.

Except as otherwise provided in this part, documents shall be filed with the FAA during a proceeding under this part as follows:

(a) *Filing address.* Documents to be filed with the FAA shall be filed with the Office of the Chief Counsel, Attention: FAA Enforcement Docket (AGC–10), Federal Aviation Administration, 800 Independence Ave., SW., Washington, DC 20591. Documents to be filed with a hearing officer shall be filed at the address stated in the hearing order. Documents to be filed with a presiding officer shall be filed at the address stated in the notice of investigation.

(b) *Date and method of filing.* Filing of any document shall be by personal delivery or mail as defined in this part, or by facsimile (when confirmed by filing on the same date by one of the foregoing methods). Unless the date is shown to be inaccurate documents to be filed with the FAA shall be deemed to be filed on the date of personal delivery, on the mailing date shown on the certificate of service, on the date shown on the postmark if there is no certificate of service, on the send date shown on the facsimile (provided filing has been confirmed through one of the foregoing methods), or on the mailing date shown by other evidence if there is no certificate of service and no postmark.

(c) *Number of copies.* Unless otherwise specified, an executed original and three copies of each document shall be filed with the FAA Enforcement Docket. Copies need not be signed, but the name of the persons signing the original shall be shown. If a hearing order or notice and order of investigation has been issued in the case one of the three copies shall be filed with the hearing officer or presiding officer. If filing by facsimile, the facsimile copy does not constitute one of the copies required under this section.

(d) *Form.* Documents filed with the FAA shall be typewritten or legibly printed. In the case of docketed proceedings, the document shall include the docket number of the proceeding on the front page.

(e) *Signing of documents and other papers.* The original of every document filed shall be signed by the person filing it or the person's duly authorized representative. The signature shall serve as a certification that the signer has read the document and, based on reasonable inquiry and to the best of the signer's knowledge, information, and belief, the document is—

(1) Consistent with this part;

(2) Warranted by existing law or that a good faith argument exists for extension, modification, or reversal of existing law; and

(3) Not interposed for any improper purpose, such as to harass or to cause unnecessary delay or needless increase in the cost of the administrative process.

(f) *Designation of person to receive service.* The initial document filed shall state on the first page the name, post office address, telephone number, and facsimile number, if any, of the person(s) to be served with documents in the proceeding. If any of these items change during the proceeding, the person shall promptly file notice of the change with the FAA Enforcement Docket and the hearing officer and shall serve the notice on all parties.

(g) *Docket numbers.* Each submission identified as a complaint under this part by the submitting person will be assigned a docket number.

§ 16.15 Service of documents on the parties and the agency.

Except as otherwise provided in this part, documents shall be served as follows:

(a) *Who must be served.* Copies of all documents filed with the FAA Enforcement Docket shall be served by the persons filing them on all parties to the proceeding. A certificate of service shall accompany all documents when they are tendered for filing and shall certify concurrent service on the FAA and all parties. Certificates of service

shall be in substantially the following form:

I hereby certify that I have this day served the foregoing [name of document] on the following persons at the following addresses and facsimile numbers (if also served by facsimile) by [specify method of service]:

[list persons, addresses, facsimile numbers]

Dated this _____ day of _____, 19 __.

[signature], for [party]

(b) *Method of service.* Except as otherwise agreed by the parties and the hearing officer, the method of service is the same as set forth in § 16.13(b) for filing documents.

(c) *Where service shall be made.* Service shall be made to the persons identified in accordance with § 16.13(f). If no such person has been designated, service shall be made on the party.

(d) *Presumption of service.* There shall be a presumption of lawful service—

(1) When acknowledgment of receipt is by a person who customarily or in the ordinary course of business receives mail at the address of the party or of the person designated under § 16.13(f).

(2) When a properly addressed envelope, sent to the most current address submitted under § 16.13(f), has been returned as undeliverable, unclaimed, or refused.

(e) *Date of service.* The date of service shall be determined in the same manner as the filing date under § 16.13(b).

§ 16.17 Computation of time.

This section applies to any period of time prescribed or allowed by this part, by notice or order of the hearing officer or presiding officer, or by an applicable statute.

(a) The date of an act, event, or default, after which a designated time period begins to run, is not included in a computation of time under this part.

(b) The last day of a time period is included in a computation of time unless it is a Saturday, Sunday, or legal holiday for the FAA, in which case, the time period runs until the end of the next day that is not a Saturday, Sunday, or legal holiday.

(c) Whenever a party has the right or is required to do some act within a prescribed period after service of a document upon the party, and the document is served on the party by mail, 5 days shall be added to the prescribed period.

§ 16.19 Motions.

(a) *General.* An application for an order or ruling not otherwise specifically provided for in this part shall be by motion. Unless otherwise ordered by the agency, the filing of a motion will not stay the date that any action is permitted or required by this part.

(b) *Form and contents.* Unless made during a hearing, motions shall be made in writing, shall state with particularity the relief sought and the grounds for the relief sought, and shall be accompanied by affidavits or other evidence relied upon. Motions introduced during hearings may be made orally on the record, unless the hearing officer or presiding officer directs otherwise.

(c) *Answers to motions.* Except as otherwise provided in this part, or except when a motion is made during a hearing, any party may file an answer in support of or in opposition to a motion, accompanied by affidavits or other evidence relied upon, provided that the answer to the motion is filed within 10 days after the motion has been served upon the person answering, or any other period set by the hearing officer. Where a motion is made during a hearing, the answer and the ruling thereon may be made at the hearing, or orally or in writing within the time set by the hearing officer or presiding officer.

Subpart C—Special Rules Applicable to Complaints

§ 16.21 Pre-complaint resolution.

(a) Prior to filing a complaint under this part, a person directly and substantially affected by the alleged noncompliance shall initiate and engage in good faith efforts to resolve the disputed matter informally with those individuals or entities believed responsible for the noncompliance. These efforts at informal resolution may include, without limitation, at the parties' expense, mediation, arbitration, use of a dispute resolution board.

(b) A complaint under this part will not be considered unless the person or authorized representative filing the complaint certifies that he or she has engaged in substantial and reasonable good faith efforts to resolve the disputed matter informally prior to filing the complaint and that there appears no reasonable prospect for timely resolution of the dispute. This certification shall include a brief description of the party's efforts to obtain informal resolution but shall not include information on monetary or other settlement offers made but not agreed upon in writing by all parties.

§ 16.23 Complaints, answers, replies, rebuttals, and other documents.

(a) A person directly and substantially affected by any alleged noncompliance may file a complaint with the Administrator.

(b) Complaints filed under this part shall—

(1) State the name and address of each person who is the subject of the complaint and, with respect to each person, the specific provisions of each Act that the complainant believes was violated;

(2) Be served, in accordance with § 16.15 of this part, along with all documents then available in the exercise of reasonable diligence, offered in support of the complaint, upon all persons named in the complaint as persons responsible for the alleged action(s) or omission(s) upon which the complaint is based;

(3) Provide a concise but complete statement of the facts relied upon to substantiate each allegation;

(4) Describe how the complainant was directly and substantially affected by the things done or omitted to be done by the respondents; and

(5) Comply with any additional or special requirements of subpart J of this part, if the complaint is brought under subpart J of this part.

(c) Unless the complaint is dismissed pursuant to § 16.25 or § 16.27, the FAA notifies the complainant and respondents in writing within 20 days after the date the FAA receives the complaint that the complaint has been docketed and that respondents are required to file an answer within 20 days of the date of service of the notification.

(d) The respondent shall file an answer within 20 days of the date of service of the FAA notification.

(e) The complainant may file a reply within 15 days of the date of service of the answer.

(f) The respondent may file a rebuttal within 15 days of the date of service of the complainant's rebuttal.

(g) The answer, reply, and rebuttal shall, like the complaint, be accompanied by supporting documentation upon which the parties rely.

(h) The answer shall deny or admit the allegations made in the complaint or state that the person filing the document is without sufficient knowledge or information to admit or deny any allegation, and shall assert any affirmative defense.

(i) The answer, reply, and rebuttal shall each contain a concise but complete statement of the facts relied upon to substantiate the answers, admissions, denials, or averments made.

(j) The respondent's answer may include a motion to dismiss the complaint, or any portion thereof, with a supporting memorandum of points and authorities. If a motion to dismiss

is filed, the complainant may respond as part of its rebuttal notwithstanding the 10-day time limit for answers to motions in § 16.19(c).

§ 16.25 Dismissals.

Within 20 days after the receipt of the complaint, the Assistant Administrator will dismiss a complaint, or any claim made in a complaint, with prejudice if it: Appears on its face to be outside the jurisdiction of the Administrator under the Acts listed in § 16.1; or on its face does not state a claim that warrants an investigation or further action by the FAA. The FAA will advise the person who filed the complaint or the person's duly authorized representative and the person(s) named in the complaint of the reasons for the dismissal.

§ 16.27 Incomplete complaints.

If a complaint is not dismissed pursuant to § 16.25, but is deficient as to one or more of the requirements set forth in § 16.21 or § 16.23(b), the Assistant Administrator will dismiss the complaint within 20 days after receiving it. Dismissal will be without prejudice to the refiling of the complaint after amendment to correct the deficiency. The FAA shall advise the person who filed the complaint or the person's duly authorized representative and the person(s) named in the complaint of the reasons for the dismissal.

§ 16.29 Investigations.

(a) If, based on the pleadings, there appears to be a reasonable basis for further investigation, the FAA investigates the subject matter of the complaint.

(b) The investigation may include one or more of the following, at the sole discretion of the FAA:

(1) A review of the written submissions or pleadings of the parties, as supplemented by any informal investigation the FAA considers necessary and by additional information furnished by the parties at FAA request. In rendering its initial determination, the FAA may rely entirely on the complaint and the responsive pleadings provided under this subpart, and each party shall file documents that it considers sufficient to present all relevant facts and argument necessary for the FAA to determine whether the sponsor is in compliance.

(2) Obtaining additional oral and documentary evidence by use of the agency's authority to compel production of such evidence under Section 313 of the Federal Aviation Act and Section 519 of the Airport and Airway Improvement Act. The Administrator's statutory authority to issue compulsory process has been delegated to the Chief Counsel, the Deputy Chief Counsel, the Assistant Chief Counsel for Airports and Environmental Law, and each Assistant Chief Counsel for a region or center.

(3) Conducting, or requiring that a sponsor conduct, an audit of airport financial records and transactions, as provided in 49 U.S.C. 2210(a)(11) and 2217.

§ 16.31 Initial determinations after investigations.

(a) After consideration of the pleadings and other information obtained by the FAA after investigation, the Assistant Administrator will render an initial determination and provide it to each party by certified mail within 120 days of the date the last pleading specified in § 16.23 was due. The time for issuing an initial determination may be extended for a period of up to 60 days upon a written determination by the Assistant Administrator that:

(1) The additional time is necessary for investigation and analysis of the matters in the complaint; or

(2) The investigation has been delayed by actions of a complainant.

(b) The initial determination will set forth a concise explanation of the factual and legal basis for the Assistant Administrator's determination on each claim made by the complainant.

(c) A party adversely affected by the initial determination may appeal the initial determination to the Administrator as provided in § 16.33.

(d) If the initial determination finds the respondent in noncompliance and proposes the issuance of a compliance order, the initial determination will include notice of opportunity for a hearing under subpart F of this part. The respondent may elect or waive a hearing as provided in subpart E of this part.

§ 16.33 Final decisions without hearing.

(a) The Administrator will issue a final decision on appeal from an initial determination, without a hearing, where—

(1) The complaint is dismissed after investigation;

(2) A hearing is not required by statute and is not otherwise made available by the FAA; or

(3) The FAA provides opportunity for a hearing to the respondent and the respondent waives the opportunity for a hearing as provided in subpart E of this part.

(b) In the cases described in paragraph (a) of this section a party adversely affected by the initial determination may file an appeal with the Administrator within 30 days after the date of service of the initial determination.

(c) A reply to an appeal may be filed with the Administrator within 20 days after the date of service of the appeal.

(d) The Administrator will issue a final decision and order within 30 days after the due date of the reply.

(e) If no appeal is filed within the time period specified in paragraph (b) of this section, the initial determination becomes the final decision and order of the FAA without further action. An initial determination that becomes final because there is no administrative appeal is not judicially reviewable.

Subpart D—Special Rules Applicable to Proceedings Initiated by the FAA

§ 16.101 Basis for the initiation of agency action.

The FAA may initiate its own investigation of any matter within the applicability of this part without having received a complaint. The investigation may include, without limitation, any of the actions described in § 16.29(b).

§ 16.103 Notice of investigation.

Following the initiation of an investigation under § 16.101 of this part, the FAA sends a notice to the person(s) subject to investigation. The notice will set forth the areas of the agency's concern and the reasons therefor; request a response to the notice within 30 days of the date of service; and inform the respondent that the FAA will, in its discretion, invite good faith efforts to resolve the matter.

§ 16.105 Failure to resolve informally.

If the matters addressed in the FAA notices are not resolved informally, the FAA may issue an initial determination under § 16.31.

Subpart E—Proposed Orders of Compliance

§ 16.109 Orders terminating eligibility for grants, cease and desist orders, and other compliance orders.

This section applies to initial determinations issued under § 16.31 that provide the opportunity for a hearing.

(a) The agency will provide the opportunity for a hearing if, in the initial determination, the agency proposes to issue an order terminating eligibility for grants, an order suspending the payment of grant funds, a cease and desist order, an order directing the refund of fees unlawfully collected, or any other compliance order issued by the Administrator to carry out the provisions of the Acts. In cases in which a hearing is not required by statute, the FAA may provide

opportunity for a hearing at its discretion.

(b) In a case in which the agency provides the opportunity for a hearing, the initial determination issued under § 16.31 will include a statement of the availability of a hearing under subpart F of this part.

(c) Within 30 days after service of an initial determination under § 16.31 and paragraph (b) of this section, a person subject to the proposed compliance order may—

(1) Request a hearing under subpart F of this part;

(2) Waive hearing and appeal the notice in writing to the Administrator, as provided in § 16.33;

(3) File, jointly with the complainant, a motion to withdraw the complaint and to dismiss the proposed compliance action; or

(4) Submit, jointly with the agency attorney, a proposed consent order under § 16.243(e).

(d) If the respondent fails to request a hearing or to file an appeal in writing within the time periods provided in paragraph (c) of this section, the initial determination becomes final.

Subpart F—Hearings

§ 16.201 Notice and order of hearing.

(a) If a respondent is provided the opportunity for hearing in an initial determination and does not waive hearing, the Deputy Chief Counsel within 10 days after the respondent elects a hearing will issue and serve on the respondent a hearing order. The hearing order will set forth:

(1) The allegations in the complaint, and the chronology and results of the investigation preliminary to the hearing;

(2) The relevant statutory, judicial, regulatory, and other authorities;

(3) The issues to be decided;

(4) Such rules of procedure as may be necessary to supplement the provisions of this part;

(5) The name and address of the person designated as hearing officer, and the assignment of authority to the hearing officer to conduct the hearing in accordance with the procedures set forth in this part;

(6) The date by which the hearing officer is directed to issue an initial decision.

(b) Where there are no genuine issues of material fact requiring oral examination of witnesses, the hearing order may contain a direction to the hearing officer to conduct a hearing by submission of briefs and oral argument without the presentation of testimony or other evidence.

§ 16.202 Powers of a hearing officer.

In accordance with the rules of this subpart, a hearing officer may:

(a) Give notice of, and hold, prehearing conferences and hearings;

(b) Administer oaths and affirmations;

(c) Issue subpoenas authorized by law and issue notices of deposition requested by the parties;

(d) Rule on offers of proof;

(e) Receive relevant and material evidence;

(f) Regulate the course of the hearing in accordance with the rules of this part to avoid unnecessary and duplicative proceedings in the interest of prompt and fair resolution of the matters at issue;

(g) Hold conferences to settle or to simplify the issues by consent of the parties;

(h) Dispose of procedural motions and requests;

(i) Examine witnesses; and

(j) Make findings of fact and conclusions of law, and issue an initial decision.

§ 16.203 Appearances, parties, and rights of parties.

(a) *Appearances.* Any party may appear and be heard in person.

(1) Any party may be accompanied, represented, or advised by an attorney licensed by a state, the District of Columbia, or a territory of the United States to practice law or appear before the courts of that state or territory.

(2) An attorney who represents a party shall file a notice of appearance in accordance with § 16.15(f).

(b) *Parties and agency participation.*

(1) The parties to the hearing are the respondent(s) named in the hearing order, and the agency.

(2) Unless otherwise specified in the hearing order, the agency attorney will serve as prosecutor for the agency from the date of issuance of the initial determination providing an opportunity for hearing.

(3) As appropriate to the issues raised in a particular case, offices and services of the FAA and the Office of the Secretary may assist the FAA attorney consistent with the provisions of § 16.5.

§ 16.207 Intervention and other participation.

(a) A person may submit a motion for leave to intervene as a party. Except for good cause shown, a motion for leave to intervene shall be submitted not later than 10 days after the notice of hearing and hearing order.

(b) If the hearing officer finds that intervention will not unduly broaden the issues or delay the proceedings and, if the person has a property or financial interest that may not be addressed adequately by the parties, the hearing officer may grant a motion for leave to intervene. The hearing officer may determine the extent to which an intervenor may participate in the proceedings.

(c) Other persons may petition the hearing officer for leave to participate in the hearing. Participation is limited to the filing of post-hearing briefs and reply to the hearing officer and the decisionmaker. Such briefs shall be filed and served on all parties in the same manner as the parties' post hearing briefs are filed.

(d) Participation under this section is at the discretion of the FAA, and no decision permitting participation shall be deemed to constitute an expression by the FAA that the participant has such a substantial interest in the proceeding as would entitle it to judicial review of such decision.

§ 16.209 Extension of time.

(a) *Extension by oral agreement.* The parties may agree to extend for a reasonable period the time for filing a document under this part. If the parties agree, the hearing officer shall grant one extension of time to each party. The party seeking the extension of time shall submit a draft order to the hearing officer to be signed by the hearing officer and filed with the hearing docket. The hearing officer may grant additional oral requests for an extension of time where the parties agree to the extension.

(b) *Extension by motion.* A party shall file a written motion for an extension of time with the hearing officer not later than 7 days before the document is due unless good cause for the late filing is shown. A party filing a written motion for an extension of time shall serve a copy of the motion on each party.

(c) *Failure to rule.* If the hearing officer fails to rule on a written motion for an extension of time by the date the document was due, the motion for an extension of time is deemed denied.

(d) *Effect on time limits.* If the hearing officer grants an extension of time as a result of oral agreement by the parties as specified in paragraph (a) of this section or, if the hearing officer grants an extension of time as a result of the sponsor's failure to adhere to the hearing schedule, the due date for the hearing officer's initial decision and for the final agency decision are extended by the length of the extension by the hearing officer, in accordance with section 519(b) of the AAIA, as amended in 1987.

§ 16.211. Prehearing conference.

(a) *Prehearing conference notice.* The hearing officer schedules a prehearing conference and serves a prehearing conference notice on the parties promptly after being designated as a hearing officer.

(1) The prehearing conference notice specifies the date, time, place, and manner (in person or by telephone) of the prehearing conference.

(2) The prehearing conference notice may direct the parties to exchange proposed witness lists, requests for evidence and the production of documents in the possession of another party, responses to interrogatories, admissions, proposed procedural schedules, and proposed stipulations before the date of the prehearing conference.

(b) *The prehearing conference.* The prehearing conference is conducted by telephone or in person, at the hearing officer's discretion. The prehearing conference addresses matters raised in the prehearing conference notice and such other matters as the hearing officer determines will assist in a prompt, full and fair hearing of the issues.

(c) *Prehearing conference report.* At the close of the prehearing conference, the hearing officer rules on any requests for evidence and the production of documents in the possession of other parties, responses to interrogatories, and admissions; on any requests for depositions; on any proposed stipulations; and on any pending applications for subpoenas as permitted by § 16.219. In addition, the hearing officer establishes the schedule, which shall provide for the issuance of an initial decision not later than 120 days after issuance of the initial determination order unless otherwise provided in the hearing order.

§ 16.213 Discovery.

Discovery is limited to requests for admissions, requests for production for documents, interrogatories, and depositions as authorized by § 16.215.

§ 16.215 Depositions.

(a) *General.* For good cause shown, the hearing officer may order that the testimony of a witness may be taken by deposition and that the witness produce documentary evidence in connection with such testimony. Generally, an order to take the deposition of a witness is entered only if:

(1) The person whose deposition is to be taken would be unavailable at the hearing; or

(2) The deposition is deemed necessary to perpetuate the testimony of the witness; or

(3) The taking of the deposition is necessary to prevent undue and excessive expense to a party and will not result in undue burden to other parties or in undue delay.

(b) *Application for deposition.* Any party desiring to take the deposition of a witness shall make application therefor to the hearing officer in writing, with a copy of the application served on each party. The application shall include:

(1) The name and residence of the witness;

(2) The time and place for the taking of the proposed deposition;

(3) The reasons why such deposition should be taken; and

(4) A general description of the matters concerning which the witness will be asked to testify.

(c) *Order authorizing deposition.* If good cause is shown, the hearing officer, in his or her discretion, issues an order authorizing the deposition and specifying the name of the witness to be deposed, the location and time of the deposition and the general scope and subject matter of the testimony to be taken.

(d) *Procedures for deposition.* (1) Witnesses whose testimony is taken by deposition shall be sworn or shall affirm before any questions are put to them. Each question propounded shall be recorded and the answers of the witness transcribed verbatim.

(2) Objections to questions or evidence shall be recorded in the transcript of the deposition. The interposing of an objection shall not relieve the witness of the obligation to answer questions, except where the answer would violate a privilege.

(3) The written transcript shall be subscribed by the witness, unless the parties by stipulation waive the signing or the witness is ill or cannot be found or refuses to sign. The reporter shall note the reason for failure to sign.

§ 16.217 Witnesses.

(a) Each party may designate as a witness any person who is able and willing to give testimony that is relevant and material to the issues in the hearing case, subject to the limitation set forth in paragraph (b) of this section.

(b) The hearing officer may exclude testimony of witnesses that would be irrelevant, immaterial, or unduly repetitious.

(c) Any witness may be accompanied by counsel. Counsel representing a nonparty witness has no right to examine the witness or otherwise participate in the development of testimony.

§ 16.219 Subpoenas.

(a) *Request for subpoena.* A party may apply to the hearing officer, within the time specified for such applications in the prehearing conference report, for a subpoena to compel testimony at a hearing or to require the production of documents only from the following persons:

(1) Another party;

(2) An officer, employee or agent of another party;

(3) Any other person named in the complaint as participating in or benefiting from the actions of the respondent alleged to have violated any Act; or

(4) An officer, employee or agent of any other person named in the complaint as participating in or benefiting from the actions of the respondent alleged to have violated any Act.

(b) *Issuance and service of subpoena.* (1) The hearing officer issues the subpoena if the hearing officer determines that the evidence to be obtained by the subpoena is relevant and material to the resolution of the issues in the case.

(2) Subpoenas shall be served by personal service, or upon an agent designated in writing for the purpose, or by registered or certified mail addressed to such person or agent. Whenever service is made by registered or certified mail, the date of mailing shall be considered at the time when service is made.

(3) A subpoena issued under this part is effective throughout the United States or any territory or possession thereof.

(c) *Motions to quash or modify subpoena.* (1) A party or any person upon whom a subpoena has been served may file a motion to quash or modify the subpoena with the hearing officer at or before the time specified in the subpoena for the filing of such motions. The applicant shall describe in detail the basis for the application to quash or modify the subpoena including, but not limited to, a statement that the testimony, document, or tangible evidence is not relevant to the proceeding, that the subpoena is not reasonably tailored to the scope of the proceeding, or that the subpoena is unreasonable and oppressive.

(2) A motion to quash or modify the subpoena stays the effect of the subpoena pending a decision by the hearing officer on the motion.

§ 16.221 Witness fees.

(a) The party on whose behalf a witness appears is responsible for paying any witness fees and mileage expenses.

(b) Except for employees of the United States summoned to testify as to matters related to their public employment, witnesses summoned by subpoena shall be paid the same fees and mileage expenses as are paid to a witness in a court of the United States in comparable circumstances.

§ 16.223 Evidence.

(a) *General.* A party may submit direct and rebuttal evidence in accordance with this section.

(b) *Requirement for written testimony and evidence.* Except in the case of evidence obtained by subpoena, or in the case of a special ruling by the hearing officer to admit oral testimony, a party's direct and rebuttal evidence shall be submitted in written form, in advance of the oral hearing pursuant to the schedule established in the hearing officer's prehearing conference report. Written direct and rebuttal fact testimony shall be certified by the witness as true and correct. Subject to the same exception (for evidence obtained by subpoena or subject to a special ruling by the hearing officer), oral examination of a party's own witness is limited to certification of the accuracy of written evidence, including correction and updating, if necessary, and reexamination following cross-examination by other parties.

(c) *Subpoenaed testimony.* Testimony of witnesses appearing under subpoena may be obtained orally.

(d) *Cross-examination.* A party may conduct cross-examination that may be required for disclosure of the facts, subject to control by the hearing officer for fairness, expedition, and exclusion of extraneous matters.

(e) *Hearsay evidence.* Hearsay evidence is admissible in proceedings governed by this part. The fact that evidence is hearsay goes to the weight of evidence and does not affect its admissibility.

(f) *Admission of evidence.* The hearing officer admits evidence introduced by a party in support of its case in accordance with this section, but may exclude irrelevant, immaterial or unduly repetitious evidence.

(g) *Expert or opinion witnesses.* An employee of the FAA or DOT may not be called as an expert or opinion witness for any party other than the agency except as provided in Department of Transportation regulations at 49 CFR part 9.

(h) *Subpart J hearing.* If an investigative hearing under subpart J was held on the complaint, the hearing officer may limit fact testimony and evidence in the hearing under this part to genuine issues of material fact not adequately developed in the record of the initial determination or not addressed in the initial determination.

§ 16.225 Public disclosure of evidence.

(a) Except as provided in this section, the hearing shall be open to the public.

(b) The hearing officer may order that any information contained in the record be withheld from public disclosure. Any person may object to disclosure of information in the record by filing a written motion to withhold specific information with the hearing officer. The person shall state specific grounds for nondisclosure in the motion.

(c) The hearing officer shall grant the motion to withhold information from public disclosure if the hearing officer determines that disclosure would be in violation of the Privacy Act, would reveal trade secrets or privileged or confidential commercial or financial information, or is otherwise prohibited by law.

§ 16.227 Standard of proof.

The hearing officer shall issue an initial decision or shall rule in a party's favor only if the decision or ruling is supported by, and in accordance with, reliable, probative, and substantial evidence contained in the record and is in accordance with law.

§ 16.229 Burden of proof.

(a) The burden of proof of noncompliance with an Act or any regulation, order, agreement or document of conveyance issued under the authority of an Act is on the agency.

(b) Except as otherwise provided by statute or rule, the proponent of a motion, request, or order has the burden of proof.

(c) A party who has asserted an affirmative defense has the burden of proving the affirmative defense.

§ 16.231 Offer of proof.

A party whose evidence has been excluded by a ruling of the hearing officer may offer the evidence on the record when filing an appeal.

§ 16.233 Record.

(a) *Subpart J investigation.* If a special hearing was held on the complaint under subpart J of this part, the pleadings, transcript of hearing, all exhibits received into evidence, all motions, applications, requests, and rulings, and all documents included in the hearing record and the report of the investigation are entered into the record of the hearing under this subpart.

(b) *Exclusive record.* The transcript of all testimony in the hearing, all exhibits received into evidence, all motions, applications, requests and rulings, and all documents included in the hearing record shall constitute the exclusive record for decision in the proceedings and the basis for the issuance of any orders.

(c) *Examination and copying of record.* Any interested person may examine the record at the Enforcement Docket, Federal Aviation Administration, 800 Independence Avenue, SW., room 924A, Washington, DC 20591. Any person may have a copy of the record after payment of reasonable costs for search and reproduction of the record.

§ 16.235. Argument before the hearing officer.

(a) *Argument during the hearing.* During the hearing, the hearing officer shall give the parties reasonable opportunity to present oral argument on the record supporting or opposing motions, objections, and rulings if the parties request an opportunity for argument. The hearing officer may direct written argument during the hearing if the hearing officer finds that submission of written arguments would not delay the hearing.

(b) *Posthearing briefs.* The hearing officer may request or permit the parties to submit posthearing briefs. The hearing officer may provide for the filing of simultaneous reply briefs as well, if such filing will not unduly delay the issuance of the hearing officer's initial decision. Posthearing briefs shall include proposed findings of fact and conclusions of law; exceptions to rulings of the hearing officer; references to the record in support of the findings of fact; and supporting arguments for the proposed findings, proposed conclusions, and exceptions.

§ 16.237 Waiver of procedures.

(a) The hearing officer shall waive such procedural steps as all parties to the hearing agree to waive before issuance of an initial decision.

(b) Consent to a waiver of any procedural step bars the raising of this issue on appeal.

(c) The parties may not by consent waive the obligation of the hearing officer to enter an initial decision on the record.

Subpart G—Initial Decisions, Orders and Appeals

§ 16.241 Initial decisions, orders, and appeals.

(a) The hearing officer shall issue an initial decision based on the record developed during the proceeding and shall send the initial decision to the parties not later than 120 days after the initial determination by the Assistant

Administrator unless otherwise provided in the hearing order.

(b) Each party adversely affected by the hearing officer's initial decision may file an appeal within 20 days of the date the initial decision is issued. Each party may file a reply to an appeal within 10 days after it is served on the party. Filing and service of appeals and replies shall be by personal delivery.

(c) If an appeal is filed, the FAA decisionmaker reviews the entire record and issues a final agency decision and order within 30 days after the due date for replies to the appeal(s). If no appeal is filed, the decisionmaker may take review of the case on his or her own motion. If the FAA decisionmaker finds that the respondent is not in compliance with any Act or any regulation, agreement, or document of conveyance issued or made under such Act, the final agency order includes a statement of corrective action, if appropriate, and identifies sanctions for continued noncompliance.

(d) If no appeal is filed, and the FAA decisionmaker does not take review of the initial decision on the FAA decisionmaker's own motion, the initial decision shall take effect as the final agency decision and order on the twenty-first day after the actual date the initial decision is issued.

(e) The failure to file an appeal is deemed a waiver of any rights to seek judicial review of an initial decision that becomes a final agency decision by operation of § 16.241(d).

(f) If the FAA decisionmaker takes review on the decisionmaker's own motion, the FAA decisionmaker issues a notice of review by the twenty-first day after the actual date the initial decision is issued.

(1) The notice sets forth the specific findings of fact and conclusions of law in the initial decision that are subject to review by the FAA decisionmaker.

(2) Parties may file briefs on review to the FAA decisionmaker or rely on their post-hearing briefs to the hearing officer. Briefs on review shall be filed not later than 15 days after service of the notice of review.

(3) The FAA decisionmaker issues a final agency decision and order within 30 days after the due date for briefs on review. If the FAA decisionmaker finds that the respondent is not in compliance with any Act or any regulation, agreement or document of conveyance issued under such Act, the final agency order includes a statement of corrective action, if appropriate, and identifies sanctions for continued noncompliance.

§ 16.243 Consent orders.

(a) The agency attorney and the respondents may agree at any time before the issuance of a final decision and order to dispose of the case by issuance of a consent order. Good faith efforts to resolve a complaint through issuance of a consent order may continue throughout the administrative process. Except as provided in § 16.209, such efforts may not serve as the basis for extensions of the times set forth in this part.

(b) A proposal for a consent order, specified in paragraph (a) of this section, shall include:

(1) A proposed consent order;

(2) An admission of all jurisdictional facts;

(3) An express waiver of the right to further procedural steps and of all rights to judicial review; and

(4) An incorporation by reference of the hearing order, if issued, and an acknowledgment that the hearing order may be used to construe the terms of the consent order.

(c) If the issuance of a consent order has been agreed upon by all parties to the hearing, the proposed consent order shall be filed with the hearing officer, along with a draft order adopting the consent decree and dismissing the case, for the hearing officer's adoption.

(d) The deadline for the hearing officer's initial decision and the final agency decision is extended by the amount of days elapsed between the filing of the proposed consent order with the hearing officer and the issuance of the hearing officer's order continuing the hearing.

(e) If the agency attorney and sponsor agree to dispose of a case by issuance of a consent order before the FAA issues a hearing order, the proposal for a consent order is submitted jointly to the official authorized to issue a hearing order, together with a request to adopt the consent order and dismiss the case. The official authorized to issue the hearing order issues the consent order as an order of the FAA and terminates the proceeding.

Subpart H—Judicial Review

§ 16.247 Judicial review of a final decision and order.

(a) A person may seek judicial review, in a United States Court of Appeals, of a final decision and order of the Administrator as provided in section 1006 of the Federal Aviation Act of 1958, as amended, or section 519(b)(4) of the Airport and Airway Improvement Act of 1982, as amended. A party seeking judicial review of a final decision and order shall file a petition for review with the Court not later than 60 days after a final decision and order under the AAIA has been served on the party or within 60 days after the entry of an order under the Federal Aviation Act.

(b) The following do not constitute final decisions and orders subject to judicial review:

(1) An FAA decision to dismiss a complaint without prejudice, as set forth in § 16.17;

(2) An initial determination issued by the Assistant Administrator;

(3) An initial decision issued by a hearing officer at the conclusion of a hearing;

(4) An initial determination or an initial decision of a hearing officer that becomes the final decision of the Administrator because it was not appealed within 30 days;

Subpart I—Ex Parte Communications

§ 16.301 Definitions.

As used in this subpart:

Decisional employee means the Administrator, Deputy Administrator, FAA decisionmaker, hearing officer, or other FAA employee who is or who may reasonably be expected to be involved in the decisional process of the proceeding;

Ex parte communication means an oral or written communication not on the public record with respect to which reasonable prior notice to all parties is not given, but it shall not include requests for status reports on any matter or proceeding covered by this part.

§ 16.303 Prohibited ex parte communications.

(a) The prohibitions of this section shall apply from the time a proceeding is noticed for hearing unless the person responsible for the communication has knowledge that it will be noticed, in which case the prohibitions shall apply at the time of the acquisition of such knowledge.

(b) Except to the extent required for the disposition of ex parte matters as authorized by law:

(1) No interested person outside the FAA make or knowingly cause to be made to any decisional employee an ex parte communication relevant to the merits of the proceeding;

(2) No FAA employee shall make or knowingly cause to be made to any interested person outside the FAA an ex parte communication relevant to the merits of the proceeding; or

(3) Ex parte communications regarding solely matters of agency procedure or practice are not prohibited by this section.

§ 16.305 Procedures for handling ex parte communication

A decisional employee who receives or who makes or knowingly causes to be made a communication prohibited by § 16.303 shall place on the public record of the proceeding:

(a) All such written communications;

(b) Memoranda stating the substance of all such oral communications; and

(c) All written responses, and memoranda stating the substance of all oral responses, to the materials described in paragraphs (a) and (b) of this section.

§ 16.307 Requirement to show cause and imposition of sanction.

(a) Upon receipt of a communication knowingly made or knowingly caused to be made by a party in violation of § 16.303, the Administrator or his designee or the hearing officer may, to the extent consistent with the interests of justice and the policy of the underlying statutes, require the party to show cause why his or her claim or interest in the proceeding should not be dismissed, denied, disregarded, or otherwise adversely affected on account of such violation.

(b) The Administrator may, to the extent consistent with the interests of justice and the policy of the underlying statutes administered by the FAA, consider a violation of this subpart sufficient grounds for a decision adverse to a party who has knowingly committed such violation or knowingly caused such violation to occur.

Subpart J—Alternate Procedure for Certain Complaints Concerning Airport Rates and Charges

§ 16.401 Availability of alternate procedure.

(a) A scheduled air carrier holding a certificate of public convenience and necessity under 49 U.S.C. 1371, 1372, or 1388 or an exemption from those sections under 14 CFR part 298, may bring a complaint under this part using the procedures in this subpart.

(b) The procedures in this subpart are used only when all of the following requirements are met:

(1) The complaint alleges that an increase in the fee charged by an airport proprietor to scheduled air carriers is unreasonable within the meaning of 49 U.S.C. 1513 (a) through (d), or is unreasonable or unjustly discriminatory within the meaning of 49 U.S.C. 2210(c)(1);

(2) The Assistant Administrator, in his or her discretion, determines that the complaint involves a matter which, if not resolved by expedited procedure, may result in a substantial adverse impact on air transportation or that determines that the complaint involves a significant policy issue;

(3) The complaint meets the requirements for the filing of a complaint set forth in subparts B and C of this part; and

(4) The complaint includes an express request that the complaint be processed under this subpart.

(c) The Assistant Administrator may permit another air carrier eligible to file a complaint under paragraphs (a) and (b) of this section to join the complaint. A motion for joinder shall be filed on or before the date the answer is due to be filed.

(d) Other than joinder of additional parties under paragraph (c) of this section, participation in proceedings under this subpart by persons other than complainants will be permitted only through the filing of a written brief by a person with a substantial interest in the proceeding at the discretion of the presiding officer before issuance of the report of investigation, or by the Assistant Administrator after issuance of the report. A person may file a motion to submit a written brief to the presiding officer or the Assistant Administrator, as appropriate.

§ 16.403 Answer and other documents.

(a) Within seven calendar days of receiving a complainant requesting processing under this subpart, the Assistant Administrator serves on the complainant and each person named in the complaint the agency's determination whether the complaint—

(1) Meets the other requirements of this subpart; and

(2) Meets the requirements of subparts B and C of this part for the filing of complaints.

(b) If the Assistant Administrator determines that the complaint meets the requirements for a complaint under this subpart, each respondent shall file an answer within 21 days of service of the determination in paragraph (a) of this section.

(c) If the Assistant Administrator determines that the complaint does not meet the requirements of this subpart but does meet the requirements of subpart C of this part for the filing of a complaint, the complaint will be processed under § 16.29.

(d) The Assistant Administrator may dismiss a complaint as provided in §§ 16.25 and 16.27.

(e) The answer and all documents filed and served under this subpart shall be filed and served by personal delivery. All other requirements of subpart B of this part apply to the filing and service of documents under this subpart.

(f) The Assistant Administrator may for good cause grant an extension of the date by which the report of investigation is due.

§ 16.405 Notice and order of investigation.

Within seven days after the answer is served, the Assistant Administrator issues a notice and order of investigation. The investigation order states:

(a) The scope of the investigation, by describing the information sought in terms of its subject matter or its relevance to specified allegations;

(b) A description of the remedial or enforcement actions that may be ordered in the event that a rate or charge is found to be useful, including those provided in § 16.109(a).

(c) Such rules of procedure as may be necessary to supplement this part;

(d) The name and address of the presiding officer and the authority delegated to the presiding officer to conduct the investigation in accordance with the procedures set forth in this part;

(e) The date by which the presiding officer is directed to issue a report of investigation, normally 60 days after filing of the answer.

§ 16.407 Presiding officer.

(a) The presiding officer is a person designated by the Assistant Administrator who is neither an agency attorney, as defined in this part, nor a person otherwise engaged in the investigation of airport compliance.

(b) In accordance with the rules of this part, a presiding officer may:

(1) Give notice of, and hold, prehearing conferences and investigative hearings;

(2) Administer oaths and affirmations;

(3) Issue subpoenas authorized by law;

(4) Rule on offers of proof;

(5) Receive relevant and material evidence;

(6) Regulate the course of the hearing in accordance with the rules of this part to avoid unnecessary and duplicative proceedings in the interest of prompt and fair resolution of the matters at issue;

(7) Hold conferences to settle or to simplify the issues by consent of the parties;

(8) Dispose of procedural motions and requests; and

(9) Examine witnesses.

(c) The presiding officer shall issue a report of investigation which shall include findings of fact and, if directed by the Assistant Administrator, proposed conclusions of law.

§ 16.409 Parties.

(a) Parties may appear as provided in § 16.203(a) of this part.

(b) The parties to the investigation are the complainant(s), and the respondent(s).

(c) The FAA is represented by an agency attorney who, for the purposes of this part, will be deemed to be in the position of a party. The function of the agency attorney is to assist in development of a complete record for decision by the Assistant Administrator.

§ 16.411 Investigation procedure.

(a) *Investigative hearing.* The presiding officer shall hold an evidentiary hearing to investigate the factual matters identified in the investigative order. The hearing may be in person or, alternatively, by oral argument following submission of documentary evidence if the presiding officer determines that there are no genuine issues of material fact that require oral examination of witnesses and that documentary evidence in combination with oral argument is sufficient to develop a complete record. Oral proceedings will be transcribed and a transcript made available to the parties.

(b) *Discovery.* Discovery is limited to requests for admissions and requests for production of documents. The presiding officer may—

(1) Require parties to submit discovery requests to the presiding officer;

(2) Submit requests to the parties as modified by the presiding officer in the interest of relevance, economy, and completeness of the record for decision; and

(3) Require that responses be submitted to the presiding officer with service on other parties.

(c) *Witnesses.* Consistent with paragraph (a), witnesses may be designated and appear as provided in §§ 16.217 and 16.221(a). The presiding officer may exclude testimony as provided in § 16.221(b).

(d) *Subpoenas.* Where necessary to ensure a complete record, the presiding officer may issue a subpoena to compel a complainant or respondent, or an officer, employee, or agent of a complainant or respondent, to testify or to produce documents at the investigatory hearing. Issuance of, service of, and motions regarding subpoenas shall be in accordance with § 16.219.

(e) *Evidence.* A party may offer direct and rebuttal evidence in accordance with this section.

(1) *Requirement for written testimony and evidence.* Except in the case of evidence obtained by subpoena, a party's direct and rebuttal evidence, including testimony of witnesses, shall be submitted in written form, in advance of any oral hearing pursuant to the schedule established by the presiding officer. Written direct and rebuttal fact testimony shall be certified by the witness as true and correct. Oral examination of a party's own witness is limited to certification of the accuracy of written evidence, including correction and updating, if necessary, and redirect examination following cross-examination by other parties.

(2) *Cross-examination.* A party may conduct cross-examination needed for disclosure of the facts, subject to the control of the presiding officer for fairness, expedition, and exclusion of extraneous matters.

(3) *Admission of evidence.* The presiding officer admits evidence in accordance with this section, but may exclude irrelevant, immaterial, privileged, or unduly repetitious evidence.

(4) *Expert or opinion witnesses.* An employee of the FAA or DOT may not be called as an expert or opinion witness for any party other than the agency except as provided in Department of Transportation regulations at 49 CFR part 9.

(f) *Public disclosure of evidence.* Proceedings under this part are open to the public. Evidence is disclosed or withheld from public disclosure as provided in § 16.225. Objections to public disclosure may be filed with and ruled on by the presiding officer.

(g) *Location of hearing.* The investigative hearing shall be conducted at a place or places designated by the presiding officer with due regard for the convenience of the parties and the expeditious and efficient handling of the investigation.

(h) *Offer of proof.* A party whose evidence has been excluded by a ruling of the presiding officer may make an offer of the proof to be included in the record.

(i) *Exclusive record.* The pleadings, transcript of the hearing, all exhibits received into evidence, all motions, applications, requests and rulings, and all documents included in the hearing record shall constitute the exclusive record for the report of investigation.

(j) *Argument before the presiding officer.* During the hearing, the presiding officer shall give the parties reasonable opportunity to present oral argument on the record supporting or opposing motions, objections, and rulings. In addition, the presiding officer may permit oral argument on the merits of the case. The presiding officer may request the parties to submit proposed findings of fact and conclusions of law.

§ 16.413 Report of investigation.

(a) On or before the date set in the notice and order of investigation, the presiding officer shall issue a written report of investigation based on the record developed during the investigation. The report shall include a concise summary of the evidence and findings of fact and, if directed by the Assistant Administrator, conclusions of law, on the issues set forth in the order of investigation.

(b) The presiding officer shall transmit the report of investigation and the record to the Assistant Administrator.

(c) The presiding officer shall file the report of investigation in the Enforcement Docket and serve copies on the parties.

§ 16.415 Initial determination.

(a) Within 120 days after the complaint is filed, unless extended by the Assistant Administrator upon agreement of all the parties, the Assistant Administrator will render an initial determination and serve it on each party by certified mail, return receipt requested, or personal delivery.

(b) The initial determination will set forth a concise explanation of the factual and legal basis for the Assistant Administrator's determination on each claim made by the complainant.

(c) A party adversely affected by the initial determination may appeal the initial determination as provided in § 16.31(c) or 16.31(d).

§ 16.417 Eligibility for grants pending final agency decision.

(a) *Suspension of eligibility.* If the initial determination under § 16.415 is that the challenged increase in rates and charges is unreasonable or unjustly discriminatory, the respondent's eligibility to receive new Airport Improvement Program grants under the AAIA and to receive payments under existing grants is suspended effective 30 days after the issuance of the initial determination, unless the respondent files a notice of resolution of complaint or a notice of rescission under this section.

(b) *Rescission of increase.* The suspension of eligibility is deferred if, within 30 days after service of the initial determination, the respondent does one of the following—

(1) Rescinds the increase in rates or charges. To implement the rescission for purposes of this part, the respondent shall file a notice of rescission in the Enforcement Docket and serve a copy on each party.

(2) Resolves the dispute through agreement with other parties, subject to the concurrence of the Assistant Administrator. The respondent shall indicate resolution by the filing of a joint motion for dismissal and for withdrawal of the complaint in the Enforcement Docket. In exercising discretion whether to grant the motion, the Assistant Administrator will consider, among other things, whether all parties have joined the motion and the effect of the proposed resolution on non-party aeronautical users of the airport.

(c) Deferral of the suspension of eligibility for grants and grant payments under this section does not limit the FAA's authority to impose any sanction or remedy for the past or continuing imposition of an unreasonable or unjustly discriminatory fee, including ordering refund with interest of fees paid prior to the effective date of the order.

(d) Notwithstanding the provision for suspension of eligibility in paragraph (a) of this section, the Assistant Administrator may execute a grant agreement or approve payment under an existing grant if necessary to correct or prevent an unsafe condition.

Issued in Washington, DC, on June 3, 1994

Federico Peña,

Secretary of Transportation

David R. Hinson,

Administrator, Federal Aviation Administration.

Freedom of Information Act; Technical Amendment

AGENCY: Office of the Secretary, Labor.

ACTION: Notice of final rulemaking; technical amendment.

SUMMARY: This document amends Appendix A to the Department of Labor's regulation relating to the Freedom of Information Act (FOIA). Appendix A lists the disclosure officers under FOIA. This amendment will delete one office, will update the name of another office, and will update the titles and the addresses within Appendix A so that the publication of the disclosure officers will be accurate. The document also adds an Appendix B which will list the names of the Department's FOIA/PA Coordinators.

EFFECTIVE DATE: June 9, 1994.

FOR FURTHER INFORMATION CONTACT: Miriam McD. Miller, Co-Counsel for Administrative Law, Office of the Solicitor, U.S. Department of Labor, room N–2428, 200 Constitution Avenue, NW., Washington, DC 20210, Telephone: (202) 219–8188.

SUPPLEMENTARY INFORMATION: This document amends Appendix A to the Department of Labor's regulation implementing the Freedom of Information Act (FOIA). Appendix A lists the disclosure officers under FOIA. This amendment will delete one office, will update the name of another office, and will update the titles and the addresses within Appendix A so that the publication of the disclosure officers will be accurate. The document also adds an Appendix B which will list the names of the Department's FOIA/PA Coordinators.

Publication in Final

The Department has determined that these amendments need not be published as a proposed rule, as generally required by the Administrative Procedure Act (5 U.S.C. 553)(APA) since this rulemaking merely reflects agency organization, procedure, or practice. It is thus exempt from notice and comment by virtue of section 553(b)(A).

Effective Date

This document will become effective upon publication pursuant to 5 U.S.C. 553(d). The undersigned has determined that good cause exists for waiving the customary requirement for delay in the effective date of a final rule for 30 days following its publication. This determination is based upon the fact that the rule is technical and nonsubstantive, and merely reflects agency organization, practice and procedure.

Executive Order 12866

This rule is not classified as a "rule" under Executive Order 12866 on federal regulations, because it is a regulation relating to agency organization, management or personnel. See section 3(d)(3) which exempts this rule.

Regulatory Flexibility Act

Because no notice of proposed rulemaking is required for this rule under section 553(b) of the APA, the requirements of the Regulatory Flexibility Act (5 U.S.C. 601) pertaining to regulatory flexibility analysis do not apply to this rule. See 5 U.S.C. 601(2).

Paperwork Reduction Act

This final rule is not subject to section 3504(h) of the Paperwork Reduction Act (44 U.S.C. 3501) since it does not contain any new collection of information requirements.

List of Subjects in 29 CFR Part 70

Freedom of information.

Accordingly, part 70 subtitle A of title 29 of the Code of Federal Regulations is amended as follows:

PART 70—EXAMINATION AND COPYING OF DEPARTMENT OF LABOR RECORDS

1. The authority citation for part 70 continues to read as follows:

Authority: 5 U.S.C. 301, 552, as amended by Pub. L. 93–502, 88 Stat. 1561; 29 U.S.C. 9(b); Reorganization Plan No. 6 of 1950; 64 Stat. 1263 5 U.S.C. Appendix

Appendix A to Part 70—Disclosure Officers [Amended]

2. Appendix A to part 70 is amended by removing paragraph (a)(7), by redesignating current paragraphs (a)(8) through (a)(20) as new paragraphs (a)(7) through (a)(19), and by revising the newly redesignated paragraph (a)(12) (which currently contains the Office of Labor-Management Standards) to read as follows:

(a) * * *

(12) Office of the American Workplace

* * * * *

PART 70—[AMENDED]

3. Part 70 is amended by revising paragraph (b) of Appendix A to Part 70—Disclosure Officers to read as follows:

* * * * *

(b)(1) The titles of the responsible officials of the various independent agencies in the Department of Labor are listed below. Department of Health and Human Services

Substance Abuse and Mental Health Services Administration

Mandatory Guidelines for Federal Workplace Drug Testing Programs; Notice

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Mandatory Guidelines for Federal Workplace Drug Testing Programs

AGENCY: Substance Abuse and Mental Health Services Administration, PHS, HHS.

ACTION: Revised mandatory guidelines.

SUMMARY: The Department of Health and Human Services (HHS) revises some of the scientific and technical guidelines for Federal drug testing programs and revises certain standards for certification of laboratories engaged in urine drug testing for Federal agencies.

EFFECTIVE DATE: September 1, 1994.

FOR FURTHER INFORMATION CONTACT: Dr. Donna M. Bush, Chief, Drug Testing Section, Division of Workplace Programs, Substance Abuse and Mental Health Services Administration (SAMHSA), room 9A–53, 5600 Fishers Lane, Rockville, Maryland 20857, tel. (301) 443–6014.

SUPPLEMENTARY INFORMATION: The Department is revising the guidelines entitled "Mandatory Guidelines for Federal Workplace Drug Testing Programs," (Mandatory Guidelines) which were initially published in the **Federal Register** on April 11, 1988 (53 FR 11979). These Mandatory Guidelines and the revisions are developed in accordance with Executive Order No. 12564 dated September 15, 1986, and section 503 of Public Law 100–71, 5 U.S.C. section 7301 note, the Supplemental Appropriations Act for fiscal year 1987 dated July 11, 1987. The revisions to the Mandatory Guidelines incorporate changes based on the comments submitted and the Department's first 5 years of experience in implementing and administering these Guidelines.

BACKGROUND AND SUMMARY OF PUBLIC COMMENTS AND POLICIES OF THE REVISED GUIDELINES

A. Proposed Revised Mandatory Guidelines

The basic purpose of the Mandatory Guidelines is to establish scientific and technical guidelines for Federal agencies' workplace drug testing programs and to establish a certification program for laboratories engaged in urine drug testing for Federal agencies. The proposed revisions published in the **Federal Register** on January 25, 1993 (58 FR 6062), retained the basic requirements in the Mandatory Guidelines published in the **Federal Register** on April 11, 1988, but as indicated above refined some requirements in order to incorporate changes based on the Department's first 5 years of experience in implementing and administering these Guidelines.

The major changes proposed in the notice published in the **Federal Register** on January 25, 1993, are summarized here to facilitate the discussion of the comments received during the public comment period.

The Department proposed reducing the requirement to collect 60 mL of urine at the collection site to 30 mL. This change was proposed because many times donors have difficulty in providing the 60 mL of urine. In addition, 30 mL is adequate to complete the required testing and satisfy other program requirements.

The Department proposed to revise the specimen collection procedure to allow Federal agencies to use an optional "split specimen" collection procedure. Several Federal agencies have been granted waivers to use split specimen collection procedures during the past 5 years. Establishing a "split specimen" procedure will ensure that each Federal agency will be using the same procedure. The Department believes that appropriate guidance must be provided regarding the minimum acceptable volumes for the split specimens, measuring temperature before a single donor specimen is transferred into two separate specimen bottles, sending both split specimen bottles to the laboratory at the same time to ensure that they are subject to the same shipping and storage conditions, and specifying the procedures for testing Bottle B when the Bottle A specimen is reported positive.

The Department proposed to revise the collection procedure to allow Federal agencies to use an individual of the same gender, other than a collection site employee, to observe the collection of a specimen whenever there is reason to believe the individual may have altered or substituted the specimen. This change is based on the understanding that it is not always possible to have a collection site employee of the same gender observe the collection.

The Department proposed a change to allow a laboratory to use a certifying scientist who is only certified to review initial drug tests which are negative. This could assist in reducing the cost of testing without compromising the reliability of drug testing.

The Department proposed that the initial test level for marijuana metabolites be reduced from 100 ng/mL to 50 ng/mL. This change reflects advances in technology of immunoassay tests for marijuana metabolites.

The Department proposed to allow laboratories to use multiple immunoassay tests for the same drug or drug class. This would allow laboratories to use an initial test and then forward all presumptive positives for a second test by a different immunoassay technique to minimize possible presumptive positives due to the presence of structural analogues in the specimen. In addition, this policy would allow a laboratory to use a different immunoassay for specimens that may be untestable with one immunoassay.

The Department proposed that in order to report a specimen positive for only methamphetamine, the specimen must also contain the metabolite amphetamine at a concentration equal to or greater than 200 ng/mL by the confirmatory test. This proposed requirement would ensure that high concentrations of sympathomimetic amines available in over-the-counter and prescription medications will not be misidentified as methamphetamine.

The Department proposed reducing the number of blind samples a Federal agency must submit each quarter to its contracting laboratory from 10% of all samples to a minimum of 3% (with a maximum of 100 blind samples). This proposed change may significantly reduce the costs associated with maintaining a blind sample program without affecting the Federal agency's ability to monitor a laboratory's performance.

The performance testing sample portion of the laboratory certification program was proposed to be changed by reducing the performance testing (PT) challenges for certified laboratories from 6 cycles per year to 4 cycles per year. Experience in this and other performance testing programs indicates that 4 cycles per year is sufficient to assess a laboratory's ability to test and report results for performance testing samples.

The Department proposed restricting the types of arrangements that can exist between the Medical Review Officer (MRO) and the laboratory to ensure that a conflict of interest does not exist. The restrictions would require that the agency's MRO not be an employee or an agent of, or have any financial interest in, the laboratory for which the MRO is reviewing drug testing results. Similarly, the laboratory would be prohibited from entering into any agreement with an MRO that could be construed as a conflict of interest.

A new subpart D was proposed which provides detailed procedures for the

internal review of a suspension or proposed revocation of a laboratory's certification to perform drug testing. These procedures will ensure and provide a timely and fair review of all suspensions or proposed revocations.

The Department proposed that the written notice of the suspension which is sent to the laboratory, as well as the reviewing official's written decision upholding or denying suspension or proposed revocation under the review procedures in subpart D, would be made available to the public upon request. This provision ensures that the public has access to the documents containing the basis for HHS's actions.

B. Public Comments and the Department's Responses

The Department received 73 public comments on the proposed changes from Federal agencies, individuals, organizations, and companies. About 50% of these supported all or some of the proposed changes. All written comments were reviewed and taken into consideration in the preparation of the revised Mandatory Guidelines. The substantive concerns raised in the public comments and the Department's responses to the comments are set out below. Similar comments are considered together.

1. Definitions

A number of commenters expressed concerns with the definitions in section 1.2. It was suggested that the definition for chain of custody indicate that couriers do not need to document chain of custody while the specimens are in transit to the laboratory. The Department agrees that the Mandatory Guidelines should be clarified to address that issue. Specimens are sealed in packages and any tampering with a sealed specimen would be noticed by the laboratory and documented on the specimen chain of custody. In addition, as a practical matter, couriers, express couriers, and postal service personnel do not have access to the specimen chain of custody form since the form is inside the sealed package. Section 2.2(i) of the Mandatory Guidelines that discusses the transportation of a specimen to a laboratory has been revised to clarify this point.

One commenter recommended that the definitions in the Guidelines conform to the definitions established by the National Committee for Clinical Laboratory Standards (NCCLS) since the proposed definitions may be in conflict with the efforts of that nonprofit, educational organization. The Department fully supports the efforts of this committee to develop standard definitions since a common understanding of definitions is essential for maintaining a high level of performance within laboratory testing programs. The Department has revised the definitions in section 1.2 to ensure that they are consistent with those proposed currently by NCCLS. The Department has changed the proposed definitions for calibrator, control, and standard as well as included new definitions for donor, specimen, sample, and quality control sample. The Department also made appropriate changes in other sections of the Guidelines to ensure that the terms used were consistent with these new definitions. The Department notes, however, that these changes are not substantive, but rather are technical in nature to clarify the definitions. The Department believes these changes will eliminate the confusion expressed by several other commenters regarding the use of these terms in other sections of the Guidelines.

One commenter believes the proposed definition for the certifying scientist should specifically state that the individual understands chain of custody. The Department intended that the definition of certifying scientist include that the individual have a thorough understanding of chain of custody, since it was proposed that such individual have "training and experience in the theory and practice of all methods and procedures used in the laboratory." See section 1.2. However, in order to prevent any confusion, the definition has been changed to clarify this issue.

One commenter suggested that the Secretary require a certifying scientist to possess at least a masters degree, so they would be equal to experts presented by an employee who is contesting the result in court or in an administrative proceeding. Based on the Department's experience, there are numerous highly qualified individuals serving as certifying scientists who possess bachelors' degrees, and who have the expertise to testify as to the records they have certified. These certifying scientists do not need to be qualified as experts in litigation, as the defense may qualify someone else in the laboratory or outside the laboratory to perform this function, if necessary. Further, the Department believes that requiring higher educational requirements would place an unnecessary burden on the laboratories, as well as eliminate many qualified individuals from serving as certifying scientists.

One commenter believes the requirement to use an Office of Management and Budget (OMB) approved specimen chain of custody form requires the laboratories to use OMB approved laboratory chain of custody forms. This interpretation is incorrect. The Department proposed that such forms be used only for specimen chain of custody forms, *not* laboratory chain of custody forms. The Department believes that standard specimen chain of custody forms are important to ensure that collection sites have a consistent form so as to reduce any errors or incomplete documentation when filling out the forms.

One commenter noted that the Department's proposed definition of an immunoassay test is ambiguous and does not support the policy that allows using a second immunoassay test for specimens that are presumptively positive for amphetamines. Specifically, the term "initial test" was proposed to be defined as "[a]n immunoassay test to eliminate "negative" urine specimens from further consideration and to identify the class of drugs that requires confirmation." The Department agrees with the commenter that the definition is ambiguous. The Department supports allowing laboratories to perform multiple immunoassay tests for the same drug or drug class. Therefore, the Department has clarified the definition to ensure that further testing is consistent with section 2.4(e)(4) which permits conducting multiple initial tests.

2. Dilution/Adulteration Tests

Several commenters concurred with section 2.1(c) which clarifies that laboratories may conduct dilution/adulteration testing to determine the validity of the specimen while some commenters sought to have the Secretary define the specific tests to be conducted and require that such tests be performed. The issue regarding the types of dilution/adulteration testing to be performed has been highly controversial among forensic laboratory professionals since there is a lack of data to suggest that dilution/adulteration testing can clearly identify a donor who has intentionally taken a substance to affect the outcome of a drug test or has otherwise diluted or adulterated the specimen. At this time, the Department believes that such testing should remain optional and the selection of tests to be conducted for possible dilution/adulteration and the cutoff levels for such tests, if conducted, should be determined by the laboratories based on their best judgment.

Two commenters requested that the Department allow dilution/adulteration testing to be conducted at the collection

site. The Department believes that it is better able to monitor the performance of such testing when it is conducted by laboratory personnel, rather than require agencies to monitor such testing at the collection sites. During the laboratory inspection process, the Department is able to evaluate the laboratories' performance of such testing to ensure that tests are performed properly, chain of custody is not broken, and cross-contamination does not occur from one donor specimen to another which could impact the integrity of a specimen. The MRO can review the results of the dilution/adulteration tests and make a decision on the basis of the test and on his or her interview of the donor to determine whether a medical factor may have contributed to the results of such testing. In addition, disallowing the use of dilution/adulteration testing at the collection site ensures that agency employees are not unnecessarily subject to observed collection and thus protects the privacy of individuals to the maximum extent possible.

3. Specimen Collection Procedure

With regard to the specimen collection procedure, a number of commenters were highly supportive of reducing the required volume of a urine specimen from 60 mL to 30 mL as stated in section 2.2(f)(10). One commenter, however, expressed concern that 30 mL is insufficient when dealing with a specimen that is positive for more than one drug. That may be the case in some cases. Nevertheless, the number of specimens that are positive for more than one drug is very small and most volumes collected generally exceed 30 mL. The Department believes this reduced volume requirement will make it easier for an individual to provide a urine specimen with sufficient volume on the first attempt rather than requiring the collection of a second specimen after drinking a reasonable quantity of liquid. It is noted that the policy of combining additional urine, after drinking a reasonable amount of liquid, with a partial specimen (i.e., an insufficient volume of urine on the first void) has been eliminated. The Department believes the reduced volume requirements will ensure that a sufficient volume is collected on the first void and combining partial specimens will not be necessary.

One commenter expressed concern over the fact that the Mandatory Guidelines did not specify limitations or guidance as to the amount of liquid to be given a donor who could not provide a 30 mL urine specimen. The commenter expressed concerns regarding the possible risk of water intoxication if there is no limit established for the amount of liquid that can be provided. The Department concurs and has changed the example given in section 2.2(f)(10) to read "(e.g., an 8 oz glass of water every 30 minutes, but not to exceed a maximum of 24 oz)." The example provided describes a reasonable amount of liquid to be provided and the Department would expect collection sites to use reasonable care in its determination of the amount of liquid to provide donors.

Several commenters noted that the temperature range stated in the proposed revisions did not agree with the range stated in the introductory discussion of the proposed changes. A notice correcting the error was published in the **Federal Register** on March 1, 1993. The correct temperature range is "32°-38°/90°-100°F."

There was general agreement that the marginally wider temperature range will not adversely affect the ability to detect a donor who may possibly tamper with the specimen. Two commenters, however, believe that the lower limit of the temperature range should be increased. The Department does not agree with this recommendation. A urine specimen provided in a collection cup that is at room temperature will cool quickly; therefore, a narrow temperature range will significantly increase the number of specimens that will not satisfy the temperature range requirements. This would cause numerous unnecessary collections of second specimens and falsely raise suspicions that many donors have tampered with their specimens.

With regard to the collection of a urine specimen when using direct observation, one commenter suggested that the employee's agency choose the observer if there is no collection site person of the same gender available. The Department agrees and sections 2.2(f)(13), 2.2(f)(16), and 2.2(f)(23) have been revised to include this requirement. The Department believes that the agency will select an individual who will act responsibly and reliably so as not to substantiate any allegation to the contrary by an employee.

One commenter believes that only trained collectors should be involved in the collection procedure, especially when direct observation is required. The Department acknowledges that trained personnel should be involved in the collection of urine specimens; however, it is not always possible to ensure that a trained collection site person of the same gender will be available when a direct observation is required. Allowing the agency to select an individual to act as the observer, when there are unusual circumstances, ensures that the collection will occur promptly and as scheduled rather than delaying the collection unnecessarily.

One commenter believed that observed collection should never be used in any circumstances. The Department disagrees. The Department continues to believe that observed collection is justified and necessary when there exists reasonable suspicion to believe that the donor altered or substituted the specimen. Observed collections do not occur frequently. However, the Department believes that any invasion of a donor's privacy is greatly outweighed by public health and safety concerns in such cases.

One commenter recommended that we refer to the individual providing the urine specimen as the "donor." The Department concurs with the recommendation and has replaced the word "individual," when it refers to the person providing a urine specimen, with the word "donor" throughout the Guidelines. A definition for donor has been included in section 1.2. In addition, the use of the word "donor" is consistent with its use on the specimen chain of custody form.

One commenter suggested that the entire collection procedure be revised substantially to provide more specific guidance to agencies on the collection process. The Department believes the procedure, as described, provides sufficient guidance to the agencies on the collection process, including factors to ensure that urine specimens are collected properly and satisfy chain of custody requirements. The changes made in the Mandatory Guidelines with regard to the single specimen collection procedure and the optional split specimen procedure should clarify the procedures and, thereby, address many of the concerns raised by this commenter without completely revising and expanding the descriptions of the collection procedures.

Many commenters concurred with including an optional split specimen collection procedure. They believed it was important to include split specimens since the Omnibus Transportation Employee Testing Act of 1991, Title V of Public Law 102–143, requires using a split specimen collection procedure for industries regulated by the Department of Transportation (DOT). This is particularly important since Federal employees from a number of Departments will be subject to both the requirements of DOT (49 CFR Part 40) and the requirements of the Mandatory Guidelines and Executive Order 12564 (September 15, 1986).

Two commenters suggested allowing the use of two or three containers to collect split specimens. The Department agrees with this recommendation and has revised the collection procedure to indicate clearly that either a specimen bottle or a specimen container may be used when collecting urine specimens. However, when using a split specimen collection procedure, it is not acceptable for a donor to provide the split specimens by urinating directly into both Bottle A and Bottle B. The specimen must be provided by urinating into only one container or into Bottle A. After the temperature is measured, if the specimen was provided directly into Bottle A, an appropriate amount is poured into Bottle B. If a specimen container was used, appropriate amounts are poured from the specimen container into both Bottle A and Bottle B. For split specimen collections, this procedure ensures that the specimens in Bottle A and Bottle B are identical, it is easier to measure the temperature of a single specimen rather than to measure the temperature of two specimens that were collected in separate containers, and it is easier for a donor to provide one specimen in a single container/bottle rather than into two separate bottles.

It was suggested by several commenters that we specify the amount of urine to be poured into Bottle B. We concur with that recommendation and have changed section 2.2(h)(3) of the split specimen procedure to specify that a minimum of 15 mL of urine shall be poured into Bottle B. Since Bottle B will only be tested for a specific substance(s), 15 mL is sufficient to conduct the testing and to allow a sufficient quantity to be retained frozen if Bottle A is reported positive. Additionally, section 2.2(h)(1) has been changed to specify that a minimum of 45 mL of urine is required when using a split specimen collection procedure rather than the 30 mL minimum when using the single specimen collection procedure.

One commenter was concerned with the handling and storage of the split specimen (Bottle B) after the Bottle A specimen is shipped to the laboratory. We agree that the wording in section 2.2(h)(5) of the split specimen collection procedure regarding refrigerating the specimens was confusing and it has been revised. The Department believes that the most efficient and cost effective way to handle split specimens is to send both the Bottle A and Bottle B specimens to the laboratory at the same time including the appropriate specimen chain of custody forms. This procedure will ensure the integrity of both Bottle A and Bottle B. This procedure is also simpler and more cost effective than one which would require the collection site to retain Bottle B specimens until the results for the Bottle A specimens are reported by the MRO to the agency and the agency notifies the collection site to either discard the Bottle B specimens or to ship a specific Bottle B specimen to another certified laboratory. When both specimens are received by the laboratory, Bottle A is normally tested within one day and, if positive, both Bottle A and Bottle B can be placed in secure, refrigerated storage until the confirmatory test is completed. This procedure will ensure that both specimens are treated essentially the same and subject to similar storage conditions until the testing is completed.

Several commenters were concerned with the impact that a failed to reconfirm result on the Bottle B specimen would have on a donor since personnel action may have been taken based on an MRO verified positive result for Bottle A. Although a failed to reconfirm result for Bottle B requires the MRO to void the test result for Bottle A and an agency may be required to reverse any personnel action that may have been taken, we believe failed to reconfirm reports will occur infrequently and this possibility should not be the basis for an agency to delay any personnel action. The Department believes that removing an employee, for example, from a safety-sensitive position which may impact public health and safety outweighs the minimal possibility that the testing of Bottle B will not reconfirm the presence of a drug or metabolite.

In view of the comments, section 2.2(h)(6) has also been clarified to indicate the MRO's responsibility to report a positive result for Bottle A. When an MRO has verified the test of the first specimen bottle (Bottle A) as a positive result, the MRO must report the result to the agency without waiting for the donor to request that the Bottle B specimen be tested.

Several commenters expressed concern regarding the actions taken when a second laboratory fails to reconfirm the presence of a drug or metabolite in the second specimen bottle (Bottle B) in a split specimen collection. Since the Bottle B specimen is tested without regard to the cutoff levels, the result reported by the second laboratory is not reported as a negative or positive result, but reported as either reconfirmed or failed to reconfirm the presence of a drug or metabolite. The Department agrees that if this situation occurs, an investigation must be conducted. The Department has added this requirement in section 2.2(h)(8) of the Mandatory Guidelines and has required the MRO to notify the donor's agency. In addition, the Federal agency must contact the Secretary and the Secretary will investigate the failed to reconfirm result and attempt to determine the reason for the inconsistent results between Bottle A and Bottle B. HHS will report its findings to the Federal agency and ensure that appropriate action is taken to prevent the recurrence of the failed to reconfirm result.

Some commenters simply did not like permitting Federal agencies to have the option of a split specimen procedure, believing, for example, that the use of a split specimen procedure gives the perception of a lack of confidence in the results when using a single specimen collection, that the additional administrative and collection costs are not justified, and that there is an increased risk of administrative errors.

It should be noted that certain Federal employees are subject to both the Mandatory Guidelines and the Omnibus Transportation Employee Act of 1991, Title V of Public Law 102–431, (Omnibus Act) which requires split specimens. Therefore, the agencies must have the flexibility to collect split specimens as required by the Omnibus Act. Since Federal agencies may also request a waiver under section 1.1(e) of the Mandatory Guidelines and the Department has provided a number of agencies with a waiver to permit split specimens during the past 5 years, the Department believes including an optional split specimen collection procedure in the Mandatory Guidelines will ensure consistency among all agencies currently using split specimens and those wanting to implement split specimen collections. In addition, each agency should have the option of treating its employees equally rather than treating its employees under the Omnibus Act differently from the employees only subject to the Mandatory Guidelines.

With regard to the perception that the results from a single specimen collection are unreliable and not adequate to protect employee rights when compared to a split specimen collection, the Department is confident that the results from a single specimen collection are scientifically and legally supportable. This belief is based on the stringent requirements that have been established by the Mandatory Guidelines—that is, requiring the use of rigorous chain of custody procedures when handling and testing specimens; requiring laboratories to use qualified

UMI

and trained personnel, validated analytical testing procedures, and extensive internal quality control and quality assurance procedures; requiring laboratories to participate in a comprehensive certification program that includes performance testing samples and semi-annual inspections; and using MROs to ensure that procedures have been followed as required.

Although the split specimen procedures are designed to minimize administrative errors, the Department acknowledges that any time procedures are modified the risk of administrative errors increases. However, the use of a standard specimen chain of custody form should minimize such errors and the Department, through the inspection process, will monitor the laboratories' procedures in processing split specimens.

The procedures for split specimens are also designed to keep the administrative burden at a minimum. The Department believes that the paperwork for collection sites or laboratories will not increase much since the collection sites will be using a seven-part chain of custody form instead of a six-part form and sending both split specimens to the laboratory at the same time and in the same shipping container. This should minimize the additional cost and administrative burden on both collection sites and laboratories.

One commenter believed that split specimen collections create a potential to reverse results especially if there is a significant variation in the analytical sensitivities of the confirmatory tests used by each of the HHS-certified laboratories. The Department is aware of this potential and has provided guidance to the laboratories with regard to their capability to accurately quantitate and identify drugs at concentrations that are 40 percent of the confirmatory test levels. The Department believes this guidance and challenging laboratories with performance testing samples at these low concentrations will ensure that all laboratories have essentially the same sensitivity for each of the confirmatory tests.

Finally, one commenter requested guidance on whether the donor or agency would be responsible for paying the costs associated with analyzing the split specimen. The Department believes that the decision regarding financial responsibility for testing Bottle B is one the agencies must decide.

4. Certifying Test Results

One commenter stated that the proposed revision to section 2.3(b) that discusses "test validation" did not make it clear that a laboratory may use a certifying scientist who is only certified to review initial drug tests which are negative. Although this is the intent of this section and to ensure that no confusion exists, the title of section 2.3(b) has been changed to read "Certifying Test Results" and that section has been revised to state clearly that a laboratory may designate a certifying scientist(s) that is only qualified to certify results that are negative on the initial test. We note, however, that if a certifying scientist certifies confirmatory test results, the individual must have training and experience in all "procedures relevant to the results that the individual certifies." This includes both initial test and confirmatory test procedures. Changing the title of this section to read "Certifying Test Results" should also ensure that we are referring to the review and certification of specimen test results rather than the results associated with "validating" an analytical procedure before it is used to test specimens. The Department believes there was some confusion associated with the former title of this section.

5. Security and Chain of Custody

One commenter requested that the security requirements in section 2.4(a)(1), as proposed, be revised to allow emergency personnel access to all sections of the laboratory without escorts. The requirements for security pertain to limiting and documenting access under normal situations and providing escorts for authorized visitors, maintenance, and service personnel. For real emergencies, such as fires, it would be inappropriate to require the laboratory to provide an escort. This section has been changed to ensure that emergency personnel (such as firefighters) can have unescorted access similar to that authorized for inspectors. As suggested by the commenter, it would be acceptable for the laboratory to document the emergency and include, to the extent practicable, dates, time of entry and exit, and purpose of entry for all emergency response personnel. It must be noted that this exception does not apply to emergency "service" personnel, such as manufacturers' technical representatives who are called to repair an instrument or to conduct routine service.

6. Specimen Processing

One commenter noted that the word "standards" had been used incorrectly in section 2.4(d), as proposed, when stating the requirements for each initial and confirmatory batch. The Department concurs and has changed this section to state that each initial and confirmatory batch must satisfy the quality control requirements in sections 2.5(b) and 2.5(c), respectively, rather than using terms such as "standards" and "controls." Additionally, the last sentence of this section has been deleted because it is not entirely correct. Quality control samples must be known to laboratory technicians conducting the testing while only blind performance testing samples are unknown (i.e., the location in the batch, drug or metabolite present, and concentration). The requirements for laboratory blind performance testing samples and agency blind samples are discussed in section 2.5.

7. Marijuana Initial Test Level

Many respondents concurred with lowering the initial test level for marijuana metabolites from 100 to 50 ng/mL as proposed in section 2.4(e). However, one commenter claimed that the lowered cutoff concentration would identify the occasional user. The intent of Federal workplace drug testing programs is to identify individuals who use illegal substances regardless of whether they are regular or occasional users. Lowering the initial test level should increase the ability to detect any use of marijuana.

Another commenter questioned the impact that might result by the lowered cutoff concentration for those individuals who are exposed to passive inhalation (i.e., breathing the smoke exhaled by another individual smoking marijuana cigarettes). The Department does not believe that passive inhalation is a reasonable defense or that significant exposure can occur through passive inhalation to cause a urine specimen to be reported positive. A comprehensive study of passive inhalation conducted at the National Institute on Drug Abuse's Addiction Research Center in Baltimore (see Cone, E.J., et al., Passive Inhalation of Marijuana Smoke: Urinalysis and Room Air Levels of Delta-9–Tetrahydrocannabinol, Journal of Analytical Toxicology, 11: 89–96, 1987) indicates that it takes extensive exposure to extremely high concentrations under unrealistic conditions to cause a positive result; therefore, passive inhalation is not a reasonable explanation for a positive result.

8. Initial and Confirmatory Tests

One commenter believed that the wording in section 2.4(e)(3), as proposed, conflicted with the authority to conduct dilution/adulteration tests as stated in section 2.1(c). The Department agrees that this section needs to be clarified. A laboratory may conduct dilution/adulteration tests on all specimens, whether they are positive or negative, and either before or after conducting the initial test. Section 2.4(e)(3) has been changed to clarify this policy.

Several commenters questioned the use of specimens that test negative on either the initial test or the confirmatory test for the laboratory's internal quality control program as proposed in sections 2.4(e)(3) and 2.4(f)(3). These commenters were concerned that the results may have been affected by such factors as medications that may have been taken, the health of the donors, and possible unknown problems with confirmation, thereby, making these specimens unsuitable as quality control samples. Several of these commenters recommended the use of certified negative urine or, at a minimum, confirming the negative pool by GC/MS prior to its use in a quality control program. In response to these concerns, the Department notes that the laboratory's operation must be consistent with good forensic laboratory practice (see section 3.20(c)) and such practice requires a laboratory to always certify a urine pool as negative before it is used to prepare negative samples or to prepare other quality control samples. If pooled urine does not satisfy the criteria for acceptability, it is discarded. Such certification of the urine will ensure the quality of a laboratory's internal quality control program.

9. Multiple Initial Tests

Two commenters supported the use of multiple initial tests as stated in section 2.4(e)(4), as proposed, while several commenters expressed concern with permitting the use of multiple testing. The Department believes that the use of multiple initial tests may reduce the number of presumptive positives that are forwarded to confirmatory testing that will not be confirmed and may allow obtaining a valid analytical result if a specimen is untestable on one immunoassay test. The use of multiple initial tests has been widely used with regard to testing for amphetamines and this policy should apply to all drugs.

In addition, there are reports that various substances, including prescription medications, can prevent obtaining a valid initial test result when using one immunoassay test. We believe it is appropriate to use a different immunoassay test in order to obtain a valid initial test result before reporting the specimen as "test not performed" and including an appropriate comment on the specimen chain of custody form. To clarify this issue, the example given in section 2.4(e)(4) has been changed to include the use of a second immunoassay test for untestable specimens.

It is noted that the last sentence of section 2.4(e)(4), as proposed, has been deleted since it is redundant with the requirements as stated in the first sentence of the section.

10. 200 ng/mL Amphetamine Reporting Rule

Six commenters concurred with the proposal in sections 2.4(f)(1) and 2.4(g)(2) that require a methamphetamine positive to contain at least 200 ng/mL of amphetamine before reporting the result as positive. Two commenters recommended that the 200 ng/mL rule be dropped entirely because they believed it is no longer relevant and the emphasis should be on improving the quality of the GC/MS confirmatory procedure. Seven commenters held similar views that the 200 ng/mL rule is too conservative and produces too many false negatives and recommended that it be lowered to either 100 or 50 ng/mL or at least equal to or greater than the limit of detection for amphetamine.

The Department believes that the 200 ng/mL requirement implemented as a temporary policy since December 22, 1990, is a necessary one to prevent false positive test results. On a special set of performance testing samples provided to the laboratories by the program, the Department found that the requirement adequately controlled all of the possible technical problems based on observations of results reported by the laboratories on that set of performance testing samples. The results indicated that a significant number of laboratories experienced chromatographic resolution problems when methamphetamine was present with ephedrine and 2% of the performance testing results evidenced a methamphetamine response when challenged with high concentrations of over-the-counter medications (e.g., ephedrine, pseudoephedrine, or phenylpropanolamine). These results indicated that the 200 ng/mL rule was effective in preventing any false positive results and should be continued. In addition, recent information provided by laboratories regarding their limits of quantitation and their results on performance testing samples that contained very low concentrations of amphetamine and methamphetamine indicate that 200 ng/mL continues to be the lowest concentration that most of the laboratories can reliably identify and quantitate for either methamphetamine or amphetamine. For these reasons, the Department believes using a lower concentration or eliminating the 200 ng/mL rule would increase the possibility for reporting a false positive methamphetamine result.

11. Reporting Results

One commenter was concerned that substituting "certifying scientist" in section 2.4(g)(5), as proposed, for the responsible person was making the certifying scientist responsible for the overall laboratory operations. We believe the commenter did not understand the purpose for changing the wording in this section. The use of "certifying scientist" in this section ensures that the requirement is consistent with current program practice. The responsible person continues to be responsible for the overall operation of the laboratory (see section 2.3(a)); however, section 2.4(g)(5) allows a certifying scientist to sign the external chain of custody form that is sent to the MRO.

12. Calibrators and Controls

One commenter raised concern with the materials used to prepare calibrators and controls which as described in section 2.4(n)(2) only allowed calibrators and controls to be prepared from pure drug standards. The commenter correctly indicated that calibrators and controls were available from other sources. The Department concurs and has revised the sentence to allow calibrators and controls to be prepared not only from pure drug reference materials, but from stock standard solutions obtained from other laboratories, or from commercial manufacturers. This change clarifies that laboratories have the flexibility to obtain "standards" used to prepare the calibrators and controls from different sources.

13. Potential Conflicts of Interest

Several commenters supported the policies in sections 2.4(n)(6) and 2.6(b), as proposed, that restricts the types of relationships between laboratories and Medical Review Officers to ensure there were no conflicts of interest. There were several comments submitted, however, stating that these requirements were not necessary since there is no evidence that MROs have not acted in the interest of

the donor or that current arrangements have adversely affected the ability of an MRO to monitor laboratories. The Department does not question the dedication and integrity of its certified laboratories and the MROs in carrying out their responsibilities and protecting the interests of the Federal agencies and donors. Nevertheless, the Department believes the issue must be addressed..

The MRO plays an essential role in the Federal drug testing program. See generally section 2.6 of the Mandatory Guidelines. The MRO is a licensed physician with a knowledge of substance abuse disorders who verifies whether the tests are positive or negative. In the case of a positive result reported by the laboratory, the Mandatory Guidelines require that the MRO contact the employee and personally interview the employee, i.e., in-person or by telephone, to determine whether alternate medical explanations would explain a positive result. See section 2.6(c). During the course of such interview and possibly through having the specimen retested, the MRO may identify false positive test results. In such a case, the MRO is required to contact the Secretary so that the Department can conduct an investigation into the matter and take whatever action is necessary to prevent such a result from occurring in the future. See section 2.6(g).

Because the MRO plays such an essential role, the Department believes any relationship that may be construed as a potential conflict of interest may be sufficient to undermine the integrity of the program. Every Federal agency, employee, and job applicant must have complete assurance that test results will be thoroughly reviewed and, if errors are discovered, that the MRO will report the error and an appropriate investigation and corrective action will be taken.

14. Laboratory Quality Control Requirements for Initial Tests

There were several comments submitted regarding the requirements in section 2.5(b), as proposed, for quality control samples when conducting the initial test. The commenters believed the proposed requirements were confusing and suggested using different terms to describe the types of quality controls that must be included in each initial test batch. The Department concurs that the quality control requirements in this section were confusing and they have been revised based on the definitions in section 1.2. It should be noted the changes to this section only clarify the requirements for quality control samples; the actual policy has not changed from the original Mandatory Guidelines. See section 2.5(b) of 53 FR 11979, 11984 (April 11, 1988). We have also revised the quality control requirements for each confirmatory test batch in section 2.5(c) using the new definitions in section 1.2 without changing the policy as compared to the original Mandatory Guidelines. See section 2.5(c) of 53 FR 11979, 11985 (April 11, 1988).

In addition, it was noted that there was an error in the requirement that each initial test batch must contain a minimum of 20% quality control samples. A correction stating that 10% was the minimum amount was published in the **Federal Register** on March 1, 1993.

15. Agency Blind Sample Program

A number of commenters supported reducing the requirements for agency blind samples from 10% to 3% as indicated in section 2.5(d)(2). One commenter suggested retaining the 10% minimum and one commenter suggested establishing a minimum number of blind samples per quarter for organizations with a small test population. The Department believes the reduced requirement will not have a significant impact on the ability of an agency to evaluate its entire drug testing program; however, there is no prohibition for an agency to use a higher percentage or a higher number of blind samples to be submitted with donor specimens.

The Department has also changed the requirements for the number of blind samples to be submitted with donor specimens during the initial 90-day period of any new contract to conform with reducing the requirements of blind samples as provided by section 2.5(d)(2). Our experience during the past 5 years suggests that it is not necessary to submit large numbers of blind samples to verify the testing conducted by the certified laboratories.

16. Reanalysis Authorized

Two commenters expressed concern with the retesting policy proposed in section 2.6(e) which provided that only the MRO was authorized to order a reanalysis of the original specimen or Bottle B from a split specimen collection. One commenter believes the donor was authorized to request a retest of the original specimen. It is the Department's position that if an MRO cannot verify a positive result for whatever reason, only the MRO is authorized to request the retest of the original specimen since the MRO is the only individual who has all the information necessary to identify a particular specimen in a laboratory.

Another commenter pointed out an inconsistency between the retest policy proposed in this section and the policy proposed for testing Bottle B from a split specimen collection as described in section 2.2(h)(6) which states that only the donor may request through the MRO that the second specimen bottle (Bottle B) be tested. The Department agrees that there is an inconsistency in the proposed policies because we inadvertently referred to the Bottle B specimen in section 2.6(e) rather than the Bottle A specimen. Section 2.6(e) has been changed to clarify that only the MRO may request the retest of either a single specimen or a Bottle A specimen when using a split specimen collection. The procedures for the testing of Bottle B remain as proposed in section 2.2(h)(6)—that is, only the donor may request through the MRO that Bottle B be tested.

17. Reporting Final Results to the Agency

One commenter suggested that section 2.6(h), as proposed, which clarifies the requirement that the MRO provide written reports to the agency on positive and negative drug test results would significantly increase the administrative costs associated with the program and recommended that the MRO be required to provide written reports to the agency for positive results only. The Department disagrees. Written reports from the MRO to the agency on all specimens tested ensures that all specimens have been tested and the results of all specimens have been reviewed by the MRO. In addition, the Department believes that this requirement for written reports to the agency does not prevent the MRO from reporting several results on the same correspondence sent to the agency and, therefore, should not significantly affect the cost associated with the MRO review of drug testing results.

18. Certified Laboratories Notifying Private Sector Clients

Two commenters were concerned that the policy in section 3.4 did not adequately ensure that a laboratory would inform clients if and when the laboratory did not satisfy the certification requirements. The Department concurs that a laboratory must inform its clients when its certification has been suspended. Since the program began, this notification has been required and is set out in the suspension letter that is sent to the laboratory.

However, the intent of the requirement in section 3.4 that certified laboratories clearly inform clients when procedures followed do not conform to the Mandatory Guidelines is not related to suspension and/or proposed revocation actions. The purpose is to ensure that unregulated, private sector clients are aware that the laboratory may be using procedures that are not subject to or in accordance with the Mandatory Guidelines. The Department believes that a certified laboratory must not use its certification to promote itself as such if, in fact, it uses procedures that do not comply with the Mandatory Guidelines for such clients. This section has been revised to clarify this requirement.

19. Performance Testing Program

There were several comments submitted regarding changing the performance testing (PT) program from a bimonthly program to a quarterly program as stated in various sections of subpart C. One commenter disagreed with changing the performance testing program to a quarterly program because this would prolong the recertification process and suggested that a monthly PT program would be more appropriate. The Department has no intention of changing the initial certification procedures or to change the procedures when a laboratory has been suspended and must successfully analyze performance testing samples prior to having the suspension lifted. In addition, the Department believes a monthly PT program does not allow sufficient time for a laboratory to receive its results on a set of PT samples, analyze its performance, and initiate appropriate corrective action before the next cycle of PT samples.

One commenter was concerned that adopting a quarterly PT program without changing the criteria for determining acceptable performance, as set out in section 3.19, would increase the period for evaluating a laboratory's performance to 9 months. The Department concurs that the criteria for determining acceptable performance, that is, performance on 3 consecutive quarterly PT cycles, would unduly lengthen the time before corrective action may be taken. Since the total number of PT samples in 2 cycles of the quarterly PT program will be essentially the same as those for 3 cycles of the bimonthly PT program, it is appropriate to establish acceptable performance criteria based on performance over 2 consecutive cycles of quarterly PT samples. All criteria in section 3.19 that pertain to evaluating the performance of certified laboratories have been changed to evaluate acceptable performance over 2 consecutive cycles rather than over 3 consecutive cycles, which retains the 6-month evaluation period.

One commenter agreed with the change in section 3.19(b)(4), as proposed, that would allow a certified laboratory to have one quantitative result greater than 50% from the target value without requiring program action against the laboratory. However, the commenter is concerned that the cause for the error may not be investigated since program action is not taken against the laboratory. The Department did not intend that this change would prevent any investigation into the cause for the error or that the laboratory would not be required by the Department to make a concerted effort to determine the cause for the error and to take appropriate corrective action.

One commenter believes that the overall costs for the certification program may be decreased without compromising the high quality of the program by increasing the PT challenges to a monthly program and decreasing the maintenance inspections to once a year. The Department disagrees with this proposal because it is important to inspect laboratories at least every six months to ensure that the laboratory has continued to satisfy the requirements of the Mandatory Guidelines and for the inspectors to review the results reported for the PT samples. If corrective action is necessary, it will be more timely than if inspections were on a yearly basis. In addition, the existence of a significant problem over a long period of time would possibly jeopardize the results of many more personnel specimens.

20. Corrective Action by Certified Laboratories

Several commenters expressed concern that section 3.12(c), as proposed, would give the Secretary the authority to review all results and activities associated with a laboratory's testing of specimens for private sector, unregulated clients. This was not the intent and the section has been changed to indicate that the Secretary has authority to review results for specimens collected for private sector clients that were tested by the certified laboratory under the Mandatory Guidelines to the extent necessary to ensure the full reliability of drug testing for Federal agencies.

21. Recertification

One commenter was concerned with the policy contained in section 3.16, as proposed, because the commenter believed the procedure to regain certification after the laboratory's certification has been revoked would be prolonged given that the maintenance PT program has been reduced to a quarterly program. The commenter misunderstood that provision. The Department has not changed the initial certification procedure (section 3.16) under which a laboratory that had its certification revoked must proceed to regain certification. Thus, such a laboratory will proceed as in the past and must satisfactorily perform in each phase of the initial certification process. However, the first sentence of section 3.16 has been changed to indicate that the recertification policy applies only when a laboratory has its certification revoked.

22. Inspection Performance

One commenter was concerned that the meaning of the phrase "consistent with good forensic laboratory practice" in section 3.20(c), as proposed, was too subjective. The commenter believes that each inspection team interprets laboratory's procedures differently, thereby, what is acceptable during one inspection may be unacceptable during the next inspection. We do not concur with this assessment of the inspection process. Although there is some inherent subjectivity in the inspection process when applying certain criteria under the Mandatory Guidelines, the inspectors are provided clear guidance on what is to be inspected and what is acceptable and unacceptable. The Department requires trained, qualified inspectors to use a comprehensive checklist consisting of some 300 questions to evaluate a laboratory's procedures. They are asked to respond "yes" or "no" to the questions and then provide comments if the answer is unacceptable. This checklist ensures that each inspector is reviewing essentially all of the same laboratory documents and results. The inspection reports are reviewed by the Department to ensure that program requirements and policies are applied consistently among all laboratories. In addition, it is the responsibility of each laboratory to review the Mandatory Guidelines, to be aware of what is to be inspected by reviewing the checklist and other program documents, to correct deficiencies, and to use good forensic laboratory practice in its testing program.

One commenter suggested that the word "all" be deleted from the second sentence in section 3.20(c), as proposed, because a laboratory is not required to correct "all" deficiencies identified by the inspectors. We concur with the comment and have deleted the word "all." The Department's policy has always been to include minor

deficiencies or concerns in the critique developed from the inspection reports and give the laboratory the option to take whatever additional corrective action it deems appropriate for these minor deficiencies or concerns.

23. Procedures for Review of Suspension or Proposed Revocation of a Certified Laboratory

One commenter suggests that the definition of appellant in section 4.2, as proposed, is unclear and believes that the review procedures only apply when there is a proposed revocation. The Department disagrees with this position. The Department believes that principles of fairness necessitate allowing laboratories to seek internal reviews not only of proposed revocations but also internal reviews of immediate suspensions.

24. Other Minor Changes

In addition to the changes discussed above, there were several minor changes made in other sections. The acronym "MRO" has been added to the definition for Medical Review Officer in section 1.2. Since the original Guidelines were published, the "MRO" acronym has become a common and accepted way to refer to a physician performing this function. We have replaced "Medical Review Officer" with "MRO" throughout the Guidelines.

Section 2.5(d)(4) was changed to clarify that an agency shall investigate any unsatisfactory blind performance testing results and submit its findings to HHS rather than HHS conducting the initial investigation. The Department believes the agency must gather all pertinent information and investigate the reason before HHS is contacted to continue the investigation and to ensure that the laboratory has taken corrective action.

Section 2.6(c) has been simplified to require the MRO to send results only to the designated person in the agency rather than to both agency's Employee Assistance Program and to the agency's management official. The Department believes that the agency should have the discretion to determine who should receive results.

Section 3.3 was clarified to read that a laboratory must satisfy all pertinent provisions of the Guidelines in order to maintain certification while the original requirement only addressed satisfying the provisions in order to qualify for certification.

Section 3.15(b) was revised to conform with the review procedure in new subpart D which allows laboratories the opportunity for an informal review of a program action within 30 days of the date the laboratory received the notice, or if seeking an expedited review, within 3 days of the date the laboratory received the notice.

Two commenters noted that section 3.18(b) referred to a subset of PT samples as "directed specimens" rather than as "retest samples" which is current program terminology. We concur with the comment submitted and have revised the section to refer to these PT samples as "retest samples."

Other appropriate minor editorial changes have been made for clarity and consistency.

Information Collection Requirements

Any comments related to the Paperwork Reduction Act of 1980 may be sent to the HHS Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, room 3001, New Executive Office Building, Washington, DC 20503.

Information collection and recordkeeping requirements which would be imposed on laboratories engaged in urine drug testing for Federal agencies concern quality assurance and quality control; security and chain of custody; documentation; reports; performance testing; and inspections as set out in sections 3.7, 3.8, 3.10, 3.11, 3.17, and 3.20. To facilitate ease of use and uniform reporting, a specimen chain of custody form has been developed as referenced in sections 1.2, 2.2(c), and 2.2(f).

The information collection and recordkeeping requirements contained in these Mandatory Guidelines have been submitted to the Office of Management and Budget for review under section 3504(h) of the Paperwork Reduction Act of 1980.

Dated: February 7, 1994.

Philip R. Lee,

Assistant Secretary for Health.

Dated: March 16, 1994

Donna E. Shalala,

Secretary.

The Mandatory Guidelines as revised are hereby adopted in accordance with Executive Order 12564 and section 503 of Pub. L. 100–71. For the public's convenience the Mandatory Guidelines as revised are set out in full as follows:

Mandatory Guidelines for Federal Workplace Drug Testing Programs

Subpart A—General

1.1 Applicability.
1.2 Definitions.
1.3 Future Revisions.

Subpart B—Scientific and Technical Requirements

2.1 The Drugs.
2.2 Specimen Collection Procedures.
2.3 Laboratory Personnel.
2.4 Laboratory Analysis Procedures.
2.5 Quality Assurance and Quality Control.
2.6 Reporting and Review of Results.
2.7 Protection of Employee Records.
2.8 Individual Access to Test and Laboratory Certification Results

Subpart C—Certification of Laboratories Engaged in Urine Drug Testing for Federal Agencies

3.1 Introduction.
3.2 Goals and Objectives of Certification.
3.3 General Certification Requirements.
3.4 Capability to Test for Five Classes of Drugs.
3.5 Initial and Confirmatory Capability at Same Site.
3.6 Personnel.
3.7 Quality Assurance and Quality Control
3.8 Security and Chain of Custody.
3.9 One-Year Storage for Confirmed Positives.
3.10 Documentation.
3.11 Reports.
3.12 Certification.
3.13 Revocation.
3.14 Suspension.
3.15 Notice.
3.16 Recertification.
3.17 Performance Testing (PT) Requirement for Certification.
3.18 Performance Test Samples Composition.
3.19 Evaluation of Performance Testing.
3.20 Inspections.
3.21 Results of Inadequate Performance
3.22 Listing of Certified Laboratories.

Subpart D—Procedures for Review of Suspension or Proposed Revocation of a Certified Laboratory

4.1 Applicability.
4.2 Definitions.
4.3 Limitations on Issues Subject to Review
4.4 Specifying Who Represents the Parties.
4.5 The Request for Informal Review and the Reviewing Official's Response.
4.6 Abeyance Agreement.
4.7 Preparation of the Review File and Written Argument.
4.8 Opportunity for Oral Presentation.
4.9 Expedited Procedures for Review of Immediate Suspension.
4.10 Ex Parte Communications
4.11 Transmission of Written Communications by Reviewing Official and Calculation of Deadlines.
4.12 Authority and Responsibilities of Reviewing Official.
4.13 Administrative Record.
4.14 Written Decision.
4.15 Court Review of Final Administrative Action; Exhaustion of Administrative Remedies.

Authority: E.O. 12564 and Sec. 503 of Pub L. 100–71.

Subpart A—General

Section 1.1 Applicability.

(a) These mandatory guidelines apply to:

(1) Executive Agencies as defined in 5 U.S.C. 105;

(2) The Uniformed Services, as defined in 5 U.S.C. 2101(3) (but excluding the Armed Forces as defined in 5 U.S.C. 2101(2));

(3) And any other employing unit or authority of the Federal Government except the United States Postal Service, the Postal Rate Commission, and employing units or authorities in the Judicial and Legislative Branches.

(b) Subpart C of these Guidelines (which establishes laboratory certification standards) applies to any laboratory which has or seeks certification to perform urine drug testing for Federal agencies under a drug testing program conducted under E.O. 12564. Only laboratories certified under these standards are authorized to perform urine drug testing for Federal agencies.

(c) The Intelligence Community, as defined by Executive Order No. 12333, shall be subject to these Guidelines only to the extent agreed to by the head of the affected agency.

(d) These Guidelines do not apply to drug testing conducted under legal authority other than E.O. 12564, including testing of persons in the criminal justice system, such as arrestees, detainees, probationers, incarcerated persons, or parolees.

(e) Agencies may not deviate from the provisions of these Guidelines without the written approval of the Secretary. In requesting approval for a deviation, an agency must petition the Secretary in writing and describe the specific provision or provisions for which a deviation is sought and the rationale therefor. The Secretary may approve the request upon a finding of good cause as determined by the Secretary.

(f) Agencies shall purchase drug testing services only from laboratories certified by HHS or an HHS-recognized certification program in accordance with these Guidelines.

Section 1.2 Definitions

For purposes of these Guidelines the following definitions are adopted:

Aliquot. A fractional part of a specimen used for testing. It is taken as a sample representing the whole specimen.

Calibrator. A solution of known concentration used to calibrate a measurement procedure or to compare the response obtained with the response of a test specimen/sample. The concentration of the analyte of interest in the calibrator is known within limits ascertained during its preparation. Calibrators may be used to establish a calibration curve over a range of interest.

Certifying Scientist. An individual with at least a bachelor's degree in the chemical or biological sciences or medical technology or equivalent who reviews all pertinent data and quality control results. The individual shall have training and experience in the theory and practice of all methods and procedures used in the laboratory, including a thorough understanding of chain of custody procedures, quality control practices, and analytical procedures relevant to the results that the individual certifies. Relevant training and experience shall also include the review, interpretation, and reporting of test results; maintenance of chain of custody; and proper remedial action to be taken in response to test systems being out of control-limits or detecting aberrant test or quality control results.

Chain of Custody. Procedures to account for the integrity of each urine specimen by tracking its handling and storage from point of specimen collection to final disposition of the specimen. These procedures shall require that an Office of Management and Budget (OMB) approved specimen chain of custody form be used from time of collection to receipt by the laboratory and that upon receipt by the laboratory an appropriate laboratory chain of custody form(s) account for the specimens and samples within the laboratory. Chain of custody forms shall, at a minimum, include an entry documenting date and purpose each time a specimen or sample is handled or transferred and identifying every individual in the chain of custody.

Collection Site. A place designated by the agency where individuals present themselves for the purpose of providing a specimen of their urine to be analyzed for the presence of drugs.

Collection Site Person. A person who instructs and assists individuals at a collection site and who receives and makes an initial examination of the urine specimen provided by those individuals. A collection site person shall have successfully completed training to carry out this function.

Confirmatory Test. A second analytical procedure to identify the presence of a specific drug or metabolite which is independent of the initial test and which uses a different technique and chemical principle from that of the initial test in order to ensure reliability and accuracy. (At this time gas chromatography/mass spectrometry (GC/MS) is the only authorized confirmation method for cocaine, marijuana, opiates, amphetamines, and phencyclidine.)

Control. A sample used to monitor the status of an analysis to maintain its performance within desired limits.

Donor. The individual from whom a urine specimen is collected.

Initial Test (also known as Screening Test). An immunoassay test to eliminate "negative" urine specimens from further consideration and to identify the presumptively positive specimens that require confirmation or further testing.

Laboratory Chain of Custody Form. The form(s) used by the testing laboratory to document the security of the specimen and all aliquots of the specimens during testing and storage by the laboratory. The form, which may account for an entire laboratory test batch, shall include the names and signatures of all individuals who accessed the specimens or aliquots and the date and purpose of the access.

Medical Review Officer (MRO). A licensed physician responsible for receiving laboratory results generated by an agency's drug testing program who has knowledge of substance abuse disorders and has appropriate medical training to interpret and evaluate an individual's positive test result together with his or her medical history and any other relevant biomedical information.

Quality Control Sample. A sample used to evaluate whether or not the analytical procedure is operating within predefined tolerance limits. Calibrators, controls, negative urine samples, and blind samples are collectively referred to as "quality control samples" and each as a "sample."

Reason to Believe. Reason to believe that a particular individual may alter or substitute the urine specimen as provided in section 4(c) of E.O. 12564.

Sample. A representative portion of a urine specimen or quality control sample used for testing.

Secretary. The Secretary of Health and Human Services or the Secretary's designee. The Secretary's designee may be a contractor or other recognized organization which acts on behalf of the Secretary in implementing these Guidelines.

Specimen. The portion of urine that is collected from a donor.

Specimen Chain of Custody Form. An OMB approved form used to document the security of the specimen from time of collection until receipt by the laboratory. This form, at a minimum, shall include specimen identifying information, date and location of collection, name and signature of

collector, name of testing laboratory, and the names and signatures of all individuals who had custody of the specimen from time of collection until the specimen was prepared for shipment to the laboratory.

Standard. A reference material of known purity or a solution containing a reference material at a known concentration.

Section 1.3 Future Revisions

In order to ensure the full reliability and accuracy of drug assays, the accurate reporting of test results, and the integrity and efficacy of Federal drug testing programs, the Secretary may make changes to these Guidelines to reflect improvements in the available science and technology. These changes will be published in final as a notice in the **Federal Register**.

Subpart B—Scientific and Technical Requirements

Section 2.1 The Drugs

(a) The President's Executive Order 12564 defines "illegal drugs" as those included in Schedule I or II of the Controlled Substances Act (CSA), but not when used pursuant to a valid prescription or when used as otherwise authorized by law. Hundreds of drugs are covered under Schedule I and II and while it is not feasible to test routinely for all of them, Federal drug testing programs shall test for drugs as follows:

(1) Federal agency applicant and random drug testing programs shall at a minimum test for marijuana and cocaine;

(2) Federal agency applicant and random drug testing programs are also authorized to test for opiates, amphetamines, and phencyclidine; and

(3) When conducting reasonable suspicion, accident, or unsafe practice testing, a Federal agency may test for any drug listed in Schedule I or II of the CSA.

(b) Any agency covered by these guidelines shall petition the Secretary in writing for approval to include in its testing protocols any drugs (or classes of drugs) not listed for Federal agency testing in paragraph (a) of this section. Such approval shall be limited to the use of the appropriate science and technology and shall not otherwise limit agency discretion to test for any drugs covered under Schedule I or II of the CSA.

(c) Urine specimens collected pursuant to Executive Order 12564, Public Law 100–71, and these Guidelines shall be used only to test for those drugs included in agency drug-free workplace plans and may not be used to conduct any other analysis or test unless otherwise authorized by law except if additional testing is required to determine the validity of the specimen. Urine that tests negative by initial or confirmatory testing may, however, be pooled for use in the laboratory's internal quality control program.

(d) These Guidelines are not intended to limit any agency which is specifically authorized by law to include additional categories of drugs in the drug testing of its own employees or employees in its regulated industries.

Section 2.2 Specimen Collection Procedures

(a) *Designation of Collection Site.* Each agency drug testing program shall have one or more designated collection sites which have all necessary personnel, materials, equipment, facilities, and supervision to provide for the collection, security, temporary storage, and shipping or transportation of urine specimens to a certified drug testing laboratory.

(b) *Security.* Procedures shall provide for the designated collection site to be secure. If a collection site facility is dedicated solely to urine collection, it shall be secure at all times. If a facility cannot be dedicated solely to drug testing, the portion of the facility used for testing shall be secured during drug testing.

(c) *Chain of Custody.* Chain of custody standardized forms shall be properly executed by authorized collection site personnel upon receipt of specimens. Handling and transportation of urine specimens from one authorized individual or place to another shall always be accomplished through chain of custody procedures. Every effort shall be made to minimize the number of persons handling specimens.

(d) *Access to Authorized Personnel Only.* No unauthorized personnel shall be permitted in any part of the designated collection site when urine specimens are collected or stored.

(e) *Privacy.* Procedures for collecting urine specimens shall allow individual privacy unless there is reason to believe that a particular donor may alter or substitute the specimen to be provided.

(f) *Integrity and Identity of Specimen.* Agencies shall take precautions to ensure that a urine specimen not be adulterated or diluted during the collection procedure and that information on the urine bottle and on the specimen chain of custody form can identify the donor from whom the specimen was collected. The following minimum precautions shall be taken to ensure that unadulterated specimens are obtained and correctly identified:

(1) To deter the dilution of specimens at the collection site, toilet bluing agents shall be placed in toilet tanks wherever possible, so the reservoir of water in the toilet bowl always remains blue. There shall be no other source of water (e.g., no shower or sink) in the enclosure where urination occurs.

(2) When a donor arrives at the collection site, the collection site person shall request the donor to present photo identification. If the donor does not have proper photo identification, the collection site person shall contact the supervisor of the donor, the coordinator of the drug testing program, or any other agency official who can positively identify the donor. If the donor's identity cannot be established, the collection site person shall not proceed with the collection.

(3) If the donor fails to arrive at the assigned time, the collection site person shall contact the appropriate authority to obtain guidance on the action to be taken.

(4) The collection site person shall ask the donor to remove any unnecessary outer garments such as a coat or jacket that might conceal items or substances that could be used to tamper with or adulterate the donor's urine specimen. The collection site person shall ensure that all personal belongings such as a purse or briefcase remain with the outer garments. The donor may retain his or her wallet.

(5) The donor shall be instructed to wash and dry his or her hands prior to urination.

(6) After washing hands, the donor shall remain in the presence of the collection site person and shall not have access to any water fountain, faucet, soap dispenser, cleaning agent, or any other materials which could be used to adulterate the specimen.

(7) The collection site person shall give the donor a clean specimen bottle or specimen container. The donor may provide his/her specimen in the privacy of a stall or otherwise partitioned area that allows for individual privacy.

(8) The collection site person shall note any unusual behavior or appearance on the specimen chain of custody form.

(9) In the exceptional event that an agency-designated collection site is not accessible and there is an immediate requirement for specimen collection (e.g., an accident investigation), a public rest room may be used according to the following procedures: A person of the same gender as the donor shall accompany the donor into the public rest room which shall be made secure during the collection procedure. If possible, a toilet bluing agent shall be placed in the bowl and any accessible toilet tank. The collection site person shall remain in the rest room, but outside the stall, until the specimen is collected. If no bluing agent is available to deter specimen dilution, the collection site person shall instruct the donor not to flush the toilet until the specimen is delivered to the collection site person. After the collection site person has possession of the specimen, the donor will be instructed to flush the toilet and to participate with the collection site person in completing the chain of custody procedures.

(10) Upon receiving the specimen from the donor, the collection site person shall determine the volume of urine in the specimen bottle/container.

(i) If the volume is greater than 30 milliliters (mL), the collection site person will proceed with step (11) below.

(ii) If the volume is less than 30 mL and the temperature is within the acceptable range specified in step (13) below, the specimen is discarded and a second specimen shall be collected. The donor may be given a reasonable amount of liquid to drink for this purpose (e.g., an 8 oz glass of water every 30 min, but not to exceed a maximum of 24 oz). If the donor fails for any reason to provide 30 mL of urine for the second specimen collected, the collection site person shall contact the appropriate authority to obtain guidance on the action to be taken.

(iii) If the volume is less than 30 mL and the temperature is outside the acceptable range specified in step (13) below, a second specimen shall be collected using the procedure specified in step (13) below.

(11) After the specimen has been provided and submitted to the collection site person, the donor shall be allowed to wash his or her hands.

(12) Immediately after the specimen is collected, the collection site person shall measure only the temperature of the specimen. The temperature measuring device used must accurately reflect the temperature of the specimen and not contaminate the specimen. The time from urination to temperature measurement is critical and in no case shall exceed 4 minutes.

(13) If the temperature of the specimen is outside the range of 32°–38 °C/90°–100 °F, that is a reason to believe that the donor may have altered or substituted the specimen, and another specimen shall be collected under direct observation of a person of the same gender and both specimens shall be forwarded to the laboratory for testing. The agency shall select the observer if there is no collection site person of the same gender available. A donor may volunteer to have his or her oral temperature taken to provide evidence to counter the reason to believe the donor may have altered or substituted the specimen caused by the specimen's temperature falling outside the prescribed range.

(14) Immediately after the specimen is collected, the collection site person shall also inspect the specimen to determine its color and look for any signs of contaminants. Any unusual findings shall be noted on the specimen chain of custody form.

(15) All specimens suspected of being adulterated or diluted shall be forwarded to the laboratory for testing.

(16) When there is any reason to believe that a donor may have altered or substituted the specimen to be provided, another specimen shall be obtained as soon as possible under the direct observation of a person of the same gender and both specimens shall be forwarded to the laboratory for testing. The agency shall select the observer if there is no collection site person of the same gender available.

(17) Both the donor and the collection site person shall keep the specimen bottle/container in view at all times prior to its being sealed and labeled. If the specimen is transferred from a specimen container to a specimen bottle, the collection site person shall request the donor to observe the transfer of the specimen and the placement of the tamper-evident seal/tape on the bottle. The tamper-evident seal may be in the form of evidence tape, a self-sealing bottle cap with both a tamper-evident seal and unique coding, cap and bottle systems that can only be sealed one time, or any other system that ensures any tampering with the specimen will be evident to laboratory personnel during the accessioning process.

(18) The collection site person and the donor shall be present at the same time during procedures outlined in paragraphs (f)(19)–(f)(22) of this section.

(19) The collection site person shall place securely on the specimen bottle an identification label which contains the date, the donor's specimen number, and any other identifying information provided or required by the agency.

(20) The donor shall initial the identification label on the specimen bottle for the purpose of certifying that it is the specimen collected from him or her.

(21) The collection site person shall enter on the specimen chain of custody form all information identifying the specimen.

(22) The donor shall be asked to read and sign a statement on the specimen chain of custody form certifying that the specimen identified as having been collected from him or her is in fact that specimen he or she provided.

(23) Based on a reason to believe that the donor may alter or substitute the specimen to be provided, a higher level supervisor shall review and concur in advance with any decision by a collection site person to obtain a specimen under direct observation. The person directly observing the specimen collection shall be of the same gender. The agency shall select the observer if there is no collection site person of the same gender available.

(24) The collection site person shall complete the specimen chain of custody form.

(25) The urine specimen and specimen chain of custody form are now ready for shipment. If the specimen is not immediately prepared for shipment, it shall be appropriately safeguarded during temporary storage.

(26) While any part of the above chain of custody procedures is being performed, it is essential that the urine specimen and custody documents be under the control of the involved collection site person. If the involved collection site person leaves his or her work station momentarily, the urine specimen and specimen chain of custody form shall be taken with him or her or shall be secured. After the collection site person returns to the work station, the custody process will continue. If the collection site person is leaving for an extended period of time, the specimen shall be packaged for mailing before he or she leaves the site.

(g) *Collection Control.* To the maximum extent possible, collection site personnel shall keep the donor's specimen bottle within sight both before and after the donor has urinated. After the specimen is collected, it shall be properly sealed and labeled. A specimen chain of custody form shall be used for maintaining control and accountability of each specimen. The date and purpose shall be documented on a specimen chain of custody form each time a specimen is handled or transferred and every individual in the chain shall be identified. Every effort shall be made to minimize the number of persons handling specimens.

(h) *Split Specimens.* An agency may, but is not required to, use a split specimen method of collection. If the urine specimen is split into two specimen bottles (hereinafter referred to as Bottle A and Bottle B) the following procedure shall be used:

(1) The donor shall urinate into either a specimen bottle or specimen container. The collection site person, in the presence of the donor, after determining specimen temperature, pours the urine into two specimen bottles that are labeled Bottle A and Bottle B or, if Bottle A was used to collect the specimen, pours an appropriate amount into Bottle B. A minimum of 45 mL of urine is required when using a split specimen procedure, i.e., 30 mL for Bottle A and 15 mL for Bottle B.

(2) The Bottle A specimen, containing a minimum of 30 mL of urine, is to be used for the drug test. If there is no additional urine available for the second specimen bottle (Bottle B), the first specimen bottle (Bottle A) shall nevertheless be processed for testing.

(3) A minimum of 15 mL of urine shall be poured into the second specimen bottle (Bottle B).

(4) All requirements of this part shall be followed with respect to Bottle A and Bottle B, including the requirements that a copy of the chain of custody form accompany each bottle processed under split sample procedures.

(5) The collection site shall send the split specimens (Bottle A and Bottle B) at the same time to the laboratory that will be testing the Bottle A specimen.

(6) If the test of the first specimen bottle (Bottle A) is verified positive by the MRO, the MRO shall report the result to the agency. Only the donor may request through the MRO that the second specimen bottle (Bottle B) be tested in an HHS-certified laboratory for presence of the drug(s) for which a positive result was obtained in the test of the first specimen bottle (Bottle A). The MRO shall honor such a request if it is made within 72 hours of the donor's having received notice that he or she tested positive. The result of this test is transmitted to the MRO without regard to the cutoff levels used to test the first specimen bottle (Bottle A).

(7) Any action taken by a Federal agency as a result of an MRO verified positive drug test (e.g., removal from performing a safety-sensitive function) may proceed whether Bottle B is or is not tested.

(8) If the result of the test on the second specimen bottle (Bottle B) fails to reconfirm the result reported for Bottle A, the MRO shall void the test result for Bottle A and the donor shall re-enter the group subject to random testing as if the test had not been conducted. The MRO shall notify the Federal agency when a failed to reconfirm has occurred and the agency shall contact the Secretary. The Secretary will investigate the failed to reconfirm result and attempt to determine the reason for the inconsistent results between Bottle A and Bottle B. HHS will report its findings to the agency including recommendations and/or actions taken to prevent the recurrence of the failed to reconfirm result.

(i) *Transportation to Laboratory.* Collection site personnel shall arrange to ship the collected specimens to the drug testing laboratory. The specimens shall be placed in containers designed to minimize the possibility of damage during shipment, for example, specimen boxes or padded mailers; and those containers shall be securely sealed to eliminate the possibility of undetected tampering. The collection site personnel shall ensure that the specimen chain of custody form is enclosed within each container sealed for shipment to the drug testing laboratory. Since specimens are sealed in packages that would indicate any tampering during transit to the laboratory and couriers, express carriers, and postal service personnel do not have access to the chain of custody forms, there is no requirement that such personnel document chain of custody for the package during transit.

Section 2.3 Laboratory Personnel

(a) *Day-to-Day Management.* (1) The laboratory shall have a responsible person (RP) to assume professional, organizational, educational, and administrative responsibility for the laboratory's urine drug testing facility.

(2) This individual shall have documented scientific qualifications in analytical forensic toxicology. Minimum qualifications are:

(i) Certification as a laboratory director by the State in forensic or clinical laboratory toxicology; or

(ii) A Ph.D. in one of the natural sciences with an adequate undergraduate and graduate education in biology, chemistry, and pharmacology or toxicology; or

(iii) Training and experience comparable to a Ph.D. in one of the natural sciences, such as a medical or scientific degree with additional training and laboratory/research experience in biology, chemistry, and pharmacology or toxicology; and

(iv) In addition to the requirements in (i), (ii), and (iii) above, minimum qualifications also require:

(A) Appropriate experience in analytical forensic toxicology including experience with the analysis of biological material for drugs of abuse, and

(B) Appropriate training and/or experience in forensic applications of analytical toxicology, e.g., publications, court testimony, research concerning analytical toxicology of drugs of abuse, or other factors which qualify the individual as an expert witness in forensic toxicology.

(3) This individual shall be engaged in and responsible for the day-to-day management of the drug testing laboratory even where another individual has overall responsibility for an entire multispeciality laboratory.

(4) This individual shall be responsible for ensuring that there are enough personnel with adequate training and experience to supervise and conduct the work of the drug testing laboratory. He or she shall assure the continued competency of laboratory personnel by documenting their inservice training, reviewing their work performance, and verifying their skills.

(5) This individual shall be responsible for the laboratory's having a procedure manual which is complete, up-to-date, available for personnel performing tests, and followed by those personnel. The procedure manual shall be reviewed, signed, and dated by this responsible person whenever procedures are first placed into use or changed or when a new individual assumes responsibility for management of the drug testing laboratory. Copies of all procedures and dates on which they are in effect shall be maintained. (Specific contents of the procedure manual are described in section 2.4(n)(1))

(6) This individual shall be responsible for maintaining a quality assurance program to assure the proper performance and reporting of all test results; for maintaining acceptable analytical performance for all controls and standards; for maintaining quality control testing; and for assuring and documenting the validity, reliability, accuracy, precision, and performance characteristics of each test and test system.

(7) This individual shall be responsible for taking all remedial actions necessary to maintain satisfactory operation and performance of the laboratory in response to quality control systems not being within performance specifications, errors in result reporting or in analysis of performance testing results. This individual shall ensure that sample results are not reported until all corrective actions have been taken and he or she can assure that the results provided are accurate and reliable.

(b) *Certifying Test Results.* The laboratory's urine drug testing facility shall have a certifying scientist(s), as defined in section 1.2, who reviews all pertinent data and quality control results in order to attest to the validity of the laboratory's test reports. A laboratory may designate certifying scientists that are qualified to certify only results that are negative on the initial test and certifying scientists that are qualified to certify both initial and confirmatory tests.

(c) *Day-to-Day Operations and Supervision of Analysts.* The laboratory's urine drug testing facility shall have an individual(s) to be responsible for day-to-day operations and to supervise the technical analysts. This individual(s) shall have at least a bachelor's degree in the chemical or biological sciences or medical technology or equivalent. He or she shall have training and experience in the theory and practice of the procedures used in the laboratory, resulting in his or her thorough understanding of quality control practices and procedures; the review, interpretation, and reporting of test results; maintenance of chain of custody; and proper remedial actions to be taken in response to test systems being out of control limits or detecting aberrant test or quality control results.

(d) *Other Personnel.* Other technicians or nontechnical staff shall have the necessary training and skills for the tasks assigned.

(e) *Training.* The laboratory's urine drug testing program shall make available continuing education programs to meet the needs of laboratory personnel.

(f) *Files.* Laboratory personnel files shall include: resume of training and experience; certification or license, if any; references; job descriptions; records of performance evaluation and advancement; incident reports; and results of tests which establish employee competency for the position he or she holds, such as a test for color blindness, if appropriate.

Section 2.4 Laboratory Analysis Procedures

(a) *Security and Chain of Custody.* (1) Drug testing laboratories shall be secure at all times. They shall have in place sufficient security measures to control access to the premises and to ensure that no unauthorized personnel handle specimens or gain access to the laboratory processes or to areas where records are stored. Access to these secured areas shall be limited to specifically authorized individuals whose authorization is documented. With the exception of personnel authorized to conduct inspections on behalf of Federal agencies for which the laboratory is engaged in urine testing or on behalf of the Secretary or emergency personnel (e.g., firefighters and medical rescue teams), all authorized visitors and maintenance and service personnel shall be escorted at all times. The laboratory shall maintain a record that documents the dates, time of entry and exit, and purpose of entry of authorized visitors, maintenance, and service personnel accessing secured areas.

(2) Laboratories shall use chain of custody procedures to maintain control and accountability of specimens from receipt through completion of testing, reporting of results, during storage, and continuing until final disposition of specimens. The date and purpose shall be documented on an appropriate chain of custody form each time a specimen is handled or transferred, and every individual in the chain shall be identified. Accordingly, authorized technicians shall be responsible for each urine specimen or aliquot in their possession and shall sign and complete chain of custody forms for those specimens or aliquots as they are received.

(b) *Receiving.* (1) When a shipment of specimens is received, laboratory personnel shall inspect each package for evidence of possible tampering and compare information on specimen bottles within each package to the information on the accompanying chain of custody forms. Any direct evidence of tampering or discrepancies in the information on specimen bottles and the specimen chain of custody forms attached to the shipment shall be immediately reported to the agency and shall be noted on the specimen chain of custody forms which shall accompany the specimens while they are in the laboratory's possession.

(2) Specimen bottles will normally be retained within the laboratory's accession area until all analyses have been completed. Aliquots and laboratory chain of custody forms shall be used by laboratory personnel for conducting initial and confirmatory tests while the original specimen and specimen chain of custody form remain in secure storage.

(c) *Short-Term Refrigerated Storage.* Specimens that do not receive an initial test within 7 days of arrival at the laboratory shall be placed in secure refrigeration units. Temperatures shall not exceed 6 °C. Emergency power equipment shall be available in case of prolonged power failure.

(d) *Specimen Processing.* Laboratory facilities for urine drug testing will normally process specimens by grouping them into batches. The number of specimens in each batch may vary significantly depending on the size of the laboratory and its workload. When conducting either initial or confirmatory tests, every batch shall satisfy the quality control requirements in sections 2.5 (b) and (c), respectively.

(e) *Initial Test.* (1) The initial test shall use an immunoassay which meets the requirements of the Food and Drug Administration for commercial distribution. The following initial cutoff levels shall be used when screening specimens to determine whether they are negative for these five drugs or classes of drugs:

	Initial test level (ng/mL)
Marijuana metabolites	50
Cocaine metabolites	300
Opiate metabolites	[1]300
Phencyclidine	25
Amphetamines	1,000

[1] 25 ng/mL if immunoassay specific for free morphine.

(2) These test levels are subject to change by the Department of Health and Human Services as advances in technology or other considerations warrant identification of these substances at other concentrations. The agency requesting the authorization to include other drugs shall submit to the Secretary in writing the agency's proposed initial test methods, testing levels, and proposed performance test program.

(3) Specimens that test negative on all initial immunoassay tests will be reported negative. No further testing of these negative specimens for drugs is permitted and the specimens shall either be discarded or pooled for use in the laboratory's internal quality control program.

(4) Multiple initial tests (also known as rescreening) for the same drug or drug class may be performed provided that all tests meet all Guideline cutoffs and quality control requirements (see section 2.5(b)). Examples: a test is performed by immunoassay technique "A" for all drugs using the HHS cutoff levels, but presumptive positive amphetamines are forwarded for immunoassay technique "B" to eliminate any possible presumptive positives due to structural analogues; a valid analytical result cannot be obtained using immunoassay technique "A" and immunoassay technique "B" is used in an attempt to obtain a valid analytical result.

(f) *Confirmatory Test.* (1) All specimens identified as positive on the initial test shall be confirmed for the class(es) of drugs screened positive on the initial test using gas chromatography/mass spectrometry

(GC/MS) at the cutoff values listed in this paragraph. All confirmations shall be by quantitative analysis. Concentrations which exceed the linear region of the standard curve shall be documented in the laboratory record as "exceeds the linear range of the test."

	Confirmatory test level (ng/mL)
Marijuana metabolite [1]	15
Cocaine metabolite [2]	150
Opiates:	
Morphine	300
Codeine	300
Phencyclidine	25
Amphetamines:	
Amphetamine	500
Methamphetamine [3]	500

[1] Delta-9-tetrahydrocannabinol-9-carboxylic acid.
[2] Benzoylecgonine.
[3] Specimen must also contain amphetamine at a concentration ≥ 200 ng/mL.

(2) These test levels are subject to change by the Department of Health and Human Services as advances in technology or other considerations warrant identification of these substances at other concentrations. The agency requesting the authorization to include other drugs shall submit to the Secretary in writing the agency's proposed confirmatory test methods, testing levels, and proposed performance test program.

(3) Specimens that test negative on confirmatory tests shall be reported negative. No further testing of these specimens for drugs is permitted and the specimens shall either be discarded or pooled for use in the laboratory's internal quality control program.

(g) *Reporting Results.* (1) The laboratory shall report test results to the agency's MRO within an average of 5 working days after receipt of the specimen by the laboratory. Before any test result is reported (the results of initial tests, confirmatory tests, or quality control data), it shall be reviewed and the test certified as an accurate report by a certifying scientist who satisfies the requirements described by the definition in section 1.2. The report shall identify the drugs/metabolites tested for, whether positive or negative, and the cutoff for each, the specimen number assigned by the agency, and the drug testing laboratory specimen identification number.

(2) Except as otherwise provided by this subsection, the laboratory shall report as negative all specimens which are negative on the initial test or negative on the confirmatory test. Only specimens confirmed positive shall be reported positive for a specific drug. For amphetamines, to report a specimen positive for methamphetamine only, the specimen must also contain amphetamine at a concentration equal to or greater than 200 ng/mL by the confirmatory test. If this criterion is not met, the specimen must be reported as negative for methamphetamine.

(3) The MRO may request from the laboratory and the laboratory shall provide quantitation of test results. The MRO may not disclose quantitation of test results to the agency but shall report only whether the test was positive or negative.

(4) The laboratory may transmit results to the MRO by various electronic means (for example, teleprinters, facsimile, or computer) in a manner designed to ensure confidentiality of the information. Results may not be provided verbally by telephone. The laboratory must ensure the security of the data transmission and limit access to any data transmission, storage, and retrieval system.

(5) The laboratory shall send only to the MRO a certified copy of the original chain of custody form signed by a certifying scientist.

(6) The laboratory shall provide to the agency official responsible for coordination of the drug-free workplace program a monthly statistical summary of urinalysis testing of Federal employees and shall not include in the summary any personal identifying information. Initial and confirmation data shall be included from test results reported within that month. Normally this summary shall be forwarded by registered or certified mail not more than 14 calendar days after the end of the month covered by the summary. The summary shall contain the following information:

Initial Testing:

(i) Number of specimens received;

(ii) Number of specimens reported out; and

(iii) Number of specimens screened positive for: Marijuana metabolites, Cocaine metabolites, Opiate metabolites, Phencyclidine, and Amphetamines.

Confirmatory Testing:

(i) Number of specimens received for confirmation;

(ii) Number of specimens confirmed positive for: Marijuana metabolite, Cocaine metabolite, Morphine, codeine, Phencyclidine, Amphetamine, and Methamphetamine. (7) The laboratory shall make available copies of all analytical results for Federal drug testing programs when requested by HHS or any Federal agency for which the laboratory is performing drug testing services.

(8) Unless otherwise instructed by the agency in writing, all records pertaining to a given urine specimen shall be retained by the drug testing laboratory for a minimum of 2 years.

(h) *Long-Term Storage.* Long-term frozen storage (−20 °C or less) ensures that positive urine specimens will be available for any necessary retest. Unless otherwise authorized in writing by the agency, drug testing laboratories shall retain and place in properly secured long-term frozen storage for a minimum of 1 year all specimens confirmed positive. Within this 1-year period an agency may request the laboratory to retain the specimen for an additional period of time. If no such request is received, the laboratory may discard the specimen after the end of 1 year, except that the laboratory shall be required to maintain any specimens under legal challenge for an indefinite period.

(i) *Retesting of a Specimen* (i.e., the reanalysis by gas chromatography/mass spectrometry of a specimen previously reported positive or the testing of Bottle B of a split specimen collection). Because some analytes deteriorate or are lost during freezing and/or storage, quantitation for a retest is not subject to a specific cutoff requirement but must provide data sufficient to confirm the presence of the drug or metabolite.

(j) *Subcontracting.* Drug testing laboratories shall not subcontract and shall perform all work with their own personnel and equipment unless otherwise authorized by the agency. The laboratory must be capable of performing testing for the five classes of drugs (marijuana, cocaine, opiates, phencyclidine, and amphetamines) using the initial immunoassay and confirmatory GC/MS methods specified in these Guidelines.

(k) *Laboratory Facilities.* (1) Laboratory facilities shall comply with applicable provisions of any State licensure requirements.

(2) Laboratories certified in accordance with Subpart C of these Guidelines shall have the capability, at the same laboratory premises, of performing initial and confirmatory tests for each drug or metabolite for which service is offered.

(l) *Inspections.* The Secretary, any Federal agency utilizing the laboratory, or any organization performing laboratory certification on behalf of the Secretary may reserve the right to inspect the laboratory at any time. Agency contracts with laboratories for drug testing, as well as contracts for collection site services, shall permit the agency to conduct unannounced inspections. In addition, prior to the award of a contract the agency may carry out preaward inspections and evaluation of the procedural aspects of the laboratory's drug testing operation.

(m) *Documentation.* The drug testing laboratories shall maintain and make available for at least 2 years documentation of all aspects of the testing process. This 2-year period may be extended upon written notification by HHS or by any Federal agency for which laboratory services are being provided. The required documentation shall include personnel files on all individuals authorized to have access to specimens; chain of custody forms; quality assurance/quality control records; procedure manuals; all test data (including calibration curves and any calculations used in determining test results); reports; performance records on performance testing; performance on certification inspections; and hard copies of computer-generated data. The laboratory shall be required to maintain documents for any specimen under legal challenge for an indefinite period.

(n) *Additional Requirements for Certified Laboratories.*

(1) *Procedure Manual.* Each laboratory shall have a procedure manual which includes the principles of each test, preparation of reagents, standards and controls, calibration procedures, derivation of results, linearity of methods, sensitivity of the methods, cutoff values, mechanisms for reporting results, controls, criteria for unacceptable specimens and results, remedial actions to be taken when the test systems are outside of acceptable limits, reagents and expiration dates, and references. Copies of all procedures and dates on which they are in effect shall be maintained as part of the manual.

(2) *Calibrators and Controls.* Laboratory calibrators and controls shall be prepared using pure drug reference materials, stock standard solutions obtained from other laboratories, or standard solutions obtained from commercial manufacturers. The calibrators and controls shall be properly labeled as to content and concentration. The standards (e.g., pure reference materials, stock standard solutions, purchased standards) shall be labeled with the following dates: When received (if applicable); When prepared or opened; when placed in service; and expiration date.

(3) *Instruments and Equipment.* (i) Volumetric pipettes and measuring devices shall be certified for accuracy or be checked by gravimetric, colorimetric, or other verification procedure. Automatic pipettes and dilutors shall be checked for accuracy and reproducibility before being placed in service and checked periodically thereafter.

(ii) There shall be written procedures for instrument set-up and normal operation, a schedule for checking critical operating characteristics for all instruments, tolerance limits for acceptable function checks, and instructions for major troubleshooting and repair. Records shall be available on preventive maintenance.

(4) *Remedial Actions.* There shall be written procedures for the actions to be taken when systems are out of acceptable limits or errors are detected. There shall be documentation that these procedures are followed and that all necessary corrective actions are taken. There shall also be in place systems to verify all stages of testing and reporting and documentation that these procedures are followed.

(5) *Personnel Available to Testify at Proceedings.* A laboratory shall have qualified personnel available to testify in an administrative or disciplinary proceeding against a Federal employee when that proceeding is based on positive urinalysis results reported by the laboratory.

(6) *Restrictions.* The laboratory shall not enter into any relationship with an agency's MRO that may be construed as a potential conflict of interest or derive any financial benefit by having an agency use a specific MRO.

Section 2.5 Quality Assurance and Quality Control

(a) *General.* Drug testing laboratories shall have a quality assurance program which encompasses all aspects of the testing process including but not limited to specimen acquisition, chain of custody, security and reporting of results, initial and confirmatory testing, certification of calibrators and controls, and validation of analytical procedures. Quality assurance procedures shall be designed, implemented, and reviewed to monitor the conduct of each step of the testing process.

(b) *Laboratory Quality Control Requirements for Initial Tests.* Each analytical run of specimens to be screened shall include:

(1) Sample(s) certified to contain no drug (i.e., negative urine samples);

(2) Positive control(s) fortified with drug or metabolite;

(3) At least one positive control with the drug or metabolite at or near the threshold (cutoff);

(4) A sufficient number of calibrators to ensure and document the linearity of the assay method over time in the concentration area of the cutoff. After acceptable values are obtained for the known calibrators, those values will be used to calculate sample data;

(5) A minimum of 10 percent of the total specimens and quality control samples in each analytical run shall be quality control samples; and

(6) One percent of each run, with a minimum of at least one sample, shall be the laboratory's blind quality control samples to appear as normal samples to the laboratory analysts.

Implementation of procedures to ensure that carryover does not contaminate the testing of an donor's specimen shall be documented.

(c) *Laboratory Quality Control Requirements for Confirmation Tests.* Each analytical run of specimens to be confirmed shall include:

(1) Sample(s) certified to contain no drug (i.e., negative urine samples);

(2) Positive calibrator(s) and control(s) fortified with drug or metabolite; and

(3) At least one positive control with the drug or metabolite at or near the threshold (cutoff).

The linearity and precision of the method shall be periodically documented. Implementation of procedures to ensure that carryover does not contaminate the testing of a donor's specimen shall also be documented.

(d) Agency Blind Sample Program.

(1) Agencies shall only purchase blind quality control materials that: (a) have been certified by immunoassay and GC/MS and (b) have stability data which verifies those materials' performance over time.

(2) During the initial 90-day period of any new drug testing program, each agency shall submit blind performance test samples to each laboratory it contracts with in the amount of at least 20 percent of the total number of specimens submitted (up to a maximum of 200 blind samples) and thereafter a minimum of 3 percent blind samples (up to a maximum of 100 blind samples) submitted per quarter.

(3) Approximately 80 percent of the blind quality control samples shall be negative (i.e., certified to contain no drug) and the remaining samples shall be positive for one or more drugs per sample in a distribution such that all the drugs to be tested are included in approximately equal frequencies of challenge. The positive samples shall be spiked only with those drugs for which the agency is testing.

(4) The agency shall investigate any unsatisfactory blind performance test sample results and submit its findings to the Secretary. The Secretary shall continue the investigation to ensure that the laboratory has corrected the cause of the unsatisfactory performance test result. A report of the Secretary's

VOL 59 ISS 110 JE 9 994 UMI

investigative findings and the corrective action taken by the laboratory shall be sent to the agency contracting officer. The Secretary shall ensure notification of the finding to all other Federal agencies for which the laboratory is engaged in urine drug testing and coordinate any necessary action.

(5) Should a false positive error occur on a blind performance test sample and the error is determined to be an administrative error (clerical, sample mixup, etc.), the Secretary shall require the laboratory to take corrective action to minimize the occurrence of the particular error in the future; and, if there is reason to believe the error could have been systematic, the Secretary may also require review and reanalysis of previously run specimens.

(6) Should a false positive error occur on a blind performance test sample and the error is determined to be a technical or methodological error, the laboratory shall submit all quality control data from the batch of specimens which included the false positive specimen. In addition, the laboratory shall retest all specimens analyzed positive for that drug or metabolite from the time of final resolution of the error back to the time of the last satisfactory performance test cycle. This retesting shall be documented by a statement signed by the Responsible Person. The Secretary may require an on-site review of the laboratory which may be conducted unannounced during any hours of operation of the laboratory. The Secretary has the option of revoking (section 3.13) or suspending (section 3.14) the laboratory's certification or recommending that no further action be taken if the case is one of less serious error in which corrective action has already been taken, thus reasonably assuring that the error will not occur again.

Section 2.6 Reporting and Review of Results

(a) *Medical Review Officer Shall Review Results.* An essential part of the drug testing program is the final review of results. A positive test result does not automatically identify an employee/applicant as an illegal drug user. An individual with a detailed knowledge of possible alternate medical explanations is essential to the review of results. This review shall be performed by the MRO prior to the transmission of results to agency administrative officials.

(b) *Medical Review Officer—Qualifications and Responsibilities.* The MRO shall be a licensed physician with knowledge of substance abuse disorders. The MRO may be an employee of the agency or a contractor for the agency; however, the MRO shall not be an employee or agent of or have any financial interest in the laboratory for which the MRO is reviewing drug testing results. Additionally, the MRO shall not derive any financial benefit by having an agency use a specific drug testing laboratory or have any agreement with the laboratory that may be construed as a potential conflict of interest. The role of the MRO is to review and interpret positive test results obtained through the agency's testing program. In carrying out this responsibility, the MRO shall examine alternate medical explanations for any positive test result. This action could include conducting a medical interview with the donor, review of the donor's medical history, or review of any other relevant biomedical factors. The MRO shall review all medical records made available by the donor when a confirmed positive test could have resulted from legally prescribed medication. The MRO shall not, however, consider the results of urine specimens that are not obtained or processed in accordance with these Guidelines.

(c) *Positive Test Result.* Prior to making a final decision to verify a positive test result, the MRO shall give the donor an opportunity to discuss the test result with him or her. Following verification of a positive test result, the MRO shall report the result to the agency's official designated to receive results.

(d) *Verification for Opiates; Review for Prescription Medication.* Before the MRO verifies a confirmed positive result for opiates, he or she shall determine that there is clinical evidence—in addition to the urine test—of illegal use of any opium, opiate, or opium derivative (e.g., morphine/codeine) listed in Schedule I or II of the Controlled Substances Act. This requirement does not apply if the confirmatory procedure for opiates confirms the presence of 6-monoacetylmorphine since the presence of this metabolite is proof of heroin use.

(e) *Reanalysis Authorized.* Should any question arise as to the accuracy or validity of a positive test result, only the MRO is authorized to order a retest of a single specimen or the Bottle A specimen from a split specimen collection. Such retests are authorized only at laboratories certified under these Guidelines.

(f) *Result Consistent With Legal Drug Use.* If the MRO determines there is a legitimate medical explanation for the positive test result, he or she shall take no further action and report the test result as negative.

(g) *Result Scientifically Insufficient.* Additionally, the MRO, based on review of inspection reports, quality control data, and other pertinent results, may determine that the result is scientifically insufficient for further action and declare the test specimen negative. In this situation the MRO may request a retest of the original specimen before making this decision. (The MRO may request that the retest be performed by the same laboratory or, as provided in section 2.6(e), that an aliquot of the original specimen be sent for a retest to an alternate laboratory which is certified in accordance with these Guidelines.) The laboratory shall assist in this review process as requested by the MRO by making available the individual responsible for day-to-day management of the urine drug testing laboratory or other employee who is a forensic toxicologist or who has equivalent forensic experience in urine drug testing, to provide specific consultation as required by the agency. The MRO shall report to the Secretary all negative findings based on scientific insufficiency but shall not include any personal identifying information in such reports.

(h) *Reporting Final Results.* The MRO shall report the final results of the drug tests in writing and in a manner designed to ensure confidentiality of the information.

Section 2.7 Protection of Employee Records

Consistent with 5 U.S.C. 522a(m) and 48 CFR 24.101–24.104, all laboratory contracts shall require that the contractor comply with the Privacy Act, 5 U.S.C. 522a. In addition, laboratory contracts shall require compliance with patient access and confidentiality provisions of section 503 of Public Law 100–71. The agency shall establish a Privacy Act System of Records or modify an existing system, or use any applicable Government-wide system of records to cover both the agency's and the laboratory's records of employee urinalysis results. The contract and the Privacy Act System of Records shall specifically require that employee records be maintained and used with the highest regard for employee privacy.

Section 2.8 Individual Access to Test and Laboratory Certification Results

In accordance with section 503 of Public Law 100–71, any Federal employee who is the subject of a drug test shall, upon written request, have access to any records relating to his or her drug test and any records relating to the results of any relevant certification, review, or revocation-of-certification proceedings.

Subpart C—Certification of Laboratories Engaged in Urine Drug Testing for Federal Agencies

Section 3.1 Introduction

Urine drug testing is a critical component of efforts to combat drug abuse in our society. Many laboratories are familiar with good laboratory practices but may be unfamiliar with the special procedures required when drug test results are used in the employment context. Accordingly, the following are minimum standards to certify laboratories engaged in urine drug testing for Federal agencies. Certification, even at the highest level, does not guarantee accuracy of each result reported by a laboratory conducting urine drug testing for Federal agencies. Therefore, results from laboratories certified under these Guidelines must be interpreted with a complete understanding of the total collection, analysis, and reporting process before a final conclusion is made.

Section 3.2 Goals and Objectives of Certification

(a) *Uses of Urine Drug Testing.* Urine drug testing is an important tool to identify drug users in a variety of settings. In the proper context, urine drug testing can be used to deter drug abuse in general. To be a useful tool, the testing procedure must be capable of detecting drugs or their metabolites at concentrations indicated in sections 2.4(e) and 2.4(f).

(b) *Need to Set Standards; Inspections.* Reliable discrimination between the presence, or absence, of specific drugs or their metabolites is critical, not only to achieve the goals of the testing program but to protect the rights of the Federal employees being tested. Thus, standards have been set which laboratories engaged in Federal employee urine drug testing must meet in order to achieve maximum accuracy of test results. These laboratories will be evaluated by the Secretary or the Secretary's designee as defined in section 1.2 in accordance with these Guidelines. The qualifying evaluation will involve three rounds of performance testing plus an on-site inspection. Maintenance of certification requires participation in a quarterly performance testing program plus periodic, on-site inspections. One inspection following successful completion of a performance testing regimen is required for initial certification. This must be followed by a second inspection within 3 months, after which biannual inspections will be required to maintain certification.

(c) *Urine Drug Testing Applies Analytical Forensic Toxicology.* The possible impact of a positive test result on an individual's livelihood or rights, together with the possibility of a legal challenge of the result, sets this type of test apart from most clinical laboratory testing. In fact, urine drug testing should be considered a special application of analytical forensic toxicology. That is, in addition to the application of appropriate analytical methodology, the specimen must be treated as evidence, and all aspects of the testing procedure must be documented and available for possible court testimony. Laboratories engaged in urine drug testing for Federal agencies will require the services and advice of a qualified forensic toxicologist, or individual with equivalent qualifications (both training and experience) to address the specific needs of the Federal drug testing program, including the demands of chain of custody of specimens, security, proper documentation of all records, storage of positive specimens for later or independent testing, presentation of evidence in court, and expert witness testimony.

Section 3.3 General Certification Requirements

A laboratory must meet all the pertinent provisions of these Guidelines in order to qualify for and maintain certification under these standards.

Section 3.4 Capability to Test for Five Classes of Drugs

To be certified, a laboratory must be capable of testing for at least the following five classes of drugs: marijuana, cocaine, opiates, amphetamines, and phencyclidine using the initial immunoassay and quantitative confirmatory GC/MS methods specified in these Guidelines. The certification program will be limited to the five classes of drugs (sections 2.1(a) (1) and (2)) and the methods (sections 2.4 (e) and (f)) specified in these Guidelines. The laboratory will be surveyed and performance tested only for these methods and drugs. Certification of a laboratory indicates that any test result reported by the laboratory for the Federal Government meets the standards in these Guidelines for the five classes of drugs using the methods specified. Certified laboratories must clearly inform all unregulated, private clients when their specimens are being tested using procedures that are different from those for which the laboratory is certified (i.e., testing specimens not under the Guidelines).

Section 3.5 Initial and Confirmatory Capability at Same Site

Certified laboratories shall have the capability, at the same laboratory site, of performing both initial immunoassays and confirmatory GC/MS tests (sections 2.4 (e) and (f)) for marijuana, cocaine, opiates, amphetamines, and phencyclidine and for any other drug or metabolite for which agency drug testing is authorized (sections 2.1(a) (1) and (2)). All positive initial test results shall be confirmed prior to reporting them.

Section 3.6 Personnel

Laboratory personnel shall meet the requirements specified in section 2.3 of these Guidelines. These Guidelines establish the exclusive standards for qualifying or certifying those laboratory personnel involved in urinalysis testing whose functions are prescribed by these Guidelines. A certification of a laboratory under these Guidelines shall be a determination that these qualification requirements have been met.

Section 3.7 Quality Assurance and Quality Control

Drug testing laboratories shall have a quality assurance program which encompasses all aspects of the testing process, including but not limited to specimen acquisition, chain of custody, security and reporting of results, initial and confirmatory testing, and validation of analytical procedures. Quality control procedures shall be designed, implemented, and reviewed to monitor the conduct of each step of the process of testing for drugs as specified in section 2.5 of these Guidelines.

Section 3.8 Security and Chain of Custody

Laboratories shall meet the security and chain of custody requirements provided in section 2.4(a).

Section 3.9 One-Year Storage for Confirmed Positives

All confirmed positive specimens shall be retained in accordance with the provisions of section 2.4(h) of these Guidelines.

Section 3.10 Documentation

The laboratory shall maintain and make available for at least 2 years documentation in accordance with the specifications in section 2.4(m).

Section 3.11 Reports

The laboratory shall report test results in accordance with the specifications in section 2.4(g).

Section 3.12 Certification

(a) *General.* The Secretary may certify any laboratory that meets the standards in these Guidelines to conduct urine drug testing. In addition, the Secretary may consider to be certified any laboratory that is certified by an HHS-recognized certification program in accordance with these Guidelines.

(b) *Criteria.* In determining whether to certify a laboratory or to accept the certification of an HHS-recognized certification program in accordance with these Guidelines, the Secretary shall consider the following criteria:

(1) The adequacy of the laboratory facilities;

(2) The expertise and experience of the laboratory personnel;

(3) The excellence of the laboratory's quality assurance/ quality control program;

(4) The performance of the laboratory on any performance tests;

(5) The laboratory's compliance with standards as reflected in any laboratory inspections; and

(6) Any other factors affecting the reliability and accuracy of drug tests and reporting done by the laboratory.

(c) *Corrective Action by Certified Laboratories.* A laboratory must meet all the pertinent provisions of these Guidelines in order to qualify for and maintain certification. The Secretary has broad discretion to take appropriate action to ensure the full reliability and accuracy of drug testing and reporting, to resolve problems related to drug testing, and to enforce all standards set forth in these Guidelines. The Secretary shall have the authority to issue directives to any laboratory suspending the use of certain analytical procedures when necessary to protect the integrity of the testing process; ordering any laboratory to undertake corrective actions to respond to material deficiencies identified by an inspection or through proficiency testing; ordering any laboratory to send aliquots of urine specimens to another laboratory for retesting when necessary to ensure the accuracy of testing under these Guidelines; ordering the review of results for specimens tested under the Guidelines for private sector clients to the extent necessary to ensure the full reliability of drug testing for Federal agencies; and ordering any other action necessary to address deficiencies in drug testing, analysis, specimen collection, chain of custody, reporting of results, or any other aspect of the certification program.

Section 3.13 Revocation

(a) *General.* The Secretary shall revoke certification of any laboratory certified under these provisions or accept revocation by an HHS-recognized certification program in accordance with these Guidelines if the Secretary determines that revocation is necessary to ensure the full reliability and accuracy of drug tests and the accurate reporting of test results.

(b) *Factors to Consider.* The Secretary shall consider the following factors in determining whether revocation is necessary:

(1) Unsatisfactory performance in analyzing and reporting the results of drug tests; for example, a false positive error in reporting the results of an employee's drug test;

(2) Unsatisfactory participation in performance evaluations or laboratory inspections;

(3) A material violation of a certification standard or a contract term or other condition imposed on the laboratory by a Federal agency using the laboratory's services;

(4) Conviction for any criminal offense committed as an incident to operation of the laboratory; or

(5) Any other cause which materially affects the ability of the laboratory to ensure the full reliability and accuracy of drug tests and the accurate reporting of results.

(c) *Period and Terms.* The period and terms of revocation shall be determined by the Secretary and shall depend upon the facts and circumstances of the revocation and the need to ensure accurate and reliable drug testing of Federal employees.

Section 3.14 Suspension

(a) *Criteria.* Whenever the Secretary has reason to believe that revocation may be required and that immediate action is necessary in order to protect the interests of the United States and its employees, the Secretary may immediately suspend a laboratory's certification to conduct urine drug testing for Federal agencies. The Secretary may also accept suspension of certification by an HHS-recognized certification program in accordance with these Guidelines.

(b) *Period and Terms.* The period and terms of suspension shall be determined by the Secretary and shall depend upon the facts and circumstances of the suspension and the need to ensure accurate and reliable drug testing of Federal employees.

Section 3.15 Notice

(a) *Written Notice.* When a laboratory is suspended or the Secretary seeks to revoke certification, the Secretary shall immediately serve the laboratory with written notice of the suspension or proposed revocation by facsimile mail, personal service, or registered or certified mail, return receipt requested. This notice shall state the following:

(1) The reasons for the suspension or proposed revocation;

(2) The terms of the suspension or proposed revocation; and

(3) The period of suspension or proposed revocation.

(b) *Opportunity for Informal Review.* The written notice shall state that the laboratory will be afforded an opportunity for an informal review of the suspension or proposed revocation if it so requests in writing within 30 days of the date the laboratory received the notice, or if expedited review is requested, within 3 days of the date the laboratory received the notice. Subpart D contains detailed procedures to be followed for an informal review of the suspension or proposed revocation.

(c) *Effective Date.* A suspension shall be effective immediately. A proposed revocation shall be effective 30 days after written notice is given or, if review is requested, upon the reviewing official's decision to uphold the proposed revocation. If the reviewing official decides not to uphold the suspension or proposed revocation, the suspension shall terminate immediately and any proposed revocation shall not take effect.

(d) *HHS-Recognized Certification Program.* The Secretary's responsibility under this section may be carried out by an HHS-recognized certification program in accordance with these Guidelines.

(e) *Public Notice.* The Secretary will publish in the **Federal Register** the name, address, and telephone number of any laboratory that has its certification suspended or revoked under section 3.13 or section 3.14, respectively, and the name of any laboratory which has its suspension lifted. The Secretary shall provide to any member of the public upon request the written notice provided to a laboratory that has its certification suspended or revoked, as well as the reviewing official's written decision which upholds or denies the suspension or proposed revocation under the procedures of subpart D

Section 3.16 Recertification

Following revocation, a laboratory may apply for recertification. Unless otherwise provided by the Secretary in

the notice of revocation under section 3.13(a) or the reviewing official's decision under section 4.9(e) or 4.14(a), a laboratory which has had its certification revoked may apply for certification in accordance with this section. In order to be certified, the laboratory shall meet the criteria of section 3.12(b), as well as all other requirements of these Guidelines, including the successful participation in three cycles of performance testing (sections 3.17(b) and 3.19(a)) and a laboratory inspection (sections 3.2(b) and 3.20). Once certified, the laboratory must undergo a second inspection within three months, after which biannual inspections will be required to maintain certification (section 3.2(b)), as well as participation in the quarterly performance testing program (sections 3.1(b) and 3.17(c)).

Section 3.17 Performance Testing (PT) Requirement for Certification

(a) *An Initial and Continuing Requirement.* The PT program is a part of the initial evaluation of a laboratory seeking certification (both PT and laboratory inspection are required) and of the continuing assessment of laboratory performance necessary to maintain this certification.

(b) *Three Initial Cycles Required.* Successful participation in three cycles of testing shall be required before a laboratory is eligible to be considered for certification.

(c) *Four Challenges Per Year.* After certification, laboratories shall be challenged with at least 10 PT samples on a quarterly cycle.

(d) *Laboratory Procedures Identical for Performance Test and Routine Employee Specimens.* All procedures associated with the handling and testing of the PT samples by the laboratory shall to the greatest extent possible be carried out in a manner identical to that applied to routine laboratory specimens, unless otherwise specified.

(e) *Blind Performance Test.* Any certified laboratory shall be subject to blind PT samples (see section 2.5(d)). Performance on blind PT samples shall be at the same level as for the open or non-blind PT samples.

(f) *Reporting—Open Performance Test.* The laboratory shall report results of open PT samples to the certifying organization in the same manner as specified in section 2.4(g)(2) for routine specimens.

Section 3.18 Performance Test Samples Composition

(a) *Description of the Drugs.* PT samples shall contain those drugs and metabolites which each certified laboratory must be prepared to assay in concentration ranges that allow detection of the analytes by commonly used immunoassay screening techniques. These levels are generally in the range of concentrations which might be expected in the urine of recent drug users. For some drug analytes, the sample composition will consist of the parent drug as well as major metabolites. In some cases, more than one drug class may be included in one sample, but generally no more than two drugs will be present in any one sample in order to imitate the type of specimen which a laboratory normally encounters. For any particular PT cycle, the actual composition of kits going to different laboratories will vary but, within any annual period, all laboratories participating will have analyzed the same total set of samples.

(b) *Concentrations.* PT samples (as differentiated from blind quality control samples) shall be spiked with the drug classes and their metabolites that are required for certification (marijuana, cocaine, opiates, amphetamines, and phencyclidine) with concentration levels set by, but not limited to, one of the following schema: (1) At least 20 percent above the cutoff limit for either the initial assay or the confirmatory test, depending on which is to be evaluated; (2) below the cutoff limit as retest samples (for GC/MS quantitation); and, (3) below the cutoff limit for special purposes. Some PT samples may be identified for GC/MS assay only (retest samples). Blanks shall contain less than 2 ng/mL of any of the target drugs. These concentration and drug types may be changed periodically in response to factors such as changes in detection technology and patterns of drug use. Finally, PT samples may be constituted with interfering substances.

Section 3.19 Evaluation of Performance Testing

(a) *Initial Certification.* (1) An applicant laboratory shall not report any false positive result during PT for initial certification. Any false positive will automatically disqualify a laboratory from further consideration.

(2) An applicant laboratory shall maintain an overall grade level of 90 percent for the three cycles of PT required for initial certification, i.e., it must correctly identify and confirm 90 percent of the total drug challenges. Any laboratory which achieves a score on any one cycle of the initial certification such that it can no longer achieve a total grade of 90 percent over the three consecutive PT cycles will be immediately disqualified from further consideration.

(3) An applicant laboratory shall obtain quantitative values for at least 80 percent of the total drug challenges which are ±20 percent or ±2 standard deviations (whichever range is larger) of the calculated reference group mean. Failure to achieve 80 percent will result in disqualification.

(4) An applicant laboratory shall not obtain any quantitative values that differ by more than 50 percent from the calculated reference group mean. Any quantitative values that differ by more than 50 percent will result in disqualification.

(5) For any individual drug, an applicant laboratory shall successfully detect and quantitate in accordance with paragraphs (a)(2), (a)(3), and (a)(4) of this section at least 50 percent of the total drug challenges. Failure to successfully quantitate at least 50 percent of the challenges for any individual drug will result in disqualification.

(b) *Ongoing Testing of Certified Laboratories.* (1) *False Positives and Procedures for Dealing with Them.* No false drug identifications are acceptable for any drugs for which a laboratory offers service. Under some circumstances a false positive test may result in suspension or revocation of certification. The most serious false positives are by drug class, such as reporting THC in a blank specimen or reporting cocaine in a specimen known to contain only opiates. Misidentifications within a class (e.g., codeine for morphine) are also false positives which are unacceptable in an appropriately controlled laboratory, but they are clearly less serious errors than misidentification of a class. The following procedures shall be followed when dealing with a false positive:

(i) The agency detecting a false positive error shall immediately notify the laboratory and the Secretary of any such error.

(ii) The laboratory shall provide the Secretary with a written explanation of the reasons for the error within 5 working days. If required by paragraph (b)(1)(v) below, this explanation shall include the submission of all quality control data from the batch of specimens that included the false positive specimen.

(iii) The Secretary shall review the laboratory's explanation within 5 working days and decide what further action, if any, to take.

(iv) If the error is determined to be an administrative error (clerical, sample mixup, etc.), the Secretary may direct the laboratory to take corrective action to minimize the occurrence of the particular error in the future and, if

there is reason to believe the error could have been systematic, may require the laboratory to review and reanalyze previously run specimens.

(v) If the error is determined to be a technical or methodological error, the laboratory shall submit to the Secretary all quality control data from the batch of specimens which included the false positive specimen. In addition, the laboratory shall retest all specimens analyzed positive by the laboratory from the time of final resolution of the error back to the time of the last satisfactory performance test cycle. This retesting shall be documented by a statement signed by the laboratory's responsible person. Depending on the type of error which caused the false positive, this retesting may be limited to one analyte or may include any drugs a laboratory certified under these Guidelines must be prepared to assay. The laboratory shall immediately notify the agency if any result on a specimen that has been retested must be corrected because the criteria for a positive are not satisfied. The Secretary may suspend or revoke the laboratory's certification for all drugs or for only the drug or drug class in which the error occurred. However, if the case is one of a less serious error for which effective corrections have already been made, thus reasonably assuring that the error will not occur again, the Secretary may decide to take no further action.

(vi) During the time required to resolve the error, the laboratory shall remain certified but shall have a designation indicating that a false positive result is pending resolution. If the Secretary determines that the laboratory's certification must be suspended or revoked, the laboratory's official status will become "Suspended" or "Revoked" until the suspension or revocation is lifted or any recertification process is complete.

(2) *Requirement to Identify and Confirm 90 Percent of Total Drug Challenges.* In order to remain certified, laboratories must successfully complete four cycles of PT per year. Failure of a certified laboratory to maintain a grade of 90 percent over the span of two consecutive PT cycles, i.e., to identify 90 percent of the total drug challenges and to correctly confirm 90 percent of the total drug challenges, may result in suspension or revocation of certification.

(3) *Requirement to Quantitate 80 Percent of Total Drug Challenges at ±20 Percent or ±2 Standard Deviations.* Quantitative values obtained by a certified laboratory for at least 80 percent of the total drug challenges must be ±20 percent or ±2 standard deviations (whichever range is larger) of the appropriate reference or peer group mean as measured over two consecutive PT cycles.

(4) *Requirement to Quantitate Within 50 Percent of Calculated Reference Group Mean.* After achieving certification a laboratory is permitted one quantitative result differing by more than 50% from the target value within two consecutive cycles of PT. More than one error of this type within two consecutive PT cycles may result in a suspension or proposed revocation.

(5) *Requirement to Successfully Detect and Quantitate 50 Percent of the Total Drug Challenges for Any Individual Drug.* For any individual drug, a certified laboratory must successfully detect and quantitate in accordance with paragraphs (b)(2),(b)(3), and (b)(4) of this section at least 50 percent of the total drug challenges.

(6) *Procedures When Requirements in Paragraphs (b)(2)—(b)(5) of this Section Are Not Met.* If a certified laboratory fails to maintain a grade of 90 percent over the span of two consecutive PT cycles after initial certification as required by paragraph (b)(2) of this section or if it fails to successfully quantitate results as required by paragraphs (b)(3),(b)(4), or (b)(5) of this section, the laboratory shall be immediately informed that its performance fell under the 90 percent level or that it failed to quantitate test results successfully and how it failed to quantitate successfully. The laboratory shall be allowed 5 working days in which to provide any explanation for its unsuccessful performance, including administrative error or methodological error, and evidence that the source of the poor performance has been corrected. The Secretary may revoke or suspend the laboratory's certification or take no further action, depending on the seriousness of the errors and whether there is evidence that the source of the poor performance has been corrected and that current performance meets the requirements for a certified laboratory under these Guidelines. The Secretary may require that additional performance tests be carried out to determine whether the source of the poor performance has been removed. If the Secretary determines to suspend or revoke the laboratory's certification, the laboratory's official status will become "Suspended" or "Revoked" until the suspension or revocation is lifted or until any recertification process is complete.

(c) *80 Percent of Participating Laboratories Must Detect Drug.* A laboratory's performance shall be evaluated for all samples for which drugs were spiked at concentrations above the specified performance test level unless the overall response from participating laboratories indicates that less than 80 percent of them were able to detect a drug.

(d) *Participation Required.* Failure to participate in a PT cycle or to participate satisfactorily may result in suspension or revocation of certification.

Section 3.20 Inspections

(a) *Frequency.* Prior to laboratory certification under these Guidelines and at least twice a year after certification, a team of three qualified inspectors, at least two of whom have been trained as laboratory inspectors, shall conduct an on-site inspection of laboratory premises. Inspections shall document the overall quality of the laboratory setting for the purposes of certification to conduct urine drug testing. Inspection reports may also contain recommendations to the laboratory to correct deficiencies noted during the inspection.

(b) *Inspectors.* The Secretary shall establish criteria for the selection of inspectors to ensure high quality, unbiased, and thorough inspections. The inspectors shall perform inspections consistent with the guidance provided by the Secretary. Inspectors shall document the overall quality of the laboratory's drug testing operation.

(c) *Inspection Performance.* The laboratory's operation shall be consistent with good forensic laboratory practice and shall be in compliance with these Guidelines. It is the laboratory's responsibility to correct deficiencies identified during the inspection and to have the knowledge, skill, and expertise to correct deficiencies consistent with good forensic laboratory practice. Consistent with sections 3.13 and 3.14, deficiencies identified at inspections may be the basis for suspending or revoking a laboratory's certification.

Section 3.21 Results of Inadequate Performance

Failure of a laboratory to comply with any aspect of these Guidelines may lead to revocation or suspension of certification as provided in sections 3.13 and 3.14 of these Guidelines.

Section 3.22 Listing of Certified Laboratories

A **Federal Register** listing of laboratories certified by HHS will be updated and published periodically. Laboratories which are in the applicant stage of HHS certification are *not* to be considered as meeting the minimum requirements in these Guidelines. A laboratory is not certified until HHS has sent the laboratory an HHS letter of certification.

Subpart D—Procedures for Review of Suspension or Proposed Revocation of a Certified Laboratory

Section 4.1 Applicability

These procedures apply when:

(a) The Secretary has notified a laboratory in writing that its certification to perform urine drug testing under these Mandatory Guidelines for Federal Workplace Drug Testing Programs has been suspended or that the Secretary proposes to revoke such certification.

(b) The laboratory has, within 30 days of the date of such notification or within 3 days of the date of such notification when seeking an expedited review of a suspension, requested in writing an opportunity for an informal review of the suspension or proposed revocation.

Section 4.2 Definitions

Appellant: Means the laboratory which has been notified of its suspension or proposed revocation of its certification to perform urine drug testing and has requested an informal review thereof.

Respondent: Means the person or persons designated by the Secretary in implementing these Guidelines (currently the National Laboratory Certification Program is located in the Division of Workplace Programs, Substance Abuse and Mental Health Services Administration).

Reviewing Official: Means the person or persons designated by the Secretary who will review the suspension or proposed revocation. The reviewing official may be assisted by one or more of his or her employees or consultants in assessing and weighing the scientific and technical evidence and other information submitted by the appellant and respondent on the reasons for the suspension and proposed revocation.

Section 4.3 Limitation on Issues Subject to Review

The scope of review shall be limited to the facts relevant to any suspension or proposed revocation, the necessary interpretations of those facts, the Mandatory Guidelines for Federal Workplace Drug Testing Programs, and other relevant law. The legal validity of the Mandatory Guidelines shall not be subject to review under these procedures.

Section 4.4 Specifying Who Represents the Parties

The appellant's request for review shall specify the name, address, and phone number of the appellant's representative. In its first written submission to the reviewing official, the respondent shall specify the name, address, and phone number of the respondent's representative.

Section 4.5 The Request for Informal Review and the Reviewing Official's Response

(a) Within 30 days of the date of the notice of the suspension or proposed revocation, the appellant must submit a written request to the reviewing official seeking review, unless some other time period is agreed to by the parties. A copy must also be sent to the respondent. The request for review must include a copy of the notice of suspension or proposed revocation, a brief statement of why the decision to suspend or propose revocation is wrong, and the appellant's request for an oral presentation, if desired.

(b) Within 5 days after receiving the request for review, the reviewing official will send an acknowledgment and advise the appellant of the next steps. The reviewing official will also send a copy of the acknowledgment to the respondent.

Section 4.6 Abeyance Agreement

Upon mutual agreement of the parties to hold these procedures in abeyance, the reviewing official will stay these procedures for a reasonable time while the laboratory attempts to regain compliance with the Mandatory Guidelines for Federal Workplace Drug Testing Programs or the parties otherwise attempt to settle the dispute. As part of an abeyance agreement, the parties can agree to extend the time period for requesting review of the suspension or proposed revocation. If abeyance begins after a request for review has been filed, the appellant shall notify the reviewing official at the end of the abeyance period advising whether the dispute has been resolved. If the dispute has been resolved, the request for review will be dismissed. If the dispute has not been resolved, the review procedures will begin at the point at which they were interrupted by the abeyance agreement with such modifications to the procedures as the reviewing official deems appropriate.

Section 4.7 Preparation of the Review File and Written Argument

The appellant and the respondent each participate in developing the file for the reviewing official and in submitting written arguments. The procedures for development of the review file and submission of written argument are:

(a) *Appellant's Documents and Brief.* Within 15 days after receiving the acknowledgment of the request for review, the appellant shall submit to the reviewing official the following (with a copy to the respondent):

(1) A review file containing the documents supporting appellant's argument, tabbed and organized chronologically, and accompanied by an index identifying each document. Only essential documents should be submitted to the reviewing official.

(2) A written statement, not to exceed 20 double-spaced pages, explaining why respondent's decision to suspend or propose revocation of appellant's certification is wrong (appellant's brief).

(b) *Respondent's Documents and Brief.* Within 15 days after receiving a copy of the acknowledgment of the request for review, the respondent shall submit to the reviewing official the following (with a copy to the appellant):

(1) A review file containing documents supporting respondent's decision to suspend or revoke appellant's certification to perform urine drug testing, tabbed and organized chronologically, and accompanied by an index identifying each document. Only essential documents should be submitted to the reviewing official.

(2) A written statement, not exceeding 20 double-spaced pages in length, explaining the basis for suspension or proposed revocation (respondent's brief).

(c) *Reply Briefs.* Within 5 days after receiving the opposing party's submission, or 20 days after receiving acknowledgment of the request for review, whichever is later, each party may submit a short reply not to exceed 10 double-spaced pages.

(d) *Cooperative Efforts.* Whenever feasible, the parties should attempt to develop a joint review file.

(e) *Excessive Documentation.* The reviewing official may take any appropriate step to reduce excessive documentation, including the return of or refusal to consider documentation found to be irrelevant, redundant, or unnecessary.

Section 4.8 Opportunity for Oral Presentation

(a) *Electing Oral Presentation.* If an opportunity for an oral presentation is desired, the appellant shall request it at the time it submits its written request for review to the reviewing official. The reviewing official will grant the request if the official determines that the

decision-making process will be substantially aided by oral presentations and arguments. The reviewing official may also provide for an oral presentation at the official's own initiative or at the request of the respondent.

(b) *Presiding Official.* The reviewing official or designee will be the presiding official responsible for conducting the oral presentation.

(c) *Preliminary Conference.* The presiding official may hold a prehearing conference (usually a telephone conference call) to consider any of the following: simplifying and clarifying issues; stipulations and admissions; limitations on evidence and witnesses that will be presented at the hearing; time allotted for each witness and the hearing altogether; scheduling the hearing; and any other matter that will assist in the review process. Normally, this conference will be conducted informally and off the record; however, the presiding official may, at his or her discretion, produce a written document summarizing the conference or transcribe the conference, either of which will be made a part of the record.

(d) *Time and Place of Oral Presentation.* The presiding official will attempt to schedule the oral presentation within 30 days of the date appellant's request for review is received or within 10 days of submission of the last reply brief, whichever is later. The oral presentation will be held at a time and place determined by the presiding official following consultation with the parties.

(e) *Conduct of the Oral Presentation.*

(1) *General.* The presiding official is responsible for conducting the oral presentation. The presiding official may be assisted by one or more of his or her employees or consultants in conducting the oral presentation and reviewing the evidence. While the oral presentation will be kept as informal as possible, the presiding official may take all necessary steps to ensure an orderly proceeding.

(2) *Burden of Proof/Standard of Proof.* In all cases, the respondent bears the burden of proving by a preponderance of the evidence that its decision to suspend or propose revocation is appropriate. The appellant, however, has a responsibility to respond to the respondent's allegations with evidence and argument to show that the respondent is wrong.

(3) *Admission of Evidence.* The rules of evidence do not apply and the presiding official will generally admit all testimonial evidence unless it is clearly irrelevant, immaterial, or unduly repetitious. Each party may make an opening and closing statement, may present witnesses as agreed upon in the prehearing conference or otherwise, and may question the opposing party's witnesses. Since the parties have ample opportunity to prepare the review file, a party may introduce additional documentation during the oral presentation only with the permission of the presiding official. The presiding official may question witnesses directly and take such other steps necessary to ensure an effective and efficient consideration of the evidence, including setting time limitations on direct and cross-examinations.

(4) *Motions.* The presiding official may rule on motions including, for example, motions to exclude or strike redundant or immaterial evidence, motions to dismiss the case for insufficient evidence, or motions for summary judgment. Except for those made during the hearing, all motions and opposition to motions, including argument, must be in writing and be no more than 10 double-spaced pages in length. The presiding official will set a reasonable time for the party opposing the motion to reply.

(5) *Transcripts.* The presiding official shall have the oral presentation transcribed and the transcript shall be made a part of the record. Either party may request a copy of the transcript and the requesting party shall be responsible for paying for its copy of the transcript.

(f) *Obstruction of Justice or Making of False Statements.* Obstruction of justice or the making of false statements by a witness or any other person may be the basis for a criminal prosecution under 18 U.S.C. 1505 or 1001.

(g) *Post-hearing Procedures.* At his or her discretion, the presiding official may require or permit the parties to submit post-hearing briefs or proposed findings and conclusions. Each party may submit comments on any major prejudicial errors in the transcript.

Section 4.9 Expedited Procedures for Review of Immediate Suspension

(a) *Applicability.* When the Secretary notifies a laboratory in writing that its certification to perform urine drug testing has been immediately suspended, the appellant may request an expedited review of the suspension and any proposed revocation. The appellant must submit this request in writing to the reviewing official within 3 days of the date the laboratory received notice of the suspension. The request for review must include a copy of the suspension and any proposed revocation, a brief statement of why the decision to suspend and propose revocation is wrong, and the appellant's request for an oral presentation, if desired. A copy of the request for review must also be sent to the respondent.

(b) *Reviewing Official's Response.* As soon as practicable after the request for review is received, the reviewing official will send an acknowledgment with a copy to the respondent.

(c) *Review File and Briefs.* Within 7 days of the date the request for review is received, but no later than 2 days before an oral presentation, each party shall submit to the reviewing official the following: (1) a review file containing essential documents relevant to the review, tabbed, indexed, and organized chronologically, and (2) a written statement, not to exceed 20 double-spaced pages, explaining the party's position concerning the suspension and any proposed revocation. No reply brief is permitted.

(d) *Oral Presentation.* If an oral presentation is requested by the appellant or otherwise granted by the reviewing official, the presiding official will attempt to schedule the oral presentation within 7–10 days of the date of appellant's request for review at a time and place determined by the presiding official following consultation with the parties. The presiding official may hold a pre-hearing conference in accordance with section 4.8(c) and will conduct the oral presentation in accordance with the procedures of sections 4.8 (e), (f), and (g).

(e) *Written Decision.* The reviewing official shall issue a written decision upholding or denying the suspension or proposed revocation and will attempt to issue the decision within 7–10 days of the date of the oral presentation or within 3 days of the date on which the transcript is received or the date of the last submission by either party, whichever is later. All other provisions set forth in section 4.14 will apply.

(f) *Transmission of Written Communications.* Because of the importance of timeliness for these expedited procedures, all written communications between the parties and between either party and the reviewing official shall be by facsimile or overnight mail.

Section 4.10 Ex parte Communications

Except for routine administrative and procedural matters, a party shall not communicate with the reviewing or presiding official without notice to the other party.

Section 4.11 Transmission of Written Communications by Reviewing Official and Calculation of Deadlines

(a) Because of the importance of a timely review, the reviewing official should normally transmit written communications to either party by facsimile or overnight mail in which case the date of transmission or day following mailing will be considered the date of receipt. In the case of communications sent by regular mail, the date of receipt will be considered 3 days after the date of mailing.

(b) In counting days, include Saturdays, Sundays, and holidays. However, if a due date falls on a Saturday, Sunday, or Federal holiday, then the due date is the next Federal working day.

Section 4.12 Authority and Responsibilities of Reviewing Official

In addition to any other authority specified in these procedures, the reviewing official and the presiding official, with respect to those authorities involving the oral presentation, shall have the authority to issue orders: examine witnesses; take all steps necessary for the conduct of an orderly hearing; rule on requests and motions; grant extensions of time for good reasons; dismiss for failure to meet deadlines or other requirements; order the parties to submit relevant information or witnesses; remand a case for further action by the respondent; waive or modify these procedures in a specific case, usually with notice to the parties; reconsider a decision of the reviewing official where a party promptly alleges a clear error of fact or law; and to take any other action necessary to resolve disputes in accordance with the objectives of these procedures.

Section 4.13 Administrative Record

The administrative record of review consists of the review file; other submissions by the parties; transcripts or other records of any meetings, conference calls, or oral presentation; evidence submitted at the oral presentation; and orders and other documents issued by the reviewing and presiding officials.

Section 4.14 Written Decision

(a) *Issuance of Decision.* The reviewing official shall issue a written decision upholding or denying the suspension or proposed revocation. The decision will set forth the reasons for the decision and describe the basis therefor in the record. Furthermore, the reviewing official may remand the matter to the respondent for such further action as the reviewing official deems appropriate.

(b) *Date of Decision.* The reviewing official will attempt to issue his or her decision within 15 days of the date of the oral presentation, the date on which the transcript is received, or the date of the last submission by either party, whichever is later. If there is no oral presentation, the decision will normally be issued within 15 days of the date of receipt of the last reply brief. Once issued, the reviewing official will immediately communicate the decision to each party.

(c) *Public Notice.* If the suspension and proposed revocation are upheld, the revocation will become effective immediately and the public will be notified by publication of a notice in the **Federal Register**. If the suspension and proposed revocation are denied, the revocation will not take effect and the suspension will be lifted immediately. Public notice will be given by publication in the **Federal Register**.

Section 4.15 Court Review of Final Administrative Action; Exhaustion of Administrative Remedies

Before any legal action is filed in court challenging the suspension or proposed revocation, respondent shall exhaust administrative remedies provided under this subpart, unless otherwise provided by Federal Law. The reviewing official's decision, under section 4.9(e) or 4.14(a), constitutes final agency action and is ripe for judicial review as of the date of the decision.

Part VI

Department of Transportation

Federal Aviation Administration

14 CFR Part 189

Use of Federal Aviation Administration Communications Systems; Proposed Rule

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 189

[Docket No. 27778; Notice No. 94–17]

RIN 2120–AE68

Use of Federal Aviation Administration Communications Systems

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FAA proposes to modify part 189 of the Federal Aviation Regulations (FAR) to remove outdated fee provisions and services designated in the rule. Due to enhanced commercial communications the FAA has determined that the need to accept (and charge fees for) messages that address such topics as lost baggage, hotel reservations, crew assignments, and other commercial matters (Class B messages) no longer exists. The proposed change is only intended to remove the outdated fee provisions and services related to Class B messages; it is not intended to affect the FAA's transmission of messages relating to flight safety, flight plans, and weather (Class A messages) to alter the current practice of relaying messages received from an FAA FSS outside of the 48 contiguous States and the District of Columbia, or received from a foreign station of the Aeronautical Fixed Telecommunications Network (AFTN).

DATES: Comments must be received on or before September 7, 1994.

ADDRESSES: Comments on this notice should be mailed, in triplicate, to: Federal Aviation Administration, Office of Chief Counsel, Attention: Rules Docket (AGC–200), Docket No. 27778, 800 Independence Avenue, SW., Washington, DC 20591. Comments delivered must be marked Docket No. 27778. Comments may be examined in room 915G weekdays between 8:30 a.m. and 5 p.m., except on Federal holidays.

FOR FURTHER INFORMATION CONTACT: Ellen E. Crum, Air Traffic Rules Branch, ATP–230, Airspace-Rules and Aeronautical Information Division, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591, telephone (202) 267–8783.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments relating to the environmental, energy, federalism, or economic impact that might result from adopting the proposals in this notice are also invited. Substantive comments should be accompanied by cost estimates. Comments should identify the regulatory docket number and should be submitted in triplicate to the Rules Docket address specified above. All comments received on or before the specified closing date for comments will be considered by the Administrator before taking action on this proposed rulemaking. The proposals contained in this notice may be changed in light of comments received. All comments received will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket. Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this notice must include a preaddressed, stamped postcard on which the following statement is made: "Comments to Docket No. 27778." The postcard will be date stamped and mailed to the commenter.

Availability of NPRM's

Any person may obtain a copy of this NPRM by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Inquiry Center, APA–200, 800 Independence Avenue, SW., Washington, DC 20591, or by calling (202) 267–3485. Communications must identify the notice number of this NPRM.

Persons interested in being placed on the mailing list for future NPRM's should request from the above office a copy of Advisory Circular No. 11–2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

Background

The predecessor of part 189, part 612—Aeronautical Fixed Communications, published in the August 25, 1950, *Federal Register*, became effective on September 1, 1950. It specified that airlines could send certain messages over specific Government circuits. The specific circuits were established between several Pacific Islands. The United States government made this communications network available, at the users expense, to transmit Class B messages since there were few other communication systems established. Subsequent amendments to part 612 accomplished the following: (1) Expanded the service to any station serviced by the integrated international aeronautical network (now AFTN); (2) defined the specific messages that would be accepted free of charge and those for which fees would be charged, (3) established the priority given to two categories of messages; and (4) limited the Government's liability in the handling of all messages accepted under these provisions.

Concurrent with the evolution of the above provisions, similar International Civil Aviation Organization (ICAO) procedures were developed. Beginning in 1951, ICAO procedures were implemented whereby each country would: (1) accept, free of charge, messages that were meant for "* * * ensuring safety of air navigation and regularity of air traffic between aeronautical fixed stations of the different States * * *;" (2) accept other messages that did not fall in the above category provided there was an "* * * absence of rapid commercial telecommunications * * *;" and (3) determine the acceptability of messages.

Communication systems and the air traffic control system have improved greatly in the last several decades. Consequently, users have elected to transmit Class B messages through communications systems other than the FAA's.

In the past, the FAA has considered the need for, and removal of, part 189 of the FAR. In 1981, all FAA Regional offices were queried regarding what operational effect, if any, the complete removal of part 189 would have. At that time, only the Alaska region objected to this action. The Anchorage International Flight Service Station (IFSS) handled a high volume of Class B messages, and the Region felt strongly that complete removal of part 189 would preclude them from continuing this service. In 1992, the Regions were again queried regarding their positions with respect to the proposed amendment to part 189. All of the Regions concurred with this proposal. Since the IFSS in Anchorage, Alaska was decommissioned in 1984, aircraft that had previously utilized its communications services are not using a private communications company; therefore, the prior concerns of the Alaska Region are no longer relevant.

Current Requirements

Part 189 stipulates that domestic FSS's may accept for transmission only messages related to distress and distress traffic, safety of human life, flight safety

(including air traffic control messages), weather, aeronautical administration, and Notices to Airmen (NOTAM's) (Class A messages). The acceptance and transmission of these messages is completed without charge. The FAA is not proposing to change this service.

In addition to accepting Class A messages, IFSS's, and those FSS's located outside the 48 contiguous States and the District of Columbia, may accept messages originated by and addressed to aircraft operating agencies, or their representatives, that directly bear on the efficient and economic conduct of day to day operations. These messages (Class B messages) include such things as new or revised passenger or cargo rates and train or hotel reservations. This service is provided for a fee of 25 cents for each group of 10 words. FSS acceptance of these messages is based on the absence of adequate non-USA communication facilities.

In recent years additional means of communication have been developed, including satellites, computer networks, and cellular telephones. Therefore, the need to use the FAA AFTN system for the transmission of Class B messages has been greatly reduced. In January, 1988, a new communication network called National Airspace Data Interchange Network (NADIN) was commissioned in the United States. The capability to segregate Class B messages, which required payment from the user, was intentionally omitted from the system because the need for such a capability is negligible. However, part 189 was not amended when NADIN was commissioned; consequently it is outdated because it still contains provisions for the collection of fees for the transmission of Class B messages

Annex 10, an International Civil Aviation Organization (ICAO) document, provides guidance to FSS's for handling the operational aspects of international aeronautical telecommunications. The FAA relays Class A or B messages that were originally accepted for transmission at an FAA FSS outside of the 48 contiguous States and the District of Columbia that were received from a foreign station of the AFTN, and that in normal routing would require transit of the 48 contiguous States or the District of Columbia in order to reach an overseas address.

The Proposal

Elimination of Acceptance for Transmission of Class B Messages

Currently, only FAA IFSS's or FSS's located outside the 48 contiguous States and the District of Columbia may accept for transmission Class B messages when adequate commercial communication systems are not available. These facilities have not received any requests to accept Class B messages for transmission in over 5 years.

Communication systems technology has improved and expanded to include private data networks, private line services, telegrams, satellite communications, and cellular telephones. Therefore, the need to use FAA communications systems for transmission of Class B messages has diminished. This proposal will not restrict or deny users from utilizing the FAA communications systems for relay of Class B messages when other adequate communications systems are not available. Additionally, this proposal will align the regulations with current practices by eliminating the authority of FSS's to accept for transmission Class B messages without adversely affecting the users.

Elimination of Charges for Class B Messages

The current rule requires that fees be charged when Class B messages are accepted for transmission over FAA communication systems. However, current communication systems cannot segregate those kinds of messages that require a charge for transmission. In fact, over the last 5 years, there are no records of fees having been collected for transmission of Class B messages, nor does the FAA propose to resume this practice. This proposed change will remove from the regulation all references to the collection of fees and align the regulation with current practices.

International Civil Aviation Organization and Joint Aviation Regulations

In keeping with U.S. obligations under the Convention on International Civil Aviation, it is FAA policy to comply with International Civil Aviation Organization Standards and Recommended Practices (SARP) to the maximum extent practicable. For this notice, the FAA has reviewed the SARP of Annex 10. The FAA has determined that this proposal, if adopted, would not present any differences.

Economic Summary

This proposed rule would be neither a significant proposed regulatory action under Executive Order 12866 nor a significant proposed rule under the Department of Transportation Regulatory Policies and Procedures. The FAA does not expect the proposal to impose a significant cost on society (aviation industry, public, or government). The NPRM would not cause any diminution of safety.

The proposed amendment would delete rule language that allows the transfer of certain data. This data includes messages addressing topics such as: lost baggage, hotel reservations, and crew assignments on international or overseas flights (Class B data). At present, only IFSS's and FSS's located outside the 48 contiguous States and the District of Columbia have the authority and capability to accept such information for transmission. In practice, the FAA has not received requests for this service for several years

The FAA queried FSS's to determine the consequences of this action. The responses indicated that this action would not affect any air carrier operator Adequate private communications facilities are available to transmit Class B data and, in the past few years, international and overseas carriers have not chosen to avail themselves of the FAA service. However, the FAA recognizes a remote possibility that a future potential user of this service would not have the chance to do so.

The FAA does not expect the proposal to impose a significant cost, but requests comment and information on the potential use of this service and on any impact of eliminating the acceptance for transmission of Class B messages.

International Trade Impact Analysis

This proposed rule would have no effect on the sale of foreign products or services in the United States. The rule also does not affect the sale of United States products or services in foreign countries. Hence, all foreign and domestic trade would be equally unaffected by this proposed rule

Regulatory Flexibility Act Determination

The Regulatory Flexibility Act of 1980 (RFA) ensures that government regulations do not needlessly and disproportionately burden small businesses. The RFA requires the FAA to review each rule that may have "a significant economic impact on a substantial number of small entities."

The proposed amendment deletes rule language that allows the transfer of certain data because users have not requested this service for several years. Hence, the proposal would not impose a significant cost on a substantial number of small entities.

Federalism Implications

The regulations proposed herein will not have substantial effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this proposal would not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1980 (Pub. L. 96–511), there are no requirements for information collection associated with this proposed rule.

Conclusion

For the reasons discussed in the preamble, the FAA has determined that this proposed regulation is not a significant regulatory action under Executive Order 12866. In addition, the FAA certifies that this proposal, if adopted, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. This proposal is not considered significant under Order DOT 2100.5, Policies and Procedures for Simplification, Analysis, and Review of Regulations.

List of Subjects in 14 CFR Part 189

Air transportation, Telecommunications.

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend part 189 of the Federal Aviation Regulation (14 CFR part 189) as follows:

PART 189—USE OF FEDERAL AVIATION ADMINISTRATION COMMUNICATIONS SYSTEM

1. The authority citation for part 189 continues to read as follows:

Authority: Secs. 301(c), 305, 307(b), 313(a), and 314, 72 Stat. 744; 49 U.S.C. 1341(c), 1346, 1348(b), 1354(a), and 1355, and sec. 501, 65 Stat. 290; 31 U.S.C. 483a.

2. Section 189.1 is revised to read as follows:

§ 189.1 Scope.

This part describes the kinds of messages that may be transmitted or relayed by FAA Flight Service Stations.

3. Section 189.3 is amended by removing paragraph (b); revising this section heading and the introductory text of paragraph (a); adding a new paragraph (b) introductory text; redesignating paragraphs (a)(7) and (a)(8) as new paragraphs (b)(1) and (b)(2) respectively; and in newly designated (b)(2)(i), by revising the reference "(a)(7)" to "(b)(1)". The changes read as follows:

§ 189.3 Kinds of messages accepted or relayed.

(a) Flight Service Stations may accept for transmission over FAA communication systems any messages concerning international or overseas aircraft operations described in paragraphs (a)(1) through (6) of this section. In addition, Flight Service Stations may relay any message described in this section that was originally accepted for transmission at an FAA Flight Service Station outside the 48 contiguous States, or was received from a foreign station of the Aeronautical Fixed Telecommunications Network that, in normal routing, would require transit of the United States to reach an overseas address.

* * * * *

(b) The following messages may only be relayed through the FAA communications systems:

* * * * *

4. Section 189.5 is revised to read as follows:

§ 189.5 Limitation of liability.

The United States is not liable for any omission, error, or delay in transmitting or relaying, or for any failure to transmit or relay, any message accepted for transmission or relayed under this part, even if the omission, error, delay, or failure to transmit or relay is caused by the negligence of an employee of the United States.

§ 189.7 [Removed]

5. Section 189.7 is removed in its entirety.

Issued in Washington, DC, on June 1, 1994.

Harold W. Becker,

Manager, Airspace Rules & Aero. Information Division.

LIST OF PUBLIC LAWS

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's **List of Public Laws.**

Last List June 6, 1994

Order Now!

The United States Government Manual 1993/94

As the official handbook of the Federal Government, the *Manual* is the best source of information on the activities, functions, organization, and principal officials of the agencies of the legislative, judicial, and executive branches. It also includes information on quasi-official agencies and international organizations in which the United States participates.

Particularly helpful for those interested in where to go and who to see about a subject of particular concern is each agency's "Sources of Information" section, which provides addresses and telephone numbers for use in obtaining specifics on consumer activities, contracts and grants, employment, publications and films, and many other areas of citizen interest. The *Manual* also includes comprehensive name and agency/subject indexes.

Of significant historical interest is Appendix C, which lists the agencies and functions of the Federal Government abolished, transferred, or changed in name subsequent to March 4, 1933.

The *Manual* is published by the Office of the Federal Register, National Archives and Records Administration.

The authentic text behind the news . . .

The Weekly Compilation of **Presidential Documents**

This unique service provides up-to-date information on Presidential policies and announcements. It contains the full text of the President's public speeches, statements, messages to Congress, news conferences, and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. Each issue contains an Index of Contents and a Cumulative Index to Prior Issues.

Separate indexes are published periodically. Other features include lists of acts approved by the President, nominations submitted to the Senate, a checklist of White House press releases, and a digest of other Presidential activities and White House announcements.

Published by the Office of the Federal Register, National Archives and Records Administration.

NEW EDITION

Guide to Record Retention Requirements

in the Code of Federal Regulations (CFR)

Revised January 1, 1994

The GUIDE is a useful reference tool, compiled from agency regulations, designed to assist anyone with Federal recordkeeping obligations.

The various abstracts in the GUIDE tell the user (1) what records must be kept, (2) who must keep them, and (3) how long they must be kept.

The GUIDE is formatted and numbered to parallel the CODE OF FEDERAL REGULATIONS (CFR) for uniformity of citation and easy reference to the source document.

Compiled by the Office of the Federal Register, National Archives and Records Administration.

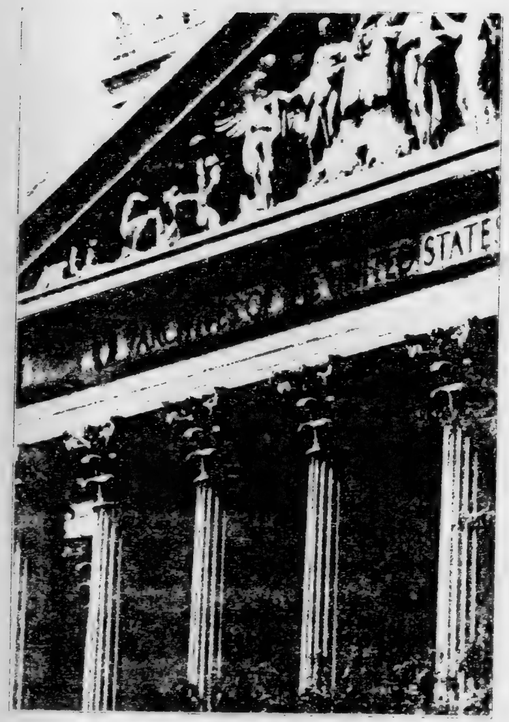
Would you like to know...



if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the *LSA (List of CFR Sections Affected)*, the *Federal Register Index*, or both.

LSA • List of CFR Sections Affected

The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected. $24.00 per year.

Federal Register Index

The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references. $22.00 per year.

Briefing on How To Use the Federal Register
For information on a briefing in Washington, DC, see announcement on the inside cover of this issue.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper, 24x microfiche and as an online database through *GPO Access*, a service of the U.S. Government Printing Office. The online database is updated by 6 a.m. each day the **Federal Register** is published. The database includes both text and graphics from Volume 59, Number 1 (January 2, 1994) forward. It is available on a Wide Area Information Server (WAIS) through the Internet and via asynchronous dial-in. The annual subscription fee for a single workstation is $375. Six-month subscriptions are available for $200 and one month of access can be purchased for $35. Discounts are available for multiple-workstation subscriptions. To subscribe, Internet users should telnet to wais.access.gpo.gov and login as newuser (all lower case); no password is required. Dial in users should use communications software and modem to call (202) 512–1661 and login as wais (all lower case); no password is required; at the second login prompt, login as newuser (all lower case); no password is required. Follow the instructions on the screen to register for a subscription for the **Federal Register** Online via *GPO Access*. For assistance, contact the *GPO Access* User Support Team by sending Internet e-mail to help@eids05.eids.gpo.gov, or a fax to (202) 512–1262, or by calling (202) 512–1530 between 7 a.m. and 5 p.m. Eastern time, Monday through Friday, except Federal holidays.

The annual subscription price for the **Federal Register** paper edition is $444, or $490 for a combined **Federal Register**, Federal Register Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the Federal Register Index and LSA is $403. Six month subscriptions are available for one-half the annual rate. The charge for individual copies in paper form is $6.00 for each issue, or $6.00 for each group of pages as actually bound; or $1.50 for each issue in microfiche form. All prices include regular domestic postage and handling. International customers please add 25% for foreign handling. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA or MasterCard. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250–7954.

There are no restrictions on the republication of material appearing in the **Federal Register.**

How To Cite This Publication: Use the volume number and the page number. Example: 59 FR 12345.

THE FEDERAL REGISTER
WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:

1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

WASHINGTON, DC

WHEN: June 23 at 9:00 am

WHERE: Office of the Federal Register
Conference Room, 800 North Capitol Street NW., Washington, DC (3 blocks north of Union Station Metro)

RESERVATIONS: 202–523–4538

Printed on recycled paper containing 100% post consumer waste

Rules and Regulations

Federal Register
Vol. 59, No. 111
Friday, June 10, 1994

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 93–ANE–21]

Alteration of VOR Federal Airway V–229; CT

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies Federal Airway V–229 located in Connecticut. This action is necessary to accommodate airspace users, reduce air traffic control (ATC) coordination and improve operations. The description for V–229 is also being changed to eliminate the exclusionary language regarding R–5002A, R–5002E, V–139 and V–308. In addition, this action will correct an inadvertent error in the airway description that reversed the Hartford true and magnetic radials.

EFFECTIVE DATE: 0901 u.t.c., August 18, 1994.

FOR FURTHER INFORMATION CONTACT: Patricia P. Crawford, Airspace and Obstruction Evaluation Branch (ATP–240), Airspace—Rules and Aeronautical Information Division, Air Traffic Rules and Procedures Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267–9255.

SUPPLEMENTARY INFORMATION:

History

On November 1, 1993, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to modify V–229 between the Hartford, CT, Very High Frequency Omnidirectional Range/Tactical Air Navigation (VORTAC) facility and the Gardner, MA, VORTAC. It also proposed to eliminate the exclusionary language regarding R–5002A, R–5002E, V–139 and V–308 (58 FR 58312). Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Except for editorial changes and the correction to the Hartford 040° radial, this amendment is the same as that proposed in the notice. Domestic VOR Federal airways are published in paragraph 6010(a) of FAA Order 7400.9A dated June 17, 1993, and effective September 16, 1993, which is incorporated by reference in 14 CFR 71.1 (58 FR 36298; July 6, 1993). The airway listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations modifies V–229 between the Hartford, CT, VORTAC and the Gardner, MA, VORTAC. Realigning the airway will accommodate the airspace users, reduce ATC coordination, and improve operations.

The airspace designation for V–229 presently excludes R–5002A, R–5002E, V–139 and V–308. These exclusions are being removed because the airspace boundaries of the restricted areas and the airways do not overlap the airspace of V–229. In addition, the Hartford true and magnetic radials used to define an intersection on V–229 were reversed. This action corrects the description to read "INT Hartford 040°T(053°M)."

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. app. 1348(a), 1354(a), 1510; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9A, Airspace Designations and Reporting Points, dated June 17, 1993, and effective September 16, 1993, is amended as follows:

Paragraph 6010(a)—Domestic VOR Federal Airways

* * * * *

V–229 [Revised]

From Patuxent, MD; INT Patuxent 036° and Atlantic City, NJ, 236° radials; Atlantic City; INT Atlantic City 055° and Colts Neck, NJ, 181° radials; INT Colts Neck 181° and Kennedy, NY, 209° radials; Kennedy; INT Kennedy 053° and Bridgeport, CT, 200° radials; Bridgeport; Hartford, CT; INT Hartford 040° and Gardner, MA, 195° radials; Gardner; Keene, NH; INT Keene 336° and Burlington, VT, 160° radials; to Burlington. The airspace within R–5002B is excluded during times of use. The airspace below 2,000 feet MSL outside the United States is excluded.

[Airspace Docket No. 94–ANM–2]

Modification of Class D Airspace; Pasco, WA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies the Pasco, Washington, Tri-cities Airport, Class D airspace by excluding additional airspace overlying the Vista Field Airport, Kennewick, Washington. This action will allow operations to and from the Vista Field Airport without radio communication with the Pasco Airport Traffic Control Tower.

EFFECTIVE DATE: 0901 u.t.c., August 18, 1994.

FOR FURTHER INFORMATION CONTACT: James Riley, ANM–537, Federal Aviation Administration, Docket No 94–ANM–2, 1601 Lind Avenue SW., Renton, Washington, 98055–4056; telephone number: (206) 227–2537

SUPPLEMENTARY INFORMATION:

History

On April 4, 1994, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by modifying the Class D airspace for Tri-Cities Airport, Pasco, Washington (59 FR 15668). Airspace within a .9-mile radius of Vista Field Airport is presently excluded from the Pasco Class D airspace. Recent construction at the Vista Field airport has resulted in closure of the east-west runway, requiring aircraft operating to runway 02/20 to fly over the Columbia River outside the present airspace exclusion. Interested parties were invited to participate in the rulemaking proceeding by submitting written comments on the proposal. No comments were received. The coordinates for this airspace docket are based on North American Datum 83. Class D airspace is published in Paragraph 5000 of FAA Order 7400.9A dated June 17, 1993, and effective September 16, 1993, which is incorporated by reference in 14 CFR 71.1 (58 FR 36298; July 6, 1993). The Class D airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of Federal Aviation Regulations amends Class D airspace at Pasco, Washington by excluding additional airspace overlying the Vista Field Airport Kennewick, Washington. The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the FAA amends 14 CFR part 71 as follows

PART 71—[AMENDED]

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. app. 1348(a), 1354(a), 1510; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9A, Airspace Designations and Reporting Points, dated June 17, 1993, and effective September 16, 1993, is amended as follows:

Paragraph 5000 General

* * * * *

ANM WA D Pasco, WA [Revised]

Pasco, Tri-Cities Airport, WA
(Lat. 46°15'52" N, Long. 119°07'08" W)
Vista Airport, Kennewick, WA
(Lat. 46°13'14" N, Long. 119°12'19" W)

That airspace extending upward from the surface to and including 2,900 feet MSL within a 4.3-mile radius of the Tri-Cities Airport, excluding that airspace within a 2 mile radius of the Vista Airport. This Class D airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

[Airspace Docket No. 94–ANM–35]

Modification of Class D Airspace; Mountain Home, ID

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: This action modifies the Class D airspace area at Mountain Home AFB, Idaho, by amending the area's effective hours to coincide with the associated control tower's hours of operation. The intended effect of this action is to clarify when two-way radio communication with the air traffic control tower is required.

DATES: Effective date—0901 u.t.c., August 18, 1994

Comment date: Comments must be received on or before August 11, 1994

ADDRESSES: Send comments on the rule in triplicate to: Manager, System Management Branch, Air Traffic Division, ANM–530, Federal Aviation Administration, Docket No. 94–ANM–35, 1601 Lind Avenue SW., Renton, Washington, 98055–4056.

The official docket may be examined in the Office of the Assistant Chief Counsel for the Northwest Mountain Region, suite 570, 1601 Lind Avenue SW., Renton, Washington, 98055–4056.

An informal docket may also be examined during normal business hours at the address listed above.

FOR FURTHER INFORMATION CONTACT: James E. Riley, Airspace and Procedures Section, System Management Branch, Air Traffic Division, ANM–530, Federal Aviation Administration, 1601 Lind Avenue SW., Renton, Washington, 98055–4056; telephone: (206) 227–2537

SUPPLEMENTARY INFORMATION:

Request for Comments on the Rule

Although this action is a final rule, and was not preceded by notice and public procedure, comments are invited on the rule. This rule will become effective on the date specified in the **DATES** section. However, after the review of any comments, and, if the FAA finds that further changes are appropriate, it will initiate rulemaking proceedings to extend the effective date of the rule or to amend the regulation.

Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in evaluating the effects of the rule, and in determining whether additional rulemaking is required. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the rule which might suggest the need to modify the rule.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) modifies the Class D airspace area at Mountain Home AFB, Idaho, by amending the area's effective hours to coincide with the associated control tower's hours of operation. Prior to Airspace Reclassification, an airport traffic area (ATA) and a control zone (CZ) existed at this airport. However, Airspace Reclassification, effective September 16, 1993, discontinued the use of the term "airport traffic area" and "control zone," replacing them with the designation "Class D airspace." The former CZ was continuous, while the former ATA was contingent upon the operation of the air traffic control tower. The consolidation of the ATA and CZ into a single Class D airspace designation makes it necessary to modify the effective hours of the Class D airspace to coincide with the control tower's hours of operation. The intended effect of this action is to clarify when two-way radio communication with this air traffic control tower is required.

The coordinates for this airspace docket are based on North American Datum 83. Class D airspace designations are published in Paragraphs 5000 of FAA Order 7400.9A dated June 17, 1993, and effective September 16, 1993, which is incorporated by reference in 14 CFR 71.1 (58 FR 36298; July 6, 1993). The Class D airspace designation listed in this document will be published subsequently in the Order. Under the circumstances presented, the FAA concludes that there is an immediate need to modify this Class D airspace area in order to promote the safe and efficient handling of air traffic in this area. Therefore, I find that notice and public procedures under 5 U.S.C. 553(b) are impracticable and contrary to the public interest.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

14 CFR Part 71

[Airspace Docket No. 93–ANE–19]

Update of Class D and Class E Airspace in the New England Region

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule; technical amendment.

SUMMARY: This action amends certain Class D and Class E airspace published in a final rule in the **Federal Register** on March 11, 1994. That final rule updated Class D and Class E airspace areas in the New England Region based on a region-wide review of Class D and Class E airspace for conformity with the requirements of the United States Standards for Terminal Procedures (TERPS). This action amends technical errors in the classification and description of certain airspace areas contained in FAA Order 7400.9A, Airspace Designations and Reporting Points.

EFFECTIVE DATE: 0901 u.t.c., June 23, 1994.

FOR FURTHER INFORMATION CONTACT: Karl D. Anderson, System Management Specialist, System Management Branch, ANE–530, Federal Aviation Administration, 12 New England Executive Park, Burlington, MA 01803–5299; Telephone: (617) 238–7530; Facsimile: (617) 238–7560.

SUPPLEMENTARY INFORMATION:

History

On July 26, 1993, the FAA published a Notice of Proposed Rulemaking (NPRM) to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to update certain control zones and transition areas in the New England Region (58 FR 39693). That NPRM was prompted by a region-wide review of control zones and transition areas for conformity with the United States Standards for Terminal Procedures (TERPS). That review revealed a need to make revisions to many of those airspace areas in the New England region.

After publication of that NPRM, all airspace areas in the United States were reclassified according to the standards adopted by the International Civil Aviation Organization (ICAO). (See, Airspace Reclassification final rule, 56 FR 65638.) Airspace Reclassification, effective on September 16, 1993, discontinued the use of the terms "control zone" and "transition area," and reclassified those areas respectively as either Class D or Class E airspace.

The FAA published the final rule to revise airspace areas in the vicinity of airports in the New England region on March 11, 1994 (59 FR 11535). That final rule contained airspace descriptions of the former "control zones" and "transition areas" translated into Class D and Class E classifications.

The Amendment

The final rule, however, contained minor errors introduced during the process of translating the descriptions into Class D and Class E classifications. Specifically, three airspace areas with

no operating airport traffic control tower (ATCT) were listed Class D instead of Class E; Augusta, ME, Houlton, ME and Presque Isle, ME. One area was listed as Class D instead of as a Class E extension to a Class D area; Brunswick, ME. Two Class E areas, listed as extensions to Class D areas, require correction because of the changes made to those Class D areas; Hartford, CT, Portsmouth, NH.

In addition, this action makes three general revisions to the descriptions of certain airspace areas, which delete language introduced into the descriptions during the translation process. Some descriptions of former transition areas, now Class E airspace, contained language that excluded from those areas airspace defined as higher class airspace. This language is no longer needed because of the general rule of airspace classification under the ICAO standards that higher class airspace always takes precedence. Further, when modified to fit the new airspace classifications and to meet the TERPS requirements, certain descriptions no longer used some airway facilities, therefore, the definition and location of those unused facilities is no longer needed in the airspace description. Lastly, this action corrects the description of Class E airspace defined as extensions to higher class airspace by deleting altitude limits, not needed because of the general rule that Class E airspace extends upward to the base of the overlying airspace. Finally, this action makes minor typographical changes.

This document reprints the entire airspace description for those areas needing correction. This action is necessary to correct errors in the descriptions of certain Class D and Class E airspace areas in the New England region.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

This action clarifies the existing rule and does not place any new restriction or requirements on the public. Furthermore, the FAA finds that this amendment does not involve a change in the dimensions or operating requirements of the airspace listings incorporated by reference in part 71. These errors are insignificant in nature and impact and inconsequential to the industry and public. Therefore, notice and public procedure under 5 U.S.C. 553(b) are unnecessary. Additionally, in consideration of the immediate need to advise pilots of the corrections to the classification and description of certain airspace areas, the FAA finds good cause, pursuant to 5 U.S.C. 553(d), for making this amendment effective in less than 30 days in order to promote the safe operation of aircraft in this area.

Airspace, Incorporation by reference, Navigation (Air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends part 71 (14 CFR part 71) as follows:

PART 71—[AMENDED]

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. app. 1348(a), 1354(a), 1510; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9A, Airspace Designations and Reporting Points, dated June 17, 1993, and effective September 16, 1993, is amended as follows:

Subpart D—Class D Airspace

Paragraph 5000 General

* * * * *

ANE MA D Beverly, MA [Revised]

Beverly Municipal Airport, MA
(Lat. 42°35'03" N, Long. 70°55'01" W)

That airspace extending upward from the surface to and including 2,600 feet MSL within a 4.5-mile radius of Beverly Municipal Airport; excluding that airspace within the Boston Class B Airspace. This Class D airspace is effective during the specific dates and times established in advance by a Notice to Airmen (NOTAM). The effective dates and times will thereafter be continuously published in the Airport/Facility Directory.

* * * * *

ANE MA D Westfield, MA [Revised]

Westfield, Barnes Municipal Airport, MA
(Lat. 42°09'28" N, Long. 72°42'56" W)

That airspace extending from the surface to and including 2,800 feet MSL within a 4.3-mile radius of Barnes Municipal Airport from the Barnes Municipal Airport 341° bearing clockwise to the Barnes Municipal Airport 288° bearing, and within a 7.5 mile radius from the Barnes Municipal Airport 288° bearing clockwise to the Barnes Municipal Airport 341° bearing, and within 1.6 miles on each side of the Barnes Municipal Airport 009° bearing extending from the 4.3-mile radius to 4.9 miles north of the Barnes Municipal Airport, and within 2.5 miles on each side of the Barnes Municipal Airport 175° bearing extending from the 4.3-mile radius to 5.8 miles south of the Barnes Municipal Airport; excluding that airspace within the Springfield/Chicopee, MA Class D Airspace during the dates and times it is effective, and that airspace within the Windsor Locks Class C Airspace. This Class D airspace is effective during the specific dates and times established in advance by a Notice to Airmen (NOTAM). The effective dates and times will thereafter be published in the Airport/Facility Directory

* * * * *

ANE ME D Brunswick, ME [Revised]

Brunswick NAS, ME
(Lat. 43°53'32" N, Long. 69°56'19" W)

That airspace extending upward from the surface to and including 2,600 feet MSL within a 4.3-mile radius of Brunswick NAS

* * * * *

ANE NH D Lebanon, NH [Revised]

Lebanon Municipal Airport, NH
(Lat. 43°37'35" N, Long. 72°18'15" W)

That airspace extending upward from the surface to and including 3,100 feet MSL within a 6.7-mile radius of Lebanon Municipal Airport. This Class D airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

ANE NH D Nashua, NH [Revised]

Nashua, Boire Field, NH
(Lat. 42°46'54" N, Long. 71°30'53" W)
Manchester VORTAC
(Lat. 42°52'06" N, Long. 71°22'10" W)
Lawrence VOR/DME
(Lat. 42°44'25" N, Long. 71°05'41" W)
Sports Center Airport, Pepperell
(Lat. 42°41'45" N, Long. 71°33'03" W)

That airspace extending upward from the surface to and including 2,700 feet MSL within a 6-mile radius of Boire Field, and that airspace extending upward from the surface within 1.1 miles on each side of the Manchester VORTAC 231° radial extending from the 6-mile radius to 1.3 miles southwest of the Manchester VORTAC, and within 3.7 miles on each side of the Lawrence VOR/DME 277° radial extending from the 6-mile radius to 6.9 miles east of Boire Field; excluding that airspace within a 2-mile radius of Sports Center Airport, Pepperell, and that airspace within the Manchester

Class C Airspace. This Class D airspace is effective during the specific dates and times established in advance by a Notice to Airmen (NOTAM). The effective dates and times will thereafter be continuously published in the Airport/Facility Directory.

* * * * *

Subpart E—Class E Airspace

* * * * *

Paragraph 6002 Class E airspace areas designated as a surface area for an airport

* * * * *

ANE ME E2 Augusta, ME [Revised]

Augusta State Airport, ME
(Lat. 44°19'14" N, Long. 69°47'50" W)
Dunns LOM
(Lat. 44°24'39" N, Long. 69°51'39" W)
Augusta VORTAC
(Lat. 44°19'12" N, Long. 69°47'48" W)

Within a 4.1-mile radius of Augusta State Airport, and within 3.5 miles on each side of the Augusta State Airport 333° bearing extending from the 4.1-mile radius to 10 miles northwest of the Dunns LOM, and within 2.5 miles on each side of the Augusta State Airport 156° bearing extending from the 4.1-mile radius to 7 miles southeast of the Augusta VORTAC.

ANE ME E2 Houlton, ME [Revised]

Houlton International Airport, ME
(Lat. 46°07'25" N, Long. 67°47'32" W)

That airspace extending upward from the surface within a 6.5-mile radius of Houlton International Airport excluding the airspace outside of the United States.

* * * * *

ANE ME E2 Presque Isle, ME [Revised]

Northern Maine Regional Airport at Presque Isle, ME
(Lat. 46°41'20" N, Long. 68°02'41" W)
EXCAL LOM
(Lat. 46°36'37" N, Long. 68°01'08" W)
Rogers Airport
(Lat. 46°37'30" N, Long. 67°56'10" W)

That airspace extending upward from the surface within a 6.8-mile radius of Northern Maine Regional Airport at Presque Isle, and within 2.5 miles on each side of the Northern Maine Regional Airport at Presque Isle 165° bearing extending from the 6.8-mile radius to 8.2 miles southeast of the EXCAL LOM; excluding that airspace within a 1-mile radius of the Rogers Airport. This Class E airspace is effective during the specific dates and times established in advance by a Notice to Airmen (NOTAM). The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

* * * * *

Paragraph 6003 Class E airspace areas designated as an extension to a Class C surface area.

* * * * *

ANE CT E3 Windsor Locks, CT [Revised]

Windsor Locks, Bradley International, CT
(Lat. 41°56'20" N, Long. 72°40'59" W)
Bradley VORTAC
(Lat. 41°56'27" N, Long. 72°41'19" W)

That airspace extending upward from the surface within 2.2 miles on each side of the Bradley VORTAC 314° radial extending from a 5-mile radius of Bradley International Airport to 6.4 miles northwest of the Bradley VORTAC, and within 2.2 miles on each side of the Bradley VORTAC 218° radial extending from the 5-mile radius to 5.0 miles southwest of the Bradley VORTAC.

ANE ME E3 Bangor, ME [Revised]

Bangor International Airport, ME
(Lat. 44°48'27" N, Long. 68°49'41" W)
Bangor VORTAC
(Lat. 44°50'30" N, Long. 68°52'26" W)

That airspace extending upward from the surface within 1.5 miles on each side of the Bangor VORTAC 135° radial extending from a 5-mile radius of Bangor International Airport to 9.4 miles southeast of the Bangor VORTAC, and within 3.1 miles on each side of the Bangor VORTAC 318° radial extending from the 5-mile radius to 7.2 miles northwest of the Bangor VORTAC.

ANE NH E3 Manchester, NH [Revised]

Manchester Airport, NH
(Lat. 42°56'00" N, Long. 71°26'16" W)
Manchester VORTAC
(Lat. 42°52'07" N, Long. 71°22'10" W)

That airspace extending upward from the surface within 1.1 miles on each side of the Manchester VORTAC 325° radial extending from a 5-mile radius of the Manchester Airport to 5.6 miles northwest of the Manchester Airport. This Class E airspace is effective during the specific dates and times established in advance by a Notice to Airmen (NOTAM). The effective dates and times will thereafter be continuously published in the Airport/Facility Directory.

ANE RI E3 Providence, RI [Revised]

Providence, Theodore Francis Green State Airport, RI
(Lat. 41°43'30" N, Long. 71°25'40" W)
Providence VORTAC
(Lat. 41°43'28" N, Long. 71°25'47" W)

That airspace extending upward from the surface within 3.3 miles on each side of the Providence VORTAC 132° radial extending from a 5-mile radius of Providence, Theodore Francis Green State Airport, to 8.4 miles southeast of the Providence VORTAC, and within 3.8 miles on each side of the Theodore Francis Green State Airport 211° bearing extending from the 5-mile radius to 15 miles southwest of the Theodore Francis Green State Airport; excluding that airspace within the North Kingstown Class D airspace during the dates and times that it is effective.

ANE VT E3 Burlington, VT [Revised]

Burlington International Airport, VT
(Lat. 44°28'17" N, Long. 73°09'10" W)
Burlington VORTAC
(Lat. 44°23'50" N, Long. 73°10'57" W)

That airspace extending upward from the surface within 2.4 miles on each side of the Burlington VORTAC 201° radial extending from a 5-mile radius of the Burlington International Airport to 7 miles southwest of the Burlington VORTAC, and that airspace extending upward from the surface within 1.8 miles on each side of the Burlington International Airport 302° bearing extending from the 5-mile radius to 5.4 miles northwest of the Burlington International Airport.

ANE CT E4 Hartford, CT [Removed]

* * * * *

ANE MA E4 Beverly, MA [Revised]

Beverly Municipal Airport, MA
(Lat. 42°35'03" N, Long. 70°55'01" W)
Topsfield NDB
(Lat. 42°37'10" N, Long. 70°57'25" W)

That airspace extending upward from the surface within 3.2 miles on each side of the Topsfield NDB 317° bearing, extending from a 4.5-mile radius of Beverly Municipal Airport to 7 miles northwest of the Topsfield NDB. This Class E airspace is effective during the specific dates and times established in advance by a Notice to Airmen (NOTAM). The effective dates and times will thereafter be continuously published in the Airport/Facility Directory.

* * * * *

ANE ME E4 Brunswick, ME [Revised]

Brunswick NAS, ME
(Lat. 43°53'32" N, Long. 69°56'19" W)
Brunswick Navy TACAN
(Lat. 43°54'09" N, Long. 69°56'43" W)

That airspace extending upward from the surface within 1.8 miles on each side of the Brunswick Navy TACAN 166° radial extending from a 4.3-mile radius of Brunswick NAS to 7 miles southeast of the Brunswick Navy TACAN and within 1.8 miles on each side of the Brunswick Navy TACAN 015° radial extending from the 4.3-mile radius to 8.6 miles northeast of the Brunswick Navy TACAN.

* * * * *

ANE NH E4 Lebanon, NH [Revised]

Lebanon Municipal Airport, NH
(Lat. 43°37'35" N, Long. 72°18'15" W)
BURGR OM
(Lat. 43°43'57" N, Long. 72°20'00" W)
Hanover NDB
(Lat. 43°42'08" N, Long. 72°10'39" W)

That airspace extending upward from the surface within 3.3 miles on each side of the BURGR OM 352° bearing extending from a 6.7-mile radius of Lebanon Municipal Airport to 8 miles north of the BURGR OM, and within 2.4 miles on each side of the Hanover NDB 051° bearing extending from the 6.7-mile radius to 7 miles northeast of Hanover NDB.

ANE NH E4 Nashua, NH [Revised]

Nashua, Boire Field, NH
(Lat. 42°46'54" N, Long. 71°30'53" W)
CHERN NDB
(Lat. 42°49'24" N, Long. 71°36'08" W)

That airspace extending upward from the surface within 2.6 miles on each side of the CHERN NDB 303° bearing extending from a 6-mile radius of Boire Field to 7 miles northwest of the CHERN NDB. This Class E

airspace is effective during the specific dates and times established in advance by a Notice to Airmen (NOTAM). The effective dates and times will thereafter be continuously published in the Airport/Facility Directory.

ANE NH E4 Portsmouth, NH [Revised]

Portsmouth, Pease International Tradeport, NH
(Lat. 43°04'40" N, Long. 70°49'24" W)
Pease VORTAC
(Lat. 43°05'04" N, Long. 70°49'55" W)

That airspace extending upward from the surface within 1.8 miles on each side of the extended centerline of Runway 16 at Portsmouth, Pease International Tradeport (Pease) extending from a 4.5-mile radius of Pease to 6.4 miles southeast of Pease, and within 1.8 miles on each side of the Pease VORTAC 148° radial extending from a 4.5-mile radius of Pease to 7 miles southeast of the Pease VORTAC, and within 1.8 miles on each side of the Pease VORTAC 338° radial extending from a 4.5-mile radius of Pease to 7 miles northwest of the Pease VORTAC

* * * * *

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth

ANE CT E5 Bridgeport, CT [Revised]

Bridgeport, Igor I. Sikorsky Memorial Airport, CT
(Lat. 41°09'48" N, Long. 73°07'34" W)
Stratford, Sikorsky Heliport, CT
(Lat. 41°14'57" N, Long. 73°05'48" W)
Bridgeport VOR
(Lat. 41°09'39" N, Long. 73°07'28" W)

That airspace extending upward from 700 feet above the surface within a 10-mile radius of the Igor I. Sikorsky Memorial Airport from the Sikorsky Airport 245° bearing clockwise to the Sikorsky Airport 070° bearing, and within a 6.5-mile radius from the Sikorsky Airport 070° bearing clockwise to the Sikorsky Airport 245° bearing, and within 4 miles on each side of the Bridgeport VOR 041° radial extending from the 10-mile radius to 14.8 miles northeast of Bridgeport VOR, and within a 8.5-mile radius of the Sikorsky Heliport.

ANE CT E5 Chester, CT [Revised]

Chester Airport, CT
(Lat. 41°23'02" N, Long. 72°30'21" W)

That airspace extending upward from 700 feet above the surface within a 9.3-mile radius of Chester Airport, and within 4 miles west and 5.4 miles east of the Chester Airport 339° bearing extending from the 9.3-mile radius to 17.3 miles northwest of Chester Airport.

* * * * *

ANE CT E5 Danbury, CT [Revised]

Danbury Municipal Airport, CT
(Lat. 41°22'17" N, Long. 73°28'56" W)
Carmel VORTAC
(Lat. 41°16'48" N, Long. 73°34'53" W)

That airspace extending upward from 700 feet above the surface within a 11.5-mile radius of Danbury Municipal Airport from the Danbury Airport 320° bearing clockwise to the Danbury Airport 010° bearing, and within a 10-mile radius from the Danbury Airport 010° bearing clockwise to the Danbury Airport 320° bearing, and within 3 miles on each side of the Carmel VORTAC 218° radial extending from the 10-mile radius to 10 miles southwest of the Carmel VORTAC, and within 4 miles north and 5.5 miles south of the Danbury Airport 255° bearing extending from the 10-mile radius to 16 miles west of the Danbury Airport; excluding that airspace within the White Plains, NY, and Poughkeepsie, NY, Class E Airspace.

* * * * *

ANE CT E5 Groton, CT [Revised]

Groton-New London Airport, CT
(Lat. 41°19'48" N, Long. 72°02'42" W)
Groton VOR
(Lat. 41°19'49" N, Long. 72°03'07" W)

That airspace extending upward from 700 feet above the surface within a 7.5-mile radius of Groton-New London Airport, and within 1.3 miles on each side of the Groton VOR 048° radial extending from the 7.5-mile radius to 15.6 miles northeast of the GROTON VOR; excluding that airspace within the Westerly, RI Class E Airspace.

ANE CT E5 Hartford, CT [Revised]

Hartford-Brainard Airport, CT
(Lat. 41°44'10" N, Long. 72°39'00" W)
East Hartford, Rentschler Airport, CT
(Lat. 41°45'15" N, Long. 72°37'28" W)

That airspace extending upward from 700 feet above the surface within a 11.5-mile radius of Hartford-Brainard Airport, and within a 11.9-mile radius of the Rentschler Airport; excluding that airspace within the Windsor Locks, CT and Chester, CT, Class E Airspace

* * * * *

ANE CT E5 Meriden, CT [Revised]

Meriden Markham Municipal Airport, CT
(Lat. 41°30'31" N, Long. 72°49'46" W)
Madison VOR/DME
(Lat. 41°18'50" N, Long. 72°41'32" W)

That airspace extending upward from 700 feet above the surface within a 10.8-mile radius of Meriden Markham Municipal Airport, and within 4 miles on each side of the Madison VOR/DME 332° radial extending from the 10.8-mile radius to 0.6 miles northwest of the Madison VOR/DME; excluding that airspace within the Bridgeport, CT, Madison, CT, Chester, CT, and Hartford, CT, Class E Airspace.

ANE CT E5 New Haven, CT [Revised]

New Haven, Tweed-New Haven Airport, CT
(Lat. 41°15'49" N, Long. 72°53'12" W)

That airspace extending upward from 700 feet above the surface within a 9-mile radius of Tweed-New Haven Airport; excluding that airspace within the Bridgeport, CT, Meriden, CT, Chester, CT, and Madison, CT, Class E Airspace.

* * * * *

ANE CT E5 Windsor Locks, CT [Revised]

Windsor Locks, Bradley International Airport
(Lat. 41°56'20" N, Long. 72°40'59" W)
Bradley VORTAC
(Lat. 41°56'27" N, Long. 72°41'19" W)

That airspace extending upward from 700 feet above the surface within a 10.9 mile radius of Bradley International Airport.

ANE MA E5 Boston, MA [Revised]

Boston, General Edward Lawrence Logan International Airport
(Lat. 42°21'51" N, Long. 71°00'18" W)

That airspace extending upward from 700 feet above the surface within that area bounded by a line beginning at Lat. 42°30'00" N, Long. 70°47'58" W and running to Lat. 42°43'00" N, Long. 70°39'28" W, then to Lat. 42°55'00" N, Long. 70°57'58" W, then to Lat. 42°56'00" N, Long. 71°15'28" W, then to Lat. 42°42'00" N, Long. 71°17'58" W, then to Lat. 42°32'00" N, Long. 71°40'58" W, then to Lat. 42°21'00" N, Long. 71°41'58" W, then to Lat. 42°20'00" N, Long. 71°24'28" W, then to Lat. 42°05'00" N, Long. 71°22'30" W, then to Lat. 42°04'00" N, Long. 71°11'58" W, then to Lat. 41°56'00" N, Long. 71°06'58" W, then to Lat. 41°59'00" N, Long. 70°56'28" W, then to Lat. 42°12'00" N, Long. 70°36'28" W, then to the point of beginning.

ANE MA E5 Fall River, MA [Revised]

Fall River Municipal, MA
(Lat. 41°45'18" N, Long. 71°06'36" W)

That airspace extending upward from 700 feet above the surface within a 7.4-mile radius of Fall River Municipal Airport; excluding that airspace within the New Bedford, MA, Providence, RI, and North Kingstown, RI, Class E Airspace

ANE MA E5 Falmouth, MA [Revised]

Falmouth, Otis ANGB, MA
(Lat. 41°39'30" N Long. 70°31'17" W)
Barnstable Municipal Airport-Boardman/Polando Field
(Lat 41°40'09" N, Long. 70°16'49" W)
Chatham Municipal Airport
(Lat. 41°41'18" N, Long. 69°59'22" W)
Martha's Vineyard Municipal Airport
(Lat. 41°23'35" N, Long. 70°36'52" W)
Martha's Vineyard VOR/DME
(Lat. 41°23'46" N, Long. 70°36'46" W)
BOGEY LOM
(Lat. 41°42'58" W, Long. 70°12'11" W)

That airspace extending upward from 700 feet above the surface within a 12.2-mile radius of Otis ANGB, and within a 6.7-mile radius of Barnstable Municipal Airport, and within 3 miles on each side of the BOGEY LOM 050° bearing extending from the 6.7-mile radius to 10 miles northeast of the BOGEY LOM, and within a 6.3-mile radius of the Chatham Municipal Airport, and within a 6.5-mile radius of Martha's Vineyard Municipal Airport, and within 5.1 miles on each side of the 052° radial of the Martha's Vineyard VOR/DME extending from the 6.5-mile radius to 14 miles northeast of Martha's Vineyard VOR/DME.

* * * * *

ANE MA E5 Hopedale, MA [Revised]

Hopedale Industrial Park Airport, MA
(Lat. 42°06'23" N, Long. 71°30'36" W)
Putnam VOR/DME
(Lat. 41°57'20" N, Long. 71°50'39" W)

That airspace extending upward from 700 feet above the surface within a 7.3-mile radius of Hopedale Industrial Park Airport, and within 4 miles on each side of the Putnam VOR/DME 059° radial extending from the 7.3-mile radius to the Putnam VOR/DME; excluding that airspace within the Boston, MA, Danielson, CT, and Pawtucket, RI, Class E Airspace.

ANE MA E5 Mansfield, MA [Revised]

Mansfield Municipal Airport, MA
(Lat. 42°00'00" N, Long. 71°11'48" W)

That airspace extending upward from 700 feet above the surface within a 8.3-mile radius of Mansfield Municipal Airport; excluding that airspace within the Boston, MA, Hopedale, MA, Fall River, MA, North Kingstown, RI, and Pawtucket, RI, Class E Airspace.

* * * * *

ANE MA E5 Northampton, MA [Revised]

Northampton Airport, MA
(Lat. 42°19'41" N, Long. 72°36'41" W)

That airspace extending upward from 700 feet above the surface within a 13.3-mile radius of Northampton Airport; excluding that airspace within the Springfield/Chicopee, MA, Keene, NH, and Windsor Locks, CT, Class E Airspace.

ANE MA E5 Palmer, MA [Revised]

Palmer, Metropolitan Airport, MA
(Lat. 42°13'24" N, Long. 72°18'41" W)
Palmer NDB
(Lat. 42°13'34" N, Long. 72°18'41" W)

That airspace extending upward from 700 feet above the surface within a 6.3-mile radius of Metropolitan Airport, and within 3.9 miles on each side of the Palmer NDB 201° bearing extending from the 6.3-mile radius to 13.3 miles southwest of the Palmer NDB; excluding that airspace within the Springfield/Chicopee, MA, Northampton, MA, and Windsor Locks, CT, Class E Airspace.

* * * * *

ANE MA E5 Springfield/Chicopee, MA [Revised]

Springfield/Chicopee, Westover ARB/Metropolitan Airport, MA
(Lat. 42°11'52" N, Long. 72°31'48" W)

That airspace extending upward from 700 feet above the surface within a 7.4-mile radius of Westover ARB; excluding that airspace within the Westfield, MA Class E Airspace.

ANE MA E5 Taunton, MA [Revised]

Taunton Municipal Airport, MA
(Lat. 41°52'28" N, Long. 71°01'01" W)

That airspace extending upward from 700 feet above the surface within a 7.3-mile radius of Taunton Municipal Airport; excluding that airspace within the Boston, MA, Fall River, MA, New Bedford, MA, and Mansfield, MA, Class E Airspace.

ANE MA E5 Westfield, MA [Revised]

Westfield, Barnes Municipal Airport, MA
(Lat. 42°09'28" N, Long. 72°42'56" W)

That airspace extending upward from 700 feet above the surface within a 12.8-mile radius of Barnes Municipal Airport; excluding that airspace within the Northampton, MA, Palmer, MA, and Windsor Locks, CT, Class E Airspace.

* * * * *

ANE ME E5 Bangor, ME [Revised]

Bangor International Airport, ME
(Lat. 44°48'27" N, Long. 68°49'41" W)
Bangor VORTAC
(Lat. 44°50'30" N, Long. 68°52'26" W)

That airspace extending upward from 700 feet above the surface within a 10-mile radius of Bangor International Airport, and that airspace within 6.5 miles south and 4 miles north of the Bangor International Airport 136° bearing extending from the 10-mile radius to 16.7 miles southeast of the Bangor International Airport, and that airspace within 3.7 miles on each side of the Bangor VORTAC 318° radial extending from the 10-mile radius to 8.8 miles northwest of the Bangor VORTAC.

* * * * *

ANE ME E5 Brunswick, ME [Revised]

Brunswick NAS, ME
(Lat. 43°53'32" N, Long. 69°56'19" W)
Brunswick Navy TACAN
(Lat. 43°54'09" N, Long. 69°56'43" W)
Wiscasset Airport, ME
(Lat. 43°57'40" N, Long. 69°42'48" W)

That airspace extending upward from 700 feet above the surface within a 7.8-mile radius of Brunswick NAS, and within 1.8 miles on each side of the Brunswick Navy TACAN 166° radial extending from the 7.8-mile radius to 10.4 miles south of the Brunswick Navy TACAN, and within a 8.4-mile radius of Wiscasset Airport, and within 4 miles south and 6 miles north of the Navy Brunswick TACAN 070° radial extending from the 8.4-mile radius to 25.5 miles east of the Navy Brunswick TACAN.

* * * * *

ANE ME E5 Fryeburg, ME [Revised]

Fryeburg, Eastern Slopes Regional Airport, ME
(Lat. 43°59'26" N, Long. 70°56'49" W)

That airspace extending upward from 700 feet above the surface within a 2.3-mile radius of Eastern Slopes Regional Airport from the Eastern Slopes Airport 197° bearing clockwise to the Eastern Slopes Airport 295° bearing, and that airspace within a 10.3-mile radius of Eastern Slopes Regional Airport from the Eastern Slopes Airport 295° bearing clockwise to the Eastern Slopes Regional Airport 197° bearing.

* * * * *

ANE ME E5 Machias, ME [Revised]

Machias Valley Airport, ME
(Lat. 44°42'11" N, Long. 67°28'41" W)

That airspace extending upward from 700 feet above the surface within a 8.3-mile radius of Machias Valley Airport.

* * * * *

ANE ME E5 Old Town, ME [Revised]

Old Town, Dewitt Field, Old Town Municipal Airport, ME
(Lat. 44°57'10" N, Long. 68°40'25" W)
Bangor VORTAC
(Lat. 44°50'30" N, Long. 68°52'26" W)
Old Town NDB
(Lat. 45°00'24" N, Long. 68°38'00" W)

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Dewitt Field, Old Town Municipal Airport, and within 2.8 miles on each side of the Old Town NDB 029° bearing extending from the 7-mile radius to 9 miles northeast of the Old Town NDB, and within 4 miles on each side of the Bangor VORTAC 050° radial extending from the 7-mile radius to 25 miles northeast of the Bangor VORTAC; excluding that airspace within the Bangor, ME Class E Airspace.

* * * * *

ANE ME E5 Portland, ME [Revised]

Portland International Jetport, ME
(Lat. 43°38'46" N, Long. 70°18'31" W)
ORHAM LOM
(Lat. 43°39'09" N, Long. 70°26'28" W)

That airspace extending upward from 700 feet above the surface within a 8.7-mile radius of the Portland International Jetport, and within 3 miles on each side of the ORHAM LOM 275° bearing extending from the 8.7-mile radius to 10 miles west of the ORHAM LOM; excluding that airspace within the Biddeford, ME Class E Airspace.

ANE ME E5 Presque Isle, ME [Revised]

Northern Maine Regional Airport at Presque Isle, ME
(Lat. 46°41'20" N, Long. 68°02'41" W)
Presque Isle VORTAC
(Lat. 46°46'27" N, Long. 68°05'40" W)
EXCAL LOM
(Lat. 46°36'37" N, Long. 68°01'08" W)
Caribou Municipal Airport, ME
(Lat. 46°52'17" N, Long. 68°01'04" W)
Loring Air Force Base
(Lat. 46°57'01" N, Long. 67°53'08" W)

That airspace extending upward from 700 feet above the surface within an 11-mile radius of Northern Maine Regional Airport at Presque Isle, and within 3 miles on each side of the EXCAL LOM 165° bearing extending from the 11-mile radius to 9.2 miles south of the EXCAL LOM, and within 4 miles east and 8 miles west of the Presque Isle VORTAC 340° radial extending from the 11-mile radius to 16 miles northwest of the VORTAC, and within a 8.5-mile radius of Caribou Municipal Airport, and within an 8.5-mile radius of Loring Air Force Base; excluding that airspace outside of the United States.

* * * * *

ANE ME E5 Sanford, ME [Revised]

Sanford Municipal, ME
(Lat. 43°23'38" N, Long. 70°42'29" W)
Kennebunk VORTAC
(Lat. 43°25'33" N, Long. 70°36'49" W)
SANFD LOM
(Lat. 43°20'04" N, Long. 70°50'04" W)

That airspace extending upward from 700 feet above the surface within 10.7 miles of Sanford Municipal Airport from the Sanford Airport 253° bearing clockwise to the Sanford Airport 073° bearing, and within 6.7 miles of the Sanford Municipal Airport from the Sanford Airport 073° bearing clockwise to the Sanford Airport 253° bearing, and within 4 miles north and 5 miles south of the SANFD LOM 238° bearing extending from the 6.7-mile radius to 10 miles southwest of the

SANFD LOM, and within 4 miles north and 5 miles south of the Kennebunk VORTAC 064° radial extending from 6.7-mile radius to 9 miles northeast of the Kennebunk VORTAC; excluding that airspace within the Portsmouth, NH, Kennebunkport, ME, and Biddeford, ME, Class E Airspace.

* * * * *

ANE NH E5 Concord, NH [Revised]

Concord Municipal Airport, NH
(Lat. 43°12'12" N, Long. 71°30'07" W)
EPSOM NDB
(Lat. 43°07'07" N, Long. 71°27'09" W)
Concord VORTAC
(Lat. 43°13'11" N, Long. 71°34'31" W)

That airspace extending upward from 700 feet above the surface within a 12-mile radius of Concord Municipal Airport, and within 4 miles on each side of the EPSOM NDB 156° bearing extending from the 12-mile radius to 9.6 miles south of the EPSOM NDB, and within 8 miles south and 15 miles north of the Concord VORTAC 300° radial extending from the 12-mile radius to 20 miles northwest of the Concord VORTAC.

* * * * *

ANE NH E5 Manchester, NH [Revised]

Manchester Airport, NH
(Lat. 42°56'00" N, Long. 71°26'16" W)

That airspace extending upward from 700 feet above the surface within a 23-mile radius of the Manchester Airport; excluding that airspace within the Boston, MA, and Keene, NH, Concord, NH, Portsmouth, NH, Nashua, NH, Newburyport, MA, Class E Airspace.

ANE NH E5 Nashua, NH [Revised]

Nashua, Boire Field, NH
(Lat. 42°46'54" N, Long. 71°30'53" W)
CHERN NDB
(Lat. 42°49'24" N, Long. 71°36'08" W)

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Boire Field, and within that area bounded by a line beginning at Lat. 42°53'54" N, Long. 71°30'47" W then to Lat. 43°02'23" N, Long. 71°13'28" W, then to Lat. 42°55'15" N, Long. 71°06'58" W, then to Lat. 42°38'30" N, Long. 71°21'48" W, then to Lat. 42°40'30", Long. 71°27'03", and within 4 miles on each side of the CHERN NDB 303° bearing extending from the 7-mile radius to 10 miles northwest of the CHERN NDB; excluding that airspace within the Portsmouth, NH, Fort Devens, MA, and Boston, MA, Class E Airspace.

* * * * *

ANE NH E5 Portsmouth, NH [Revised]

Portsmouth, Pease International Tradeport, NH
(Lat. 43°04'40" N., Long. 70°49'24" W.)

That airspace extending upward from 700 feet above the surface within that area bounded by a line beginning at Lat. 43°25'00" N., Long. 71°13'00" W. and running to Lat. 43°27'00" N., Long. 70°56'00" W., then to Lat. 43°25'00" N., Long. 70°48'00" W., then to Lat. 43°14'00" N., Long. 70°36'00" W., then to Lat. 43°00'00" N., Long. 70°36'00" W., then to Lat. 42°54'00" N., Long. 70°52'00" W., then to Lat. 42°49'00" N., Long. 71°09'00" W., then to Lat. 42°53'00" N., Long. 71°12'00" W., then to Lat. 43°03'00" N., Long. 71°05'00" W., then to the point of beginning; excluding that airspace within the Newburyport, MA, and Boston, MA, Class E Airspace.

* * * * *

ANE RI E5 Newport, RI [Revised]

Newport State, RI
(Lat. 41°31'56" N., Long. 71°16'53" W.)
Providence VORTAC
(Lat. 41°43'28" N., Long. 71°25'47" W.)

That airspace extending upward from 700 feet above the surface within a 6.3-mile radius of Newport State Airport, and within 2.2 miles on each side of the Providence VORTAC 150° radial extending from the 6.3-mile radius to 5.6 miles southeast of the Providence VORTAC, and within 4 miles northwest to 6 miles southeast of Newport State Airport 025° bearing extending from the 6.3-mile radius to 16.2 miles northeast of the Newport State Airport; excluding that airspace within the New Bedford, MA, and Fall River, MA, Class E Airspace.

ANE RI E5 North Kingstown, RI [Revised]

North Kingstown, Quonset State Airport, RI
(Lat. 41°35'48" N., Long. 71°24'43" W.)
Providence VORTAC
(Lat. 41°43'28" N., Long. 71°25'47" W.)

That airspace extending upward from 700 feet above the surface within a 9.3-mile radius of Quonset State Airport, and within 6.5 miles east to 4.5 miles west of the Quonset State Airport 145° bearing extending from the 9.3-mile radius to 16.3 miles southeast of the Quonset State Airport, and within 5 miles east to 8 miles west of the Providence VORTAC 355° radial extending from the 9.3-mile radius to 14.5 miles north of the Providence VORTAC; excluding that airspace within the Newport, RI, and New Bedford, MA, Class E Airspace.

ANE RI E5 Pawtucket, RI [Revised]

Pawtucket, North Central State, RI
(Lat. 41°55'14" N., Long. 71°29'29" W.)
Providence VORTAC
(Lat. 41°43'28" N., Long. 71°25'47" W.)
Putnam VOR/DME
(Lat. 41°57'20" N., Long. 71°50'39" W.)

That airspace extending upward from 700 feet above the surface within a 6.6-mile radius of North Central State Airport, and within 2 miles on each side of the North Central State Airport 032° bearing extending from the 6.6-mile radius to 13.4 miles northeast of the North Central State Airport, and within 4.5 miles east and 6.5 miles west of the North Central State Airport 212° bearing extending from the 6.6-mile radius to 16 miles southwest of the North Central State Airport, and within 3.6 miles on each side of the Putnam VOR/DME 097° radial extending from the 6.6-mile radius to 6.8 miles east of the Putnam VOR/DME, and within 3.8 miles on each side of the Providence VORTAC 347° radial extending from the 6.6-mile radius to 0.8 mile north of the Providence VORTAC; excluding that airspace within the North Kingstown, RI, Danielson, CT, and Boston, MA, Class E Airspace.

ANE RI E5 Providence, RI [Revised]

Providence, Theodore Francis Green State Airport, RI
(Lat. 41°43'25" N., Long. 71°25'36" W.)
Providence VORTAC
(Lat. 41°43'28" N., Long. 71°25'47" W.)

That airspace extending upward from 700 feet above the surface within an 8.8-mile radius of Theodore Francis Green State Airport, and within 4 miles northwest to 4.5 miles southeast of the Providence VORTAC 211° radial extending from the 8.8-mile radius to 16.7 miles southwest of the Providence VORTAC, and within 4 miles on each side of the VORTAC 330° radial extending from the 8.8-mile radius to 15.4 miles northwest of the Providence VORTAC, and within 2.9 miles on each side of the Providence VORTAC 132° radial extending from the 8.8-mile radius to 9.6 miles southeast of the Providence VORTAC, excluding that airspace within the North Kingstown, RI, Pawtucket, RI, Newport, RI, and Fall River, MA, Class E Airspace.

BILLING CODE 4910–13–P

14 CFR Part 71

[Airspace Docket No. 94–AWP–4]

Establishment of Class E Airspace; South Lake Tahoe, CA

AGENCY: Federal Aviation Administration (FAA), DOT

ACTION: Final rule.

SUMMARY: This action establishes Class E airspace at South Lake Tahoe, CA. A Localizer Type Directional Aid (LDA)/Distance Measuring Equipment (DME) standard instrument approach procedure (SIAP) has been developed for the South Lake Tahoe Municipal Airport. Controlled airspace extending upward from the surface is needed for aircraft executing the approach. The establishment of Class E airspace will provide adequate airspace for instrument flight rules (IFR) operations at South Lake Tahoe Municipal Airport. The area will be depicted on aeronautical charts to provide a reference for pilots operating in the area.

EFFECTIVE DATE: 0901 u.t.c., December 8, 1994.

FOR FURTHER INFORMATION CONTACT: Scott Speer, System Management Branch, AWP–530, Air Traffic Division, Western-Pacific Region, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California, 90261; telephone (310) 297–0697.

SUPPLEMENTARY INFORMATION:

History

On March 15, 1994, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish a Class E Airspace area at South Lake Tahoe, CA. (59 FR 14804). An SIAP was being developed for the South Lake Tahoe Municipal Airport at South Lake Tahoe, CA. This will add controlled airspace extending from the surface for IFR operations at South Lake Tahoe Municipal Airport. Interested parties were invited to participate in this rulemaking proceedings by submitting written comments on the proposal to the FAA. No objections were received concerning this proposal. The coordinates in the proposal were based on North American Datum 83. Class E airspace designations for airspace areas extending upward from the surface designated as an extension to a Class D surface area are published in Paragraph 6004 of FAA Order 7400.9A dated June 17, 1993, and effective September 16, 1993, which is incorporated by reference in 14 CFR 71.1 (58 FR 36298; July 6, 1993). The Class E airspace designation listed in this document will be published subsequently in this Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulation establishes Class E airspace at South Lake Tahoe, CA. This action will provide adequate Class E airspace for IFR operators executing the LDA/DME–1/2 approaches at South Lake Tahoe, CA.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. app. 1348(a), 1354(a), 1510; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9A, Airspace Designations and Reporting Points, dated June 17, 1993, and effective September 16, 1993, is amended as follows:

Paragraph 6004 Class E airspace areas designated as an extension to a Class D surface area

* * * * *

AWP CA E4 South Lake Tahoe, CA [New]

Lake Tahoe Airport, CA
(Lat. 38°53'38" N, Long. 119°59'43" W)

That airspace extending upward from the surface within 1.8 miles each side of the South Lake Tahoe LDA/DME south course extending from the 4.3-mile radius of South Lake Tahoe Airport to 9.8-miles north of the airport. This Class E airspace is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory

14 CFR Part 71

[Airspace Docket No. 93–ANM–46]

Amendment of Class E Airspace; Idaho Falls, ID

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends the Idaho Falls, Idaho, Class E airspace. Controlled airspace extending from 700 feet above ground level (AGL) is necessary to accommodate an amendment to an instrument approach procedure for the Fanning Field Airport, Idaho Falls, Idaho. Airspace reclassification, in effect as of September 16, 1993, has discontinued the use of the term "transition area," replacing it with the designation "Class E airspace." The airspace will be depicted on aeronautical charts for pilot reference.

EFFECTIVE DATE: 0901 u.t.c., August 18, 1994.

FOR FURTHER INFORMATION CONTACT: James E. Riley, ANM–537, Federal Aviation Administration, Docket No 93–ANM–46, 1601 Lind Avenue SW., Renton, Washington 98055–4056; Telephone: (206) 227–2537.

SUPPLEMENTARY INFORMATION:

History

On April 11, 1994, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) by amending the Idaho Falls, Idaho, Class E airspace (59 FR 17055). Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments were received.

Airspace reclassification, in effect as of September 16, 1993, has discontinued the use of the term "transition area," and certain airspace areas extending upward from 700 feet or more above the surface of the earth are now Class E airspace areas. Class E airspace designations for airspace areas extending 700 feet or more above the surface of the earth are published in Paragraph 6005 of FAA Order 7400.9A dated June 17, 1993, and effective September 16, 1993, which is incorporated by reference in 14 CFR 71.1 (58 FR 36298; July 6, 1993). The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations amends

the Class E airspace at Idaho Falls, Idaho. This action is necessary to accommodate an amendment to an instrument approach procedure for the Fanning Field Airport, Idaho Falls, Idaho.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows

PART 71—[AMENDED]

1. The authority citation for part 71 continues to read as follows

Authority: 49 U.S.C. app. 1348(a) 1354(a) 1510; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9A, Airspace Designations and Reporting Points, dated June 17, 1993, and effective September 16, 1993, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth

* * * * *

ANM ID E5 Idaho Falls, ID [Revised]

Idaho Falls, Fanning Field, ID

14 CFR Part 71

[Airspace Docket No. 94–ANM–9]

Establishment of Class E Airspace; Sandpoint, ID

AGENCY: Federal Aviation Administration (FAA), DOT

ACTION: Final rule.

SUMMARY: This action establishes the Sandpoint, Idaho, Class E airspace. This action is necessary to accommodate arrival/departure aircraft transitioning between the enroute and terminal areas in western Idaho. The area will be depicted on aeronautical charts.

EFFECTIVE DATE: 0901 u.t.c., August 18, 1994.

FOR FURTHER INFORMATION CONTACT: James Riley, ANM–537, Federal Aviation Administration, Docket No. 94–ANM–9, 1601 Lind Avenue SW., Renton, Washington 98055–4056; telephone number: (206) 227–2537

SUPPLEMENTARY INFORMATION:

History

On April 4, 1994, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish the Sandpoint, Idaho, Class E airspace area (59 FR 15669). This action is necessary to accommodate arrival/departure aircraft transitioning between the enroute and terminal areas in western Idaho. The area will be depicted on aeronautical charts for pilot reference. Interested parties were invited to participate in the rulemaking proceeding by submitting written comments on the proposal. No comments were received. This action is the same as the proposal except for a typographical error discovered (and corrected herein) in the coordinates of the airspace description for Fairchild AFB, Washington. The coordinates for this airspace docket are based on North American Datum 83. Class E airspace is published in Paragraph 6006 of FAA Order 7400.9A dated June 17, 1993, and effective September 16, 1993, which is incorporated by reference in 14 CFR 71.1 (58 FR 36298; July 6, 1993). The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of Federal Aviation Regulations establishes Class E airspace at Sandpoint, Idaho. The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the FAA amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. app. 1348(a), 1354(a), 1510; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9A, Airspace Designations and Reporting Points, dated June 17, 1993, and effective September 16, 1993, is amended as follows:

Paragraph 6006 Enroute domestic airspace areas

* * * * *

ANM ID E6 Sandpoint, ID [New]

Fairchild AFB, WA
(Lat. 47°36'54" N., Long. 117°39'29" W.)

That airspace extending upward from 6,500 feet MSL bounded on the north by Lat 48°30'00" N., on the east by the Idaho/Montana state boundary, on the south by the north edge of V–120, on the west by the 45.3-mile radius of Fairchild AFB and the east edge of V–112; excluding Federal airways and that airspace below 1,200 feet AGL.

BILLING CODE 4910–13–M

14 CFR Part 71

[Airspace Docket No. 94–AGL–3]

Modification of Class E Airspace; Warroad, MN

AGENCY: Federal Aviation Administration (FAA), DOT

ACTION: Final rule.

SUMMARY: This action modifies Class E airspace at Warroad International-Swede Carlson Field, Warroad, MN, to accommodate an Instrument Landing System (ILS) Runway 31, and Nondirectional Beacon (NDB) Runway 31 Standard Instrument Approach (SIAP). Controlled airspace extending upward from 700 to 1200 feet above ground level (AGL) is needed for aircraft executing the approach. The intended effect of this action is to provide segregation of aircraft using instrument approach procedures in instrument conditions from other aircraft operating in visual weather conditions.

EFFECTIVE DATE: 0901 u.t.c., August 18, 1994.

FOR FURTHER INFORMATION CONTACT: Robert J. Woodford, Air Traffic Division, System Management Branch, AGL–530, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (708) 294–7568.

SUPPLEMENTARY INFORMATION:

History

On Tuesday, March 29, 1994, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to modify Class E airspace at Warroad International-Swede Carlson Field, Warroad, MN (59 FR 14574). The proposal was to modify Class E airspace to accommodate Instrument Landing System (ILS) Runway 31, and Nondirectional Beacon (NDB) Runway 31 Standard Instrument Approach (SIAP). Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received.

The coordinates for this airspace docket are based on North American Datum 83. Class E airspace designations are published in Paragraph 6005 of FAA Order 7400.9A dated June 17, 1993, and effective September 16, 1993, which is incorporated by reference in 14 CFR 71.1 (58 FR 36298; July 6, 1993). The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations to modify Class E airspace at Warroad International-Swede Carlson Field, Warroad, MN, to accommodate Instrument Landing System (ILS) Runway 31, and Nondirectional Beacon (NDB) Runway 31 Standard Instrument Approach (SIAP). Controlled airspace extending from 700 to 1200 feet AGL is needed to contain aircraft executing the approach.

Aeronautical maps and charts will reflect the defined area which will enable pilots to circumnavigate the area in order to comply with applicable visual flight rule requirements.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. app. 1348(a), 1354(a), 1510; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9A, Airspace Designations and Reporting Points, dated June 17, 1993, and effective September 16, 1993, is amended as follows:

Paragraph 6005 Class E airspace areas listed below extend upward from 700 feet or more above the surface of the earth

* * * * *

AGL MN E5 Warroad, MN [Revised]

Warroad International-Swede Carlson Field
(Lat. 48°56'26" N, Long. 95°20'48" W)

That airspace extending upward from 700 feet above the surface within a 7-mile radius of the Warroad International-Swede Carlson Field, excluding that area north of Lat 49°00'00" N (Canadian-U.S. boundary).

Amendment of Class E Airspace; La Grande, OR

AGENCY: Federal Aviation Administration (FAA), DOT

ACTION: Final rule.

SUMMARY: This action amends the La Grande, Oregon, Class E airspace. This action is necessary to accommodate arrival/departure aircraft transitioning between the en route and terminal areas in southeastern Oregon. The area will be depicted on aeronautical charts.

EFFECTIVE DATE: 0901 u.t.c., August 18, 1994

FOR FURTHER INFORMATION CONTACT:
James Riley, ANM–537, Federal Aviation Administration, Docket No. 94–ANM–8, 1601 Lind Avenue SW., Renton, Washington 98055–4056; telephone number: (206) 227–2537

SUPPLEMENTARY INFORMATION:

History

On April 4, 1994, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to provide additional airspace to accommodate arrival/departure aircraft transitioning between the en route and terminal areas in southeastern Oregon (59 FR 15670). Airspace reclassification, in effect as of September 16, 1993, has discontinued the use of the term "transition area," and certain airspace areas extending upward from 700 feet or more above the surface of the earth are now Class E airspace areas. The area will be depicted on aeronautical charts for pilot reference. Interested parties were invited to participate in the rulemaking proceeding by submitting written comments on the proposal. No comments were received. This action is the same as the proposal except for a typographical error discovered and corrected herein in the coordinates for La Grande/Union County Airport. The coordinates for this airspace docket are based on North American Datum 83. Class E airspace is published in Paragraph 6005 of FAA Order 7400.9A dated June 17, 1993, and effective September 16, 1993, which is incorporated by reference in 14 CFR 71.1 (58 FR 36298; July 6, 1993). The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of Federal Aviation Regulations amends Class E airspace at La Grande, Oregon. The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the FAA amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. app. 1348(a), 1354(a), 1510; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9A, Airspace Designations and Reporting Points, dated June 17, 1993, and effective September 16, 1993, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth

* * * * *

ANM OR E5 La Grande, OR [Revised]

La Grande/Union County Airport, OR
(Lat. 45°17'25" N., Long. 118°00'26" W.)

That airspace extending upward from 700 feet above the surface bounded on the north by a line beginning at Lat. 45°38'59" N., Long. 118°02'04" W., extending eastwardly to Lat. 45°37'00" N., Long. 117°44'34" W., on the east by a line extending to Lat. 45°15'29" N., Long. 117°49'04" W., on the south by a line extending to Lat. 45°17'29" N., Long. 118°07'04" W., on the west by a line extending to the point of beginning, and within a 4.3-mile radius of the La Grande/Union County Airport; that airspace extending upward from 1,200 feet above the surface bounded by a line beginning at Lat. 45°38'59" N., Long. 118°02'04" W., extending northwest along V–357 to the Walla Walla VOR/DME 16.6-mile radius; thence north along the Walla Walla VOR/DME 16.6-mile radius until intercepting Lat. 46°00'00" N., thence eastward along Lat. 46°00'00" N., to Long. 117°02'00" W.; thence south along Long. 117°02'00" W., until intercepting V–298; thence westward along V–298 to Lat. 45°23'30" N., Long. 117°47'10" W.; to Lat. 45°37'00" N., Long. 117°44'34" W.; thence to the point of beginning, excluding that airspace within Federal Airways.

BILLING CODE 4910–13–M

14 CFR Part 71

[Airspace Docket No. 94–ANM–5]

Establishment of Class E Airspace; Cascade Range, WA

AGENCY: Federal Aviation Administration (FAA), DOT

ACTION: Final rule.

SUMMARY: This action establishes the Cascade Range, Washington, Class E airspace. This action is necessary to accommodate arrival/departure aircraft transitioning between the en route and terminal areas east of Seattle, Washington. The area will be depicted on aeronautical charts.

EFFECTIVE DATE: 0901 UTC, August 18, 1994.

FOR FURTHER INFORMATION CONTACT:
James Riley, ANM–537, Federal Aviation Administration, Docket No. 94–ANM–5, 1601 Lind Avenue SW., Renton, Washington, 98055–4056; telephone number: (206) 227–2537

SUPPLEMENTARY INFORMATION:

History

On April 4, 1994, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish the Cascade Range, Washington, Class E airspace area (59 FR 15671). This action is necessary to accommodate arrival/departure aircraft transitioning between the en route and terminal area east of Seattle, Washington. The area will be depicted on aeronautical charts for pilot reference. Interested parties were invited to participate in the rulemaking proceeding by submitting written comments on the proposal. No comments were received. This action is the same as the proposal except for a typographical error discovered and offered herein in the coordinates of the airspace description. The coordinates for this airspace docket are based on North American Datum 83. Class E airspace is published in Paragraph 6006 of FAA Order 7400.9A dated June 17, 1993, and effective September 16, 1993, which is incorporated by reference in 14 CFR 71.1 (58 FR 36298; July 6, 1993). The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of Federal Aviation Regulations established Class E airspace at Cascade Range, Washington. The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally

current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the FAA amends 14 CFR part 71 as follows:

PART 71—[AMENDED]

1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. app. 1348(a), 1354(a), 1510; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389; 49 U.S.C. 106(g); 14 CFR 11.69.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9A, Airspace Designations and Reporting Points, dated June 17, 1993, and effective September 16, 1993, is amended as follows:

Paragraph 6006 Enroute domestic airspace areas

* * * * *

ANM WA E6 Cascade Range, WA [New]

That airspace extending upward from 1,200 feet AGL bounded on the north by the south edge of V–120, on the east by Long. 120°00'00" W., on the south by the north edge of V–204, and on the west by Long. 121°35'04" W., excluding Federal airways, Wenatchee, Ellensburg, and Yakima Class E airspace areas.

BILLING CODE 4910–13–M

14 CFR Part 71

[Airspace Docket No. 94–ANM–7]

Amendment to Class E Airspace; Kalispell, MT

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends the Kalispell, Montana, Class E airspace. This action is necessary to accommodate arrival/departure aircraft transitioning between the en route and terminal areas in western Montana. Airspace reclassification, in effect as of September 16, 1993, has discontinued the use of the term "transition area," replacing it with the designation "Class E airspace." The area will be depicted on aeronautical charts.

EFFECTIVE DATE: 0901 UTC, August 18, 1994.

FOR FURTHER INFORMATION CONTACT: James Riley, ANM–537, Federal Aviation Administration, Docket No. 94–ANM–7, 1601 Lind Avenue, SW., Renton, Washington, 98055–4056; telephone number: (206) 227–2537.

SUPPLEMENTARY INFORMATION:

History

On March 21, 1994, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to amend the Kalispell, Montana, Class E airspace area (59 FR 13263). This action is necessary to accommodate arrival/departure aircraft transitioning between the en route and terminal area in western Montana. The area will be depicted on aeronautical charts for pilot reference. Interested parties were invited to participate in the rulemaking proceeding by submitting written comments on the proposal. No comments were received. Airspace reclassification, in effect as of September 16, 1993, has discontinued the use of the term "transition area," and certain airspace areas extending upward from 700 feet or more above the surface of the earth are now Class E airspace areas. The coordinates for this airspace docket are based on North American Datum 83. Class E airspace is published in Paragraph 6005 of FAA Order 7400.9A dated June 17, 1993, and effective September 16, 1993, which is incorporated by reference in 14 CFR 71.1 (58 FR 36298; July 6, 1993). The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations amends Class E airspace at Kalispell, Montana. The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

BILLING CODE 4910-13-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Parts 16 and 1270

[Docket No. 93N-0453]

Public Workshop on Human Tissue Intended for Transplantation

AGENCY: Food and Drug Administration, HHS.

ACTION: Interim rule; notification of public workshop.

SUMMARY: The Food and Drug Administration (FDA), Center for Biologics Evaluation and Research (CBER), is holding a public workshop to discuss specific topics relating to an interim rule on human tissue intended for transplantation that appeared in the **Federal Register** of December 14, 1993.

DATES: The public workshop will be held on Monday, June 20, 1994, 8:30 to 5 p.m. Submit comments and information on issues addressed at the workshop by August 20, 1994.

ADDRESSES: The public workshop will be held at the Holiday Inn Gaithersburg, 2 Montgomery Village Ave., Gaithersburg, MD. To register for the workshop, contact April Wells, KRA Corp., 1010 Wayne Ave., suite 850, Silver Spring, MD 20910, 301-495-1591; or FAX 301-495-9410. Registration will also be accepted at the workshop.

Submit written comments regarding the workshop to the Dockets Management Branch (HFA-305), Food and Drug Administration, rm. 1-23, 12420 Parklawn Dr., Rockville, MD 10857.

FOR FURTHER INFORMATION CONTACT: Joseph Wilczek, Center for Biologics Evaluation and Research (HFM-300), Food and Drug Administration, 1401 Rockville Pike, suite 200N, Rockville, MD 20852-1448, 301-594-6700.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of December 14, 1993 (58 FR 65514), FDA published an interim rule on human tissue intended for transplantation. This interim rule requires certain infectious disease testing, donor screening, and recordkeeping to help prevent the transmission of acquired immunodeficiency syndrome (AIDS) and hepatitis through human tissue used in transplantation. The regulations set forth in the interim rule became effective upon publication. Interested persons were given until March 14, 1994, to comment on the interim rule.

The objective of this public workshop is to discuss practical concerns expressed in received public comments relating to the implementation of the interim rule. The following topics will be discussed:

1. Experience with the interim rule;

2. Management of testing relative to hemodilution;

3. Experience with test kit performance on cadaveric blood samples; and

4. Management of current inventories in regard to testing for human immunodeficiency virus (HIV) and hepatitis C virus (HCV).

Discussion of these topics will be considered by FDA in the development of any future rulemaking.

FDA is reopening the comment period to the interim rule so that interested persons may submit comments on the workshop. Persons who wish to provide additional materials for consideration should file these materials with the Dockets Management Branch (address above).

Interested persons may, on or before August 20, 1994, submit to the Dockets Management Branch (address above), written comments regarding this document. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: June 6, 1994.

Michael R. Taylor,

Deputy Commissioner for Policy.

BILLING CODE 4160-01-F

DEPARTMENT OF STATE

Bureau of Political-Military Affairs

[Public Notice 2018]

22 CFR Parts 123, 124, and 126

Amendment to the International Traffic in Arms Regulations (ITAR)

AGENCY: Department of State.

ACTION: Final rule.

SUMMARY: On July 22, 1993, the Department published a major revision to the International Traffic in Arms Regulations (ITAR) (58 FR 39280). After being in use by government agencies and industry for several months, certain issues were identified which required revision. The revisions made in this final rule are viewed by the Department of State as beneficial for U.S. persons and industry.

EFFECTIVE DATE: June 10, 1994.

FOR FURTHER INFORMATION CONTACT: Information regarding this notice may be obtained from Department of State, Office of Defense Trade Controls. Rose Marie Biancaniello, Deputy Director for Licensing, or Glenn Smith, Licensing Officer, may be reached by phone at 703 875-6643 or fax at 703 875-6647.

SUPPLEMENTARY INFORMATION: On July 22, 1993, the Department published a major revision to the International Traffic in Arms Regulations (ITAR) (58 FR 39280). After several months of implementation and various training seminars with other government agencies and with industry, several issues have been identified which merit regulatory or procedural changes. This final rule is being published to address three (3) of the issues. Section 123.16(a) is revised to exclude significant military equipment from the exemption stated in § 123.16. This change was deemed necessary in order to ensure compliance with the Department's congressional notification requirements and the ITAR requirement for nontransfer and use certification for defense articles which are defined in part 120 of the ITAR as "significant military equipment". In addition, § 124.10 is amended by removing the requirement that a signed DSP-83 be submitted with proposed agreements. Compliance with this requirement has proven to be difficult, and of insufficient benefit to the Department to merit continuation of the requirement. Finally, § 126.5 is amended by deleting the exception to the Canadian exemption which requires a license for the export to Canada of unclassified technical data directly related to a classified defense article.

The Department of State views these changes as beneficial for U.S. persons and industry and has decided to implement them immediately by publication of a final rule. Notwithstanding this final rule, public comment is welcomed.

This amendment involves a foreign affairs function of the United States. It is exempt from review under E.O. 12866 and has been reviewed internally by the Department of State to ensure consistency with the purposes thereof. It is also excluded from the procedures of 5 U.S.C. 553 and 554.

List of Subjects

22 CFR Part 123

Arms and munitions, Exports

22 CFR Part 124

Arms and munitions, Exports, Technical assistance.

22 CFR Part 126

Arms and munitions, Exports

Accordingly, for the reasons set forth in the preamble, 22 CFR subchapter M, parts 123, 124 and 126 are amended as follows:

PART 123—LICENSES FOR THE EXPORT OF DEFENSE ARTICLES

1. The authority citation for 22 CFR part 123 continues to read as follows:

Authority: Secs. 2 and 38, Pub. L. 90-629, 90 Stat. 744 (22 U.S.C. 2752, 2778); E.O. 11958, 42 FR 4311, 3 CFR 1977 Comp. 79; 22 U.S.C. 2658

2. Section 123.16 is amended by revising paragraph (a) to read as follows:

§ 123.16 Exemptions of general applicability.

(a) The following exemptions apply to exports of unclassified defense articles for which no approval is needed from the Office of Defense Trade Controls. These exemptions do not apply to: Proscribed destinations under § 126.1 of this subchapter; exports for which Congressional notification is required (see § 123.15 of this subchapter); MTCR articles; Significant Military Equipment (SME); and may not be used by persons who are generally ineligible as described in § 120.1(c) of this subchapter. All shipments of defense articles, including those to and from Canada, require a Shipper's Export Declaration (SED) or notification letter. If the export of a defense article is exempt from licensing, the SED must cite the exemption. Refer to § 123.22 for Shipper's Export Declaration and letter notification requirements.

* * * * *

PART 124—AGREEMENTS, OFF-SHORE PROCUREMENT AND OTHER DEFENSE SERVICES

3. The authority citation for 22 CFR part 124 continues to read as follows:

Authority: Secs. 2, 38, and 71, Pub. L. 90-629, 90 Stat. 744 (22 U.S.C. 2752, 2778, 2797); E.O. 11958, 42 FR 4311; 3 CFR 1977 Comp. p. 79; 22 U.S.C. 2658.

4. Section 124.10 is revised to read as follows:

§ 124.10 Nontransfer and use assurances.

(a) *Types of agreements requiring assurances.* With respect to any manufacturing license agreement or technical assistance agreement which relates to significant military equipment or classified defense articles, including classified technical data, a Nontransfer and Use Certificate (Form DSP-83) (see § 123.10 of this subchapter) signed by the applicant and the foreign party must be submitted to the Office of Defense Trade Controls. With respect to all agreements involving classified articles, including classified technical data, an authorized representative of the foreign government must sign the DSP-83 (or provide the same assurances in the form of a diplomatic note), unless the Office of Defense Trade Controls has granted an exception to this requirement. The Office of Defense Trade controls may require that a DSP-83 be provided in conjunction with an agreement that does not relate to significant military equipment or classified defense articles. The Office of Defense Trade Controls may also require with respect to any agreement that an appropriate authority of the foreign party's government also sign the DSP-83 (or provide the same assurances in the form of a diplomatic note).

(b) *Timing of submission of assurances.* Submission of a Form DSP-83 and/or diplomatic note must occur as follows:

(1) Agreements which have been signed by all parties before being submitted to the Office of Defense Trade Controls may only be submitted along with any required DSP-83 and/or diplomatic note.

(2) If an agreement has not been signed by all parties before being submitted, the required DSP-83 and/or diplomatic note must be submitted along with the signed agreement.

Note: In no case may a transfer occur before a required DSP-83 and/or diplomatic note has been submitted to the Office of Defense Trade Controls.

PART 126—GENERAL POLICIES AND PROVISIONS

5. The authority citation for 22 CFR part 126 continues to read as follows:

Authority: Secs. 2, 38, 40, 42, and 71, Arms Export Control Act, Pub. L. 90-629, 90 Stat. 744 (22 U.S.C. 2752, 2778, 2780, 2791 and 2797); E.O. 11958, 42 FR 4311, E.O. 11322, 32 FR 119; 22 U.S.C. 2658.

6. Section 126.5 is revised to read as follows:

§ 126.5 Canadian exemptions.

(a) District Directors of Customs and postmasters shall permit the permanent or temporary export or temporary import without a license of any unclassified equipment or unclassified technical data to Canada for end use in Canada by Canadian citizens or return to the United States, or from Canada for end use in the United States or return to a Canadian citizen in Canada, with the exception of the defense articles, defense services or related technical data.

(b) *Exceptions.* The exemptions of this section do not apply to the following defense articles, defense services, or related technical data:

(1) Fully automatic firearms and components and parts therefor in Category I(a) which are not for end use by the Federal Government, or a Provincial or Municipal Government of Canada;

(2) Nuclear weapons strategic delivery systems and all components, parts, accessories, attachments specifically designed for such systems and associated equipment;

(3) Nuclear weapon design and test equipment listed in Category XVI;

(4) Naval nuclear propulsion equipment listed in Category VI(e);

(5) Aircraft listed in Category VIII(a);

(6) Submersible and oceanographic vessels and related articles listed in Category XX (a) through (d).

(7) Defense articles, defense services, or related technical data for use by a foreign national other than a Canadian.

(c) *Related requirements.* The foregoing exemption from obtaining an export license does not exempt an exporter from complying with the requirements set forth in § 123.15 of this subchapter or from filing the Shipper's Export Declaration or notification letter required by § 123.22 of this subchapter.

(d) *Part 124 agreements.* The requirements of part 124 of this subchapter must be complied with in the situations contemplated in that part. For example, the exemptions of this section may not be used for the provision of defense services except pursuant to an approved manufacturing

license agreement or technical assistance agreement.

Dated: May 13, 1994.

Lynn E. Davis,

Under Secretary of State for International Security Affairs.

BILLING CODE 4710–25–M

DEPARTMENT OF DEFENSE

Office of the Secretary

32 CFR Part 367

[DoD Directive 5136.1]

Assistant Secretary of Defense for Health Affairs

AGENCY: Office of the Secretary, DoD.

ACTION: Final rule.

SUMMARY: This document revises the responsibilities, functions, relationships, and authorities of the Assistant Secretary of Defense for Health Affairs ASD(HA). The principal revision, the assignment of the Health Affairs functions under the Under Secretary of Defense for Personnel and Readiness is consistent with Section 903 of the FY 1994 Defense Authorization Act.

EFFECTIVE DATE: May 27, 1994.

FOR FURTHER INFORMATION CONTACT: G. Meiners, (703) 697–1142.

SUPPLEMENTARY INFORMATION:

List of Subjects in 32 CFR Part 367

Organization and functions (Government agencies).

Accordingly, 32 CFR part 367 is revised to read as follows:

PART 367—ASSISTANT SECRETARY OF DEFENSE FOR HEALTH AFFAIRS

Sec.

367.1 Purpose.
367.2 Applicability.
367.3 Responsibilities and functions.
367.4 Relationships.
367.5 Authorities.

Authority: 10 U.S.C. 113 and 138.

§ 367.1 Purpose.

Pursuant to the authority vested in the Secretary of Defense by 10 U.S.C. 113 and 138, this part updates the responsibilities, functions, relationships, and authorities of the ASD(HA), as prescribed herein.

§ 367.2 Applicability.

This part applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Chairman of the Joint Chiefs of Staff, the Unified Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, and the DoD Field Activities (hereafter referred to collectively as "the DoD Components").

§ 367.3 Responsibilities and functions.

The Assistant Secretary of Defense for Health Affairs, as the principal staff assistant and advisor to the Under Secretary of Defense for Personnel and Readiness (USD(P&R)) and the Secretary and Deputy Secretary of Defense for all DoD health policies, programs, and activities, shall effectively execute the Department's medical mission, which is to provide, and to maintain readiness to provide, medical services and support to members of the Armed Forces during military operations, and to provide medical services and support to members of the Armed Forces, their dependents, and others entitled to DoD medical care.

(a) In carrying out these responsibilities, the ASD(HA) shall exercise authority, direction, and control over the medical personnel, facilities, programs, funding, and other resources within the Department of Defense, including, but not limited to:

(1) Establishing policies, procedures, and standards that shall govern DoD medical programs.

(2) Serving as program manager for all DoD health and medical resources. Preparing and submitting in the Department's planning, programming, and budgeting system (PPBS) a unified medical program and budget to provide resources for all medical activities within the Department of Defense. Consistent with applicable law, all funding for the DoD medical program, including operation and maintenance, procurement, and the Civilian Health and Medical Program of the Uniformed Services, but excluding funds for active and reserve medical military personnel, shall be accounted for in a single defense medical appropriations account. Funds for medical facility military construction shall be in a separate, single appropriations account.

(3) Presenting and justifying the unified medical program and budget throughout the PPBS process, including representations before the Congress.

(4) Co-chairing with the Director, Defense Research and Engineering, the Armed Services Biomedical Research Evaluation and Management Committee, which facilities consideration of DoD biomedical research.

(5) Performing such other functions as the USD(P&R) and the Secretary of Defense may prescribe.

(b) The ASD(HA) may not direct a change in the structure of the chain of command within a Military Department with respect to medical personnel and may not direct a change in the structure of the chain of command with respect to medical personnel assigned to that command.

§ 367.4 Relationships.

(a) In the performance of assigned responsibilities and functions, the ASD(HA) shall serve under the authority, direction, and control of the USD(P&R) and shall:

(1) Report directly to the USD(P&R).

(2) Exercise authority, direction, and control over:

(i) The Director, Office of Civilian Health and Medical Program of the Uniformed Services.

(ii) The Director, Defense Medical Programs Activity.

(iii) The Director, Armed Forces Institute of Pathology.

(iv) The President, Uniformed Services University of the Health Sciences (USUHS), pursuant to the authority vested in the Secretary of Defense by 10 U.S.C. Chapter 104, except that the authority to appoint the President of the USUHS is reserved to the Secretary of Defense.

(v) Such other subordinate officials as may be assigned.

(3) Consult, as appropriate, with the Comptroller of the Department of Defense (C, DoD) and the Director, Program Analysis and Evaluation, to ensure that medical planning, programming, and budgeting activities are integrated with the DoD PPBS. The C, DoD, shall allocate and reallocate the funds in the Defense Health Program account and the medical facility military construction account among the DoD Components in accordance with ASD(HA) instructions, as coordinated with the USD(P&R), and applicable law.

(4) Obtain through the Chairman of the Joint Chiefs of Staff, submissions of the operational and other needs of the Commanders of the Unified Combatant Commands, and obtain submissions from the Secretaries of the Military Departments of their proposed elements of the medical unified program and budget, and integrate those submissions as appropriate.

(5) Coordinate and exchange information with other OSD officials and the Heads of DoD Components having collateral or related functions.

(6) Use existing facilities and services of the Department of Defense and other Federal and non-Federal Agencies, whenever practicable, to achieve maximum efficiency and economy.

(b) Other OSD officials and the Heads of the DoD Components shall coordinate with the ASD(HA) on all matters related

to the responsibilities and functions in § 367.3.

§ 367.5 Authorities.

The ASD(HA) is hereby delegated authority to:

(a) Issue DoD Instructions, DoD publications, and one-time directive-type memoranda, consistent with DoD 5025.1–M [1], that implement policy approved by the Secretary of Defense in assigned fields of responsibility. Instructions to the Military Departments shall be issued through the Secretaries of those Departments. Instructions to Unified Combatant Commands shall be communicated through the Chairman of the Joint Chiefs of Staff.

(b) Obtain reports, information, advice, and assistance, consistent with DoD Directive 8910.1 [2] as necessary to carry out assigned functions.

(c) Communicate directly with the Heads of the DoD Components. Communications to the Commanders of the Unified Combatant Commands shall be coordinated through the Chairman of the Joint Chiefs of Staff.

(d) Make determinations on the uniform implementation of laws on separation from the Military Departments due to physical disability as prescribed in DoD Directive 1332.18 [3].

(e) Develop, issue, and maintain regulations, with the coordination of the Military Departments, as necessary and appropriate to fulfill the Secretary of Defense's responsibility to administer 10 U.S.C. Chapter 55.

(f) Establish arrangements for DoD participation in nondefense governmental programs for which the ASD(HA) has been assigned primary cognizance.

(g) Communicate with other Government officials, representatives of the legislative branch, members of the public, and representatives of foreign governments, as appropriate, in carrying out assigned functions.

Dated: June 6, 1994.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[IN31–1–5934; FRL–4888–2]

Approval and Promulgation of Implementation Plan; Indiana

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The United States Environmental Protection Agency (USEPA) is approving the State Implementation Plan (SIP) revision request adopted by the Indiana Pollution Control Board on July 21, 1993, and formally submitted by the state of Indiana on January 6, 1994, for the purpose of implementing an emission statement program for stationary sources within the ozone nonattainment counties of Clark, Elkhart, Floyd, Lake, Marion, Porter, St. Joseph, and Vanderburgh. The implementation plan was submitted by the state to satisfy the Federal requirements for an emission statement program as part of the SIP for Indiana.

EFFECTIVE DATE: This final rule will be effective August 9, 1994 unless notice is received by July 11, 1994 that someone wishes to submit adverse comments. If the effective date is delayed, timely notice will be published in the **Federal Register**.

ADDRESSES: Comments on this action should be addressed to: J. Elmer Bortzer, Chief, Regulation Development Section, Regulation Development Branch (AR–18J), U.S. Environmental Protection Agency, 77 West Jackson Boulevard, Chicago, Illinois 60604.

Copies of the requested SIP revision, technical support documents and public comments received are available at the following address: U.S. Environmental Protection Agency, Region 5, Air and Radiation Division, 77 West Jackson Boulevard (AR–18J), Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: Hattie Geisler, Regulation Development Section (AR–18), Regulation Development Branch, U.S. Environmental Protection Agency, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886–3199. Anyone wishing to come to Region 5 offices should contact Hattie Geisler first. Reference File IN31–1–5934.

A copy of this revision to the Indiana SIP is available for inspection at: Office of Air and Radiation (OAR), Docket and Information Center (Air Docket 6102), room M1500, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460, (202) 260–7548.

SUPPLEMENTARY INFORMATION:

I. Summary of State Submittal

On July 21, 1993, the Indiana Pollution Control Board adopted and on January 6, 1994, the Indiana Department of Environmental Management (IDEM) formally submitted to the USEPA a request to approve the July 21, 1993, adopted emission statement regulations, codified as 326 IAC 2–6. This submission addresses the emission statement requirements which are found in section 182(a)(3)(B) of the Clean Air Act (Act), as amended (1990 Amendments).

Section 182(a)(3)(B) of the Act states that, within 2 years after the enactment of the Act, states with ozone nonattainment areas (classified as marginal or worse) must submit revisions to their SIPs to require the owners or operators of stationary sources of Volatile Organic Compounds (VOC) or Oxides of Nitrogen (NO_X) to provide the states with statements, in a form acceptable to the USEPA, showing actual emissions of NO_X and/or VOC from the sources. The first emission statements must be submitted within 3 years of the enactment of the Act. Subsequent statements are to be submitted annually thereafter. These statements must contain certifications of accuracy.

Section 182(a)(3)(B)(ii) of the Act specifies that the states may waive the requirements for emission statements for any class or category of sources which emit less than 25 tons per year if the states, through the submission of base year emission inventories or periodic emission inventories (required to be submitted to the USEPA every three years), provide for the reporting of the emissions from the exempted source classes or categories and emissions are determined using emission factors acceptable to the USEPA.

II. Analysis of State Submittal

The criteria used to review the submitted SIP revisions are found in USEPA's draft Guidance on the Implementation of an Emission Statement Program, (July 1992). It should be noted that this guideline has not been finalized, but does provide current USEPA guidance on the contents of emission statements and on the states' use of emission statements. For this reason, the July 1992 draft guidance has been used for the technical review of this submission. It should be noted that the USEPA intends to incorporate the guidelines contained in

the July 1992 guidance into the Code of Federal Regulations in the near future.

The July 1992 guidance describes the following requirements for emission statement SIP revisions:

1. Regardless of what minimum emission reporting level is established, if either VOC or NO_X is emitted at or above the established minimum reporting level, the emissions of both VOC and NO_X should be reported;

2. The emission statements should, at minimum, include the following data:

a. Certification of data accuracy; to be made by an officer of the reporting company who will take legal responsibility for the accuracy of the reported data;

b. Source identification information;

c. Operating schedules;

d. Emissions information, including both annual and typical ozone season daily emissions;

e. Control equipment information; and

f. Process data.

3. States must incorporate the emission statement data into an annual point source emissions submittal to the USEPA. This annual emissions submittal is first due to the USEPA by July 1, 1993;

4. In addition to the submittal of emission statements and the annual point source emissions report, the USEPA is also requesting that states submit an Emissions Statement Status Report (ESSR) beginning by July 1, 1993. The ESSR is to be submitted quarterly each year until all applicable sources have submitted emission statements. The ESSR should individually list the source facilities that are delinquent in submitting emission statements. The ESSR should also include the total annual and typical ozone season day emissions from all source facilities submitting emission statements prior to the ESSR submittal;

5. States are required to use the data collected through the emission statement program to annually update the facility-specific data contained in the Aerometric Information Retrieval System (AIRS) by July 1st of each year; and

6. States must commit to retain emission statement data and submittals for a period of at least three years.

Indiana's submittal contains the adopted regulations that will apply to source facilities and that specify what data are to be submitted. The remainder of this technical review will be dedicated to reviewing the contents and technical merits of the state's adopted regulations and the accompanying state commitments.

As noted above, the emission statement regulations are codified as 326 IAC 2–6. The provisions of the regulations are outlined as follows:

Applicability

The emission statement regulations are applicable to all sources of VOC or NO_X with the potential to emit 10 tons per year or more of VOC or NO_X in the Counties of: Clark, Elkhart, Floyd, Lake, Marion, Porter, St. Joseph, and Vanderburgh. The regulations are also applicable to sources of Carbon Monoxide (CO), VOC, NO_X, Particulate Matter (PM), and Sulfur Dioxide (SO_2) which have the potential to emit 100 tons per year or more and to sources of Lead (Pb) which have the potential to emit 5 tons per year or more in the State of Indiana. If the emissions from a facility surpass the emission cutoff for any of these pollutants, the emissions of all the named pollutants must be addressed in the submitted emission statement.

Definitions

The definitions in 326 IAC 2–6 applicable to the emission statement regulations and of greatest relevance to the emission statement regulations are summarized here.

Actual emissions means the actual rate of emissions of a pollutant from an emissions unit for the calendar year or seasonal period.

Annual process rate means the actual or estimated annual fuel, process, or solid waste operating rate in an emission statement operating year.

Certifying individual means the individual responsible for the completion and certification of the emission statement, such as an officer of the company or an employee, who will take legal responsibility for the accuracy of the emission statement.

Control efficiency means the actual emission control efficiency achieved by the applicable emission control device(s) during the emission statement operating year. The control efficiency must reflect control equipment downtime, operation with diminished effectiveness, and any other malfunctions that occurred while the emission source(s) were in operation. If the actual control efficiency during the emission statement operating year is unknown or cannot reasonably be predicted from available data, then the efficiency designed by the manufacturer may be used. When the actual control efficiency is unknown, it should be clearly indicated that the design efficiency, and not the actual efficiency, is being reported.

Control equipment identification code means the AIRS or AIRS Facility Subsystem (AFS) code which defines the equipment used to reduce by destruction or removal the amount of air pollutant in an air stream prior to discharge to the ambient air.

Downtime means the period of time when the control device is not operational during the corresponding period of the process.

Emission factor means an estimate of the rate at which a pollutant is released to the atmosphere as the result of some activity, divided by the rate of that activity, such as production rate or throughput.

Emission statement operating year means the 12 consecutive month time period starting December 1 and ending November 30 for those sources located in Clark, Elkhart, Floyd, Lake, Marion, Porter, St. Joseph, or Vanderburgh Counties with the potential to emit VOC or NO_X into the ambient air at levels equal to or greater than 10 tons per year, or the 12 consecutive month time period starting January 1 and ending December 31 for all other sources to which the emission statement regulations apply (see the discussion of applicability above).

Estimated emissions method code means a one position (one character) AIRS or AFS code which identifies the estimation technique used in the calculation of estimated emissions.

Fugitive emission means releases to the air that are not emitted through stacks, vents, ducts, pipes, or any other confined air stream. Fugitive emissions include equipment leaks, evaporative losses from surface impoundments, and releases from building ventilation systems.

Peak ozone season means the contiguous three-month period of the year from June through August.

Percentage annual throughput means:

1. The weighted percent of yearly activity for those sources located in Clark, Elkhart, Floyd, Lake, Marion, Porter, St. Joseph, or Vanderburgh Counties with the potential to emit VOC or NO_X into the ambient air at levels equal to or greater than 10 tons per year and for the following periods:

a. December through February;

b. March through May;

c. June through August; and

d. September through November.

2. The weighted percent of yearly activity for all other sources to which the emission statement regulations apply for the following periods:

a. January through March;

b. April through June;

c. July through September; and

d. October through December.

Plant means the total facilities available for production or service.

Point means a physical emission point or process, such as a distinct building or a portion of a building, within a plant that results in pollutant emissions.

Process rate means a quantity per unit of time of any raw material or process intermediate consumed, or product generated through the use of any equipment, source operation, or process. For a stationary internal combustion unit or any other fuel burning equipment, this term means the quantity of fuel burned per unit time.

Segment means components of an emissions point or process, at the level that emissions are calculated.

SIC code means the standard industrial classification code.

Stack means a (smoke) stack or vent within a plant where emissions are introduced into the atmosphere.

Stationary source means any building, structure, facility, or installation which emits, or may emit, any air pollutant subject to regulation under Indiana Code 13–1–1 (IC 13–1–1).

Typical ozone season day means a day typical of that period of the year during the peak ozone season.

Compliance Schedule

The owner or operator of any source facility located in Clark, Elkhart, Floyd, Lake, Marion, Porter, St. Joseph, or Vanderburgh Counties with the potential to emit VOC or NO_x into the ambient air at levels equal to or greater than 10 tons per year must annually submit an emission statement to the Commissioner (of IDEM) by April 15. The owners or operators of other sources to which the emission statement regulations apply must annually submit an emission statement to the Commissioner by July 1. The submittals must cover the time periods covered under the definition of "emission statement operating year."

Requirements

The emission statement submitted by each applicable facility must contain the following information:

1. Certification that the information contained in the emission statement is accurate to the best knowledge of the individual certifying the emission statement. The certification must include the full name, title, signature, date of signature, and telephone number of the certifying individual. The certifying individual shall be employed by the company and shall take legal responsibility for the accuracy of the emission statement;

2. Source identification information including: (a) The full name, physical location, and mailing address of the facility; (b) source latitude and longitude; and (c) SIC code(s);

3. Operating data, to include the following:

a. Percent annual throughput by quarter:

i. For those sources of VOC or NO_x with the potential to emit equal to or more than 10 tons per year of VOC or NO_x in the Counties of: Clark; Elkhart; Floyd; Lake; Marion; Porter; St. Joseph; and Vanderburgh, the quarters are defined as follows:

(AA) December through February;
(BB) March through May;
(CC) June through August;
(DD) September through November;

ii. For all other sources subject to the emission statement rule, the quarters are defined as follows:

(AA) January through March;
(BB) April through June;
(CC) July through September;
(DD) October through December;

b. For those sources of VOC or NO_x with the potential to emit equal to or greater than 10 tons per year of VOC or NO_x in the Counties of: Clark; Elkhart; Floyd; Lake; Marion; Porter; St. Joseph; and Vanderburgh, the days per week on both the normal operating schedule and on a typical ozone season week, if different from the normal operating schedule. The peak ozone season for Indiana is June through August;

c. For all other sources (other than those in (b) above) subject to the emission statement rule, the days per week of the normal operating schedule;

d. Hours per day during the normal operating schedule;

e. Hours per year during the normal operating schedule;

f. For those sources of VOC or NO_x with the potential to emit equal to or greater than 10 tons per year of VOC or NO_x in the Counties of: Clark; Elkhart; Floyd; Lake; Marion; Porter; St. Joseph; and Vanderburgh, the weeks of operation during the peak ozone season;

g. Annual fuel or process weight and units used;

4. Emissions information including:

a. For those sources of VOC or NO_x with the potential to emit equal to or greater than 10 tons per year of VOC or NO_x in the Counties of: Clark; Elkhart; Floyd; Lake; Marion; Porter; St. Joseph; and Vanderburgh, the estimated actual VOC and NO_x emissions at the segment level, in tons per year for an annual emission rate and pounds per day for a typical ozone season day. Actual emission estimates must include upsets, downtime, and fugitive emissions;

b. For all other sources (other than those in (a) above) subject to the emission statement rule, the estimated actual VOC, NO_x, CO, SO2, Pb, or PM emissions at the segment level, in tons per year for an annual emission rate. Actual emission estimates must include upsets, downtime, and fugitive emissions;

c. AIRS facility subsystem estimated emissions method code;

d. Calendar year for the emissions;

e. Emission factor if used. If the emissions were calculated using an emission factor, the emission factor must:

i. Be one established in AP–42, "Compilation of Air Pollutant Emission Factors", Volume 1, Fourth Edition, September 1985; or

ii. In the alternative, the source may substitute site specific values for those listed in AP–42 if these site specific values are accepted by the IDEM and the USEPA;

f. Source Classification Code number;

5. Control equipment information including: (a) Current primary and secondary AFS control equipment identification codes; and (b) current control equipment efficiencies reflecting the total control efficiencies from all control equipment and including the effects of downtime and maintenance degradation. If the control efficiency is unavailable, the design control efficiency or the control efficiency limit imposed by a permit must be specified;

6. Process rate data (in units prescribed in the AIRS facility subsystem source classification code table) including:

a. Annual process rates; and

b. For those sources of VOC or NO_x with the potential to emit equal to or greater than 10 tons per year of VOC or NO_x in the Counties of: Clark; Elkhart; Floyd; Lake; Marion; Porter; St. Joseph; and Vanderburgh, peak ozone season daily process rates.

In addition to the requirements of the emission statement regulations, the emission statement SIP revision submittal also contains IDEM commitments to the following:

1. IDEM will update the AIRS facility subsystem using the annual emissions report data. The data required by the Act will be entered into AIRS by July 1st each year. The data required by 40 CFR part 51 will be updated into AIRS by September 1 of each year.

2. IDEM will retain the annual emission reports on file for at least 3 years.

3. IDEM will develop and submit to the USEPA a status report that outlines the degree of compliance with the emission statement program. IDEM will report quarterly to the USEPA, the total number of sources affected by the

emission statement regulations, the number of sources that have complied with the emission statement regulations, and the number of sources that have not. The status report will also include the total annual and typical ozone season day emissions from all reporting VOC and NO_x sources located in Clark, Elkhart, Floyd, Lake, Marion, Porter, St. Joseph, and Vanderburgh Counties, both corrected and non-corrected for rule effectiveness. Sources that are delinquent in submitting their emission statements will be individually listed if they emit 500 tons per year or more of VOC or 2,500 tons per year or more of NO_x. The quarterly status reports will be submitted July 1, October 1, January 1, and April 1 of each year.

III. Final Action

IDEM's adopted annual emissions reporting regulations submitted on January 6, 1994, are acceptable under section 182(a)(3)(B) of the Act and USEPA's draft guidelines.

Because USEPA considers today's action noncontroversial and routine, we are approving it today without prior proposal. The action will become effective on August 9, 1994. However, if we receive notice by July 11, 1994 that someone wishes to submit adverse comments, then USEPA will publish: (1) A document that withdraws the action; and (2) a document that begins a new action by proposing the action and establishing a comment period.

Nothing in this action should be construed as permitting, allowing or establishing a precedent for any future request for revision to any SIP. USEPA shall consider each request for revision to the SIP in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

This has been classified as a Table 2 action by the Regional Administrator under procedures published in the **Federal Register** on January 19, 1989, (54 FR 2214–2225), as revised by an October 4, 1993, memorandum from Michael H. Shapiro, Acting Assistant Administrator for Air and Radiation. A future document will inform the general public of these tables. On January 6, 1989, the Office of Management and Budget (OMB) waived Table 2 and Table 3 SIP revisions (54 FR 2222) from the requirements of section 3 of Executive Order 12291 for 2 years. The USEPA has submitted a request for a permanent waiver for Table 2 and Table 3 SIP revisions. The OMB has agreed to continue the waiver until such time as it rules on USEPA's request. This request continues in effect under Executive Order 12866 which superseded Executive Order 12291 on September 30, 1993.

Under the Regulatory Flexibility Act, 5 U.S.C. 600 *et seq.*, USEPA must prepare a regulatory flexibility analysis assessing the impact of any proposed or final rule on small entities. (5 U.S.C. 603 and 604.) Alternatively, USEPA may certify that the rule will not have a significant impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and government entities with jurisdiction over populations of less than 50,000.

SIP approvals under section 110 and subchapter I, part D of the Act do not create any new requirements, but simply approve requirements that the State is already imposing. Therefore, because the Federal SIP approval does not impose any new requirements, I certify that it does not have a significant impact on any small entities affected. Moreover, due to the nature of the Federal-State relationship under the Act, preparation of a regulatory flexibility analysis would constitute Federal inquiry into the economic reasonableness of State action. The Act forbids the USEPA to base its actions concerning SIPs on such grounds. *Union Electric Co.* v. *USEPA* 427 U.S. 246, 256–66 (S.Ct. 1976); 42 U.S.C. 7410(a) (2).

Under section 307(b)(1) of the Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by August 9, 1994. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2))

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Carbon monoxide, Volatile organic compounds, Particulate matter, Sulfur dioxide.

Dated: April 26, 1994.

Robert Springer,

Acting Regional Administrator.

For the reasons stated in the preamble, chapter I, title I of the Code of Federal Regulations is amended as follows:

PART 52—[AMENDED]

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401–7671q.

Subpart P—Indiana

2. Section 52.770 is amended by adding paragraph (c)(91) to read as follows:

§ 52.770 Identification of plan.

* * * * *

(c) * * *

(91) On January 6, 1994, the State of Indiana submitted a requested revision to the Indiana State Implementation Plan (SIP) intended to satisfy the requirements of section 182(a)(3)(B) of the Clean Air Act as amended in 1990. Included were State rules establishing procedures for the annual reporting of emissions of volatile organic material (VOM) and oxides of nitrogen (NO_x) as well as other regulated air pollutants by stationary sources in ozone nonattainment areas.

(i) Incorporation by reference.

(A) Title 326 of the Indiana Administrative Code (326IAC) 2–6 which was adopted by the Indiana Air Pollution Control Board, effective December 13, 1993.

BILLING CODE 6560–50–P

40 CFR Part 52

[DE10–1–6433; FRL–4893–1]

Approval and Promulgation of Air Quality Implementation Plans; State of Delaware; Stage II Vapor Recovery Regulations for Gasoline Dispensing Facilities

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is approving a State Implementation Plan (SIP) revision submitted by the State of Delaware. This revision establishes and requires Stage II Vapor Recovery Regulations for Gasoline Dispensing Facilities throughout the State of Delaware. The intended effect of this action is to approve these regulations to satisfy the requirements of the Clean Air Act (the Act).

EFFECTIVE DATE: This final rule will become effective on July 11, 1994.

ADDRESSES: Copies of the documents relevant to this action are available for public inspection during normal business hours at the Air, Radiation, and Toxics Division, U.S.

Environmental Protection Agency, Region III, 841 Chestnut Building, Philadelphia, Pennsylvania 19107; the Air and Radiation Docket and Information Center, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460; and Delaware Department of Natural Resources & Environmental Control, 89 Kings Highway, P.O. Box 1401, Dover, Delaware 19903.

FOR FURTHER INFORMATION CONTACT: Catherine L. Magliocchetti, (215) 597–6863.

SUPPLEMENTARY INFORMATION: On February 11, 1994 (59 FR 6608), EPA published a notice of proposed rulemaking (NPR) for the State of Delaware. The NPR proposed approval of the addition of section 36 and appendix J to Regulation No. 24, Stage II Vapor Recovery Regulations, into Delaware's ozone SIP. Delaware formally submitted section 36 and appendix J of Regulation No. 24 to EPA as a SIP revision on January 11, 1993, to comply with the Stage II vapor recovery requirements of section 182(b)(3) of the Act.

This rulemaking action is approving the addition of section 36 and appendix J into the Delaware ozone SIP. Section 36 and appendix J requires Stage II vapor recovery at gasoline dispensing facilities which dispense 10,000 gallons per month (gpm) or more. Further discussion of the applicability of this regulation, as well as the compliance schedule for Delaware's three counties are outlined in the NPR.

Other specific requirements of the Stage II Vapor Recovery Regulations for Gasoline Dispensing Facilities and the rationale for EPA's proposed action are explained in the NPR and will not be restated here. No public comments were received on the NPR.

Final Action

EPA is approving the SIP revision to add Section 36–Stage II Vapor Recovery and Appendix J, *Procedures for Implementation of Regulations Covering Stage II Vapor Recovery Systems for Gasoline Dispensing Facilities* to Regulation No. 24, "Control of Volatile Organic Compound Emissions" submitted by the State of Delaware on January 11, 1993.

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any state implementation plan. Each request for revision to the state implementation plan shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

This action had been classified as a Table 2 action for signature by the Regional Administrator under the procedures published in the **Federal Register** on January 19, 1989 (54 FR 2214–2225). However, in an October 4, 1993 memo, the Acting Assistant Administrator for Air and Radiation, Michael H. Shapiro, revised these SIP tables so that Table 2 final actions on which no adverse comments were received on the proposed rule may be delegated to Table 3 actions. No comments were received concerning this action, therefore, under the new guidelines this final action may be classified as a Table 3 action. On January 6, 1989, the Office of Management and Budget (OMB) waived Table 2 and Table 3 SIP revisions from the requirements of section 3 of Executive Order 12291 for a period of two years. The EPA has submitted a request for a permanent waiver for Table 2 and 3 SIP revisions. The OMB has agreed to continue the waiver until such time as it rules on EPA's request. This request is still applicable under Executive Order 12866, which superseded Executive Order 12291 on September 30, 1993.

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this approval of Stage II Vapor Recovery Regulations for Gasoline Dispensing Facilities in the State of Delaware must be filed in the United States Court of Appeals for the appropriate circuit by August 9, 1994. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Hydrocarbons, Incorporation by reference, Intergovernmental relations, Ozone, Reporting and recordkeeping requirements.

Dated: May 25, 1994.

Stanley L. Laskowski,

Acting Regional Administrator, Region III.

40 CFR part 52 is amended as follows:

PART 52—[AMENDED]

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401–7671q

Subpart I—Delaware

2. Section 52.420 is amended by adding paragraph (c)(50) to read as follows:

§ 52.420 Identification of plan.

* * * * *

(c) * * *

(50) Revisions to the Delaware State Implementation Plan submitted on January 11, 1993 by the Delaware Department of Natural Resources & Environmental Control:

(i) Incorporation by reference.

(A) Letter of January 11, 1993 from the Delaware Department of Natural Resources & Environmental Control submitting and requesting approval of Stage II Vapor Recovery Regulations for Gasoline Dispensing Facilities.

(B) Addition of Section 36–Stage II Vapor Recovery and Appendix J–*Procedures for Implementation of Regulations Covering Stage II Vapor Recovery Systems for Gasoline Dispensing Facilities* to Regulation No. 24, "Control of Volatile Organic Compound Emissions." Section 36 and Appendix J have an effective date of January 11, 1993.

(ii) Additional materials.

(A) Delaware Secretary's Order No. 93–00078, issued January 11, 1993, adopting Stage II Vapor Recovery Regulations in the State.

(B) Remainder of the January 11, 1993 State submittal pertaining to Section 36 and Appendix J of Regulation No. 24, Stage II Vapor Recovery at Gasoline Dispensing Facilities.

40 CFR Part 52

[MD–21–1–6265; FRL–4888–3]

Approval and Promulgation of Air Quality Implementation Plans; State of Maryland–Oxygenated Gasoline Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is approving a State Implementation Plan (SIP) revision submitted by the State of Maryland. This revision establishes and requires the implementation of an Oxygenated Gasoline Program in three control areas as follows: the Northeast Oxygenated Gasoline Control Area—comprised of Cecil County which is part of the Philadelphia Consolidated Metropolitan

Statistical Area (CMSA); the Baltimore Oxygenate Gasoline Control Area—comprised of Baltimore City and the counties of Anne Arundel, Baltimore, Carroll, Harford, Howard, and Queen Anne's, all of which are included in the Baltimore Metropolitan Statistical Area (MSA); and the Washington Oxygenated Gasoline Control Area—comprised of the counties of Calvert, Charles, Frederick, Montgomery, and Prince George's, which comprise the Maryland portion of the Washington, DC MSA. The intended effect of this action is to approve these regulations to satisfy the requirements of the Clean Air Act as amended by the Clean Air Act Amendments of 1990 (the Act). This action is being taken under section 110 of the Clean Air Act.

EFFECTIVE DATE: This final rule will become effective on July 11, 1994.

ADDRESSES: Copies of the documents relevant to this action are available for public inspection during normal business hours at the Air, Radiation, and Toxics Division, U.S. Environmental Protection Agency, Region III, 841 Chestnut Building, Philadelphia, Pennsylvania 19107; Air and Radiation Docket (6102), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460; and the Maryland Department of the Environment, 2500 Broening Highway, Baltimore, Maryland 21224.

FOR FURTHER INFORMATION CONTACT: Catherine L. Magliocchetti, (215) 597–6863 at the EPA address indicated in the **ADDRESSES** section.

SUPPLEMENTARY INFORMATION: On December 14, 1993, (58 FR 65309), EPA published a notice of proposed rulemaking (NPR) for the State of Maryland. The NPR proposed approval of an Oxygenated Gasoline Program in the State of Maryland. A formal SIP revision was submitted by the State of Maryland on November 13, 1992.

Specific requirements of the Oxygenated Gasoline Program and the rationale for EPA's proposed action are explained in the NPR and will not be restated here. No comments were received on the NPR.

Final Action

EPA is approving the SIP revision submitted by the State of Maryland on November 13, 1992, which implements an Oxygenated Gasoline Program in the State. The SIP revision consists of revisions to Code of Maryland Regulations (COMAR) 03.03.05, and COMAR 26.11.13 and new regulations codified at COMAR 03.03.06 and COMAR 26.11.20. Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any state implementation plan. Each request for revision to the state implementation plan shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

This action was originally classified as a Table 2 action for signature by the Acting Regional Administrator under the procedures published in the **Federal Register** on January 19, 1989 (54 FR 2214–2225). However, in an October 4, 1993 memorandum, the Acting Assistant Administrator for Air and Radiation, Michael H. Shapiro, revised these SIP tables so that Table 2 final actions on which no adverse comments were received on the proposed rule may be delegated to Table 3 actions. No comments were received concerning this action; therefore, under the new guidelines, this final action may be classified as a Table 3 action. On January 6, 1989, the Office of Management and Budget (OMB) waived Table 2 and Table 3 SIP revisions from the requirements of section 3 of Executive Order 12291 for a period of two years. The USEPA has submitted a request for a permanent waiver for Table 2 and 3 SIP revisions. The OMB has agreed to continue the waiver until such time as it rules on USEPA's request. This request is still applicable under Executive Order 12866, which superseded Executive Order 12291 on September 30, 1993.

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action to approve Maryland's Oxygenated Gasoline Program must be filed in the United States Court of Appeals for the appropriate circuit by August 9, 1994. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2) of the Clean Air Act.)

List of Subjects in 40 CFR part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Reporting and recordkeeping requirements.

Dated: May 13, 1994.

Stanley L. Laskowski,

Acting Regional Administrator, Region III.

40 CFR part 52 is amended as follows:

PART 52—[AMENDED]

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401–7671q.

Subpart V—Maryland

2. Section 52.1070 is amended by adding paragraph (c)(101) and by removing and reserving paragraph (c)(88) to read as follows:

§ 52.1070 Identification of plan.

* * * * *

(c) * * *

(101) Revisions to the State of Maryland Regulations Oxygenated Gasoline Program regulations submitted on November 13, 1992 by the Maryland Department of the Environment. Effective date October 26, 1992.

(i) Incorporation by reference.

(A) Letter of November 13, 1992 from the Maryland Department of the Environment transmitting Oxygenated Gasoline Program regulations.

(B) The following State of Maryland regulations effective October 26, 1992:

(*1*) Amendments to COMAR 26.11.13.01 (Control of Gasoline and Volatile Organic Compound Storage and Handling).

(*2*) Deletion of Regulation .06 under COMAR 26.11.13 (Control of Gasoline and Volatile Organic Compound Storage and Handling).

(*3*) New Regulation COMAR 26.11.20.03 (Mobile Sources).

(*4*) COMAR 03.03.05.01, .01–1, .02–1, .05, .08, and .15 (Motor Fuel Inspection).

(*5*) COMAR 03.03.06.01 through .06 (Emissions Control Compliance).

(ii) The remainder of the November 13, 1992 submittal.

[FR Doc. 94–14071 Filed 6–9–94; 8:45 am]

BILLING CODE 6560–60–F

40 CFR Parts 144, 264, and 280

[FRL–4894–3]

Standards Applicable to Owners and Operators of Hazardous Waste Treatment, Storage, and Disposal Facilities, Underground Storage Tanks, and Underground Injection Control Systems; Financial Assurance; Letter of Credit

AGENCY: Environmental Protection Agency.

ACTION: Final rule; amendment.

SUMMARY: EPA is amending the regulations related to financial assurance promulgated under Subtitles C and I of the Resource Conservation and Recovery Act (RCRA). Those regulations cite the "Uniform Customs and Practice for Documentary Credits," published by the International Chamber of Commerce. This notice inserts the words "and copyrighted" into the letter of credit instrument to clarify that the International Chamber of Commerce publication is copyrighted material. As a result of this notice, owners and operators using the letter of credit instrument to demonstrate financial assurance must include this additional language.

EFFECTIVE DATE: August 9, 1994.

FOR FURTHER INFORMATION CONTACT: Tom Gorman at (202) 260–1339, Office of General Counsel, U.S. Environmental Protection Agency, 401 M St. SW., Washington, DC 20460.

SUPPLEMENTARY INFORMATION:

I. Authority

This amendment is promulgated under the authority of Sections 2002(a), 1004, 3005, and 3006 of the Resource Conservation and Recovery Act, as amended, 42 U.S.C. 6912, 6924, 6925, 6926, and 6991, and under the authority of the Safe Drinking Water Act, 42 U.S.C. 300f et seq.

II. Background

Owners and operators of hazardous waste treatment, storage, and disposal facilities must demonstrate financial assurance for costs of closure, post-closure care, third-party liability and corrective action associated with their facilities. In subpart H of 40 CFR part 264, the Agency has established regulations regarding financial assurance for closure, post-closure care, and third party liability. Section 264.151 provides wording for the various financial instruments that owners and operators may use to demonstrate financial assurance. Section 264.151(d) provides wording for a letter of credit to demonstrate financial assurance for closure and post-closure care, and § 264.151(k) provides wording for a letter of credit to demonstrate financial assurance for third-party liability.

The RCRA regulations in 40 CFR part 280 impose similar requirements on owners and operators of underground storage tanks. Under those provisions, owners and operators of underground storage tanks must demonstrate financial assurance for taking corrective action and for third party liability. The regulations then establish a series of mechanisms that owners and operators can use. Section 280.99 provides the wording for a letter of credit, which is one of those allowable mechanisms.

Finally, the regulations at 40 CFR part 144, subpart F for the Underground Injection Control Program contain specific requirements for financial responsibility for Class I hazardous waste injection wells. Class I wells inject industrial and municipal wastes, including RCRA hazardous wastes, below the lowermost underground source of drinking water (USDW). 40 CFR part 144, subpart F, is directly applicable to owners and operators of all Class I hazardous waste injection wells.

III. Purpose of This Notice

The wording of the letter of credit instrument in §§ 144.70(d), 264.151 (d) and (k), and § 280.99 includes a reference to the "Uniform Customs and Practice for Documentary Credits," published by the International Chamber of Commerce. However, the language does not make it clear that the International Chamber of Commerce publication is copyrighted material.

This correction notice amends the letter of credit instrument in §§ 144.70(d), 264.151 (d) and (k), and 280.99 to clarify that the International Chamber of Commerce publication is copyrighted material by including the words "and copyrighted" in the wording of the letter of credit instrument. As a result of this change to the regulations, owners and operators who obtain a letter of credit to demonstrate financial assurance must use the revised language in § 264.151(d), 264.151(k), or 280.99(b), which includes the words "and copyrighted."

IV. Effect on State Authority To Administer Federal Programs

Since this amendment only revises the description of the document, and does not impose new duties on owners or operators that choose to rely on letters of credit, EPA will not require states to adopt this change as part of their approved UIC and UST programs or authorized RCRA programs. Therefore, owners and operators in authorized states that do not adopt this change will not be affected by this rule. However, EPA encourages states to adopt this change.

In states that adopt this change and in states without approved UIC or UST programs or states not authorized for the RCRA program, new letter of credit instruments will have to include this new language.

V. Administrative Procedures Act Requirements

Under 5 U.S.C. 553(b)(3)(B), a rule is exempt from notice and public comment requirements "when the agency for good cause finds (and incorporates the finding and a brief statement of reasons therefore in the rules issues) that notice and public procedures thereon are impractical, unnecessary, or contrary to the public interest." EPA believes that comment is unnecessary because this amendment makes only a change in the wording of the letter of credit instrument, but does not change the requirements for using the letter of credit instrument to demonstrate financial assurance. Therefore, EPA believes there is good cause to make today's rule effective on August 9, 1994.

List of Subjects

40 CFR Part 144

Environmental protection, Administrative practice and procedure, Confidential Business Information, Hazardous waste, Indian—lands, Reporting and recordkeeping requirements, Surety bonds, Water supply.

40 CFR Part 264

Environmental protection, Air pollution control, Hazardous waste, Insurance, Packaging and containers, Reporting and recordkeeping requirements, Security measures, Surety bonds.

40 CFR Part 280

Environmental protection, Hazardous substances, Insurance, Oil pollution, Reporting and recordkeeping requirements, Surety bonds, Water pollution control, Water supply.

Assistant Administrator, Office of Solid Waste and Emergency Response

Dated: April 25, 1994

Robert Perciasepe,

Assistant Administrator, Office of Water

PART 144—UNDERGROUND INJECTION CONTROL PROGRAM

1. The authority citation for part 144 continues to read as follows:

Authority: Safe Drinking Water Act, 42 U.S.C. 300f *et seq.*; Resource Conservation and Recovery Act, 42 U.S.C. 6901 *et seq.*

2. In § 144.70, the last sentence in paragraph (d) is revised to read as follows:

§ 144.70 Wording of the instruments.

* * * * *

(d) * * * This credit is subject to [insert "the most recent edition of the Uniform Customs and Practice for Documentary Credits, published and copyrighted by the International Chamber of Commerce," or "the Uniform Commercial Code"].

* * * * *

PART 264—STANDARDS FOR OWNERS AND OPERATORS OF HAZARDOUS WASTE TREATMENT, STORAGE, AND DISPOSAL FACILITIES

1. The authority citation for part 264 continues to read as follows:

Authority: 42 U.S.C. 6905, 6912(a), 6924, and 6925.

2. In § 264.151, the last sentence in paragraphs (d) and (k) is revised to read as follows:

§ 264.151 Wording of the instruments.

* * * * *

(d) * * * This credit is subject to [insert "the most recent edition of the Uniform Customs and Practice for Documentary Credits, published and copyrighted by the International Chamber of Commerce," or "the Uniform Commercial Code"].

* * * * *

(k) * * * This credit is subject to [insert "the most recent edition of the Uniform Customs and Practice for Documentary Credits, published and copyrighted by the International Chamber of Commerce," or "the Uniform Commercial Code"].

* * * * *

PART 280—TECHNICAL STANDARDS AND CORRECTIVE ACTION REQUIREMENTS FOR OWNERS AND OPERATORS OF UNDERGROUND STORAGE TANKS (UST)

1. The authority citation for part 280 continues to read as follows:

Authority: 42 U.S.C. 6912, 6991, 6991a, 6991b, 6991c, 6991d, 6991e, 6991f, and 6991h.

2. In § 280.99, the last sentence of paragraph (b) is revised to read as follows:

§ 280.99 Letter of credit.

* * * * *

(b) * * * This credit is subject to [insert "the most recent edition of the Uniform Customs and Practice for Documentary Credits, published and copyrighted by the International Chamber of Commerce," or "the Uniform Commercial Code"].

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

48 CFR Parts 1801, 1802, 1804, 1805, 1807, 1809, 1815, 1822, 1823, 1825, 1839, and 1852

[NASA FAR Supplement Directive 89-15]

RIN 2700-AB36

Acquisition Regulation; Miscellaneous Amendments to NASA FAR Supplement

AGENCY: Office of Procurement, Procurement Policy Division, National Aeronautics and Space Administration (NASA).

ACTION: Final rule.

SUMMARY: This document amends the NASA Federal Acquisition Regulation Supplement (NFS) to reflect a number of miscellaneous changes dealing with NASA internal or administrative matters, such as redesignation of NASA offices and delegation of authority within NASA.

EFFECTIVE DATE: June 30, 1994.

FOR FURTHER INFORMATION CONTACT: Mr. David K. Beck, (202) 358-0482.

SUPPLEMENTARY INFORMATION:

Availability of NASA FAR Supplement

The NASA FAR Supplement, of which this rule is a part, is available in its entirety on a subscription basis from the Superintendent of Documents, Government Printing Office, Washington, DC 20402, telephone number (202) 783-3238. Cite GPO Subscription Stock Number 933-003-00000-1. It is not distributed to the public, either in whole or in part, directly by NASA.

Dryden Flight Research Center and Space Station Program Office

The following sections are changed as a result of the establishment of the Dryden Flight Research Center and Space Station Program Office: 1802.101, 1804.7102-4(a), 1804.7103-2, 1805.207, 1805.303-71(b)(1), 1807.7102(b), 1815.807-71, 1822.103-4, 1839.7003-5, and 1852.103.

Waiver of Certified Cost and Price Data for Canadian Commercial Corporation

An existing waiver in 1815.804 is extended. Subparagraph 1815.804-3(e)(4) is removed. It required NASA personnel to report use of the waiver to NASA Headquarters.

Delegation of Authority for Small Foreign Purchases

Changes to 1825.7003 and 1825.7004 delegate authority and describe internal procedures within NASA.

Reversion of Domestic Preference to Buy American Act

Subpart 1825.71 and clauses at 1852.225-74 and 1852.225-75 are removed because an appropriation act requirement for domestic preference was not extended beyond Fiscal Year 1991 funding. The domestic preference required by the Buy American Act, as implemented in (FAR) 48 CFR Subparts 25.1 and 25.2 and (NASA FAR Supplement) 48 CFR Subparts 1825.1 and 1825.2, remains in effect.

Additional Changes

Section 1815.805-5(b) is revised in order to complete an incomplete sentence. Section 1815.970-3(b) is revised in order to correct a cross-reference. A reference is corrected in 1822.870 regarding contractor EEO reports. A reference to Code FO is changed to Code UO and the division title is changed (section 1823.7002(c)). Section 1852.209-71 is revised in order to correct two cross-references. In addition, section references and subpart headings are revised to reflect corresponding changes in the Federal Acquisition Regulation.

Impact

NASA certifies that this regulation will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

List of Subjects in 48 CFR Parts 1801, 1802, 1804, 1805, 1807, 1809, 1815, 1822, 1823, 1825, 1839, and 1852

Government procurement.

Tom Luedtke,

Deputy Associate Administrator for Procurement.

Accordingly, 48 CFR parts 1801, 1802, 1804, 1805, 1807, 1809, 1815, 1822, 1823, 1825, 1839, and 1852 are amended as follows.

1. The authority citation for 48 CFR parts 1801, 1802, 1804, 1805, 1807, 1809, 1815, 1822, 1823, 1825, 1839, and 1852 continues to read as follows:

Authority: 42 U.S.C. 2473(c)(1).

PART 1801—PURPOSE, AUTHORITY, ISSUANCE

2. The title of subpart 1801.6 is revised to read as follows:

Subpart 1801.6—Career Development, Contracting Authority, and Responsibilities

PART 1802—DEFINITIONS OF WORDS AND TERMS

3. In section 1802.101, the term "field installation" is revised to read as follows:

1802.101 Definitions.

* * * * *

Field installation means Ames Research Center, Dryden Flight Research Center, Goddard Space Flight Center, John F. Kennedy Space Center, Langley Research Center, Lewis Research Center, Johnson Space Center, George C. Marshall Space Flight Center, Space Station Program Office, John C. Stennis Space Center, or any other field installation established by NASA in the future.

* * * * *

PART 1804—CONTRACT REPORTING

4. Section 1804.7102–4 is amended in paragraph (a) by removing the entry for "Space Station Procurement Office" and adding the following entries in alphabetical order in the table as follows:

1804.7102–4 Assigned contract or agreement prefixes.

(a) * * *

Installation	Prefix
* * * * *	
Dryden Flight Research Center	NAS4
* * * * *	
Space Station Program Office	NAS15
* * * * *	

5. Section 1804.7103–2 is amended by removing the entry for "Space Station Procurement Office" and adding the following entries in alphabetical order in the table as follows:

1804.7103–2 Assigned purchase order or request prefixes.

* * * * *

Installation	Prefix
* * * * *	
Dryden Flight Research Center	E
* * * * *	
Space Station Program Office	K

PART 1805—PUBLICIZING CONTRACT ACTIONS

6. Section 1805.207 is amended in paragraph (a) by adding the following entries in alphabetical order in the table as follows:

1805.207 Preparation and transmittal of synopses.

(a) * * *

Dryden Flight Research Center 8022

* * * * *

Space Station Program Office 8025

* * * * *

7. Section 1805.303–71 is amended in paragraph (b) by revising the introductory text and in paragraph (b)(1) by republishing the first sentence and revising the second sentence to read as follows:

1805.303–71 Public Affairs Office notification.

(a) * * *

(b) *Definitive contracts and supplemental agreements.*

(1) This paragraph (b)(1) does not pertain to supplemental agreements covering overruns or incremental funding actions or to contracts or supplemental agreements that require approval of the Associate Administrator for Procurement pursuant to 1804.7203. It does pertain to contracts, supplemental agreements, and the execution of options that are in an amount of $10,000,000 or over for the Dryden Flight Research Center, Stennis Space Center, Headquarters Acquisition Division, and the NASA Management Office—JPL and $25,000,000 or over for Ames Research Center, Goddard Space Flight Center, Johnson Space Center, Kennedy Space Center, Langley Research Center, Lewis Research Center, Marshall Space Flight Center, and Space Station program Office. * * *

* * * * *

PART 1807—ACQUISITION PLANNING

8. Section 1807.7102 is amended by revising paragraph (b) to read as follows:

1807.7102 Applicability.

(a) * * *

(b) The following are monetary limitations under the Master Buy Plan procedures:

(1) $10,000,000

(i) Dryden Flight Research Center

(ii) John C. Stennis Space Center

(iii) NASA Management Office—JPL

For the purpose of the initial Master Buy Plan submission only, any of the above installations not having any procurements at or above the $10 million limitation shall submit the three largest procurements over $5 million.

(2) $25,000,000

(i) Ames Research Center

(ii) Goddard Space Flight Center

(iii) Headquarters Acquisition Division

(iv) Johnson Space Center

(v) Kennedy Space Center

(vi) Langley Research Center

(vii) Lewis Research Center

(viii) Marshall Space Flight Center

(ix) Space Station Program Office

* * * * *

PART 1809—CONTRACTOR QUALIFICATIONS

9. The title of subpart 1809.5 is revised to read as follows:

Subpart 1809.5—Organizational and Consultant Conflicts of Interest

PART 1815—CONTRACTING BY NEGOTIATION

10. Section 1815.804–3 is amended by revising the second sentence in paragraph (e)(3) to read as follows and removing paragraph (e)(4):

1815.804–3 Exemptions from or waiver of submission of certified cost or pricing data.

* * * * *

(e) * * *

(3) * * * Therefore, NASA has waived the requirement for certification of cost or pricing data submitted by the CCC during the period April 1, 1990 through March 31, 1996. * * *

11. Section 1815.807–71 is amended by revising the first sentence to read as follows:

1815.807–71 Installation reviews.

Each contracting activity shall establish a formal system for the prenegotiation review of any proposal over $250,000 ($100,000 at Dryden Flight Research Center, Stennis Space Center, Jet Propulsion Laboratory, Space Station Program Office, and Headquarters Acquisition Division). * * *

12. Section 1815.970–3 is amended in paragraph (b) by revising the sixth sentence to read as follows:

1815.970–3 Facilities capital cost of money.

(a) * * *

(b) * * * This total represents the estimated facilities capital cost of money amount for the contract and is the figure to be used to calculate the prenegotiation position memorandum objective cost and to reduce the profit objective in accordance with 1815.970–3(a). * * *

* * * * *

PART 1822—APPLICATION OF LABOR LAWS TO GOVERNMENT ACQUISITIONS

13. Section 1822.103-4 is amended by revising the fifth sentence to read as follows:

1822.103–4 Approvals.

* * * Designations to approve overtime shall be in writing and shall not be delegated under the first level of supervision below the Procurement Officer, except that delegation may be made to the head of a procurement function at geographically remote branch facilities (e.g., Wallops Flight Facility) without power of redelegation.

14. Section 1822.870 is amended in paragraph (a) by revising the second sentence to read as follows:

1822.870 Reports and other required information.

(a) * * * Such a report by the prime or subcontractor is required by 41 CFR 60–1.7 and paragraph (b)(7) of the clause, Equal Opportunity, at (FAR) 48 CFR 52.222–26.

* * * * *

PART 1823—ENVIRONMENT, CONSERVATION, OCCUPATIONAL SAFETY, AND DRUG-FREE WORKPLACE

15. Section 1823.7002 is amended by revising paragraph (c) to read as follows:

1823.7002 Responsibility.

* * * * *

(c) *Headquarters occupational health official.* At installations where medical and environmental health officers or other designated responsible officials are not available to assist with the formulation of occupational medicine and environmental health provisions of a contract, the Director, Occupational Health and Medicine Division, NASA Headquarters (Code UO), shall assume this responsibility.

* * * * *

PART 1825—FOREIGN ACQUISITION

16. Section 1825.7003 is amended by revising the first sentence to read as follows:

1825.7003 Assignment of responsibility for contract negotiation.

The Headquarters Acquisition Division (Code HW), in conjunction with the International Relations Division (Code IRD) and the Office of General Counsel, is responsible for negotiating and executing contracts exceeding $25,000 with foreign governments and private foreign organizations. * * *

17. Section 1825.7004 is amended by revising the first sentence to read as follows:

1825.7004 Procedure.

A Headquarters or field installation technical office requiring a foreign contract acquisition shall submit a properly approved procurement request (including (a) statement of work/specification, (b) budget estimate including shipping and duty charges, if applicable, (c) Justification for Other Than Full and Open Competition, (d) period of performance, and (e) delivery schedule) through channels to the Headquarters Acquisition Division (Code HW) for action. * * *

Subpart 1825.71—[Removed and Reserved]

18. Subpart 1825.71 is removed and reserved.

PART 1839—ACQUISITION OF FEDERAL INFORMATION PROCESSING RESOURCES

19. Section 1839.7003–5 is amended by revising paragraph (a)(2) to read as follows:

1839.7003–5 APR submission.

(a) * * *

(2) The cognizant IPOs for this purpose are: The Office of Space Flight (Attn: Code MIC) for Johnson Space Center, Kennedy Space Center, Marshall Space Flight Center, Stennis Space Center, and the Space Station Program Office; the Office of Aeronautics (Attn: Code RI) for Ames Research Center, Dryden Flight Research Center, Langley Research Center, and Lewis Research Center; and the Office of Space Science (Attn: Code SP) For Goddard Space Flight Center. For Headquarters acquisitions the Director, Headquarters Acquisition Division (Code HW), shall submit APR's directly to the Office of Management Systems and Facilities (Attn: Code JT) after concurrence by the SIIO in Code J.

* * * * *

PART 1852—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

20. Section 1852.103 is amended in paragraph (a)(1) by revising the second sentence to read as follows:

1852.103 Identification of provisions and clauses.

(a) * * *

(1) * * * The prefix shall be an alphabetical abbreviation of the installation name (e.g., ARC, DFRC, GSFC, HW, JSC, KSC, LARC, LERC, MSFC, SSC, or SSPO). * * *

* * * * *

21. Section 1852.209–71 is amended by revising the introductory text to read as follows:

1852.209–71 Limitation of future contracting.

As prescribed in 1809.507–2, the contracting officer may insert a clause substantially as follows in solicitations and contracts, in compliance with (FAR) 48 CFR 9.507–2:

* * * * *

1852.225–74 and 1852.225–75 [Removed]

22. Sections 1852.225–74 and 1852.225–75 are removed.

Acquisition Regulation; Addition of Coverage to the NASA FAR Supplement on Performance-Based Contracting

AGENCY: Office of Procurement, Procurement Policy Division, National Aeronautics and Space Administration (NASA).

ACTION: Final rule.

SUMMARY: This rule sets forth the policies for using performance-based contracting techniques and addressing this issue as an item in procurement plans.

EFFECTIVE DATE: June 30, 1994.

FOR FURTHER INFORMATION CONTACT: Dave Beck, Telephone: (202) 358–0482.

SUPPLEMENTARY INFORMATION:

Background

The regulation was developed to implement OMB's request that NASA make greater use of performance based contracting techniques. It holds requiring activities responsible for stating specifications, purchase descriptions, and statements of work, on the basis of performance, where practical, so that a variety of products or services may apply. The regulation also ensures that contract files include a statement on consideration or use of performance-based contracting techniques.

Availability of NASA FAR Supplement

The NASA FAR Supplement, of which this regulation will become a part, is codified in 48 CFR, Chapter 18, and is available in its entirety on a subscription basis from the Superintendent of Documents, Government Printing Office, Washington, DC 20402. Cite GPO Subscription Stock Number 933-003–00000–1. It is not distributed to the public, whether in whole or in part, directly by NASA.

Executive Order 12866

The Office of Information and Regulatory Affairs has determined that this rule is significant under E.O. 12866. This regulation is needed because greater use of performance-based contracting techniques will give contractors more freedom to innovate and economize, and also hold them more accountable for the end results. The regulation meets that need by requiring performance-based specifications, purchase descriptions and statements of work, where feasible, to (i) describe the work in terms of the required output; (ii) place full responsibility for quality performance on contractors with formal, measurable performance standards and surveillance plans used to assess contractor performance; and (iii) avoid relying on cumbersome and intrusive process-oriented inspection and oversight programs to assess contractor performance.

The potential costs and benefits of the regulatory action are supported by OFPP Policy Letter 91–2, Service Contracting. The regulation is NASA's internal implementation of OFPP Policy Letter 91–2. NASA has benefited using performance-oriented launch service contracts that balance the assignment of positive and negative performance incentives with a meaningful system of financial rewards and penalties. The statements of work are broad in scope and general in nature, focusing on the successful delivery of the undamaged and operational spacecraft to the proper trajectory and orbital conditions without violating mission parameters. Some of these contracts provide for (i) mission success pools that incentivize the contractor to deliver payload safely and into correct orbit and (ii) liquidated damages relative to timely and effective performance.

Regulatory Flexibility Act

NASA certifies that this rule will not have significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act (5 U.S.C. 601, et seq.).

Paperwork Reduction Act

This rule does not impose any reporting or recordkeeping requirements subject to the Paperwork Reduction Act.

List of Subjects in 48 CFR 1807 and 1810

Government procurement.

Tom Luedtke,

Deputy Associate Administrator for Procurement.

Accordingly, 48 CFR parts 1807 and 1810 are amended as follows:

1. The authority citation for 48 CFR parts 1807 and 1810 continues to read as follows:

Authority: 42 U.S.C. 2473(c)(1).

PART 1807—ACQUISITION PLANNING

2. Part 1807 is amended as set forth below:

a. In section 1807.170–1, paragraphs (b)(1) (iv) and (v) are revised and a new paragraph (b)(1)(vi) is added to read as follows:

1807.170–1 Procurement plans requiring approval by NASA Headquarters.

* * * * *

(b) * * *

(1) * * *

(iv) An identification of any later phases if the procurement is to be a phased procurement including the estimated cost thereof;

(v) A statement as to whether the contractor will be required to comply with detailed specifications, meet performance requirements, perform a mission, or furnish a level of effort; and

(vi) A statement on consideration or use of performance-based contracting techniques.

* * * * *

b. Section 1807.170–2 is revised to read as follows:

1807.170–2 Procurement plans requiring approval at the installation level.

Procurement plans prepared for installation-level approval shall be prepared in accordance with 1807.170–1 or in the format prescribed by the installation. Installation prescribed formats shall ensure that the consideration or use of performance-based contracting techniques required at 1807.170–1(b)(1)(vi) and all contract management considerations enumerated at 1807.170–1(c) are addressed.

PART 1810—SPECIFICATIONS, STANDARDS, AND OTHER PURCHASE DESCRIPTIONS

1810.002–71 [Added]

3. Section 1810.002–71 is added to read as follows:

1810.002–71 Performance-based contracting

Use of performance-based specifications, where feasible, is the preferred method for establishing contract requirements. Requiring activities shall, to the maximum extent practicable, use performance-based specifications, purchase descriptions and statements of work in order to give contractors freedom to innovate and economize, and to hold contractors accountable for the end results.

[NASA FAR Supplement Directive 89–15]

Amendments to Interim Rules on Undefinitized Contract Action and Deviation From FAR 31.205–18

AGENCY: Office of Procurement, Procurement Policy Division, National Aeronautics and Space Administration (NASA).

ACTION: Interim rule.

SUMMARY: The section numbers for the interim rule on Undefinitized Contract Action are redesignated in order to conform to the numbering style for the Federal Acquisition Regulation System. In the interim rule on Deviation From FAR 31.205–18 a cross-reference is corrected.

EFFECTIVE DATE: June 30, 1994.

FOR FURTHER INFORMATION CONTACT: Mr. David K. Beck, (202) 358–0482.

SUPPLEMENTARY INFORMATION:

Editorial changes

This document amends two interim rules (59 FR 22521, May 2, 1994, and 59 FR 23802, May 9, 1994). Because the changes are not substantive, the deadlines for submission of comments are unchanged.

Impact

NASA certifies that this regulation will not have a significant economic effect on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

List of Subjects in 48 CFR Parts 1843 and 1852

Government procurement.

Tom Luedtke,

Deputy Associate Administrator for Procurement.

Accordingly, 48 CFR parts 1843 and 1852 are amended as follows.

1. The authority citation for 48 CFR parts 1843 and 1852 continues to read as follows:

Authority: 42 U.S.C. 2473(c)(1).

PART 1843—CONTRACT MODIFICATIONS

2. Subpart 1843.1 is redesignated and retitled as follows:

SUBPART 1843.70—UNDEFINITIZED CONTRACT ACTION

1843.101 through 1843.105 [Redesignated]

3. Sections 1843.101 through 1843.105 are redesignated as follows:

Old section	New section
1843.101	1843.7001
1843.102	1843.7002
1843.103	1843.7003
1843.104	1843.7004
1843.105	1843.7005

PART 1852—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

4. The introductory text of section 1852.216–89 is revised to read as follows:

1852.216–89 Allowable Cost and Payment.

As prescribed at 1816.307–70(h), insert the following clause:

* * * * *

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 675

[Docket No. 931100–4043; I.D. 060694B]

Groundfish of the Bering Sea and Aleutian Islands Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for Atka mackerel in the Central Aleutian District of the Bering Sea and Aleutian Islands Management Area (BSAI). This action is necessary to prevent exceeding the total allowable catch (TAC) of Atka mackerel specified for this District.

EFFECTIVE DATE: 12 noon, Alaska local time (A.l.t.), June 7, 1994, until 12 midnight, A.l.t., December 31, 1994.

FOR FURTHER INFORMATION CONTACT: Andrew N. Smoker, 907–586–7228.

SUPPLEMENTARY INFORMATION: The groundfish fishery in the BSAI exclusive economic zone is managed by the Secretary of Commerce according to the Fishery Management Plan for the Groundfish Fishery of the BSAI Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson Fishery Conservation and Management Act. Fishing by U.S. vessels is governed by regulations implementing the FMP at 50 CFR parts 620 and 675.

In accordance with § 675.20(a)(7)(ii), the Atka mackerel TAC for the Central Aleutian District was established by the final 1994 initial specifications of groundfish for the BSAI (59 FR 7656, February 16, 1994) as 37,846 metric tons (mt).

The Director of the Alaska Region, NMFS (Regional Director), has determined, in accordance with § 675.20(a)(8), that the Atka mackerel TAC specified for the Central Aleutian District soon will be reached. Therefore, the Regional Director has established a directed fishing allowance of 37,346 mt after determining that 500 mt will be taken as incidental catch in directed fishing for other species in the Central Aleutian District. The Regional Director has determined that the directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Atka mackerel in the Central Aleutian District, effective from 12 noon, A.l.t., June 7, 1994, until 12 midnight, A.l.t., December 31, 1994.

Directed fishing standards for applicable gear types may be found in the regulations at § 675.20(h).

Classification

This action is taken under § 675.20 and is exempt from OMB review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: June 6, 1994.

David S. Crestin,

Acting Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.

[FR Doc. 94–14098 Filed 6–6–94; 4:09 pm]

BILLING CODE 3510–22–F–P

Proposed Rules

Federal Register
Vol. 59, No. 111
Friday, June 10, 1994

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 52

RIN 3150–AE 42

Combined Licenses; Conforming Amendments; Supplementary Post-Promulgation Comment Period

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule: Supplementary post-promulgation comment period.

SUMMARY: The Nuclear Regulatory Commission (Commission) is providing a supplementary post-promulgation comment opportunity on a portion of its final rule amending its regulations to conform to the provisions of Title XXVIII of Public Law 102–486, the "Energy Policy Act of 1992," signed into law on October 24, 1992. This notice is necessary to inform the public of the comment opportunity.

DATES: The final rule became effective January 22, 1993. Comments are due 30 days after the date of publication of this notice.

FOR FURTHER INFORMATION CONTACT: Grace H. Kim, Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone 301–504–3605.

SUPPLEMENTARY INFORMATION:

Background

In 1992 Congress passed, and the President signed, the Energy Policy Act of 1992 (Pub. L. 102–486, 106 Stat. 2776). Title XXVIII of that Act amended in part the nuclear power plant licensing provisions of the Atomic Energy Act to authorize explicitly the issuance of combined construction and operating licenses for nuclear power plants. The new legislation largely codified the Commission's existing regulations in 10 CFR part 52 with respect to such combined licenses, but also made several changes to the licensing process established under those regulations. On December 23, 1992, the Commission issued a final rule amending part 52 in light of the new legislation (57 FR 60975). Finding prior public comment on the part 52 amendments unnecessary because the changes were limited to incorporating the language of the Energy Policy Act into the regulations, the Commission established a 60-day post-promulgation comment period. *Id.*

On February 18, 1993, the Nuclear Information and Resource Service (NIRS), which did not submit post-promulgation comments,[1] petitioned the United States Court of Appeals for the District of Columbia Circuit for review of the Commission's final rule. DC Circuit No. 93–1164. Recently, however, the NIRS voluntarily requested dismissal of its petition for review (which the court granted) after obtaining the Commission's agreement, in the interest of judicial economy, to provide the NIRS another opportunity for post-promulgation comment on the final rule's treatment of the so-called "Sholly" procedure applicable to combined licenses. The "Sholly" procedure, which the Commission made applicable to combined licenses in the final rule in accordance with the Energy Policy Act (see 57 FR at 60976; 10 CFR 52.97(b)(2)(ii)), allows the Commission to make an amendment to a combined license immediately effective (*i.e.*, prior to a hearing) if it makes a finding that there are no significant hazards considerations.

In light of these specific circumstances, the Commission is providing another opportunity for post-promulgation comment. Any interested member of the public may submit comments on the Commission's treatment of the "Sholly" procedure in the final rule (see *id.*) within 30 days of the date of publication of this notice. Pursuant to 10 CFR 2.804(f), the Commission will publish in the **Federal Register** an evaluation of the significant comments and any revisions of the rule made as a result of the comments and their evaluation.

List of Subjects in 10 CFR Part 52

Administrative practice and procedure, Antitrust, Backfitting, Combined license, Early site permit, Emergency planning, Fees, Inspection, Limited work authorization, Nuclear power plants and reactors, Probabilistic risk assessment, Prototype, Reactor siting criteria, Redress of site, Reporting and recordkeeping requirements, Standard design, Standard design certification.

Dated at Rockville, Maryland this 6th day of June, 1994.

For the Nuclear Regulatory Commission

John C. Hoyle,

Acting Secretary of the Commission.

[FR Doc. 94–14122 Filed 6–9–94; 8:45 am]

BILLING CODE 7590–01–P

[1] The only post-promulgation comment that the Commission received was submitted on February 22, 1993 by the Nuclear Management and Resources Council. The Commission responded to this comment in a **Federal Register** notice published on December 30, 1993 (58 FR 69220).

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Parts 304 and 327

RIN 3064–AB45

Assessments; Forms, Instructions, and Reports

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Board of Directors (Board) of the Federal Deposit Insurance Corporation (FDIC) is proposing to amend its regulation on assessments to provide for the quarterly collection of assessments by means of FDIC-originated direct debits through the Automated Clearing House (ACH) network, based on invoices prepared by the FDIC using data reported by insured institutions in their quarterly reports of condition. The FDIC believes that the proposed amendments would result in a more efficient collection process, to the benefit of the deposit insurance funds and insured institutions, and would reduce the regulatory burden on insured institutions. The Board is further proposing to amend the assessments regulation to clarify the obligation of acquiring institutions to pay assessments on deposits assumed from institutions terminating their insured status; to delete from the assessments regulation the existing references to experience factors, which are not available for use after 1994; and to include such amendments to the FDIC's regulation on forms as are necessitated by the proposed changes to the assessments regulation.

DATES: Written comments must be received by the FDIC on or before August 9, 1994.

ADDRESSES: Written comments shall be addressed to the Office of the Executive Secretary, Federal Deposit Insurance Corporation, 550—17th Street, NW., Washington, DC 20429. Comments may be hand-delivered to room F–400, 1776 F Street, NW., Washington, DC 20429, on business days between 8:30 a.m. and 5 p.m. (FAX number: (202) 898–3838). Comments will be available for inspection in room 7118, 550—17th Street, NW., Washington, DC, between 9 a.m. and 4:30 p.m. on business days.

FOR FURTHER INFORMATION CONTACT: Connie Brindle, Chief, Assessment Operations Section, Division of Finance, (703) 516–5553, or Martha Coulter, Counsel, (202) 898–7348, regarding the collection improvement proposal; William Farrell, Chief, Assessment Management Section, Division of Finance, (703) 516–5546, or Jules Bernard, Counsel, (202) 898–3731, regarding assessment obligations of acquiring institutions; Federal Deposit Insurance Corporation, Washington, DC 20429.

SUPPLEMENTARY INFORMATION:

I. Collection Improvement Proposal

A. Existing Statutory and Regulatory Provisions

Section 7(c) of the Federal Deposit Insurance Act (FDI Act), 12 U.S.C. 1817(c), requires that each insured depository institution pay a semiannual assessment to the FDIC. Payment of the assessment is to be made in the manner and at the time(s) prescribed by the Board. Each institution is to file a certified statement in such form and containing such information as the FDIC requires. An officer of the institution must certify that the statement is true, correct, and complete, and in accordance with the statute and related regulations.

At present, the FDIC's assessment regulations, which are based on a prior version of section 7 of the FDI Act, require the payment of assessments twice a year. The amount of the semiannual payment is computed by the institution. The computation, and the resulting assessment amount, is shown on the certified statement filed by the institution, which is accompanied by a check for the full amount of the assessment. The payment must be postmarked no later than January 31 for the first semiannual period of the year (January through June), and July 31 for the second semiannual period (July through December).

B. Purpose of the Proposal

The FDIC believes that the existing assessment collection process can be improved substantially by utilizing an electronic payment process, to the benefit of insured depository institutions and the federal deposit insurance funds. Because the existing process is paper-based, it is more time consuming and less efficient—both for insured institutions and for the FDIC—than an improved collection process making fuller use of advanced payment technology.

The proposed rule introduces a more efficient collection process using the Automated Clearing House (ACH) network. Funds for assessment payments would be directly debited by the FDIC from accounts designated by insured depository institutions for that purpose. This procedure would substantially improve the efficiency of the collection process, in such ways as eliminating paperwork costs and allowing the FDIC to monitor assessment receipts electronically.

In connection with this improvement in the collection process, the FDIC believes that it is highly desirable to reduce the regulatory burden imposed on insured depository institutions by shifting to the FDIC the responsibility of computing each institution's assessment. To facilitate this process, the FDIC is also proposing a move to quarterly assessment payments. The FDIC believes that this change would have other benefits as well, both for the FDIC and for insured institutions.

A quarterly-payment schedule is a straightforward means of minimizing inefficiencies in the assessment collection process that would not be addressed by other elements of the proposal. For example, it would simplify the assessment computation by basing each quarterly installment on one quarterly report of condition rather than two. It would also resolve a timing problem resulting from a statutory requirement. Under section 7(a) of the FDI Act, 12 U.S.C. 1817(a), the certified statements filed by each institution for a particular semiannual assessment period must be based on the two reports of condition [1] to be filed by the institution for the prior semiannual period. The report dates set pursuant to section 7(a) are March 31, June 30, September 30, and December 31. The June 30 and December 31 report dates precede by only one day the beginning of the semiannual assessment periods for which they provide the basis for assessment computation. As a result, the report data needed by the institution for its assessment computation are not complete until the beginning of the semiannual period, and are not required to be submitted by the institution until the end of the first month of the semiannual period. If, as under the existing collection process, the payment due date falls early within the semiannual period, it is necessary for each institution to compute its own assessment, since there is not sufficient time before the due date for the FDIC to receive the relevant report data from the institution and to prepare and edit an assessment statement based on the data. Under the existing collection process, any subsequent amendment of the reported data on which the assessment is based can potentially—and often does—necessitate recalculation of the institution's assessment.

A possible solution to this timing problem would be to move the semiannual assessment due date to a later date during the semiannual period, for example to the end of the first quarter of the period (that is, to March 31 and September 30). This would be preferable to the existing system in that it would provide the additional time necessary for the FDIC to receive the requisite data from insured institutions and to initiate a direct debit for the assessment amount due. However, it would not permit other improvements that would result from the quarterly-collection proposal, such as simplifying the assessment computation, reducing the data-refinement and billing-adjustment complications associated with semiannual collection, and eliminating the risk of nonpayment for insurance coverage provided for some portion of the assessment period in the case of an institution that fails prior to the payment due date. Thus, the FDIC believes that the quarterly-collection proposal is preferable to delayed semiannual collection.

Under the quarterly-collection proposal, institutions would be invoiced for an initial quarterly payment for the first quarter of each semiannual assessment period (for example, the period beginning January 1) approximately one month before the beginning of the period (in this example, on November 30), based on the report-of-condition data for the first quarter of the preceding semiannual period (in this example, September 30). Although the due date for this first quarterly payment (December 30) would fall approximately one month earlier

[1] For banks, the report of condition is called the Report of Income and Condition; for thrift institutions, the Thrift Financial Report; and for insured branches of foreign banks, the Report of Assets and Liabilities of U.S. Branches and Agencies of Foreign Banks.

than the due date for the semiannual payment required under the existing regulations, the quarterly payment would be for only a portion (roughly one-half, assuming minimal changes in the rate of deposit growth across quarters) of the full semiannual assessment amount. The balance of the semiannual assessment—based on the report of condition for the last day of the second quarter of the prior semiannual period (in the above example, December 31)—would be due approximately 3 months into the semiannual period (March 30), about two months later than the existing single semiannual payment date (January 31).

Based on FDIC estimates, the proposed quarterly-payment plan should not result in a material financial loss either to the FDIC or to insured depository institutions.

It is currently anticipated that, if adopted, the proposal would be implemented for the semiannual assessment period beginning July 1, 1995.

C. Additional Description of the Proposal

1. Quarterly Invoices.

Under the proposal, the FDIC would provide to each insured depository institution a quarterly invoice based on the quarterly report of condition most recently due from the institution. In addition, the invoice would reflect adjustments from previous quarters, such as adjustments resulting from amendments to earlier reports of condition or from assessment audits by the FDIC.

The invoices would be provided no later than 30 days before the due date of the quarterly assessment payment. As the following table indicates, first-quarter invoices would be distributed by the preceding November 30 for the period beginning January 1, and by the preceding May 30 for the period beginning July 1. The respective payment dates [2] for these invoices would be December 30 and June 30. Second-quarter invoices would be distributed by February 28 for the then-current semiannual period, with a payment (debit) date of March 30, and by August 30 for the then-current semiannual period, with a payment date of September 30.

Semiannual assessment period covered	Quarter	Invoice date	Payment date	Report of condition used for preparation
Jan.–June	1	Nov. 30	Dec. 30	Sept. 30.
	2	Feb. 28	Mar. 30*	Dec. 31.
July–Dec	1	May 30	June 30	Mar. 31.
	2	Aug. 30	Sept. 30	June 30.

The proposal would eliminate the existing process of averaging the two assessment bases derived from the two quarterly reports of condition for the preceding semiannual period. Instead, as indicated above, each quarterly payment would be based separately on the single most recent report of condition. For institutions whose deposits are increasing, this change could result in slightly lower payments in earlier quarters and higher payments in later quarters, while the converse would apply to an institution whose deposits are decreasing. On the whole, however, whether on an institution-by-institution or industry-wide basis, elimination of averaging is expected to simplify the assessment process without having a significant impact on the amount of assessments paid.

2. Assessment Computation Review Procedure.

The assessment-base data reflected on an institution's quarterly invoices would be copied from data reported by the institution in its reports of condition. Given the source of the data and the mechanical nature of the assessment computation, it is anticipated that there would be only limited occasion for institutions to disagree with the invoices. However, a procedure for resolving any such disagreements is included in the proposal.

The new procedure would apply only to disagreements expressly identified in § 327.3(h) of the proposed regulation, such as where the institution believes the rate multiplier applied by the FDIC is inconsistent with the assessment risk classification assigned to the institution for the semiannual period for which the payment is due. The new procedure would not apply to disputes regarding the appropriateness of the assessment risk classification assigned to the institution; such disputes would continue to be covered by the risk classification review procedure in the existing regulations.

Under the proposed new procedure, the period within which an institution could file a request for revision of an invoice would generally terminate 60 days from the date of the invoice. However, where the revision would result from an institution-initiated amendment to its report of condition, the filing deadline for the request for revision would be 60 days from the date on which such amendment is filed. Such amendment of the report of condition would not automatically trigger an assessment adjustment. Instead, institutions would need to utilize the new procedure to provide notice to the FDIC of the requested revision resulting from the amendment.

3. Certified Statements

Under the proposed rule, institutions would no longer be required to compute their assessments. However, pursuant to section 7(c) of the FDI Act, each institution would still be required to file a semiannual certified statement. For the proposed system, the FDIC would provide a certified statement form reflecting both first- and second-quarter invoice data. The form would show a semiannual assessment amount based on the two quarterly reports of condition on which, by statute, the certified statement is to be based. Each institution would be required to certify its agreement with the assessment computation shown on the form as received from the FDIC or, alternatively, its agreement with that computation as amended in a manner specified by the institution.

In connection with amendment of the assessments regulation, the certified-statement element of the proposal includes incidental amendments to part 304 of the FDIC's regulations ("Forms,

[2] Under the proposal, if a specified payment date falls on a day that is not a business day, the payment date becomes the previous business day.

Instructions, and Reports" (12 CFR part 304), for such purposes as revising the description of the certified statement forms in § 304.3.

4. Designated Deposit Account

A necessary component of the proposed direct-debit payment system is the designation by each insured institution of a deposit account to be debited by the FDIC. Under the proposal, each institution would be required to give timely notice to the FDIC of the account designated by the institution for that purpose. In addition, each institution would be required to take any action necessary to enable the FDIC to direct-debit assessment payments from the account, and to ensure that the account has sufficient funds to cover the assessment amount on the FDIC invoice. Failure on the part of the institution to take any such action or to provide sufficient funding in the designated account would be deemed to constitute nonpayment.

5. Semiannual Notice of Assessment Risk Classification

Under the proposal, the date of the notice of an institution's assessment risk classification currently described in § 327.3(e) would be changed to coincide with the date of the first-quarterly invoice. The FDIC believes that combining the notice and the invoice would result in operational efficiencies both for the FDIC and for insured depository institutions.

Comment was requested by the FDIC on a similar operational change in connection with an assessment rulemaking proceeding last year. The change on which comment was sought at that time was the consolidation of the assessment rate notice and the certified statement form in a single mailing. A consolidated mailing was supported by each of the six comment letters that addressed it. See 58 FR 34357, 34365 (June 25, 1993).

6. Payment of Interest on Overpayments and Underpayments.

Under § 327.7 of the existing assessments regulations, the FDIC pays interest to insured institutions for any timely overpayments of assessments, from the time the assessment is due until the date a refund or credit is given for the overpayment amount. Similarly, institutions are required to pay interest on underpayments from the assessment due date to the date of payment of the shortfall.

Because of inefficiencies inherent in the existing paper-based system, and in the semiannual collection procedure that allows very little time for the refinement of report-of-condition data before it is used in assessment computations, it typically takes in excess of three to five months from the assessment due date to identify, verify, and pay or collect overpayment or underpayment amounts resulting from miscomputations or similar errors.

The proposed rule contemplates a "rolling" correction process in which any necessary adjustments in the assessment amount are made on a quarterly basis. Under this proposal, the FDIC would pay or collect interest on overpayments and underpayments, respectively, on a full-quarter basis. Interest would be due for the period beginning the day after the payment date on which the institution overpaid or underpaid and ending on the payment date for the quarterly invoice reflecting the corresponding adjustment. Thus, even if an underpayment were identified early in the quarter, the FDIC would not collect the balance due until the next quarterly assessment payment date, and would impose interest for the entire quarter. The converse would apply to overpayments; that is, the amount of the overpayment, together with interest through the next assessment payment date, would be credited to the institution on the invoice for the next quarterly payment after the overpayment is discovered.

The FDIC believes that this approach would not have a detrimental impact on insured institutions. Significantly, approximately 75 percent of incorrect assessment payments result from errors made by institutions in filling out their certified statement forms. Such errors would be virtually eliminated under the proposed procedure. Moreover, it is anticipated that any remaining adjustments would be processed more quickly, and that institutions would actually pay less interest from underpayment errors—and would receive credit for overpayments more quickly—than under the existing arrangement.

7. Fail-Safe Payment Plan

Because the proposed payment procedure relies on computerized systems, it seems prudent to provide for a back-up plan to be triggered in the event of a system failure or similar but less global circumstances. The fail-safe plan incorporated into the proposed rule provides that any institution that does not receive its quarterly assessment invoice by the beginning of the month in which payment is due is to promptly notify the FDIC. It is anticipated that, in most cases, the FDIC would provide a duplicate invoice to the institution. However, in the event that could not be done, the institution would, as a preliminary matter, make its quarterly payment in the amount shown on its assessment invoice for the preceding quarter. Any necessary adjustments to that payment would be reflected on the next quarterly invoice.

II. Mergers Resulting in the Termination of Insured Status

A. Assessment Base Adjustments

Proposed § 327.6(a) sets forth the rules for computing institutions' assessment bases when one institution (a seller) transfers its deposits to one or more other institutions (buyers), and then goes out of business. Transactions of this kind (transfers) can take many forms: they include statutory mergers, consolidations, statutory assumptions, and contractual arrangements in which buyers purchase assets and assume deposits from a seller. Proposed § 327.6(a) would cover all such cases. But it would not cover cases where the seller continues to survive (such as cases in which a seller only sells some but not all of its branches). Nor would it cover cases in which buyers assume deposits from the receivership for a failed institution.

Sometimes the buyers complete a transfer (or related series of transfers) in the first quarter of a semiannual period (January through March, or July through September). In that case, the buyers assume all the seller's deposits before the end of the quarter. The buyers report the transferred deposits in their first-quarter reports of condition. Under the proposed rule, the second-quarter payments made by the buyers would be based (in part) on the transferred deposits.

But many transfers take place in the second quarter of a semiannual period (April through June, or October through December). A seller still has deposits at the end of the first quarter, and reports the deposits in its first-quarter report of condition. Under the proposed quarterly-payment schedule described herein, an institution continuing in business would make a second-quarter payment based on these deposits, and that payment would represent an installment on the assessment for the upcoming semiannual period.

However, where a seller has gone out of business before the start of the upcoming semiannual period, there may be a risk that neither the seller nor the buyers would pay any assessments on these deposits under the proposed quarterly-payment plan. The buyers would not have included these deposits in their first-quarter reports of condition, and would not have counted

the deposits in their first-quarter assessment bases. The net effect could be that neither the seller nor the buyers would compensate the FDIC for insuring these deposits.

Proposed § 327.6(a) would clarify the assessment obligation for these transfers. Section 7 of the FDI Act says the FDIC must base an institution's assessment on the probability that the appropriate deposit insurance fund will incur a loss with respect to the institution. Section 7 further specifies that the FDIC must take into account the likely amount of any such loss. 12 U.S.C. 1817(b)(1). Accordingly, proposed § 327.6(a) would call for the buyers—the institutions that would present a continuing insurance risk to the FDIC for the deposits—to pay assessments that reflect that risk.

Proposed § 327.6(a) would achieve this goal by adjusting the buyers' assessment bases upward. The proposed rule would call for each buyer's assessment base to be increased by that buyer's "pro rata share" of the seller's first-quarter assessment base: that is, by the ratio of the deposits that the buyer assumes from the seller to the seller's total quarter-end deposits. The proposed regulation would correspondingly reduce the seller's assessment base.[3]

This formula is designed to be relatively simple, and to be satisfactory for most cases. A seller generally transfers all its deposits at the same time, even when several buyers assume the deposits. In a few cases, a seller may transfer its deposits to several buyers over an interval: but even then, the interval tends to be short, and the seller tends to decline in size (if it changes in size at all). The formula would function properly under these conditions.

But the formula would not, on its own, accommodate cases in which a seller's volume of deposits increases between the end of the quarter and the date of the transfer. In that event, the buyers would assume more deposits than the seller reported in its report of condition. The formula would cause the buyers' collective assessment bases to increase by an amount greater than the seller's quarter-end assessment base.

Proposed § 327.6(a) addresses this difficulty by putting a cap on the aggregate amount by which the buyers' assessment bases could be increased. The FDIC considers that it would be justified in collecting an aggregate assessment based on the seller's quarter-end assessment base, because the seller itself would pay such an assessment if the seller remained in existence. But, by the same token, the FDIC would not be justified in collecting an aggregate assessment based on a higher amount.

Nor would the formula, on its own, accommodate more elaborate deposit-transfer arrangements. For example, a buyer may be acting merely as an intermediary, or a transfer may be only incidental to other mergers or deposit-assumptions. In such cases, the formula might not accurately reflect the likely amount of the loss that the buyer—or the other institutions—ultimately pose to their insurance funds in the upcoming period.

The FDIC does not believe it is possible to foresee all the special situations that might arise in complex cases. Proposed § 327.6(a) accordingly would give the FDIC a limited flexibility to adjust a buyer's or seller's assessment base. The proposed rule would specify that the FDIC may use this authority only to bring an institution's assessment base into line with the true magnitude of the likely amount of the loss that the institution poses for the upcoming quarter—that is, with the institution's true deposit-base at the beginning of that quarter.

It must be emphasized that proposed § 327.6(a) would only apply to institutions that participate directly in a transfer (or related series of such transactions), or that participate in transactions directly related to such a transaction (for example, an institution that assumes deposits from a buyer). Furthermore, the authority would not mean that the FDIC could consider other risk factors—ones unrelated to the volume of deposits transferred—in determining the likely amount of the loss.

B. Examples

The following examples apply the proposed rule. For the sake of convenience, amounts in the examples are rounded to the nearest million.

Example 1—Partial transfer of deposits; transferor remains in business. Institution A reported $100 million worth of deposits in its report of condition as of December 31. On January 15, Institution B agrees to acquire a branch office of Institution A that held $5 million worth of deposits reported in Institution A's December 31 report of condition. Institution A continues to be an insured institution. Institution A's February 28 assessment invoice that will be collected on March 30 will be based on the reported $100 million worth of deposits, in accordance with normal processing.

Institution A remains responsible for the assessment liability on January 1 based on the December 31 report of condition. The February invoice represents the second installment payment of the January through June semiannual assessment period. The FDIC expects that Institutions A and B may well have dealt with any question of allocating the cost of the assessment premium. But Institution A must still make the payment to the FDIC.

Example 2—Partial transfer of deposits; transferor remains in business. Institution A reported $100 million worth of deposits in its report of condition as of September 30. On October 1, Institution B agrees to acquire a branch office of Institution A that held $10 million worth of deposits reported in Institution A's September 30 report of condition. Institution A continues to be an insured institution. Institution A's November 30 assessment invoice that will be collected on December 30 will be based on the $100 million worth of deposits, in accordance with normal processing.

Institution A remains responsible for the assessment liability established on October 1 based on the September 30 report of condition. The November invoice represents the first installment payment for the next semiannual assessment period (January through June). The FDIC expects that Institutions A and B may well have dealt with any question of allocating the assessment premium. But Institution A must still make the assessment payment to the FDIC.

Example 3—Transfer of deposits; transferor ceases to exist. Institution A reported $100 million worth of deposits in its report of condition as of September 30. Its assessment base (deposits less deductions) is $90 million. On October 15, Institution A transfers all its deposits to Institution B and goes out of business. Institution A has only $98 million in deposits at the time of the transfer. The FDIC will increase Institution B's September 30 assessment base to reflect its *pro rata* share of Institution A's assessment base. That is, Institution B's assessment base will be increased by $88 million, determined as follows: $98 million deposits acquired divided by $100 million deposits reported by Institution A on its September 30 report of condition multiplied by $90 million assessment base (98/100 × $90 million), or $88 million. Institution B would receive credit for any assessment payments attributable to the transferred deposits that have already been made by Institution A.

Institution B's payment represents the first installment for the January through June assessment period. The FDIC considers that the deposits transferred in bulk to Institution B continue to pose a risk to the insurance fund. Accordingly, it is appropriate to adjust Institution B's assessment base to reflect that risk.

Example 4—Multiple transfers of deposits, transferor ceases to exist. Institution A reported $100 million worth of deposits in its report of condition as of September 30; its assessment base is $90 million. On October 15 it transfers $33 million of its deposits in

[3] This latter provision may seem superfluous. In virtually all such cases the seller would cease to exist before the end of the transfer period. Sometimes, however, a related series of transfers could extend beyond the end of a semiannual period. In that case, the seller would still be in existence at the start of the following period. The seller would make a second-quarter payment based on its first-quarter assessment base. Absent this latter provision, the FDIC would in effect be assessing the same deposits twice.

bulk to Institution B. Institution A then shrinks in size from $67 million to $50 million, and on November 30 transfers all its remaining deposits to Institution C. The FDIC will increase the September assessment bases of Institutions B and C by $20 million and $45 million, respectively. The supporting calculation shows: Institution B—$33 million in deposits acquired by Institution B divided by $100 million deposits reported by Institution A on the September report of condition multiplied by $90 million assessment base of Institution A determined from the report of condition based on September 30 report of condition; Institution C—$50 million in deposits acquired from Institution A divided by $100 million deposits reported by Institution A's September report of condition multiplied by the $90 million assessment base of Institution A determined from its report of condition.

The FDIC believes that the *pro rata* methodology presented properly reflects the continued risk to the insurance fund presented by the deposits transferred in bulk from Institution A to Institutions B and C. The insurance fund will bear the cost of deposits that are not transferred in bulk.

Example 5—Multiple transfers of deposits, transferor ceases to exist. The circumstances presented in Example 4 remain constant for this example, except that the deposits acquired by Institutions B and C are $50 million and $60 million, respectively. In this situation, the total deposits transferred exceed the deposits reported in Institution A's September 30 report of condition. In this case, each institution's pro rata share will be determined by dividing the acquiring institution's acquired deposits by the total deposits transferred in bulk from the disappearing institution in that quarter. Thus, the September 30 assessment base of Institution B would be increased by $41 million ($50 million deposits acquired divided by $110 million total deposits transferred by Institution A during that quarter multiplied by the $90 million of Institution A's assessment base) and Institution C's September 30 assessment base will be increased by $49 million ($60 million deposits acquired divided by $110 million total deposits transferred during that quarter multiplied by the $90 million assessment base of Institution A).

Example 6—Resolution of a failed institution. Institution A reported $100 million worth of deposits in its September 30 report of condition. Institution A fails and is placed into receivership effective October 1. The resolution of Institution A on October 1 includes the transfer of all deposits to Institution B. The resolution of Institution A has presumptively taken into account the assessment amount that would have been invoiced by the FDIC on November 30 and collected on December 30. Institution B does not owe any additional assessment for the deposits acquired from Institution A.

The FDIC believes that the final resolution of the assets and liabilities of the failed Institution A included and satisfied the assessment amount to be invoiced and paid on the assessment base determined from the September 30 report of condition.

C. Reports

The existing rule requires the seller to file a final certified statement and gives the buyer the option—but does not impose the duty—of making the filing on behalf of the seller. The proposed rule would do away with final certified statements in the case of transfers, on the ground that final certified statements would not be needed in the new assessment plan. As a collateral but incidental matter, the proposed rule would formally eliminate Form 6420/11.

Under the proposed rule, in order to determine the buyer's first-quarter assessment base for use in computing its second-quarter assessment payment, the FDIC would need to know the amount of deposits that the buyer has assumed. The FDIC does not believe, however, that it is necessary to set forth a formal reporting requirement in the proposed regulation. The FDIC expects that the existing reports that buyers must make to their primary supervisors would serve this purpose.

An institution's second-quarter payment would be due—in full, and computed with reference to the institution's assessment base as determined pursuant to proposed § 327.6(a)(2)—on the regularly-scheduled payment date. An institution that underpaid this assessment would have to pay interest on the shortfall at the rate prescribed by proposed § 327.7 ("Payment of interest on assessment underpayments and overpayments"). Accordingly, a buyer might well find it convenient to estimate the deposits it planned to assume, and to relay the estimate to the FDIC. If the payment exceeded the amount properly due, the buyer would be entitled to an adjustment on its next payment for the excess amount so paid (plus interest).

If the FDIC were to receive the estimates early enough, it could use the information when preparing the invoice for the buyer's second-quarter payment. If not, the FDIC could either send out a supplemental invoice as soon as practicable reflecting the amendments to the buyer's assessment base, or could make an appropriate adjustment to the buyer's next assessment payment.

III. Deletion of References to Experience Factors

The FDIC's assessments regulations currently permit the use of "experience factors" in the computation of an institution's assessment base, for the purpose of quantifying unposted debits and credits. However, under the existing regulations, the use of experience factors will no longer be permitted for assessments due after 1994. Accordingly, the FDIC proposes to delete all references to experience factors from the regulations.

IV. Paperwork Reduction Act

The proposed rule contains a revision to an existing collection of information. The revision has been submitted to the Office of Management and Budget (OMB) for review and approval pursuant to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*). Comments regarding the accuracy of the burden estimate, and suggestions for reducing the burden, should be addressed to the Office of Management and Budget, Paperwork Reduction Project (3064–0057), Washington, DC 20503, with copies of such comments sent to Steven F. Hanft, Assistant Executive Secretary (Administration), Federal Deposit Insurance Corporation, room F–400, 550 17th St., NW., Washington, DC 20429.

At present, each insured depository institution is required to compute its own semiannual assessment. Under the proposed rule, assessments would be computed by the FDIC using information reported by the institution in its quarterly reports of condition. The institution would be required to certify its agreement with the assessment computation shown on the certified statement form as received from the FDIC or, alternatively, its agreement with that computation as amended in a manner specified by the institution. It is expected that, prior to certification, an institution would compare the information on the form with its own records—which it collects and maintains for purposes of filing its reports of condition—and, if necessary, indicate any amendments. This process should constitute a substantially smaller burden for the institution than preparing and reporting its own assessment computation. The requirements concerning the certified statement are found in § 327.2 of the proposed rule.

The estimated annual reporting burden for the collection of information requirement in this proposed rule is summarized as follows:

Approximate Number of Respondents: 13,400.

Number of Responses per Respondent: 2.

Total Approximate Annual Responses: 26,800.

Average Time per Response: 30 minutes.

Total Average Annual Burden Hours: 13,400.

V. Regulatory Flexibility Act

The Board hereby certifies that the proposed rule would not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

Under the proposal, the FDIC would compute the assessment payments due from each depository institution, a task currently required of the institution. Thus, the proposal would reduce an existing burden. Moreover, to the extent any burden would remain, the FDIC believes that it would be proportionate to the size of the institution and, accordingly, that the proposal would not have a disparate impact of the nature contemplated by the Regulatory Flexibility Act.

VI. Request for Public Comment

The Board hereby requests comment on all aspects of the proposed rule. The Board particularly invites comment on the proposal to collect assessments by means of direct debits initiated by the FDIC and on the impact of the quarterly collection of assessments on insured depository institutions. Interested persons are invited to submit written comment during a 60-day comment period.

Comments are not requested in this proceeding as to what measure—whether total deposits or another measure—should be used as a basis for determining an institution's assessment base. The Board expects to seek public comment on that subject in the near future, in a separate proceeding.

List of Subjects

12 CFR Part 304

Bank deposit insurance, Banks, banking, Freedom of information, Reporting and recordkeeping requirements.

12 CFR Part 327

Assessments, Bank deposit insurance, Financing corporation, Savings associations.

For the reasons stated in the preamble, the Board proposes to amend 12 CFR parts 304 and 327 as follows:

PART 304—FORMS, INSTRUCTIONS AND REPORTS

1. The authority citation for part 304 continues to read as follows:

Authority: 5 U.S.C. 552; 12 U.S.C. 1817, 1818, 1819, 1820; Public Law 102–242, 105 Stat. 2251 (12 U.S.C. 1817 note).

2. Section 304.3 is revised to read as follows:

§ 304.3 Certified statements.

The certified statements required to be filed by insured depository institutions under the provisions of section 7 of the Federal Deposit Insurance Act as amended (12 U.S.C. 1817) shall be filed in accordance with part 327 of this chapter. The applicable forms are as follows:

(a) *Form 6420/07: Certified Statement.* Form 6420/07 shows the computation of the semiannual assessment due to the Corporation from an insured depository institution. As provided for in part 327 of this chapter, the form will be furnished to insured depository institutions by the Corporation twice each calendar year and the completed statement must be returned to the Corporation by each institution, except that newly insured institutions must submit their first certified statement on Form 6420/10.

(b) *Form 6420/10: First Certified Statement.* Form 6420/10 shows the computation of the semiannual assessment due to the Corporation from an institution in the first semiannual period after the semiannual period during which the institution becomes an insured depository institution, as provided for in part 327 of this chapter.

Appendix A to Part 304—[Amended]

3. Appendix A to part 304 is amended by removing the entries for FDIC 6400/01, Consolidated Statement Amending Certified Statements, and FDIC 6420/11, Final Certified Statement.

PART 327—ASSESSMENTS

1. The table of contents for part 327 is revised to read as follows:

Subpart A—In General

Sec.
327.1 Purpose and scope.
327.2 Certified statements.
327.3 Payment of semiannual assessments.
327.4 Annual assessment rate.
327.5 Assessment base.
327.6 Termination of insurance: Assessments, certified statements, and notices to depositors.
327.7 Payment of interest on assessment underpayments and overpayments.
327.8 Definitions.
327.9 Assessment rate schedules.

Subpart B—Insured Depository Institutions Participating in Section 5(d)(3) Transactions

327.31 Scope.
327.32 Computation and payment of assessment.

2. The authority citation for part 327 continues to read as follows:

Authority: 12 U.S.C. 1441, 1441b, 1817–1819.

3. Section 327.2 is revised to read as follows:

§ 327.2 Certified statements.

(a) *Required.* Each insured depository institution shall file a certified statement during each semiannual period.

(b) *Time of filing.* Certified statements for any semiannual period must be filed no later than the second-quarterly payment date specified in § 327.3(d)(2). Certified statements postmarked on or before such date are deemed to be timely filed.

(c) *Form.* The Corporation will provide to each insured depository institution a certified statement form showing the amount and computation of the institution's semiannual assessment. The president of the insured depository institution, or such other officer as the institution's board of directors or trustees may designate, shall review the information shown on the form.

(d) *Certification*—(1) *Form accepted.* If such officer agrees that to the best of his or her knowledge and belief the information shown on the certified statement form is true, correct and complete and in accordance with the Federal Deposit Insurance Act and the regulations issued thereunder, the officer shall so certify.

(2) *Form amended*—(i) *In general.* If such officer determines that to the best of his or her knowledge and belief the information shown on the certified statement form is not true, correct and complete and in accordance with the Federal Deposit Insurance Act and the regulations issued thereunder, the officer shall make such amendments to the information as he or she believes necessary. The officer shall certify that to the best of his or her knowledge and belief the information shown on the form, as so amended, is true, correct and complete and in accordance with the Federal Deposit Insurance Act and the regulations issued thereunder.

(ii) *Request for revision.* The certification and filing of an amended form under paragraph (d)(2) of this section does not constitute a request for revision by the Corporation of the information shown on the form. Any such request to the Corporation for revision of the information shown on the form shall be submitted separately from the certified statement and in accordance with the provisions of § 327.3(h).

(iii) *Rate multiplier.* The rate multiplier shown on the certified statement form shall be amended only if it is inconsistent with the assessment risk classification assigned to the institution in writing by the Corporation for the current semiannual period pursuant to § 327.4(a). Agreement with the rate multiplier shall not be deemed

to constitute agreement with the assessment risk classification assigned.

§ 327.5 [Removed]

3a. Section 327.5 is removed.

§§ 327.3 and 327.4 [Redesignated as §§ 327.4 and 327.5]

4. Sections 327.3 and 327.4 are redesignated as §§ 327.4 and 327.5, respectively, and a new § 327.3 is added to read as follows:

§ 327.3 Payment of semiannual assessments.

(a) *Required*—(1) *In general.* Except as provided in paragraph (b) of this section, each insured depository institution shall pay to the Corporation, in two quarterly payments, a semiannual assessment determined in accordance with this part 327.

(2) *Notice of designated deposit account.* For the purpose of making such payments, each insured depository institution shall designate a deposit account for direct debit by the Corporation. No later than 30 days prior to the next payment date specified in paragraphs (c)(2) and (d)(2) of this section, each institution shall provide written notice to the Corporation of the account designated, including all information and authorizations needed by the Corporation for direct debit of the account. After the initial notice of the designated account, no further notice is required unless the institution designates a different account for assessment debit by the Corporation, in which case the requirements of the preceding sentence apply.

(b) *Newly insured institutions.* A newly insured institution shall not be required to pay an assessment for the semiannual period during which it becomes an insured institution. For the semiannual period following the period during which it becomes an insured institution, it shall pay its full semiannual assessment at the time and in the manner provided for in paragraph (d) of this section, in an amount that is the product of its assessment base for the prior semiannual period, as provided for in § 327.5(c), multiplied by one-half of the annual assessment rate corresponding to the assessment risk classification assigned to the institution pursuant to § 327.4(a). For the purpose of making such payment, the institution shall provide to the Corporation no later than the payment date specified in paragraph (d)(2) of this section the notice required by paragraph (a)(2) of this section.

(c) *First-quarterly payment*—(1) *Invoice.* No later than 30 days prior to the payment date specified in paragraph (c)(2) of this section, the Corporation will provide to each insured depository institution an invoice showing the amount of the assessment payment due from the institution for the first quarter of the upcoming semiannual period, and the computation of that amount. Subject to paragraph (g) of this section and to subpart B of this part, the invoiced amount shall be the product of the following: The assessment base of the institution for the preceding September 30 (for the semiannual period beginning the following January 1) or March 31 (for the semiannual period beginning the following July 1) computed in accordance with § 327.5; multiplied by one-quarter of the annual assessment rate corresponding to the assessment risk classification assigned to the institution pursuant to § 327.4(a).

(2) *Payment date and manner.* On December 30 (for the semiannual period beginning the following January 1) and on June 30 (for the semiannual period beginning the following July 1), the Corporation will cause the amount stated in the applicable invoice to be directly debited from the deposit account designated by the insured depository institution for that purpose.

(d) *Second-quarterly payment*—(1) *Invoice.* No later than 30 days prior to the payment date specified in paragraph (d)(2) of this section, the Corporation will provide to each insured depository institution an invoice showing the amount of the assessment payment due from the institution for the second quarter of that semiannual period, and the computation of that amount. Subject to paragraph (g) of this section and to subpart B of this part, the invoiced amount shall be the product of the following: The assessment base of the institution for the preceding December 31 (for the semiannual period beginning the following January 1) or June 30 (for the semiannual period beginning the following July 1) computed in accordance with § 327.5; multiplied by one-quarter of the annual assessment rate corresponding to the assessment risk classification assigned to the institution pursuant to § 327.4(a).

(2) *Payment date and manner.* On March 30 (for the semiannual period beginning the preceding January 1) and on September 30 (for the semiannual period beginning the preceding July 1), the Corporation will cause the amount stated in the applicable invoice to be directly debited from the deposit account designated by the insured depository institution for that purpose.

(e) *Necessary action, sufficient funding by institution.* Each insured depository institution shall take all actions necessary to allow the Corporation to debit assessments from the institution's designated deposit account and, prior to each payment date indicated in paragraphs (c)(2) and (d)(2) of this section, shall ensure that funds in an amount at least equal to the invoiced amount are available in the designated account for direct debit by the Corporation. Failure to take any such action or to provide such funding of the account shall be deemed to constitute nonpayment of the assessment.

(f) *Business days.* If a payment date specified in paragraph (c) or (d) of this section falls on a day that is not a business day, the applicable date shall be the previous business day.

(g) *Payment adjustments in succeeding quarters.* The quarterly assessment invoices provided by the Corporation may reflect adjustments resulting from such factors as amendments to prior quarterly reports of condition, retroactive revision of an institution's assessment risk classification, and revisions of assessment computations for prior quarters.

(h) *Request for revision of computation of quarterly assessment payment*—(1) *In general.* An institution may submit a request for revision of the computation of the institution's quarterly assessment payment as shown on the quarterly invoice. Such revision may be requested in the following circumstances:

(i) The institution disagrees with the computation of the assessment base as stated on the invoice;

(ii) The institution determines that the rate multiplier applied by the Corporation is inconsistent with the assessment risk classification assigned to the institution in writing by the Corporation for the semiannual period for which the payment is due; or

(iii) The institution believes that the invoice does not fully or accurately reflect adjustments provided for in paragraph (g) of this section.

(2) *Inapplicability.* This paragraph (h) is not applicable to requests for review of an institution's assessment risk classification, which are covered by § 327.4(d).

(3) *Requirements.* Any such request for revision must be submitted within 60 days of the date of the quarterly assessment invoice for which revision is requested, except that requests for revision resulting from detection by the institution of an error or omission for which the institution files an amendment to its quarterly report of condition must be submitted within 60 days of the filing date of the amendment to the quarterly report of condition. The request for revision shall be submitted to the Chief of the Assessment Operations Section, and shall provide documentation sufficient to support the revision sought by the institution. If additional information is requested by the Corporation, such information shall be provided by the institution within 21 days of the date of the Corporation's request for additional information. Any institution submitting a timely request for revision will receive written notice from the Corporation regarding the outcome of its request. Upon completion of a review, the Chief Financial Officer (or his or her designee) shall make a determination as to whether the requested revision is warranted and shall promptly notify the institution in writing of the determination.

(i) *Assessment notice not received.* Any institution that has not received an assessment invoice for any quarterly payment by the fifteenth day of the month in which the quarterly payment is due shall promptly notify the Corporation. Failure to provide prompt notice to the Corporation shall not affect the institution's obligation to make full and timely assessment payment. Unless otherwise directed by the Corporation, the institution shall preliminarily pay the amount shown on its assessment invoice for the preceding quarter, subject to subsequent correction.

5. Newly designated § 327.4 is amended by revising the section heading; removing paragraphs (a) through (c); redesignating paragraphs (d), (f), and (g) as new paragraphs (g), (c), and (d), respectively; removing the heading of paragraph (e); redesignating paragraphs (e)(1) and (e)(2) as new paragraphs (a) and (b), respectively, and revising them; revising newly designated paragraph (g); and redesignating paragraphs (h) and (i) as new paragraphs (f) and (e), respectively, to read as follows:

§ 327.4 Annual assessment rate.

(a) *Assessment risk classification.* For the purpose of determining the annual assessment rate for BIF members under § 327.9(a), and the annual assessment rate for SAIF members under § 327.9(c), each insured depository institution will be assigned an "assessment risk classification". Notice of the assessment risk classification applicable to a particular semiannual period will be provided to the institution with the first-quarterly invoice provided pursuant to § 327.3(c)(2). Each institution's assessment risk classification, which will be composed of a group and a subgroup assignment, will be based on the following capital and supervisory factors:

(1) *Capital factors.* Institutions will be assigned to one of the following three capital groups on the basis of data reported in the institution's Report of Income and Condition, Report of Assets and Liabilities of U.S. Branches and Agencies of Foreign Banks, or Thrift Financial Report containing the necessary capital data, for the report date that is closest to the last day of the seventh month preceding the current semiannual period.

(i) *Well capitalized.* For assessment risk classification purposes, the short-form designation for this group is "1".

(A) Except as provided in paragraph (a)(1)(i)(B) of this section, this group consists of institutions satisfying each of the following capital ratio standards: Total risk-based ratio, 10.0 percent or greater; Tier 1 risk-based ratio, 6.0 percent or greater; and Tier 1 leverage ratio, 5.0 percent or greater. New insured depository institutions coming into existence after the report date specified in paragraph (a)(1) of this section will be included in this group for the first semiannual period for which they are required to pay assessments.

(B) For purposes of assessment risk classification, an insured branch of a foreign bank will be deemed to be "well capitalized" if the insured branch maintains the pledge of assets required under 12 CFR 346.19, and maintains the eligible assets prescribed under 12 CFR 346.20 at 108 percent or more of the average book value of the insured branch's third-party liabilities for the quarter ending on the report date specified in paragraph (a)(1) of this section.

(ii) *Adequately capitalized.* For assessment risk classification purposes, the short-form designation for this group is "2".

(A) Except as provided in (a)(1)(ii)(B) of this section, this group consists of institutions that do not satisfy the standards of "well capitalized" under this paragraph but which satisfy each of the following capital ratio standards: Total risk-based ratio, 8.0 percent or greater; Tier 1 risk-based ratio, 4.0 percent or greater; and Tier 1 leverage ratio, 4.0 percent or greater.

(B) For purposes of assessment risk classification, an insured branch of a foreign bank will be deemed to be "adequately capitalized" if the insured branch:

(*1*) Maintains the pledge of assets required under 12 CFR 346.19;

(*2*) Maintains the eligible assets prescribed under 12 CFR 346.20 at 106 percent or more of the average book value of the insured branch's third-party liabilities for the quarter ending on the report date specified in paragraph (a)(1) of this section; and

(*3*) Does not meet the definition of a well capitalized insured branch of a foreign bank.

(iii) *Undercapitalized.* For assessment risk classification purposes, the short-form designation for this group is "3". This group consists of institutions that do not qualify as either "well capitalized" or "adequately capitalized" under paragraphs (a)(1) (i) and (ii) of this section.

(2) *Supervisory risk factors.* Within its capital group, each institution will be assigned to one of three subgroups based on the Corporation's consideration of supervisory evaluations provided by the institution's primary federal regulator. The supervisory evaluations include the results of examination findings by the primary federal regulator, as well as other information the primary federal regulator determines to be relevant. In addition, the Corporation will take into consideration such other information (such as state examination findings, if appropriate) as it determines to be relevant to the institution's financial condition and the risk posed to the BIF or SAIF. Authority to set dates applicable to the determination of supervisory subgroup assignments is delegated to the Corporation's Director of the Division of Supervision (or his or her designee). The three supervisory subgroups are:

(i) *Subgroup "A".* This subgroup consists of financially sound institutions with only a few minor weaknesses;

(ii) *Subgroup "B".* This subgroup consists of institutions that demonstrate weaknesses which, if not corrected, could result in significant deterioration of the institution and increased risk of loss to the BIF or SAIF; and

(iii) *Subgroup "C".* This subgroup consists of institutions that pose a substantial probability of loss to the BIF or SAIF unless effective corrective action is taken.

(b) *Payment of assessment at rate assigned.* Institutions shall make timely payment of assessments based on the assessment risk classification assigned in the notice provided to the institution pursuant to paragraph (a) of this section. Timely payment is required notwithstanding any request for review filed pursuant to paragraph (d) of this section. An institution for which the assessment risk classification cannot be determined prior to an invoice date specified in § 327.3 (c)(1) or (d)(1) shall preliminarily pay on that invoice at the

assessment rate applicable to the classification designated "2A" in the appropriate rate schedule set forth in § 327.9. If such institution is subsequently assigned for that semiannual period an assessment risk classification other than that designated as "2A", or if the classification assigned to an institution in the notice is subsequently changed, any excess assessment paid by the institution will be credited by the Corporation, with interest, and any additional assessment owed shall be paid by the institution, with interest, in the next quarterly assessment payment after such subsequent assignment or change. Interest payable under this paragraph shall be determined in accordance with § 327.7.

* * * * *

(g) *Lifeline accounts.* Notwithstanding any other provision of this part 327, the portion of an institution's assessment base that is attributable to deposits in lifeline accounts pursuant to the Bank Enterprise Act, 12 U.S.C. 1831, will be assessed at such rate as may be established by the Corporation pursuant to 12 U.S.C. 1834 and section 7(b)(2)(H) of the Federal Deposit Insurance Act, as amended, 12 U.S.C. 1817(b)(2)(H).

6. Newly designated § 327.5 is amended by revising the section heading, removing paragraph (a), redesignating paragraphs (b) and (c) as new paragraphs (a) and (b), respectively, revising newly designated paragraph (a) introductory text, revising newly designated paragraphs (b)(1) introductory text and (b)(1)(ii), removing newly designated paragraphs (b)(1)(iii) and (b)(1)(iv), and adding a new paragraph (c), to read as follows:

§ 327.5 Assessment base.

(a) *Computation of assessment base.* Except as provided in paragraph (c) of this section, the assessment base of an insured depository institution for any date on which the institution is required to file a quarterly report of condition shall be computed by:

* * * * *

(b) *Methods of reporting unposted credits and unposted debits*—(1) *Unposted credits.* Each insured depository institution shall report unposted credits in quarterly reports of condition for addition to the assessment base in the following manner:

* * * * *

(ii) If the institution's records show the total actual amount of unposted credits but do not segregate the amount as stated in paragraph (b)(1)(i) of this section, the institution must report the total actual amount of the unposted credits for addition to time and savings deposits.

* * * * *

(c) *Newly insured institutions.* In the case of a newly insured institution, the assessment base for the last date for which insured depository institutions are required to file quarterly reports of condition within the semiannual period in which the newly insured institution became an insured institution shall be deemed to be its assessment base for that semiannual period. If the institution has not filed such a report by the due date for such reports from insured depository institutions, it shall promptly provide to the Corporation such information as the Corporation may require to prepare the certified statement form for the institution for the current semiannual period.

7. Section 327.6 is amended by revising the section heading and paragraph (a) to read as follows:

§ 327.6 Termination of insurance: Assessments, certified statements, and notices to depositors.

(a) *Deposit transfers*—(1) *Assessment base computation.* If a deposit-transfer transaction occurs at any time in the second quarter of the transfer period—

(i) Each acquiring institution's assessment base for the first quarter of the transfer period (as computed pursuant to § 327.5) shall be increased by an amount equal to such institution's *pro rata* share of the transferring institution's assessment base for such first quarter; and

(ii) The transferring institution's assessment base for such first quarter shall be reduced by an amount equal to the following product: the transferring institution's assessment base for that quarter; multiplied by the sum of the pro rata shares of all acquiring institutions participating in deposit-transfer transactions occurring during the second quarter of the transfer period.

(2) For purposes of paragraph (a)(1) of this section, the phrase "pro rata share" means a fraction the numerator of which is the deposits assumed by an acquiring institution from the transferring institution during the second quarter of the transfer period, and the denominator of which is the total deposits of the transferring institution as required to be reported in the quarterly report of condition for the first quarter of the transfer period.

(3) *Other assessment-base adjustments*—(i) *In general.* The Corporation may in its discretion make such adjustments to the assessment base of an institution participating in a deposit-transfer transaction, or in a related transaction, as may be necessary properly to reflect the likely amount of the loss presented by the institution to its insurance fund.

(ii) *Limitation on adjustments.* The total amount by which the Corporation may increase the assessment bases of acquiring or other institutions under paragraph (a)(2)(i) of this section shall not exceed, in the aggregate, the transferring institution's assessment base as reported in its quarterly report of condition for the first quarter of the transfer period.

* * * * *

8. Section 327.7 is amended by revising the section heading and paragraph (a), to read as follows:

§ 327.7 Payment of interest on assessment underpayments and overpayments.

(a) *Payment of interest*—(1) *Payment by institutions.* Each insured depository institution shall pay interest to the Corporation on any underpayment of the institution's assessment.

(2) *Payment by Corporation.* The Corporation will pay interest to an insured depository institution on any overpayment by the institution of its assessment.

(3) *Accrual of interest.* Interest shall accrue under this section from the day following the due date, as provided for in § 327.3(c) and (d), of the quarterly assessment amount that was overpaid or underpaid, through the payment date applicable to the quarterly assessment invoice on which adjustment is made by the Corporation for the underpayment or overpayment, *provided*, however, that interest shall not begin to accrue on any overpayment until the day following the date such overpayment was received by the Corporation.

* * * * *

9. Section 327.8 is amended by revising paragraph (d)(2) and by adding a new paragraph (h), to read as follows:

§ 327.8 Definitions.

* * * * *

(d) * * *

(2) *Current semiannual period.* The term *current semiannual period* means, with respect to a certified statement or an assessment, the semiannual period within which such certified statement is required to be filed or for which such assessment is required to be paid.

* * * * *

(h) As used in § 327.6, the following terms are given the following meanings:

(1) *Acquiring institution.* The term *acquiring institution* means an insured depository institution that assumes some or all of the deposits of a transferring institution in a particular deposit-transfer transaction.

(2) *Transferring institution.* The term *transferring institution* means an insured depository institution the deposits of which are assumed by an acquiring institution in a particular deposit-transfer transaction.

(3) *Deposit-transfer transaction.* The term *deposit-transfer transaction* means the assumption by one insured depository institution of another insured depository institution's liability for deposits, whether by way of merger, consolidation, or other statutory assumption, or pursuant to contract, when the transferring institution's status as an insured institution has terminated or is expected to terminate either as a result of the particular deposit-transfer transaction or as a result of a related series of such transactions. The term deposit-transfer transaction does not refer to the assumption of liability for deposits from the estate of a failed institution.

(4) *Transfer period.* The term *transfer period* means the semiannual period, consisting of two calendar quarters, during which a deposit-transfer transaction occurs.

§§ 327.11 and 327.12 [Removed]

10. Sections 327.11 and 327.12 are removed.

§ 327.13 [Redesignated as § 327.9]

11. Section 327.13 is redesignated as § 327.9, transferred to subpart A, and amended by revising the section heading, removing paragraphs (a) and (b), redesignating paragraphs (c) and (d) as new paragraphs (a) and (b), respectively, revising newly designated paragraph (a), amending newly designated paragraph (b) by removing the word "assessment" in the first sentence, and adding a new paragraph (c) to read as follows:

§ 327.9 Assessment rate schedules.

(a) *BIF members.* Subject to § 327.4(c), the annual assessment rate for each BIF member other than a bank specified in § 327.31(a) shall be the rate designated in the following rate schedule applicable to the assessment risk classification assigned by the Corporation under § 327.4(a) to that BIF member (the schedule utilizes the group and subgroup designations specified in § 327.4(a)):

SCHEDULE

Capital group	Supervisory subgroup		
	A	B	C
1	23	26	29
2	26	29	30
3	29	30	31

* * * * *

(c) *SAIF members.* Subject to § 327.4(c), the annual assessment rate for each SAIF member shall be the rate designated in the following schedule applicable to the assessment risk classification assigned by the Corporation under § 327.4(a) to that SAIF member (the schedule utilizes the group and subgroup designations specified in § 327.4(a).):

SCHEDULE

Capital group	Supervisory subgroup		
	A	B	C
1	23	26	29
2	26	29	30
3	29	30	31

§§ 327.21–327.24 [Removed]

12. Sections 327.21, 327.22, 327.23, and 327.24 are removed.

§ 327.32 [Amended]

13. Section 327.32 is amended by removing paragraph (a) and redesignating paragraphs (b) and (c) as new paragraphs (a) and (b), respectively.

§ 327.33 [Removed]

14. Section 327.33 is removed.

15. Part 327 is amended by removing subparts B and C, redesignating subpart D as new subpart B, and in the list below, for each section in subpart A and newly designated subpart B, remove the reference indicated in the middle column everywhere it appears and add the reference indicated in the right column:

Section	Remove	Add
327.4(c)	327.13(c)(2)	327.9(a).
	327.23(d)(2)	327.9(c).
327.4(d)	(e)(1)	(a).
327.4(e)	(e)(1)	(a).
327.5(a)(1)(i)	(c)(1)	(b)(1).
327.5(a)(1)(ii)	(c)(1)	(b)(1).
327.5(a)(2)(iii)	(b)(1)(i)	(a)(1)(i).
	(c)(2)	(b)(2).
327.5(a)(2)(iv)	(b)(1)(ii)	(a)(1)(ii).
	(c)(2)	(b)(2).
327.5(b)(2)	(c)(1)	(b)(1).
327.31(a)	Subpart D	Subpart B.
327.31(b)	Subpart D	Subpart B.
327.32(a)(1)(i)	(b)(2)(i)	(a)(2)(i).
	(b)(2)(ii)	(a)(2)(ii).
	327.3	327.4.
	Subpart D	Subpart B.
327.32(a)(2)(i)	(b)(l)(i)	(a)(l)(i).
	Subpart C	Subpart A.
327.32(a)(2)(ii)	(b)(1)(i)	(a)(1)(i).
	Subpart B	Subpart A.
327.32(a)(3)	(b)(3)(iii)	(a)(3)(iii).
	(b)(3)(i)	(a)(3)(i).
	(b)(3)(ii)	(a)(3)(ii).
327.32(a)(4)	(b)(3)(i)	(a)(3)(i).
	(b)(4)(ii)	(a)(4)(ii).
327.32(a)(5)	(b)(4)	(a)(4).
327.32(b)	Subpart D	Subpart B.
	Subpart B	Subpart A.

By order of the Board of Directors.

Dated at Washington, DC, this 24th day of May, 1994.

Federal Deposit Insurance Corporation.

Robert E. Feldman,

Acting Executive Secretary.

BILLING CODE 6714–01–P

DEPARTMENT OF THE TREASURY

Office of Thrift Supervision

12 CFR Parts 563b and 575

[No. 94–106]

RIN 1550–AA74

Conversions From Mutual to Stock Form; Mutual Savings and Loan Holding Companies

AGENCY: Office of Thrift Supervision.

ACTION: Proposed rule; extension of comment period.

SUMMARY: The Office of Thrift Supervision (OTS) is extending the comment period until July 18, 1994 for its proposed rule regarding conversions from mutual to stock form and mutual savings and loan holding companies that was published on May 3, 1994.

DATES: Comments must be received by July 18, 1994.

ADDRESSES: Interested parties are invited to submit written comments on this proposal to: Director, Information Services Division, Public Affairs, Office of Thrift Supervision, 1700 G Street, NW., Washington, DC 20552, Attention: Docket No. 94–49. These submissions may be hand-delivered to 1700 G Street, NW., from 9:00 a.m. to 5:00 p.m. on business days, or may be sent by facsimile transmission to FAX number (202) 906–7755. Comments will be available for inspection at 1700 G Street, NW., from 1:00 p.m. until 4:00 p.m. on business days. Visitors will be escorted to and from the Public Reference Room at established intervals.

FOR FURTHER INFORMATION CONTACT: Michael P. Vallely, Senior Attorney (202) 906–6241, Kevin A. Corcoran, Assistant Chief Counsel, (202) 906–6962, Corporate and Securities Division, Chief Counsel's Office; Diana L. Garmus, Deputy Assistant Director, (202) 906–5683, Corporate Activities Division, Office of Thrift Supervision

1700 G Street, NW., Washington, DC 20552.

SUPPLEMENTARY INFORMATION: The proposed rule, published in the Federal Register on May 3, 1994 (59 FR 22764), indicated that public comments were to be submitted to the OTS no later than July 17, 1994. This date was not properly calculated by the Office of the **Federal Register**. The requested closing date for comments was 45 days from date of publication, or June 17, 1994. A correction was published on June 7, 1994 (59 FR 29480). However, in order to afford the public adequate time to comment, the OTS has determined that closing date in the original notice should be used. The OTS believes that there has been sufficient level of confusion about the closing date to warrant reinstating the later date. Therefore, the comment period is hereby extended until July 18, 1994, as July 17 is not a business day.

Dated: June 8, 1994.

By the Office of Thrift Supervision

Jonathan L. Fiechter,

Acting Director.

Federal Aviation Administration

14 CFR Parts 27 and 29

Airworthiness Standards; Fiscal Year 1997 Rotorcraft Research and Development Initiative, Program Identification

AGENCY: Federal Aviation Administration, DOT.

ACTION: Call for Part 27 and 29 Research and Development Program Proposals.

SUMMARY: This notice announces a call for proposals that will define the Federal Aviation Administration (FAA), Aircraft Certification Service, Rotorcraft Directorate Research and Development (RE&D) initiative for Fiscal Year (FY) 1997 by defining and documenting specific, potential RE&D program proposals. The call for proposals will focus on Aircraft Certification RE&D programs that support activity related to FAR Parts 27, 29, and associated operations Parts. Other FAA requirements such as flight standards, air traffic, or airway facilities will not be addressed. The FAA is soliciting the public sector to ensure that proposed Rotorcraft RE&D requirements will have relevant, practical applications and will be cost effective.

DATES: The call for proposals will be open until close of business July 11, 1994.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration, (FAA), Mr. Mike Mathias, Rotorcraft Standards Staff, Fort Worth, Texas 76193-0111.

FOR FURTHER INFORMATION CONTACT: Mr. Mike Mathias, Aerospace Engineer, Rotorcraft Standards Staff, FAA, Rotorcraft Directorate, Fort Worth, Texas 76193-0111; telephone (817) 222-5123.

SUPPLEMENTARY INFORMATION: Each FY the FAA prepares an RE&D program plan that includes new (and amended) RE&D proposals. The Aircraft Certification Service's Rotorcraft Directorate is responsible for preparing its part of the overall FAA submittal.

The philosophy of the RE&D process is to create an atmosphere that will promote the identification of requirements by any person or organization in the government or private sector. This makes the RE&D process more responsive to public sector needs. Within the Aircraft Certification Service, the RE&D process places increased emphasis on FAA Aircraft Certification Directorate and Division level participation in identifying new requirements and in sponsoring and monitoring the resulting RE&D projects.

Therefore, as part of the overall FAA and Aircraft Certification initiative, the FAA's Rotorcraft Directorate is undertaking a directly-related initiative specifically for the rotorcraft community. It has the same basic mission, goals, and procedures as the agency-wide initiative.

The Rotorcraft Directorate will implement its segment of the FY-97 submittal by identifying, describing, evaluating, and cataloging potential RE&D requirements (i.e., proposals) for potential sponsorship and incorporation into the overall FAA FY-97 RE&D submittal. This will result in a coordinated FY-97 rotorcraft requirements package that will be assigned to the appropriate FAA RE&D provider organizations when approved and when funds are allocated by the budget process.

It should be stressed that the proposals that are evaluated as a result of this notice, if accepted, will not be funded until the overall FAA FY 97 RE&D submittal is funded, (i.e., at least two (2) years after their original submittal on 10/15/94) and that reprogramming of limited RE&D resources before then is highly unlikely. Also, the accepted proposals will have to compete for resources with other requirements identified for RE&D by other FAA activities. Nonetheless, the need clearly exists to identify Rotorcraft Certification RE&D needs to compete for the agency's RE&D resources.

As a matter of information, there are four primary FAA RE&D supplier organizations: (1) The Technical Center (ACD) in Atlantic City, New Jersey; (2) the Research and Development Service (ARD) in Washington, DC; (3) the Office of Environment and Energy (AEE) in Washington, DC; and (4) the Office of Aviation Medicine's Civil Aeromedical Institute (AAM/CAMI) in Oklahoma City, Oklahoma. These organizations perform the RE&D on programs that are approved and funded through the process.

Although not mandatory, the format of Figure 1 for RE&D proposals is preferred:

Figure 1.—FY-97 Rotorcraft Directorate RE&D Program Description Form I.D. No. (FAA will fill in)

Originator

(Insert Name, Address, Phone Number, and Fax Number)

Proposed RE&D Program Descriptions & Objectives

(Insert Brief Description of the proposal program and its major goals and objectives)

Note: A more detailed description may be attached in addition to this summary but is not mandatory at this time.

How Would You Accomplish This Program?

(Insert Brief Description of your recommended method of accomplishing the proposed RE&D program)

Justification/History:

(If appropriate, furnish data such as a concise accident/incident history and any other relevant statistics or information that would show that the proposed research is needed, cost-effective, and applicable to developing a solution to the proposed RE&D project. This history/justification input data will be used to aid in assessing the relative value of the proposed RE&D project.)

Anticipated Benefits/Products and Beneficiaries

(Insert Brief Description of anticipated benefits/products, who would benefit, and how)

If an RE&D proposal has been submitted previously, then (unless a major change or update has been made) it is on file and need not be resubmitted.

Copies of this notice are being mailed to all known interested parties. Any interested party who desires but has not received a copy of this notice by July 4, 1994, should request a copy from Kathy Jones, FAA Rotorcraft Standards Staff, ASW–110, Fort Worth, TX 76137–4298, telephone (817) 722–5110.

Issued in Fort Worth, Texas, on June 3, 1994.

Wayne J. Barbini,

Acting Manager, Rotorcraft Standards Staff, Aircraft Certification Service.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Chapter I

The Use of Immunohistochemical Devices in the Clinical Care of Patients; Notice of Public Workshop

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of public workshop.

SUMMARY: The Food and Drug Administration (FDA) is announcing a public workshop to discuss the use of immunohistochemical devices in the clinical care of patients. In addition, FDA is interested in obtaining comments on the regulation of products used in immunohistochemical tests.

DATES: The public workshop will be held on June 28 and 29, 1994, from 8:30 a.m. to 5 p.m. Those interested in making a formal presentation must submit a written request by June 20, 1994.

ADDRESSES: The public workshop will be held at the Gaithersburg Hilton Hotel, 620 Perry Pkwy., Gaithersburg, MD. There is no registration fee, but interested persons should call the contact person listed below to preregister. Public participation is welcomed. Anyone wishing to make a formal presentation for inclusion in the workshop should submit a request accompanied by an outline of comments to Max Robinowitz (address listed below).

FOR FURTHER INFORMATION CONTACT: Max Robinowitz, Center for Devices and Radiological Health (HFZ–440), Food and Drug Administration, 1390 Piccard Dr., Rockville, MD 20850, 301–594–3084, FAX 301–594–2360.

SUPPLEMENTARY INFORMATION: Developments in the use of monoclonal antibodies in immunohistochemical devices which are used as an aid in the diagnosis and management of a variety of diseases, including neoplasms, make it appropriate to reassess FDA's regulation of these devices. Among the major topics scheduled for discussion are: (1) The role of immunohistochemical products in cancer diagnosis; (2) problems associated with the use of monoclonal antibodies in immunohistochemical techniques; (3) the role of training and proficiency; (4) proposed role of the Biological Stain Commission in technical certification of immunohistochemical antibodies; (5) discussion on a proposal for the classification of immunohistochemical antibodies as class II medical devices; and (6) draft points to consider and guidance for the regulation of immunohistochemical antibodies.

Dated: June 7, 1994.

Approval and Promulgation of Air Quality Implementation Plans; Designation of Areas for Air Quality Planning Purposes; Redesignation of the Parkersburg, WV Ozone Nonattainment Area to Attainment and Approval of the Area's Maintenance Plan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: On November 13, 1992, the West Virginia Department of Commerce, Labor & Environmental Resources; Division of Environmental Protection; Office of Air Quality (WVOAQ) submitted a request to EPA to redesignate the Parkersburg moderate ozone nonattainment area from nonattainment to attainment. On November 13, 1992, the WVOAQ also submitted a maintenance plan for the Parkersburg area as a revision to the West Virginia State Implementation Plan (SIP). On February 28, 1994, West Virginia submitted an update to its November 13, 1994 submittal. The EPA is proposing to redesignate the Parkersburg ozone nonattainment area from nonattainment to attainment and proposing to approve the maintenance plan submitted by the WVOAQ as a revision to the West Virginia SIP because the relevant requirements set forth in the Clean Air Act, as amended in 1990, have been met. This proposal to approve the redesignation is contingent upon West Virginia's submittal of a revision to its maintenance plan's provisions for implementation of contingency measures.These actions are being taken in accordance with the Clean Air Act. The approved maintenance plan will become a federally enforceable part of the SIP for the Parkersburg area.

DATES: Comments must be received on July 11, 1994.

ADDRESSES: Written comments should be sent to Thomas J. Maslany, Director, Air, Radiation, and Toxics Division, U.S. Environmental Protection Agency, Region III, 841 Chestnut Building, Philadelphia, Pennsylvania 19107. The state submittal and EPA's Technical Support Document (TSD) prepared on these proposed actions is available for public review at the above address and at the West Virginia Division of Environmental Protection, Office of Air Quality 1558 Washington Street, East Charleston, West Virginia, 25311–2599.

FOR FURTHER INFORMATION CONTACT: Michael Dubowe at (215) 597–1109, Todd Ellsworth at (215) 597–2906.

SUPPLEMENTARY INFORMATION:

I. Background

The Clean Air Act, as amended in 1977 (1977 Act), required areas that were designated nonattainment based on a failure to meet the ozone national ambient air quality standard (NAAQS) to develop SIPs with sufficient control measures to expeditiously attain and maintain the standard. (1977 Act, sections 110(a)(1) and 172.) The Parkersburg, West Virginia nonattainment area was designated under section 107 of the 1977 Act as nonattainment with respect to the ozone NAAQS on September 12, 1978. (40 CFR 81.347) In accordance with section 110 of the 1977 Act, West Virginia submitted a part D ozone SIP on November 15, 1979 which EPA approved as meeting the requirements of section 110 and part D of the 1977 Act. In its SIP, the State of West Virginia projected that the Parkersburg, West Virginia nonattainment area would attain the ozone standard by December 31, 1982. The area failed to attain the standard.

On November 15, 1990, the Clean Air Act Amendments of 1990 (hereafter the Act) were enacted. Public Law 101–549, 104 Stat. 2399, codified at 42 U.S.C. 7401–7671q. The nonattainment

designation of the Parkersburg, West Virginia area continued by operation of law according to section 107(d)(1)(C)(i) of the Act, furthermore, it was classified by operation of law as moderate for ozone pursuant to section 181(a)(1) of the Act. See 56 FR 56694 (November 6, 1991) and 57 FR 56762 (Nov. 30, 1992), codified at 40 CFR 81.347.

The Parkersburg, West Virginia ozone nonattainment area more recently has attained the ozone NAAQS, based on air quality data from 1989 through 1991. In an effort to comply with the Act and to ensure continued attainment of the NAAQS, on November 13, 1992 the WVOAQ submitted an ozone maintenance plan for the Parkersburg West Virginia area as a revision to the West Virginia SIP.

On November 13, 1992, the State of West Virginia also requested that EPA redesignate the Parkersburg, West Virginia area to attainment with respect to the ozone NAAQS. In addition, on February 28, 1994, West Virginia submitted an update to its November 13, 1992 submittal, collectively referred to hereafter as the "State of West Virginia's redesignation request."

II. Evaluation Criteria

According to section 107(d)(3)(E) of the Act, five specific requirements must be met in order for EPA to redesignate an area from nonattainment to attainment:

1. The area must have attained the applicable NAAQS;
2. The area has met all relevant requirements under section 110 and part D of the Act;
3. The area has a fully approved SIP under section 110(k) of the Act;
4. The air quality improvement must be permanent and enforceable; and
5. The area must have a fully approved maintenance plan pursuant to section 175A of the Act.

III. Review of West Virginia's Submittal

The State of West Virginia's redesignation request for the Parkersburg, West Virginia area included information and documentation sufficient for EPA to determine that the five requirements of section 107, noted above have been met. Following is a brief description of how the each of these requirements has been fulfilled. Because the maintenance plan is a critical element of the redesignation request, EPA will discuss its evaluation of the maintenance plan under its analysis of the redesignation request. A Technical Support Document (TSD) has also been prepared by EPA on these rulemaking actions. That TSD is available for public inspection at the EPA Regional Office listed in the **ADDRESSES** section of this document.

1. Attainment of the Ozone NAAQS

The submittal contains an analysis of ozone air quality data which is relevant to the maintenance plan and to the redesignation request. Ambient ozone monitoring data for 1989 through 1991 show attainment of the ozone NAAQS in the Parkersburg, West Virginia area. See 40 CFR 50.9 and appendix H. The State of West Virginia's redesignation request included documentation that the Parkersburg, West Virginia ozone nonattainment area has complete, quality-assured data showing attainment of the standard over the most recent consecutive three calendar year period. Therefore, the Parkersburg, West Virginia area has met the first statutory criterion for redesignation to attainment of the ozone NAAQS found at section 107(d)(3)(E)(i) of the Act.

It is important to note that EPA has also reviewed the ozone data monitored during the 1992 and 1993 ozone seasons in the Parkersburg area and determined that no violations of the standard were monitored during those years. Therefore, there have been no violations of the ozone standard monitored in the Parkersburg area since the 1988 ozone season.

2. Meeting Applicable Requirements of Section 110 and Part D

As previously stated, EPA fully approved the State of West Virginia SIP for the Parkersburg, West Virginia area as meeting the requirements of section 110(a)(2) and part D of the 1977 Act. The amended Act, however, modified section 110(a)(2) and, under part D, revised section 172 and added new requirements for all nonattainment areas. Therefore, for purposes of redesignation, EPA has reviewed the SIP to ensure that it contains all measures that were due under the Act as of November 13, 1992, the date the State of West Virginia submitted its redesignation request.

2.A. Section 110 Requirements

Although section 110 of the 1977 Act was amended in 1990, the Parkersburg, West Virginia SIP meets the requirements of section 110(a)(2) of the amended Act. A number of the requirements did not change in substance and, therefore, EPA believes that the pre-amendment SIP met these requirements. As to those requirements that were amended, See 57 FR 27936 and 23939 (June 23, 1993), many are duplicative of other requirements of the Act.

EPA has analyzed the SIP and determined that it is consistent with the requirements of section 110(a)(2) of the Act. It contains enforceable emission limitations, it requires monitoring, compiling, and analyzing ambient air quality data, it requires preconstruction review of new major stationary sources and major modifications to existing ones, it provides for adequate funding, staff, and associated resources necessary to implement its requirements, and requires stationary source emissions monitoring and reporting.

2.B. Part D Requirements

Before the Parkersburg, West Virginia ozone nonattainment area may be redesignated to attainment, it also must have fulfilled applicable requirements of part D due as of the date of the State's redesignation request. Under part D, an area's classification indicates the requirements to which it will be subject. Subpart 1 of part D sets forth the basic nonattainment requirements applicable to all nonattainment areas, classified as well as nonclassifiable. Subpart 2 of part D establishes additional requirements for nonattainment areas classified under table 1 of section 181(a). The Parkersburg, West Virginia ozone nonattainment area was classified as moderate. (See 56 FR 56694, codified at 40 CFR 81.347.) Therefore, in order to be redesignated to attainment, West Virginia must meet the applicable requirements of subpart 1 of part D—specifically sections 172(c) and 176—as well as the applicable requirements of subpart 2 of part D—due as of the date of the State's November 13, 1992 request for redesignation. EPA interprets section 107(d)(3)(E)(v) to mean that for a redesignation request to be approved, the State has met all requirements that applied to the subject area prior to or at the time of the submission of a complete redesignation request. Requirements of the Act that come due subsequently continue to be applicable to the area at those later dates (see section 175A(c)) and, if the redesignation of the area is disapproved, the State remains obligated to fulfill those requirements.

2.B.1. Subpart 1 of Part D—Section 172(c) Provisions

Under section 172(b), the section 172(c) requirements are applicable no later than 3 years after an area has been designated as nonattainment under the Act. EPA has determined that these requirements were not applicable to ozone nonattainment areas on or before November 13, 1992, the date the State of West Virginia, submitted a complete redesignation request and maintenance plan for Parkersburg. Therefore, the

State of West Virginia is not required to meet these requirements for purposes of redesignation. West Virginia has, however, completed and submitted a 1990 base year emissions inventory for its ozone nonattainment areas (including the Parkersburg area) in accordance with EPA's guidance. It is also important to note that upon redesignation to attainment, the preconstruction new source review requirements for prevention of significant deterioration (PSD) would apply in the Parkersburg area. EPA approved West Virginia's PSD SIP program on April 11, 1986 (51 FR 12517).

2.B.2. Subpart 1 of Part D—Section 176 Conformity Provisions

Section 176(c) of the Act requires States to revise their SIPs to establish criteria and procedures to ensure that Federal actions, before they are taken, conform to the air quality planning goals in the applicable State SIP. The requirement to determine conformity applies to transportation plans, programs and projects developed, funded or approved under title 23 U.S.C. or the Federal Transit Act ("transportation conformity"), as well as to all other Federal actions ("general conformity"). Section 176 further provides that the conformity revisions to be submitted by States must be consistent with Federal conformity regulations that the Act required EPA to promulgate. Congress provided for the State revisions to be submitted one year after the date for promulgation of final EPA conformity regulations. When that date passed without such promulgation, USEPA's General Preamble for the Implementation of title I informed States that its conformity regulations would establish a submittal date (see 57 FR 13498, 13557 (April 16, 1992)).

The USEPA promulgated final transportation conformity regulations on November 24, 1993 (58 FR 62188) and general conformity regulations on November 30, 1993 (58 FR 63214). These conformity rules require that States adopt both transportation and general conformity provisions in the SIP for areas designated nonattainment or subject to a maintenance plan approved under CAA section 175A. Pursuant to § 51.396 of the transportation conformity rule and § 51.851 of the general conformity rule, the State of West Virginia is required to submit a SIP revision containing transportation conformity criteria and procedures consistent with those established in the Federal rule by November 25, 1994. Similarly, West Virginia is required to submit a SIP revision containing general conformity criteria and procedures consistent with those established in the Federal rule by December 1, 1994. Because the deadlines for these submittals have not yet come due, they are not applicable requirements under section 107(d)(3)(E)(v) and, thus, do not affect approval of this redesignation request.

2.B.3. Subpart 2 of Part D—Section 182 Provisions for Ozone Nonattainment Areas

The Parkersburg, West Virginia nonattainment area is classified as moderate and is subject to the requirements of section 182(b) of the Act. As of November 13, 1992, the date West Virginia submitted a complete redesignation request for the Parkersburg, West Virginia nonattainment area, the Parkersburg, West Virginia area was required to meet the provisions of section 182(a)(2)(A) to correct its Reasonably Available Control Technology (RACT) requirements in effect prior to enactment of the 1990 amendments to the Act. The State of West Virginia submitted those RACT corrections as SIP revisions to EPA on June 4, 1991. A notice of final rulemaking approving these RACT corrections was published on September 17, 1992 (57 FR 42895).

On January 15, 1993, EPA notified the Governor of West Virginia that it had made a finding that West Virginia had failed to submit either a full or committal SIP revision for a basic inspection and maintenance (I/M) program for its ozone nonattainment areas. On January 18, 1994, EPA notified the Governor of West Virginia that it had made a finding that West Virginia had failed to submit a 15% rate of progress plan SIP revision for its ozone nonattainment areas. Upon the effective date of a final approval by EPA of West Virginia's redesignation request, these findings will be automatically rescinded in the Parkersburg nonattainment area.

3. Fully Approved SIP Under Section 110(k) of the Act

As stated previously, EPA has approved the RACT corrections noted above. Therefore, the State of West Virginia has a fully approved SIP under section 110(k), which also meets the applicable requirements of section 110 and part D as discussed above. Therefore, the redesignation requirement of section 107(d)(3)(E)(ii) has been met.

4. Improvement in Air Quality Due to Permanent and Enforceable Measures

Under the 1977 Act, EPA approved the State of West Virginia SIP control strategy for the Parkersburg, West Virginia nonattainment area. EPA determined that the rules and the emission reductions achieved as a result of those rules were enforceable. Since enactment of the 1990 amendments, the State of West Virginia submitted corrections to its RACT regulations as identified above. EPA finds that these additional measures contribute to the permanence and enforceability of reductions in ambient ozone levels in the Parkersburg, West Virginia area.

Between 1988 and 1990, because of permanent and enforceable state and federal provisions, emissions of volatile organic compounds (VOCs) were reduced by 2.23 tons/day and emissions of nitrogen oxides (NOx) were reduced by 1.0 tons/day in Parkersburg. Most of the reductions came from mobile sources and gasoline marketing-related activities. The Reid Vapor Pressure (RVP), of gasoline marketed for use in the Parkersburg, West Virginia area decreased from 10.5 RVP to 9.5 RVP in 1990 and was reduced to 9.0 in 1992. In addition, due to automobile fleet turnover, there was an increase in the percent of automobile operated in the Parkersburg area meeting more stringent emission standards as required by the Federal Motor Vehicle Control Program (FMVCP). It must be noted here that since 1992 the federal RVP requirement of 9.0 has been the applicable standard in the Parkersburg, West Virginia area.

The State of West Virginia maintenance plan requires the continuation of the federal RVP program. These reductions due to lower RVP and more stringent tailpipe standards resulting from the Federal Motor Vehicle Control Program were determined using the mobile emission inventory model MOBILE 5.0a and the relevant vehicle miles traveled data.

Permanent and enforceable decreases in VOCs at stationary sources contributed a small amount to the total VOC reduction in the Parkersburg, West Virginia area. In association with its emission inventory, the State of West Virginia demonstrated that point source VOC emissions were not artificially low due to local economic downturn during the period in which the Parkersburg, West Virginia area's ambient air quality came into attainment. Reductions due to decreases in production levels or from other unenforceable scenarios such as voluntary reductions were not included in the determination of the emission reductions.

EPA finds that the combination of measures contained in the SIP and federal measures have resulted in permanent and enforceable reductions in ozone precursors that have allowed

the Parkersburg, West Virginia area to attain the NAAQS, and therefore, that the redesignation criterion of section 107(d)(3)(E)(iii) has been met.

5. Fully Approved Maintenance Plan Under Section 175A

EPA is proposing approval of the State of West Virginia maintenance plan for the Parkersburg, West Virginia area because EPA finds that West Virginia's submittal meets the requirements of section 175A of the Act. If EPA determines after notice and comment that it should give final approval to the maintenance plan, the Parkersburg, West Virginia nonattainment area will have a fully approved maintenance plan in accordance with section 175A of the Act.

Section 175A of the Act sets forth the elements of a maintenance plan for areas seeking redesignation from nonattainment to attainment. The plan must demonstrate continued attainment of the applicable NAAQS for at least ten years after the area is redesignated. Eight years after the redesignation, the state must submit a revised maintenance plan which demonstrates attainment for the ten years following the initial ten-year period.

To provide for the possibility of future NAAQS violations, the maintenance plan must contain contingency measures, with a schedule for implementation, adequate to assure prompt correction of any air quality problems.

5.A. Emissions Inventory—Base Year Inventory

On November 13, 1992, the State of West Virginia submitted comprehensive inventories of VOC and NOx emissions from area, stationary, and mobile using 1990 as the base year for calculations to demonstrate maintenance. The 1990 VOC inventory is considered most representative of attainment conditions because no violations occurred in 1990 and it reflects the typical inventory for the three-year period demonstrating attainment of the standard.

The State of West Virginia submittal contains detailed inventory data and summaries by source categories. The State of West Virginia submittal also contains information related to how it comported with EPA's guidance, which model and emission factors were used (note MOBILE 5.0a was used), how Vehicle Miles Travelled (VMT) data was generated, what RVP was considered in the base year, and other technical information verifying the validity of the Parkersburg, West Virginia emission inventory.

The State of West Virginia submittal contains the detailed inventory data and summaries by source category. This inventory was prepared in accordance with EPA guidance. A summary of the base year and projected maintenance year inventories are shown in the following six tables. The TSD which has been prepared for this action contains more in-depth details regarding the base year for the Parkersburg area.

SUMMARY OF EMISSIONS FROM THE PARKERSBURG NONATTAINMENT AREA FOR 1990

Source category	VOC (tpd)	CO (tpd)	NO_x (tpd)
Area	10.2	29.0	6.1
Point	34.9	3.1	13.9
Highway Mobile	8.0	63.6	6.9
Total Emissions	53.2	95.7	26.9

SUMMARY OF EMISSIONS FROM THE PARKERSBURG NONATTAINMENT AREA FOR 1993

Source category	VOC (tpd)	CO (tpd)	NO_x (tpd)
Area	10.5	29.3	6.1
Point	33.7	3.0	13.4
Highway Mobile	6.6	53.9	6.7
Total Emissions	50.3	86.2	26.2

All Emissions in Tons Per Day (tpd).

SUMMARY OF EMISSIONS FROM THE PARKERSBURG NONATTAINMENT AREA FOR 1996

Source category	VOC (tpd)	CO (tpd)	NO_x (tpd)
Area	9.9	29.7	6.1
Point	32.6	2.9	13.0
Highway mobile	6.3	50.1	6.5
Total emissions	48.8	82.6	25.6

SUMMARY OF EMISSIONS FROM THE PARKERSBURG NONATTAINMENT AREA FOR 1999

Source category	VOC (tpd)	CO (tpd)	NO_x (tpd)
Area	10.2	30.3	6.2
Point	31.5	2.8	12.6
Highway mobile	6.1	47.6	6.3
Total emissions	47.8	80.7	25.1

All Emissions in Tons Per Day (tpd).

SUMMARY OF EMISSIONS FROM THE PARKERSBURG NONATTAINMENT AREA FOR 2002

Source category	VOC (tpd)	CO (tpd)	NO_x (tpd)
Area	10.4	30.6	6.2
Point	31.0	2.7	12.4
Highway mobile	6.0	47.5	6.2
Total emissions	47.3	80.8	24.8

SUMMARY OF EMISSIONS FROM THE PARKERSBURG NONATTAINMENT AREA FOR 2005

Source category	VOC (tpd)	CO (tpd)	NO_x (tpd)
Area	10.6	31.2	6.3
Point	30.0	2.6	12.0
Highway mobile	6.0	49.1	6.4
Total emissions	46.7	62.9	24.7

All Emissions in Tons Per Day (tpd).

5.B. Demonstration of Maintenance—Projected Inventories

In addition to the continued use of lower RVP gasoline (7.8) and fleet turnover to automobiles meeting more stringent emission standards, mobile source emission projections are dependent upon the implementation of the federal reformulated gasoline program. Total VOC and NO_x emissions were projected from the 1990 base year to year 2005. These projected inventories were prepared in accordance with EPA guidance. The projections demonstrate that the ozone standard will be maintained i.e., emissions are not expected to exceed the level of the base year inventory during this time period. EPA believes that the emissions projections demonstrate that the area will continue to maintain the ozone NAAQS because this area achieved attainment through VOC controls and reductions.

5C. Verification of Continued Attainment

Continued attainment of the ozone NAAQS in the Parkersburg, West Virginia area depends, in part, on the State of West Virginia effort toward tracking indicators of continued attainment during the maintenance period. The State of West Virginia will track the status and effectiveness of the maintenance plan by periodically updating the emissions inventory every three years. The WVOAQ has committed to perform this tracking on an annual basis in order to enable the State of West Virginia to implement the

contingency measures of its maintenance plan as expeditiously as possible.

The State of West Virginia annual update will indicate new source growth, as indicated by annual emission statements. The State of West Virginia will continue to monitor ambient ozone levels by operating its ambient ozone air quality monitoring network in accordance with 40 CFR part 58.

5D. Contingency Plan

The level of VOC and NO_x emissions in the Parkersburg area will largely determine its ability to stay in compliance with the ozone NAAQS in the future. Despite the State of West Virginia's best efforts to demonstrate continued compliance with the NAAQS, the Parkersburg area may exceed or violate the NAAQS. Therefore, West Virginia has provided contingency measures with a schedule for implementation in the event of future ozone air quality problems. In the event that exceedances of the ozone NAAQS are measured such that nonattainment is indicated in any of the areas or in the event that periodic emission inventory updates or major permitting activity reveals that excessive or unanticipated growth in ozone precursor emissions has occurred or will occur, West Virginia will accordingly select and adopt measures including the following to assure continued attainment:

1. Extend the applicability of 45CSR21 (VOC/RACT rule) to include source categories previously exclude
2. Revised new source permitting requirements requiring more stringent emissions control technology and/or emissions offsets.
3. NO_x RACT requirements, if such requirements are not already applicable.
4. Stage II Vapor Recovery Regulations.
5. Regulations to establish plant-wide emission caps (potentially with emissions trading provisions).
6. Implementation of basic (or enhanced) programs for motor vehicle inspection and maintenance.

One or more of these regulatory revisions would be selected within three (3) months after verification of a monitored ozone standard violation and a draft rule submitted to the WVOAQ.

Quality assurance procedures must confirm the monitored violation within 45 days of occurrence. The WVOAQ will be requested to adopt the control measure(s) as emergency rule(s) which will be implemented within six (6) months after adoption. EPA's approval of West Virginia's redesignation request is contingent upon West Virginia promulgating a revision to its contingency plan that includes a schedule for the mandatory implementation of the selected contingency measures.

5E. Subsequent Maintenance Plan Revisions

In accordance with Section 175A(b) of the Act, the State of West Virginia has agreed to submit a revised maintenance SIP eight years after the area is redesignated to attainment. Such revised SIP will provide for maintenance for an additional ten years. EPA has determined that the maintenance plan adopted by the State of West Virginia and submitted to EPA on November 13, 1992 meets the requirements of section 175A of the CAA. Therefore, EPA is proposing to approve the maintenance plan submittal. In addition, EPA has determined that upon final approval of the maintenance plan the provisions of section 107(d)(3)(E)(iv) for redesignation will have been met.

Proposed Action

EPA proposes to approve the ozone maintenance plan for the Parkersburg, West Virginia area submitted by the State of West Virginia on November 13, 1992 as a revision to the West Virginia SIP because it meets the requirements of section 175A. In addition, EPA is proposing to redesignate the Parkersburg, West Virginia nonattainment area to attainment, subject to final approval of the maintenance plan, because the Agency has determined that the provisions of section 107(d)(3)(E) of the Act for redesignation of nonattainment areas to attainment have been met.

EPA is soliciting public comments on this notice and on issues relevant to EPA's proposed action. Comments will be considered before taking final action. Interested parties may participate in the federal rulemaking procedure by submitting written comments to the person and address listed in the **ADDRESSES** section at the beginning of this notice.

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any SIP. Each request for revision to the SIP shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements. Ozone State Implementation Plans (SIPs) are designed to satisfy the requirements of part D of the Clean Air Act and to provide for attainment and maintenance of the ozone NAAQS. Today's proposed redesignation action should not be interpreted as authorizing the State of West Virginia to delete, alter, or rescind any of the VOC emission limitations and restrictions contained in the currently approved ozone SIP. Changes to the ozone SIP's regulations rendering them less stringent than those contained in the EPA approved plan cannot be made unless a revised plan for attainment and maintenance is submitted to and approved by EPA. Unauthorized relaxations, deletions, and changes could result in both a finding of nonimplementation under section 173(b) of the Act and in a SIP deficiency call made pursuant to section 110(k)(5).

Under the Regulatory Flexibility Act, 5 U.S.C. 600 *et seq.*, EPA must prepare a regulatory flexibility analysis assessing the impact of any proposed or final rule on small entities. 5 U.S.C. 603 and 604. Alternatively, EPA may certify that the rule will not have a significant impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and government entities with jurisdiction over populations of less than 50,000. SIP approvals under section 110 and subchapter I, part D of the CAA do not create any new requirements, but simply approve requirements that the State is already imposing. Therefore, because the federal SIP-approval does not impose any new requirements, it does not have any economic impact on any small entities. Redesignation of an area to attainment under section 107(d)(3)(E) of the Act does not impose any new requirements on small entities. Redesignation is an action that affects the status of a geographical area and does not impose any regulatory requirements on sources. Accordingly, I certify that EPA's approval of West Virginia's request to redesignate the Parkersburg ozone nonattainment area to attainment and the associated maintenance plan will not have an impact on any small entities.

The Office of Management and Budget has exempted this rule from the requirements of section 6 of Executive Order 12866.

DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

Availability of the 1995 Standard Reinsurance Agreement

AGENCY: Federal Crop Insurance Corporation, USDA.

ACTION: Notice of availability of documents.

SUMMARY: The Federal Crop Insurance Corporation (FCIC) publishes this notice to advise all interested parties that the 1995 Standard Reinsurance Agreement is available for consideration by private sector insurance companies.

ADDRESSES: For information on the Standard Reinsurance Agreement, contact Heyward Baker, Director, Delivery System Services, Federal Crop Insurance Corporation, U.S. Department of Agriculture, Washington, DC, 20250, telephone (202) 254–8245.

SUPPLEMENTARY INFORMATION: The Standard Reinsurance Agreement establishes the terms and conditions under which FCIC provides premium subsidy, expense reimbursement, and reinsurance on multiple peril crop insurance policies. The Standard Reinsurance Agreement is a cooperative financial assistance agreement between FCIC and private insurance companies to deliver the multiple peril crop insurance program under the authority of the Federal Crop Insurance Act, as amended, (7 U.S.C. 1501 *et seq.*).

Done in Washington, DC, on May 24, 1994

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order No. 691]

Grant of Authority for Subzone Status; Cortelco USA, Inc. (Telephone and Computer Equipment) Corinth, MS

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

Whereas, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment * * * of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," as amended (19 U.S.C. 81a–81u) (the Act), the Foreign-Trade Zones Board (the Board) is authorized to grant to qualified corporations the privilege of establishing foreign-trade zones in or adjacent to U.S. Customs ports of entry;

Whereas, the Board's regulations (15 CFR part 400) provide for the establishment of special-purpose subzones when existing zone facilities cannot serve the specific use involved;

Whereas, an application from the Vicksburg/Jackson Foreign Trade Zone, Inc., grantee of Foreign-Trade Zone 158, for authority to establish a special-purpose subzone for the telephone and computer equipment manufacturing plant of Cortelco USA, Inc., in Corinth, Mississippi, was filed by the Board on May 17, 1993, and notice inviting public comment was given in the **Federal Register** (FTZ Docket 20–93, 58 FR 31362, 6/2/93); and,

Whereas, the Board has found that the requirements of the Act and Board's regulations is satisfied, and that approval of the application, subject to a restriction on foreign color cathode ray tubes, is in the public interest;

Now, Therefore, the Board hereby authorizes the establishment of a subzone (Subzone 158A) at the Cortelco USA plant in Corinth, Mississippi, at the location described in the application, subject to the FTZ Act and the Board's regulations, including § 400.28, and subject to a restriction that requires Cortelco to elect privileged foreign status (19 CFR § 146.41) on foreign color cathode ray tubes admitted to the subzone.

Signed at Washington, DC, this 1st day of June 1994.

Susan G. Esserman,

Assistant Secretary of Commerce for Import Administration, Chairman, Committee of Alternates Foreign-Trade Zones Board

Attest:

John J. Da Ponte, Jr.,

Executive Secretary.

BILLING CODE: 3510–DS–P

[Docket 53–93]

Foreign-Trade Zone 38—Spartanburg County, Application for Expansion; Amendment of Application

The pending application of the South Carolina State Ports Authority, grantee of FTZ 38, requesting authority to expand its zone in Spartanburg County, South Carolina (Docket 53–93, filed 10/29/93, 58 FR 59236, 11/8/93) has been amended to include an additional proposed site located at the Highway 290 Commerce Park (111 acres), Highway 290 and River Ridge Road, some 5 miles southeast of the City of Duncan, and to restore zone status to a parcel (17 acres) that was previously deleted from Site 1 (U.S. Highway 29 and I–85, Spartanburg County). The two proposed sites will be operated by Carolina Trade Zone, Inc.

The comment period is reopened until July 25, 1994.

The application and amendment material are available for public inspection at the following locations:

Office of the Port Director, U.S. Customs Service, 150–A West Phillips Road, Greer, South Carolina 29650.

Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, 14th Street and Pennsylvania Avenue NW., room 3716, Washington, DC 20230.

Dated: May 27, 1994.

John J. Da Ponte, Jr.,

Executive Secretary

BILLING CODE 3510–25–M

International Trade Administration

(A–588–831)

Antidumping Duty Order: Grain-Oriented Electrical Steel From Japan

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: June 10, 1994.

FOR FURTHER INFORMATION CONTACT: Mike Ready or Paul Kullman, Office of Antidumping Duty Investigations, Import Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482–2613 or (202) 482–1279, respectively.

Scope of Order

The product covered by this order is grain-oriented electrical steel, which is a flat-rolled alloy steel product containing by weight at least 0.6 percent of silicon, not more than 0.08 percent of carbon, not more than 1.0 percent of aluminum, and no other element in an amount that would give the steel the characteristics of another alloy steel, of a thickness of no more than 0.56 millimeters, in coils of any width, or in straight lengths which are of a width measuring at least 10 times the thickness, as currently classifiable in the Harmonized Tariff Schedule of the United States ("HTS") under item subheadings 7225.10.0030, 7226.10.1030, 7226.10.5015 and 7226.10.5065. Although the HTS subheadings are provided for convenience and customs purposes, our written description of the scope of this proceeding is dispositive.

Antidumping Duty Order

In accordance with section 735(d) of the Act, on April 25, 1994, the Department of Commerce (Department) published in the **Federal Register** its final determination that grain-oriented electrical steel from Japan is being sold at less than fair value (59 FR 19693). On June 2, 1994, in accordance with section 735(d) of the Act, the U.S. International Trade Commission (ITC) notified the Department that imports of grain-oriented electrical steel from Japan materially injure a U.S. industry.

Suspension of Liquidation

In accordance with section 736 of the Act, the Department will direct U.S. Customs officers to assess, upon further advice by the administering authority pursuant to section 736(a)(1) of the Act, antidumping duties equal to the amount by which the foreign market value of the merchandise exceeds the United States price for all entries of grain-oriented electrical steel from Japan. These antidumping duties will be assessed on all unliquidated entries of grain-oriented electrical steel from Japan entered, or withdrawn from warehouse, for consumption on or after February 9, 1994, the date on which the Department published its preliminary determination notice in the **Federal Register** (59 FR 5990).

On or after the date of publication of this notice in the **Federal Register**, U.S. Customs officers must require, at the same time as importers would normally deposit estimated duties, the following cash deposits for the subject merchandise:

Manufacturer/producer/exporter	Weighted-average margin percentage
Kawasaki Steel Corporation	31.08
Nippon Steel Corporation	31.08
All Others	31.08

This notice constitutes the antidumping duty order with respect to grain-oriented electrical steel from Japan, pursuant to section 736(a) of the Act. Interested parties may contact the Central Records Unit, Room B–099 of the Main Commerce Building, for copies of an updated list of antidumping duty orders currently in effect.

This order is published in accordance with section 736(a) of the Act and 19 CFR 353.21.

Dated: June 6, 1994.

Susan G. Esserman,

Assistant Secretary, for Import Administration.

BILLING CODE 3510–DS–P

[C–307–702]

Certain Electrical Conductor Aluminum Redraw Rod From Venezuela; Preliminary Results of Countervailing Duty Administrative Review

AGENCY: International Trade Administration/Import Administration Department of Commerce.

ACTION: Notice of preliminary results of countervailing duty administrative review.

SUMMARY: The Department of Commerce is conducting an administrative review of the countervailing duty order on certain electrical conductor aluminum redraw rod from Venezuela for the period January 1, 1992 through December 31, 1992. There are no known entries in the review period. Therefore, we preliminarily determine that the cash deposit rate of estimated countervailing duties will be 0.50 percent *ad valorem*, the rate established in the final results of the last administrative review of this order (57 FR 36063; August 12, 1992). We invite interested parties to comment on these preliminary results.

EFFECTIVE DATE: June 10, 1994.

FOR FURTHER INFORMATION CONTACT: Gayle Longest or Kelly Parkhill, Office of Countervailing Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 482–2786.

SUPPLEMENTARY INFORMATION:

Background

On August 3, 1993, the Department of Commerce (the Department) published a notice of "Opportunity to Request Administrative Review" (58 FR 41239) for the countervailing duty order on certain electrical conductor aluminum redraw rod from Venezuela (53 FR 31904; August 22, 1988). We received a request for review from Southwire Company, the petitioner. We initiated the review, covering the period January 1, 1992 through December 31, 1992, on September 30, 1993 (58 FR 51053). The Department is conducting this review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act). The final results of the last administrative review of this order were published in the **Federal Register** on September 14, 1992 (57 FR 41918).

Scope of Review

Imports covered by this review are shipments of certain electrical conductor aluminum redraw rod from Venezuela, which is wrought rod of aluminum that is electrically conductive and contains not less than 99 percent of aluminum by weight. This merchandise is currently classifiable under item numbers 7604.10.3010, 7604.10.3050, 7604.29.3010, 7604.29.3050, 7605.11.0030, 7605.11.0090, 7605.19.0000, 7605.21.0030, 7605.21.0090 and 7605.29.0000 of the *Harmonized Tariff Schedule* (HTS). The HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive. The review period is January 1, 1992 through December 31, 1992.

In its questionnaire response, the Government of Venezuela reported no shipments of the subject merchandise to the United States during the review period. On April 7, 1994, Southwire Company submitted factual information regarding possible shipments of subject

merchandise during the review period. We subsequently confirmed through various Customs, Census, and Import Administration sources that there were no known entries of the subject merchandise during the review period. See Memorandum to the File dated May 19, 1994; Certain Electrical Conductor Aluminum Redraw Rod from Venezuela No Shipment Search, which is on file in the Central Records Unit (room B099 of the Main Commerce Building).

Preliminary Results of Review

As a result of our review, we preliminarily determine that there are no known entries of the subject merchandise exported to the United States in the period January 1, 1992 through December 31, 1992. Therefore, we preliminarily determine the estimated net subsidy to be 0.50 percent *ad valorem*, the cash deposit rate established in the final results of the last administrative review (57 FR 36063; August 12, 1992).

If the final results of this review remain the same as these preliminary results, as provided by section 751(a)(1) of the Act, the Department intends to instruct the Customs Service to collect a cash deposit of estimated countervailing duties of 0.50 percent of the f.o.b. invoice price on all shipments of the subject merchandise from Venezuela entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this review.

Interested parties may request a hearing, not later than 10 days after the date of publication of this notice. Interested parties may submit written arguments in case briefs on these preliminary results within 30 days of the date of publication in accordance with 19 CFR 355.38(c). Rebuttal briefs, limited to arguments raised in case briefs, may be submitted seven days after the time limit for filing the case brief. Any hearing, if requested, will be held seven days after the scheduled date for submission of rebuttal briefs. Copies of case briefs and rebuttal briefs must be served on interested parties in accordance with 19 CFR 355.38(e).

Representatives of parties to the proceeding may request disclosure of proprietary information under administrative protective order no later than 10 days after the representative's client or employer becomes a party to the proceeding, but in no event later than the date the case briefs are due.

The Department will publish the final results of this administrative review including the results of its analysis of issues raised in any case or rebuttal brief or at a hearing.

This administrative review and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 CFR 355.22.

Dated: June 1, 1994.

Susan G. Esserman,

Assistant Secretary for Import Administration.

BILLING CODE 3510–DS–P

[C–614–503]

Lamb Meat From New Zealand; Request for Revocation of the Countervailing Duty Order

AGENCY: International Trade Administration/Import Administration/ Department of Commerce.

ACTION: Notice of Request for Revocation of the Countervailing Duty Order.

SUMMARY: The Department of Commerce has received a request from the Government of New Zealand for revocation of the countervailing duty order on lamb meat from New Zealand.

EFFECTIVE DATE: October 18, 1993.

FOR FURTHER INFORMATION CONTACT: Gayle Longest or Kelly Parkhill, Office of Countervailing Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 482–2786.

SUPPLEMENTARY INFORMATION:

Background

On September 30, 1993, the Government of New Zealand submitted a request for revocation of the countervailing duty order on lamb meat from New Zealand (50 FR 37708; September 17, 1985). This request will be considered by the Department in conjunction with the administrative review of this order initiated on October 18, 1993. (See *Initiation of Antidumping and Countervailing Duty Administrative Reviews; Recision of Initiation*, (58 FR 53710; October 18, 1993)). This notice is issued pursuant to 19 CFR 355.25(c)(2)(i)(1992).

Dated: June 3,1994.

Joseph A. Spetrini,

Deputy Assistant Secretary for Compliance

BILLING CODE 3510–DS–P

National Institute of Standards and Technology

[Docket No. 930521–4076]

RIN 0693–AB18

Approval of Federal Information Processing Standards Publication 173–1, Spatial Data Transfer Standard (SDTS)

AGENCY: National Institute of Standards and Technology (NIST), Commerce.

ACTION: Notice.

SUMMARY: The purpose of this notice is to announce that the Secretary of Commerce has approved a revised standard, which will be published as FIPS Publication 173–1, Spatial Data Transfer Standard (SDTS). This revision adds Part 4, Topological Vector Profile (TVP) to the specifications adopted by the Spatial Data Transfer Standard and makes minor changes and clarifications to the Parts 1 and 3 of the SDTS.

On July 26, 1993, notice was published in the **Federal Register** (58 FR 39792) that a revision to Federal Information Processing Standard 173, SDTS, was being proposed for Federal use.

NIST reviewed written comments submitted by interested parties and other available material. On the basis of this review, NIST recommended that the Secretary approve the revised standard as a Federal Information Processing Standard (FIPS), and prepared a detailed justification document for the Secretary's review in support of that recommendation.

The detailed justification document which was presented to the Secretary, and which includes an analysis of the written comments received, is part of the public record and is available for inspection and copying in the Department's Central Reference and Records Inspection Facility, Room 6020, Herbert C. Hoover Building, 14th Street between Pennsylvania and Constitution Avenues, NW., Washingotn, DC 20230.

This FIPS contains two sections: (1) An announcement section, which provides information concerning the applicability, implementation, and maintenance of the standard; and (2) a specifications section, which deals with the technical requirements of the standard. Only the announcement section of the standard is provided in this notice.

EFFECTIVE DATES: This revised standard becomes effective December 30, 1994.

ADDRESSES: Interested parties may purchase copies of this revised standard, including the technical specifications section, from the National

Technical Information Service (NTIS). Specific ordering information from NTIS for this standard is set out in the Where to Obtain Copies Section of the announcement section of the standard.

FOR FURTHER INFORMATION CONTACT:

Mr. Henry Tom, (301) 975–3271, Computer Systems Laboratory, National Institute of Standards and Technology, Gaithersburg, MD 20899.

Dated: June 6, 1994.

Samuel Kramer,

Associate Director.

Federal Information Processing Standards Publication 173–1,

June 10, 1994.

Announcing the Standard for Spatial Data Transfer Standard (SDTS).

Federal Information Processing Standards Publications (FIPS PUBS) are issued by the National Institute of Standards and Technology after approval by the Secretary of Commerce pursuant to Section 111(d) of the Federal Property and Administrative Services Act of 1949 as amended by the Computer Security Act of 1987, Public Law 100–235.

1. Name of Standard. Spatial Data Transfer Standard (SDTS) (FIPS PUB 173–1).

2. Category of Standard. Software Standard, Information Interchange.

3. Explanation. This standard provides specifications for the organization and structure of digital spatial data transfer, definition of spatial features and attributes, data transfer encoding, and topological vector profile. The purpose of the standard is to promote and facilitate the transfer of digital spatial data between dissimilar computer systems.

Work on a national spatial data transfer standard was initiated by the National Committee for Digital Cartographic Data Standards, American Congress on Surveying and Mapping in 1982 to develop a comprehensive set of data exchange standards for the profession. In 1985, the Standards Working Group of the Federal Interagency Coordinating Committee on Digital Cartography also began work on spatial data exchange standards. During 1987, the results of these parallel efforts were merged by the Digital Cartographic Data Standards Task Force into the proposed Digital Cartographic Data Standard, published as a special issue of *The American Cartographer* in January 1988.

Subsequent testing, modification, and refining of the specifications were done by the Spatial Data Transfer Standard Technical Review Board. These efforts resulted in the approval and issuance of the Spatial Data Transfer Standard (SDTS) as Federal Information Processing Standard (FIPS) Publication 173 consisting of three parts: Part 1—Logical Specifications, Part 2—Spatial Features, Part 3—ISO 8211 Encoding. The revision of this standard adds Part 4, the Topological Vector Profile (TVP). The TVP is a limited subset of SDTS specifications for the transfer of vector data, it also specifies several changes and clarifications to Parts 1 and 3 of SDTS. They are as follows:

a. many-to-many and many-to-one relationships between spatial objects and attributes are permitted (Section 5.3);

b. composite objects which do not contain component objects are permitted (Section 5.4);

c. the Entity Authority and Attribute Authority subfields in the Data Dictionary/Schema module may contain a maximum of 8 characters; if Part 2 of the SDTS is the source of a definition the subfield shall contain "SDTS-USA"; a provision for standard feature registers of other countries has been added (Section 5.12);

d. the Attribute Authority subfield in the Data Dictionary/Domain and Data Dictionary/Definition modules may have a maximum length of 8 characters (Sections 5.13 and 5.14);

e. the External Spatial Reference subfield in the Conformance field in the Identification module shall have a null value meaning "undefined, not relevant" when used in a transfer containing only a master data dictionary; it is acceptable to specify this by omitting this subfield (Section A.2.2);

f. in the Point-Node module, the Attribute ID field is not mandatory for objects "NE" and "NL" (Section 5.5.4);

g. in the Line module, Annex D allows the simultaneous use of both the Chain Component ID and Spatial Address subfields (Section D.6.2); and

h. the ISO 8211 tag for the primary Field of the Arc module shall be ARCC (Section D.7.2).

SDTS supports the transfer of vector data with geometry and topology, raster data, graphic representation modules, and geometry-only vector data. The SDTS Topological Vector Profile supports only geographic vector data with geometry and topology.

An SDTS application profile, not requiring the full functionality of SDTS, defines requirements for a specific type of data and/or application. A SDTS profile simplifies the implementation of SDTS while maximizing the probability of successful data interchanges between dissimilar computer systems.

4. Approving Authority. Secretary of Commerce.

5. Maintenance Agency. U.S. Department of Interior, United States Geological Survey (USGS), National Mapping Division.

6. Related Documents. a. Federal Information Resources Management Regulations (FIRMR) subpart 201.20.303, Standards, and subpart 201.39.1002, Federal Standards.

b. A list of references is contained in section 1.3 and Annex F of Part 1 of the specifications.

7. Objectives. The objectives of the SDTS are to:

—provide a common mechanism for transferring digital spatial information between dissimilar computer systems, while preserving information meaning, and minimizing the need for information external to this standard;

—provide, for the purpose of transfer, a set of clearly specified spatial objects and relationships to represent real world spatial entities, and to specify the ancillary information necessary to accomplish the transfer;

—provide a transfer model that will facilitate the conversion of user-defined to standardized set of objects, relationships, and information.

8. Applicability. a. This standard is intended for use in the acquisition and development of government applications and programs involving the transfer of digital spatial data between dissimilar computer systems.

b. The use of the FIPS SDTS applies when the transfer of digital spatial data occurs or is likely to occur within and/or outside of the Federal government.

c. The use of the FIPS SDTS does not apply to the transfer of digital spatial data files which are not intended to represent spatial entities as digital geographic or cartographic features.

d. FIPS SDTS is not intended to facilitate product distribution of spatial data in a form designed for direct access by application software specific to a particular data structure, class of computer platform, or distribution media.

e. Nonstandard features should be used only when the needed operation or function cannot be reasonably implemented with standard features alone. Although nonstandard features can be very useful, it should be recognized that the use of these or any other nonstandard elements may make the interchange of digital spatial data and future conversions more difficult and costly.

f. Use of this standard or a FIPS approved SDTS application profile, such as the SDTS TVP, is required for Federal Government implementations of this standard. FIPS SDTS implementations not requiring full functionality are designated as application profiles. Application profiles, requiring all three parts of the FIPS SDTS, are limited subsets designed for use with a specific type of data and/or application. The SDTS Topological Vector Profile (TVP) is an application profile.

9. Specifications. The FIPS SDTS, in four parts, provides specifications for the organization and structure of digital spatial data transfer, definition of spatial features and attributes, data transfer encoding, and Topological Vector Profile.

Specifications of this FIPS have the following characteristics:

a. ability to transfer vector, raster, grid and attribute data and other ancillary information;

b. common set of terminology and definitions for spatial features;

c. internal description of the data types, formats, and data structures such that the information items can be readily identified and processed in the recipient system; and

d. media independence and extendibility to encompass new spatial information as needed.

10. Implementation. The implementation of this standard involves three areas of consideration: acquisition of FIPS SDTS implementations, validation, and interpretations of the standard.

10.1 Acquisition of FIPS SDTS Implementations. This revised standard becomes effective December 30, 1994.

10.2 Validation. Conformance to FIPS SDTS is applicable whether implementations are developed internally, acquired as part of an automated data processing (ADP) procurement, acquired by separate procurement, used under an ADP leasing arrangement, or specified for use in contracts for programming services.

Conformance criteria, based on application profiles, will be developed for use in validating the conformance of FIPS SDTS implementations. Validation of implementations for conformance to FIPS SDTS conformance criteria, policy, and procedures are under the authority of the FIPS program.

10.3 Interpretation of FIPS SDTS. Resolution of questions regarding this standard will be provided by NIST. Questions concerning the content and specification should be addressed to: Director, Computer Systems Laboratory, ATTN: FIPS SDTS Interpretation, National Institute of Standards and Technology, Gaithersburg, MD 20899, Telephone: (301) 975–3271.

11. Waivers. Under certain exceptional circumstances, the heads of Federal departments and agencies may approve waivers to Federal Information Processing Standards (FIPS). The head of such agency may redelegate such authority only to a senior official designated pursuant to section 3506(b) of Title 44, U.S. Code. Waivers shall be granted only when:

a. Compliance with a standard would adversely affect the accomplishment of the mission of an operator of a Federal computer system, or

b. Cause a major adverse financial impact on the operator which is not offset by Governmentwide savings.

Agency heads may act upon a written waiver request containing the information detailed above. Agency heads may also act without a written waiver request when they determine that conditions for meeting the standard cannot be met. Agency heads may approve waivers only by a written decision which explains the basis on which the agency head made the required finding(s). A copy of each such decision, with procurement sensitive or classified portions clearly identified, shall be sent to: National Institute of Standards and Technology; ATTN: FIPS Waiver Decisions, Technology Building, Room B–154, Gaithersburg, MD 20899.

In addition, notice of each waiver granted and each delegation of authority to approve waivers shall be sent promptly to the Committee on Government Operations of the House of Representatives and the Committee on Governmental Affairs of the Senate and shall be published promptly in the **Federal Register**.

When the determination on a waiver applies to the procurement of equipment and/or services, a notice of the waiver determination must be published in the *Commerce Business Daily* as a part of the notice of solicitation for offers of an acquisition or, if the waiver determination is made after that notice is published, by amendment of such notice.

A copy of the waiver, any supporting documents, the document approving the waiver and any supporting and accompanying documents, with such deletions as the agency is authorized and decides to make under 5 U.S.C. Sec. 552(b), shall be part of the procurement documentation and retained by the agency.

12. Where to Obtain Copies. Copies of this publication are for sale by the National Technical Information Service, U.S. Department of Commerce, Springfield, VA 22161. (Sale of the included specifications document is by arrangement with the United States Geological Survey (USGS).) When ordering, refer to Federal Information Processing Standards Publication 173–1 (FIPSPUB173–1), and title. Payment may be made by check, money order, or deposit account.

BILLING CODE 3510–CN–M

National Oceanic and Atmospheric Administration

[I.D. 053194A]

Gulf of Mexico Fishery Management Council; Public Workshop

AGENCY: National Marine Fisheries Service (NMFS) National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public workshop.

SUMMARY: The Special Management Zone Monitoring Team (SMZMT) of the Gulf of Mexico Fishery Management Council (Council) will hold a fact-finding workshop/scoping meeting on proposals by the Alabama Department of Conservation and Natural Resources (ADCNR) to establish Special Management Zones (SMZs) in the exclusive economic zone (EEZ) off Alabama. A framework procedure of the Fishery Management plan for the Reef Fish Fishery of the Gulf of Mexico, as amended, provided that the SMZMT will evaluate such requests to establish SMZs and will prepare a report for future consideration by the Council and its Scientific and Statistical Committee, its Advisory Panel, and the public at hearings. The purpose of the workshop is to provide the affected fishermen and the public an opportunity to provide information to the SMZMT on the proposed establishment of SMZs and on fishing activities occurring in the area affected that may be included in this report.

DATES: June 29, 1994, from 6 p.m. to 10 p.m.

ADDRESSES: This workshop will be held at the Orange Beach Community Center, 27235 Canal Road, Orange Beach, Alabama.

FOR FURTHER INFORMATION CONTACT: Wayne E. Swingle, Executive Director, Gulf of Mexico Fishery Management Council, 5401 West Kennedy Boulevard, Suite 331, Tampa, Florida; telephone: 813–228–2815.

SUPPLEMENTARY INFORMATION: This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Julie Krebs at the Council office by June 22, 1994.

Dated: June 6, 1994.

David S. Crestin,

Acting Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.

BILLING CODE 3510–22–M

[I.D. 052794D]

Endangered Species; Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of Permit 924 (P772#66), and Issuance of Modifications to Permits 802 (P512) and 811 (P534).

On March 29, 1994, notice was published (59 FR 14612) that an application had been filed by NMFS, Southwest Regional Office (P772#66), to conduct scientific research on listed sea turtles, including those taken incidentally by the Hawaiian longline fishery, as authorized by the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and the NMFS regulations governing listed fish and wildlife permits (50 CFR parts 217-222).

Notice is hereby given that on June 2, 1994, as authorized by the provisions of the ESA, NMFS issued Permit Number 924 (P772#66), for the above taking, subject to certain conditions set forth therein.

Notice is hereby given that on May 25, 1994, NMFS issued a second modification to Permit Number 802 (P512) to Texas A&M University to take sea turtles for tagging and biological sampling as authorized by the ESA, subject to certain conditions set forth therein.

Notice is hereby given that on May 10, 1994, NMFS issued a modification to Permit Number 811 (P534) to Hubbs Sea World to take leatherback sea turtles (*Dermochelys coriacea*) for the purpose of conducting migration studies, as authorized by the ESA, subject to certain conditions set forth therein.

Issuance of this permit and these modifications, as required by the ESA,

were based on findings that such permit and modifications: (1) Were applied for in good faith; (2) will not operate to the disadvantage of the listed species which are the subject of this permit and these modifications; (3) are consistent with the purposes and policies set forth in section 2 of the ESA. This permit and these modifications were also issued in accordance with and are subject to parts 217-222 of Title 50 CFR, the NMFS regulations governing listed species permits.

The applications, permits, modifications, and supporting documentation are available for review by interested persons in the following offices, by appointment:

Office of Protected Resources, NMFS, 1335 East-West Highway, Silver Spring, MD 20910–3226 (301–713–2322); and

Southeast Region, NMFS, NOAA, 9721 Executive Center Drive, St. Petersburg, FL 33702–2432 (813-893-3141); or

Director, Southwest Region, NMFS, NOAA, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802–4213 (310–980–4016).

Dated: June 2, 1994.

William W. Fox, Jr.,

Director, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510–22–F

[I.D.051794C]

Marine Mammals

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Modification No. 1 to scientific research permit no. 846 (P532A).

SUMMARY: Notice is hereby given that a request for modification of Scientific Research Permit No. 846 submitted by Dr. Randall W. Davis, Department of Marine Biology, Texas A&M University, has been granted.

ADDRESSES: The modification and related documents are available for review upon written request or by appointment in the following office(s):

Permits Division, Office of Protected Resources, NMFS, 1335 East-West Hwy., Silver Spring, MD 20910 (301/713–2289); and

Director, Alaska Region, NMFS, P.O. Box 21668, Juneau, AK 99802 (907/586–7221).

SUPPLEMENTARY INFORMATION: On April 19, 1994, notice was published in the **Federal Register** (59 FR 18523) that a modification of Permit No. 846, issued June 7, 1993 (58 FR 32913), had been requested by the above-named individual to increase the number of Steller sea lion pups taken annually from 40 to 60, change location of take from Chirikof to Marmot, and attach subcutaneous transmitters to 5 pups and 5 adult females. The requested modification has been granted under authority of the Marine Mammal Protection Act (MMPA) of 1972 (16 U.S.C. 1361–*et seq.*), the Endangered Species Act (16 U.S.C. 1543 *et seq.*) and implementing regulations.

Issuance of this modification, as required by the Endangered Species Act of 1973, was based on a finding that such permit: (1) Was applied for in good faith; (2) will not operate to the disadvantage of the endangered species which is the subject of this permit; and (3) is consistent with the purposes and policies set forth in Section 2 of the Endangered Species Act.

Dated: June 3, 1994.

William W. Fox, Jr.,

Director, Office of Protected Resources National Marine Fisheries Service.

BILLING CODE 3510–22–F

National Technical Information Service

NTIS Advisory Board Meeting

AGENCY: National Technical Information Service, Technology Administration, U.S. Department of Commerce.

ACTION: Notice of partially closed meeting.

SUMMARY: Pursuant to the Federal Advisory Committee Act, 5 U.S.C. app. 2, notice is hereby given that the National Technical Information Service Advisory Board (the "Board") will meet on Monday, July 11, 1994, from 9 a.m. to 4 p.m. and on Tuesday, July 12, 1994, from 9 a.m. to 12 p.m. The afternoon session on July 11, 1994 will be closed to the Public.

The Board was established under the authority of 15 U.S.C. 3704b(c), and was chartered on September 15, 1989. The Board is composed of five members appointed by the Secretary of Commerce who are eminent in such fields as information resources management, information technology, and library and information services. The purpose of the meeting is to review and make recommendations regarding general policies and operations of its services. The agenda will include a progress report on NTIS activities, an update on NTIS plans to assist Depository Libraries, an update on the progress of FedWorld, and a discussion of NTIS' long range plans. The closed session discussion is scheduled to begin at 1 p.m. and end at 4 p.m. on July 11, 1994. The session will be closed because premature disclosure of the information to be discussed would be likely to significantly frustrate implementation of NTIS' business plan.

DATES: The meeting will convene on July 11, 1994 at 9 a.m. and adjourn at 4 p.m. and convene again on July 12, 1994 at 9 a.m. and adjourn at 11:45 a.m.

ADDRESSES: The meeting will be held in room 2029, U.S. Department of Commerce, National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161.

PUBLIC PARTICIPATION: Except for the closed session from 1 to 4 p.m. on July 11, 1994, the meeting will be open to public participation. Approximately thirty minutes each day will be set aside for oral comments or questions as indicated in the agenda. Seats will be available for the public and for the media on a first-come, first-served basis. Any member of the public may submit written comments concerning the Board's affairs at any time. Copies of the minutes of the meeting will be available within thirty days of the meeting from the address given below.

FOR FURTHER INFORMATION CONTACT: Barbara Higgins, NTIS Advisory Board Secretary, National Technical Information Service, 5285 Port Royal Road, Springfield, Virginia 22161. Telephone: (703) 487–4612; Fax (703) 487–4093.

Dated: June 6, 1994.

Donald R. Johnson,

Deputy Director.

BILLING CODE 3510–01–M

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List Additions

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Additions to the procurement list.

SUMMARY: This action adds to the Procurement List military resale commodities and a service to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities.

EFFECTIVE DATE: July 11, 1994.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely

Disabled, Crystal Square 3, suite 403, 1735 Jefferson Davis Highway, Arlington, Virginia 22202–3461.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 603–7740.

SUPPLEMENTARY INFORMATION: On April 15, 1994, the Committee for Purchase From People Who Are Blind or Severely Disabled published notice (59 FR 18104) of proposed additions to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the military resale commodities and service, fair market price, and impact of the additions on the current or most recent contractors, the Committee has determined that the military resale commodities and service listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46–48c and 41 CFR 51–2.4.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the military resale commodities and service to the Government.

2. The action does not appear to have a severe economic impact on current contractors for the military resale commodities and service.

3. The action will result in authorizing small entities to furnish the military resale commodities and service to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46–48c) in connection with the military resale commodities and service proposed for addition to the Procurement List.

Accordingly, the following military resale commodities and service are hereby added to the Procurement List:

Military Resale Commodities

Pad, Replacement, Handle Scrubber
M.R. 540
M.R. 545
M.R. 546

Service

Janitorial/Grounds Maintenance, Buffumville Lake and Hodges Village Dam, Oxford, Massachusetts

This action does not affect current contracts awarded prior to the effective date of this addition or options exercised under those contracts.

Beverly L. Milkman,

Executive Director.

[FR Doc. 94–14154 Filed 6–9–94; 8:45 am]

BILLING CODE 6820–33–P

Procurement List Proposed Addition

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Proposed addition to procurement list .

SUMMARY: The Committee has received a proposal to add to the Procurement List a service to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities.

COMMENTS MUST BE RECEIVED ON OR BEFORE: July 11, 1994.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, Crystal Square 3, suite 403, 1735 Jefferson Davis Highway, Arlington, Virginia 22202–3461.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 603–7740.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a)(2) and 41 CFR 51–2–3. Its purpose is to provide interested persons an opportunity to submit comments on the possible impact of the proposed actions.

If the Committee approves the proposed addition, all entities of the Federal Government (except as otherwise indicated) will be required to procure the service listed below from nonprofit agencies employing persons who are blind or have other severe disabilities.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the service to the Government.

2. The action does not appear to have a severe economic impact on current contractors for the service.

3. The action will result in authorizing small entities to furnish the service to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46–48c) in connection with the service proposed for addition to the Procurement List.

Comments on this certification are invited. Commenters should identify the statement(s) underlying the certification on which they are providing additional information.

The following service has been proposed for addition to Procurement List for production by the nonprofit agency listed: Janitorial/Custodial, VA Outpatient Clinic, 4600 Broadway, Sacramento, California.

NPA: Easter Seal Society of Superior California, Sacramento, California.

Beverly L. Milkman,

Executive Director.

[FR Doc. 94–14155 Filed 6–9–94; 8:45 am]

BILLING CODE 6820–33–P

Procurement List; Additions

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Additions to the procurement list.

SUMMARY: This action adds to the Procurement List shipping boxes to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities.

EFFECTIVE DATE: July 11, 1994.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, Crystal Square 3, suite 403, 1735 Jefferson Davis Highway, Arlington, Virginia 22202–3461.

FOR FURTHER INFORMATION CONTACT: Beverly Milkman (703) 603–7740.

SUPPLEMENTARY INFORMATION: On March 11, 1994, the Committee for Purchase From People Who Are Blind or Severely Disabled published notice (59 FR 11579) of proposed addition to the Procurement List.

Comments were received from the current contractor for the boxes in response to a request for sales data. The contractor indicated that addition of the boxes to the Procurement List would cause one or more of four events to occur: Loss of sales for the contractor, loss of jobs, loss of profit for the contractor because of an inability to purchase raw materials in volume, and increased cost to the Government on future procurements conducted under the Committee's program.

The contractor did not furnish any information to support its claims about loss of profit and increased cost to the Government. Nonprofit agencies participating in the Committee's program are required to sell to the Government at a fair market price set by the Committee, so there is little possibility of a substantial increase in

price to the Government when an item is added to the Procurement List.

The contract value for the boxes is such that loss of sales will represent only a very small percentage of the contractor's sales. The Committee does not believe that a sales loss of this size constitutes severe adverse impact on the contractor.

The contractor provided a range of numbers of jobs which might be lost if the boxes are added to the Procurement List and did not indicate specifically whether any jobs would be lost because of the Committee's action. However, addition of the boxes to the Procurement List will definitely create jobs for blind people, who traditionally have unemployment rates far above those of people without severe disabilities. Consequently, the Committee believes that this definite creation of jobs for blind people outweighs the possible loss of jobs by the contractor's employees.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the commodities, fair market price, and impact of the addition on the current or most recent contractors, the Committee has determined that the commodities listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46–48c and 41 CFR 51–2.4.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the commodities to the Government.

2. The action does not appear to have a severe economic impact on current contractors for the commodities.

3. The action will result in authorizing small entities to furnish the commodities to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46 - 48c) in connection with the commodities proposed for addition to the Procurement List.

Accordingly, the following commodities are hereby added to the Procurement List:

Box, Shipping
8115–00–134–3655
8115–00–134–3656
8115–01–006–7257
8115–01–010–8956
8115–00–516–0251

This action does not affect current contracts awarded prior to the effective date of this addition or options exercised under those contracts.

Beverly L. Milkman,

Executive Director.

BILLING CODE 6820–33–P

DEPARTMENT OF DEFENSE

Office of the Secretary

Notice of Closed Meeting

AGENCY: Defense Intelligence Agency Scientific Advisory Board.

SUMMARY: Pursuant to the provisions of Subsection (d) of Section 10 of Public Law 92–463, as amended by Section 5 of Public Law 94–409, notice is hereby given that a closed meeting of the Defense Intelligence Agency Scientific Advisory Board has been scheduled as follows:

DATES: Tuesday and Wednesday 28–29 June 1994 (0830–1600).

ADDRESSES: The Defense Intelligence Agency, Bolling AFB, Washington, DC 20340–5100.

FOR FURTHER INFORMATION CONTACT: Dr. W.S. Williamson, Executive Secretary, DIA Scientific Advisory Board, Washington, DC 20340–5100, (202) 373–4930.

SUPPLEMENTARY INFORMATION: The entire meeting is devoted to the discussion of classified information as defined in Section 552b(c)(1), Title 5 of the U.S. Code and therefore will be closed to the public. The Panel will receive briefings on and discuss several current critical issues and advise the Director Defense Intelligence Agency on related matters.

Dated: June 7, 1994.

Patricia L. Toppings,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5000–04–M

Defense Information School Board of Visitors Meeting

AGENCY: Department of Defense, Office of the Assistant to the Secretary of Defense for Public Affairs, American Forces Information Service.

ACTION: Notice of meeting.

A meeting of the Defense Information School Board of Visitors will be held to review the status of consolidation of the Defense Information School, the Defense Photography School, and the Defense Visual Information School, the Defense Photography School, and the Defense Visual Information School into a single, joint-Service training facility. The meeting is open to the public.

Dates and Times: June 21, 1994—9 a.m. to 11:15 a.m. (first session); 1:10 p.m. to 2 p.m. (second session); 2:30 p.m. to 4:45 p.m. (third session); June 22, 1994—8 a.m. to 12 noon (fourth session),

ADDRESSES: The first, third and fourth sessions will be conducted in room 355, 601 North Fairfax Street, Alexandria, VA 22314. The second session will be conducted at the Joint Combat Camera Center, room, 5A518, Pentagon.

FOR FURTHER INFORMATION CONTACT: Mr. Wallace N. Guthrie, Jr., Training Directorate, American Forces Information Service, 601 North Fairfax Street, room 370, Alexandria, VA 22314. Telephone (703) 274–4897.

Dated June 6, 1994.

L. M. Bynum

Alternate OSD Federal Register Liaison Officer, Department of Defense.

[FR Doc. 94–14086 Filed 6–9–94; 8:45 am]

BILLING CODE 5000–04–M

DEPARTMENT OF ENERGY

Draft Feasibility Study/Proposed Plan-Environmental Impact Statement for Remedial Action at Operable Unit 4, Fernald Environmental Management Project

AGENCY: Department of Energy (DOE).

ACTION: Extension of public comment period.

SUMMARY: DOE, in response to public comments received to date, has decided to extend the public comment period on the Feasibility Study/Proposed Plan-Draft Environmental Impact Statement for remedial action at Operable Unit 4, Fernald Environmental Management Project (DOE/EIS–0195D, EPA EIS No. 940066) to June 19, 1994.

DATES: Comments on the Feasibility Study/Proposed Plan-Draft Environmental Impact Statement should be postmarked by June 19, 1994, to ensure consideration. Comments postmarked after that date will be considered to the extent practicable.

ADDRESSES: Comments should be addressed to: Mr. Gary Stegner, Public Information Officer, U.S. Department of Energy, Fernald Field Office, P.O. Box 398705, Cincinnati, OH 45239–8705, (513) 648–3131 Fax: (513) 648–3073.

FOR FURTHER INFORMATION CONTACT: For further information on the Fernald Environmental Management Project, contact Gary Stegner at the above address. For further information on DOE's National Environmental Policy Act (NEPA) procedures, contact: Carol Borgstrom, Director, Office of NEPA Oversight (EH–25), U.S. Department of Energy, 1000 Independence Avenue, SW, Washington, DC 20585. Telephone: (202) 586–4600 or leave a message at (800) 472–2756. For further information on DOE's Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) procedures, contact: Andrew Lawrence, Acting Director, Office of Environmental Compliance (EH–22), U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585. Telephone. (202) 586–4440.

SUPPLEMENTARY INFORMATION: On March 4, 1994, the Environmental Protection Agency published a notice in the **Federal Register** (59 FR 10381) announcing the availability of the Feasibility Study/Proposed Plan-Draft Environmental Impact Statement (DOE/EIS–0195D, EPA EIS No. 940066) and the close of the public comment period scheduled for April 20, 1994. DOE's Feasibility Study/Proposed Plan-Draft Environmental Impact Statement for the Fernald Site integrates NEPA values with the procedural and documentation requirements of CERCLA, whenever practicable pursuant to DOE Order 5400.4. In response to requests from the State of Nevada and the public to extend the comment period, and after consultation with EPA Region V, in an effort to ensure that all interested parties have the opportunity to comment, DOE is extending the comment period to June 19, 1994. Comments should be postmarked by June 19, 1994, to ensure consideration; comments postmarked after that date will be considered to the extent practicable.

Issued in Washington, DC, on June 7, 1994.

Steven Galson,

Acting Assistant Secretary, Environment, Safety and Health.

BILLING CODE 6450–01–P

Kansas City Support Office; Non-Competitive Financial Assistance Award to the American Council for an Energy Efficient Economy

AGENCY: Department of Energy.

ACTION: Notice of Noncompetitive Financial Assistance Award.

SUMMARY: The Department of Energy (DOE), Kansas City Support Office, announces, pursuant to the DOE Financial Assistance Rules 10 CFR 600.7(b)(2)(i)(B) it intends to award a Cooperative Agreement to the American Council for An Energy Efficient Economy (ACEEE). ACEEE will investigate options for stimulating the use of more efficient electric motor systems and influencing the development and marketing of more efficient motor-driven equipment.

SUPPLEMENTARY INFORMATION: The proposed project meets the criterion for noncompetitive financial assistance specified in 10 CFR 600.7(b)(2)(i)(B) in that the activities are being or would be conducted by the applicant using its own resources or those provided by third parties. This award will further the objectives of the DOE, Industrial Electric Motor Systems Program to promote the use of efficient electric motor systems. The application is being accepted because DOE knows of no other opportunity to conduct such a project by any other organization or entity.

PROJECT PERIOD: The project period for this award is one year and is expected to begin June 1994. DOE plans to provide funding in the amount of approximately $26,538.

FOR FURTHER INFORMATION CONTACT: Chris Cockrill, Technology Marketing Division, U.S. Department of Energy, Kansas City Support Office, 911 Walnut Street, Kansas City, MO 64106–2024. (816) 426–4772.

John W. Meeker,

Chief, Procurement Team, Golden Field Office

[FR Doc. 94–14190 Filed 6–9–94; 8:45 am]

BILLING CODE 6450–01–M

Financial Assistance Award; Intent To Award Grant to the American Statistical Association

AGENCY: Department of Energy (DOE).

ACTION: Notice of intent.

SUMMARY: The Department of Energy announces that pursuant to 10 CFR 600.6(a)(5), it is making a discretionary financial assistance award based on the criterion set forth at 10 CFR 600.7(b)(2)(i)(B) to the American Statistical Association (ASA), Alexandria, Virginia, under Grant Number DE–FG01–94EH89458. The DOE intends to make a noncompetitive financial assistance award. The purpose of the proposed grant is to support a conference entitled, "Eleventh Conference on Radiation and Health." This effort will have a total estimated cost of $92,000, which is currently allocated as follows: $0 (0.0%) from the ASA, $50,000 (54.4%) from the DOE, $20,000 (21.7%) from other Federal agencies, and $22,000 (23.9%) from non-Federal sources.

FOR FURTHER INFORMATION CONTACT: Please write the U.S. Department of Energy, Office of Placement and Administration, ATTN: Jeffrey R. Dulberg, HR–531.24, 1000 Independence Avenue, SW., Washington, DC 20585.

SUPPLEMENTARY INFORMATION: The proposed grant will provide funding to the ASA to organize and conduct its "Eleventh Conference on Radiation and Health." The theme of the conference is "Radiation Dosimetry and Risk Assessment." The conference is scheduled to be held from June 26 through July 1, 1994, in Nantucket, Massachusetts. The conference is planned to be a forum for direct and efficient information transfer, both within the United States and internationally, among biostatisticians, health physicists, epidemiologists, public health researchers, the general public, and to governmental entities. The project will allow internationally recognized researchers to review and consider methods and information about radiation and health in a multidisciplinary approach. The primary benefit to be derived from this conference is to bring a broader and more complete understanding of state-of-the-art research to both established investigators and those new to the research area. It is hoped that from this understanding will come new research initiatives and collaborations and that new researchers will be recruited to the field. The requested DOE support will enhance the public benefit to be derived by expanding the ASA's current efforts to obtain the widest range of worldwide expertise for the conference.

The project is meritorious because of its relevance to the accomplishment of an important public purpose—providing an international forum for the dissemination of the latest information on radiation dosimetry and risk assessment. Issues related to human health effects and exposure to ionizing and non-ionizing radiation generate intense public concern. Some of these concerns include the risk of cancer in nuclear workers, the risk of disease in children due to parental exposure to radiation, and the risks associated to electric and magnetic fields (from power lines and everyday electric appliances). Nuclear workers, the public, and Federal, State, and local government officials constantly seek out information concerning cancer risk as it relates to nuclear energy and technology. The proposed conference will review current issues related to the potential health risks associated with these exposures. It is anticipated that there would be

several significant scientific and technical advancements from such a meeting which would be shared not only with the participants but also with the scientific community and the interested public through publication of the proceedings. This information can be used by epidemiologists, health physicists, and other public health officials to estimate radiation exposure and potential health risks. As a supplement to other Federal assistance in the amount of $20,000 plus $22,000 in non-Federal funding, the $50,000 requested from the DOE will enhance the public benefit to be derived by expanding the ASA's current efforts to obtain the widest range of worldwide expertise for the conference. The DOE knows of no other entity which is conducting or is planning to conduct such an activity.

Based on the evaluation of relevance to the accomplishment of a public purpose, it is determined that the proposal represents a beneficial method and approach to publicly disseminate information on radiation dosimetry and risk assessment.

Issued in Washington, DC, on June 2, 1994.

Scott Sheffield,

Director, Headquarters Operations Division B, Office of Placement and Administration.

[FR Doc. 94-14196 Filed 6-9-94; 8:45 am]

BILLING CODE 6450-01-P

Golden Field Office; Grant Award to Minnesota Department of Public Service

AGENCY: Department of Energy (DOE).

ACTION: Notice of noncompetitive financial assistance award.

SUMMARY: DOE Golden Field Office, through the Chicago Support Office, announces that, pursuant to the DOE Financial Assistance Rules 10 CFR 600.7(b)(2) it intends to award a grant to the Minnesota Department of Public Service (DPS) to continue to support a renewable energy resource assessment program by expanding data collection and analysis of potential wind energy in the southwestern part of Minnesota.

ADDRESSES: Questions regarding this announcement may be addressed to the U.S. Department of Energy, Chicago Support Office, 9800 South Cass Avenue, Argonne, Illinois 60439, Attention: Mark Burger, Energy Conservation Programs Specialist, at 708/252-2193. The Contracting Officer is Diane Rowe.

SUPPLEMENTARY INFORMATION: DPS is the designated State Energy Office responsible for conducting activities under the State Energy Conservation Program. DPS has been extensively involved in efforts to facilitate the use of renewable energy electricity generation, which is an initiative encouraged by DOE's Office of Energy Efficiency and Renewable Energy. This award will further the aim of renewable energy electricity generation by the continued monitoring of designated sites in southwestern Minnesota where wind energy data is being gathered. This will permit a more accurate way to determine the energy potential that large numbers of wind electric conversion systems (WECS) have on the present electricity supply in Minnesota. This work is being conducted in cooperation with Northern States Power Company, which presently has WECS installed and operating in the region. Therefore, the grant application is being accepted because DOE knows of no other organization that is conducting or planning to conduct this type of effort. The project period for the grant award is 24 months, with the second year expected to begin on July 1, 1994. DOE plans to provide funding in the amount of $15,000 for this budget period.

Christine A. Phoebe,

Director, Administrative Division, Golden Field Office.

[FR Doc. 94-14191 Filed 6-9-94; 8:45 am]

BILLING CODE 6450-01-M

Financial Assistance: Cooperative Agreement

AGENCY: U.S. Department of Energy (DOE).

ACTION: Notice of intent.

SUMMARY: The U.S. Department of Energy, Idaho Operations Office announces that pursuant to the Financial Assistance Rules 10 CFR 600.7, it intends to award a cooperative agreement resulting from an unsolicited research proposal offered by Montana State University. The objective of the work that Montana State University will be performing is as follows: (1) To study and develop reasonable Data Quality Objectives (DQO) approaches and processes to obtain only the data necessary for effective decision making relative to remediation site sample characterizations and (2) to improve the substance and objectivity of the national debate on nuclear waste and remediation issues by providing a quantitative evaluation of the risks associated with the cleanup process.

FOR FURTHER INFORMATION CONTACT: Gary A. Johnson, U.S. Department of Energy, 850 Energy Drive, MS 1221, Idaho Falls, Idaho 83401-1563, (208) 526-0982.

SUPPLEMENTARY INFORMATION: The statutory authority for the proposed award is the Department of Energy Organization Act (Pub. L. 95-91), as amended. The proposal meets the criteria for "non-competitive" financial assistance as set forth in 10 CFR Part 600.7(b)(2)(i)(A). The applicant is a state institution of higher education. To date DOE and the EPA have provide approximately $2,400,000 (over a six year period) to MSU's research and development programs in the areas of environmental restoration and waste management. Under these earlier awards MSU has initiated several major research studies, including one focused on enhancing the DQO process. These studies are ongoing and will build upon progress already made by MSU in previous awards.

The anticipated total project period to be awarded is three years. DOE will provide $1,050,000 over this three year period. $350,000 is proposed for FY 1995. Montana State University will share approximately ten (10) percent of the total project costs.

David W. Newnam,

Acting Director, Procurement Services Division.

[FR Doc. 94-14192 Filed 4-9-94; 8:45 am]

BILLING CODE 6450-01-M

Golden Field Office

Award Based on Acceptance of an Unsolicited Application Activities to Enhance the Transfer of Pollution Prevention Research Information Among Funders and Researchers Throughout North America

AGENCY: Department of Energy.

ACTION: Notice of Noncompetitive Financial Assistance Award.

SUMMARY: The Department of Energy (DOE), Golden Field Office, through the Seattle Support Office, announces that pursuant to DOE Financial Assistance Rules 10 CFR 600.14(f), DOE intends to award a grant to Pacific Northwest Pollution Prevention Research Center (PPRC) for Activities to Enhance Researchers Throughout North America. The anticipated overall objective is to support specific industry-related activity in the areas of pollution prevention research.

SUPPLEMENTARY INFORMATION: PPRC proposes to build a public-private partnership with the U.S. Department of Energy to support specific industry-related activity in the areas of pollution

prevention research. The specific objectives of the PPRC are:

(1) To develop and maintain a national clearinghouse for Requests for Proposals (RFPs) on pollution prevention research in order to attract more qualified researchers in the field.

(2) To conduct a detailed analysis of funding organizations, to better educate both funders and grant seekers on organizational priorities and current activities.

(3) To expand the PPRC database of current and recent research projects in order to avoid wasteful duplication of research efforts and stimulate interest in project results.

(4) To publish and disseminate a comprehensive resource guide to pollution prevention research funding, to encourage proposals and publicize funding programs.

Therefore, the grant application is being accepted because DOE knows of no other organization that is conducting or planning to conduct this type of effort in pollution prevention.

The project period for the grant award is 12-months, expected to begin in June 1994. DOE plans to provide funding in the amount of $45,000 for this project period.

FOR FURTHER INFORMATION CONTACT: Roxanne Dempsey, U.S. Department of Energy, Seattle Support Office, 800 Fifth Avenue, suite 3950, Seattle, WA 98104, (206) 553–2155.

Issued in Golden, Colorado on June 1, 1994.

John W. Meeker,

Contracting Officer, Golden Field Office.

[FR Doc. 94–14193 Filed 6–9–94; 8:45 am]

BILLING CODE 6450–01–M

Pittsburgh Energy Technology Center; Unsolicited Financial Assistance Award

AGENCY: U.S. Department of Energy.

ACTION: Acceptance of an unsolicited proposal application of a grant award with Texas A&M University.

SUMMARY: The Department of Energy (DOE) announces that pursuant to 10 CFR 600.14, it intends to award financial assistance (grant) through the Pittsburgh Energy Technology Center To Texas A&M University for a research effort entitled " Investigation of the Effect of Coal Particle Sizes on the Interfacial and Rheological Properties of Coal-Water Slurry Fuels.".

ADDRESSES: Department of Energy, Pittsburgh Energy Technology Center, Acquisition and Assistance Division, P. O. Box 10940, MS 921–188, Pittsburgh, PA 15236.

FOR FURTHER INFORMATION CONTACT: Cynthia Y. Mitchell, Contract Specialist (412) 892–4862.

SUPPLEMENTARY INFORMATION: Grant Number: DE–FG22–94PC94120.

Title of Research Effort

"Investigation of the Effect of Coal Particle Sizes on the Interfacial and Rheological Properties of Coal-Water Slurry Fuels."

Awardee: Texas A&M University.

Term of Assistance Effort: Twenty-four (24) months.

Grant Estimated Total Value: $99,670.00.

Objective: Based upon the authority of 10 CFR 600.14, the objective of this grant is for Texas A&M University to determine the effect coal particle size on the surface properties and rheology of coal-water slurry (CWS) fuels containing different surfactant. Coal powder samples of different size ranges will be obtained from a single source of coal through sieving. CWS mixtures to be tested will be prepared from these individual samples with known particle sizes. Properties of the CWS fuel samples to be measured will include the apparent viscosity, static and dynamic surface tensions. In order to correlate the measured surface properties and rheological data with the atomization characteristics, a cross-injected spray into convective air stream will be tested. Detailed characteristics of the spray development will also be investigated using a high-speed photographic recording technique. The results of these investigations will provide comprehensive information on the spray development and atomization behaviors that are known to depend to an uncertain degree on the surface properties and rheology. This effort will also contribute to developing guidelines for CWS fuel preparation technology. The potential to achieve the stated objectives is very high. Therefore the proposed effort will present a unique opportunity to expand the fundamental understanding of slurry atomization.

Dated: May 26, 1994.

Dale A. Siciliano,

Contracting officer.

BILLING CODE 6450–01–M

Financial Assistance Award: Intent to Award a Cooperative Agreement to Tulane University

AGENCY: Department of Energy.

ACTION: Notice of non-competitive financial assistance award.

SUMMARY: The Department of Energy announces that, pursuant to 10 CFR 600.6(a)(5), it is making a discretionary financial assistance award based on the criteria set forth at 10 CFR 600.7(b)(2)(i)(H) to Tulane University of Louisiana under Cooperative Agreement Number DE-FG01–94EW54102. The subject Cooperative Agreement will be for a two year project period and a total estimated amount of $23,000,000.

Under this Cooperative Agreement Tulane will initiate a comprehensive risk evaluation program that will focus on identifying urgent human health risks, including worker safety, that exist at and around the nation's major hazardous and mixed waste facilities and sites; and provide a mechanism for the systematic evaluation of hazards to health and the environment that will facilitate near-term decision-making, consistent with the goals of the nation's environmental cleanup initiative. The Tulane/Xavier Center for Bioenvironmental Research has extensive experience in environmental and occupational health and safety research, which provides the critical foundation for the rapid initiation and completion of an unbiased, comprehensive study that will have a high degree of credibility with all stakeholders.

The Department of Energy has determined in accordance with 10 CFR 600.7(b)(2)(i)(H), that the award of this non-competitive Cooperative Agreement to Tulane University is in the public interest.

FOR FURTHER INFORMATION CONTACT: U.S. Department of Energy, Office of Placement and Administration, Attn: Kristin Wright, HR–531.24, 1000 Independence Avenue, SW., Washington, DC 20585.

Issued in Washington, DC on: June 2, 1994.

Scott Sheffield,

Director, Headquarters Operations Division B, Office of Placement and Administration.

[FR Doc. 94–14197 Filed 6–9–94; 8:45 am]

BILLING CODE 6450–01–P

Golden Field Office; Grant Award to University of Wisconsin

AGENCY: Department of Energy.

ACTION: Notice of noncompetitive financial assistance award.

SUMMARY: The U.S. Department of Energy (DOE), pursuant to the DOE Financial Assistance Rules, 10 CFR 600.7, is announcing its intention to award a grant to the University of Wisconsin for continuing research efforts in support of the DOE Office of Building Energy Research programs.

The Wisconsin project seeks to develop and improve solar heating and cooling systems for building applications.

ADDRESSES: Questions regarding this announcement may be addressed to the U.S. Department of Energy, Golden Field Office, 1617 Cole Blvd., Golden, Colorado 80401, Attention: John K. Lewis, Contract Specialist, 303–275–4739. The Contracting Officer is John W. Meeker.

SUPPLEMENTARY INFORMATION: The proposed basic research will contribute to the DOE mission by assisting in the development of solar heating and cooling technologies for use in buildings. Successful completion of this research would advance the goal of commercialization of solar heating and cooling systems. Deploying these technologies will reduce energy use in buildings which, in the U.S., accounts for about 40% of annual national energy consumption.

The proposed research effort has four major objectives: (1) Provide support to the Solar Rating and Certification Commission (SRCC); (2) further develop the TRNSYS program to include state-of-the-art solar component models; (3) investigate new and innovative solar heating systems; and (4) increase the capabilities of TRNSYS and expand the current base of TRNSYS users.

DOE has performed a review in accordance with 10 CFR 600.7 and has determined that the activity to be funded is necessary to satisfactorily complete the current research. DOE funding for the Grant is estimated at $275,000 and the anticipated period of performance is twelve (12) months.

Issued in Golden, Colorado on May 27, 1994.

John W. Meeker,

Chief, Procurement Team, Golden Field Office.

[FR Doc. 94–14195 Filed 6–9–94; 8:45 am]

BILLING CODE 6450–01–M

Secretary of Energy Advisory Board

AGENCY: Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770), notice is hereby given of the following advisory committee meeting:

Name: Secretary of Energy Advisory Board.

Date and Time: Thursday, June 30, 1994, 1:30 am–4 pm.

Place: Lawrence Berkeley Laboratory, 1 Cyclotron Road, Building 66 Auditorium, Berkeley, California 94720.

FOR FURTHER INFORMATION CONTACT:

Jake W. Stewart, Designated Federal Officer, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586–7092.

SUPPLEMENTARY INFORMATION: *Purpose of the Committee:* The Secretary of Energy Advisory Board was established to serve as the Secretary of Energy's primary mechanism for long-range planning and analysis of major issues facing the Department of Energy. The Board will advise the Secretary on the research, development, energy and national defense responsibilities, activities, and operations of the Department and provide expert guidance in these areas to the Department.

Tentative Agenda

1:30 pm–2:30pm—Task Force Updates

2:30 pm–2:45 pm—Break

2:45 pm–3:45 pm—Open Discussion

3:45 pm–4:00 pm—Public Comment

4 pm—Chairman's closing remarks/ Adjourn

A final agenda will be available at the meeting.

Public Participation: The Chairman of the Board is empowered to conduct the meeting in a fashion that will, in the Chairman's judgment, facilitate the orderly conduct of business. Due to the limited time available to discuss Board Activities, public comment will be limited to a 15 minute period. The Board requests that comments be submitted in writing to the Executive Director, Secretary of Energy of Advisory Board, HR–2, 1000 Independence Avenue, SW., Washington, DC 20585. In order to insure that Board members have the opportunity to review written comments prior to the meeting, comments should be received by Friday, June 24, 1994.

Minutes: Minutes and a transcript of the meeting of the meeting will be available for public review and copying approximately 30 days following the meeting at the Freedom of Information Public Reading Room, 1E–190 Forrestal Building, 1000 Independence Avenue, SW, Washington, DC, between 9 am and 4 pm, Monday through Friday except Federal holidays.

Issued at Washington, DC, on June 7, 1994.

Marcia Morris,

Deputy Advisory Committee Management Officer.

BILLING CODE 6450–01–M

Federal Energy Regulatory Commission

[Docket No. ER93–702–000, et al.]

PECO Energy Company, et al.; Electric Rate and Corporate Regulation Filings

June 3, 1994

Take notice that the following filings have been made with the Commission:

1. PECO Energy Co.

[Docket No. ER93–702–000]

Take notice that on May 19, 1994, PECO Energy Company (PECO) tendered for filing an Amendment to its June 8, 1993 filing, in which PECO has submitted a Supplemental Agreement dated April 5, 1993 to the Interconnection Facilities Agreement dated February 19, 1965 between PECO and Pennsylvania Power & Light Company (PL). The Amendment to the Filing provides a new Supplemental Agreement dated April 15, 1994. PECO requests waiver of the Commission's notice requirements and asks that the Commission allow the Supplemental Agreement to become effective on August 12, 1993, which is the date the Supplemental Agreement would have become effective under the initial filing.

Comment date: June 16, 1994, in accordance with Standard Paragraph E at the end of this notice.

2. Allegheny Power Service Corporation on behalf of West Penn Power Co. Monongahela Power Co. Ohio Edison Co. and Pennsylvania Power Co.

[Docket No. ER94–1064–000]

Take notice that on May 13, 1994, Allegheny Power Service Corporation, on behalf of West Penn Power Company, Monongahela Power Company, Ohio Edison Company and Pennsylvania Power Company, filed Supplement No. 1 to Amendment No. 13 to the Interchange Agreement dated October 17, 1968. The parties filed this supplement to the Interchange Agreement in accordance with staff recommendations, transmitting documents to complete the filing requirements for Docket No. ER94–1064–000.

Copies of the filing were served upon the public Utility's relevant state public regulatory commissions.

Comment date: June 16, 1994, in accordance with Standard Paragraph E at the end of this notice.

3. Wisconsin Electric Power Co.

[Docket No. ER94–1225–000]

Take notice that Wisconsin Electric Power Company (Wisconsin Electric) on May 3, 1994, tendered for filing a Service Voltage Coordination Agreement between itself and the City of Kiel, Wisconsin (Kiel). The agreement sets forth the details of the voltage arrangements at the Kiel Switching Station.

Wisconsin Electric respectfully requests an effective date of sixty days after filing.

Copies of the filing have been served on Kiel, and the Public Service Commission of Wisconsin.

Comment date: June 16, 1994, in accordance with Standard Paragraph E at the end of this notice.

4. New England Power Service

[Docket No. ER94–1287–000]

Take notice that on May 20, 1994, New England Power Service tendered for filing a Notice of Termination of Supplement No. 8 to Rate Schedule FERC No. 323 between New England Power Company and the Massachusetts Wholesale Electric Company.

Comment date: June 16, 1994, in accordance with Standard Paragraph E at the end of this notice.

5. Gulf Power Co.

[Docket No. ER94–1289–000]

Take notice that on May 17, 1994, Gulf Power Company tendered for filing documents relating to supplemental agreements for West Florida Electric Cooperative Association at the Altha delivery point, which receives transmission service under Supplement No. 1 to FERC Rate Schedule No. 82 (Service Schedule T of the Gulf/AEC Interconnection Agreement).

Comment date: June 16, 1994, in accordance with Standard Paragraph E at the end of this notice.

6. Portland General Electric Co.

[Docket No. ER94–1295–000]

Take notice that on May 27, 1994, Portland General Electric Company (PGE) tendered for filing a supplement to its filing by letter dated May 23, 1994, regarding Service Agreements Under FERC Electric Tariff, Original Volume No. 1 (PGE–1) with Enron Power Marketing, Inc. and Electric Clearinghouse, Inc.

Comment date: June 16, 1994, in accordance with Standard Paragraph E at the end of this notice.

7. San Diego Gas & Electric Co.

[Docket No. ER94–1300–000]

Take notice that on May 25, 1994, San Diego Gas & Electric Company (SDG&E) tendered for filing and acceptance an Interchange Agreement (Agreement) between SDG&E and Eugene Water & Electric Board (Eugene).

SDG&E requests that the Commission allow the Agreement to become effective on the 1st day of August, 1994 or at the earliest possible date.

Copies of this filing were served upon the Public Utilities Commission of the State of California and Eugene.

Comment date: June 17, 1994, in accordance with Standard Paragraph E at the end of this notice.

8. Entergy Power, Inc.

[Docket No. ER94–1301–000]

Take notice that Entergy Power, Inc. (Entergy Power), on May 26, 1994, tendered for filing a unit power sale agreement between Entergy Power and East Texas Electric Cooperative, Inc. Entergy Power requests waiver of the Commission's cost-support requirements under Section 35.12 or 35.13 of the Commission's Regulations, to the extent they are otherwise applicable to this filing.

Comment date: June 16, 1994, in accordance with Standard Paragraph E at the end of this notice.

9. Entergy Services, Inc.

[Docket No. ER94–1302–000]

Take notice that on May 25, 1994, Entergy Services, Inc. (Entergy Services), as agent of Mississippi Power & Light Company (MP&L), tendered for filing two letters setting forth the terms for a long-term bulk power transmission service transaction pursuant to Paragraph 140.21(a) of Service Schedule I to the Interconnection Agreement between Municipal Energy Agency of Mississippi and MP&L effective as of July 1, 1984, as amended. Entergy Services requests waiver of the notice requirements of the Federal Power Act and the Commission's regulations to permit the service to become effective as of June 1, 1994. To the extent necessary, Entergy Services also requests waiver of the requirements of Section 35.13 of the Commission's regulations.

Comment date: June 17, 1994, in accordance with Standard Paragraph E at the end of this notice.

10. Southern California Edison Co.

[Docket No. ER94–1304–000]

Take notice that on May 27, 1994, Southern California Edison Company (Edison) tendered for filing Amendment No. 2 to the Letter Agreement Between Southern California Edison Company and Southern California Water Company (SCWC) to Obtain Licenses and Permits, Conduct Environmental Studies, and Provide Preliminary Engineering for New Electrical Facilities to Serve the Big Bear Lake Area (Amendment No. 2).

Amendment No. 2, executed on April 27, 1994, (i) increases the maximum total project costs Edison is obligated to incur and the maximum total amount for which SCWC is obligated to reimburse Edison to cover additional project development costs; (ii) extends the date for completion of installation of the new facilities and establishment of a new point of delivery; and (iii) provides for further negotiations for an alternative wholesale rate arrangement.

Copies of this filing were served upon the Public Utilities Commission of the State of California and all interested parties.

Comment date: June 17, 1994, in accordance with Standard Paragraph E at the end of this notice.

11. Ohio Edison Co.

[Docket No. ER94–1308–000]

Take notice that on May 27, 1994, Ohio Edison Company filed revisions to Appendices A and B to its Service Agreement for Full or Partial Requirements Service with American Municipal Power-Ohio, Inc. which reflect the addition of a new 138 Kv delivery point for the Hudson municipal electric system. The effect of the revision is to lower the annual bill for service to American Municipal Power-Ohio, Inc.

Ohio Edison requests that the revisions to Appendices A and be permitted to become effective as of April 18, 1994, as it relates to loss factor application, and June 1, 1994 as it relates to application of an additional customer charge.

Copies of this filing have been served on Hudson, Ohio, American Municipal Power-Ohio, and the Public Utilities Commission of Ohio.

Comment date: June 17, 1994, in accordance with Standard Paragraph E at the end of this notice.

Standard Paragraphs

E. Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal-Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 18 CFR 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the

Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[FR Doc. 94–14108 Filed 6–9–94; 8:45 am]

BILLING CODE 6717–01–P

[Docket No. CP94–572–000]

ANR Pipeline Co.; Request Under Blanket Authorization

June 6, 1994.

Take notice that on May 27, 1994, ANR Pipeline Company (ANR), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP94–572–000 a request pursuant to sections 157.205 and 157.211 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.211) for authorization to and operate facilities which are constructed pursuant to section 311 of the Natural Gas Policy Act of 1978 for the delivery of gas to an existing customer, Wisconsin Gas Company (WGC), under ANR's blanket certificate issued in Docket No. CP82–480–000 pursuant to section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

ANR proposes to operate as a jurisdictional facility a hot tap which was installed under section 311 and which was limited to section 311 activities. It is stated that ANR would use the tap for the delivery of gas transported under part 284 of the Commission's Regulations to deliver up to 100 dt equivalent of gas per day to WGC for residential customers in the town of Saxeville, Wisconsin, under ANR's Rate Schedule ETS. It is stated that the volumes to be delivered would be within WGC's existing entitlement from ANR.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

[FR Doc. 94–14110 Filed 6–9–94; 8:45 am]

BILLING CODE 6717–01–M

[Docket Nos. ER94–1062–000 and EL94–68–000]

Montaup Electric Company, Newport Electric Corporation; Initiation of Proceeding and Refund Effective Date

June 6, 1994.

Take notice that on May 26, 1994, the commission issued an order in the above-indicated dockets initiating an investigation in Docket No. EL94–68–000 under section 206 of the Federal Power Act.

The refund effective date in Docket No. EL94–68–000 will be 60 days after publication of this notice in the **Federal Register**.

Lois D. Cashell,

Secretary.

[FR Doc. 94–14123 Filed 6–9–94; 8:45 am]

BILLING CODE 6717–01–M

[Docket No. CP93–618–001]

Pacific Gas Transmission Co.; Amendment

June 6, 1994.

Take notice that on May 31, 1994, Pacific Gas Transmission Company (PGT), 160 Spear Street, San Francisco, California 94105–1570, filed in Docket No. CP93–618–001 an amendment to its application filed on August 5, 1993. The amendment was filed pursuant to section 7(c) of the Natural Gas Act (NGA). PGT now seeks a Certificate of Public Convenience and Necessity authority it to build and operate only two extensions of its mainline facilities and to provide transportation service over those extensions. All other requests in the August 5, 1993, filing have been withdrawn and some of the terms of the service on the extensions have been changed. The two mainline extensions would serve customers in Oregon, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

PGT seeks authorization to construct and operate two pipeline extensions or laterals, along with new metering facilities on the extensions. The first one is the Medford Extension which will begin near PGT's Station 14 at Bonanza, Oregon and interconnect with the facilities of WP Natural Gas (an operating division of The Washington Water Power Company) (WP Natural), at Klamath Falls, Keno and Medford, Oregon. The Medford Extension will be about 86 miles long and will be made of 12-inch pipe. The cost of the Medford Extension is estimated to be $37.9 million in "as-spent dollars". PGT proposes to transport 16,400 MMBtu per day on an annual basis and 15,000 MMBTu per day on a winter-only basis for WP Natural over the Medford Extension.

The second pipeline extension is the Coyote Springs Extension which will begin at milepost No. 304 on PGT'S mainline (south of Stanfield, Oregon), and connect to Portland General Electric Company's (Portland General) proposed electric generation facility near Boardman, Oregon. The Coyote Springs Extension will be about 18 miles long and will be made of 12-inch pipe. The cost of the Coyote Springs Extension is estimated to be $8.1 million in "as-spent dollars". PGT proposes to transport 41,000 MMBtu per day on an annual basis for Portland General over the Coyote Springs Extension.

PGT states that WP Natural and Portland General will be responsible for arranging for gas supply and any other related authorizations. PGT will receive gas requested by these shippers at various receipt points, primarily the International Boundary with Canada, and will deliver gas on their behalf at various delivery points also nominated by these shippers.

PGT proposes to provide service to WP Natural and Portland General under its existing Part 284 Blanket Certificate. The transportation will be under the terms and conditions of PGT's FTS–1 rate schedule. PGT will charge WP Natural and Portland General its applicable part 284 rate for the mainline haul and proposes to add surcharges for deliveries on the Medford and Coyote Springs Extensions. Illustrative rates for the proposed Medford and Coyote Springs Extension surcharges are shown in Exhibit P of PGT's amendment.

PGT has included an Applicant Prepared Environmental Assessment showing its view of the environmental impacts and mitigation measures for its construction of the Medford and Coyote Springs Extensions.

Any person desiring to be heard or to protest said amendment should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with §§ 385.214 and 385.211 of the Commission's Rules and Regulations. All such motions or protests should be filed on or before June 27, 1994. Protests will be considered by the Commission in determining the appropriate action to

be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene.

Lois D. Cashell,

Secretary.

[FR Doc. 94–14109 Filed 6–9–94; 8:45 am]

BILLING CODE 6717–01–M

Office of Hearings and Appeals

Proposed Implementation of Special Refund Procedures

AGENCY: Office of Hearings and Appeals, Department of Energy.

ACTION: Notice of Proposed Implementation of Special Refund Procedures.

SUMMARY: The Office of Hearings and Appeals (OHA) of the Department of Energy (DOE) announces the proposed procedures for disbursement of the total amount of $2,226,782.70 in crude oil overcharges obtained by the DOE under the terms of a Consent Order that Mt. Airy Refining Company (Mt. Airy) and its former shareholders, William P. Boswell, W. Luke Boswell, Lindsay B. McLean, David P. Boswell, P. Wilson Boswell II and Ellen W. Boswell, entered into with DOE on November 14, 1990. Case No. LEF–0121. OHA has tentatively determined that the funds will be distributed in accordance with DOE's Modified Statement of Restitutionary Policy in Crude Oil Cases.

DATE AND ADDRESS: Comments must be filed in duplicate by July 11, 1994 and should be addressed to the Office of Hearings and Appeals, Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585. All comments should display a reference to Case Number LEF–0121.

FOR FURTHER INFORMATION CONTACT: Kim L. Hargrove, Staff Attorney, Office of Hearings and Appeals, 1000 Independence Avenue, SW., Washington, DC 20585 (202) 586–2400.

SUPPLEMENTARY INFORMATION: In accordance with 10 CFR 205.282(b), notice is hereby given of the issuance of the Proposed Decision and Order set out below. The Proposed Decision sets forth the procedures that DOE has tentatively formulated to distribute the total amount of $2,226,782.70 obtained under the terms of a Consent Order that DOE entered into with Mt. Airy Refining Company and its former shareholders on November 14, 1990. The Consent Order settles claims by DOE that Mt. Airy had violated reporting provisions of the Mandatory Petroleum Allocation Regulations and the Administrative Procedures and Sanctions Regulations with regard to its sale of crude oil.

OHA proposes to distribute the Mt. Airy Consent Order funds in accordance with DOE's Modified Statement of Restitutionary Policy in Crude Oil Cases (the MSRP). 51 FR 27899 (August 4, 1986). Under the MSRP, crude oil overcharge monies are divided between the Federal government, the states, and injured purchasers of refined petroleum products. Refunds to the states are distributed in proportion to each state's consumption of petroleum products during the price control period. Refunds to eligible purchasers are based on the total volume of petroleum products purchased and the degree to which they can demonstrate injury.

Any member of the public may submit written comments regarding the proposed refund procedures. Commenting parties are requested to forward two copies of their submissions, within 30 days of publication of this notice in the **Federal Register**, to the address set forth at the beginning of this notice. Comments so received, will be made available for public inspection between the hours of 1 p.m. and 5 p.m., Monday through Friday, except Federal holidays, in the Public Reference Room 1E–234, 1000 Independence Avenue, SW., Washington, DC 20585.

Dated: June 3, 1994.

George B. Breznay,

Director, Office of Hearings and Appeals.

Proposed Decision and Order of the Department of Energy

Implementation of Special Refund Procedures

Name of Firm: Mt. Airy Refining Company.
Date of Filing: February 3, 1994.
Case Number: LEF–0121.

Dated: June 3, 1994.

On February 3, 1994, the Economic Regulatory Administration (ERA) of the Department of Energy filed a Petition requesting that the Office of Hearings and Appeals (OHA) formulate and implement Subpart V special refund proceedings for crude oil overcharge funds. Under DOE procedural regulations, special refund proceedings may be implemented to refund monies to persons injured by violations of DOE petroleum price and allocation regulations, provided DOE is unable to readily identify such persons or ascertain the refund amount each person should receive. 10 CFR 205.280. We have considered ERA's request to formulate refund procedures for the disbursement of $2,226,782.70 remitted by Mt. Airy Refining Company (Mt. Airy) and its former shareholders, William P. Boswell, W. Luke Boswell, Lindsay B. McLean, David P. Boswell, P. Wilson Boswell II and Ellen W. Boswell, in connection with a Consent Order Mt. Airy and its former shareholders entered into with DOE and have determined that such procedures are appropriate.

The Mt. Airy Consent Order funds were remitted to DOE to remedy the firm's alleged violation of the Mandatory Petroleum Allocation Regulations published at 10 CFR part 211 and the provisions of the Administrative Procedures and Sanctions Regulations set forth at 10 CFR part 205. These funds are being held in an escrow account established with the United States Treasury pending a determination of their proper distribution. This Decision sets forth OHA's tentative plan to distribute those funds. The specific application requirements appear in Section III of this Decision. Because these procedures are set forth in proposed form, refund applications should not be filed at this time. Comments are solicited.

I. Jurisdiction and Authority

The general guidelines that govern OHA's ability to formulate and implement a plan to distribute refunds are set forth at 10 CFR part 205, subpart V. These procedures apply in situations where DOE cannot readily identify persons injured as a result of actual or alleged violations of its regulations or ascertain the refund amount each person should receive. For a more detailed discussion of subpart V and OHA's authority to fashion procedures to distribute refunds see, *Office of Enforcement*, 9 DOE ¶ 82,508 (1981) and *Office of Enforcement*, 8 DOE ¶ 82,597 (1981).

II. Background

Mt. Airy operated a refinery in Mt. Airy, Louisiana from the date of its incorporation under the laws of the state of Ohio in 1977 until its dissolution on August 11, 1983. It was therefore a "refiner" as that term has been defined in the federal petroleum price and allocation regulations. As such, Mt. Airy was subject to the jurisdiction of DOE.

In accordance with the reporting requirements found at 10 CFR 211.66(b)(h). Mt. Airy was required to submit a "Refiners Monthly Report" detailing its crude oil receipts, runs to stills and volume of crude oil processed. DOE reviewed Mt. Airy's compliance with those regulatory provisions, as well as provisions set forth at section 211.67, during the course of an audit of Mt Airy's principal business operations. The audit was conducted during the period beginning on January 1, 1977 and ending on January 27, 1981. On July 25, 1986, ERA issued a Proposed Remedial Order (PRO) which found that Mt. Airy had improperly reported its crude oil receipts for the period beginning July 1977 and ending November 1977, by approximately 300,000 barrels of controlled crude oil.

ERA amended that Proposed Remedial Order on May 27, 1987 (the May 1987 PRO) to include additional entitlement reporting violations by Mt. Airy. In its May 1987 PRO ERA found that Mt. Airy under reported its crude receipts by a total of (i) 1,018,905 barrels of controlled crude oil; or (ii) 718,905 barrels of controlled crude oil, in the event OHA found that Mt. Airy was not required to report the 300,000 barrels identified in the original PRO. The May 1987 PRO directs Mt. Airy to refund the amount of its violation, plus interest. The PRO further states that Mt.

Airy shareholders were individually liable, to the extent that Mt. Airy's assets were distributed to them upon its dissolution in 1983, for refunding the violation amount.

ERA found that shareholder liability in this case was predicated upon the "trust fund doctrine", which provides that stockholders who receive assets upon corporate dissolution hold those assets in trust for the payment of bona fide corporate debts incurred before dissolution. See *Bayport*, 18 DOE ¶ 83,007 at 86,058 (1989). Mt. Airy and its former shareholders vigorously contested the May 1987 PRO in proceedings before OHA. Nonetheless, without admitting any violations, they agreed to enter into a Consent Order with DOE to settle the alleged violations. The Consent Order was published in proposed form in the **Federal Register** on November 26, 1990 (the November 1990 Order). 55 FR 49104.[1]

According to the November 1990 Order, Mt. Airy's alleged violations resulted in its receipt of $2,059,649.94 in entitlements which it was not authorized to receive. The maximum potential liability, with interest, was estimated by ERA as roughly $7.6 million. *Id.* After assessing a number of factors, including the time and expense required to litigate fully every issue in order to obtain any recovery, ERA concluded that the resolution of the matters referred to in the Proposed Consent Order for the principal sum of $2,000,000 was both an appropriate settlement and in the public interest. *Id.*

In accordance with the November 1990 Order, Mt. Airy and its former shareholders (1) paid the principal sum of two million dollars ($2,000,000.00), plus interest, in full and final settlement of all matters covered by the Order; and (2) agreed to retain (i) Mt. Airy's records evidencing sales volume data for each product subject to controls, during the period covered by the audit; and (ii) Mt. Airy's customers' names and addresses. The November 1990 Order requires Mt. Airy to retain the records described above for a period of thirty (30) days following DOE's final distribution of the Mt. Airy Consent Order funds or January 1, 2000, whichever occurs earlier. Mt. Airy shall make such information available to DOE, if so requested.

III. The Proposed Refined Product Refund Procedures

A. Crude Oil Refund Policy

The Mt. Airy Consent Order funds will be distributed in accordance with DOE's Modified Statement of Restitutionary Policy in Crude Oil Cases (MSRP). See 51 FR 27899 (August 4, 1986). This policy has been utilized in all subpart V proceedings involving alleged crude oil violations. See Order Implementing the MSRP, 51 FR 29689 (August 20, 1986). Under the MSRP, 40 percent of the crude oil overcharge funds will be refunded to the Federal government, another 40 percent to the states, and up to 20 percent may initially be reserved for the payment of claims by injured parties. The MSRP also specified that, after all valid claims by injured purchasers are paid, any remaining monies will be disbursed to the Federal government and to the states in equal amounts. For a more detailed discussion of the MSRP see, *In re: The Department of Energy Stripper Well Exemption Litigation*, 653 F. Supp. 108 (D. Kan.), 6 Fed. Energy Guidelines ¶ 90,509 (1986)(the Stripper Well Settlement Agreement).

In its April 10, 1987 Notice, OHA stated that Subpart V claimants, anticipating filing refund applications for crude oil monies, would generally be required to (1) document the volume of petroleum products they purchased from August 19, 1973 to January 27, 1981; and (2) prove they were injured by the alleged crude oil overcharges. End-users of petroleum products whose businesses are unrelated to the petroleum industry are presumed injured by the alleged crude oil overcharges and therefore need not submit additional proof of injury. End-users need only document the volume of their petroleum purchases in order to be eligible to receive a refund. See *City of Columbus, Georgia*, 16 DOE ¶ 85,550 (1987).

B. Refund Claims

We propose that standard DOE procedures, as set forth in the MSRP, govern the distribution of the $2,226,782.70 in crude oil monies obtained from Mt. Airy. We have chosen initially to reserve 20 percent of the fund ($445,357.00) for direct refunds to applicants. We propose that refund applications in the Mt. Airy proceeding be evaluated in exactly the same manner as refund applications submitted in other crude oil proceedings. Applicants generally will be required to document the volume of petroleum products they purchased and prove that they were injured as a result of the alleged violations. We will adopt a presumption that the alleged crude oil overcharges were absorbed rather than passed on, by applicants who were (1) end-users of petroleum products, (2) unrelated to the petroleum industry, and (3) not subject to the regulations promulgated under the Emergency Petroleum Allocation Act of 1973 (EPAA), 15 U.S.C. 751–760h. In order to receive a refund, end-user applicants need only document the volume of petroleum products they purchased. See *Shell*, 17 DOE ¶ 85,204 (1988). Petroleum retailer, reseller and refiner applicants will be required to submit detailed evidence of injury. They may not rely upon the injury presumptions utilized in some refined product refund cases. *Id.*

As has been stated in prior Decisions, a crude oil refund applicant will only be required to submit one application for its share of all available crude oil overcharge funds. See *e.g., A. Tarricone, Inc.*, 15 DOE ¶ 85,495 (1987). A party that has already submitted a claim in any other crude oil refund proceeding implemented by the DOE need not file another claim. The prior application will be deemed to be filed in all crude oil refund proceedings implemented by DOE. Any applicant who has executed and submitted a valid waiver, pursuant to one of the escrow accounts established by the Stripper Well Settlement Agreement, has waived his right to file an application for Subpart V crude oil refund monies. See *Mid-America Dairymen v. Herrington*, 878 F.2d 1448 (Temp. Emer. Ct. App.), 3 Fed. Energy Guidelines ¶ 26,617 (1989); *In re: Department of Energy Stripper Well Exemption Litigation*, 707 F. Supp. 11267 (D. Kan.), 3 Fed. Energy Guidelines ¶ 26,613 (1987).

The current deadline for filing an Application for Refund is June 30, 1994. All crude oil refund claims filed before June 30, 1994, will be paid at the rate of $.0008 per gallon. We anticipate, however, that applicants who filed their claims by June 30, 1988, will receive a supplemental refund payment. We will decide in the future whether applicants that filed applications after that date should receive additional refunds. Applicants may be required to submit additional information to support their claims for future amounts. Notice of any such additional amounts will be published in the **Federal Register**.

C. Payments to the States and Federal Government

Under the terms of the MSRP, we propose that the remaining 80 percent of the alleged crude oil violation amounts subject to this Proposed Decision or $1,781,426.00 in principal, plus accrued interest, should be disbursed in equal shares to the states and Federal government for indirect restitution. Refunds to the states will be in proportion to the consumption of petroleum products in each state during the period of price controls. The share or ratio of the funds allocated to each state is contained in Exhibit H of the Stripper Well Agreement. When disbursed, these funds will be subject to the same limitations and reporting requirements that apply to any other crude oil funds received by the states in accordance with the Stripper Well Agreement.

It Is Therefore Ordered That:

The $2,226,782.70 refund amount remitted to the Department of Energy by Mt. Airy and its former shareholders pursuant to the Consent Order finalized on January 17, 1991 will be distributed in accordance with the foregoing Decision.

[FR Doc. 94–14199 Filed 6–9–94; 8:45 am]

BILLING CODE 6450–01–P

[1] On January 17, 1991, ERA published a notice making the Proposed Consent Order a final DOE Order pursuant to 10 CFR 205.199J. 56 FR 1804.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–4997–2]

Title: Acid Rain Program: Notice of Draft Compliance Plans and Public Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of draft compliance plans and public comment period.

SUMMARY: The U.S. Environmental Protection Agency (EPA) is issuing for comment 5-year nitrogen oxides (NO_x) compliance plans for 18 utility units which amend previously issued draft or final Phase I Acid Rain Permits, in accordance with the Acid Rain Program regulations (40 CFR part 76).

DATES: Comments on draft NO_x compliance plans must be received no later than 30 days after the date of this notice or the publication date of a similar notice in local newspapers.

ADDRESSES: Administrative Records. The administrative record for draft NO_x compliance plans, except information protected as confidential, may be viewed during normal operating hours at EPA Region 7, 726 Minnesota Ave., Kansas City, KS 66101.

Comments. Send comments, requests for public hearings, and requests to receive notice of future actions concerning a draft NO_x compliance plan to EPA Region 7, Air and Toxics Division, Attn: Jon Knodel (address above).

Submit all comments in duplicate and identify the NO_x compliance plan to which the comments apply, the commenter's name, address, and telephone number, and the commenter's interest in the matter and affiliation, if any, to the owners and operators of all units covered by the NO_x compliance plan. All timely comments will be considered, except comments on aspects of the permit other than the NO_x compliance plan and other comments not relevant to the NO_x compliance plan.

Hearings. To request a public hearing, state the issues proposed to be raised in the hearing. EPA may schedule a hearing if EPA finds that it will contribute to the decision-making process by clarifying significant issues affecting the NO_x compliance plan.

FOR FURTHER INFORMATION CONTACT: Contact Jon Knodel, (913) 551–7622, EPA Region 7 (address above) for more information about the draft permits.

SUPPLEMENTARY INFORMATION: EPA proposes to approve NO_x compliance plans under which units will comply with the applicable emission limitations for NO_x under 40 CFR 76.5 (referred to as "standard emission limit") or other indicated compliance options for NO_x for the following:

Region 7

Burlington unit 1 in Iowa will comply with a NO_x averaging plan for 1995–1999. For each year under the plan, this unit's actual annual average emission rate for NO_x shall not exceed the alternative contemporaneous annual emission limitation of 0.348 lbs/MMBtu, and this unit's actual annual heat input shall not be less than the annual heat input limit of 10,998,000 MMBtu. The other unit designated in this plan is Prairie Creek unit 4. The designated representative is Roger Lessly.

Milton L. Kapp unit 2 in Iowa will meet the standard emission limit of 0.45 lbs/MMBtu. The designated representative is Michael R. Chase.

Prairie Creek unit 4 in Iowa will comply with a NO_x averaging plan for 1995–1999. For each year under the plan, this unit's actual annual average emission rate for NO_x shall not exceed the alternative contemporaneous annual emission limitation of 0.638 lbs/MMBtu, and this unit's actual annual heat input shall not be greater than the annual heat input limit of 8,095,000 MMBtu. The other unit designated in this plan is Burlington unit 1. The designated representative is Roger Lessly.

Riverside unit 9 in Iowa will meet the standard emission limit of 0.45 lbs/MMBtu. The designated representative is Stephen E. Shelton.

Quindaro unit 2 in Kansas will meet the standard emission limit of 0.50 lbs/MMBtu. The designated representative is Lawrence M. Adair.

Hawthorn unit 5 in Missouri will meet the standard emission limit of 0.45 lbs/MMBtu. The designated representative is Marcus Jackson.

James River units 3, 4, and 5 in Missouri will each meet the standard emission limit of 0.50 lbs/MMBtu. The designated representative is G. Duane Galloway.

Labadie units 1, 2, 3, and 4 in Missouri will each meet the standard emission limit of 0.45 lbs/MMBtu. The designated representative is Jerrel D. Smith.

Montrose units 1, 2, and 3 in Missouri will each meet the standard emission limit of 0.45 lbs/MMBtu. The designated representative is Marcus Jackson.

Southwest unit 1 in Missouri will meet the standard emission limit of 0.50 lbs/MMBtu. The designated representative is G. Duane Galloway.

Thomas Hill unit MB3 in Missouri will meet the standard emission limit of 0.50 lbs/MMBtu. The designated representative is Gary L. Fulks.

Dated: June 7, 1994.

Brian J. McLean,

Director, Acid Rain Division, Office of Atmospheric Programs, Office of Air and Radiation.

Access to Confidential Business Information by Labat-Anderson, Inc.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has authorized its contractor, Labat-Anderson, Inc. (LAI) of Arlington, Virginia for access to information which has been submitted to EPA under all sections of the Toxic Substances Control Act (TSCA). Some of the information may be claimed or determined to be confidential business information (CBI).

DATES: Access to the confidential data submitted to EPA will occur no sooner than June 24, 1994.

FOR FURTHER INFORMATION CONTACT: Susan B. Hazen, Director, TSCA Environmental Assistance Division (7408), Office of Pollution Prevention and Toxics, Environmental Protection Agency, Rm. E–545, 401 M St., SW., Washington, DC 20460, (202) 554–1404. TDD: (202) 554–0551.

SUPPLEMENTARY INFORMATION: Under contract number 68–W4–00697, contractor LAI, of 2200 Clarendon Blvd., Suite 900, Arlington, VA 22201, will assist the Office of Pollution Prevention and Toxics (OPPT) in managing and operating the TSCA Confidential and Nonconfidential Business Information Centers. EPA is issuing this notice to extend LAI's access to TSCA CBI under this contract, which is an extension of contract number 68–W9–0052.

In accordance with 40 CFR 2.306(j), EPA has determined that under EPA contract number 68–W4–00697, LAI will require access to CBI submitted to EPA under all sections of TSCA to perform successfully the duties specified under the contract. LAI personnel will be given access to information submitted to EPA under all sections of TSCA. Some of the information may be claimed or determined to be CBI.

EPA is issuing this notice to inform all submitters of information under all sections of TSCA that EPA may provide LAI access to these CBI materials on a need-to-know basis only. Access to TSCA CBI will take place at EPA Headquarters and at LAI's leased facility at EPA Headquarters.

In a previous notice published in the **Federal Register** of November 10, 1992 (57 FR 53501), LAI was authorized for access to CBI submitted to EPA under all sections of TSCA. LAI is currently authorized access to TSCA CBI at its facility under the EPA *TSCA Confidential Business Information Security Manual*. EPA has ensured that the facility is in compliance with the manual. Upon completing review of the CBI materials, LAI will return all transferred materials to EPA.

Clearance for access to TSCA CBI under this contract may continue until July 31, 1995.

LAI personnel will be required to sign nondisclosure agreements and will be briefed on appropriate security procedures before they are permitted access to TSCA CBI.

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared May 23, 1994 through May 27, 1994 pursuant to the Environmental Review Process (ERP), under Section 309 of the Clean Air Act and Section 102(2)(C) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 260-5076.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 8, 1994 (59 FR 16807).

Draft EISs

ERP No. D-BLM-E65044-FL Rating EC2, Florida Land and Resource Management Plan, Implementation, Split-Estate Federal Mineral Ownership (FMO), several counties, FL.

Summary: EPA supported alternative 2, but expressed environmental concerns regarding the potential wetland and wading bird impacts.

ERP No. D-FHW-K40202-CA Rating EO2, CA-58-Mojave Freeway Project, Construction from 0.1 mile east of the Cache Creek Bridge to 5.0 miles east of the town of Mojave, Funding, COE Section 404 Permit and Right-of-Way Acquisition, Kern County, CA.

Summary: EPA expressed environmental objections due to the loss and fragmentation of habitat for the desert tortoise, a species listed as threatened under the Endangered Species Act. The preferred alternative affects the most desert tortoise habitat despite the US Fish & Wildlife Service's strong recommendation to avoid habitat loss and fragmentation. EPA's second objection was the failure of the draft EIS to address the requirements of the Clean Water Act Section 404 or its regulations. The preferred alternative had the most impact to waters of the United States, according to the draft EIS. The final EIS needs to address the project's consistency with Section 404 requirements, including impact mitigation.

ERP No. D-FHW-L40189-WA Rating EC2, WA-525/Paine Field Boulevard Project, Improvements, between WA-99 to WA-526, Funding and COE Section 404 Permit, City of Mukitteo, Snohomish County, WA.

Summary: EPA expressed environmental concerns about the potential for adverse impacts on water quality, wetlands and fisheries resources. EPA had requested additional information on effects of the estimated annual pollutant load on water quality, effectiveness of mitigation, and potential impacts on natural resources from indirect effects, secondary and cumulative impacts.

ERP No. D-NPS-K61128-CA Rating EC2, Santa Rosa Island Development Concept Plan, Implementation and Funding, Channel Islands National Park, Santa Barbara County, CA.

Summary: EPA expressed environmental concerns regarding potential adverse impacts to water quality from the project, particularly construction-related impacts. The final EIS should closely examine potential project impacts to water quality and water quality mitigation measures which may prove necessary under the Clean Water Act (stormwater permitting from construction actions, consistency with California's nonpoint source management program). The final EIS should provide details on hazardous substances which could have emanated from a defunct air force base on the Island.

Final EISs

ERP No. F-AFS-K67021-NV, Jerritt Canyon Gold Mine Expansion Project, Implementation, Plan of Operation and COE Section 404 Permit, Humboldt National Forest, Mountain City Ranger District, Elko County, NV.

Summary: EPA expressed environmental concerns about the new information in the final EIS on the acid potential of waste rock at the project site, EPA had serious concerns regarding waste rock characterization, handling and disposal.

ERP No. F-DOE-L05204-WA, Tenaska-Washington II Generation Electric Power Plant Construction, Operation and NPDES Permit, Pierce County, WA.

Summary: EPA had a lack of objection to the proposed project.

ERP No. F-FAA-L51014-WA, Seattle-Tacoma International Airport Improvement, South Aviation Support Area, Airport Layout Plan, Airport Master Plan, Funding, Section 10 and 404 Permits and NPDES Permit, Port of Seattle, King County, WA.

Summary: EPA expressed environmental concerns based on potential effects to wetland and aquatic resources. EPA recommended the development of a wetland plan that is an enforceable condition of a 404 permit. Mitigation measures to deal with flow attenuation in Des Moines Creek remain inadequate. EPA recommended that the types and amounts of pollutants that will enter Puget Sound be documented in the Record of Decision.

ERP No. F-IBR-K39032-CA, All-American Canal (AAC) Lining Project, Construction and Operation, Lining a 23-mile Canal from Pilot Knob to Drop 4, Controlling Water Seepage, Imperial Irrigation District, Imperial County, CA.

Summary: EPA had no objection to the proposed action.

Dated: June 7, 1994.

Toxics Data Reporting Subcommittee of The Environmental Information and Assessments Committee; National Advisory Council For Environmental Policy and Technology; Public Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of public meeting.

SUMMARY: Under the Federal Advisory Committee Act, EPA gives notice of a 2-day meeting of the Toxics Data Reporting subcommittee of the National Advisory Council for Environmental Policy and Technology. This will be the sixth meeting of the Toxics Data Reporting subcommittee, whose mission is to provide advice to EPA regarding the Agency's Toxics Release Inventory (TRI) Program.

DATES: The public meeting will take place on July 7, 1994, from 8:30 a.m. to 5 p.m., and July 8, 1994 from 8:30 a.m. to 3 p.m. Members of the public wishing to make comments at this meeting should submit their comments, in writing, by July 1, 1994.

ADDRESSES: The public meeting will be held at the Bellevue Hotel, Lexington Room, 15 E Street, Northwest, Washington, DC 20001 (202-638-0900). Written comments must be submitted to: U.S. Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, Attn: Sam Sasnett, 7408.

FOR FURTHER INFORMATION CONTACT: Cassandra Vail, Environmental Assistance Division, U.S. Environmental Protection Agency, Mail Stop 7408, 401 M St., SW., Washington, DC 20460; Telephone: 202-260-0675.

SUPPLEMENTARY INFORMATION: The subcommittee is likely to discuss the following subjects: Expansion of the facilities subject to reporting under TRI, development of comprehensive modifications to the TRI reporting Form, progress in developing final guidance for meeting the mandate of the Pollution Prevention Act. The agenda for the two days will focus on these and other potential topics.

Dated: June 6, 1994.

Morris Altschuler,

Acting Director, Office of Cooperative Environmental Management.

Bypass 601 Groundwater Contamination Site, Concord, NC; Proposed De Minimis Settlement

AGENCY: Environmental Protection Agency.

ACTION: Notice of Proposed *De Minimis* Settlement.

SUMMARY: Under section 122(g) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA), as amended 42 U.S.C. 9601 *et seq.*, the United States Environmental Protection Agency (EPA) has agreed to settle claims for response costs at the Bypass 601 Groundwater Contamination Site, Concord, North Carolina, with seventy eight parties. EPA will consider public comments on the proposed *de minimis* settlement for thirty (30) days. EPA may withdraw from or modify the proposed *de minimis* settlement should such comments disclose facts or considerations which indicate the proposed *de minimis* settlement is inappropriate, improper, or inadequate. Copies of the proposed *de minimis* settlement and a listing of settling parties are available from: Ms. Carmen J. Santiago-Ocasio, Enforcement Project Manager, Waste Programs Branch, Waste Management Division, U.S. EPA, Region IV, 345 Courtland Street, NE., Atlanta, Georgia 30365, 404-347-5059 ext. 6170.

Written comments must be submitted to the person above by thirty days from the date of publication.

Dated: June 3, 1994

Office of Emergency and Remedial Response Availability of Report To Congress on Progress Toward Implementing Superfund Fiscal Year 1991

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: This notice announces the availability of the Agency's Progress Toward Implementing Superfund: Fiscal Year 1991 which is required by section 301(h) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA) as amended by the Superfund Amendments and Reauthorization Act of 1986. The Report to Congress contains information on overall progress, and includes the following four categories of information specifically requested in section 301(h) of CERCLA: (1) Feasibility studies, remedial and enforcement actions; (2) an evaluation of newly developed and feasible permanent treatment technologies; (3) progress in reducing the number of facilities subject to review under section 121(c) of CERCLA; and (4) an estimate of resources needed by the federal government to complete CERCLA's implementation. The Report also includes: information required by section 105(f) of CERCLA about the participation of minority firms in Superfund contracting; and the EPA Inspector General audit report required by section 301(h)(2) of CERCLA.

ADDRESSES: Published copies of the Report may be purchased by the public, from the National Technical Information Service (NTIS) at 5285 Port Royal Road, Springfield, VA., 22161 (call (703) 487–4650).

Dated: January 27, 1994

FARM CREDIT ADMINISTRATION

Statement of Policy on System Institution Activities Involving the Potential for Nonexclusive Territories; Extension of Comment Period

AGENCY: Farm Credit Administration.

ACTION: Proposed statement of policy; comment period extension.

SUMMARY: The Farm Credit Administration (FCA) Board published for comment a proposed "Statement of Policy on System Institution Activities Involving the Potential for Nonexclusive Territories" in the **Federal Register** on April 13, 1994 (59 FR 17543). The comment period is scheduled to expire on June 13, 1994. The FCA Board hereby gives notice that the original comment period is extended to July 13, 1994.

DATES: The period for receipt of written comments is hereby extended to July 13, 1994.

ADDRESSES: Comments should be mailed or delivered (in triplicate) to Kenneth D. Smith, Executive Assistant to FCA Board Member Gary C. Byrne, Farm Credit Administration, 1501 Farm Credit Drive, McLean, Virginia 22102–5090. Copies of all comments received will be available for examination by interested parties in the offices of the Farm Credit Administration, 1501 Farm Credit Drive, McLean, Virginia.

FOR FURTHER INFORMATION CONTACT: Kenneth D. Smith, Executive Assistant to FCA Board Member Gary C. Byrne, Farm Credit Administration, 1501 Farm Credit Drive, McLean, Virginia 22102–5090, (703) 883–4000, TDD (703) 883–4444.

SUPPLEMENTARY INFORMATION: The 1971 Act authorizes the FCA to issue and amend the charters of System institutions and regulate the exercise of their powers. Included in this authority is the ability for the FCA to issue or amend charters or promulgate regulations that would result in increased competition among System institutions. The issue of competition among System institutions arises, typically, in two types of situations. First, charters could be issued authorizing two or more System institutions to extend the same types of credit services to the same types of customers in the same geographic territories; such charters have typically been issued as a result of mergers or other chartering actions requested by institutions. Second, institutions could be authorized by regulation to engage in certain activities outside of their chartered territories.

The FCA Board has determined that an extended comment period would be beneficial in order to ensure that all interested parties have an opportunity to comment on the proposed statement of policy on System institution activities involving the potential for nonexclusive territories.

Dated: June 7, 1994.

Curtis M. Anderson,

Secretary, Farm Credit Administration Board

FEDERAL RESERVE SYSTEM

ABN AMRO Holding N.V.; Notice of Application to Engage de novo in Permissible Nonbanking Activities

The company listed in this notice has filed an application under § 225.23(a)(1) of the Board's Regulation Y (12 CFR 225.23(a)(1)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to commence or to engage *de novo*, either directly or through a subsidiary, in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than June 29, 1994.

A. Federal Reserve Bank of Chicago (James A. Bluemle, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. ABN AMRO Holding N.V., Amsterdam, The Netherlands; Stichting Administratiekantoor ABN AMRO Holding, Amsterdam, The Netherlands; Stichting Prioriteit ABN AMRO Holding, Amsterdam, The Netherlands; ABN AMRO Bank N.V., Amsterdam, The Netherlands; to engage *de novo* through Lease Plan (U.S.A.) Inc., Atlanta, Georgia, in leasing of personal or real property or acting as agent, broker, or advisor in high residual value leasing of such property in which Lease Plan relies on an estimated residual value of the property in excess of 25 percent pursuant to § 225.25(b)(5) of the Board's Regulation Y.

Board of Governors of the Federal Reserve System, June 3, 1994.

Jennifer J. Johnson,

Associate Secretary of the Board.

BILLING CODE 6210-01-F

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration on Aging; Statement of Organization, Functions, and Delegations of Authority

This notice amends Part B of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health and Human Services ("HHS"), Administration on Aging ("AoA"), as follows: Continues

the Office of the Assistant Secretary for Aging; establishes two new Offices, the Office of the Deputy Assistant Secretary for Program Operations and Intergovernmental Affairs, and the Office of the Deputy Assistant Secretary for Program Development and Elder Rights Programs; places all units of AoA, except the Office of Field Operations, the Regional Offices and the Office of Administration and Management, under the two new Offices; establishes a new Office of Elder Rights Protection; retitles the Division of Research, Demonstration and Training and the Division of Dissemination and Utilization as the Office of Research, Demonstration and Training and the Office of Dissemination and Utilization, respectively; retitles the Division of Eldercare Service Implementation as the Division of Community-Based Services; establishes a new Division of Information Resources Management within the Office of Administration and Management; and abolishes the Office of External Affairs. The language to implement these changes is as follows:

Part B, Chapter B, "The Administration on Aging," as published in the **Federal Register** on September 13, 1991 (56 FR 46620); amended on December 24, 1992 (57 FR 61433); and further amended on March 2, 1993 (58 FR 12040) is amended as follows:

Delete B.00 and replace with the following:

B.00 Mission. The Administration on Aging, an Operating Division of the Department of Health and Human Services, is the principal agency designated to carry out the provisions of the Older Americans Act ("OAA" or "The Act") of 1965, as amended, 42 U.S.C. 3001 *et seq.* Serves as the effective and visible advocate for older persons within the Department of Health and Human Services and with other Federal departments and agencies. Directly assists the Secretary in all matters pertaining to problems of the aging. Advocates for the needs of older persons in program planning and policy development within the Department and in other Federal agencies. Gives priority to older persons in greatest economic or social need. Develops standards and issues best practice guidelines; disseminates information; provides technical assistance; and initiates policy related to services funded by the Department and provided to older persons. Advises the Secretary, Department components and other Federal departments and agencies on the characteristics, circumstances and needs of older people and develops policies, plans and programs designed to promote their welfare; under Title III of the Act (45 CFR part 1321) administers a program of formula grants to States to establish State and community programs for older persons; administers a program of grants to American Indians, Alaskan Natives and Native Hawaiians to establish programs for older Native Americans under Title VI of the Act (45 CFR parts 1326 and 1328). Provides policy and procedural direction, advice and assistance to States and Native American grantees to promote the development of State and Native American administered, community-based systems of comprehensive social services for older persons. Administers long term care ombudsman and protective services programs, legal services development programs, and outreach, counseling and assistance programs for older people under Title VII of the Act. Approves or disapproves State plans and Native American funding applications. Administers programs of training, research and demonstration under Title IV of the Act. Administers national centers for service development and assistance, and information dissemination benefitting older persons. Promotes through the State and Area Agencies on Aging and Indian Tribal Organizations a national community-based long term care program for older persons. Develops and issues program designs, guidelines, standards and assistance to State and Area Agencies, Indian Tribal Organizations and nutrition providers to support Titles III and VI nutrition services and disseminate nutrition education material.

Delete B.10 and replace with the following:

B.10 Organization. The Administration on Aging is headed by the Assistant Secretary for Aging and consists of:

Office of the Assistant Secretary
Office of Field Operations
Regional Offices
Office of Administration and Management
- Division of Budget and Finance
- Division of Management Systems
- Division of Grants Management
- Division of Information Resources Management

Office of the Deputy Assistant Secretary for Program Operations and Intergovernmental Affairs
- Executive Secretariat
- Office of State and Community Programs
- Division of Program Management and Analysis
- Division of Community-Based Services
- Office for American Indian, Alaskan Native and Native Hawaiian Programs
- Office of Policy Coordination and Analysis

Office of the Deputy Assistant Secretary for Program Development and Elder Rights Programs
- Office of Research, Demonstration and Training
- Office of Dissemination and Utilization
- Office of Elder Rights Protection

Delete B.20, A–I, and replace with the following:

B.20. *Functions.* A. *Office of the Assistant Secretary (BA)* The Office of the Assistant Secretary serves as the focal point for OAA programs through the development, coordination and administration of those programs nationwide. Serves as the effective and visible advocate within the Federal government to ensure the rights and entitlements of the elderly. Conducts active public education of officials, citizens, and the aged to ensure broad understanding of the needs and capabilities of the aged.

Sets national policies, establishes national priorities, ensures policy consistency, and directs plans and programs conducted by AoA. Advises the Secretary, HHS agencies, and other Federal departments and agencies on the characteristics, circumstances, and needs of older people and on policies, plans and programs designed to promote their welfare. The Principal Deputy Assistant Secretary is the Assistant Secretary's primary associate in carrying out the mission of the agency, particularly in the advocacy and policy negotiation role within the Federal government.

Serves as an advocate for older people with voluntary and private organizations. Collaborates with other Federal agencies to assist older persons by the development and implementation of interagency agreements. Coordinates joint interests and initiation of projects with other Federal agencies and State and local government entities. Provides liaison with the Federal Council on the Aging and other Federal advisory committees focused on the aging. Works with national aging organizations, professional societies, and academic organizations to identify mutual interests and plan voluntary and funded approaches to meet the needs of older persons. Ensures affirmative action throughout the Aging Network in employment and services delivery.

Oversees the international liaison and coordination functions of AoA.

Stimulates and coordinates AoA international activities and coordinates AoA international activities with Departmental and other Federal agencies concerned with international affairs.

Coordinates all liaison activities with Congress and with the print and electronic media. Manages AoA's media relations and legislative development activities.

Develops legislative proposals, testimony, background statements, and other policy documents for use by the Assistant Secretary in activities related to legislation. In coordination with the Office of the Assistant Secretary for Legislation, analyzes proposed and enacted legislation related directly or indirectly to older people, including legislation directly affecting OAA programs. Through an automated legislative information system tracks bills related to the aging. Develops and issues status reports regarding key legislative developments to Headquarters and Regional Office staff, the network of State and Area Agencies on Aging, and Indian Tribal Organizations.

Coordinates with the Office of the Assistant Secretary for Public Affairs, including planning and implementing strategy for relations with the news and other information media; initiates media outreach activities and responds to all media inquiries concerning AoA programs and related issues.

B. *Office of Field Operations* (BA1) Headed by the Director, Office of Field Operations, who reports to the Principal Deputy Assistant Secretary for Aging. Provides leadership and technical guidance to the Regional Offices as they implement the national programs of the OAA. Keeps the Assistant Secretary apprised of Regional Offices' progress in carrying out their responsibilities. Represents Regional Office concerns to Central Office program units, as well as the concerns of Central Office program units relative to the operations of field programs. Serves as the focal point for all communications flowing to Regional Offices from Central Office and from Regional Offices to Central Office. Ensures that clear and consistent guidance is given to all Regional Offices on program and policy directives. Serves as a clearinghouse for the exchange of innovative program models and ideas among the Regional Offices.

Issues substantive operating procedures to guide Regional staff of AoA in the conduct of their responsibilities; establishes standards for performance plans in the Regional Offices; regularly assesses the performance of AoA Regional Office staff against the established standards. In consultation with the AoA Office of Administration and Management ("OAM") and the HHS Office for Civil Rights, provides guidance to AoA Regional staff on a variety of civil rights issues, including such areas as contracting with minority organizations, age discrimination in employment and services provision and discrimination against persons with disabilities.

Maintains information on the professional development and technical capacity of Regional staff, and identifies training needs and recommends training courses to ensure an AoA Regional staff capacity for responding to emerging program and management demands.

Provides day-to-day guidance on all program and administrative management activities for which the AoA Regional Offices are responsible. Determines support and resource levels of Regional AoA staff.

C. *Regional Offices on Aging (BD–1 to BD–X)* Regional Offices on Aging are headed by a Regional Administrator ("RA") who is responsible to the Assistant Secretary for Aging through the Director, Office of Field Operations, who gives day-to-day guidance and coordination.

Serve as the focal point for the development, coordination and administration of OAA programs within the designated HHS region. Represent the Assistant Secretary for Aging within the region, and provide information for, and contribute to the development of, national policy dealing with the elderly. Based on national policy and priorities, establish regional program goals and objectives.

Serve as the effective and visible advocates for the elderly to Federal agencies in their geographic jurisdiction to ensure the rights and entitlements of the elderly; advise, consult and cooperate with each Federal agency proposing or administering programs or services related to the aging; coordinate and assist in the planning and development by public (including Federal, State, Tribal and local agencies) and private organizations of comprehensive and coordinated services and opportunities for older individuals in each community of the nation; conduct active public education of officials and citizens and the aged to ensure broad understanding of the needs and capabilities of the aged.

Monitor, assist and evaluate State Agencies on Aging administering programs supported under Titles II, III and VII of the OAA, and Indian Tribal Organizations administering projects under Title VI. Review OAA State Plans on Aging and approve acceptable plans or recommend disapproval to the Assistant Secretary for Aging, as appropriate. Recommend approval or disapproval of Title IV applications to the Assistant Secretary. Review applications and recommend approval or disapproval of Title VI applications to the Assistant Secretary.

Advise the Assistant Secretary of problems and progress of programs through the Director, Office of Field Operations; recommend to the Assistant Secretary changes that would improve OAA operations; evaluate the effectiveness of OAA and related programs in the Region and recommend to the Assistant Secretary or take positive action to gain improvement; and guide agencies and grantees in applications of policy to specific operational issues requiring resolution. Facilitate interagency cooperation at the Federal, Regional, State and Tribal levels to enhance resources and assistance available to the elderly. Coordinate with the HHS Regional Director as needed on matters of an administrative or crosscutting nature. Disseminate and provide technical assistance regarding nutrition guidelines and developments to State and Area Agencies, Indian Tribal Organizations and nutrition service providers.

Monitor and assist State and Area Agencies and Indian Tribal Organizations in the implementation and execution of the long-term care ombudsman, elder abuse prevention, elder rights and legal assistance development, and outreach, counseling and assistance programs, and the implementation of elder rights under Title VII of the OAA.

D. *Office of Administration and Management (BE)* reports to the Principal Deputy Assistant Secretary for Aging. Advises the Assistant Secretary in the areas of internal administration and management of AoA. In response to Federal statutes, regulations and Departmental policies and instructions, provides leadership, policies and procedures for effective and efficient management throughout AoA, including such areas as budget, finance, grants administration, personnel management,procurement, materiel and facilities management, management systems, information resources management, telecommunications and similar administrative management facilitation services. Responsible for all management and administrative reviews, analyses and controls within AoA required by statutes or regulation, such as the Federal Managers Financial Integrity Act. The Director, OAM, serves as the AoA Chief Financial Officer ("CFO") and, on behalf of the Assistant

Secretary for Aging, performs the duties assigned to AoA under the Chief Financial Officers Act of 1990, including the development of the CFO 5-year plan and status report, and carries out the responsibilities assigned by the Government Performance and Results Act of 1993. Conducts management analysis and automated systems development activities for AoA and serves as the principal AoA staff examining the AoA organization. Provides technical assistance and guidance to Headquarters and Regional Office units in the development, implementation and maintenance of administrative and grants management systems and audit resolution.

Division of Budget and Finance (BE1) provides and coordinates management support services involving budget formulation and execution, and financial management. In coordination with AoA program offices, formulates and presents budget estimates; executes apportionment documents; plans, directs, and coordinates financial and budgetary programs of AoA. Provides guidance to AoA program offices in preparing budgets, justifications, and other budgetary materials. Prepares budget documents on behalf of the Assistant Secretary for presentation to Departmental management, the Office of Management and Budget ("OMB"), and Congress. Assists in planning for and presenting the budget before OMB and the Congress. Solicits, obtains and consolidates information and data from other AoA offices for testimony at hearings before these bodies in coordination with the Immediate Office of the Assistant Secretary. Analyzes the budget as approved by the Congress and apportioned by OMB, obtains input from program offices and recommends for the Assistant Secretary's approval a financial plan for its execution. Makes allowances to AoA offices within the guidelines of the approved financial plan. Develops and maintains an overall system of budgetary controls to ensure observance of established ceilings on both program—including all formula and discretionary grants accounts—and S&E funds; maintains administrative control of funds against allotments and allowances, and certifies funds availability for all AoA accounts. Prepares requests for apportionment of appropriated funds. Maintains control of allotted funds against current obligations, and maintains separate financial operating plans for much of the Regional offices. Prepares spending plans and status-of-funds reports for the Assistant Secretary.

Acts as AoA's coordination point with the Office of the Secretary and AoA organizational units on policy and regulatory issues involving travel management, develops and interprets AoA policies on travel, and provides support services to AoA components for travel management.

Provides analysis and coordinates accounting reports for AoA. Manages funds for salary and expense accounts. Tracks financial status of all AoA program and salary and expense funds.

In meeting the Assistant Secretary's priorities and instructions, with appropriate input from AoA organizational units, develops financial operating procedures and manuals, including directing the implementation within AoA (headquarters and regions) of Departmental and other Federal fiscal policies and procedures. Participates in program development and implementation plans where there are budgetary implications; serves as the AoA liaison with the Office of the Secretary and OMB on all budgetary matters.

Division of Management Systems (BE2) initiates and develops AoA administrative and human resources management policies, procedures and instructions. Plans, organizes and conducts management studies of the AoA program, staff and organization.

Plans, organizes and conducts in-depth studies of organization structures, functional statements, job structure, staffing patterns, management and administrative information systems, relevant legislative and regulatory authorities and/or workloads to analyze staff, equipment, and systems resources and needs and/or to determine and measure work elements. Recommends to the Assistant Secretary organization changes; alternate staffing patterns; job structure and/or functional statement modifications; and staff, workload and equipment distribution.

Manages the AoA management improvement program. Assesses AoA's management methods and recommends improvements to the Assistant Secretary. Monitors AoA's progress toward approved goals.

Consistent with relevant OMB Circulars, develops, defines and implements management analysis and reporting systems to provide for better informed management decisions and more equitable distribution of resources, and through the Division of Information Resources Management implements these within the AoA automated information system; manages official AoA administrative oversight systems, such as the personnel data base and the administrative issuance process. Performs assessments of paperwork processing, reporting, and other systems needs in AoA.

Plans, organizes and conducts management reviews under the Federal Manager's Financial Integrity Act ("FMFIA"), OMB Circular A–123 (Internal Control Reviews ("ICR")). Develops protocols for each ICR segment; develops and evaluates ICR self-assessment models; and recommends corrective actions. Monitors AoA's compliance with FMFIA instructions and findings. Acts as the AoA liaison with ASMB on FMFIA matters. Prepares the AoA annual FMFIA report to the Secretary.

Develops, implements and assesses strategies on use of human resources and the assignment of FTE ceilings. Develops and administers the AoA Position Management Plan and functional statements. Acts as liaison with ASMB and ASPER in coordinating preparation of organizational proposals requiring approval by the Secretary. Maintains official organizational, functional statement and delegation files for AoA. Develops formal program, administrative and personnel delegations of authority for AoA based on continuing management assessment and on review and analysis of legislation and regulations.

Provides technical assistance and guidance to AoA managers and staff regarding personnel management matters. Reviews proposed requests for personnel action and recommends approval/disapproval of such requests.

Developes and monitors the annual AoA employee training strategy and budget, assuring that the common training needs of AoA employees are identified and implemented. Coordinates Presidential Management Intern, Federal Women's and other developmental programs with high AoA/HHS priorities. Oversees AoA training contracts.

Develops, manages, and assesses the effectiveness of AoA employee performance management, incentive and award systems. Provides training and technical assistance on current and demonstration systems.

Serves as the AoA records manager, providing guidance and assistance to both Headquarters and Regional staff regarding filing practices, retention and disposition of records.

Acts as AoA's focal point with the Office of the Secretary, other Federal agencies, and AoA organizational units on policy and regulatory issues involving real and personal property, space management, occupational safety and health, materiel management, telecommunications, postal

management, and forms and records management.

Provides oversight and direction to meet the administrative needs of AoA components. Serves as liaison with the Office of the Secretary, the General Services Administration ("GSA") and outside vendors to provide facilities services including acquisition of facilities and equipment, personal property management, inventory control, and labor services. Administers AoA's personal and capitalized property management program, including the establishment and maintenance of property accountability systems, the storing and distribution of supplies, and the movement of furniture and equipment associated with the relocation of offices. Develops and implements AoA's plans, guidelines and activities for space and facilities management, including identification of the negotiations for space, and planning and design of office layouts. Responsible for the acquisition, disposition, allocation, and budgeting of space for AoA.

Provides telecommunications planning, budgeting and management for AoA Headquarters' facilities, including procurement, installation, alterations, and maintenance. Provides liaison with HHS and GSA on telecommunications matters, and provides assistance to AoA components to identify telecommunications needs and to use communications equipment and systems.

Division of Grants Management (BE3) serves as AoA's focal point for management, leadership and administration of discretionary and formula grants, and cooperative agreements. Provides national policy oversight and development for grant management and administration matters. Ensures that all grant awards conform with applicable statutes, regulations, and policies. Maintains liaison and coordination with appropriate AoA and HHS organizations to ensure consistency between AoA discretionary and formula grant award activities, and the Department's various payment systems for grants.

For discretionary grants, ensures that the administrative and financial management aspects of grants administration are carried out and monitors grantee performance in these areas. Provides support for and processes all discretionary grant award documents and negotiates grant budgets, and makes all awards for AoA Headquarters and Regional Offices. Reviews discretionary grants after input for AoA program offices, and coordinates AoA grantee financial management matters as necessary with appropriate HHS and AoA units.

Issues and maintains control over formula grant awards under the OAA, and makes adjustments to previously issued formula grant awards.

In coordination with all AoA Headquarters and Regional Offices having grant administrative responsibilities: reviews and assesses AoA formula grant award procedures; directs and/or coordinates management initiatives to improve formula grant programs in financial areas; develops proposals for improving the efficiency in awarding grants and coordinating financial operations among AoA programs; establishes priorities and develops procedures for grantee financial monitoring; and, reviews activities at the regional level for all AoA discretionary and formula grant programs.

Following consultation with all Headquarters and Regional Offices having grant administrative responsibilities, and with the approval of the Assistant Secretary: develop AoA instructions and procedures for the administration of all discretionary and formula grants, including those approved in AoA Regional Offices. Provides training and technical assistance to AoA staff regarding grants and provides overall guidance, monitoring, and assistance to Regional Offices in all areas of administrative and financial management of grants.

Has primary responsibility for developing policy issuances for grants management in AoA, and reviews all proposed AoA instructions and policy issuances pertaining to grant matters which are derived from Departmental, OMB or other government-wide issuances to ensure consistent policy and interpretation with AoA concerning grants management.

Functions as AoA liaison with the General Accounting Office ("GAO"), the HHS Office of the Inspector General and the Department's Office of Grants and Acquisition Management on grant matters. Assists at discretionary and formula grant hearings before the Departmental Appeals Board in response to disallowances and other financial claims by AoA or State Agencies on Aging and other grantees.

For formula grant activities, develops financial management standards for State and Area Agencies and provides guidance on and interpretation of 45 CFR parts 74 and 92 to AoA staff. Based on formula grants management policies and procedures approved by the Department, reprograms formula grant funds as required under the OAA.

Responds to audit issues raised by Department and General Accounting Office audit reviews and ensures the proper analysis and resolution of audit findings by Regional Offices for final action by the Assistant Secretary.

Division of Information Resources Management (BE4) manages AoA's information resources management ("IRM") program and develops policies, plans, budgets, standards and procedures related to it. Plans, manages, maintains and operates AoA's automated information system, including the LAN, personal computers, software, and support systems and services. Provides guidance and technical assistance on all components of the system and coordinates the preparation of manuals and policy issuances required to meet the instructional and informational needs of users of the system. Provides or contracts for training of users in all AoA systems, hardware and software. In coordination with the Office of the Deputy Assistant Secretary for Program Operations and Intergovernmental Affairs ("D/ASPOIA"), carries out the activities required under the Paperwork Reduction Act of 1980, as amended, as the Federal Information Resources Management Regulations, other Federal regulations and Executive Orders and DHHS/OS policies and procedures apply the Paperwork Reduction Act to automated information resources management. Represents AoA on the OS IRM Policy and Planning Board.

Responsible for IRM reviews; Federal Information Processing resources retirement and disposal; and conducting and reporting of information resource inventories.

Acts within the overall strategy, annual workplan and budget approved by the AoA Information Resources Management Board, composed of management representatives from each component of AoA.

Assesses the need for, and defines the specifications for procurement of all Headquarters and Regional Office IRM hardware and software. Reviews and recommends to the Director, OAM, the decision for Headquarters and Regional requests for Automatic Data Processing ("ADP") equipment and services. Assesses, recommends and defines the need to share ADP services through inter-government, inter-department and interagency agreements. Surveys specifications and other literature, initiates requests for services, and defines AoA's need for support services from private ADP vendors.

Recommends strategies, provides for, and maintains systems integration in the AoA corporate data enterprise. Designs

and institutes procedures for the protection, security and integrity of the AoA data, hardware and software.

E. Office of the Deputy Assistant Secretary for Program Operations and Intergovernmental Affairs (BB)

Reports to the Assistant Secretary for Aging. Plans, directs and evaluates agency program operations, including the development and implementation of a comprehensive, coordinated system of services for older Americans. Coordinates all AoA cross-cutting program activities and initiatives. Responsible for policy development concerning programs and services under the OAA, including long-term care initiatives, services, and policy. Assures internal coordination of programs, and develops and maintains effective relationships with government entities at the Federal, State and local levels to successfully achieve a community-based approach to aging and long-term care.

Provides leadership on behalf of Titles III and VI of the OAA, and those parts of Title II of the OAA for which the Office is responsible. Plans, directs and evaluates the programs under the OAA designed to provide planning, coordination and services to older Americans through grant programs authorized under Titles III and VI of the OAA. Assures the successful collection of data and its analysis to demonstrate program effectiveness. Assures that program and service information and trends are disseminated to advocates for older persons. Provides technical assistance to and education for State and Area Agencies on Aging and Tribal Grantees in the development of plans, goals, and system development activities. Serves as the agency's program regulations clearance officer for AoA programs mandated under the OAA. Assures that statutory requirements, regulations, policies, and instructions are implemented for Titles III and VI, and for the functions under Title II for which the Office is responsible.

Performs the following functions under Title II: Issues and enforces regulations regarding conflicts of interest in arranging the provision of services under the Act, including prohibiting such conflicts on the part of Area Agencies on Aging; provides direction to service providers to improve data collection and analysis; designs uniform data collection procedures; assists State and Area Agency volunteer coordinators, as necessary, and encourages the effective use and training of volunteers; consults with State and Area Agencies and Tribal grantees in the development of goals, regulations, instructions and policies; oversees the Nutrition Officer who provides technical assistance and guidance to Regional Offices, States, Area Agencies on Aging and service providers; establishes and convenes a nutrition guidance council to assess program effectiveness and to promote nutrition and dietary standards; and assures planning for and completion of studies and evaluations.

Provides liaison with OMB for the management of the agency paperwork burden reduction program. Coordinates clearance of OAA Titles II, III, IV, VI and VII program regulations within AoA and with appropriate HHS offices, and review of those regulations by OMB. Prepares and processes clearance for collection of information, and assures compliance with related standards, procedures and policies.

Directs intergovernmental affairs activities and develops and maintains effective relationships with other governmental departments and agencies. Plans, negotiates, facilitates, and updates, as appropriate, memoranda of understanding with other departments and agencies to promote agreements and cooperative relationships and ventures that address policies and services affecting the aging population.

Provides program expertise to the Assistant Secretary for policy development, advocacy and program initiatives.

Executive Secretariat serves as the communications center for AoA, ensuring that issues requiring the attention of the Assistant Secretary, Principal Deputy Assistant Secretary of AoA Executive Staff are identified on a timely and coordinated basis. Monitors the response of other AoA units in developing necessary documents for the Assistant Secretary's review and provides assistance to staff on the content and style of special assignments. Operates the agency-wide correspondence and assignment tracking and control system and provides technical assistance on standards for control of correspondence and memoranda. Manages the clearance system and reviews documents for consistency with the Assistant Secretary's and the Secretary's assignments, previous decisions on related matters, and editorial standards. Refers unprecedented policy questions to the Office of Policy Coordination and Analysis.

Maintains official copies of all policy and information issuances and data collection instruments; ensures they proper clearance before issuance and annually reviews them for currency and compliance with law and regulations. Reviews all materials prepared for **Federal Register** publication and ensures their compliance with guidelines. Serves as AoA's liaison with the Executive Secretariats in the Office of the Secretary and other HHS units regarding AoA program, policy and special administrative matters. Receives and sorts internal mail for AoA headquarters components.

Serves as liaison with the Office of the General Counsel and the General Accounting Office on all program matters other than those related to grants or procurement management. Reviews requests for information under the Freedom of Information Act and arranges for appropriate responses, in coordination with the HHS Freedom of Information Act Officer.

E. 1 Office of State and Community Programs (BB1) serves as the focal point with AoA for the operation, administration, management and assessment of the programs authorized under Title III of the OAA. Also carries out the following responsibilities of Title II: oversees development of more responsive service systems through intergovernmental and private sector initiatives and partnerships to address age-related issues and concerns; encourages and assists in the provision of information to older people with the need for Supplemental Security Income, Medicaid and Food Stamps; implements and oversees the supportive services and nutrition programs; implements and oversees the uniform data collection procedures for States; implements and oversees the responsibilities for consultation with the other Federal agencies and with State and Area Agencies on Aging.

Implements Title III of the OAA through the development of regulations, policies and guidance governing the development and enhancement of comprehensive and coordinated home and community-based care service delivery systems by State and Area Agencies on Aging. Provides guidance regarding State Plan processing and approval, the process and criteria for approval of States' Intrastate Funding Formulas for the allocation and targeting of resources within States, and implementation of the Interstate Funding Formula for distribution of Title III funds among States. In the field, implements Title III through the provision to Regional Office staff of guidance and information concerning AoA programs, and interpretation of Title III program regulations and policy. In addition, fosters, oversees, and assesses the implementation of Title III by States and Area Agencies through

guidance and direction to Regional Office staff regarding program reviews, compliance monitoring, program and system development and enhancements. Designs and provides training and technical assistance for program compliance, effectiveness, and enhancement.

Develops and designs the criteria for collecting, analyzing and distributing program performance data on State and Area Agencies' implementation of OAA programs, and prepares that data for reporting to Congress, the public and the National Aging Information Center.

Provides specialized input on Title II and III programs to long-range planning, operational plans and the budget process. Develops program plans and instructions for AoA Regional Offices and State and Area Agencies to improve Title III programs and to ensure that the objectives of the OAA in fostering independence and life with dignity are met.

Division of Program Management and Analysis (BB11) develops policies, guidance and technical assistance to State and Area Agencies on Aging with respect to programs under Title III of the OAA, including the development and implementation of comprehensive and coordinated systems for supportive services, congregate and home-delivered nutrition services, the development and operation of multipurpose senior centers and the delivery of legal assistance; provides guidance and technical assistance to AoA Regional Staff in the effective implementation of programs under Title III of OAA; designs, implements and provides guidance and technical assistance to State and Area Agencies and Aging and service providers on data collection and analysis (Section 202(b)(28)) and on uniform data collection procedures for State Units on Aging (Section 202(b)(29)); consults with State and Area Agencies on Aging, service providers and other appropriate stakeholders in the development of goals, regulations, program instructions and policies regarding comprehensive and coordinated supportive and nutrition systems of services for older individuals.

Develops regulations for use by State and Area Agencies on Aging and local service providers responsible for programs under Title III of the OAA. Carries out the functions of the designated nutrition officer, who coordinates nutritional services under the Act and develops the regulations and guidelines, and provides technical assistance regarding nutrition to the AoA Regional Offices, State and Area Agencies, nutrition service providers, and other organizations; serves as the liaison to the United States Department of Agriculture and other Federal agencies and organizations related to nutrition policy and program issues.

Administers the State plan hearing process required by Section 307(c) of the OAA and provides the analysis and recommendations for the Assistant Secretary's decision resulting from the hearing.

Provides timely and accurate responses to requests for policy interpretation and technical assistance from Congress, State and Area Agencies on Aging, and the general public.

Develops and operates a National Aging Program Information System focused on the information needs of AoA and the Network on Aging to both manage and advocate for the delivery of effective and efficient services to the elderly. Coordinates and conducts operational studies, program analyses, and evaluations on special issues of concern to the Secretary, the Assistant Secretary, Regional Offices, and State and Area Agencies on Aging. Prepares reports on program operations under Title III for the Assistant Secretary, other AoA offices, the Secretary, the President, Congress and the public.

Through the analysis of State Plans, evaluation findings and other relevant material, identifies potential Title III program and management issues and develops recommendations to the Assistant Secretary on possible solutions.

Division of Community-Based Services (BB12) carries out the Title II responsibilities related to facilitating the continuing development, expansion and improvement of home and community-based service systems to be more responsive at the community level to meet the social and human service needs of the elderly. Develops and implements special initiatives at the national level for building strong interagency, intergovernmental and private sector partnerships to address age-related issues and concerns and promotes these initiatives throughout the network of agencies involved with older Americans.

At all levels, from national to the local service delivery level, develops methods and relationships to articulate the problems and concerns of the elderly to organizations beyond the traditional network of agencies and works with these organizations to be more sensitive and responsive to age-related needs and issues.

Directs and assesses the development under Title III of the OAA of State-administered, home and community-based long-term care systems, and social and supportive services for the elderly. Initiates and encourages expansion of the capacities of home and community-based social service and health care systems to deliver comprehensive services to the elderly. Strengthens and extends the development of the continuum of care principle in local community based social services systems for the elderly. Provides technical and subject matter expertise for the development of these systems, targeted at enhancing the capabilities of State and Area Agencies and local service delivery programs to improve their service to older people.

Assists State and Area Agencies and local service delivery agencies to analyze program trends and project needs of the aging population, and to develop strategies and specific implementation plans to enable all levels of the Aging Network to anticipate and adapt to community program needs in the future. Develops policies, guidance and technical assistance to the Aging Network of States, Area Agencies, service providers, national organizations, state organizations, local organizations and academia. Focuses primarily on the development of systems of care at the community or local level. Coordinates with the Division of Program Management and Analysis to achieve a fully integrated approach for the enhancement of systems of care throughout the nation.

E. 2 *Office for American Indian, Alaskan Native, and Native Hawaiian Programs* (BB2) on behalf of individuals who are older Native Americans, serves as the effective and visible advocate within the Department, with other Departments and agencies of the Federal Government, and with State, local and tribal governments regarding all Federal policies affecting Native American elders. Additionally, advocates and promotes linkages among national Indian organizations, national aging organizations, and national provider organizations with the goal of enhancing the interests of and services to Native American elders.

Recommends to the Assistant Secretary policies and priorities with respect to the development and operation of programs and activities relating to individuals who are older Native Americans. The Office coordinates activities among other Federal departments and agencies to ensure a continuum of improved services through memoranda of agreements or through other appropriate means of coordination. Carries out the following responsibilities of Title II: Evaluates the outreach under Title III

and Title VI and recommends necessary action to improve service delivery, outreach, and coordination between Title III and Title VI services; encourages and assists the provision of information to older Native Americans with need for Supplemental Security Income, Medicaid, food assistance, housing assistance, and transportation assistance; develops research plans, conducts and arranges for research in the field of Native American aging; collects, analyzes, and disseminates information related to problems experienced by older Native Americans, including information on health status of older individuals who are Native Americans, elder abuse, in-home care, and other problems unique to Native Americans; develops, implements, and oversees the uniform data collection procedures for Tribal and Native Hawaiian Organizations; and implements and oversees the consultation requirements of Title II as they apply to Native American issues.

Chairs the Interagency Task Force on Older Indians which is comprised of representatives from the Federal departments and agencies with an interest in the welfare of individuals who are older Indians and makes recommendations to the Assistant Secretary at six month intervals, to facilitate coordination among Federally funded programs and improve services to older Indians.

Provides the Native American input to the Office of the Deputy Assistant Secretary for Program Development and Elder Rights Programs for inclusion in AoA's research plan. In addition, collaborates with the Office of State and Community Programs on Title VI—Title III coordination.

Provides input and feedback to the Office of the Deputy Assistant Secretary for Program Development and Elder Rights Programs for the development and operation of Resource Centers on Native American Elders which gather information, perform research, provide for dissemination of results of the research, and provide technical assistance and training to those who provide services to Native American elders.

Provides specialized input on Title VI programs and the Native American components of Title II and Title VII–B programs to other Offices for long range planning, operational plans, research and training, and the budget process. Determines the Title VI grant amounts from annual appropriations. Develops testimony and background documents concerning Native Americans for use by the Assistant Secretary and Deputy Assistant Secretaries.

Serves as the AoA focal point for the administration and assessment of the programs authorized under Title VI and the Native American Organization provisions of Title VII–B of the OAA, including administering grants, cooperative agreements and contracts. Implements the American Indian, Alaskan Native and Native Hawaiian programs in the field through provision of program and policy direction, training and oversight to the Regional Offices in the execution of the Native American components of their Title II, Title VI and Title VII–B responsibilities. Oversees the Regional Offices' monitoring of Title VI grantees. Arranges for and manages on-going training and technical assistance for Title VI grantees. Coordinates additional training and technical assistance with other projects managed by the Office of Research, Demonstration, and Training.

E. 3 *Office of Policy Coordination and Analysis* (BB3) analyzes and interprets issues related to AoA program policy; develops and interprets AoA goals, priorities, and strategies; performs analyses related to the aging. Performs all functions with appropriate input from the AoA units with subject matter responsibility.

Conducts policy studies on a wide range of issues affecting AoA programs and the elderly; solicits policy and strategy input from a wide spectrum of organizations concerned with the aging. Prepares the AoA long- and short-range plans; provides interpretation and guidance for implementation of these plans to all AoA units; and reviews all new and changed policy documents for consistency with AoA long-range goals and strategies. Coordinates with the Office of the Assistant Secretary and all AoA units, and Departmental staff offices on policy, planning and evaluation issues and development.

Coordinates with the Office of Administration and Management in that Office's translation of the long- and short-range plans into procedural guidance for AoA units concerning employee performance appraisal planning, work planning and budget preparation. By means of this system, coordinates the development of implementation strategies and subsidiary plans as well as processes for monitoring progress toward stated objectives.

Develops AoA plans and priorities for evaluation of programs, with subject matter input from appropriate units. Manages contracting for mandated evaluation projects and performs intramural evaluation studies. Prepares reports of the results of program and impact evaluations conducted by and for AoA, with technical input from other AoA units.

Assesses the need for, develops strategies and priorities about, and conducts activities for the development of adequate knowledge for improving the circumstances of older people.

Assists in the collection and analysis of demographic and socio-economic information related to the aging.

F. *Office of the Deputy Assistant Secretary for Program Development and Elder Rights Programs* (BC) reports to the Assistant Secretary for Aging. Plans, directs and evaluates activities authorized under Titles IV and VII of the OAA. Conducts activities for the development of adequate knowledge for improving the circumstances of older people and develops a knowledge base for policy decisions and program development and coordination through support of a wide range of research, demonstration, and training activities. Elicits new knowledge and techniques to improve the circumstances of older Americans.

Promotes coordination of research, demonstration, and training activities. Prepares the planning documents for, and coordinates the development of, the annual discretionary funds program announcement. Oversees the grant and contract activities designed to carry out research, demonstration, and training activities, and develops AoA policies and criteria for monitoring grants and contracts supported through the Office of the Deputy Assistant Secretary for Program Development and Elder Rights ("D/ASPDER"). Assesses results of these activities to develop utilization strategies.

Implements strategies for improving the quality of facilities, programs, and services for the nation's older population. Maintains information on programs in other Federal agencies and national voluntary agencies which have potential for relating to these strategies. Collects and disseminates information related to problems of the aged and aging. Manages AoA's public information and public education activities.

As the Office designated in Title II of the OAA as the Office of Long Term Care Ombudsman Programs, develops and carries out the Ombudsman, elder abuse prevention, legal assistance development, and benefits outreach, counseling and assistance provisions of Titles II and VII of the OAA throughout the Aging Network, including administration of the National Ombudsman Resource Center and the National Center on Elder Abuse, and advising the Assistant Secretary on the operation of those Centers. The Deputy Assistant Secretary carries out the functions of the Director of the Office of Long-Term Care Ombudsman Programs established in Section 201(d)(3) of the OAA. Reviews State Plans to determine eligibility for funding under Sec. 705 of the OAA and recommends approval or disapproval to the Assistant Secretary. Implements Title VII in the field through provision to Regional Office staff of guidance and information concerning AoA programs, and the development and interpretation of Title VII program regulations and policy; ensures the implementation of guidance and instructions concerning long-term care ombudsman, prevention of elder abuse, elder rights and legal assistance development and outreach, counseling and assistance programs.

Serves as the effective and visible advocate within the Department and with other departments and agencies of the Federal Government regarding all Federal policies affecting older residents of long term care facilities; reviews Federal legislation, regulation, and policy respecting long-term care ombudsman programs and makes recommendations to the Secretary and Assistant Secretary; coordinates the activities of AoA with other Federal, State and local entities relating to long-term care ombudsman programs; prepares an annual report to Congress on the effectiveness of services provided by State long-term care ombudsman programs; investigates the operations of any Federal law administered by HHS that may adversely affect the health, safety, welfare, or rights of older individuals; and establishes standards for the training of State long-term care ombudsman staff.

Provides technical assistance to the Headquarters and Regional Offices, State and Area Agencies on Aging, and other organizations on their statistical data needs, uses of data, and methods of collecting the data.

F. 1 *Office Research, Demonstration and Training* (BC1) administers the programs of research, demonstration and training authorized under Title IV of the OAA, including proposing strategies, developing concept papers and carrying out all implementation activity for the program. Provides technical input for Congressional and budget presentations related to the research and demonstration program. Evaluates research, demonstration and training grant and contract proposals; and recommends approval/disapproval, monitors progress, gives technical guidance to and evaluates the performance of grantees and contractors. Analyzes and interprets project results and recommends technical applications. Promotes coordination of research and demonstrations with other national, regional and local programs related to aging.

Within overall AoA strategy and long range plans, conducts continuing studies and periodic reviews of personnel needs and resources in the field of aging. Plans and assesses AoA's activities to ensure trained staff for programs serving older Americans. Develops and monitors a national plan for increasing these resources, and prepares reports thereon for AoA, the Federal Council on the Aging, the Secretary, the President and Congress.

Administers a program through grants and contracts for developing curricula and providing training related to preparation for professional, teaching, research, and paraprofessional careers in the field of aging. Makes grants for planning, developing, and operating multidisciplinary centers of gerontology designed to serve the purposes set forth under Title IV of the OAA, including the monitoring of such grants on a continuing basis.

Develops standards, optional models, and "best practice" suggestions on services to the elderly for use by the Regional Offices, and State and Area Agencies on Aging. Develops technical assistance material and in-service training curricula concerning these standards, models, and best practice suggestions.

Provides technical input on research, demonstration and training programs to the AoA planning and policy development activities, legislative activities and the annual budget development cycle. Participates in Departmental and inter-departmental activities which concern health and social services; reviews and comments on Departmental regulations and policies regarding health programs and institutional and non-institutional long term care services.

F. 2 *Office of Dissemination and Utilization (BC2)* manages a program for the collection, analysis, and dissemination of information related to the needs and problems of older persons. Develops and coordinates initiatives with older Federal agencies, national aging organizations and universities to fill gaps in information in the field of aging. Funds and administers the National Aging Information Center, which compiles, publishes and disseminates information on programs funded under the Act, as well as demographic data on the elderly population and data from other Federal agencies on the health, social and economic status of older persons, and provides technical assistance and training to State and area agencies and to service providers on State and local data collection and analysis.

Reviews all products from AoA, the OAA network, and other sources of information on aging to identify new findings which will be useful to older people and professionals operating in the field of aging, concentrating particularly on research, demonstration and evaluation findings. Determines the relative utility of each product, its potential users, and the most effective way to disseminate information to users. Plans and manages special dissemination projects.

Assesses results of these activities to develop utilization strategies. Promotes information dissemination in professional fields. Develops and manages AoA information clearinghouse to ensure dissemination of information such as best practice models, to exchange program experience with the network of State and Area Agencies on Aging, and to coordinate information dissemination requirements with other national organizations in the field of aging.

Maintains a knowledge of data generated by a wide range of organizations; provides liaison with the Federal Task Force on Aging Statistics; in support of planning and program requirements, performs routine and special statistical analyses of data for AoA offices, other Federal and non-Federal organizations, and the general public.

In conjunction with the Immediate Office of the Assistant Secretary, develops and implements public affairs strategies for Headquarters and Regional Offices to achieve AoA program objectives in coordination with other AoA units; develops and distributes publications and audiovisual materials about older people and prepares and issues brochures, fact sheets, news releases, exhibits and films on the needs and concerns of older persons and measures to improve the circumstances, available services, and environment for the older population.

Develops and implements a public education strategy for AoA in response to the Assistant Secretary's initiatives and goals. Edits and produces Aging Magazine aimed at professionals and constituents in the field of aging. Develops special information campaigns to inform older people and the general public about issues, problems and benefits important to older people. Fosters the annual Older Americans Month, and plans and coordinates other ceremonies and celebrations related to the elderly. Prepares the AoA Annual Report to the President and Congress

and other reports such as "Developments In Aging".

Responds to written, phone and personal inquiries from all sources dealing with services and needs of the aging.

F. 3 *Office of Elder Rights Protection (BC3)* develops and executes the ombudsman provisions of the OAA throughout the Aging Network. Serves as the focal point within AoA for the operation and assessment of the programs authorized under Title VII–A of the OAA. In response to mandates of Titles II and VII–A, oversees development of more responsive ombudsman, protection, legal assistance and counseling systems through intergovernmental initiatives and private sector partnerships to address issues of the rights and protection of older people.

Implements Title VII–A in the field by the provision to Regional Office staff of guidance and information concerning the ombudsman, elder abuse prevention, legal assistance development, and benefits outreach, counseling and assistance provisions of Titles II and VII–A of the OAA, and interpretation of regulations and policy implementing those programs. Fosters, oversees, assists, and assesses the development of State-administered long term care ombudsman, elder abuse prevention, legal assistance development, and benefit counseling programs for the elderly as authorized under Title VII–A of the OAA. Establishes, administers and evaluates the National Ombudsman Resources Center and the National Center on Elder Abuse.

Provides specialized input on Title VII–A programs to long range planning, operational plans and the budget process. Responsible for the implementation of regulations and policy on Title VII–A of the OAA. Develops program plans and instructions for AoA Regional Offices and State and Area Agencies to improve the Title VII–A protection and representational programs funded under the OAA.

Dated: May 30, 1994.

Donna E. Shalala,

Secretary.

BILLING CODE 4130–01–M

Centers for Disease Control and Prevention

Board of Scientific Counselors, National Institute for Occupational Safety and Health: Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), the Centers for Disease Control and Prevention (CDC) announces the following meeting:

Name: Board of Scientific Counselors, National Institute for Occupational Safety and Health (NIOSH).

Times and Dates: 1 p.m.–5 p.m., June 27, 1994. 9 a.m.–5 p.m., June 28, 1994.

Place: The Washington Court Hotel, Ash Room 525 New Jersey Avenue, NW, Washington, D.C. 20001.

Status: Open to the public, limited only by the space available.

Purpose: The board reviews research activities to provide guidance on the quality, timeliness, and efficacy of the Institute's programs.

Matters to be Discussed: The agenda will include the NIOSH Director's report; a report from the Deputy Director; the NIOSH role in health care reform; a review of the new research facility in Morgantown, West Virginia; a review of the strategic planning process; an extramural research review; a training review; discussion of special projects; and the Board of Scientific Counselors' charter, Agenda items and subject to change as priorities dictate.

Contact Person for Additional Information: Richard A. Lemen, Ph.D., Executive Secretary, Office of the Director, NIOSH, CDC, 1600 Clifton Road, NE, Mailstop D–35, Atlanta, Georgia 30333, telephone 404/639–3773.

Dated: June 6, 1994.

Ladene H. Newton,

Acting Associate Director for Management and Operations Centers for Disease Control and Prevention (CDC).

BILLING CODE 4163–19–M

[Announcement Number 465]

RIN 0905–ZA67

Neighborhood-Based Childhood Lead; Primary Prevention Program; Availability of Funds for Fiscal Year 1994

Introduction

The Centers for Disease Control and Prevention (CDC) announces the availability of grant funds in fiscal year (FY) 1994 for the initiation of primary prevention activities that demonstrate a neighborhood-based approach to preventing and eliminating lead exposure for children living in high-risk housing. This primary prevention program is funded by CDC with support from the U.S. Department of Housing and Urban Development (HUD), Office of Lead-Based Paint Abatement and Poisoning Prevention (OLBPAPP).

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of Healthy People 2000, a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority area of Environmental Health. (For ordering a copy of Healthy People 2000, see **WHERE TO OBTAIN ADDITIONAL INFORMATION** section.)

Authority

This program is authorized under sections 301(a) (42 U.S.C. 241(a)) and 317A (42 U.S.C. 247b–1) of the Public Health Service Act, as amended, and section 1011(a–f) of Title X (42 U.S.C. 4851 *et seq.*) of the Residential Lead-Based Paint Hazard Reduction Act. Program regulations are set forth in Title 42, Code of Federal Regulations, Part 51b.

Smoke-Free Workplace

The Public Health Service strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of all tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

Eligible Applicants

Eligible applicants are the 37 current recipients of CDC grant funds for State and Community-based Childhood Lead Poisoning Prevention Programs that meet both of the following requirements (prior to the grant award being made):

1. At the time of the grant application, an applicant must have an approved Comprehensive Housing Affordability Strategy (CHAS) under section 105 of the National Affordable Housing Act (NAHA), (42 U.S.C. 12705) that includes a lead-hazard control element. Current CHAS regulations are set forth in title 24, Code of Federal Regulations, § 576.31. (Applicants are permitted to use an abbreviated housing strategy, as set forth in § 91.25 of the CHAS regulations.)

2. By September 1, 1994, applicants must have State enabling legislation and promulgated regulations in place to establish a State Certification and Accreditation Program for contractors, inspectors, workers, and others engaged in lead hazard control activities. The State Certification Program shall be consistent with the currently identified elements of the U.S. Environmental Protection Agency (EPA) Model State Plan being developed under Title IV, sections 402 and 404, of the Toxic Substances Control Act (see Appendix E of the HUD NOFA). (For ordering a copy of the HUD NOFA, see **WHERE TO OBTAIN ADDITIONAL INFORMATION** section.)

The applicant must furnish copies of the enabling legislation and/or promulgated regulations, as well as other appropriate documentation, as proof of the program.

Availability of Funds

Approximately $2,500,000 will be available to fund up to two neighborhood-based childhood lead poisoning primary prevention programs. Awards for the first budget year will range from $750,000 to $1,250,000 each. Awards are expected to begin on or about September 1, 1994, and will be made for a 12-month budget period within project periods not to exceed 3 years. Funding estimates may vary and are subject to change based on the actual availability of funds.

These grants are intended to develop, expand, or improve collaboration among childhood lead poisoning prevention programs, community housing agencies, and neighborhood groups to ensure the identification and reduction of lead hazards in neighborhoods with a large proportion of demonstrated high-risk housing, and with a high percentage of young children living in these houses. Grant awards cannot supplant existing funding for childhood lead poisoning prevention programs or hazard reduction activities. Eligible applicants may enter into contracts, including consortia agreements, as necessary, to meet the requirements of the program and strengthen the overall application.

Note

- Not more than 10 percent of any grant may be obligated for administrative costs.
- HUD funds under this announcement should target "priority housing"—defined as housing that qualifies as affordable housing under section 215 (appendix G of HUD NOFA) of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12745). Priority housing does not include public housing (whether Federal or locally supported), federally owned housing, or any federally assisted housing except tenant-based housing that receives assistance under sections 8(b) or 8(o) of the United States Housing Act of 1937 (42 U.S.C. 1437f(b) or (o)).
- Applicants are advised that an operational State Certification and Accreditation Program is an essential prerequisite for implementing lead hazard reduction activities.

Purpose

Historically, most approaches to childhood lead poisoning have been reactive. After a child has been identified as poisoned, action may be taken to investigate the home environment to identify and address lead hazards. This approach provides epidemiologic and some preventive benefits by identifying and providing for the control of demonstrated, immediate hazards to which the same children, their siblings, and playmates might subsequently be exposed. However, relying solely on the presence of poisoned children to identify housing that contains lead hazards is considered to be "secondary prevention," in that it postpones action until after a child is exposed to lead. Moreover, the reactive, child-by-child and house-by-house approach is an inefficient use of resources in the long run. A "primary prevention" approach emphasizes identifying and correcting lead hazards in the neighborhood *before children are poisoned*, shifting the focus from the poisoned child to the environmental exposure source—most often, the child's home.

This joint CDC/HUD grant program will provide financial assistance and support to State and local government agencies to develop and implement a comprehensive neighborhood-based, holistic approach to ensure lead hazard control in a small, well defined neighborhood with a high percentage of high risk housing. These "Primary Prevention" demonstration projects are intended to bring together representatives from public health, the medical community, housing and rehabilitation, Community-based/Neighborhood-based Organizations (CBOs), business and labor interests, and other organizations interested in developing or expanding neighborhood-based lead poisoning primary prevention projects in targeted communities. The goal of these projects will be to develop or enhance neighborhood-based efforts to prevent and eliminate lead exposure for children living in high-risk neighborhoods.

Essential Components of the Primary Prevention Project Include

1. Identifying a high-risk neighborhood.
2. Establishing, expanding, or improving environmental investigations to identify sources of lead for children in the selected neighborhood.
3. Characterizing and prioritizing lead hazards in neighborhoods.
4. Ensuring/providing effective rapid reduction, control, and abatement of lead hazards throughout the neighborhood. Priority for activities should be given to reducing and controlling lead hazards posing an immediate threat to children.
5. Planning hazard reduction, control, and abatement activities to take advantage of economies of scale for labor and materials.
6. Utilizing "opportunity points" when environmental intervention is especially convenient and/or timely (e.g., unit turnover, planned weatherization, remodeling, or renovation).
7. Ensuring/providing interim lead-safe housing for families during hazard reduction.
8. Enhancing primary prevention knowledge and skills for residents, owners, landlords, etc., in high-risk neighborhoods through training and other methods. This includes planning and implementing a neighborhood education campaign.
9. Building coalitions and ensuring neighborhood participation in all components of this project, including the planning process.
10. Training of staff and neighborhood residents to plan, implement, maintain, and evaluate all aspects of the primary prevention strategy.

Program Requirements

The following are requirements for the Primary Prevention Projects:

A. A full-time director/coordinator with authority and responsibility to carry out the requirements of this primary prevention program. There must be sufficient grantee capability to plan, implement, coordinate, and maintain all aspects of the primary prevention strategy.

B. A plan to identify lead hazards in the neighborhood in a systematic manner and to oversee the safe and effective lead hazard reduction and control.

C. A plan to ensure that primary prevention activities are also directed at neighborhood properties not specifically eligible under the definition of "priority housing".

D. A plan to identify and ensure participation of neighborhood groups that have an interest in providing lead-safe housing, and a lead-safe neighborhood.

E. Assurances of compliance with HUD/EPA or other appropriate certification and training requirements, as well as other regulations relating to hazard reduction and worker safety.

F. Information which describes why a certain neighborhood was selected for this primary prevention activity, including information on housing conditions, income, other socioeconomic factors, and previous surveys or screening activities for childhood lead poisoning prevention. The selected neighborhood must be a

defined geographic area of contiguous blocks.

G. Assurances and documentation that activities, services, and educational materials provided by the program are endorsed by neighborhood leaders or representatives of the intended target neighborhood.

H. A comprehensive plan for program evaluation. Applicants should develop plans for evaluating program activities in two ways: Process Evaluations should be included for each component of the Program Plan. Process Evaluations should determine whether program activities were actually carried out as planned. An overall Outcome Evaluation for the program should be described separately. The Outcome Evaluation should be designed to measure, to the extent feasible, the impact of the program on the neighborhood environment and health status of children.

Evaluation Criteria

CDC will use the following evaluation criteria to rate and rank applications received in response to this Program Announcement. The review of applications will be conducted by an objective review committee who will review the quality of the application based on the strength and completeness of the plan submitted. The budget justification will be used to assess how well the technical plan is likely to be carried out using the available resources. The total number possible for the rating factors is 100 points.

1. *Strategy and Technical Approach* (25 total points)

The quality of the technical approach in carrying out the proposed activities. The Strategy and Technical Approach should include:

(a) Description of the proposed neighborhood and the need for program activities. (10 points)

(b) Plan for including neighborhood residents in planning, developing and implementing program activities. In addition, there should be:

- Plan for conducting a neighborhood-wide assessment to identify and control lead hazards. (5 points)
- Plan to identify, train, and involve neighborhood residents in program activities. (5 points)
- Plan to direct health education activities to neighborhood residents. (5 points)

2. *Collaboration* (25 total points)

(a) Extent to which the applicant demonstrates that proposed activities are being conducted in conjunction with, or through, organizations with known and established ties in the identified neighborhood. Evidence of support and participation from appropriate community-based or neighborhood-based organizations in the form of memoranda of understanding or other agreements of collaboration. (15 points)

(b) Extent to which the applicant documents established collaboration with appropriate governmental agencies responding to childhood lead poisoning prevention issues such as environmental health, housing, medical management, etc. through specific commitments for consultation, employment, or other activities, as evidenced by the names and proposed roles of these participants and letters of commitment. Absence of letters describing specific participation will result in a reduced rating under this factor. (10 points)

3. *Applicant Capability and Commitment to Lead Hazard Control* (25 total points)

Capability of the applicant to initiate and carry out the lead-based paint testing and hazard-reduction and control program successfully within the time frames set forth in the application. Proposed staff skills must match the proposed program of work described. Elements to consider include:

(a) Demonstrated knowledge and experience of the proposed project director or manager in planning and managing large and complex interdisciplinary programs involving housing rehabilitation, public health, and environmental management. The percentage of time the project manager will be devoted to this project is a significant factor, and must be indicated. (10 points)

(b) Demonstrated knowledge and experience of the staff assigned to this project in carrying out these undertakings, including the percentage of time each person will devote to the project. (5 points)

(c) Institutional capacity, demonstrated by the experience and continuing capability of the jurisdiction to initiate and implement similar environmental and housing projects. Applicant should describe previous related efforts and the current capacity of its agencies. (10 points)

4. *Evaluation Plan* (20 total points)

The applicant's plan that describes the evaluation of *each* program component and the overall strategy in evaluating the impact of the primary prevention effort.

5. *State Certification and Accreditation Program* (5 total points)

Applicants are advised that an operational State Certification and Accreditation Program acceptable to HUD and EPA is an essential prerequisite for implementing lead hazard reduction activities. States and eligible applicants within States that have an operational State Certification and Accreditation Program will be awarded FIVE points.

6. *Budget Justification and Adequacy of Facilities* (Not Scored)

The budget will be evaluated for the extent to which it is reasonable, clearly justified, and consistent with the intended use of grant funds.

Executive Order 12372 Review

Applications are subject to Intergovernmental Review of Federal Programs as governed by Executive Order (E.O.) 12372. E.O. 12372 sets up a system for State and local government review of proposed Federal assistance applications. Applicants should contact their State Single Point of Contact (SPOC) as early as possible to alert them to the prospective applications and to receive any necessary instructions on the State process. For proposed projects serving more than one State, the applicant is advised to contact the SPOC of each affected State. A current list of SPOCs is included in the application kit. If SPOCs have any State process recommendations on applications submitted to CDC, they should send them to Henry S. Cassell, III, Grants Management Officer, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control and Prevention (CDC), 255 East Paces Ferry Road, NE., Atlanta, GA 30305, no later than 60 days after the application deadline. The Program Announcement Number and Program Title should be referenced on the document. The granting agency does not guarantee to "accommodate or explain" State process recommendations it receives after that date.

Public Health System Reporting Requirement

This program is subject to the Public Health System Reporting Requirements. Under these requirements, all community-based nongovernmental applicants must prepare and submit the items identified below to the head of the appropriate State and/or local health agency(s) in the program area(s) that may be impacted by the proposed project no later than the receipt date of the Federal application. The appropriate State and/or local health agency is determined by the applicant. The following information must be provided:

A. A copy of the face page of the application SF 424.

B. A summary of the project that should be titled "Public Health System Impact Statement" (PHSIS), not to exceed one page, and include the following:

1. A description of the population to be served;

2. A summary of the services to be provided; and

3. A description of the coordination plans with the appropriate State and/or local health agencies.

If the State and/or local health official should desire a copy of the entire application, it may be obtained from the State Single Point of Contact (SPOC) or directly from the applicant.

Catalog of Federal Domestic Assistance Number

The Catalog of Federal Domestic Assistance number is 93.197.

Application Submission and Deadline

The program announcement and application kit were sent to all eligible applicants in May 1994.

Where to Obtain Additional Information

A complete program description, information on application procedures are contained in the application package. Business management technical assistance may be obtained from Lisa Tamaroff, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control and Prevention (CDC), 255 East Paces Ferry Road, NE., room 300, Mailstop E–13, Atlanta, GA 30305, telephone (404) 842–6796 .

Please refer to Announcement Number 465 when requesting information and submitting an application.

Technical assistance may be obtained from David L. Forney, Chief, Program Services Section, Lead Poisoning Prevention Branch, Division of Environmental Hazards and Health Effects, National Center for Environmental Health, Centers for Disease Control and Prevention (CDC), 4770 Buford Highway, NE., Mailstop F–42, Atlanta, GA 30341–3724, telephone (404) 488–7330.

Potential applicants may obtain a copy of Healthy People 2000 (Full Report, Stock No. 017–001–00474–0) or Healthy People 2000 (Summary Report, Stock No. 017–001–00473–1) through the Superintendent of Documents, Government Printing Office, Washington, DC 20402–9325, telephone (202) 783–3238.

Potential applicants may obtain a copy of the HUD NOFA "Lead-Based Paint Hazard Control in Priority Housing" through the Program Management Division, Office of Lead-Based Paint Abatement and Poisoning Prevention, room B–133, 451 Seventh Street SW., Washington, DC 20410, telephone (202) 755–1822.

Dated: June 3, 1994.

Ladene H. Newton,

Acting Associate Director for Management and Operations, Centers for Disease Control and Prevention (CDC).

BILLING CODE 4163–18–P

Food and Drug Administration

Advisory Committees; Filing of Annual Reports

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that, as required by the Federal Advisory Committee Act, the agency has filed with the Library of Congress the annual reports of those FDA advisory committees that held closed meetings.

ADDRESSES: Copies are available from the Dockets Management Branch (HFA–305), Food and Drug Administration, rm. 1–23, 12420 Parklawn Dr., Rockville, MD 20857, 301–443–1751

FOR FURTHER INFORMATION CONTACT: Donna M. Combs, Committee Management Office (HFA–306), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–2765.

SUPPLEMENTARY INFORMATION: Under section 13 of the Federal Advisory Committee Act (5 U.S.C. app. 2) and 21 CFR 14.60(c), FDA has filed with the Library of Congress the annual reports for the following FDA advisory committees that held closed meetings during the period October 1, 1992, through September 30, 1993:

Center for Biologics Evaluation and Research: Allergenic Products Advisory Committee, Biological Response Modifiers Advisory Committee, Blood Products Advisory Committee, Vaccines and Related Biological Products Advisory Committee.

Center for Drug Evaluation and Research: Anesthetic and Life Support Drugs Advisory Committee, Anti-Infective Drugs Advisory Committee, Antiviral Drugs Advisory Committee, Arthritis Advisory Committee, Cardiovascular and Renal Drugs Advisory Committee, Dermatologic Drugs Advisory Committee, Drug Abuse Advisory Committee, Gastrointestinal Drugs Advisory Committee, Generic Drugs Advisory Committee, Medical Imaging Drugs Advisory Committee, Nonprescription Drugs Advisory Committee, (formerly OTC Drugs Advisory Committee) Oncologic Drugs Advisory Committee, Pulmonary-Allergy Drugs Advisory Committee.

National Center for Toxicological Research: Science Advisory Board to the National Center for Toxicological Research.

Annual reports are available for public inspection at: (1) The Library of Congress, Madison Bldg., Newspaper and Current Periodical Reading Room, rm. 133, 101 Independence Ave. SE., Washington, DC; and (2) the Dockets Management Branch (HFA–305), rm.1–23, Food and Drug Administration, 12420 Parklawn Dr., Rockville, MD 20857, between 9 a.m. and 4 p.m., Monday through Friday.

Dated: June 3, 1994.

Linda A. Suydam,

Interim Deputy Commissioner for Operations

BILLING CODE 4160–01–F

Health Resources and Services Administration

[PN 2243]

RIN 0905–ZA 63

Special Projects of National Significance

AGENCY: Health Resources and Services Administration.

ACTION: Notice of availability of funds.

SUMMARY: The Health Resources and Services Administration (HRSA) announces the availability of up to $10.5 million in fiscal year (FY) 1994 funds to be awarded as cooperative agreements under the Special Projects of National Significance (SPNS) program. The SPNS program, authorized by section 2618(a) of the Public Health Service Act, receives its appropriation of funds through Public Law 103–112. Project periods can be from three to five years, subject to Congressional reauthorization in FY 1996 of the Ryan White CARE Act. This announcement solicits two types of applications: (1) HIV service delivery model demonstration projects, or (2) HIV service delivery model demonstration projects in conjunction with an evaluation and dissemination center. The SPNS program, in collaboration with the evaluation and dissemination center(s), will sponsor multi-site program evaluation studies. All HIV service delivery model demonstration

projects agree, as a condition of grant award, to participate in these studies. Awards will be made to achieve population and geographic diversity.

The SPNS program is designed to demonstrate and evaluate innovative and potentially replicable HIV service delivery models. The authorizing legislation specifies three SPNS program objectives: (1) To support the development of innovative models of HIV care; (2) to evaluate the effectiveness of innovative program designs; and (3) to promote replication of effective models. Therefore, crucial factors in appraising proposals for the HIV service delivery model demonstration projects will include the applicant's plan for conducting an evaluation of the model, the program's potential to improve access to, coordination of, and quality of, HIV service delivery, and a plan for disseminating findings about the model's effectiveness.

Because of the complexity of this program, a cooperative agreement mechanism is being utilized to allow for substantial Federal programmatic participation in the conduct of the program, and to facilitate communication and coordination in the overall implementation and evaluation of the program. A steering committee will be established to facilitate coordination and cooperation among the service demonstration projects and the evaluation and dissemination center(s), and to oversee the cooperative agreements.

DATES: Applications for the announced cooperative agreements must be received in the Grants Management Office by the close of business July 20, 1994, to be considered for competition. An advance notice of the application deadline date for the Special Projects of National Significance for FY 1994 was published in the **Federal Register** on April 26, 1994 at 59 FR 21769. Applications will meet the deadline if they are either (1) Received on or before the deadline date or (2) postmarked on or before the deadline date, and received in time for submission to the objective review panel. A legibly dated receipt from a commercial carrier or U.S. Postal Service will be accepted in lieu of a postmark. Private metered postmarks shall not be accepted as proof of timely mailing. Applications received after the deadline will be returned.

ADDRESSES: Grant applications, guidance materials, and additional information regarding business, administrative and fiscal issues related to the awarding of grants under this Notice may be requested from Ms. Glenna Wilcom, Grants Management Officer, Bureau of Health Resources Development, Health Resources and Services Administration, 5600 Fishers Lane, room 7–15, Rockville, MD 20857. The telephone number is (301) 443–2280 and the FAX number is (301) 594–6096. Applicants for grants will use Form PHS 5161–1, approved under OMB Control No. 0937–0189. Completed applications should be sent to the Grants Management Officer.

FOR FURTHER INFORMATION CONTACT: Additional technical information may be obtained from Mr. George Sonsel or Mr. Russell Brady, SPNS Branch, Office of Science and Epidemiology, Bureau of Health Resources Development, Health Resources and Services Administration, 5600 Fishers Lane, room 7A–19, Rockville, MD 20857. The telephone number is (301) 443–9976 and the FAX number is (301) 594–2511.

SUPPLEMENTARY INFORMATION:

Background and Objectives

The SPNS program endeavors to advance knowledge and skills in HIV service delivery, stimulate the design of innovative models of care, and support the development of effective delivery systems for these services. SPNS accomplishes its purpose through funding and technical support of innovative HIV service delivery models. For purposes of this announcement, models seeking SPNS support must address at least one of the four (4) new service delivery system categories described below. Additional funding will be provided to one or more interested grantees to establish, either on site or by subcontract, evaluation and dissemination center(s) to provide technical assistance to grantees in the design and implementation of evaluation studies and dissemination activities, in collaboration with the SPNS program and the funded applicants.

In establishing the current special project categories, consideration was given to the priority service areas identified in the concept paper, "Future Directions: Increasing Knowledge about Health and Support Service Delivery to People with HIV Disease." This document was developed through interviews with, and written comments from, key HRSA staff and experts inside and outside the U.S. Public Health Service, and through a review of relevant HIV-related service delivery, research, evaluation, policy, and planning documents.

Descriptions: HIV Service Delivery Model Categories

The Special Project Categories for FY 1994 will support the implementation and evaluation of innovative HIV service delivery models. SPNS funds cannot be used for expenses related to the provision of medical care; supportive services; or any other expenses currently reimbursed, subsidized or eligible for reimbursement through third party payors, grants awarded under Titles I-IV of the Ryan White CARE Act, or other grant and foundation sources. Applicants may not submit proposals for more than one subcategory in a category.

Proposals will be accepted for HIV service delivery model projects that demonstrate and evaluate:

(1) *Comprehensive primary care service delivery systems for people with HIV within one of the distinct environments or settings described in the six following sub-categories.*

(a) Develop and evaluate the effectiveness of including new or existing support services as part of the basic benefits of a managed care plan or a comprehensive, coordinated care system.

Because one of the potential strengths of managed care plans or coordinated care systems is their capacity to coordinate the services of several providers, the proposed service delivery model must test its ability to meet the wide range of service needs required by individuals with HIV. These service needs, in addition to primary care, may include, but are not limited to, specialty medical care, mental health services, substance abuse treatment, and/or assistance with locating housing, transportation, child care, etc. Grantees must evaluate changes in: (1) Patient adherence to medical treatment plans; (2) access to and use of medical and support services; (3) costs per-patient of providing both medical and support services; and (4) patient satisfaction with services.

(b) Test the feasibility of providing comprehensive HIV services under a capitated reimbursement system (including, but not limited to, Ryan White CARE Act Title I and Title II funds).

Grantees must evaluate patterns of utilization of medical and support services under a capitated system, compare the costs of delivering services under a capitated reimbursement system with a fee-for-service system, and evaluate client satisfaction.

(c) Add primary care services to an intermediate level of care, i. e., subsidized housing, residential care,

shelter, partial hospitalization, or other type of "step down" setting, for individuals with HIV disease.

Grantees must evaluate the effectiveness of primary care services provided in this environment on reducing dependence on inpatient hospitalization, increasing the continuity of medical care, and improving client satisfaction.

(d) Develop, in a geographically defined rural area, a comprehensive continuum of care for the purpose of increasing accessibility and quality of primary and specialty medical care to its residents with HIV disease.

Grantees must explain how the proposed model accommodates the needs of the residents with HIV disease in relation to the health service delivery system characteristics of the area. Based on the needs of the area, models that supplement primary medical care with case management, psychosocial support, and other non-medical support services are encouraged.

(e) Develop a service delivery model for adolescents and young adults (up to age 25) with CDC-defined Stage III or IV HIV disease that effectively manages their medical and, when appropriate, substance abuse treatment needs.

Grantees should evaluate the model's effectiveness in meeting the full range of physical, psychological, social, and spiritual needs of adolescents and young adults who are seriously or terminally ill.

(f) Develop a service delivery model for women with HIV disease that emphasizes the coordination of services from outreach, counseling and HIV testing, including expanded counseling and testing during pregnancy, through early intervention and care, including appropriate therapeutic drug regimens, for asymptomatic and symptomatic disease, and for prevention of transmission of HIV during pregnancy and delivery.

Grantees must describe how the proposed model is using innovative features to reach pregnant women and women at high risk (e.g., substance abusing women) who have been reluctant to become engaged in traditional counseling/testing services, and how these women will be engaged and retained in care systems for themselves during and after pregnancy. Priority will be given to applicants in States or cities which have made the decision to "routinely recommend" that women (during pregnancy and/or whenever they receive primary care services) learn their HIV infection status for the purposes of improving their own care and health status; preventing transmission to their infants during pregnancy; and preventing transmission during breastfeeding. The funds will be used primarily to support system development and organizing and training providers. The intent of this sub-category is to foster systems of care for women with HIV; to encourage more women to know their infection status; to encourage States and cities to develop plans for accomplishing this; and to assess the reasons for and impact of the various decisions women make regarding HIV testing, use of AZT during pregnancy, and adherence to follow-up care decisions made jointly with providers.

(2) *Coordinated delivery of HIV health and support services to specific mobile populations in the United States, ensuring the delivery of continuous services throughout the course of HIV disease.*

For the purposes of this category, mobile populations are defined as border populations; populations with migration patterns primarily between the continental United States and its territories and commonwealths and between the United States and other countries; migrant farm labor workers; and, undocumented workers and residents. Examples of services needed by these populations include primary medical care, mental health services, and advocacy or other legal support services that address AIDS discrimination and access to care. Special attention must be paid to ensuring and documenting continuity of care for clients that receive care from providers located in different geographical locations. SPNS is seeking innovative methods of interagency communication and for tracking referrals between providers so that longitudinal follow-up of clients from provider to provider will be possible. Grantees must evaluate their success at ensuring continuity of medical care and access to needed support services.

(3) *Reduction of cultural, linguistic, and/or organizational barriers to care in a geographically defined area (e.g., neighborhood, community, region, state).*

Grantees must have the capacity to analyze reductions in organizational barriers to accessing care. AIDS service providers and other community-based organizations located in the geographic area and staffed by the cultural and/or linguistic group to be served by the proposed service delivery model are encouraged to apply under this category. Grantees submitting a proposal under Category #3 must address one of the following four populations:

(a) An underserved population group experiencing significant barriers to care (e.g., men of color, HIV infected women, AIDS survivors, etc.) by addressing their access to care issues through organizational collaboration and inclusion in policy development.

The grantee chooses the target population in this sub-category based on documented evidence that this population affected by HIV disease is not receiving services. At a minimum, collaboration among providers must include all Ryan White CARE Act-funded grantees in the area that serve the targeted population.

(b) An ethnic group facing both linguistic and cultural barriers.

A critical component of a proposed model in this sub-category must be the involvement of individuals and/or community-based organizations with established service relationships with the targeted special population.

(c) Active substance abusers utilizing primary care on an intermittent basis or who do not adhere to their treatment regiment.

Models for expanding enrollment and enhancing retention of HIV infected substance users, particularly active users, in primary care may include methods of increasing primary care providers' knowledge, receptiveness, and skill in treating this population.

(d) Individuals or special populations experiencing HIV-based discrimination in health care, employment, and/or housing, that inhibits their receipt and/or utilization of health care services.

Grantees must demonstrate and evaluate how innovative advocacy services targeting HIV discrimination impacts access to and utilization of appropriate health care for people whose needs are already complicated by cultural, linguistic or organizational issues.

(4) *Provider training and education models that develop, test, and evaluate strategies for increasing, improving or updating knowledge about HIV disease and its treatment for providers in rural areas, correctional facilities or mental health services programs and facilities.*

Grantees should collaborate, when feasible, with existing AIDS Education and Training Centers (AETC) and other training centers already providing education services to a wide variety of health care providers. Adoption, or adaptation to local conditions, of existing training models with outcome oriented evaluation is encouraged. The project's evaluation must specify the extent to which providers incorporate new skills and knowledge into their practices, and if there are any changes in numbers of people with HIV disease served by the provider. Evaluation designs comparing the results between

different levels or intensity of training are encouraged.

Review Criteria: HIV Service Delivery Models

All applications for HIV Service Delivery Model cooperative agreements described under Category (1) through (4) above and submitted to the SPNS program will be reviewed and rated by an objective review panel. Factors for the technical review of applications are as follows:

Factor 1 (10 points). Adequacy of justification of need within the community and target population for the proposed program.

Factor 2 (25 points). The feasibility, clarity of the description, appropriateness, innovative quality, and potential for replication and dissemination of the proposed model.

Factor 3 (15 points). Comprehensiveness of the program plan as described in clearly stated goals, time-limited and measurable objectives for each goal, activities for each objective, and a time line that shows the scheduled production of materials that corresponds to milestones stated in the objectives and program evaluation.

Factor 4 (20 points). Thoroughness, feasibility and appropriateness of the project's capability to conduct and collaborate on a comprehensive evaluation design and a plan for dissemination of the project's findings.

Factor 5 (15 points). Competency of the applicant organization in fiscal and program management as evidenced by (a) the consistency between the proposed level of effort and the budget justification; (b) skill level and time commitment required in the personnel specifications; (c) the level of resources being proposed to conduct a quality evaluation of the project; and (d) appropriate confidential handling of medical, social service, and epidemiological data of clients served.

Factor 6 (15 points). Extensiveness of coordination and collaboration with related HIV activities within the project's catchment area as documented by the applicant.

Additional Funding for SPNS Evaluation & Dissemination Center(s)

In addition to the funds provided to successful applicants for development of service delivery model demonstration projects, additional funds will be provided to one or more successful applicants to establish, either on site or by subcontract, evaluation and dissemination center(s) to work with all of the SPNS grantees funded under the HIV Service Delivery Models Categories [1] through [4]. The Center(s) will have two primary responsibilities: (1) to provide technical assistance to SPNS grantees in designing and implementing evaluation studies and dissemination activities for their individual projects; and, (2) to develop and coordinate the implementation of cross-cutting evaluations within groups of similar projects. HRSA staff will offer advice and guidance and participate in each of these areas as well as monitor the Center's work to assure its progress is in accordance with program objectives and Federal requirements. HRSA staff may accomplish this task, in part, through an advisory panel composed of Federal employees and external consultants.

Inclusion of a request for additional funding for the SPNS Evaluation and Dissemination Center is not a mandatory requirement of the application. Those applications not requesting this additional funding will be given equal consideration for service delivery model funding. All applications, regardless of inclusion of a request for evaluation center funding, will be scored first only on the applicant's proposal for the service delivery model. Service delivery model applications which are approved for funding will then be reviewed for interest in the additional funding. Only then will proposals for an evaluation and dissemination be reviewed and scored according to the following.

Review Criteria: Additional Funding for SPNS Evaluation & Dissemination Center(s)

Those successful service delivery model applications which include a request for funding for the SPNS Evaluation and Dissemination Center (Part B) will be eligible for review and rating by an objective review panel of that part of the application. Applications will be considered for funding on the basis of overall technical merit as determined through the review process, and the proposed center's suitability for working with the funded SPNS projects. Factors for the technical review of Part B of the applications will include the following:

Factor 1 (25 points). Qualifications and experience of the principal investigator, the proposed staff and consultants in designing and conducting health service evaluation studies, disseminating study findings and in providing technical assistance on evaluation and dissemination issues.

Factor 2 (30 points). Adequacy of plans for providing technical assistance to SPNS grantees on program evaluation and information dissemination.

Factor 3 (25 points). Adequacy of plans for designing and implementing cross-cutting evaluations within groups of similar projects and for assuring data quality.

Factor 4 (20 points). Appropriateness of budget, staffing plans, facilities and information management resources, and time frame for implementing the project's operational and programmatic objectives.

Role of Federal Staff in Cooperative Agreements

The cooperative agreement mechanism allows for substantial post-award programmatic participation by SPNS staff in the projects' operations. In addition to the project officer's monitoring function, SPNS staff will be active participants in the operations of the HIV service delivery model demonstration projects and the SPNS evaluation and dissemination center. SPNS staff will facilitate the exchange of relevant information among the HIV service delivery model projects and provide support for training and consultation. SPNS staff will also monitor the function and activities of the center, assuring satisfactory progress and timely reporting.

"Substantial programmatic participation" means that SPNS staff will provide guidance and coordination for certain programmatic activities to a degree beyond their customary stewardship responsibilities in grants administration. This may include, but is not limited to, the following: participating in the design and direction of activities to develop cross-cutting evaluation studies; assisting in the selection of project director and/or other key staff; assisting in the selection of contractors; participating in the analysis of data; coordinating or providing training of project staff; participating in selection and approval of analysis mechanisms; participating in selection of results for publication; and providing assistance in the management and technical performance of the project's activities.

Availability of Funds

Section 2618, subsection (a) of the Public Health Service Act, "Special Projects of National Significance," permits the Secretary to allocate up to ten percent of the funds provided for Part B of Title XXVI to award grants directly to public and non-profit private entities to promote the statute's objectives. Approximately $9.7 million is available in FY 1994, to fund 25 HIV service delivery model demonstration projects estimating an average annual project budget of $350,000. The evaluation and dissemination center budget will be based on the availability of funds in relation to the objective review panel's recommendations. Approximately $600,000 is available in FY 1994 for this Center. The budget and project periods for approved and funded projects will begin October 1, 1994.

Project periods may be requested for up to five years. However, recommended support beyond the third year is subject to a determination by an objective review panel in conjunction with an assessment by the SPNS staff of the project's progress to date. All grants to support projects beyond the first budget year will be contingent upon the availability of funds, Congressional reauthorization of Ryan White CARE Act funding within the second project year, and satisfactory progress each year in meeting the project's objectives.

All grantees funded to support HIV service delivery model demonstration projects under this Notice are encouraged to secure and show evidence of non-SPNS funding support equal to 20 percent of the approved project budget by the fourth project year, and equal to 40 percent of the approved project budget by the fifth year. Applicants are required to submit, in the initial application, budgets for each proposed project year.

Eligible Applicants

The statute, Section 2618 (a) (1), specifies that grants may be awarded to public and non-profit private entities to fund special programs for the care and treatment of people with HIV disease. Eligible entities may include, but are not limited to, State, local, or tribal public health, mental health, or substance abuse departments; public or non-profit hospitals; community-based service organizations (e.g., AIDS service organizations, primary health care clinics, family planning centers, AIDS discrimination and advocacy organizations, hemophilia centers, community mental health centers, substance abuse treatment centers, urban Indian health centers, migrant health centers, Ryan White CARE Act Title IIIb clinics, etc.); institutions of higher education; and national service provider and/or policy development associations/organizations.

Allowable Costs

The basis for determining allocable and allowable costs to be charged to PHS grants is set forth in 45 CFR part 74, Subpart Q and 45 CFR part 92 for State, local or tribal governments. The four separate sets of cost principles prescribed for public and private non-profit recipients are: OMB Circular A-87 for State, local or tribal governments; OMB Circular A-21 for institutions of higher education; 45 CFR part 74, Appendix E for hospitals; and OMB Circular A-122 for nonprofit organizations.

Reporting and Other Requirements

A successful applicant under this notice will submit semi-annual activity summary reports in accordance with provisions of the general regulations which apply under 45 CFR Part 74, Subpart J, "Monitoring and Reporting of Program Performance," with the exception of State and local governments to which 45 CFR Part 92, Subpart C reporting requirements apply. As a condition of all awards funded under this Notice, grantees will be required to cooperate with HRSA and the SPNS Evaluation and Dissemination center(s) in any multi-site evaluation studies sponsored by the SPNS Program.

Healthy People 2000 Objectives

The Public Health Service urges applicants to address a specific objective of the *Healthy People 2000* in their work plans. Potential applicants may obtain a copy of *Healthy People 2000* (Full Report; Stock No. 017-001-00473-0) or *Healthy People 2000* (Summary Report; Stock No. 017-001-00473-1) through the Superintendent of Documents, Government Printing Office, Washington, DC 20402-9325 (Telephone: (202) 783-3238).

Federal Smoke-Free Compliance

The Public Health Service strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of all tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

Public Health System Reporting Requirements

This program is subject to the Public Health System Reporting Requirements which have been approved by the Office of Management and Budget under No. 937-0195. Under these requirements, any community-based, non-governmental applicant must prepare and submit a Public Health System Impact Statement (PHSIS). The PHSIS is intended to keep State and local health officials apprised of proposed health services grant applications submitted from within their jurisdictions.

Community-based, non-governmental applicants are required to submit, no later than the Federal due date for receipt of the application, the following information to the administrator of the State and local health agencies and to the State and local AIDS program director in the area(s) to be impacted by the proposal: (1) a copy of the face page of the application (SF 424); and, (2) a summary of the project, not to exceed one page, which provides: (a) a description of the population to be served; (b) a summary of the services to be provided; and, (c) a description of the coordination planned with the appropriate State or local health agencies. Copies of the letters forwarding the PHSIS to these authorities must be contained in the application materials submitted to this program.

Executive Order 12372

The Special Projects of National Significance Grant Program has been determined to be a program subject to the provisions of Executive Order 12372, concerning intergovernmental review of Federal Programs, as implemented by 45 CFR Part 100. Under urgent conditions, the Secretary may waive any provision of this regulation. (See 45 CFR part 100.13.) The Secretary has waived 45 CFR Part 100 due to the compelling need to get funds to grantees.

The OMB *Catalog of Federal Domestic Assistance* number for the Special Projects of National Significance is 93.928.

Dated: May 3, 1994.

John H. Kelso,

Acting Administrator.

[FR Doc. 94-14088 Filed 6-9-94; 8:45 am]

BILLING CODE 4160-15-P

Public Health Service

Notice Regarding Section 602 of the Veterans Health Care Act of 1992; Manufacturer Audit Guidelines and Informal Dispute Resolution

AGENCY: Public Health Service, HHS.

ACTION: Notice.

SUMMARY: Section 602 of Public Law 102-585, the "Veterans Health Care Act of 1992" (the "Act"), enacted section 340B of the Public Health Service Act ("PHS Act"), "Limitation on Prices of Drugs Purchased by Covered Entities." Section 340B provides that a manufacturer who sells covered outpatient drugs to eligible entities must sign a pharmaceutical pricing agreement (the "Agreement") with the Secretary of Health and Human Services (the "Secretary") in which the manufacturer agrees to charge a price for covered outpatient drugs that will not exceed an amount determined under a statutory formula.

Section 340B(a)(5) of the PHS Act identifies certain requirements for covered entities concerning potential double price reductions and drug diversion. A covered entity must permit the manufacturer of a covered outpatient drug that has signed the Agreement, to audit the records of the covered entity directly pertaining to the entity's compliance with the requirements of section 340B(a)(5) (A) and (B) as to drugs purchased from the manufacturer. These audits must be conducted in accordance with guidelines established by the Secretary, as stated in section 340B(a)(5)(C).

Further, the Office of Drug Pricing anticipates that disputes may arise between covered entities and participating manufacturers regarding implementation of the provisions of section 340B. To resolve these disputes in an expeditious manner, the Office of Drug Pricing has developed a proposed informal dispute resolution process.

The purpose of this notice is to invite public comment on the proposed manufacturer audit guidelines and the proposed informal dispute resolution process.

DATES: The public is invited to submit comments on the proposed audit guidelines and dispute resolution process by July 11, 1994. After consideration of the comments submitted, PHS will issue the final audit guidelines and the dispute resolution process.

ADDRESSES: Submit comments to Ms. Alvarez at the address noted below.

FOR FURTHER INFORMATION CONTACT: Marsha Alvarez, R. Ph., Director, Office of Drug Pricing, Bureau of Primary Health Care, 4350 East West Highway, West Towers, 10th Floor, Bethesda, MD 20814, Tel: (301) 594–4354.

SUPPLEMENTARY INFORMATION:

Manufacturer Audit Guidelines

Covered entities which choose to participate in the section 340B drug discount program must comply with the requirements of section 340B(a)(5) of the PHS Act. Section 340B(a)(5)(A) prohibits a covered entity from accepting a discount for a drug that would also generate a Medicaid rebate. Further, section 340B(a)(5)(B) prohibits a covered entity from reselling or otherwise transferring a discounted drug to a person who is not a patient of the entity. The participating entity must permit the manufacturer of a covered outpatient drug who has signed the Agreement with the Secretary to audit its records that directly pertain to the entity's compliance with section 340B(a)(5) (A) and (B) requirements with respect to drugs of the manufacturer. Manufacturer audits must be conducted in accordance with guidelines developed by the Secretary as required by section 340B(a)(5)(C). This notice does not include the audit guidelines to be used by Government auditors where the Government performs the audit of the records of the covered entity's compliance with the requirements of section 340B(a)(5) (A) and (B).

The following is the proposed "Compliance Audit Guide" concerning manufacturer audit guidelines as developed by the Secretary pursuant to section 340B(a)(5)(C):

I. General Guidelines

A manufacturer shall conduct an audit only when the Office of Drug Pricing determines that there is reasonable cause to believe a violation of section 340B(a)(5) (A) or (B) has occurred. The manufacturer must submit a request for an audit of a covered entity to the Office of Drug Pricing. [See section II for audit steps]. Auditors have an ethical and legal responsibility to perform quality audits conducted in accordance with Government Auditing Standards, Current revision, developed by the Comptroller General of the United States. Patient confidentiality requirements must also be observed. Audit reports must be prepared at the completion of the audit. Copies of the audit report shall be prepared in accordance with the reporting standards for performance audits in Government Auditing Standards, Current Revision. The cost of a manufacturer audit will be borne by the manufacturer, as provided by section 340B(a)(5)(C) of the PHS Act.

(a) Number of Audits

Consistent with Government auditing standards, the organization performing the audit shall coordinate with other auditors, when appropriate, to avoid duplicating work already completed or that may be planned. Only one audit will be permitted at any one time. When specific allegations involving the drugs of more than one manufacturer have been made concerning an entity's failure to comply with section 340B(a)(5) (A) and (B), the Office of Drug Pricing will determine whether an audit should be performed by the (1) Government or (2) the manufacturer.

(b) Scope of Audits

The manufacturer must submit an audit workplan describing the audit to the Office of Drug Pricing for review. The workplan will be reviewed for reasonable purpose and scope. Further, a determination will be made that only those records of the covered entity that directly pertain to the potential violation(s) will be accessed including those systems and processes (e.g., purchasing, distribution, dispensing, and billing) that would assist in identifying a violation.

(c) Duration of Audits

Audits shall be performed in the minimum time necessary with the minimum intrusion on the covered entity's operations.

II. Audit Steps

(a) The manufacturer shall notify the covered entity in writing when it believes the covered entity has violated provisions of section 340B. The manufacturer and the covered entity shall have at least 30 days from the date of notification to attempt in good faith to resolve the matter.

(b) The manufacturer has the option to proceed to the informal dispute resolution process described later in the notice without an audit, if it believes it has sufficient evidence of a violation absent an audit. If the matter is not resolved and the manufacturer desires to perform an audit, the manufacturer must file a request for a covered entity audit with the Office of Drug Pricing. [See section "**FOR FURTHER INFORMATION**" for address.] The request must set forth a clear description of the reasonable cause to believe that a violation of section 340B(a)(5) (A) or (B) has occurred, along with sufficient facts and evidence in support of the request. In addition, the manufacturer shall provide copies of any documents supporting its claims.

(c) The Office of Drug Pricing will conduct a preliminary review of the documentation submitted to determine if reasonable cause exists. If the Office of Drug Pricing finds that there is reasonable cause to believe that a violation of section 340B(a)(5) (A) or (B) has occurred, the audit will be permitted, and the manufacturer will be notified accordingly. In cases where the Office of Drug Pricing determines that the audit shall be performed by the Government, the Office of Drug Pricing will so advise the manufacturer and the covered entity.

(d) The filing of a request for an audit does not affect any statutory obligations of the parties as defined in section 340B of the PHS Act. During the audit process, a manufacturer must continue to sell covered outpatient drugs at or below the section 340B ceiling price to the covered entity being audited.

(e) Upon approval of the request for a covered entity audit, the manufacturer

shall then submit an audit workplan to the Office of Drug Pricing for approval. The Office of Drug Pricing, after consultation with the PHS Office of Cost and Audit Management, will evaluate the manufacturer's workplan, and approval will be based on criteria set forth in the Audit Program section, Field Work Standards for Performance Audits, Government Audit Standards, Current Revision. The audit workplan shall describe in detail the following:

(1) Audit objectives (what the audit is to accomplish), scope (type of data to be reviewed, systems and procedures to be examined, officials of the covered entity to be interviewed, and expected time frame for the audit), and methodology (processes used to gather and analyze data and to provide evidence to reach conclusions and recommendations);

(2) Skill and knowledge of the audit organization's personnel to staff the assignment, their supervision, and the intended use of consultants, experts, and specialists;

(3) Tests and procedures to be used to assess the covered entity's system of internal controls;

(4) Procedures to be used to determine the amounts to be questioned should violations of section 340B(a)(5) (A) and (B) be discovered; and

(5) Procedures to be used to protect patient confidentiality.

(f) When the audit workplan has been approved, the Office of Drug Pricing shall notify the: (1) Manufacturer of the approval of the audit, and (2) covered entity of a pending manufacturer audit. The covered entity will have at least 15 days from the date of receipt of the notice to prepare for the audit.

(g) Suggested audit procedures include the following:

(1) Review the covered entity's policies and procedures regarding the procurement, inventory, distribution, dispensing, and billing for covered outpatient drugs.

(2) Assess internal controls applicable to the policies and procedures identified above (#1) when necessary to satisfy the audit objectives.

(3) Review the covered entity's policies and procedures to prevent the resale or transfer of drugs to a person or persons who are not patients of the covered entity.

(4) Test compliance with the policies and procedures identified above (#3) when necessary to satisfy the audit objectives.

(5) Review the covered entity's records of drug procurement and distribution and determine whether the covered entity obtained a discount only for those programs authorized to receive discounts by section 340B of the PHS Act.

(6) If a covered entity does not use an all inclusive billing system (per encounter or visit), but instead bills outpatient drugs using a cost based billing system, determine whether the covered entity has provided its Medicaid provider number to the Office of Drug Pricing and billed Medicaid at the actual acquisition cost.

(h) Where the manufacturer's auditors conclude that there has been a violation of the requirements of section 340B(a)(5)(A) or (B), the manufacturer's auditors shall identify (1) the procedures or lack of adherence to existing procedures which caused the violation; and (2) the dollar amounts involved.

(i) Following completion of the audit field work, the manufacturer's auditors shall provide a verbal briefing of the audit findings to the covered entity to ensure a full understanding of the facts.

(j) An audit report must be prepared at the completion of the audit in accordance with reporting standards for performance audits of the Government Auditing Standards, Current Revision. The manufacturer shall submit a copy of the audit report to the covered entity. The covered entity shall provide its response to the manufacturer on the audit report's findings and recommendations within 60 days from the date of receipt of the audit report. When the covered entity agrees with the audit report's findings and recommendations either in full or in part, the covered entity shall include in its response to the manufacturer a description of the actions planned or taken to address the audit findings and recommendations. When the covered entity does not agree with the audit report's findings and recommendations, the covered entity shall provide its rationale for the disagreement to the manufacturer.

(k) Informational copies of the audit report shall also be submitted to the Office of Drug Pricing (see section **For Further Information Contact** for the address), the Office of Inspector General, Office of Audit Services, PHS Audits Division at room 1–30, Park Building, 12420 Parklawn Drive, Rockville, MD 20857, and the PHS Cost and Audit Management Branch, room 17A–50, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857.

(l) If a dispute concerning the audit findings and recommendations arises, the parties may file a request for informal dispute resolution with the Office of Drug Pricing. All dispute resolution procedures developed by the Office of Drug Pricing shall be followed.

Informal Dispute Resolution

The Office of Drug Pricing is proposing an informal process for the resolution of certain disputes between manufacturers, covered entities, and PHS concerning compliance with the provisions of section 340B of the PHS Act. PHS expects parties to utilize this informal process before resorting to other remedies which may be available.

I. Types of Disputes Covered

Disputes resolved by these procedures include:

(a) A manufacturer believes a covered entity is in violation of the prohibition against resale or transfer of a covered outpatient drug provided in section 340B(a)(5)(B) of the PHS Act, or the prohibition against duplicate discounts or rebates provided in section 340B(a)(5)(A) of the PHS Act;

(b) A covered entity believes that a manufacturer is charging a price for a covered outpatient drug that exceeds the ceiling price as determined by section 340B(a)(1) of the PHS Act;

(c) A manufacturer is conditioning the sale of covered outpatient drugs to a covered entity on the entity's provision of assurances or other compliance with the manufacturer's requirements that are based upon section 340B provisions;

(d) A manufacturer has refused to sell a covered outpatient drug to a covered entity at or below the ceiling price as determined by section 340B(a)(1) of the PHS Act;

(e) A manufacturer believes that a covered entity is dispensing a covered outpatient drug in an unauthorized service (e.g., inpatient services or ineligible clinics within the same health system);

(f) A manufacturer believes that a covered entity has not complied with the audit requirements under section 340B(a)(5)(C) of the PHS Act, or the auditors of the manufacturer have not abided by the approved workplan or audit guidelines.

II. Review Process

Prior to the filing of a request for review with the Office of Drug Pricing, the parties must attempt, in good faith, to resolve the dispute. All parties involved in the dispute must maintain written documentation as evidence of a good faith attempt to resolve the dispute. Such evidence includes documentation of meetings, letters, or telephone calls between the disputing parties that concern the dispute.

If the dispute has not been resolved after a good faith attempt, a party may submit a written request for a review of the dispute to the Director of the Office of Drug Pricing. [See address in "For Further Information Contact" section].

The party requesting the review may not rely only upon allegations but is required to set forth specific facts showing that there is a genuine and substantial issue of material fact in dispute that requires a review.

The request for review shall include a clear description of the dispute, shall identify all the issues in the dispute, and shall contain a full statement of the party's position with respect to such issue(s) and the pertinent facts and reasons in support of the party's position. In addition to the required statement, the party shall provide copies of any documents supporting its claim and evidence that a good faith effort was made to resolve the dispute. These materials must be tabbed and organized chronologically and accompanied by an indexed list identifying each document.

The filing of the dispute does not affect any statutory obligations of the parties as defined in section 340B of the PHS Act. During the review process, for example, a manufacturer must continue to sell covered outpatient drugs at or below the section 340B ceiling price to all covered entities, including the covered entity involved in the dispute.

The Director, Bureau of Primary Health Care, shall appoint a committee to review the documentation submitted by the disputing parties and to make a proposed determination. A minimum of three individuals shall be appointed (one of whom shall be designated as a chairperson) either on an ad hoc, case-by-case basis, or as regular members of the review committee. The chairperson shall be from the Office of Drug Pricing and the committee members shall be from other sections of PHS (e.g., chief pharmacist, auditor).

Upon receipt of a request for a review, the chairperson of the review committee will send a letter to the party alleged to have committed a violation. The letter will include (1) the name of the party making the allegation(s), (2) the allegation(s), (3) documentation supporting the party's position, and (4) a request for a response to or rebuttal of the allegations within 30 calendar days of the receipt of the letter. 7 days from the date of the postmark of the letter will be allowed for mailing and processing through the organization.

Upon receipt of the response or rebuttal, the review committee chairperson will review all documentation. The request and rebuttal information will be reviewed for (1) evidence that a good faith effort was made to resolve the dispute, (2) completeness, (3) adequate documentation supporting the issues, and (4) the reasonableness of the allegations. If the documentation is adequate, the review committee will be convened to consider the matter.

The reviewing committee may, at its discretion, invite parties to discuss the pertinent issues with the committee and to submit such additional information as the committee deems appropriate.

The reviewing committee will propose to dismiss the dispute, if it conclusively appears from the data, information, and factual analyses contained in the request for a review and rebuttal documents that there is no genuine and substantial issue of fact in dispute. This proposed finding of the committee will be submitted to the Director of the Office of Drug Pricing for consideration and approval. A written decision of dismissal will be sent to each party and will contain the Director's findings and conclusions in detail and reasons why the request for a review did not raise a genuine and substantial issue of fact.

With all other proposed findings, the review committee will prepare a written document containing the findings and detailed reasons supporting the proposed decision. The document is to be signed by the chairperson and each of the other committee members. The chairperson will submit the proposed findings to the Director of the Office of Drug Pricing for consideration and approval. The Director's written decision will be sent with a transmittal letter to both parties.

If the covered entity or the manufacturer does not agree with the Office of Drug Pricing's determination, the covered entity or the manufacturer may appeal within 30 days after receiving such a determination to the Administrator of the Health Resources and Services Administration who will appoint a review official or committee.

III. Penalties

If the final determination is that a manufacturer has violated the provisions of section 340B of the PHS Act or the PHS pharmaceutical pricing agreement, the manufacturer's agreement with PHS could be terminated or other actions taken as deemed appropriate. If the final determination is that an entity has violated section 340B prohibitions against resale or transfer of covered outpatient drugs, the prohibition against duplicate discounts and rebates (or billing Medicaid more than the actual acquisition cost of the drug), or other statutory prohibitions, the entity shall be liable to the manufacturer of the covered outpatient drug that is the subject of the violation in an amount equal to the reduction in the price of the drug for the period of the violation, as provided by section 340B(a)(5)(D) of the PHS Act. The entity may also be excluded from the drug discount program, if the conduct warrants such a sanction.

After the dispute is resolved, any disputed amounts plus the rate of interest must be paid or credited to an account balance no later than 30 days following a final determination. Interest will begin to accrue from the time the manufacturer is deemed to have been out of compliance with section 340B (or provisions of the PHS Pharmaceutical Pricing Agreement) or the entity is deemed to have violated prohibitions of section 340B. The interest rate will be based upon an annual rate established by the Secretary of the Treasury after considering private consumer rates of interest prevailing at the time of the violation. This rate, utilized by the Department of Health and Human Services (HHS) in the collection of debts owed to the United States, may be revised quarterly by the Secretary of the Treasury and is published by the HHS Assistant Secretary for Management and Budget in the **Federal Register**. See 45 CFR 30.13 Parties will apply the interest rate for the quarter in which the violation occurred, and this rate will remain fixed for the duration of the time in which interest accrues.

(The reporting requirements of this document are subject to Office of Management and Budget (OMB) clearance under the Paperwork Reduction Act of 1980, 44 U.S.C 3501–3520, and will not be implemented until such clearance has been obtained)

Dated: June 6, 1994.

Ciro V. Sumaya,

Administrator, Health Resources and Services Administration.

BILLING CODE 4160–15–P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Community Planning and Development

[Docket No. N–94–1917; FR–3350–N–87]

Federal Property Suitable as Facilities To Assist the Homeless

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

ADDRESSES: For further information, contact Barbara Richards, room 7262, Department of Housing and Urban Development, 451 Seventh Street SW.,

Washington, DC 20410; telephone (202) 708–4300; TDD number for the hearing- and speech-impaired (202) 708–2565 (these telephone numbers are not toll-free), or call the toll-free Title V information line at 1–800–927–7588.

SUPPLEMENTARY INFORMATION: In accordance with 56 FR 23789 (May 24, 1991) and section 501 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11411), as amended, HUD is publishing this Notice to identify Federal buildings and other real property that HUD has reviewed for suitability for use to assist the homeless. The properties were reviewed using information provided to HUD by Federal landholding agencies regarding unutilized and underutilized buildings and real property controlled by such agencies or by GSA regarding its inventory of excess or surplus Federal property. This Notice is also published in order to comply with the December 12, 1988 Court Order in *National Coalition for the Homeless* v. *Veterans Administration*, No. 88–2503–OG (D.D.C.).

Properties reviewed are listed in this Notice according to the following categories: Suitable/available, suitable/unavailable, suitable/to be excess, and unsuitable. The properties listed in the three suitable categories have been reviewed by the landholding agencies, and each agency has transmitted to HUD: (1) Its intention to make the property available for use to assist the homeless, (2) its intention to declare the property excess to the agency's needs, or (3) a statement of the reasons that the property cannot be declared excess or made available for use as facilities to assist the homeless.

Properties listed as suitable/available will be available exclusively for homeless use for a period of 60 days from the date of this Notice. Homeless assistance providers interested in any such property should send a written expression of interest to HHS, addressed to Judy Breitman, Division of Health Facilities Planning, U.S. Public Health Service, HHS, room 17A–10, 5600 Fishers Lane, Rockville, MD 20857; (301) 443–2265. (This is not a toll-free number.) HHS will mail to the interested provider an application packet, which will include instructions for completing the application. In order to maximize the opportunity to utilize a suitable property, providers should submit their written expressions of interest as soon as possible. For complete details concerning the processing of applications, the reader is encouraged to refer to the interim rule governing this program, 56 FR 23789 (May 24, 1991).

For properties listed as suitable/to be excess, that property may, if subsequently accepted as excess by GSA, be made available for use by the homeless in accordance with applicable law, subject to screening for other Federal use. At the appropriate time, HUD will publish the property in a Notice showing it as either suitable/available or suitable/unavailable.

For properties listed as suitable/unavailable, the landholding agency has decided that the property cannot be declared excess or made available for use to assist the homeless, and the property will not be available

Properties listed as unsuitable will not be made available for any other purpose for 20 days from the date of this Notice. Homeless assistance providers interested in a review by HUD of the determination of unsuitability should call the toll free information line at 1–800–927–7588 for detailed instructions or write a letter to Barbara Richards at the address listed at the beginning of this Notice. Included in the request for review should be the property address (including zip code), the date of publication in the **Federal Register**, the landholding agency, and the property number.

For more information regarding particular properties identified in this Notice (i.e., acreage, floor plan, existing sanitary facilities, exact street address), providers should contact the appropriate landholding agencies at the following addresses: U.S. Navy: John J. Kane, Deputy Division Director, Dept. of Navy, Real Estate Operations, Naval Facilities Engineering command, 200 Stovall Street, Alexandria, VA 22332–2300; (703) 325–0474; GSA: Leslie Carrington, Federal Property Resources Services, GSA, 18th and F Streets NW, Washington, DC 20405; (202) 208–0619; Dept. of Interior: Lola D. Knight, Property Management specialist, Dept. of Interior, 1849 C St. NW, Mailstop 5512–MIB, Washington, DC 20240; (202) 208–4080; U.S. Army: Elaine Sims, CECPW–FP, U.S. Army Center for Public Works, 7701 Telegraph Road, Alexandria, VA 22310–3862; (703) 355–3475; Dept. of Energy: Tom Knox, Acting Team Leader, Facilities Planning and Acquisition Branch, FM–20, Forrestal Bldg., Room 6H–058, Washington, DC 20585; (202) 586–1191; (These are not toll-free numbers).

Dated: June 3, 1994.

Jacquie M. Lawing,

Deputy Assistant Secretary for Economic Development.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[NV–050–93–4370–03]

Hearing to Discuss the Use of Helicopters and Motorized Vehicles to Gather Wild Horses

AGENCY: Bureau of Land Management, Interior.

ACTION: Public hearing to discuss the use of helicopters and motorized vehicles to gather wild horses during FY 94.

SUMMARY: In accordance with Public Law 92–195, as amended by Public Law 94–579 and Public Law 95–514, this notice sets forth the public hearing date to obtain public input into the use of helicopters and motorized vehicles to gather wild horses on public lands within the Las Vegas District during FY 94. The hearing will convene at 2 p.m. on Friday, July 1, 1994, in the Conference Room of the Las Vegas District BLM Office, 4765 Vegas Drive, Las Vegas, Nevada. The hearing is open to the public. Interested persons may make oral or written statements. Anyone wishing to make oral comments should contact Gary McFadden, Las Vegas District Wild Horse Specialist, by July 1, 1994 at (702) 647–5000. Written statements must be received by this date also and may be submitted to the District Manager, Las Vegas District, P.O. Box 26569, Las Vegas, Nevada.

FOR FURTHER INFORMATION CONTACT: Gary McFadden (702) 647–5000.

Dated: May 27, 1994.

Gary Ryan,

Acting District Manager.

[NM–940–4110–03; OKNM 56774]

Proposed Reinstatement of Terminated Oil and Gas Lease; New Mexico

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: Under the provisions of Pubic Law 97–451, a petition for reinstatement of Oil and Gas Lease OKNM 56774, Alfalfa County, Oklahoma, was timely filed and was accompanied by all required rentals and royalties accruing from October 1, 1993, the date of termination. No valid lease has been issued affecting the land. The lessee gas agreed to new lease terms for rentals and royalties at rates of $5.00 per acre or fraction thereof and 16⅔ percent, respectively. Payment of a $500.00 administrative fee has been made. Having met all the requirements for reinstatement of the lease as set out in section 31 (d) and (e)), the Bureau of Land Management is proposing to reinstate the lease effective October 1, 1993, subject to the original terms and conditions of the lease and the increased rental and royalty rates cited above, and the reimbursement for cost of publication of this notice.

FOR FURTHER INFORMATION CONTACT: Dolores L. Vigil, BLM, New Mexico State Office, (505) 438–7580.

Dated: May 31, 1994.

Dolores L. Vigil,

Chief, Adjudication Section.

Fish and Wildlife Service

Endangered and Threatened Wildlife and Plants; Notice of availability of Final Florida Panther Habitat Preservation Plan

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: The Florida Panther Interagency Committee (FPIC), composed of representatives from the U.S. Fish and Wildlife Service (Service), National Park Service, Florida Game and Fresh Water Fish Commission, and the Florida Department of Environmental Protection, approved the final Florida Panther Habitat Preservation Plan (Plan) January 3, 1994. The constituent elements of the Plan include: (1) A characterization and identification of occupied and potential Florida panther habitat (grouped into 11 ecological units) in 10 south Florida counties (Charlotte, Collier, Dade, DeSoto, Glades, Hendry, Highlands, Lee, Manatee, and Sarasota); (2) identification of threats to occupied and potential Florida panther habitat in south Florida, and (3) identification of 23 possible Florida panther habitat preservation options. The overall goal of the Plan is to ensure a sustainable population of Florida panther in south Florida.

The Plan is available in paper and electronic formats. Copies of the Plan can be obtained by making requests to the address(es) below.

SUPPLEMENTARY INFORMATION: The following is a brief chronology and update on the Plan. A Habitat Preservation Working Group, comprised of U.S. Fish and Wildlife Service, National Park Service, Florida Game and Fresh Water Fish Commission, and Florida Department of Environmental Protection, began drafting the Plan April 10, 1991. A **Federal Register** Notice announced the draft Plan was available for public review and comment on February 19, 1993. The Florida Panther Technical Advisory Council reviewed the draft Plan on April 8, 1993, and provided technical comments under existing Service policy regarding panther issues. The comment period closed on April 30, 1993. Thirty-one letters of support and 33 letters of opposition to the draft Plan were received before the comment period closed. Three hundred and thirteen letters of support and 96 letters of opposition were received after the comment period closed. All comments were taken into consideration in subsequent revisions of the Plan. The Plan was approved by the FPIC on January 3, 1994. The FPIC chairman and Technical Subcommittee members presented the final Plan to the public at a town meeting on February 3, 1994, in Ft. Myers, Florida, as requested by the Florida Farm Bureau. As of this date, approximately 900 copies of the final Plan have been distributed.

Copies of Plan, as well as a set of maps depicting more detailed information on areas of Panther habitat, have been deposited at the main branch of each of the following county libraries: Charlotte, Collier, Dade, DeSoto, Glades, Hendry, Highlands, Lee, Manatee, and Sarasota. Additional copies of the Plan are available from the U.S. Fish and Wildlife Service free of charge (see **ADDRESSES** below). FPIC representatives are available, upon written request, to meet with special interest groups or individuals to discuss the Plan and answer questions.

For a paper copy of the Plan, or for more information concerning any of the information presented in this notice, please contact: Mr. Andrew C. Eller, Jr., U.S. Fish and Wildlife Service, Assistant Florida Panther Coordinator, 3860 Tollgate Blvd., Suite 37, Naples, Florida 33942, telephone: 813/353–2814.

Florida State University has made the Plan (Volume I) available to Internet users. Graphics are not included. The system is case sensitive and commands should be typed in lower case only. There are three commands: (1) Telnet freenet.fsu.edu; (2) visitor; and (3)

panther. For more details contact Mr. Hilly Levitz at Email: levitz @cs.fsu.edu.

The Florida Game and Fresh Water Fish Commission has made data and maps used in the development of the Plan available on an electronic database. For more information contact Mr. Randy Kautz, Office of Environmental Services, 620 South Meridian Street, Tallahassee, Florida 32399–1600, telephone: 904/488–6661.

Dated: May, 27, 1994.

Warren T. Olds, Jr.,

Acting Regional Director.

BILLING CODE 4310–55–P

Hart Mountain National Antelope Refuge, OR; Environmental Statements

AGENCY: Fish and Wildlife Service, U.S. Department of the Interior.

ACTION: Notice of availability.

SUMMARY: This notice advises the public that the Final Environmental Impact Statement (FEIS) on the proposed comprehensive management plan for Hart Mountain National Antelope Refuge, Lake County, Oregon, is available for public review. Five alternatives are being considered, including the Preferred Alternative. This notice is being furnished pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969.

DATES: The review period ends on July 11, 1994 (30 days from the publication of this notice in the **Federal Register**).

ADDRESSES: Written comments should be addressed to: Refuge Complex Manager, Sheldon-Hart Mountain Refuge Complex, P.O. Box 111, Lakeview, OR 97630.

Copies of the FEIS may be inspected at locations listed in Supplementary Information.

FOR FURTHER INFORMATION CONTACT: Ruth Anne Miller, Outdoor Recreation Planner, Sheldon-Hart Mountain Refuge Complex, P.O. Box 111, Lakeview, Oregon 97630, (503) 947–3315.

SUPPLEMENTARY INFORMATION: The Service developed and analyzed five alternatives for the management of wildlife, habitat, and public use of Hart Mountain National Antelope Refuge. The purpose of this FEIS is to recommend a course of action that would best guide the management of the Refuge's resources.

The FEIS analyzes five alternative approaches to resolving the Refuge's core problems, which are: (1) Unnaturally high densities of shrubs and junipers throughout Refuge uplands, and lack of periodic fire in these habitats; (2) eroded stream channels and deficiency of riparain vegetation along a majority or Refuge streams; and (3) insufficient resources and inadequate facilities to manage the increasing number of Refuge visitors. These problems are the underlying factors currently preventing Refuge goals from being achieved, and thus provide a focal point for the proposed comprehensive management plan.

The five alternatives being considered are: (1) Baseline Management, which continues emphasis on a livestock grazing program as the primary means of managing Refuge vegetation; (2) Featured Species Management, which combines the uses of livestock grazing, prescribed burning and herbicides to manage vegetation; (3) Habitat Restoration Alternative, which would emphasize restoration of Refuge habitats, although not to the extent proposed by the Ecosystem Management Alternative; (4) Native Community Restoration (Preferred Alternative), which proposes an ecosystems management approach to restoration of Refuge habitats and natural processes; and (5) Custodial Maintenance, which emphasizes the total exclusion of human intervention.

The Preferred Alternative, if implemented, would (1) reduce shrub and juniper cover on 22,000 to 40,000 acres within 15 years following implementation of the comprehensive management plan, primarily through prescribed burning; (2) allow riparian areas to restore passively, except in limited areas where prescribed burning, willow plantings, and check dams would be used; (3) discontinue the use of livestock on Refuge lands during the next 15 years; (4) redesign one of the existing campgrounds and close the other; (5) create three additional camping areas as mitigation; (6) maintain 162 miles of roads open to the public; (7) continue limited quality hunts for pronghorn, mule deer, and bighorn sheep; and (8) recommend 80,541 acres for further study for potential wilderness designation, and 11,276 acres for further study for potential Research Natural Areas designation.

Copies of the FEIS may be viewed at the following locations:

U.S. Fish and Wildlife Service, Div. of Refuges & Wildlife, Third floor, 911 NE. 11th Avenue, Portland, Oregon 97232–4181

Sheldon-Hart Mountain Refuge Complex, 18 South g. Street, Third floor, Lakeview, Oregon 97630

Lake County Library, 513 Center Street, Lakeview, Oregon 97630

Harney County Library, 80 West D Street, Burns, Oregon 97720

Klamath County Library, 126 South 3rd Street, Klamath Falls, Oregon, 97601

Deschutes County Library, 507 NW Wall Street, Bend, Oregon 97701

Kerr Library, Oregon State University, Corvallis, Oregon 97331

Central Library, Multnomah County Library System, 801 SW 10th Street, Portland Oregon 97205.

Individuals desiring a copy of the FEIS for review should immediately contact the individual in the For Further Information Contact Section. Copies have been sent to all agencies and individuals who participated in the scoping process and were added to the mailing list, and to those people that requested to be added to the mailing list.

Dated: May 25, 1994.

Thomas J. Dwyer,

Acting Regional Director, Region 1, Portland, Oregon.

National Park Service

Weir Farm National Historic Site, Wilton and Ridgefield, CT—Amendment Notice to the Draft General Management Plan / Draft Environmental Impact Statement and Notice of Availability and Public Comment Period

This is to append the notice of Friday, May 6, 1994 (FR Vol.59/#97–23744) to clarify that the Draft Environmental Impact Study/Draft General Management Plan (DEIS/DGMP) is being duly filed with the Environmental Protection Agency (EPA). Please refer to the customary Environmental Protection Agency listing of such actions which will appear in the Friday, June 6 or Friday, June 17, 1994 edition. The EPA notice will initiate a sixty-day review period for the DEIS/DGMP.

At the midpoint of the review period, the National Park Service will hold a public meeting in the immediate area of Weir Farm National Historic Site in the Wilton/Ridgefield area of Connecticut. Please watch out for time and place of the meeting which will be announced in the local media.

During the comment period, interested persons may review the document and provide written comments to the Superintendent, Weir Farm National Historic Site, 735 Nod Hill Road, Wilton, CT 06897.

June 3, 1994.

Robert W. McIntosh,

Deputy Regional Director.

BILLING CODE 4310–70–P

INTERNATIONAL TRADE COMMISSION

Ceiling Fans From the People's Republic of China; Request for Comments Concerning the Institution of a Section 751(b) Review Investigation

AGENCY: United States International Trade Commission.

ACTION: Request for comments regarding the institution of a section 751(b) review investigation concerning the Commission's affirmative determination in investigation No. 731–TA–473 (Final), Certain Electric Fans from the People's Republic of China (China).

SUMMARY: The Commission invites comments from the public on whether changed circumstances exist sufficient to warrant the institution of an investigation pursuant to section 751(b) of the Tariff Act of 1930 (19 U.S.C. 1675(b)) (the Act) to review the Commission's affirmative determination in the above investigation. The purpose of the proposed review investigation is to determine whether an industry in the United States would be materially injured, or would be threatened with material injury, or the establishment of an industry in the United States would be materially retarded, by reason of imports of ceiling fans from China if the existing antidumping order on such merchandise were to be modified or revoked.[1] Ceiling fans are provided for in subheading 8414.51.00 of the Harmonized Tariff Schedule of the United States.

FOR FURTHER INFORMATION CONTACT: Vera Libeau (202–205–3176), Office of Investigations, U.S. International Trade Commission, 500 E Street SW. Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. Information can also be obtained by calling the Office of Investigations' remote bulletin board system for personal computers at 202–205–1895 (N,8,1).

SUPPLEMENTARY INFORMATION:

Background

On October 25, 1991, the Department of Commerce gave notice that imports of certain electric fans (including ceiling fans) from China were being sold in the United States at less than fair value (LTFV) within the meaning of section 731 of the Act (19 U.S.C. 1673) (an amendment to its determination, modifying the margins accorded to specific companies, was published in the **Federal Register** on December 9, 1991 (56 F.R. 64240)), and on December 2, 1991, the Commission determined, pursuant to section 735(b)(1) of the Act (19 U.S.C. 1673d(b)(1)), that an industry in the United States was materially injured by reason of imports of ceiling fans.[2] Commerce thereby ordered that dumping duties be imposed. On March 2, 1994, however, Commerce published in the **Federal Register** a revision to its original dumping determination, effectively excluding one of the Chinese producers from the order and reducing the margin for non-specified firms (59 FR 9956). Consequently, on May 4, 1994, counsel for Encon Industries, Inc., an importer of the subject merchandise, filed a request with the Commission to review its earlier affirmative injury determination pursuant to section 751(b) of the Act (19 U.S.C. 1675(b)).

Written Comments Requested

Pursuant to section 207.45(b)(2) of the Commission's Rules of Practice and Procedure (19 CFR 207.45(b)(2)), the Commission requests comments concerning whether the alleged changed circumstances, brought about by Commerce's revision of its dumping order, are sufficient to warrant institution of a review investigation.

Written Submissions

In accordance with section 201.8 of the Commission's rules (19 CFR 201.8), the signed original and 14 copies of all written submissions must be filed with the Secretary to the Commission, 500 E Street, SW., Washington, DC 20436. All comments must be filed no later than 30 days after the date of publication of this notice in the **Federal Register**. Any person desiring to submit a document (or portion thereof) to the Commission in confidence must request business confidential treatment under section 201.6 of the Commission's rules (19 CFR 201.6). Such requests should be directed to the Secretary to the Commission and must include a full statement of the reasons why the Commission should grant such treatment. Each sheet must be clearly marked at the top "Confidential Business Information." The Commission will either accept the submission in confidence or return it. All nonconfidential written submissions will be available for public inspection in the Office of the Secretary.

Copies of the request for review of the injury determination and any other documents in this matter are available for public inspection during regular

[1] Although the scope of the Commerce's investigation included both ceiling fans and oscillating fans, the Commission found these fans to be separate like products of separate industries and determined accordingly on the question of injury.

[2] The Commission also determined that an industry in the United States was materially injured by reason of LTFV imports of oscillating fans; however, that determination is not at issue in the petition.

business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary to the Commission; telephone 202–205–2000.

Issued: June 7, 1994.

By order of the Commission.

Donna R. Koehnke,

Secretary.

BILLING CODE 7020–02–P

INTERSTATE COMMERCE COMMISSION

[Finance Docket No. 32507]

Cen-Tex Rail Link, Ltd.—Acquisition and Operation Exemption—Certain Lines of The Atchison, Topeka and Santa Fe Railway Co.

Cen-Tex Rail Link, Ltd. (Cen-Tex), a noncarrier, has filed a notice of exemption to acquire and operate approximately 151 miles of rail line owned by The Atchison, Topeka and Santa Fe Railway Company (ATSF) as follows: (1) Between Fort Worth, TX (approximately milepost 1 + 1,541 feet on ATSF's Dublin Subdivision) and Ricker, TX (approximately 134 + 2,171 feet on ATSF's Dublin Subdivision), and between a point on the foregoing segment near Cresson, TX (approximately milepost 18 + 133 feet on ATSF's Cresson Subdivision), and Cleburne, TX (approximately milepost 0 + 1,167.1 feet on ATSF's Cresson Subdivision).[1]

This proceeding is related to a petition for exemption filed concurrently in *Joel T. Williams, III, Roy C. Coffee, Jr., Rafael Fernandez-Macgregor, Bristol Investment Co., Inc.—Continuance in Control Exemption—Cen-Tex Rail Link, Ltd. and South Orient Railroad Company, Ltd.*, in Finance Docket No. 32478, wherein Joel T. Williams, III *et al.* have concurrently filed a petition for exemption to continue in control of Cen-Tex and South Orient Railroad Company, Ltd. when the former becomes a rail carrier upon consummation of the transaction described in this notice.

Cen-Tex will also acquire incidental overhead trackage rights: (i) On the ATSF line between Ricker, TX (approximately milepost 134 + 2,171 feet on ATSF's Dublin Subdivision) and San Angelo Junction, TX (approximately milepost 0 + 330 feet on ATSF's San Angelo Subdivision), (ii) on the ATSF line between milepost 1 + 1,541 feet (ATSF Dublin Subdivision) and milepost 368.5 (ATSF Fort Worth Subdivision) for certain intermodal produce shipments, and (iii) on the ATSF line between milepost 1 + 1,541 feet and milepost 0 + 4,752 feet on ATSF's Dublin Subdivision, to reach other carriers in Ft. Worth, TX. Cen-Tex's acquisition of the properties is expected to be consummated and operations to begin upon or soon after the effective date of this exemption.[2]

Any comments must be filed with the Commission and served on: Kevin M. Sheys, Oppenheimer Wolff & Donnelly, 1020 19th St., NW., Suite 400, Washington, DC 20036.

This notice is filed under 49 CFR 1150.31. If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10505(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

Decided: June 3, 1994.

By the Commission, David M. Konschnik, Director, Office of Proceedings.

Sidney L. Strickland, Jr.,

Secretary.

[FR Doc. 94–14129 Filed 6–9–94; 8:45am]

BILLING CODE 7035–01–P

[Docket No. AB–167 (Sub-No. 1121X)]

Consolidated Rail Corporation—Abandonment Exemption—In Clark County, OH

Consolidated Rail Corporation (Conrail) has filed a notice of exemption under 49 CFR 1152 Subpart F—*Exempt Abandonments* to abandon approximately 8.1 miles of rail line from approximately milepost 124.5+ in Glen Echo to approximately milepost 132.6± [1] in Springfield, Clark County, OH

Conrail has certified that: (1) No local traffic has moved over the line for at least 2 years; (2) there is no overhead traffic on the line; (3) no formal complaint filed by a user of rail service on the line (or by a State or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Commission or with any U.S. District Court or has been decided in favor of the complainant within the 2-year period; and (4) the requirements at 49 CFR 1105.7 (environmental), 49 CFR 1105.8 (historic requirement), 49 CFR 1105.11 (transmittal letter), 49 CFR 1105.12 (newspaper publication) and 49 CFR 1152.50(d)(1) (notice to governmental agencies) have been met.

As a condition to use of this exemption, any employee adversely affected by the abandonment shall be protected under *Oregon Short Line R Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10505(d) must be filed.

Provided no formal expressions of intent to file an offer of financial assistance (OFA) has been received, this exemption will be effective on July 10, 1994, unless stayed pending reconsideration. Petitions to stay that do not involve environmental issues,[2] formal expressions of intent to file an OFA under 49 CFR 1152.27(c)(2),[3] and trail use/rail banking statements under 49 CFR 1152.29[4] must be filed by June 21, 1994. Petitions to reopen or requests for public use conditions under 49 CFR 1152.28 must be filed by June 30, 1994, with: Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

A copy of any petition filed with the Commission should be sent to applicant's representatives: Robert S.

[1] ATSF will retain limited overhead trackage rights between Fort Worth and Ricker, TX, while transferring all other rights on the line to Cen-Tex.

[2] Shortly after consummation, Cen-Tex will sell the subject rail lines (but not the incidental trackage rights and other assets) to the Centex Rural Rail Transportation District. However, Cen-Tex will retain all of its common carrier operating rights on the lines under a permanent freight railroad operations easement.

[1] Grand Trunk Western Railroad (GTW) maintains overhead trackage rights over a portion of the line from milepost 129.1 to milepost 132.6. We interpret this to mean that GTW has no local trackage rights on this portion of the line. In *Missouri Pac. R. Co.—Aban.—Osage & Morris Count., KS.*, 9 I.C.C.2d 1228 (1993) (*Missouri Pac.*), the Commission held that a railroad that certifies that there has been no local traffic on the line, including that of the railroad with trackage rights, can use the exemption procedures to abandon the line without the holder of trackage rights receiving discontinuance authority subject to certain conditions.

Accordingly, because of GTW's existing trackage rights, Conrail may only discontinue service at this time. The effectiveness of this notice as to the abandonment will be contingent upon: (1) GTW obtaining Commission approval or exemption to discontinue its trackage rights; and (2) Conrail informing any party requesting public use or trail use if and when such trackage rights are discontinued. *See Missouri Pac., supra.* Requests for public use or trail use conditions will not be acted upon until GTW has relinquished its trackage rights.

[2] A stay will be routinely issued by the Commission in those proceedings where an informed decision on environmental issues (whether raised by a party or by the Commission's Section of Environmental Analysis in its independent investigation) cannot be made prior to the effective date of the notice of exemption. *See Exemption of Out-of-Service Rail Lines*, 5 I.C.C.2d 377 (1989). Any entity seeking a stay involving environmental concerns is encouraged to file its request as soon as possible in order to permit the Commission to review and act on the request before the effective date of this exemption.

[3] *See Exempt. of Rail Abandonment—Offers of Finan. Assist.*, 4 I.C.C.2d 164 (1987).

[4] The Commission will accept a late-filed trail use request as long as it retains jurisdiction to deal

Natalini, Two Commerce Square, 2001 Market Street, P. O. Box 41416, Philadelphia, PA 19101–1416.

If the notice of exemption contains false or misleading information, the exemption is void *ab initio*.

Conrail has filed an environmental report which addresses the effects of the abandonment, if any, on the environment and historic resources. The Section of Environmental Analysis (SEA) will issue an environmental assessment (EA) by June 15, 1994. Interested persons may obtain a copy of the EA by writing to SEA (Room 3219, Interstate Commerce Commission, Washington, DC 20423) or by calling Elaine Kaiser, Chief of SEA, at (202) 927–6248. Comments on environmental and historic preservation matters must be filed within 15 days after the EA is available to the public.

Environmental, historic preservation, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

Decided: June 3, 1994.

By the Commission, David M. Konschnik, Director, Office of Proceedings

Sidney L. Strickland, Jr.,

Secretary.

BILLING CODE 7035–01–P

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

Village Drug Revocation of Registration

On March 18, 1994, the Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration (DEA), issued an Order to Show Cause to Village Drug (Respondent), of El Segundo, California, proposing to deny Respondent's application for a DEA Certificate of Registration as a practitioner. The Order to Show Cause alleged that Respondent's registration would be inconsistent with the public interest as that term is used in 21 U.S.C. 823(f).

Specifically the Order to Show Cause alleged that: Respondent's pharmacy license as well as the pharmacist's license of Bernard P. Kastigar (Mr. Kastigar), the owner/operator of Respondent, were suspended for thirty days and placed on three years probation in 1985 by the Board of Pharmacy, Department of Consumer Affairs, State of California (Pharmacy Board); in 1988, based upon violations of the Pharmacy Board's probation order, Mr. Kastigar's pharmacist license was again suspended for thirty days and placed on probation for an additional three years; between 1991 and 1993, Mr. Kastigar dispensed Percodan, a Schedule II controlled substance, and anabolic steroids, Schedule III controlled substances, to several individuals without a valid physician's authorization; on October 21, 1993, Mr. Kastigar pled guilty to and was convicted of one count of unlawfully furnishing a controlled substance, in the Municipal Court for the South Bay Judicial District, County of Los Angeles, State of California; and Mr. Kastigar materially falsified an application for a DEA Certificate of Registration, submitted on June 4, 1993, by indicating on such application that he had never surrendered a DEA Certificate of Registration, when in fact Respondent's DEA Certificate of Registration had been surrendered on April 27, 1993, and by also indicating on the application that he had never had a state license suspended or placed on probation, when in fact his pharmacist's license as well as Respondent's license had been suspended and placed on probation by the Pharmacy Board.

The Order to Show Cause was sent to Respondent by registered mail. More than thirty days have passed since the Order to Show Cause was received by Respondent and the DEA has received no response thereto. Pursuant to 21 CFR 11301. 54(d) and 1301.54(e). Respondent is deemed to have waived his opportunity for a hearing. Accordingly, the Deputy Administrator now enters his final order in this matter without a hearing and based upon the investigative file. 21 CFR 1301.57.

In 1983, the Pharmacy Board filed an accusation against Respondent pharmacy and Mr. Kastigar alleging, *inter alia*, that an audit revealed significant shortages for a number of controlled substances and that Mr. Kastigar filled numerous controlled substance prescriptions issued under circumstances in which he knew or should have known that such prescriptions were not issued for a legitimate medical reason. Based upon a consent decree, Respondent and Mr. Kastigar admitted the allegations. Both agreed to a thirty day suspension and a three year probationary term, effective June 28, 1985.

On October 20, 1987, the Pharmacy Board issued another accusation against Mr. Kastigar based upon allegations that he dispensed propoxyphene, a Schedule IV controlled substance, to an individual without a valid physician's authorization. Mr. Kastigar entered into a second consent decree with the Pharmacy Board. Again, he admitted to the accusations and his pharmacist's license was suspended for another thirty days and placed on probation for another three years, effective June 24, 1988.

Subsequent investigation by the California Bureau of Narcotics Enforcement revealed that Mr. Kastigar dispensed Percodan, a Schedule II controlled substance, and anabolic steroids, a Schedule III controlled substance, to several individuals without a physician's authorization between January 1991 and April 1993. A search warrant was served on Respondent pharmacy on March 25, 1993. Mr. Kastigar was interviewed at that time and admitted some of the allegations concerning the unlawful dispensing of the Percodan and anabolic steroids.

On April 26, 1993, Mr. Kastigar was charged in the Municipal Court for the South Bay Judicial District, County of Los Angeles, State of California, with eleven counts of the unlawful furnishing of controlled substances and two counts of dispensing controlled substances without a medical purpose. On September 23, 1993, Mr. Kastigar entered into a plea agreement whereby he agreed to plea no contest to one felony count of the unlawful furnishing of a controlled substance and agreed to a sentence of three years probation. The conditions of the probation included, *inter alia*, 250 hours of community service, a $15,000 fine, the surrender of his pharmacist's license and surrender of medicare and medicaid privileges. On October 21, 1993, Mr. Kastigar entered the plea pursuant to the agreement and was convicted and sentenced pursuant to the plea agreement.

Mr. Kastigar voluntarily surrendered Respondent pharmacy's previous DEA Certificate of Registration, AK2083119, on April 27, 1993. On June 4, 1993, Mr. Kastigar submitted an application to obtain a new DEA Certificate of Registration for Respondent pharmacy. On this application, he indicated that he had never surrendered a DEA Certificate of Registration. He also indicated on this application that he never had a state professional license suspended or placed on probation, notwithstanding that the California Pharmacy Board had taken action against both Respondent and its owner in 1985 and 1988, as noted above.

In evaluating whether Respondent's registration by the Drug Enforcement Administration would be inconsistent with the public interest, the Deputy Administrator considers the factors enumerated in 21 U.S.C. 823(f). They are as follows:

(1) The recommendation of the appropriate State licensing board or professional disciplinary authority.

(2) The applicant's experience in dispensing, or conducting research with respect to controlled substances.

(3) The applicant's conviction record under Federal or State laws relating to the manufacture, distribution, or dispensing of controlled substances.

(4) Compliance with applicable State, Federal or local laws relating to controlled substances.

(5) Such other conduct which may threaten the public health and safety.

In determining whether a registration would be inconsistent with the public interest, the Deputy Administrator is not required to make findings with respect to each of the factors listed above. Instead, he has the discretion to give each factor the weight he deems appropriate, depending upon the facts and circumstances of each case. See *David E. Trawick, D.D.S.*, Docket No. 88–69, 53 FR 5326 (1988).

In this proceeding factors one, two, three, and five apply. Factor one is applicable based upon the California Board of Pharmacy's suspensions and probation terms imposed on the licenses of Respondent pharmacy and the pharmacist's license of Mr. Kastigar in 1985 and 1988. Factor two applies because Respondent dispensed controlled substances without a physician's authorization or for no legitimate medical reason on a number of occasions between 1983 and 1993. Factor three is applicable based upon the conviction of Mr. Kastigar in the Municipal Court for the South Bay Judicial District, County of Los Angeles, State of California, of one count of unlawfully furnishing controlled substances. Factor five applies because Mr. Kastigar made two material falsifications on the application he submitted for a new DEA Certificate of Registration on June 4, 1993.

No evidence of explanation or mitigating circumstances has been offered by Respondent. Therefore, the Deputy Administrator concludes that Respondent's application for a DEA Certificate of Registration must be denied.

Accordingly, the Deputy Administrator of the Drug Enforcement Administration, pursuant to the authority vested in him by 21 U.S.C. 823 and 824 and 28 CFR 0.100(b) and 0.104, hereby orders that the application executed by Village Drug, on June 4, 1993, for a DEA Certificate or Registration as a retail pharmacy, be, and it hereby is, denied. This order is effective June 10, 1994.

Dated: June 3, 1994.

Stephen H. Greene,

Deputy Administrator.

[FR Doc. 94–14161 Filed 6–9–94; 8:45 am]

BILLING CODE 4410–09–M

DEPARTMENT OF LABOR

Employment Standards Administration

Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Ave, NW., room S–3014, Washington, DC 20210.

Withdrawn General Wage Determination Decision

This is to advise all interested parties that the Department of Labor is withdrawing, from the date of this notice, General Wage Determination Nos. VA940045 and VA940055 dated February 11, 1994.

Agencies with construction projects pending, to which these wage decisions would have been applicable, should utilize Wage Decision VA940029. Contracts for which bids have been opened shall not be affected by this notice. Also, consistent with 29 CFR 1.6(c)(2)(i)(A), when the opening of bids is less than ten (10) days from the date of this notice, this action shall be effective unless the agency finds that there is insufficient time to notify bidders of the change and the finding is documented in the contract file.

New General Wage Determination Decisions

The numbers of the decisions added to the Government Printing Office document entitled "General Wage Determinations Issued Under the Davis-

Bacon and Related Acts" are listed by Volume and State.

BILLING CODE 4510–27–M

Pension and Welfare Benefits Administration

[Prohibited Transaction Exemption 94–43; Exemption Application No. D–9282, et al.]

Grant of Individual Exemptions; Fidelity Management Trust Company, et al.

AGENCY: Pension and Welfare Benefits Administration, Labor.

ACTION: Grant of individual exemptions.

SUMMARY: This document contains exemptions issued by the Department of Labor (the Department) from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1986 (the Code).

Notices were published in the **Federal Register** of the pendency before the Department of proposals to grant such exemptions. The notices set forth a summary of facts and representations contained in each application for exemption and referred interested persons to the respective applications for a complete statement of the facts and representations. The aplicaitons have been available for public inspection at the Department in Washington, DC. The notices also invited interested persons to submit comments on the requested exemptions to the Department. In addition the notices stated that any interested person might submit a written request that a public hearing be held (where appropriate). The applicants have represented that they have complied with the requirements of the notification to interested persons. No public comments and no requests for

a hearing, unless otherwise stated, were received by the Department.

The notices of proposed exemption were issued and the exemptions are being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

Statutory Findings

In accordance with section 408(a) of the Act and/or section 4975(c)(2) of the Code and the procedures set forth in 29 CFR part 2570, subpart B (55 FR 32836, 32847, August 10, 1990) and based upon the entire record, the Department makes the following findings:

(a) The exemptions are administratively feasible;

(b) They are in the interests of the plans and their participants and beneficiaries; and

(c) They are protective of the rights of the participants and beneficiaries of the plans.

Fidelity Management Trust Company Located in Boston, Massachusetts

[Prohibited Transaction Exemption 94–43; Exemption Application No. D–9282]

Exemption

The restrictions of sections 406(a)(1)(A) and 406(b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) of the Code, shall not apply to the cross-trading of securities by Fidelity Management Trust Company (Fidelity) on behalf of employee benefit plan accounts for which Fidelity acts as fiduciary.

Part I—General Conditions

(A) Each Plan participating in Fidelity's cross-trading program has assets of at least $25 million;

(B) A Plan's participation in the cross-trade program is subject to a written authorization executed in advance by a fiduciary with respect to each such Plan;

(C) The authorization referred to in section (B) of this Part I is terminable at will without penalty to such Plan, upon receipt by Fidelity of written notice of such termination;

(D) Before an authorization is made, the authorizing Plan fiduciary must be furnished with any reasonably available information necessary for the authorizing fiduciary to determine whether the authorization should be made, including (but not limited to) a copy of this exemption, an explanation of how the authorization may be terminated, a detailed disclosure of the procedures implemented in Fidelity's cross-trade practices, and any other reasonably available information regarding the matter that the authorizing fiduciary requests;

(E) Each cross-trade transaction involves only securities for which there is a generally recognized market;

(F) Each cross-trade transaction is effected at the current market value for the security on the date of the transactions, which shall be, for equity securities, the closing price for the security on the date of the transaction, and for debt securities, as determined in accordance with paragraph (b) of Rule 17a–7 issued by the Securities and Exchange Commission (SEC) under the Investment Company Act of 1940;

(G) Fidelity will not charge any Plan affected by a cross-trade transaction any fee or commission for such transaction;

(H) At least every three months, and not later than 45 days following the period to which it relates, Fidelity will furnish the authorizing Plan fiduciary with a report disclosing (1) a list of all cross-trade transactions engaged in on behalf of the Plan, and (2) with respect to each cross-trade transaction, the highest and lowest prices at which the securities involved in the transaction were traded on the date of such transaction;

(I) The authorizing Plan fiduciary will be furnished with a summary of certain additional information at least once per year. The summary must be furnished within 45 days after the end of the period to which it relates, and must contain the following: (1) A description of the total amount of Plan assets involved in cross-trade transactions during the period, (2) a description of Fidelity's cross-trade practices, (3) A statement that the Plan fiduciary's authorization of cross-trade transactions may be terminated upon receipt by Fidelity of the fiduciary's written notice to that effect, and (4) a statement that the Plan fiduciary's authorization of the cross-trade transaction will continue in effect unless it is terminated; and

(J) The Accounts involved in cross-trade transactions will not include assets of any Plan established or maintained by Fidelity or its affiliates.

Part II—Specific Conditions

(A) Index Accounts

(1) The index of the Account is based on an index which represents the investment performance of a specific segment of the public market for equity or debt securities in the United States and/or foreign countries. The organization creating and maintaining the index must be (a) engaged in the business of providing financial information, evaluations, advice or securities brokerage services to institutional clients, (b) a publisher of financial news or information, or (c) a public stock exchange or association of securities dealers. The index must be created and maintained by an organization independent of Fidelity and its affiliates. The index must be a generally accepted standardized index of securities which is not specifically tailored for the use of Fidelity or its affiliates.

(2) The transaction takes place within three business days of the "triggering event" giving rise to the cross-trade transaction. A triggering event is defined as:

(a) A change in the composition or weighting of the index underlying an Index Account; or

(b) A change in the overall level of investment in an Index Account as a result of investments and withdrawals made on the Index Account's opening date (the regularly-scheduled date on which investments in or withdrawals from an Index Account may be made).

(3) Fidelity maintains or causes to be maintained for a period of six years from the date of the transaction the records necessary to enable the persons described in section (4) of this Part II (A) to determine whether the conditions of this exemption have been met, except that a prohibited transaction will not be considered to have occurred if, due to circumstances beyond the control of Fidelity or its affiliates, the records are lost or destroyed prior to the end of the six-year period.

(4) (a) Except as provided in subsection (b) of this section (4) and notwithstanding any provisions of subsections (a)(2) and (b) of section 504 of the Act, the records referred to in section (3) of this Part II are unconditionally available at their customary location for examination during normal business hours by—

(1) Any duly authorized employee or representative of the Department or the Internal Revenue Service,

(2) Any fiduciary of a Plan participating in an Index Account who has authority to acquire or dispose of the interests of the Plan or any duly authorized employee or representative of such fiduciary,

(3) Any contributing employer to any Plan participating in an Index Account or any duly authorized employee or representative of such employer, and

(4) Any participant or beneficiary of any Plan participating in an Index Account, or any duly authorized employee or

representative of such participant or beneficiary.

(b) None of the persons described in paragraphs (2) through (4) of subsection (a) of this section (4) shall be authorized to examine trade secrets of Fidelity, any of its affiliates, or commercial or financial information which is privileged or confidential.

(B) Managed Accounts

(1) An independent fiduciary of each Plan must specifically authorize each cross-trade transaction in accordance with the following procedure:

(a) No more than three business days prior to the execution of any cross-trade transaction, Fidelity must inform an independent fiduciary of each Plan involved in the cross-trade transaction that Fidelity proposes to buy or sell specified securities in a cross-trade transaction if an appropriate opportunity is available, the current trading price for such securities, and the total number of shares to be acquired or sold by each such Plan.

(b) Prior to each cross-trade transaction, the transaction must be authorized either orally or in writing by the independent fiduciary of each Plan involved in the cross-trade transaction;

(c) If a cross-trade transaction is authorized orally by an independent fiduciary, Fidelity will provide written confirmation of such authorization in a manner reasonably calculated to be received by such independent fiduciary within one business day from the date of such authorization;

(d) The authorization referred to in this Part II(B) will be effective for a period of three business days; and

(e) No more than ten days after the completion of a cross-trade transaction, the independent fiduciary authorizing the cross-trade transaction must be provided a written confirmation of the transaction and the price at which the transaction was executed;

(2) A cross-trade transaction will be effected only where the transaction involves less than five percent of the aggregate average daily trading volume for the securities involved in the transaction for the week immediately preceding the authorization of the transaction. A cross-trade transaction may exceed this limit only by express authorization of independent fiduciaries on behalf of Plans affected by the transaction; and

(3) The cross-trade transaction is effected at a price which is within ten percent of the closing price of the security on the day before the date on which Fidelity receives authorization by the independent Plan fiduciary to engage in the cross-trade transaction.

Part III—Definitions

(A) "Account" means an account holding assets of one or more employee benefit plans which are subject to the Act (the Plans), for which Fidelity or an affiliate of Fidelity acts as a fiduciary;

(B) "Affiliate" means any person, directly or indirectly through one or more intermediaries, controlling, controlled by, or under common control with Fidelity;

(C) "Cross-trade transaction" means a purchase and sale of securities between ERISA Accounts or between an ERISA Account and a non-ERISA account for which Fidelity or an affiliate of Fidelity acts as a trustee or investment manager;

(D) "Index Account" means an Account for which Fidelity and the Plan sponsor or other named fiduciary have agreed that the investment of the assets in question will be designed to replicate the capitalization-weighted composition of a stock or bond index; and

(E) "Managed Account" means an Account for which Fidelity and the Plan sponsor or other named fiduciary have agreed that the investment of the assets in question will be managed actively at the discretion of Fidelity, pursuant to written guidelines as to which types of securities to buy or sell for the Account.

Written Comments: The Department received one written comment and no requests for a hearing. The comment was submitted by the applicant, Fidelity Management Trust Company. The applicant addresses two matters which are summarized as follows:

(1) The applicant notes a typographical error in Part III of the proposed exemption: Within the definition of "Cross-trade transaction", the word "account" should not be capitalized. The applicant represents that, as described elsewhere in the Notice of Proposed Exemption, cross-trade transactions covered by the proposed exemption may occur between an account holding assets of one or more employee benefit plans which are subject to the Act ("Account") and a non-ERISA account managed by the applicant or an affiliate ("account").

(2) The applicant wishes to supplement the summary of facts and representations of the notice of proposed exemption (the Summary), by clarifying and revising its explanation of the manner in which opportunities for cross-trading transactions are allocated among accounts under its management, which is found in section 10 of the Summary. The applicant represents that subsequent to the publication of the Summary, it determined that its cross-trading program will be effected pursuant to a non-discretionary pro-rata allocation system. For example, in the event that the number of shares of a particular security which an Account proposes to sell on a given day is less than the number of shares of such security which other Fidelity-advised accounts propose to buy on that date, the direct cross-trade opportunity will be allocated among potential buyers on a pro-rata basis. A similar procedure would apply where the number of shares of a particular security to be sold by Fidelity-advised accounts is less than the number of such shares which an Account and one or more other Fidelity-advised accounts proposes to buy on that date. Thus, the Accounts participating in Fidelity's cross-trade program will have opportunities to participate on a proportional basis in all cross-trade transactions during the operation of the cross-trade program. The applicant represents that this aspect of Fidelity's cross-trading program is among the information which will be disclosed in writing to the fiduciaries of the pension plans which invest in the Accounts.

After careful consideration of the entire record, the Department has determined to grant the exemption, as supplemented by the applicant's comment.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption, refer to the notice of proposed exemption published on December 10, 1993 at 58 FR 64978.

Lone Star Industries, Inc. Master Retirement Trust (the Master Trust) Located in Chicago, Illinois

[Prohibited Transaction Exemption No. 94–44; Application No. D–9295]

Exemption

Section I—Transactions

Effective September 10, 1990, the restrictions of sections 406(a), 406(b)(1), 406(b)(2), and 407(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to:

(a) The lease (the Lease) by the Master Trust of a certain parcel of real property (the Property) located in Rancho Cordova, California, to RMC Lonestar (RMC), a party in interest with respect to plans participating in the Master Trust (the Plans);

(b) The obligations and guarantees to the Master Trust by Lone Star

Industries, Inc. (LSI), a party in interest with respect to the Plans, arising under the terms of the Lease on the Property, subsequent to the assignment by LSI of its leasehold interest in the Property to RMC; and

(c) The payment in the amount of $6,000,000 by LSI to the Master Trust in exchange for a release of LSI's obligation to perform under the terms of a certain yield guarantee agreement signed December 18, 1992, by LSI and the Master Trust; provided that the conditions set forth in section II below are met.[1]

Section II—Conditions

This exemption is conditioned upon the adherence to the material facts and representations described herein and in the application for exemption and upon the satisfaction of the following requirements:

(a) The Bankruptcy Court for the Southern District of New York (the Bankruptcy Court) enters and order confirming the modified amended consolidated plan of reorganization filed by LSI and its affiliates, pursuant to Chapter 11 of the Bankruptcy Code;

(b) The obligations and guarantees of LSI to the Master Trust under the Lease are assumed by LSI and continue after the plan of reorganization is confirmed by the Bankruptcy Court;

(c) LSI pays the $6,000,000 in a single lump-sum payment in cash to the Master Trust, not later than sixty (60) days following the later of (1) the date of the order of the Bankruptcy Court approving the payment, or (2) the date the grant of this exemption is published in the **Federal Register**;

(d) Morrison, Karsten, Ramzy & Arthur, Inc. (MKRA), acting as independent qualified fiduciary on behalf of the Master Trust (the I/F), has negotiated, reviewed, and approved the transactions, and has determined that the transactions were feasible, in the interest of, and protective of the participants and beneficiaries of the Plans invested in the Master Trust, as of the effective date of this exemption;

(e) MKRA at the time of its appointment was unrelated to LSI, RMC, and any other parties involved in the Lease and will at all times remain independent of such parties;

(f) The provisions of the amendment to the Lease, executed in December 1992 (the First Amendment) become effective on the date that the grant of this exemption is published in the **Federal Register**;

(g) The terms of the Lease, as modified by the First Amendment, are at least as favorable to the Master Trust, the Plans, and their participants and beneficiaries, as those which could have been obtained by the Master Trust in an arm's length negotiation with an unrelated third party under similar circumstances;

(h) From September 10, 1990, to June 1, 1993, the Northern Trust Company (the Trustee), an independent party with respect to LSI, RMC, and their affiliates, managed the Property on behalf of the Master Trust and monitored and enforced the terms of the Lease;

(i) From June 1, 1993, MKRA managed the Property on behalf of the Master Trust and monitored and enforced the terms of the Lease, and MKRA or its successors, will act as I/F with respect to the Property and will monitor and enforce the provisions of the Lease as long as such Property is leased to a party in interest;

(j) MKRA or its successors will monitor the fair market value of the Master Trust in order to insure that the fair market value of the Property will at no time exceed twenty percent (20%) of the total fair market value of the assets of the Master Trust;

(k) LSI has either paid directly or reimbursed the Master Trust for any fees, other than trustee and investment management fees, incurred in connection with the transactions with respect to the ownership of the Property by the Master Trust, and in the future, the Master Trust will incur no fees in connection with the transactions, other than fees paid to the trustee and to the investment manager; and

(l) LSI has filed Forms 5330 and paid the excise taxes with respect to the Lease of the Property for years 1987–1989 and, LSI, not later than sixty (60) days after the date the grant of this exemption is published in the **Federal Register**, will file Forms 5330 and will pay the excise taxes for the period after December 31, 1989, and before the effective date of this exemption.

EFFECTIVE DATE: This exemption will be effective as of September 10, 1990.

Written Comments

In the Notice of Proposed Exemption (the Notice), the Department invited all interested persons to submit written comments and any requests for a hearing on the proposed exemption within forty-five (45) days from the date of the publication of the Notice in the **Federal Register**. All written comments and requests for a hearing were to have been received by the Department by April 22, 1994.

As of the close of the comment period, the Department had received eight (8) letters from interested persons commenting on the proposed exemption in addition to comment letters from the applicant. In this regard, the Department forwarded copies of the commentators' letters to the applicant and requested that the applicant address in writing the concerns raised.

In a letter dated May 4 1994, the applicant responded to the commentators, as requested by the Department. In this regard, the applicant stated that in general the concerns of the commentators did not identify any factual issues or express any direct objection to the exemption. The comments from the commentators on the proposed exemption were summarized by the applicant as follows: (1) Some of the comment letters were generally opposed to anything that would adversely affect their pension; (2) others of the comment letters expressed general concerns regarding the effect of the exemption on pension benefits; and (3) one comment letter supported the exemption.

In the opinion of the applicant the one favorable comment letter would appear to need no response. In response to the adverse comment letters, the applicant notes that the granting of the exemption in and of itself does not affect the security of pensions payable from the Plans participating in the Master Trust. In this regard, the applicant maintains: (1) That the granting of the exemption does not reduce the obligation to pay benefits of any of the Plans participating in the Master Trust; (2) that the exemption does not affect the duty of the sponsoring employer to comply with the funding requirements of applicable law; (3) that the I/F has determined that the terms of the agreement reached with LSI result in an overall transaction that is equal to or superior to transactions that could be negotiated with unrelated third parties; (4) that the terms of the agreement provide for LSI to pay $6 million to the Master Trust; (5) that based on the terms agreed to and the receipt of the $6 million dollar payment, the I/F has determined that the Master Trust is assured an internal rate of return in excess of 11% on the Property; and (6) that the terms of the agreement provide the Master Trust with significant opportunity to obtain an advantageous investment return with very little downside risk. Based on these considerations, the applicant maintains that no adverse effect on pension benefits payable by the Plans participating in the Master Trust should occur if the exemption is granted.

[1] For purposes of this exemption, references to specific provisions of Title I of the Act, unless otherwise specified, refer also to the corresponding provisions of the Code.

Two of the commentators requested that the Department schedule a hearing on the matter, in accordance section 29 CFR 2570.46 of the Department's regulations which provides that the Department in its discretion may convene a hearing if requested by any interested persons who may be adversely affected by the exemption and where such exemption proposes to grant relief from section 406(b) of the Act. In response to this request for a hearing, the applicant points out that the commentators do not object to any specific issue in connection with the grant of the exemption, but expresses only general concern for how the exemption might affect health insurance, life insurance, and monthly pension benefits.

The Department's regulations regarding the right to a hearing state that a request for hearing must include "a statement of the issues to be addressed and a general description of the evidence to be presented at the hearing. Further, the regulations state that the Department will grant a request for hearing "where a hearing is necessary to fully explore material factual issues identified by the person requesting the hearing" or may decline to hold a hearing "where the factual issues identified can be fully explored through the submission of evidence in written form." The Department has concluded that the issues identified by the commentators, who requested a hearing, have been full explored in the case record including the material submitted by the applicant in response to the comments. Accordingly, the Department has determined not to hold a public hearing.

In addition to the above comments and request for a hearing received from interested persons, the applicant informed the Department in submissions dated April 8, 1994, and April 22, 1994, of certain factual changes to the information contained in the application and technical clarifications to the language of the Notice. The following items represents a summary of the comments submitted to the Department by the applicant subsequent to the publication of the Notice:

(1) LSI informed the Department that the Bankruptcy Court had entered an order on March 31, 1994, that approved the $6 million dollar payment by LSI to the Master Trust. Subsequently, the Department was informed that on April 14, 1994, LSI emerged from bankruptcy protection and that in connection with such emergence, LSI made the $6 million payment to the Master Trust that is a condition, as set forth in Section II(c), of this exemption. In this regard, such condition provides that LSI pay "* * * the $6,000,000 in a single lump-sum payment in cash to the Master Trust, not later than sixty (60) days following the later of (1) the date of the order of the Bankruptcy Court approving the payment, or (2) the date the grant of this exemption is published in the **Federal Register**." In the opinion of LSI, since the condition of the exemption states that the payment be made no later than a specified date, that LSI's payment of the $6 million dollars before the publication of the final exemption complies with the condition for grant of the exemption. The Department agrees with the position as expressed by LSI;

(2) LSI commented on the language concerning the condition of the exemption, as set forth in Section II(g), which states that "the terms of the Lease, as modified by the First Amendment, are at least as favorable to the Master Trust, the Plans, and their participants and beneficiaries, as those which could have been obtained by the Master Trust in an arm's length negotiations with an unrelated third party under similar circumstances." With respect to the language in this sentence from Section II(g), the Department wishes to correct a typographical error in that the word, "negotiations," written in the plural should read "negotiation," in the singular. Accordingly, the Department has made this change in the language of Section II(g) in the granted exemption.

Further in the language quoted in the paragraph above from Section II(g), LSI points out that the I/F's opinion regarding the transaction, including the Lease of the Property, is that the overall transaction, taking into account all of its provisions including the $6 million dollar payment, is equal to or superior to transactions that could be negotiated with unrelated third parties. To the extent the inclusion of the language in Section II(g) referring to "under similar circumstances" is intended to include the other term of the overall transaction, LSI states that the condition is accurate as it relates to opinions provided by the I/F. The Department concurs with LSI's position;

(3) LSI requested modification of the language in Section II(k) which provides, in part that, "LSI has either paid directly or reimbursed the Master Trust for any fees, other than trustee and investment management fees, incurred with respect to the ownership of the Property by the Master Trust." In the opinion of LSI the quoted language in the sentence above implies that the Master Trust has paid no fees in connection with ownership of the Property other than trustee or investment manager fees. LSI believes that this language is over broad, because it is not limited to those fees incurred in connection with the transactions. For this reason, LSI suggests adding after the word, "incurred," the phrase, "in connection with the transactions." The Department has no objection to LSI's proposed modification, and accordingly, has amended the language of Section II(k);

(4) LSI proposes clarification of the language of Section II(l) which states that "LSI has filed Forms 5330 and paid the excise taxes with respect to the Lease of the Property for the years 1987–1989 and will file Forms 5330 and pay the excise taxes for the period after December 31, 1989, and before the effective date of this exemption." Because the effective date of this exemption is September 10, 1990, LSI believes that this provision should be revised to clarify that the excise taxes for the period after December 31, 1989, must be paid within sixty (60) days of the date the grant of this exemption is published in the **Federal Register**. For this reason, LSI suggests adding before the words, "will file," the phrase, "LSI not later than sixty (60) days after the date the grant of this exemption is published in the **Federal Register**." The Department has no objection to LSI's proposed modification, and accordingly, has amended the language of Section II(l);

(5) LSI requests modification of the language in the third sentence of paragraph number one in the Summary of Facts and Representations in the Notice which states that, "In addition, LSI is a major source of ready-mixed concrete and precast concrete products and is a leading importer of cement and clinker." In this regard, LSI has brought to the Department's attention a more current description of LSI's business. Accordingly, LSI requests that the sentence be amended to read "In addition, LSI is a leading producer of cement, ready-mixed concrete, sand and gravel, crushed stone, and construction materials." The Department has made the requested change to the description of LSI; and

(6) LSI requests modification of the representation in the fourth sentence in the fourth full paragraph of paragraph number six of the Summary of Facts and Representations which states that, "It is represented that the royalty payments actually made by RMC have exceeded the minimum guaranteed royalty amounts for the years 1989 through 1992." In this regard, LSI has informed the Department that the date 1992 should be corrected to read 1991. The Department has made this change as requested by LSI.

As the Department concurs with the requested the modifications and clarifications to the language of the proposed exemption, such changes are hereby incorporated into the exemption, as granted. Accordingly, after giving full consideration to the record, including the comments by interested persons and the responses of the applicant, the Department has determined to grant the exemption, as described herein. In this regard, the comments submitted to the Department have been included as part of the public record of the exemption application. The complete application file, including all supplemental submissions received by the Department, is made available for public inspection in the Public Documents Room of the Pension Welfare Benefits Administration, room N–5507, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the Notice published on March 8, 1994, 59 FR 10832.

General Motors Hourly-Rate Employees Pension Plan; General Motors Retirement Program for Salaried Employees; Saturn Individual Retirement Plan for Represented Team Members; and Saturn Personal Choices Retirement Plan for Non-Represented Team Members (Collectively, the Plans) Located in New York, New York

[Prohibited Transaction Exemption 94–45; Application Nos. D–8402 and D–8405]

Exemption

Section I—Transactions

The restrictions of section 406(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (D) of the Code, shall not apply to the following transactions if the conditions set forth in Section II below are met:

(a) The acquisition or sale of a net profits interest (NPI), a royalty interest (Royalty), or a production payment contract (Production Payment), in oil and gas properties (the Properties) between the Plans and oil and gas companies or their affiliates that are parties in interest with respect to the Plans (collectively, the Companies);

(b) Any loan by the Plans to the Companies where such loans are secured by interests in the Properties, including loans with conversion rights to acquire a NPI, Royalty, or Production Payment in the Properties;

(c) The acquisition or sale between the Plans and the Companies of any stock or debt securities which are convertible into such stock, issued by the Companies (Company Securities); and

(d) The acquisition or sale between the Plans and the Companies of any interests in certain limited partnerships which invest in such Properties where the Company is a general partner and/or operating owner for the Properties (Company Partnership Interest), or interests in certain joint ventures which invest in such Properties where the Company is a joint venturer and/or operating owner for the Properties (Company Venture Interest).

Section II—Conditions

(a) A "qualified oil and gas investment manager" (as defined below) fully reviews each transaction before recommending the transaction to the Pension Investment Committee of General Motors Corporation (the PIC) or, as of December 1, 1992, to the General Motors Investment Management Corporation (GMIMCo), fiduciaries of the Plans. The decision to enter into the transaction is made by the PIC or GMIMCo, which retains final approval authority over the transaction. The "qualified oil and gas investment manager" negotiates the transaction and manages the oil and gas investments for the Plans, in its capacity as a fiduciary for the Plans, and monitors all transactions on behalf of the Plans in order to take any appropriate action necessary to safeguard the interests of the Plans.

(b) The Companies and their affiliates are independent of and unrelated to:

(i) The General Motors Corporation (GMC);

(ii) Any person directly or indirectly controlling, controlled by, or under common control with GMC;

(iii) Any officer or director of GMC or any of its subsidiaries or affiliated companies;

(iv) Any partnership in which GMC is a 10 percent or more (directly or indirectly in capital or profits) partner; and

(v) Any "qualified oil and gas investment manager" which acts for the Plans with respect to an oil and gas transaction covered by the exemption, or any other person who exercises discretionary authority, responsibility or control or who provides investment advice for the investment of the Plans' assets involved in oil and gas transactions.

(c) In any transaction where the Plans acquire a NPI, Royalty, Production Payment, Company Security, Company Partnership Interest, or Company Venture Interest from the Companies, the Plans pay a purchase price which is no greater than the fair market value of such interests or securities based on an appraisal developed by the Plans' fiduciaries or an independent, qualified appraiser selected by the Plans' fiduciaries.

(d) In any transaction where the Plans sell a NPI, Royalty, Production Payment, Company Security, Company Partnership Interest, or Company Venture Interest to the Companies, the Plans receive a price which is no less than the fair market value of such interests or securities based on an appraisal developed by the Plans' fiduciaries or an independent, qualified appraiser selected by the Plans' fiduciaries.

(e) In instances involving the acquisition of the Properties by a Company from a third party with a simultaneous sale of a NPI, Royalty, or Production Payment by the Company to the Plans, the Plans pay a purchase price which reflects the fair market value of the interest as agreed to by the Plans' fiduciaries in arms-length negotiations directly involving the Plans, the Company, and the third party seller.

(f) In instances involving the sale of a NPI, Royalty, or Production Payment by the Plans to a Company in connection with the Company's simultaneous sale of a WI in the Properties to a third party, the Plans receive a sales price which reflects the fair market value of the interest as agreed to by the Plans' fiduciaries in arm's-length negotiations directly involving the Plans, the Company, and the third party buyer.

(g) In any loan by the Plans to a Company in connection with an oil and gas investment, the Plans obtain terms which include: (1) An interest rate that is commensurate with the prevailing market rate for such loans at the time of the transaction, as determined by the Plans' fiduciaries in accordance with rates quoted by established commercial lenders offering similar loans; and (ii) a security interest in designated oil and gas investment interests in the Properties, which have a fair market value that equals at least 150% of the amount loaned by the Plans throughout the duration of such loan, based on an appraisal of such interests developed by the Plans' fiduciaries or by an

independent, qualified appraiser selected by the Plans' fiduciaries.

(h) All other terms of each such transaction are not less favorable to the Plans than the terms generally available in an arm's-length transaction between unrelated parties.

(i) The amount of each Plan's total assets involved in all transactions with the Companies represents no more than three percent (3%) of such Plan's total assets as of the date of approval of each transaction by the PIC or GMIMCo.

(j) No investment management fee, advisory fee, underwriting fee, brokerage or sales commission, or similar compensation is paid to the Companies by the Plans with regard to the transactions.

(k) GMC maintains for the duration of each transaction and for six years thereafter records necessary to enable persons described below in subsection (1) to determine whether the conditions of this exemption have been met, except that (1) a prohibited transaction will not be considered to have occurred if, due to circumstances beyond the control of GMC or an affiliate, the records are lost or destroyed prior to the end of the six-year period, and (2) no party in interest, other than GMC and its affiliates, shall be subject to the civil penalty that may be assessed under section 502(i) of the Act or to taxes imposed by section 4975(a) and (b) of the Code if the records are not maintained or are not available for examination as required by subsection (1) below; and

(l)(1) Except as provided in subsection (1)(2) and notwithstanding any provisions of section 504(a)(2) and (b) of the Act, the records referred to in subsection (k) are unconditionally available at their customary location for examination during normal business hours by—

(i) Any duly authorized employee or representative of the Department or the Internal Revenue Service, and

(ii) Any participant or beneficiary of the Plans or duly authorized representative of such participant or beneficiary.

(2) None of the persons described in subsection (l)(1)(ii) shall be authorized to examine trade secrets of the Companies or any commercial or financial information which is privileged or confidential.

Section III—Definitions

For purposes of this exemption,

(a) The term "Company" means a publicly or privately owned oil and gas exploration, development and operating company or partnership which is independent of and unrelated to GMC, its affiliates, and various Plan fiduciaries described in Section II(a) above.

(b) The term "affiliate" of a Company means any entity directly or indirectly, through one or more intermediaries, controlling, controlled by, or under common control with the Company.

(c) The term "control," for purposes of the above definition, means the power to exercise a controlling influence over the management or policies of an entity.

(d) The term "qualified oil and gas investment manager" means a fiduciary as defined in section 3(21) of the Act which: (i) Is independent of and unrelated to any of the Companies and their affiliates (as defined above); (ii) is a financial institution or business organization that in the normal course of business advises institutional investors regarding oil and gas investments; (iii) acknowledges in writing to the Plans that is will manage specific oil and gas investments on behalf of the Plans, in its capacity as a fiduciary of the Plans, as designated by the PIC or GMIMCo; and (iv) satisfies the definition of "qualified professional asset manager" (QPAM) under Section V(a) of Prohibited Transaction Exemption 84–14 (PTE 84–14, 49 FR 9494, March 13, 1984), except for the fact that either the PIC or GMIMCo retains final approval authority for all oil and gas investments recommended by such fiduciary.

(e) The term "Property" or "Properties" means any oil and gas properties such as long-term leasehold interests in oil and gas producing fields and the oil and gas in place on the properties. Such "Property" may include an interest in the oil and gas wells, platforms, wellheads, piping, as well as the gas gathering system or processing facility through which gas produced from the wells is either transported to the gas pipeline for shipment to various end users or treated before delivery to the end users.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption, refer to the notice of proposed exemption published on December 29, 1993 at 58 FR 68958.

EFFECTIVE DATE: The effective date of this exemption is May 8, 1990.

TEMPORARY NATURE OF EXEMPTION: This exemption will be effective for all transactions described herein which have been entered into by the Plans and the Companies since May 8, 1990. However, this exemption will not apply to any transactions which are entered into with the Companies after five years from the date on which this exemption is published in the **Federal Register**.

NOTICE TO INTERESTED PERSONS: The applicant represents that it was unable to notify interested persons within the time period specified in the **Federal Register** notice published on December 29, 1993. The applicant states that all interested persons were notified, in the manner agreed upon between the applicant and the Department, by January 28, 1994. Interested persons were advised that they had until February 28, 1994 to comment on the proposed exemption.

WRITTEN COMMENTS AND MODIFICATIONS: The applicant submitted a comment letter which requests that certain modifications be made to the notice of proposed exemption (the Proposal).

The applicant states that the Plans covered by the exemption should include the Saturn Individual Retirement Plan for Represented Team Members and the Saturn Personal Choices Retirement Plan for Non-Represented Team Members (the Saturn Plans), whose assets are now included in the trusts which hold the assets of the other Plans sponsored by GMC and its subsidiaries or affiliated companies. The applicant has confirmed that the participants of the Saturn Plans received notice of the proposed exemption in the same manner and during the same time period as the other participants of the Plans. Therefore, the Department has modified the Proposal to include such Plans.

With respect to the Summary of Facts and Representations in the Proposal (the Summary), the applicant wishes to add the following additional information for purposes of clarification:

First, Paragraph 1of the Summary should state that Mellon Bank, N.A. (Mellon), in addition to Bankers Trust Company, is a trustee of the Plans. However, Mellon does not have any discretionary authority over the investment management of the assets held in the Plans relating to the subject transactions.

Second, Paragraph 6 of the Summary should be clarified to reflect the following:

(a) The Company may receive additional compensation, in the form of operating fees, if the Company operates some or all of the Properties pursuant to agreements with the Plans which allow the Company to operate the Properties (Operating Agreements). In addition, a conveyance of a NPI (the Conveyance) may allow the Company to recoup certain general or administrative expenses incurred by the Company as WI owner of the Properties. Such operating fees or expenses are disclosed in detail in the Operating Agreement and the Conveyance, respectively, and are not subject to arbitrary changes by the Company. The applicant states that increases in any operating fees generally involve expenses related to the operation of a Property and are not related to any element of operation within the Company's control, such as the ability to increase the level of production on a Property. The nature and extent of any operating fees under an Operating Agreement, and any general or administrative expenses under a Conveyance, will be reviewed, approved and monitored by the 'qualified oil and gas investment manager" acting for the Plans.[2]

(b) The Company's annual report provided to the Plans containing detailed information on the Company's activities with respect to the Properties during the preceding year is not "audited" by the "qualified oil and gas investment manager" each year, but is "audited" at intervals recommended by the investment manager and authorized by GMIMCo. However, the "qualified oil and gas investment manager" will review the information throughout the year for problems or mistakes which will be corrected by the Company.

Paragraph 10 of the Summary should be clarified to reflect the fact that, as previously noted, the Company may receive additional compensation for operating the Properties in the form of operating fees pursuant to an Operating Agreement and may recoup certain general or administrative expenses as permitted by the Conveyance.

Paragraph 12 of the Summary should be clarified to reflect the fact that GMIMCo has appointed other "qualified oil and gas investment managers" for the Plans, in addition to RPI Institutional Services, Inc., and such managers have met all the requirements of Section III(d) of the Proposal.

Paragraph 14 of the Summary should be clarified to reflect the correct NPI sharing percentages of the May 8, 1990 NPI transaction with Callon Offshore Production Inc. (Callon). The applicant states that although the Plans did in fact pay 98% of the $28 million purchase price, the Plans received a 98% NPI in the Properties which will continue until the Plans recoup their entire share of the purchase price. After the Plans receive their entire investment in the NPI acquisition, there will be a reversion to an 88% NPI for the Plans at that point in time. The applicant believes that this clarification is important because the Plans will receive all of their investment in the Properties before Callon is able to collect from its additional NPI percentage.

The Department also received eleven comment letters from participants in the Plans regarding the Proposal. Two of the commenters were opposed to the granting of the exemption. One of these commenters was concerned that the oil and gas transactions are risky investments for the Plans and that any appraisal of such assets by the Plans may be overvalued. The other commenter stated that he was opposed to the exemption because GMC may either knowingly or unknowingly exercise a controlling influence over various oil and gas suppliers when it buys oil and gas to meet its own energy needs and that such influence may be to the detriment of the Plans' oil and gas investments. This commenter also stated that GMC's oil and gas purchasing power could be used to affect certain local markets. Many of the Commenters stated that they supported the granting of the exemption, but only if GMC offers an "early retirement package" to all salaried employees, regardless of job classification, that meet certain age and service criteria. Some of these commenters noted that notices regarding the Proposal were posted late and that interested persons were not given enough time to reply.

By letter dated March 18, 1994, the applicant responded to these comments.

First, with respect to the comment that oil and gas transactions are risky investments for the Plans and that appraisals of such assets may be overvalued; the applicant states that the subject transactions under the terms and conditions described in the Proposal are in the best interests of the Plans and their participants and beneficiaries. The applicant represents that oil and gas investments can be reasonable and appropriate for a large pension plan, such as the Plans, and that the subject transactions have been and will continue to be carefully monitored by GMIMCo. The oil and gas transactions by the Plans under the requested exemption will represent only a small percentage of each Plan's total assets (see Section II(i) above) and the existing investments have yielded the Plans a high rate of return (see Paragraph 11 of the Summary). The applicant states that any activity by GMIMCo or the "qualified oil and gas investment manager" acting for the Plans that is outside the scope of activity described to the Department in the Proposal, including any methods for overvaluing the fair market value of proposed or existing oil and gas assets of the Plans, would be a breach of fiduciary duty in violation of the Act. In addition, such activity would be outside the scope of the conditions of the Proposal and would not be subject to the prohibited transaction relief which would be afforded by the exemption.

Second, regarding the comment that GMC may exercise a controlling influence over various oil and gas suppliers when GMC buys oil and gas to meet its own energy needs and that such influence may be to the detriment of the Plans' oil and gas investments, the applicant states that the comment is without merit and is inconsistent with the facts and representations contained in the Proposal. The applicant maintains that GMC has a de minimus involvement with any oil and gas suppliers when acquiring oil and gas to run its own operations. With respect to GMC's relationship to any such suppliers in the subject oil and gas transactions by the Plans, the applicant states that the definition of "Company" in Section III(a) of the Proposal excludes any operating company or partnership which is related to GMC or its affiliates. In addition, the oil and gas investments covered by the Proposal involve the Plans' in a passive investment role, with very limited control over the actual sale or distribution of oil and gas obtained from the Properties.

Third, with respect to whether notification of interested persons was adequate and timely, the applicant states that all notices, together with copies of the Proposal as published in the **Federal Register** on December 29, 1993, were posted and distributed by GMC in all primary business locations on or prior to January 28, 1994. In addition, each of the appropriate unions received copies of the notices and the Proposal. These notices, a copy of which has been submitted to the Department by the applicant, informed interested persons of their right to comment on the Proposal in writing to the Department on or before February 28, 1994. An authorized representative of GMC has provided the Department with a declaration under penalty of perjury attesting to the truth of the information regarding GMC's notice to interested persons as required by the Department's regulations (see 29 CFR 2570.43). Thus, the applicant represents that GMC has complied with the Department's exemption procedures regarding notification of interested

[2] The applicant states that any fees or expenses received by a Company for operation of a Property in connection with a NPI owned by the Plans will meet section 408(b)(2) of the Act. However, the Department is providing no opinion as to whether payment of any fees or expenses to a Company under the circumstances described herein would meet section 408(b)(2) of the Act and the regulations thereunder (see 29 CFR 2550.408b–2).

persons in the manner agreed to between the applicant and the Department.

Fourth, with respect to comments which linked the Proposal to GMC providing an early retirement benefits package to its employees, the applicant states that matters concerning the eligibility of Plan participants to certain benefits are totally unrelated to the Proposal. Since the Proposal only involves investing assets of the Plans in specific oil and gas investments and has nothing to do with any early retirement benefits for GMC employees, the applicant requests that the Department not link the granting of an exemption to any requirement that GMC provide early retirement benefits for its employees.

The Department agrees with the applicant that the merits of granting an exemption for the subject oil and gas investments by the Plans should be judged independent of any decisions by GMC regarding the eligibility of participants to certain benefits under the terms of the Plans. In addition, the Department believes that the applicant has adequately addressed all of the issues raised by the commenters and that the subject oil and gas transactions, under the terms and conditions described herein, are in the interests and protective of the Plans and their participants and beneficiaries.

Accordingly, after consideration of the entire record, the Department has determined to grant the exemption as modified.

Alberici Companies Retirement Plan (the Plan) Located in St. Louis, Missouri

[Prohibited Transaction Exemption 94–46; Application No. D–9633]

Exemption

The restrictions of sections 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the cash sale (the Sale) by the Plan of Group Annuity Policy No. GA–3363 (the GAP) issued by the New England Life Insurance Company (New England Life) to Alberici Corporation, the Plan sponsor and a party in interest with respect to the Plan; provided that the following conditions are satisfied: (1) The Sale is a one-time transaction for cash; (2) the Plan receives no less than the fair market value of the GAP at the time of the Sale or, the cost of the GAP to the Plan, whichever is greater; (3) the Plan does not suffer any loss nor incur any expenses in connection with the transaction; and (4) the Trustees of the Plan have determined that the proposed transaction is appropriate for and in the best interests of the Plan and its participants and beneficiaries.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption, refer to the notice of proposed exemption published on April 22, 1994 at 59 FR 19254.

FOR FURTHER INFORMATION CONTACT: Ms. Virginia J. Miller of the Department, telephone (202) 219–8971. (This is not a toll-free number.)

Laney & Duke Terminal Warehouse Co., Inc. Profit Sharing Plan and Trust (the Plan) Located in Jacksonville, Florida

[Prohibited Transaction Exemption 94–48; Exemption Application No. D–9552]

Exemption

The restrictions of sections 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the sale of two adjacent commercial buildings (collectively; the Buildings) by the Plan to Laney & Duke Terminal Warehouse Co. Inc. (the Employer), the Plan sponsor and a party in interest with respect to the Plan; provided that the following conditions are satisfied:

(1) The Plan will receive the greater of: (1) $1,958,000, representing the Plan's total investment in the Buildings; or (2) the aggregate fair market value of the Buildings as determined at the time of the sale by an independent, qualified appraiser;

(2) The sale will be a one-time transaction; and

(3) The Plan will pay no costs or commissions as a result of this transaction.

For a more complete statement of facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on April 22, 1994 at 59 FR 19252/19253.

Atlanta Consulting Group, Inc. Retirement Plan (the Plan) Located in Atlanta, Georgia

[Prohibited Transaction Exemption 94–49 Exemption Application No. D–9638]

Exemption

The restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the cash sale (the Sale) of certain shares of stock (the Stock) from the Plan to Atlanta Consulting Group, Inc., a party in interest with respect to the Plan.

This exemption is conditioned upon the following requirements: (1) All terms and conditions of the Sale are at least as favorable to the Plan as those obtainable in an arm's-length transaction; (2) the Sale is a one-time cash transaction; (3) the Plan is not required to pay any commissions, costs or other expenses in connection with the Sale; and (4) the Plan receives a sales price equal to the greater of: (a) The fair market value of the Stock on the date of the Sale; or (b) the Stock's original acquisition price of $25,000.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the Notice published on April 22, 1994 at 59 FR 19260.

FOR FURTHER INFORMATION CONTACT: Kathryn Parr of the Department, telephone (202) 219–8971. (This is not a toll-free number.)

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) These exemptions are supplemental to and not in derogation of, any other provisions of the Act and/

or the Code, including statutory or administrative exemptions and transactional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(3) The availability of these exemptions is subject to the express condition that the material facts and representations contained in each application are true and complete and accurately described all material terms of the transaction which is the subject of the exemption. In the case of continuing exemption transactions, if any of the material facts or representations described in the application change after the exemption is granted, the exemption will cease to apply as of the date of such change. In the event of any such change, application for a new exemption may be made to the Department.

Signed at Washington, DC, this 7th day of June 1994.

Ivan Strasfeld,

Director of Exemption Determinations, Pension and Welfare Benefits Administration, U.S. Department of Labor.

[FR Doc. 94–14169 Filed 6–9–94; 8:45 am]

BILLING CODE 4510–29–M

[Application No. D–9681, et al.]

Proposed Exemptions; NatWest Securities Corporation, Inc.

AGENCY: Pension and Welfare Benefits Administration, Labor.

ACTION: Notice of Proposed Exemptions.

SUMMARY: This document contains notices of pendency before the Department of Labor (the Department) of proposed exemptions from certain of the prohibited transaction restriction of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1986 (the Code).

Written Comments and Hearing Requests

Unless otherwise stated in the Notice of Proposed Exemption, all interested persons are invited to submit written comments, and with respect to exemptions involving the fiduciary prohibitions of section 406(b) of the Act, requests for hearing within 45 days from the date of publication of this **Federal Register** notice. Comments and request for a hearing should state: (1) The name, address, and telephone number of the person making the comment or request, and (2) the nature of the person's interest in the exemption and the manner in which the person would be adversely affected by the exemption. A request for a hearing must also state the issues to be addressed and include a general description of the evidence to be presented at the hearing. A request for a hearing must also state the issues to be addressed and include a general description of the evidence to be presented at the hearing.

ADDRESSES: All written comments and request for a hearing (at least three copies) should be sent to the Pension and Welfare Benefits Administration, Office of Exemption Determinations, room N–5649, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210. Attention: Application No. stated in each Notice of Proposed Exemption. The applications for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefits Administration, U.S. Department of Labor, room N–5507, 200 Constitution Avenue, NW., Washington, DC 20210.

Notice to Interested Persons

Notice of the proposed exemptions will be provided to all interested persons in the manner agreed upon by the applicant and the Department within 15 days of the date of publication in the **Federal Register**. Such notice shall include a copy of the notice of proposed exemption as published in the **Federal Register** and shall inform interested persons of their right to comment and to request a hearing (where appropriate).

SUPPLEMENTARY INFORMATION: The proposed exemptions were requested in applications filed pursuant to section 408(a) of the Act and/or section 4975(c)(2) of the Code, and in accordance with procedures set forth in 29 CFR part 2570, subpart B (55 FR 32836, 32847, August 10, 1990). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, these notices of proposed exemption are issued solely by the Department.

The applications contain representations with regard to the proposed exemptions which are summarized below. Interested persons are referred to the applications on file with the Department for a complete statement of the facts and representations.

NatWest Securities Corporation, Inc. (NatWest) Located in New York, New York

[Application No. D–9681]

Proposed Exemption

I. Transactions

A. Effective December 22, 1993, the restrictions of sections 406(a) and 407(a) of the Act and the taxes imposed by section 4975(a) and (b) of the Code by reason of section 4975(c)(1)(A) through (D) of the Code shall not apply to the following transactions involving trusts and certificates evidencing interests therein:

(1) The direct or indirect sale, exchange or transfer of certificates in the initial issuance of certificates between the sponsor or underwriter and an employee benefit plan when the sponsor, servicer, trustee or insurer of a trust, the underwriter of the certificates representing an interest in the trust, or an obligor is a party in interest with respect to such plan;

(2) The direct or indirect acquisition or disposition of certificates by a plan in the secondary market for such certificates; and

(3) The continued holding of certificates acquired by a plan pursuant to subsection I.A.(1) or (2).

Notwithstanding the foregoing, section I.A. does not provide an exemption from the restrictions of sections 406(a)(1)(E), 406(a)(2) and 407 for the acquisition or holding of a certificate on behalf of an Excluded Plan by any person who has discretionary authority or renders investment advice with respect to the assets of that Excluded Plan.[1]

B. Effective December 22, 1993, the restrictions of sections 406(b)(1) and 406(b)(2) of the Act and the taxes imposed by section 4975(a) and (b) of the Code by reason of section 4975(c)(1)(E) of the Code shall not apply to:

(1) The direct or indirect sale, exchange or transfer of certificates in the initial issuance of certificates between the sponsor or underwriter and a plan when the person who has discretionary authority or renders investment advice with respect to the investment of plan assets in the certificates is (a) an obligor with respect to 5 percent or less of the fair market value of obligations or receivables contained in the trust, or (b) an affiliate of a person described in (a); if:

---

[1] Section I.A. provides no relief from sections 406(a)(1)(E), 406(a)(2) and 407 for any person rendering investment advice to an Excluded Plan within the meaning of section 3(21)(A)(ii) and regulation 29 CFR 2510.3–21(c).

(i) The plan is not an Excluded Plan;

(ii) solely in the case of an acquisition of certificates in connection with the initial issuance of the certificates, at least 50 percent of each class of certificates in which plans have invested is acquired by persons independent of the members of the Restricted Group and at least 50 percent of the aggregate interest in the trust is acquired by persons independent of the Restricted Group;

(iii) A plan's investment in each class of certificates does not exceed 25 percent of all of the certificates of that class outstanding at the time of the acquisition; and

(iv) Immediately after the acquisition of the certificates, no more than 25 percent of the assets of a plan with respect to which the person has discretionary authority or renders investment advice are invested in certificates representing an interest in a trust containing assets sold or serviced by the same entity.[2] For purposes of this paragraph B.(1)(iv) only, an entity will not be considered to service assets contained in a trust if it is merely a subservicer of that trust;

(2) The direct or indirect acquisition or disposition of certificates by a plan in the secondary market for such certificates, provided that the conditions set forth in paragraphs B.(1)(i), (iii) and (iv) are met; and

(3) The continued holding of certificates acquired by a plan pursuant to subsection I.B.(1) or (2).

C. Effective December 22, 1993, the restrictions of sections 406(a), 406(b) and 407(a) of the Act, and the taxes imposed by section 4975 (a) and (b) of the Code by reason of section 4975(c) of the Code, shall not apply to transactions in connection with the servicing, management and operation of a trust; provided:

(1) Such transactions are carried out in accordance with the terms of a binding pooling and servicing arrangement; and

(2) The pooling and servicing agreement is provided to, or described in all material respects in the prospectus or private placement memorandum provided to, investing plans before they purchase certificates issued by the trust.[3]

Notwithstanding the foregoing, section I.C. does not provide an exemption from the restrictions of section 406(b) of the Act or from the taxes imposed by reason of section 4975(c) of the Code for the receipt of a fee by a servicer of the trust from a person other than the trustee or sponsor, unless such fee constitutes a "qualified administrative fee" as defined in section III.S.

D. Effective December 22, 1993, the restrictions of sections 406(a) and 407(a) of the Act, and the taxes imposed by sections 4975 (a) and (b) of the Code by reason of sections 4975(c)(1) (A) through (D) of the Code, shall not apply to any transactions to which those restrictions or taxes would otherwise apply merely because a person is deemed to be a party in interest or disqualified person (including a fiduciary) with respect to a plan by virtue of providing services to the plan (or by virtue of having a relationship to such service provider described in section 3(14) (F), (G), (H) or (I) of the Act or section 4975(e)(2) (F), (G), (H) or (I) of the Code), solely because of the plan's ownership of certificates.

II. General Conditions

A. The relief provided under part I is available only if the following conditions are met:

(1) The acquisition of certificates by a plan is on terms (including the certificate price) that are at least as favorable to the plan as they would be in an arm's length transaction with an unrelated party;

(2) The rights and interests evidenced by the certificates are not subordinated to the rights and interests evidenced by other certificates of the same trust;

(3) The certificates acquired by the plan have received a rating at the time of such acquisition that is in one of the three highest generic rating categories from either Standard & Poor's Corporation (S&P's), Moody's Investors Service, Inc. (Moody's), Duff & Phelps Inc. (D&P) or Fitch Investors Service, Inc. (Fitch);

(4) The trustee is not an affiliate of any member of the Restricted Group. However, the trustee shall not be considered to be an affiliate of a servicer solely because the trustee has succeeded to the rights and responsibilities of the servicer pursuant to the terms of a pooling and servicing agreement providing for such succession upon the occurrence of one or more events of default by the servicer;

(5) The sum of all payments made to and retained by the underwriters in connection with the distribution or placement of certificates represents not more than reasonable compensation for underwriting or placing the certificates; the sum of all payments made to and retained by the sponsor pursuant to the assignment of obligations (or interests therein) to the trust represents not more than the fair market value of such obligations (or interests); and the sum of all payments made to and retained by the servicer represents not more than reasonable compensation for the servicer's services under the pooling and servicing agreement and reimbursement of the servicer's reasonable expenses in connection therewith; and

(6) The plan investing in such certificates is an "accredited investor" as defined in Rule 501(a)(1) of Regulation D of the Securities and Exchange Commission under the Securities Act of 1933.

B. Neither any underwriter, placement agent, sponsor, trustee, servicer, insurer, or any obligor, unless it or any of its affiliates has discretionary authority or renders investment advice with respect to the plan assets used by a plan to acquire certificates, shall be denied the relief provided under Part I, if the provision of subsection II.A.(6) above is not satisfied with respect to acquisition or holding by a plan of such certificates, provided that (1) such condition is disclosed in the prospectus or private placement memorandum; and (2) in the case of a private placement of certificates, the trustee obtains a representation from each initial purchaser which is a plan that it is in compliance with such condition, and obtains a covenant from each initial purchaser to the effect that, so long as such initial purchaser (or any transferee of such initial purchaser's certificates) is required to obtain from its transferee a representation regarding compliance with the Securities Act of 1933, any such transferees will be required to make a written representation regarding compliance with the condition set forth in subsection II.A.(6) above.

III. Definitions

For purposes of this exemption:

A. *Certificate* means:

(1) A certificate

(a) That represents a beneficial ownership interest in the assets of a trust; and

(b) That entitles the holder to pass-through payments of principal, interest, and/or other payments made with respect to the assets of such trust; or

(2) A certificate denominated as a debt instrument—

(a) That represents an interest in a Real Estate Mortgage Investment Conduit (REMIC) within the meaning of section 860D(a) of the Internal Revenue Code of 1986; and

(b) That is issued by and is an obligation of a trust; with respect to certificates defined in (1) and (2) for which NatWest or any of its affiliates which is subject to the jurisdiction of the United States courts is either (i) the sole underwriter or the manager or co-manager of the underwriting syndicate, or (ii) a selling or placement agent. For purposes of this exemption, references to "certificates representing an interest in a trust" include certificates denominated as debt which are issued by a trust.

B. *Trust* means an investment pool, the corpus of which is held in trust in the United States and consists solely of:

(1) Either

(a) Secured consumer receivables that bear interest or are purchased at a discount (including, but not limited to, home equity loans and obligations secured by shares issued by a cooperative housing association);

(b) Secured credit instruments that bear interest or are purchased at a discount in transactions by or between business entities (including, but not limited to, qualified equipment notes secured by leases, as defined in section III.T);

(c) Obligations that bear interest or are purchased at a discount and which are secured by single-family residential, multi-family residential and commercial real property, (including obligations secured by leasehold interests on commercial real property);

(d) Obligations that bear interest or are purchased at a discount and which are secured by motor vehicles or equipment, or qualified motor vehicle leases (as defined in section III.U);

(e) "Guaranteed governmental mortgage pool certificates," as defined in 29 CFR 2510.3–101(i)(2);

(f) Fractional undivided interests in any of the obligations described in clauses (a)-(e) of this section B.(1);

(2) Property which had secured any of the obligations described in subsection B.(1);

(3) Undistributed cash or temporary investments made therewith maturing no later than the next date on which distributions are to be made to certificateholders; and

(4) rights of the trustee under the pooling and servicing agreement, and rights under any insurance policies, third-party guarantees, contracts of suretyship and other credit support arrangements with respect to any obligations described in subsection B.(1).

Notwithstanding the foregoing, the term "trust" does not include any investment pool unless: (1) The investment pool consists only of assets of the type which have been included in other investment pools, (ii) certificates evidencing interests in such other investment pools have been rated in one of the three highest generic rating categories by S&P's, Moody's, D&P, or Fitch for at least one year prior to the plan's acquisition of certificates pursuant to this exemption.

C. *Underwriter* means:

(1) NatWest;

(2) Any person directly or indirectly, through one or more intermediaries, controlling, controlled by or under common control with NatWest; or

(3) Any member of an underwriting syndicate or selling group of which NatWest or a person described in (2) is a manager or co-manager with respect to the certificates.

D. *Sponsor* means the entity that organizes a trust by depositing obligations therein in exchange for certificates.

E. *Master Servicer* means the entity that is a party to the pooling and servicing agreement relating to trust assets and is fully responsible for servicing, directly or through subservicers, the assets of the trust.

F. *Subservicer* means an entity which, under the supervision of and on behalf of the master servicer, services receivables contained in the trust, but is not a party to the pooling and servicing agreement.

G. *Servicer* means any entity which services receivables contained in the trust, including the master servicer and any subservicer.

H. *Trustee* means the trustee of the trust, and in the case of certificates which are denominated as debt instruments, also means the trustee of the indenture trust.

I. *Insurer* means the insurer or guarantor of, or provider of other credit support for, a trust.

Notwithstanding the foregoing, a person is not an insurer solely because it holds securities representing an interest in a trust which are of a class subordinated to certificates representing an interest in the same trust.

J. *Obligor* means any person, other than the insurer, that is obligated to make payments with respect to any obligation or receivable included in the trust. Where a trust contains qualified motor vehicle leases or qualified equipment notes secured by leases, *obligor* shall also include any owner of property subject to any lease included in the trust, or subject to any lease securing an obligation included in the trust.

K. *Excluded Plan* means any plan with respect to which any member of the Restricted Group is a "plan sponsor" within the meaning of section 3(16)(B) of the Act.

L. *Restricted Group* with respect to a class of certificates means:

(1) Each underwriter;

(2) Each insurer;

(3) The sponsor;

(4) The trustee;

(5) Each servicer;

(6) Any obligor with respect to obligations or receivables included in the trust constituting more than 5 percent of the aggregate unamortized principal balance of the assets in the trust, determined on the date of the initial issuance of certificates by the trust; or

(7) Any affiliate of a person described in (1)–(6) above.

M. *Affiliate* of another person includes:

(1) Any person directly or indirectly, through one or more intermediaries, controlling, controlled by, or under common control with such other person;

(2) Any officer, director, partner, employee, relative (as defined in section 3(15) of the Act), a brother, a sister, or a spouse of a brother or sister of such other person; and

(3) Any corporation or partnership of which such other person is an officer, director or partner.

N. *Control* means the power to exercise a controlling influence over the management or policies of a person other than an individual.

O. A person will be "independent" of another person only if:

(1) Such person is not an affiliate of that other person; and

(2) The other person, or an affiliate thereof, is not a fiduciary who has investment management authority or renders investment advice with respect to any assets of such person.

P. *Sale* includes the entrance into a forward delivery commitment (as defined in section Q below), provided:

(1) The terms of the forward delivery commitment (including any fee paid to the investing plan) are no less favorable to the plan than they would be in an arm's length transaction with an unrelated party;

(2) The prospectus or private placement memorandum is provided to an investing plan prior to the time the

[2] For purposes of this exemption, each plan participating in a commingled fund (such as a bank collective trust fund or insurance company pooled separate account) shall be considered to own the same proportionate undivided interest in each asset of the commingled fund as its proportionate interest in the total assets of the commingled fund as calculated on the most recent preceding valuation date of the fund.

[3] In the case of a private placement memorandum, such memorandum must contain substantially the same information that would be disclosed in a prospectus if the offering of the certificates were made in a registered public offering under the Securities Act of 1933. In the Department's view, the private placement memorandum must contain sufficient information to permit plan fiduciaries to make informed investment decisions.

plan enters into the forward delivery commitment; and

(3) At the time of the delivery, all conditions of this exemption applicable to sales are met.

Q. *Forward delivery commitment* means a contract for the purchase of sale of one or more certificates to be delivered at an agreed future settlement date. The term includes both mandatory contracts (which contemplate obligatory delivery and acceptance of the certificates) and optional contracts (which give one party the right but not the obligation to deliver certificates to, or demand delivery of certificates from, the other party).

R. *Reasonable compensation* has the same meaning as that term is defined in 29 CFR 2550.408c–2.

S. *Qualified Administrative Fee* means a fee which meets the following criteria:

(1) The fee is triggered by an act or failure to act by the obligor other than the normal timely payment of amounts owing in respect of the obligations;

(2) The servicer may not charge the fee absent the act or failure to act referred to in (1);

(3) The ability to charge the fee, the circumstances in which the fee may be charged, and an explanation of how the fee is calculated are set forth in the pooling and servicing agreement; and

(4) The amount paid to investors in the trust will not be reduced by the amount of any such fee waived by the servicer.

T. *Qualified Equipment Note Secured By A Lease* means an equipment note:

(a) Which is secured by equipment which is leased;

(b) Which is secured by the obligation of the lessee to pay rent under the equipment lease; and

(c) With respect to which the trust's security interest in the equipment is at least as protective of the rights of the trust as the trust would have if the equipment note were secured only by the equipment and not the lease.

U. *Qualified Motor Vehicle Lease* means a lease of a motor vehicle where:

(a) The trust holds a security interest in the lease;

(b) The trust holds a security interest in the leased motor vehicle; and

(c) The trust's security interest in the leased motor vehicle is at least as protective of the trust's rights as the trust would receive under a motor vehicle installment loan contract.

V. *Pooling and Servicing Agreement* means the agreement or agreements among a sponsor, a servicer and the trustee establishing a trust. In the case of certificates which are denominated as debt instruments, "Pooling and Servicing Agreement" also includes the indenture entered into by the trustee of the trust issuing such certificates and the indenture trustee.

EFFECTIVE DATE: This exemption, if granted, will be effective for transactions occurring on or after December 22, 1993.

Summary of Facts and Representations

1. NatWest is a corporation incorporated under the laws of the State of New York on March 28, 1986. NatWest, together with its affiliate NatWest International Securities, Inc. (NatWest International) is a broker-dealer registered as such under the Securities and Exchange Act of 1934, as amended. NatWest is an indirect wholly-owned subsidiary of National Westminster Bank Plc (NatWest Plc U.K.), an English banking institution. NatWest Plc U.K. operates in the United States through NatWest Bank Plc, N.Y. Branch (NatWest Bank Plc), which is a New York State licensed branch of NatWest Plc U.K. It derives its basic powers from the New York Banking law and is subject to the supervision of the New York Banking Department.

NatWest Capital Markets Ltd. (NatWest Capital) and NatWest Securities Ltd. (NatWest Securities) are registered and authorized as broker-dealers in the United Kingdom. NatWest Plc U.K., through its various affiliates, maintains a long-standing investment banking presence in key financial centers around the world, and is active on a global basis in dealing, making markets and distribution of a broad range of debt and equity securities of both governmental and private issuers, and has capabilities worldwide in corporate finance, financial advisory, foreign exchange transactions and asset securitization.

NatWest Plc U.K., NatWest Bank Plc, and their non-U.S. affiliates are active in structuring asset securitization transactions, both within the U.S. and overseas, which can involve facilitating or providing credit enhancement or placement agent services, in connection with the issuance and placement of asset-backed instruments in the form of medium-term notes, commercial paper or bank syndicated loans.

The U.K.-based NatWest affiliates have participated outside the U.S. in the underwriting or placement of mortgage-backed securities relating to U.K. mortgage loans.

Within the U.S., the underwriting and distribution activities of the NatWest affiliates have been limited to acting in a pure brokerage capacity for its U.S. institutional client base, and (through NatWest Bank Plc) acting as placement agent. NatWest Bank Plc is authorized under section 200 of the New York Banking to act as placement agent with respect to mortgage-backed and asset-backed securities (as well as other debt and equity securities). With respect to mortgage-backed or asset-backed securities transactions, NatWest Bank Plc acted on December 22, 1993, as the placement agent of certain privately placed mortgage-backed pass-through certificates for SWP Mortgage Securities Trust 1993–A, the assets of which consisted of multifamily apartment building mortgage loans sold by SWP Depositor, Inc. to the trust. NatWest requests that the exemption proposed herein apply to any and all transactions relating to the sale, holding and transfer of the pass-through certificates issued by that trust and the operation of that trust, including the servicing of its assets.

With respect to distributions or placements within the U.S., NatWest Capital and NatWest Securities may act as placement agent or underwriter (through the U.S.-based NatWest affiliates acting in an agency capacity or as brokers) with respect to mortgage-backed and asset-backed securities (as well as other debt and equity securities), consistent with the Federal Reserve Board's Regulation K (12 CFR section 211) and relevant U.S. securities laws and regulations. NatWest and/or NatWest International may in the future be making application to the Federal Reserve Board for authority (Section 20 Authority) and bank regulatory approval to act as placement agent and to underwrite and deal in mortgage-backed and asset-backed securities (as well as other debt and equity securities) under Section 20 of the Glass-Steagall Act (12 U.S.C. at 377). In the event that NatWest and/or NatWest International make such application to the Federal Reserve Board and receive Section 20 Authority, NatWest requests that the exemption proposed herein apply to the private placement and underwriting activities of NatWest and/or NatWest International.[4]

NatWest represents that any of its affiliates which acts as underwriter or placement agent with respect to a transaction for which the exemption proposed herein would be relied on will be subject to the jurisdiction of the United States courts (either because it is a U.S. entity, or, in the event that a foreign affiliate acts as underwriter or placement agent with respect to any such transaction, because the foreign

[4] As described herein, the term "NatWest" refers to NatWest and its affiliates unless the context otherwise requires.

affiliate will consent to personal jurisdiction in the U.S. courts. NatWest represents that in the event a foreign affiliate of NatWest acts as underwriter or placement agent, any sales of certificates to a plan will be effected through a U.S. entity (including NatWest or an affiliate) acting as an agent or broker. Further, NatWest represents that all sales of certificates that are effected in reliance on the exemption proposed herein will comply with applicable federal and state law.

Trust Assets

2. NatWest seeks exemptive relief to permit plans to invest in pass-through certificates representing undivided interests in the following categories of trusts: (1) Single and multi-family residential or commercial mortgage investment trusts;[5] (2) motor vehicle receivable investment trusts; (3) consumer or commercial receivables investment trusts; and (4) guaranteed governmental mortgage pool certificate investment trusts.[6]

3. Commercial mortgage investment trusts may include mortgages on ground leases or real property. Commercial mortgages are frequently secured by ground leases on the underlying property, rather than by fee simple interests. The separation of the fee simple interest and the ground lease interest is generally done for tax reasons. Properly structured, the pledge of the ground lease to secure a mortgage provides a lender with the same level of security as would be provided by a pledge of the related fee simple interest. The terms of the ground leases pledged to secure leasehold mortgages will in all cases be at least ten years longer than the term of such mortgages.[7]

Trust Structure

4. Each trust is established under a pooling and servicing agreement between a sponsor, a servicer and a trustee. The sponsor or servicer of a trust selects assets to be included in the trust. These assets are receivables which may have been originated, in the ordinary course of business, by a sponsor or servicer of the trust, an affiliate of the sponsor or servicer, or by an unrelated lender and subsequently acquired by the trust sponsor or servicer.

On or prior to the closing date, the sponsor acquires legal title to all assets selected for the trust, establishes the trust and designates an independent entity as trustee. On the closing date, the sponsor conveys to the trust legal title to the assets, and the trustee issues certificates representing fractional undivided interests in the trust assets. NatWest, or one or more broker-dealers (which may include NatWest), acts (or may act in the future) as underwriter or placement agent with respect to the sale of the certificates. In addition, NatWest anticipates privately placing certificates on both a firm commitment and an agency basis.

Certificateholders are entitled to receive monthly, quarterly or semi-annually installments of principal and/or interest, or lease payments due on the receivables, adjusted, in the case of payments of interest, to a specified rate—the pass-through rate—which may be fixed or variable.

When installments or payments are made on a semi-annual basis, funds are not permitted to be commingled with the servicer's assets for longer than would be permitted for a monthly-pay security. A segregated account is established in the name of the trustee (on behalf of certificateholders) to hold funds received between distribution dates. The account is under the sole control of the trustee, who invests the account's assets in short-term securities which have received a rating comparable to the rating assigned to the certificates. In some cases, the servicer may be permitted to make a single deposit into the account once a month. When the servicer makes such monthly deposits, payments received from obligors by the servicer may be commingled with the servicer's assets during the month prior to deposit. In no event will the period of time between the receipt of funds by the servicer and deposit of these funds in a segregated account exceed 45 days. Furthermore, in those cases where distributions are made semi-annually, the servicer will furnish a report on the operation of the trust to the trustee on a monthly basis. At or about the time this report is delivered to the trustee, it will be made available to certificateholders and delivered to or made available to each rating agency that has rated the certificates.

5. Some of the certificates will be multi-class certificates. NatWest requests exemptive relief for two types of multi-class certificates: "Strip" certificates and "fast-pay/slow-pay" certificates. Strip certificates are a type of security in which the stream of interest payments on receivables is split from the flow of principal payments and separate classes of certificates are established, each representing rights to disproportionate payments of principal and interest.[8]

"Fast-pay/slow-pay" certificates involve the issuance of classes of certificates having different stated maturities or the same maturities with different payment schedules. Interest and/or principal payments received on the underlying receivables are distributed first to the class of certificates having the earliest stated maturity of principal and/or earlier payment schedule, and only when that class of certificates has been paid in full (or has received a specified amount) will distributions be made with respect to the second class of certificates. Distributions on certificates having later stated maturities will proceed in like manner until all the certificateholders have been paid in full. The only difference between this multi-class pass-through arrangement and a single-class pass-through arrangement is the order in which distributions are made to certificateholders. In each case, certificateholders will have a beneficial ownership interest in the underlying assets. In neither case will the rights of a plan purchasing certificates be subordinated to the rights of another

[5] The Department notes that Prohibited Transaction Exemption (PTE) 83–1 (48 FR 895, January 7, 1983) a class exemption for mortgage pool investment trusts, would generally apply to trusts containing single-family residential mortgages, provided that the applicable conditions of PTE 83–1 are met. NatWest and its affiliates request relief for single-family residential mortgages in this exemption because it would prefer one exemption for all trusts of similar structure. However, NatWest and its affiliates have stated that they may still avail themselves of the exemptive relief provided by PTE 83–1.

[6] Guaranteed governmental mortgage pool certificates are mortgage-backed securities with respect to which interest and principal payable is guaranteed by the Governmental National Mortgage Association (GNMA), the Federal Home Loan Mortgage Corporation (FHLMC), or the Federal National Mortgage Association (FNMA). The Department's regulation relating to the definition of plan assets (29 CFR 2510.3–101(i)) provides that where a plan acquires a guaranteed governmental mortgage pool certificate, the plan's assets include the certificate and all of its rights with respect to such certificate under applicable law, but do not, solely by reason of the plan's holding of such certificate, include any of the mortgages underlying such certificate. The applicant is requesting exemptive relief for trusts containing guaranteed governmental mortgage pool certificates because the certificates in the trusts may be plan assets.

[7] Trust assets may also include obligations that are secured by leasehold interests on residential real property. See PTE 90–32 involving Prudential-Bache Securities, Inc. (55 FR 23147, June 6, 1990) at 23150.

[8] It is the Department's understanding that where a plan invests in REMIC "residential" interest certificates to which this exemption applies, some of the income received by the plan as a result of such investment may be considered unrelated business taxable income to the plan, which is subject to income tax under the Code. The Department emphasizes that the prudence requirements of section 404(a)91)(B) of the Act would require plan fiduciaries to carefully consider this and other tax consequences prior to causing plan assets to be invested in certificates pursuant to this exemption.

certificateholder in the event of default on any of the underlying obligations. In particular, if the amount available for distribution to certificateholders is less than the amount required to be so distributed, all senior certificateholders will share in the amount distributed on pro rata basis.[9]

6. For tax reasons, the trust must be maintained as an essentially passive entity. Therefore, both the sponsor's discretion and the servicer's discretion with respect to assets included in a trust are severely limited. Pooling and servicing agreements provide for the substitution of receivables by the sponsor only in the event of defects in documentation discovered within a short time after the issuance of trust certificates (within 120 days, except in the case of obligations having an original term of 30 years, in which case the period will not exceed two years). Any receivable so substituted is required to have characteristics substantially similar to the replaced receivable and will be at least as creditworthy as the replaced receivable.

In some cases, the affected receivable would be repurchased, with the purchase price applied as a payment on the affected receivable and passed through to certificateholders.

Parties to Transactions

7. The *originator* of a receivable is the entity that initially lends money to a borrower (obligor), such as a homeowner or automobile purchaser, or leases property to a lessee. The originator may either retain a receivable in its portfolio or sell it to a purchaser, such as a trust sponsor.

Originators of receivables included in the trusts will be entities that originate receivables in the ordinary course of their business, including finance companies, for whom such origination constitutes the bulk of their operations, financial institutions for whom such origination constitutes a substantial part of their operations, and any kind of manufacturer, merchant, or service enterprise for whom such origination is an incidental part of its operations. Each trust may contain assets of one or more originators. The originator of the receivables may also function as the trust sponsor or servicer.

8. The *sponsor* will be one of three entities: (i) A special-purpose or other corporation unaffiliated with the servicer, (ii) a special-purpose or other corporation affiliated with the servicer, or (iii) the servicer itself. Where the sponsor is not also the servicer, the sponsor's role will generally be limited to acquiring the receivables to be included in the trust, establishing the trust, designating the trustee, and assigning the receivables to the trust.

9. The *trustee* of a trust is the legal owner of the obligations in the trust. The trustee is also a party to or beneficiary of all the documents and instruments deposited in the trust, and as such is responsible for enforcing all the rights created thereby in favor of certificateholders.

The trustee will be an independent entity, and therefore will be unrelated to NatWest, the trust sponsor or the servicer. NatWest represents that the trustee will be a substantial financial institution or trust company experienced in trust activities. The trustee receives a fee for its services, which will be paid by the sponsor or servicer. The method of compensating the trustee will be specified in the pooling and servicing agreement and disclosed in the prospectus or private placement memorandum relating to the offering of the certificates.

10. The *servicer* of a trust administers the receivables on behalf of the certificateholders. The servicer's functions typically involve, among other things, notifying borrowers of amounts due on receivables, maintaining records of payments received on receivables and instituting foreclosure or similar proceedings in the event of default. In cases where a pool of receivables has been purchased from a number of different originators and deposited in a trust, it is common for the receivables to be "subserviced" by their respective originators and for a single entity to "master service" the pool of receivables on behalf of the owners of the related series of certificates. Where this arrangement is adopted, a receivable continues to be serviced from the perspective of the borrower by the local subservicer, while the investor's perspective is that the entire pool of receivables is serviced by a single, central master servicer who collects payments from the local subservicers and passes them through to certificateholders.

Receivables of the type suitable for inclusion in a trust invariably are serviced with the assistance of a computer. After the sale, the servicer keeps the sold receivables on the computer system in order to continue monitoring the accounts. Although the records relating to sold receivables are kept in the same master file as receivables retrained by the originator, the sold receivables are flagged as having been sold. To protect the investors' interest, the servicer ordinarily covenants that this "sold flag" will be included in all records relating to the sold receivables, including the master file, archives, tape extracts, and printouts.

The sold flags are invisible to the obligor, and do not affect the manner in which the servicer performs the billing, posting and collection procedures relating to the sold receivables. However, the servicer uses the sold flag to identify the receivables for the purpose of reporting all activity on those receivables after their sale to the investors.

Depending on the type of receivable and the details of the servicer's computer system, in some cases the servicer's internal reports can be adapted for investor reporting with little or no modification. In other cases, the servicer may have to perform special calculations to fulfill the investor reporting responsibilities. These calculations can be performed on the servicer's main computer, or on a small computer with data supplied by the main system. In all cases, the numbers produced for the investors are reconciled to the servicer's books and reviewed by public accountants.

The *underwriter* will be registered broker-dealer that acts as underwriter or placement agent with respect to the sale of the certificates. Public offerings of certificates are generally made on a firm commitment or agency basis. Private placements of certificates may be made on a firm commitment or agency basis.

It is anticipated that the lead or co-managing underwriter will make a market in certificates offered to the public.

In some cases, the originator and servicer of receivables to be included in a trust and the sponsor of the trust (though they themselves may be related) will be unrelated to NatWest. In other cases, however, NatWest (directly or through one or more of its U.S. banking affiliates) may originate or service receivables included in a trust, or may sponsor a trust.

Certificate Price, Pass-Through Rate and Fees

11. In some cases, the sponsor will obtain the receivables from various originators pursuant to existing contracts with such originators under which the sponsor will purchase the receivables at fair market value from originator or a finance company pursuant to a purchase and sale agreement related to the specific offering of certificates. In other cases,

[9] If a trust issue subordinate certificates, holders of such subordinate certificates may not share in the amount distributed on a pro rata basis. The Department notes that the exemption does not provide relief for plan investment in such subordinated certificates.

the sponsor will originate the receivables itself.

As compensation for the receivables transferred to the trust, the sponsor receives cash, or certificates representing the entire beneficial interest in the trust. The sponsor sells some or all of these certificates for cash to investors or securities underwriters.

12. The price of the certificates, both in the initial offering and in the secondary market, is affected by market forces including investor demand, the pass-through interest rate on the certificates in relation to the rate payable on investments of similar types and quality, expectations as to the effect on yield resulting from prepayment of underlying receivables, and expectations as to the likelihood of timely payment.

The pass-through rate for certificates is equal to the interest rate on receivables included in the trust minus a specified servicing fee.[10] This rate is generally determined by the same market forces that determine the price of a certificate. The price of a certificate and its pass-through, or coupon rate, together determine the yield to investors. If an investor purchases a certificate at less than par, that discount augments the stated pass-through rate; conversely, a certificate purchased at a premium yields less than the stated coupon.

13. As compensation for performing its servicing duties, the servicer (who may also be the sponsor or an affiliate thereof, and receive fees for acting as sponsor) will retain the difference between payments received on the receivables in the trust and payments payable (at the pass-through rate) to certificateholders, except that in some cases a portion of the payments on receivables may be paid to a third party, such as a fee paid to a provider of credit support. The servicer may receive additional compensation by having the use of the amounts paid on the receivables between the time they are received by the servicer and the time they are due to the trust (which time is set forth in the pooling and servicing agreement). The servicer, typically will be required to pay the administrative expenses of servicing the trust, including in some cases the trustee's fee, out of its servicing compensation.

The servicer is also compensated to the extent it may provide credit enhancement to the trust or otherwise arrange to obtain credit support from another party. This "credit support fee" may be aggregated with other servicing fees, and is either paid in a lump sum at the time the trust is established, or out of the interest income received on the receivables in excess of the pass-through rate.

14. The servicer may be entitled to retain certain administrative fees paid by a third party usually the obligor. These administrative fees fall into three categories: (a) prepayment fees; (b) late payment and payment extension fees; and (c) expenses, fees and charges associated with foreclosure or repossession, or other conversion of a secured position into cash proceeds, upon default of an obligation.

Compensation payable to the servicer will be set forth or referred to in the pooling and servicing agreement and described in reasonable detail in the prospectus or private placement memorandum relating to the certificates.

15. Payments on receivables may be made by obligors to the servicer at various times during the period preceding any date on which pass-through payments to the trust are due. In some cases, the pooling and servicing agreement may permit the servicer to place these payments in non-interest bearing accounts in itself or to commingle such payments with its own funds prior to the distribution dates. In these cases, the servicer would be entitled to the benefit derived from the use of the funds between the date of payment on a receivable and the pass-through date. Commingled payments may not be protected from the creditors of the servicer in the event of the servicer's bankruptcy or receivership. In those instances when payments on receivables are held in non-interest bearing accounts or are commingled with the servicer's own funds, the servicer is required to deposit these payments by a data specified in the pooling and servicing agreement into an account from which the trustee makes payments to certificateholders.

16. The underwriter will receive a fee in connection with the securities underwriting or private placement of certificates. In a fir commitment underwriting this fee would consist of the difference between what the underwriter receives for the certificates that it distributes and what it pays the sponsor for those certificates. In a private placement, the fee normally takes the form of an agency commission paid by the sponsor. In a best efforts underwriting in which the underwriter would sell certificates in a public offering on an agency basis, the underwriter would receive an agency commission rather than a fee based on the difference between the price at which the certificates are sold to the public and what it pays the sponsor. In some private placements the underwriter may buy certificates as principal, in which case its compensation would be the difference between what it receives for the certificates that it sells and what it pays the sponsor for these certificates.

Purchase of Receivables by the Servicer

17. The applicant represents that as the principal amount of the receivables in a trust is reduced by payment, the cost of administering the trust generally increases, making the servicing of the trust prohibitively expensive at some point. Consequently the pooling and servicing agreement generally provides that the servicer may purchase the receivables included in the trust when the aggregate unpaid balance payable on the receivables is reduced to a specified percentage (usually between 5 and 10 percent) of the initial balance.

The repurchase price for such an option is set at a level such that the certificateholders will receive the full amount on all of the receivables held by the trust plus the accrued interest at the pass-through rate plus the full amount of property, if any, that has been required by the trust through collections on or liquidations of the receivables.

Certificate Ratings

18. The certificates will have received one of the three highest ratings available from either S&P's, Moody's, D&P or Fitch. Insurance or other credit support (such as overcollateralization, surety bonds, letter of credit or guarantees) will be obtained by the trust sponsor to the extent necessary for the certificates to attain the desired rating. The amount of this credit support is set by the rating agencies at a level that is a multiple of the worst historical net credit loss experience for the type of obligations included in the issuing trust.

Provision of Credit Support

19. In some cases, the master servicer, or an affiliate of the master servicer, may provide credit support to the trust (i.e., act as an insurer). In these cases, the master servicer, in its capacity as servicer, will first advance funds to the full extent that it determines that such advances will be recoverable (a) out of late payments by the obligors, (b) from the credit support provider (which may be itself) or, (c) in the case of a trust that issues subordinated certificates, from amounts otherwise distributable to holders of subordinated certificates, and the master servicer will advance such funds in a timely manner. In some

[10] The pass-through rate on certificates representing interests in trusts holding leases is determined by breaking down lease payments, into "principal" and "interest" components based on an implicit interest rate.

transactions, the master servicer may not be obligated to advance funds, but instead would be called upon to provide funds to cover defaulted payments to the full extent of its obligations as insurer. Moreover, a master servicer typically can recover advances either from the provider of credit support or from the future payment stream. When the servicer is the provider of the credit support and provides its own funds to cover defaulted payments, it will do so either on the initiative of the trustee, or on its own initiative on behalf of the trustee, but in either event it will provide such funds to cover payments to the full extent of its obligations under the credit support mechanism.

If the master servicer fails to advance funds, fails to call upon the credit support mechanism to provide funds to cover defaulted payments, or otherwise fails in its duties, the trustee would be required and would be able to enforce the certificateholders' rights, as both a party to the pooling and servicing agreement and the owner of the trust estate, including rights under the credit support mechanism. Therefore, the trustee, who is independent of the servicer, will have the ultimate right to enforce the credit support arrangement.

When a master servicer advances funds, the amount so advanced is recoverable by the master servicer out of future payments on receivables held by the trust to the extent not covered by credit support. However, where the master servicer provides credit support to the trust, there are protections in place to guard against a delay in calling upon the credit support to take advantage of the fact that the credit support declines proportionally with the decrease in the principal amount of the obligations in the trust as payments on receivables are passed through to investors. These safeguards include:

(a) There is often a disincentive to postponing credit losses because the sooner repossession or foreclosure activities are commenced, the more value that can be realized on the security for the obligation;

(b) The master servicer has servicing guidelines which include a general policy as to the allowable delinquency period after which an obligation ordinarily will be deemed uncollectible. The pooling and servicing agreement will require the master servicer to follow its normal servicing guidelines and will set forth the master servicer's general policy as to the period of time after which delinquent obligations ordinarily will be considered uncollectible;

(c) As frequently as payments are due on the receivables included in the trust (monthly, quarterly, or semi-annually as set forth in the pooling and servicing agreement), the master servicer is required to report to the independent trustee the amount of all past-due payments and the amount of all servicer advances, along with other current information as to collections on the receivables and draws upon the credit support. Further, the master servicer is required to deliver to the trustee annually a certificate of an executive officer of the master servicer stating that a review of the servicing activities has been made under such officer's supervision, and either stating that the master servicer has fulfilled all of its obligations under the pooling and servicing agreement or, if the master servicer has defaulted under any of its obligations, specifying any such default. The master servicer's reports are reviewed at least annually by independent accountants to ensure that the master servicer is following its normal servicing standards and that the master servicer's reports conform to the master servicer's internal accounting records. The results of the independent accountants' review are delivered to the trustee;

(d) The credit support has a "floor" dollar amount that protects investors against the possibility that a large number of credit losses might occur towards the end of the life of the trust, whether due to servicer advances or any other cause. Once the floor amount has been reached, the master servicer lacks an incentive to postpone the recognition of credit losses because the credit support amount becomes a fixed dollar amount, subject to reduction only for actual draws. From the time that the floor amount is effective until the end of the life of the trust, there are no proportionate reductions in the credit support amount caused by reductions in the pool principal balance. Indeed, since the floor is a fixed dollar amount, the amount of credit support ordinarily increases as a percentage of the pool principal balance during the period that the floor is in effect. The protection provided by a floor dollar amount to the credit support applies particularly where the master servicer and the insurer are affiliated or are the same entity. (An entity should not be considered as insurer solely because it holds subordinated certificates.)

Disclosure

20. In connection with the original issuance of certificates, the prospectus or private placement memorandum will be furnished to investing plans. The prospectus or private placement memorandum will contain information material to a fiduciary's decision to invest in the certificates, including:

(a) Information concerning the payment terms of the certificates, the rating of the certificates, and any material risk factors with respect to the certificates;

(b) A description of the trust as a legal entity and a description of how the trust was formed by the seller/servicer or other sponsor of the transaction;

(c) Identification of the independent trustee for the trust;

(d) A description of the receivables contained in the trust, including the types of receivables, the diversification of the receivables, their principal terms and their material legal aspects;

(e) A description of the sponsor and servicer;

(f) A description of the pooling and servicing agreement, including a description of the seller's principal representations and warranties as to the trust assets and the trustee's remedy for any breach thereof; a description of the procedures for collection of payments on receivables and for making distributions to investors, and a description of the accounts into which such payments are deposited and from which such distributions are made; identification of the servicing compensation and any fees for credit enhancement that are deducted from payments on receivables before distributions are made to investors; a description of periodic statements provided to the trustee, and provided to or made available to investors by the trustee; and a description of the events that constitute events of default under the pooling and servicing contract and a description of the trustee's and the investors' remedies incident thereto;

(g) A description of the credit support;

(h) A general discussion of the principal federal income tax consequences of the purchase, ownership and disposition of the pass-through securities by a typical investor;

(i) A description of the underwriters' and/or placement agent's plan for distributing the pass-through securities to investors; and

(j) Information about the scope and nature of the secondary market, if any, for the certificates.

21. Reports indicating the amount of payments of principal and interest are provided to certificateholders at least as frequently as distributions are made to certificateholders. Certificateholders will also be provided with periodic information statements setting forth material information concerning the underlying assets, including, where applicable, information as to the amount

and number of delinquent and defaulted loans or receivables.

22. In the case of a trust that offers and sells certificates in a registered public offering, the trustee, the servicer or the sponsor will file such periodic reports as may be required to be filed under the Securities Exchange Act of 1934. Although some trusts that offer certificates in a public offering will file quarterly reports on Form 10–Q and Annual Reports on Form 10–K, many trusts obtain, by application to the Securities and Exchange Commission, a complete exemption from the requirement to file quarterly reports on Form 10–Q and a modification of the disclosure requirements for annual reports on Form 10–K. If such an exemption is obtained, these trusts normally would continue to have the obligation to file current reports on Form 8–K to report material developments concerning the trust and the certificates. While the Securities and Exchange Commission's interpretation of the periodic reporting requirements is subject to change, periodic reports concerning a trust will be filed to the extent required under the Securities Exchange Act of 1934.

23. At or about the time distributions are made to certificateholders, a report will be delivered to the trustee as to the status of the trust and its assets, including underlying obligations. Such report will typically contain information regarding the trust's assets, payments received or collected by the servicer, the amount of prepayments, delinquencies, servicer advances, defaults and foreclosures, the amount of any payments made pursuant to any credit support, and the amount of compensation payable to the servicer. Such report also will be delivered to or made available to the rating agency or agencies that have rated the trust's certificates.

In addition, promptly after each distribution date, certificateholders will receive a statement prepared by the trustee summarizing information regarding the trust and its assets. Such statement will include information regarding the trust and its assets, including underlying receivables. Such statement will typically contain information regarding payments and prepayments, delinquencies, the remaining amount of the guaranty or other credit support and a breakdown of payments between principal and interest.

Forward Delivery Commitments

24. NatWest represents that, to date, it has not entered into any forward delivery commitments in connection with the offering of pass-through certificates. However, NatWest states that it may contemplate entering into such commitments. NatWest notes that the utility of forward delivery commitments has been recognized with respect to the offering of similar certificates backed by pools of residential mortgages. As such, NatWest states that it may find it desirable in the future to enter into such commitments for the purchase of certificates.

Secondary Market Transactions

25. NatWest, to the extent it obtains Section 20 Authority (see rep. 1, above) would normally attempt to make a market for securities for which it is lead or co-managing underwriter in the future. It is also NatWest's general policy to facilitate sales by investors who have purchased certificates if NatWest has acted as placement agent in the original placement of the certificates and if such investors request NatWest's assistance. Such policy is in effect for the transaction entered into on December 22, 1993, as to which NatWest Bank Plc acted as placement agent.

Retroactive Relief

26. NatWest represents that it has engaged in one transaction related to mortgage-backed and asset-backed securities (see rep 1, above), based on the assumption that retroactive relief would not be granted. NatWest represents that the transaction was entered into in conformance with the exception contained in the Department's regulation relating to the definition of plan assets (29 CFR 2510.3–101) which applies where equity participation by benefit plan investors is not "significant". However, it is difficult to monitor whether the percentage interest of plans in a trust is at all times not "significant" for purposes of that regulation. Accordingly, relief is requested for transactions which have occurred on or after December 22, 1993.

Summary

27. In summary, the applicant represents that the transactions for which exemptive relief is requested satisfy the statutory criteria of section 408(a) of the Act due to the following:

(a) The trusts contain "fixed pools" of assets. There is little discretion on the part of the trust sponsor to substitute receivables contained in the trust once the trust has been formed;

(b) Certificates in which plans invest will have been rated in one of the three highest rating categories by S&P's, Moody's, D&P or Fitch. Credit support will be obtained to the extent necessary to attain the desired rating;

(c) All transactions for which NatWest seeks exemptive relief will be governed by the pooling and servicing agreement, which is made available to plan fiduciaries for their review prior to the plan's investment in certificates;

(d) Exemptive relief from sections 406(b) and 407 for sales to plans is substantially limited; and

(e) NatWest anticipates that it will make a secondary market in certificates with respect to which it acts as an underwriter in the future.

Discussion of Proposed Exemption

I. Differences Between Proposed Exemption and Class Exemption PTE 83–1

The exemptive relief proposed herein is similar to that provided in PTE 81–7 (46 FR 7520, January 23, 1981), Class Exemption for Certain Transactions Involving Mortgage Pool Investment Trusts, amended and restated as PTE 83–1 (48 FR 895, January 7, 1983).

PTE 83–1 applies to mortgage pool investment trusts consisting of interest-bearing obligations secured by first or second mortgages or deeds of trust on single-family residential property. The exemption provides relief from sections 406(a) and 407 for the sale, exchange or transfer in the initial issuance of mortgage pool certificates between the trust sponsor and a plan, when the sponsor, trustee or insurer of the trust is a party-in-interest with respect to the plan, and the continued holding of such certificates, provided that the conditions set forth in the exemption are met. PTE 83–1 also provides exemptive relief from section 406 (b)(1) and (b)(2) of the Act for the above-described transactions when the sponsor, trustee or insurer of the trust is a fiduciary with respect to the plan assets invested in such certificates, provided that additional conditions set forth in the exemption are met. In particular, section 406(b) relief is conditioned upon the approval of the transaction by an independent fiduciary. Moreover, the total value of certificates purchased by a plan must not exceed 25 percent of the amount of the issue, and at least 50 percent of the aggregate amount of the issue must be acquired by persons independent of the trust sponsor, trustee or insurer. Finally, PTE 83–1 provides conditional exemptive relief from section 406 (a) and (b) of the Act for transactions in connection with the servicing and operation of the mortgage trust.

Under PTE 83–1, exemptive relief for the above transactions is conditioned upon the sponsor and the trustee of the

mortgage trust maintaining a system for insuring or otherwise protecting the pooled mortgage loans and the property securing such loans, and for indemnifying certificate holders against reductions in pass-through payments due to defaults in loan payments or property damage. This system must provide such protection and indemnification up to an amount not less than the greater of one percent of the aggregate principal balance of all trust mortgages or the principal balance of the largest mortgage.

The exemptive relief proposed herein differs from that provided by PTE 83–1 in the following major respects: (1) The proposed exemption provides individual exemptive relief rather than class relief; (2) The proposed exemption covers transactions involving trusts containing a broader range of assets than single-family residential mortgages; (3) Instead of requiring a system for insuring the pooled receivables, the proposed exemption conditions relief upon the certificates having received one of the three highest ratings available from S&P's, Moody's, D&P or Fitch (insurance or other credit support would be obtained only to the extent necessary for the certificates to attain the desired rating); and (4) The proposed exemption provides more limited section 406(b) and section 407 relief for sales transactions.

II. Rating of Certificates

After consideration of the representations of the applicant and information provided by S&P's, Moody's, D&P and Fitch, the Department has decided to condition exemptive relief upon the certificates having attained a rating in one of the three highest generic rating categories from S&P's, Moody's, D&P or Fitch. The Department believes that the rating condition will permit the applicant flexibility in structuring trusts containing a variety of mortgages and other receivables while ensuring that the interests of plans investing in certificates are protected. The Department also believes that the ratings are indicative of the relative safety of investments in trusts containing secured receivables. The Department is conditioning the proposed exemptive relief upon each particular type of asset-backed security having been rated in one of the three highest rating categories for at least one year and having been sold to investors other than plans for at least one year.[11]

[11] In referring to different "types" of asset-backed securities, the Department means certificates representing interests in trusts containing different "types" of receivables, such as single family residential mortgages, multi-family residential mortgages, commercial mortgages, home equity loans, auto loan receivables, installment obligations for consumer durable secured by purchase money security interests, etc. The Department intends this condition to require that certificates in which a plan invests are of the type that have been rated (in one of the three highest generic rating categories by S&P's, D&P, Fitch or Moody's) and purchased by investors other than plans for at least one year prior to the plan's investment pursuant to the proposed exemption. In this regard, the Department does not intend to require that the particular assets contained in a trust must have been "seasoned" (e.g., originated at least one year prior to the plan's investment in the trust).

III. Limited Section 406(b) and Section 407(a) Relief for Sales

NatWest represents that in some cases a trust sponsor, trustee, servicer, insurer, and obligor with respect to receivables contained in a trust, or an underwriter and/or placement agent of certificates may be a pre-existing party in interest with respect to an investing plan.[12] In these cases, a direct or indirect sale or certificates by that party in interest to the plan would be a prohibited sale or exchange of property under section 406(a)(1)(A) of the Act.[13] Likewise, issues are raised under section 406(a)(1)(D) of the Act where a plan fiduciary causes a plan to purchase certificates where trust funds will be used to benefit a party in interest.

Additionally, NatWest represents that a trust sponsor, servicer, trustee, insurer, and obligor with respect to receivables contained in a trust, or an underwriter and/or placement agent of certificates representing an interest in a trust may be a fiduciary with respect to an investing plan. NatWest represents that the exercise of fiduciary authority by any of these parties to cause the plan to invest in certificates representing an interest in the trust would violate section 406(b)(1), and in some cases section 406(b)(2), of the Act.

Moreover, NatWest represents that to the extent there is a plan asset "look through" to the underlying assets of a trust, the investment in certificates by a plan covering employees of an obligor under receivables contained in a trust may be prohibited by sections 406(a) and 407(a) of the Act.

After consideration of the issues involved, the Department has determined to provide the limited sections 406(b) and 407(a) relief as specified in the proposed exemption.

[12] In this regard, we note that the exemptive relief proposed herein is limited to certificates with respect to which NatWest or any of its affiliates is either: (a) The sole underwriter or manager or comanager of the underwriting syndicate, or (b) a selling or placement agent.

[13] The applicant represents that where a trust sponsor is an affiliate of NatWest, sales to plans by the sponsor may be exempt under PTE 75–1, part II (relating to purchases and sales of securities by broker-dealers and their affiliates), if NatWest is not a fiduciary with respect to plan assets to be invested in certificates.

FOR FURTHER INFORMATION CONTACT: Gary H. Lefkowitz of the Department, telephone (202) 219–8881. (This is not a toll-free number.)

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest of disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(b) of the act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) Before an exemption may be granted under section 408(a) of the Act and/or section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan;

(3) The proposed exemptions, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(4) The proposed exemptions, if granted, will be subject to the express condition that the material facts and representations contained in each application are true and complete and accurately describe all material terms of the transaction which is the subject of the exemption. In the case of continuing exemption transactions, if any of the material facts or representations described in the application change after the exemption is granted, the exemption will cease to apply as of the date of such change. In the event of any such change, application for a new

exemption may be made to the Department.

Signed at Washington, DC, this 7th day of June, 1994.

Ivan Strasfeld,

Director of Exemption Determinations, Pension and Welfare Benefits Administration, U.S. Department of Labor.

BILLING CODE 4510–29–M

LEGAL SERVICES CORPORATION

Grant Award for Legal Service State Support Center in the District of Columbia and the Virgin Islands

AGENCY: Legal Services Corporation.

ACTION: Announcement of intention to award grants.

SUMMARY: The Legal Services Corporation hereby announces its intention to award one-time, nonrecurring grants to the Neighborhood Legal Services Program of the District of Columbia and Legal Services of the Virgin Islands, Inc. for the purpose of planning for the establishment of a support program for their respective jurisdictions. The Corporation plans to award grants in the amount of $20,000 to each.

These one-time grants will be awarded pursuant to authority conferred by section 1006(a)(3) of the Legal Services Corporation Act of 1974, as amended. This public notice is issued with a request for comments and recommendations within a period of thirty (30) days from the date of publication of this notice. The grant award will not become effective and grant funds will not be distributed prior to expiration of this 30-day period.

DATES: All comments and recommendations must be received by 5 p.m. on or before July 10, 1994.

ADDRESSES: Comments should be sent to the Office of Program Services, Legal Services Corporation, 750 First Street, NE., 11th Floor, Washington, DC 20002–4250.

FOR FURTHER INFORMATION CONTACT: Phyllis Doriot, Office of Program Services, (202) 336–8825.

SUPPLEMENTARY INFORMATION: The Legal Services Corporation is the national organization charged with administering federal funds provided for civil legal service to the poor. Both programs are recipients of LSC funding for providing direct legal services to their service area. The amount of the 1994 support grants is consistent with the 1994 LSC Appropriations Act.

Dated: June 6, 1994.

John A. Tull,

Director, Office of Program Services.

NATIONAL CREDIT UNION ADMINISTRATION

Public Information Collection Requirement Submitted to OMB for Review

May 31, 1994.

The National Credit Union Administration submitted the following public information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1980, Public Law 96–511. Copies of the submission may be obtained by calling the NCUA Clearance Officer listed. Comments regarding information collections should be addressed to the OMB reviewer listed and to the NCUA Clearance Officer, NCUA, Office of Administration, room 5107, 1775 Duke Street, Alexandria, VA 22314–3428.

National Credit Union Administration

OMB Number: 3133–0015.

Form Number: NCUA 4000, 4001, 4008, 4012, 4015, 4016, 9500, 9600 and 4401.

Type of Review: Review of revised collection.

Title: Federal Credit Union Charter Application and Field of Membership Amendments.

Description: Groups interested in establishing a federal credit union must submit an application to NCUA. This collection provides information regarding federal credit unions, procedures for organizing a federal credit union, and information requirements. Also, this collection provides guidance to existing credit unions for amending their field of membership.

Respondents: Federal credit unions and groups organizing a federal credit union.

Estimated Number of Respondents: 5,725.

Estimated Burden Hours per Response: 3.6 hours.

Frequency of Response: On occasion.

Estimated Total Reporting Burden: 20,303 hours.

Clearance Officer: Wilmer A. Theard (703) 518–6410, National Credit Union Administration, room 5107, 1775 Duke Street, Alexandria, VA 22314–3428.

OMB Reviewer: Gary Waxman (202) 395–7340, Office of Management and Budget, room 3208, New Executive Office Building, Washington, DC 20503.

Becky Baker,

Secretary of the NCUA Board.

NATIONAL ENDOWMENT FOR THE ARTS

Expansion Arts Advisory Panel, Panel Meeting Cancellation; Amended Notice of Meeting

ACTION: Notice of correction to **Federal Register** Notice regarding the Overview Section of the Expansion Arts Advisory Panel to the National Council on the Arts.

SUMMARY: This notice to announce the cancellation of the above panel meeting previously scheduled to meet on June 16, 1994 and published in **Federal Register** 59 FR 28567 on June 2, 1994.

EXPLANATION: Current new guidelines cover a two-year period, therefore there will be no opportunity for field input this session. Additionally, the Expansion Arts Program has no significant field data, new initiatives, or personnel action to report. Cancellation is deemed both prudent and cost-saving at this time.

Dated: June 6, 1994.

Yvonne M. Sabine,

Director, Office of Panel Operations, National Endowment for Arts.

BILLING CODE 14093–M

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

National Endowment for the Arts

Theater Advisory Panel; Panel Meeting Postponement

ACTION: Notice of correction to **Federal Register** Notice regarding the Overview Section of the Theater Advisory Panel to the national Council on the Arts.

SUMMARY: This notice is to announce the postponement of the above panel meeting previously scheduled to meet on June 13–14, 1994 and published in the **Federal Register** 59 FR 27586 on May 27, 1994.

EXPLANATION: The Theater Program is entering a period of extensive research, analysis and planning. This meeting has been postponed until the program is farther along in the planning process.

Dated: June 7, 1994.

Yvonne M. Sabine,

Director, Office of Panel Operations, National Endowment for the Arts.

BILLING CODE 7537–01–M

NUCLEAR REGULATORY COMMISSION

[Docket No. 030–19747 License No. 52–21082–01 IA 94–013]

In the Matter of Guillermo Velasquez, M.D. San Juan, PR

Confirmatory Order

I

Guillermo Velasquez, M.D. (Licensee) is the holder of expired Byproduct Materials License No. 52–21082–01 (license) issued by the Nuclear Regulatory Commission (NRC or Commission) pursuant to 10 CFR parts 30 and 35 on September 3, 1982. The license authorized the use of strontium-90 for ophthalmic radiotherapy in accordance with the conditions specified therein. The license was renewed in its entirety on August 21, 1987, and expired on August 31, 1992. The byproduct material remained in the possession of the Licensee until it was transferred to an authorized recipient on January 7, 1994 pursuant to an NRC Order to Transfer Byproduct Material to an Authorized Recipient (Effective Immediately) and Demand for Information issued July 21, 1993.

II

The Licensee did not submit an application for renewal of the license prior to its expiration, as required by 10 CFR 30.37, nor did the Licensee notify the Commission in writing, pursuant to 10 CFR 30.36, of a decision not to renew the license. Therefore, on September 11, 1992, NRC Region II issued a Notice of Violation (Notice) to the Licensee for failure to request renewal prior to expiration of the license or to file a notice of non-renewal or transfer of the byproduct material. The letter forwarding the Notice directed the Licensee to place the strontium-90 in storage and to discontinue use of the material until he obtained a new NRC license. In the alternative, the Licensee was directed to transfer the material to an authorized recipient if adequate storage was not available, or to submit an NRC Form 314 to the NRC if the Licensee chose to dispose of the byproduct material. During a December 4, 1992 telephone conversation between a Region II inspector and the Licensee, the Licensee stated that the source was locked in storage and that the Licensee had not used the source. The Licensee responded to the Notice on December 4, 1992, by requesting renewal of the license. Because the Licensee failed to provide the appropriate licensing fee, no action was taken by the NRC to renew the license and the Licensee was notified.

The NRC performed a routine inspection of the Licensee's facility in Rio Piedras, Puerto Rico on February 24, 1993. One purpose of this inspection was to determine the status of the strontium-90 source. The inspection revealed that the Licensee had continued to use the material: (1) After expiration of the license; (2) after receipt of the NRC letter and Notice dated September 11, 1992, which directed the Licensee to place the material in storage and to discontinue use of the material until a new license was obtained; and (3) after the December 4, 1992 telephone conversation with the Region II inspector when the inspector explained that the source could not be used and the Licensee had stated the source was in locked storage and not being used.

In April and May 1993, the NRC Office of Investigations conducted an investigation of the circumstances surrounding the Licensee's apparent use of the source after the license had expired and after receiving notification from the NRC to discontinue use of the material until a new license was obtained. As a result of this investigation, it was determined that on 20 occasions, between October 9, 1992, and February 19, 1993, the Licensee, with the full understanding that use of the source was prohibited, deliberately used the strontium-90 source for patient ophthalmic radiotherapy, in violation of 10 CFR 30.3. In addition, the investigation confirmed that the Licensee deliberately provided false information to the NRC inspector during the December 4, 1992 telephone conversation and during the inspection conducted at the Licensee's facility on February 24, 1993. Specifically, the Licensee told the NRC inspector that the strontium-90 source had not been used for ophthalmic radiotherapy since receipt of the Notice which was issued on September 11, 1992, when in fact the Licensee had used the strontium-90 source at least 20 times between October 9, 1992 and February 19, 1993, which was as recently as five days before the inspection. This deliberate submission of materially false information constitutes violations of 10 CFR 30.9 and 30.10.

III

Based on the NRC inspection and the subsequent investigation, the NRC determined that the Licensee, by continuing to use licensed material after being notified of the expiration of the license which authorized that use and by deliberately providing false information to an NRC inspector, had demonstrated an unwillingness to comply with Commission requirements. The Commission must be able to rely on its licensees to provide complete and accurate information. Willful violations are of particular concern to the Commission because they undermine the Commission's reasonable assurance that licensed activities are being conducted in accordance with NRC requirements. Therefore, on July 21, 1993, the NRC issued an Order to the Licensee requiring the transfer of the strontium-90 source to an authorized recipient within 45 days of the date of the Order. The NRC also issued a Demand for Information with the Order requiring the Licensee to submit a written statement, under oath or affirmation, stating why the NRC should have confidence that in the future the Licensee would comply with NRC requirements or provide complete and accurate information to the NRC.

The Licensee responded to the Order in letters dated September 7 and 13, 1993, and in telephone conversations with the NRC Region II staff on September 10 and 20, 1993. During these communications, the Licensee indicated that he was making a good faith effort to transfer the byproduct material to an authorized recipient. Based on this good faith effort, the NRC by letter dated October 15, 1993, extended the strontium-90 transfer date to December 6, 1993. On January 24, 1994, the Licensee submitted a completed NRC Form 314 notifying the NRC that the strontium-90 source had been transferred to an authorized recipient and provided the documentation required by the Order to demonstrate that the source was tested for leakage prior to the transfer and that the transfer had taken place.

On September 13, 1993, the Licensee responded to the Demand for Information indicating that he did not intend to perform licensed activities or to use the strontium-90 source in his possession, or one in anyone else's possession. Further, in a telephone conversation on June 2, 1994, with Mr. Charles M. Hosey of the NRC Region II office, Dr. Velasquez agreed to the provisions and to the issuance of this Confirmatory Order. I find that the Licensee's commitments as set forth in

that conversation are acceptable and necessary and conclude that with these commitments the public health and safety are reasonably assured. In view of the foregoing, I have determined that the public health and safety require that the Licensee's commitments in the telephone call of June 2, 1994 be confirmed by this Order.

IV

Accordingly, pursuant to Sections 81, 161b, 161i, 160o, 182 and 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations at 10 CFR 2.202 and 10 CFR parts 30 and 35, it is hereby ordered that:

1. For a period of three years from the date of this Confirmatory Order, Guillermo Velasquez, M.D., shall not supervise or engage in any way in NRC-licensed activities. NRC-licensed activities are those activities which are conducted pursuant to a specific or general license issued by the NRC, including, but not limited to, those activities of Agreement State licensees conducted pursuant to the authority granted by 10 CFR 150.20.

2. For a period of three years from the date of this Order, Dr. Velasquez shall provide a copy of this Order to any prospective employer who engages in NRC-licensed activities (as defined in 1. above) prior to his acceptance of employment with such prospective employer. The purpose of this requirement is to ensure that the employer is aware of Dr. Velasquez' prohibition from engaging in NRC-licensed activities.

3. The first time Guillermo Velasquez, M.D., is employed in NRC licensed activities following the three year prohibition, he shall notify the Regional Administrator, NRC Region II, 101 Marietta Street, NW., suite 2900, Atlanta, Georgia 30323, prior to engaging in NRC licensed activities including activities under an Agreement State license when activities under that license are conducted in areas of NRC jurisdiction pursuant to 10 CFR 150.20. The notice shall include the name, address, and telephone number of the NRC or Agreement State licensee and the location where licensed activities will be performed.

The Regional Administrator, NRC Region II, may, in writing, relax or rescind any of the above conditions upon a showing by the Licensee of good cause.

V

Any person adversely affected by this Confirmatory Order, other than the Licensee, may request a hearing within 20 days of the date of its issuance. Any request for a hearing shall be submitted to the Secretary, U.S. Nuclear Regulatory Commission, Attn: Chief, Docketing and Service Section, Washington, DC 20555. Copies shall be sent to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555, to the Assistant General Counsel for Hearings and Enforcement at same address, and to the Regional Administrator, NRC Region II, 101 Marietta Street, NW., suite 2900, Atlanta, Georgia 30323 and to the Licensee. If such a person requests a hearing, that person shall set forth with particularity the manner in which his interest is adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.714(d).

If a hearing is requested by a person whose interest is adversely affected, the Commission will issue an Order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be whether this Confirmatory Order should be sustained.

In the absence of any request for hearing, the provisions specified in section V above shall be final 20 days from the date of this Order without further order or proceedings.

For the Nuclear Regulatory Commission.

Dated at Rockville, Maryland this 3rd day of June 1994.

James Lieberman,

Director, Office of Enforcement.

OFFICE OF PERSONNEL MANAGEMENT

Notice of Request for Reclearance of Forms OPM 1496 and OPM 1496A

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1980 (title 44, U.S. Code, chapter 35), this notice announces a request for reclearance of two information collections. OPM Forms 1496, Application for Deferred Retirement (Separation before October 1, 1956), and 1496A, Application for Deferred Retirement (Separation on or after October 1, 1956), are used by eligible former Federal employees to apply for a deferred Civil Service annuity. Two forms are needed because there was a major revision in the law effective October 1, 1956; this affects the general information provided with the forms.

Approximately 3,000 deferred retirements are processed annually; 200 of these are submitted on OPM Form 1496 and 2,800 are on OPM Form 1496A. Both forms take approximately 60 minutes to complete. The combined annual burden is 3,000 hours.

For copies of this proposal, contact C. Ronald Trueworthy on (703) 908–8550.

DATES: Comments on this proposal should be received within 30 calendar days from the date of this publication on or about July 11, 1994.

ADDRESSES: Send or deliver comments to—

Lorraine E. Dettman, Chief, Operations Support Division Retirement and Insurance Group, U.S. Office of Personnel Management, 1900 E Street, NW., Room 3349, Washington, DC 20415

and

Joseph Lackey, OPM Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, NW, Room 3002, Washington, DC 20503.

FOR INFORMATION REGARDING ADMINISTRATIVE COORDINATION—CONTACT: Mary Beth Smith-Toomey, Chief, Forms Analysis & Design Section (202) 606–0623.

U.S. Office of Personnel Management

Lorraine A. Green,

Deputy Director.

BILLING CODE 6325–01–M

Federal Prevailing Rate Advisory Committee Open Committee Meeting

According to the provisions of section 10 of the Federal Advisory Committee Act (Pub. L. 92–463), notice is hereby given that meetings of the Federal Prevailing Rate Advisory Committee will be held on—

Thursday, July 7, 1994
Thursday, July 21, 1994
Thursday, Aug. 11, 1994
Thursday, Aug. 25, 1994

The meetings will start at 10:45 a.m. and will be held in Room 5A06A, Office of Personnel Management Building, 1900 E Street, NW., Washington, DC.

The Federal Prevailing Rate Advisory Committee is composed of a Chairman, five representatives from labor unions holding exclusive bargaining rights for Federal blue-collar employees, and five representatives from Federal agencies. Entitlement to membership on the Committee is provided for in 5 U.S.C. 5347.

The Committee's primary responsibility is to review the Prevailing Rate System and other matters pertinent to establishing prevailing rates under subchapter IV, chapter 53, 5 U.S.C., as amended, and from time to time advise the Office of Personnel Management.

These scheduled meetings start in open session with both labor and management representatives attending. During the meeting either the labor members or the management members may caucus separately with the Chairman to devise strategy and formulate positions. Premature disclosure of the matters discussed in these caucuses would unacceptably impair the ability of the Committee to reach a consensus on the matters being considered and would disrupt substantially the disposition of its business. Therefore, these caucuses will be closed to the public because of a determination made by the Director of the Office of Personnel Management under the provisions of section 10(d) of the Federal Advisory Committee Act (Pub. L. 92–463) and 5 U.S.C. 552b(c)(9)(B). These caucuses may, depending on the issues involved, constitute a substantial portion of the meeting.

Annually, the Committee publishes for the Office of Personnel Management, the President, and Congress a comprehensive report of pay issues discussed, concluded recommendations, and related activities. These reports are available to the public, upon written request to the Committee's Secretary.

The public is invited to submit material in writing to the Chairman on Federal Wage System pay matters felt to be deserving of the Committee's attention. Additional information on these meetings may be obtained by contacting the Committee's Secretary, Office of Personnel Management, Federal Prevailing Rate Advisory Committee, Room 1340, 1900 E Street, NW., Washington, DC 20415 (202) 606–1500.

Dated: June 2, 1994

Anthony F. Ingrassia,

Chairman, Federal Prevailing Rate Advisory Committee.

BILLING CODE 6325–01–M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–34157; File Nos. SR–Amex–92–35, SR–CBOE–93–59, SR–NYSE–94–17, SR–PSE–94–07, and SR–Phlx–94–10]

Self-Regulatory Organizations; Order Approving Proposed Rule Changes and Notice of Filing and Order Granting Accelerated Approval of Proposed Rule Changes and Amendments Thereto by the American Stock Exchange, Inc., Chicago Board Options Exchange, Inc., New York Stock Exchange, Inc., Pacific Stock Exchange, Inc., and Philadelphia Stock Exchange, Inc., Relating to Narrow-Based Index Options Listing Standards.

June 3, 1994.

I. Introduction

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] and Rule 19b–4 thereunder,[2] on September 23, 1992, December 22, 1993, May 4, 1994, March 3, 1994, and January 31, 1994, the American Stock Exchange, Inc. ("Amex"), the Chicago Board Options Exchange, Inc. ("CBOE"),[3] the New York Stock Exchange, Inc. ("NYSE"),[4] the Pacific Stock Exchange, Inc. ("PSE"),[5] and the Philadelphia Stock Exchange, Inc. ("Phlx"),[6] respectively (each individually referred to herein as an "Exchange" and two or more collectively referred to as "Exchanges"), submitted to the Securities and Exchange Commission ("Commission") proposed rule changes to establish generic listing standards for options on narrow-based indexes, and to adopt streamlined procedures for introducing trading in options that satisfy these listing standards.

On January 5, 1994 and May 25, 1994, the Amex filed Amendment Nos. 1[7] and 2,[8] respectively; on April 8, 1994, the CBOE filed Amendment No. 1;[9] on April 19, 1994, the PSE filed Amendment No. 1;[10] and on April 22, 1994, the Phlx filed Amendment No. 1,[11] to their respective proposals (collectively, "Exchange Amendments").

The Amex and CBOE proposals were published for comment in the **Federal Register** on November 25, 1992 and February 25, 1994, respectively.[12] No comments were received on these proposed rule changes. This order approves the Exchanges' proposals and the Exchange Amendments.

II. Description of Proposals

The Exchanges have submitted substantively identical proposals to the Commission to amend their respective rules[13] to establish generic listing

---

[1] 15 U.S.C. 78s(b)(1) (1988).

[2] 17 CFR 240.19b–4 (1993).

[3] On December 14, 1992, the CBOE submitted a filing (SR–CBOE–92–39) covering the same subject matter of the present filing. The CBOE withdrew the filing on April 1, 1994.

[4] On January 22, 1993, the NYSE submitted a filing (SR–NYSE–93–05) covering the same subject matter of the present filing. The NYSE withdrew SR–NYSE–93–05 on May 4, 1994, upon its submission of the present filing.

[5] On June 15, 1993, the PSE submitted a filing (SR–PSE–93–11) covering the same subject matter of the present filing. The PSE withdrew SR–PSE–93–11 on April 20, 1994. See Letter from David P. Semak, Vice President, Regulation, PSE, to Sharon Lawson, Assistant Director, Division of Market Regulation, Commission, dated April 20, 1994.

[6] On June 21, 1993, the Phlx submitted a filing (SR–Phlx–93–01) covering the same subject matter of the present filing. The Phlx withdrew SR–Phlx–93–01 on January 31, 1994, upon its submission of the present filing.

[7] In Amendment No. 1, the Amex substantially amended the substance of its original filing to conform its proposal to the CBOE's proposal.

[8] In Amendment No. 2, the Amex provided the proposed text of the rule change, and amended its proposal: (1) To provide that a narrow-based index that is calculated using an equal-dollar weighted methodology will be rebalanced quarterly; and (2) to provide that if a narrow-based index is maintained by a broker-dealer, the index will be calculated by a third party that is not a broker-dealer.

[9] In Amendment No. 1, the CBOE: (1) Clarified in the text of the proposed rule change that its proposal would apply to options on narrow-based indexes only; and (2) stated that the procedures proposed in its filing pertaining to the listing of new narrow-based index options would apply to all narrow-based index options permitted under the CBOE's rules, including options with terms from 12 to 36 months ("long-term options") that satisfy the requirements of CBOE Rule 24.9(b). See Letter from Michael L. Meyer, Schiff Hardin & Waite, to Michael A. Walinskas, Chief, Options Branch, Division of Market Regulation, Commission, dated April 7, 1994.

[10] In Amendment No. 1, the PSE stated that the procedures in its proposal pertaining to the listing of new, narrow-based index options would apply to all narrow-based index options permitted under the PSE's rules, including long-term options that satisfy the requirements of PSE Rule 7.8. See Letter from Michael D. Pierson, Senior Attorney, Market Regulation, PSE, to Thomas N. McManus, Division of Market Regulation, Commission, dated April 11, 1994.

[11] In Amendment No. 1, the Phlx: (1) Amended the proposed rule text to clarify that the proposed rule would apply to options on narrow-based indexes only; and (2) to state that if the Phlx determines to list long-term options or reduced-value long-term options on any new indexes filed pursuant to the proposed rule, they would be listed in accordance with existing Phlx rules governing long-term options. See Letter from Michele R. Weisbaum, Associate General Counsel, Phlx, to Michael Walinskas, Branch Chief, Division of Market Regulation, Commission, dated April 19, 1994.

[12] See Securities Exchange Act Release Nos. 31474 (November 17, 1992), 57 FR 55605 (November 25, 1994) (Amex); and 33636 (February 17, 1994), 59 FR 9262 (February 25, 1994) (CBOE).

[13] Amex Rule 901C; CBOE Rule 24.2; NYSE Rule 715; PSE Rule 7.3; and Phlx Rule 1009A.

standards for options on narrow-based indexes (also known as sector or industry indexes) and procedures designed to expedite the approval of trading of such products. Currently, an Exchange must submit a proposed rule change to the Commission for review in accordance with section 19(b)(2) of the Act ("section 19(b)(2)"), and Rule 19b–4 thereunder, in order to list for trading options on a particular index. The Exchanges' proposed rule changes would permit an Exchange to list classes of options on a particular narrow-based index [14] that satisfy specified generic listing standards, pursuant to a filing submitted to the Commission for effectiveness immediately upon filing under section 19(b)(3)(A) of the Act ("section 19(b)(3)(A)").[15] Under the streamlined procedures, trading in options on the narrow-based index could commence 30 days from the date of filing of the proposal to list such options.

A. Listing and Maintenance Listing Standards

In order to qualify for the streamlined listing procedures, the particular narrow-based index underlying the proposed narrow-based index options must satisfy all of the following initial listing standards, and continue to satisfy the following maintenance listing criteria.[16]

1. Standards Relating to Component Stocks

The proposed initial listing and maintenance listing standards require that all component stocks be deemed "reported securities," as that term is defined in Rule 11Aa3–1 under the Act.[17] Upon the initial listing of narrow-based index options approved for trading pursuant to the procedures contained in this order, the underlying index must include at least ten component stocks. Thereafter, the index must contain at least nine component stocks at all times. In addition, the number of component stocks may not increase or decrease by a number exceeding 33⅓ percent of the number of stocks comprising the index at the time of its initial listing.

Both initial and maintenance listing standards require that the component stocks comprising the top 90 percent of the index, by weight, must have a minimum market capitalization of $75 million. In addition, the component stocks constituting the bottom 10 percent of the index, by weight, must have a minimum market capitalization of $50 million.

The listing and maintenance listing standards also include trading volume requirements. The component stocks comprising the top 90 percent of the index, by weight, must have a monthly trading volume of at least one million shares per month over the six months preceding the filing of the index with the Commission; thereafter, the component stocks must maintain monthly trading volume of at least 500,000 shares per month. The trading volume for the component stocks constituting the bottom 10 percent of the index, by weight, must have been at least 500,000 shares over the same period; thereafter, they must maintain an average monthly trading volume of at least 400,000 shares per month. If the index is capitalization-weighted, and it contains 15 or more component stocks, the top five weighted component stocks each must have an average monthly trading volume over the six months preceding the filing of the index with the Commission of at least two million shares; thereafter, it must maintain an average monthly trading volume over the prior six months of at least one million shares. If a capitalization-weighted index contains less than 15 component stocks, those component stocks comprising the top 30 percent of the total number of stocks in the index each must have an average monthly trading volume over the six months preceding the filing of the index with the Commission of at least two million shares; thereafter, it must maintain an average monthly trading volume over the prior six months of at least one million shares.

Initially and thereafter, no inidividual component stock in the index may represent more than 25 percent of the weight of the index. In addition, initially and thereafter, where an index is comprised of less than 25 stocks, the top five highest weighted stocks may not constitute more than 60 percent of the weight of the index; and where an index is comprised of 25 stocks or more, the top five highest weighted stocks may not represent more than 50 percent of the weight of the index.

At all times, at least 90 percent of the stocks in the index, by weight, and 80 percent of the total number of stocks comprising the index, individually must satisfy the particular Exchange's rules governing the listing and maintenance of listing of options thereon.

Both initial and maintenance listing standards require that no more than 20 percent of the securities in the index, by weight, may be comprised of foreign securities or American depositary receipts ("ADRs") overlying foreign securities that are not subject to comprehensive surveillance sharing agreements between the particular U.S. options Exchange and the primary exchange on which the foreign security underlying the ADR is traded.[18]

2. Standards Relating to the Index and Options Thereon

A narrow-based index subject to the requirements of this order must be cash-settled. The index value may be calculated only pursuant to a capitalization, price, or equal-dollar weighted methodology.[19] The index value must be disseminated at least once every 15 seconds during the trading hours of the index. The settlement value of expiring index options must be based upon the opening prices of the component securities on

---

[14] This order approves generic listing standards and streamlined procedures for approval with respect to options on narrow-based indexes only. The proposed rule changes approved herein do not pertain to the listing of options on broad-based indexes.

[15] In the event that proposed narrow-based index options do not qualify for expedited approval under these new standards, the Exchanges will not be foreclosed from filing a proposed rule change for Commission review pursuant to section 19(b)(2).

[16] These standards were established in a coordinated effort with representatives of the Exchanges, and are consistent with many of the criteria that are currently utilized by the Commission in its review of options on narrow-based stock indexes.

[17] See 17 CFR 240.11Aa3–1. A "reported security" is defied in paragraph (a)(4) of this rule as "any listed equity security or Nasdaq security for which transaction reports are required to be made on a real-time basis pursuant to an effective transaction reporting plan." A "transaction reporting plan" is defined in paragraph (a)(2) of this rule as "any plan for collecting, processing, making available or disseminating transaction reports with respect to transactions in reported securities filed with the Commission pursuant to, and meeting the requirements of, this section." Accordingly, a proposed narrow-based index currently can only be comprised of exchange-listed and Nasdaq National Market securities.

[18] See e.g., Securities Exchange Act Release No. 31529 (November 27, 1992), 57 FR 57248 (December 3, 1992) ("Release No. 34–31529"). To the extent that at least 50 percent of the world-wide trading volume of the underlying security occurs in the U.S. ADR market, the Commission has permitted the Exchanges to list options thereon without the existence of such a comprehensive surveillance sharing agreement. Following such initial listing, at least 30 percent of the world-wide trading volume must continue to occur in the U.S. trading market. See, e.g., Securities Exchange Act Release No. 33555 (January 31, 1994), 59 FR 5619 (February 7, 1994) ("Release No. 33555"). Accordingly, because no comprehensive surveillance sharing agreement is required with respect to ADRs satisfying the 50 percent volume requirement, and the 30 percent maintenance volume requirement, such ADRs may be excluded in determining whether the 20 percent restriction has been exceeded. See Release No. 33555, to determine how to calculate the 50 percent and 30 percent world-wide trading volume requirements.

[19] An index whose value is calculated pursuant to an equal dollar weighted methodology must be rebalanced at least once every calendar quarter.

the primary exchange on which they are traded (or on the Nasdaq National Market) (otherwise known as "A.M. settlement") on the applicable expiration date.[20]

If a narrow-based index is maintained by a broker-dealer, it shall be calculated by a third party that is not a broker-dealer. Further, appropriate procedures must be established by the Exchange and the broker-dealer to ensure that the broker-dealer will not possess or be able to misuse any informational advantages with respect to changes in the composition or the level of such index. Such procedures must include, for example, the establishment of appropriate informational barriers.

The streamlined procedures described herein pertaining to the listing of new narrow-based index options would apply to all narrow-based index options permitted under the rules of the Exchanges, including long term options and reduced-value long-term options that otherwise satisfy the particular Exchange's rules governing long-term options and reduced-value long-term options.[21]

In the event that a class of narrow-based index options listed on an Exchange pursuant to the streamlined listing procedures described herein fails to satisfy one or more of the required maintenance criteria, the Exchange responsible for that index option must notify the Commission staff immediately upon discovery of such failure. Further, the Exchange shall not open for trading any additional series of options on that class unless the Exchange determines that such failure is not significant, and the Commission affirmatively concurs in that determination, or unless the Commission specifically approves the continued listing of that class of index options pursuant to a proposal filed in accordance with Section 19(b)(2).

B. Review Procedure

If a particular narrow-based index (and options thereon) proposed by an Exchange satisfy the foregoing generic listing standards, then such Exchange may vial itself of certain streamlined listing procedures. The procedures proposed in the Exchanges' filings are designed to allow them to list narrow-based index options without undergoing the formal process of review and approval by the Commission pursuant to section 19(b)(2). An Exchange would be required to submit its proposal in draft form to Commission staff at least one week prior to the Exchange's formal filing of the rule change proposal. The Exchange would then submit its formal rule change proposal for effectiveness immediately upon filing, pursuant to section 19(b)(3)(A). However, to allow the Commission adequate opportunity to verify the representations made by the Exchange in its proposal and review and address any concerns raised by the proposal or by commenters, the Exchange would be allowed to establish a trade date for the commencement of trading of options on the index no earlier than 30 days from the date of the formal filing of the proposal.

If the Commission determines that the Exchange proposal does not satisfy the generic standards, or if the Commission deems it necessary or appropriate in the public interest or for the protection of investors, the Commission, pursuant to section 19(b)(3)(C) of the Act, has 60 days from the date of the filing of the Exchange's proposal to abrogate the Exchange's rule change and require that the Exchange refile the proposed rule change for formal Commission review pursuant to section 19(b) (1) and (2).

III. Commission Findings and Conclusions

A. Generic Listing Standards

The Commission finds that the proposed rule changes are consistent with the requirements of section 6(b)(5) of the Act and the rules and regulations thereunder applicable to a national securities exchange. Specifically, the Commission finds that the Exchange's proposals to establish generic listing standards for narrow-based index options strike a reasonable balance between the Commission's mandates under section 6(b)(5) to remove impediments to and perfect the mechanism of a free and open market and a national market system, while protecting investors and the public interest. Thus, the Commission finds that the listing by an Exchange of options on particular narrow-based indexes, in accordance with the requirements stated herein, will constitute a stated policy, practice, or interpretation with respect to the administration of an existing Exchange rule, pursuant to section 19(b)(3)(A), relieving the Exchange of the former requirement of obtaining specific Commission approval of such narrow-based index options pursuant to section 19(b)(2).

The Commission believes that trading options on an index (including a narrow-based index) of securities permits investors to participate in the price movements of the index's underlying securities, and allows investors holding positions in some or all of such securities to hedge the risks associated with their portfolios. The Commission further believes that trading options on an index provides investors with an important trading and hedging mechanism that is designed to reflect accurately the overall movement of the component stocks.

Currently, when an exchange intends to list options on an index of securities which the Commission has not specifically approved previously for the listing and trading of such index options, the Exchange must submit a proposed rule change to the Commission pursuant to section 19(b)(1) of the Act and Rule 19b–4 thereunder. Pursuant to section 6(b)(5) of the Act, the Commission must find, among other things, that trading in options on the particular index will serve to protect investors and contribute to the maintenance of fair and orderly markets. In this regard, the Commission must predicate approval of any new option proposal upon a finding that the introduction of such derivative instrument is in the public interest. Such a finding would be difficult for a derivative instrument that served no hedging or other economic function, because any benefits that might be derived by market participants likely would be outweighed by the potential for manipulation, diminished public confidence in the integrity of the markets, and other valid regulatory concerns.

Accordingly, before approving an Exchange proposal to list options on a particular index, and consistent with its legislative mandate, the Commission must conclude that the Exchange has addressed several issues pertaining to the particular index, including the design and structure of the index, customer protection, surveillance, and market impact. Specifically, with respect to index design and structure, the Commission takes into account, among other things, the number of securities comprising the index, the market capitalizations of the component securities, their relative weightings in the index, their trading volume, and the extent to which the component securities individually, satisfy the Exchange's requirements for the listing of equity options thereon. It is with respect to these criteria, among others,

[20] In the event that a component security did not open for trading on the expiration date of a series of index options, the last sale price for that security shall be used in calculating the index value.

[21] The CBOE has represented that, if it proposes to list reduced-value long-term options on a narrow-based index pursuant to section 19(b)(3)(A) in accordance with this order, it would include as a part of its rule filing an amendment to the list of indexes on which reduced-value long-term options are traded, as set forth in CBOE Rule 24.9(b)(2)(A)

that this order establishes generic standards which, if satisfied, would allow an Exchange to file a proposed rule change, effective immediately upon filing, to list and trade options on a particular narrow-based index 30 days from the filing date.[22]

The Commission believes that the listing and maintenance listing standards set forth herein are consistent with the criteria currently utilized in the Commission's case-by-case consideration of narrow-based index option proposals, and are reasonably designed to ensure the protection of investors and the public interest. Specifically, the Commission finds that the generic standards covering minimum capitalization, monthly trading volume, and relative weightings of component stocks are designed to ensure that the trading markets for component stocks are adequately capitalized and sufficiently liquid, and that no one stock or stock group dominates that index. Thus, the Commission believes that the satisfaction of these requirements significantly minimizes the potential for manipulation of the index.

Two other important requirements are that at least 90 percent of the component stocks, by weight, must be eligible individually for options trading, and that no more than 20 percent of the index may be comprised of ADRs which are not subject to a comprehensive surveillance sharing agreement. The Commission believes that these standards are necessary to ensure that index options are not used as surrogate instruments to trade options on stocks and/or ADRs that otherwise are not eligible for options trading.

The Commission also believes that the number of securities required to constitute the narrow-based index is large enough to ensure that an index is not created for the purpose of obtaining more favorable regulatory treatment, e.g., with respect to position and exercise limits, as compared with the trading of options in the underlying stocks.

The Commission also finds the requirements that all securities comprising the index be "reported securities," as defined in Rule 11Aa3–1 under the Act, and that the index value be disseminated at least once every 15 seconds during trading hours of the index, will contribute significantly to the transparency of the market for such index options.[23] The Commission further believes that basing the settlement value of expiring index options upon the opening prices of the component securities on the primary exchange on which they are traded (or on the Nasdaq National Market) may help contain the volatility of related markets upon their expiration.

The Commission notes that an Exchange which lists options pursuant to this order must notify the Commission immediately upon discovering that such options have failed to satisfy the maintenance listing standards described herein, and is prohibited from listing any additional series of such options unless the Exchange, with the affirmative concurrence of the Commission, determines that such failure is insignificant. The Commission believes that this requirement helps to ensure the continued compliance of such new option products with the standards set forth in this order, and confirms the obligation of the Exchanges to monitor all series of options listed thereon to ensure that they continue to satisfy the maintenance listing standards prescribed in their respective rules. On the other hand, this requirement will allow the Commission to provide flexibility on the issue of continued listing, where the failure to meet a particular standard is insignificant and will not hinder the protection of investors or cause the index to be susceptible to manipulation.

The Commission further notes that each of the Exchanges' rules that are applicable to narrow-based index options, including provisions addressing sales practices, floor trading procedures, position and exercise limits,[24] margin requirements, and trading halts and suspensions, will continue to apply to any narrow-based index listed pursuant to the streamlined approval procedures described herein.

Finally, the Commission generally believes that a surveillance sharing agreement between an Exchange proposing to list a stock index derivative product and the exchange(s) trading the stocks underlying the derivative product is an important measure for surveillance of the derivative and underlying securities markets. Such agreements ensure the availability of information necessary to detect and deter potential manipulations and other trading abuses, thereby making the stock index product less readily susceptible to manipulation. In this regard, all of the Exchanges, as well as the National Association of Securities Dealers, Inc. ("NASD"), are members of the Intermarket Surveillance Group ("ISG"), which provides for the exchange of all necessary surveillance information.[25] In light of the Exchanges' membership in the ISG, and the fact that the generic listing and maintenance listing standards ensure that all stocks (and ADRs) comprising a narrow-based index being added pursuant to this order would be listed on a U.S. exchange (or quoted on and traded through the Nasdaq National Market), the Commission is satisfied that the ISG Agreement would cover investigations and inquiries regarding trading activity in options on narrow-based indexes and their underlying component securities. In addition, the Commission finds that the requirement that no more than 20 percent of the weight of the index may be comprised of ADRs that are not subject to a comprehensive surveillance sharing agreement between the particular U.S. exchange and the primary market of the underlying security will continue to ensure that the Exchanges have the ability to adequately surveil trading in the narrow-based index options and the ADR components of the index.[26]

B. Commission Review of Exchange Proposals

The Commission finds that the review procedures provide the Commission with sufficient opportunity to examine the representations made by an Exchange in connection with its listing of options on a narrow-based index pursuant to section 19(b)(3)(A). Specifically, the Commission believes that the seven day prefiling requirement gives the Commission staff an

---

[22] The Commission reiterates that an Exchange would not be foreclosed from pursuing formal Commission review of a proposal to list options on a narrow-based index that do not qualify for effectiveness upon filing under section 19(b)(3)(A). See supra note 15.

[23] Currently, only exchange-traded securities and Nasdaq National Market securities qualify as "reported securities." See supra note 17.

[24] In its section 19(b)(3)(A) filing, an Exchange must specify the applicable position limits for options on the narrow-based index.

[25] The ISG was formed on July 14, 1983, among other things, to coordinate more effectively surveillance and investigative information sharing arrangements in the stock and options markets. See Intermarket Surveillance Group Agreement, dated July 14, 1983. The most recent amendment to the ISG Agreement, which incorporates the original agreement and all amendments made thereafter, was signed by ISG members on January 29, 1990. See Second Amendment to the Intermarket Surveillance Group Agreement, dated January 29, 1990.

[26] As noted above, comprehensive surveillance sharing agreements must be in place with the markets underlying ADRs representing at least 80 percent of the weight of the index unless the ADR meets the 50 percent U.S. trading volume test (and the 30 percent maintenance volume test). See supra note 18. In addition, by virtue of the Exchange's and the NASD's membership in the ISG, the Exchanges would have the ability to obtain surveillance information regarding trading in the ADR. See Release No. 34–31529, supra note 18.

opportunity to discuss with an Exchange whether its proposal to list and trade particular narrow-based index options properly qualifies for effectiveness upon filing. In addition, the Commission finds that the 30 day delay in the commencement of trading of proposed narrow-based index options will provide a meaningful opportunity for public comment prior to the commencement of trading, while also providing the Exchanges with the opportunity to inform market participants in advance of the proposed trade date for a new index option. In accordance with section 19(b)(3)(C) of the Act, if the Commission determines that the rule change proposal is inconsistent with the requirements of the Act and the rules and regulations thereunder, the 30 day delay would allow the Commission to abrogate the rule change before trading commences, which will minimize disruption on market participants. This authority could be utilized if, for example, it is determined that the proposed narrow-based index option does not satisfy the applicable generic listing standards.

The Commission notes that its ability to review an Exchange's proposal submitted under the procedures outlined herein would not necessarily be limited to determining whether proposed narrow-based index options satisfy the generic standards. Rather, the Commission will have an opportunity to determine whether the proposed index options raise other regulatory concerns that should be addressed before trading commences. For example, the Commission will have an opportunity to determine whether the listing and trading of options on the new narrow-based index will have an adverse impact on the underlying securities markets.[27]

In summary, if the Commission determines that a proposed index option product does not completely satisfy the generic listing standards, or if based on the foregoing considerations it generally appears to the Commission to be necessary or appropriate in the public interest or for the protection of investors, the Commission, within 60 days of the Exchange's filing, may summarily abrogate the Exchange's rule change and require that the rule proposal be filed with the Commission pursuant to sections 19(b) (1) and (2) of the Act. Although the purpose of streamlining the review of new narrow-based index options by creating generic standards is to facilitate the Exchanges' ability to list such new products as the demand for them arises, the Commission believes nevertheless that its authority to abrogate such a rule change proposal supplies a significant regulatory check on the Exchanges to ensure that these new standards are implemented properly.

C. Accelerated Approval of Proposed Rule Changes and Exchange Amendments

The Commission finds good cause for approving the proposed rule changes filed by the NYSE, PSE, and Phlx, and the Exchange Amendments, prior to the thirtieth day after the date of publication on notice of filing thereof in the **Federal Register.** The rule changes proposed by the NYSE, PSE, and Phlx, and Amex Amendment Nos. 1 and 2, conform their proposals to the CBOE's proposal. Further, the CBOE's proposal was published for the full 21-day comment period, and no comments were received. With the exception of Amex Amendment Nos. 1 and 2, the Exchange Amendments clarify, but do not change, the proposed rule changes. The Commission finds, therefore, that no new regulatory issues are raised by the foregoing proposed rule changes and the Exchange Amendments. Accordingly, the Commission believes it is consistent with sections 19(b)(2) and 6(b)(5) of the Act to approve the NYSE, PSE, and Phlx proposed rule changes and Exchange Amendments on an accelerated basis.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the NYSE, PSE, and Phlx proposed rule changes and Exchange Amendments. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the foregoing that are filed with the Commission, and all written communications relating to the foregoing between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC. Copies of such filings also will be available for inspection and copying at the principal office of the above-mentioned self-regulatory organizations. All submissions should refer to the appropriate file number(s) in the caption above and should be submitted by July 1, 1994.

It is therefore ordered, pursuant to section 19(b)(2) of the Act,[28] that the proposed rule changes (File Nos. SR-Amex-92-35, SR-CBOE-93-59, SR-NYSE-94-17, SR-PSE-94-07, and SR-Phlx-94-10), as amended, are approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[29]

Jonathan G. Katz,

Secretary.

Self-Regulatory Organizations; The Depository Trust Company; Order Approving a Proposed Rule Change to Add a Standing Instruction Database to the Institutional Delivery System

June 6, 1994.

On January 31, 1994, The Depository Trust Company ("DTC") filed with the Securities and Exchange Commission ("Commission") a proposed rule change (File No. SR-DTC-94-01) under Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")[1] to implement the standing instruction database feature of the enhanced institutional delivery ("ID") system.[2] Notice of the proposal was published in the **Federal Register** on March 4, 1994.[3] The Commission received three comment letters supporting implementation of the proposal.[4] The Commission also received one comment letter that discussed the structure of current self-

---

[27] An Exchange, in conjunction with a section 19(b)(3)(A) rule filing to list options on a narrow-based index, must provide the Commission with written representations that both the Exchange and the Options Price Reporting Authority have the necessary systems capacity to support those new series of options to be generated by the narrow-based index.

Minnig, Chairman, Securities Operations Division, Regulatory & Clearance Committee of the Securities Industry Association, to Jonathan G. Katz, Secretary, Commission (April 29, 1994), and from Lawrence Morillo, Senior Vice President, Pershing, Division of Donaldson, Lufkin & Jenrette Securities Corporation, to Jonathan G. Katz, Secretary, Commission (May 12, 1994).

regulatory organization ("SRO") confirmation/acknowledgement rules and a response to the comment letter from DTC.[5] For the reasons discussed below, the Commission is approving the proposed rule change.

I. Description

The standing instruction database is a central repository for customer account and settlement information furnished by institutions, agents, and broker-dealers. The information contained therein includes items such as the agent for an institutional customer, the agent's internal account number for the institutional customer, and interested parties. Using the standing instruction database, a broker-dealer can link its internal account numbers for its institutional customers with the institutional customers' internal account numbers. When entering trade data into the ID system, a broker-dealer can simply refer to its internal account number in the standing instruction database, and the ID system will extract the necessary information (such as customer name, agent, interested parties, and settlement related information) from the database and automatically will add the information to the confirmation. The standing instruction database will eliminate the need for the broker-dealer to provide such information each time that the broker-dealer enters trade data into the ID system.

The standing instruction database is an account level optional feature for ID users. A broker-dealer with many institutional accounts can designate that only specified accounts access the standing instruction database. If an account is not designated to access the standing instruction database, the broker-dealer will provide the ID system with the type of information that is contained in the database. However, once a broker-dealer links its internal customer account number with account information furnished to the database by the institutional customer, the data will be used for certain fields in ID system processing when the broker-dealer submits trade data for that institutional customer's trades regardless of whether the broker-dealer submits data for those fields. Participants will have the ability to enter a standing instruction database change with a specific effective date by specifying on which date the addition, change, or deletion should take effect.

II. Discussion

Section 17A(b)(3)(F) of the Act requires that the rules of a clearing agency, such as DTC, be designed to promote the prompt and accurate clearance and settlement of securities transactions.[6] As discussed below, the Commission believes that DTC's proposed rule change is consistent with this obligation.

The institutional delivery system provides an effective electronic communication network that replaces the written documents that used to be passed among broker-dealers, investment managers, and custodian banks in order for these parties to settle transactions within the regular-way (five business day) settlement cycle. In order to facilitate timely settlement of institutional trades, which constitute a significant percentage of all market trades, several self-regulatory organizations amended their rules in 1982 to require broker-dealers that extend delivery versus payment credit privileges on transactions in depository eligible securities to use the facilities of a registered securities depository for the confirmation, affirmation, and settlement of these transactions.[7] Those changes were designed to facilitate routine trading volume of 100 million shares. In the twelve years since the use of a registered securities depository for generating confirmations and affirmations became mandatory, the U.S. securities markets have handled unprecedented volume and routinely settle trading of 300-400 million shares daily.

DTC's proposal expands the range of functions available to users of the ID system. In particular, the proposal will allow broker-dealers, institutions, and agents to leave with DTC certain trade settlement information that routinely appears on each confirmation and to draw on that information quickly when formatting confirmations. This will promote the prompt and accurate clearance and settlement of securities transactions consistent with Section 17A of the Act.

During the last twelve years, private vendors have offered services that are based on the ID system and encompass some of the features that DTC now proposes to offer its participants. One such service provides database features which allow institutions to advise broker-dealers how to allocate trades among institutional clients and which supply that data to DTC's ID system to be used in generating confirmation and affirmations. The Commission is satisfied that these private vendors will be able to continue to provide these services and supply data to ID.

The standing instruction databases, along with the other enhancements to DTC's ID system,[8] also will facilitate the industry's conversion to a three business day settlement cycle which will be the standard settlement time for most broker-dealer trades beginning June 1, 1995.[9]

III. Conclusion

On the basis of the foregoing, the Commission finds that the proposed rule change is consistent with the requirements of the Act and in particular with the requirements of Section 17A of the Act and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,[10] that the proposed rule change (File No. SR–DTC–94–01) be, and hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.[11]

---

[5] In its comment letter, Thomson Financial Services ("Thomson") agreed that DTC's proposal is consistent with Section 17A of the Act but also asserts that the current self-regulatory organization rules that require the use of the facilities of a registered securities depository for the confirmation and acknowledgement of all depository eligible transactions and DTC's status as a registered securities depository preclude vendors from competing with DTC in supplying electronic trade confirmation services. Letter from Dr. Keith B. Jarrett, President, Thomson Trading Services, Inc. (A Thomson Financial Services Company), to Jonathan A. [sic] Katz, Secretary, Commission (March 25, 1994) ("Thomson letter").

DTC's response to the Thomson letter disputed the statement that DTC's status as a registered securities depository creates an anticompetitive environment and precludes Thomson from providing electronic trade confirmation services. DTC also stressed that the Commission's review of the standing instruction database feature of the enhanced ID system was not the proper forum for the initial consideration of the propriety of SRO rules that require the use of a registered securities depository for the confirmation and acknowledgment of transactions in depository eligible securities. Letter from Carl H. Urist, Deputy General Counsel and Vice President, DTC, to Jonathan G. Katz, Secretary, Commission, (April 15, 1994) ("DTC's response").

The Commission believes that the issues raised by the Thomson letter and DTC's response need not be resolved prior to the approval of the standing instruction database feature of the enhanced ID system. The Commission understands that discussions regarding Thomson's concerns are underway among Thomson, DTC, and the Securities Industry Association.

Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change by International Securities Clearing Corporation Relating to an Amendment to the Linkage Agreement With Japan Securities Clearing Corporation

June 6, 1994.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] notice is hereby given that on May 26, 1994, International Securities Clearing Corporation ("ISCC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by ISCC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

ISCC is filing the proposed rule change to amend its linkage agreement with the Japan Securities Clearing Corporation ("JSCC") to allow ISCC to provide JSCC access, through ISCC, to the National Securities Clearing Corporation ("NSCC") New York Window ("NYW") services.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, ISCC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. ISCC has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis For, the Proposed Rule Change

(a) ISCC is a wholly owned subsidiary of NSCC and is a member of NSCC for the purposes of obtaining access to NSCC services on behalf of foreign financial institutions with whom ISCC enters into linkage agreements. JSCC is a wholly owned subsidiary of the Tokyo Stock Exchange and provides clearing services for securities listed on stock exchanges in Japan. JSCC acts as the central depository for foreign shares, including U.S. shares, listed on stock exchanges in Japan for the benefit of the beneficial owners thereof. It appoints local custodians with respect to non-Japanese securities. In 1988, ISCC and JSCC entered into a linkage agreement which permitted JSCC to obtain access through ISCC to certain services of the Depository Trust Company ("DTC") for U.S. shares listed on stock exchanges in Japan and included in JSCC's central depository clearing system for foreign shares. ISCC and JSCC are entering into an amendment to the linkage agreement which will permit JSCC to obtain access through ICC to NSCC's NYW services for initial public offerings of U.S. securities listed on exchanges in Japan until such time as such securities are eligible for deposit at DTC. The services provided through the NYW will be similar to that which JSCC obtains through ISCC from DTC for DTC eligible securities. Deliveries and receives of these securities would be free of payment and would be initiated based on instructions received from JSCC. The securities held by NSCC would be used as the basis for the bookkeeping entries at JSCC. At such time as these securities become eligible at DTC they would be deposited at DTC for credit to the account of JSCC. At that time, the services that ISCC. At that time, the services that ISCC provides to JSCC for these issues will be the services covered under the terms of the original linkage agreement.

(b) The proposed rule changes fosters cooperation and coordination with persons engaged in the clearance and settlement of securities transactions and as such is therefore consistent with Section 17A of the Act.

B. Self-Regulatory Organization's Statement on Burden on Competition

ISCC does not believe that the proposed rule change imposes any burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

ISCC has received no written comments. ICC will notify the Commission of any written comments received by ISCC.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action.

Within thirty-five days of the date of publication of this notice in the **Federal Register** or within such longer period: (i) As the Commission may designate up to ninety days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consent, the Commission will:

A. By order approve the proposed rule change, or

B. Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC, 20549. Copies of such filing also will be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization.

All submissions should refer to File No. SR–ISCC–94–2 and should be submitted by July 1, 1994.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,
Secretary.

[Release No. 34–34162; File No. SR–MSRB–94–7]

Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change by the Municipal Securities Rulemaking Board; Relating to Recordkeeping and Record Retention Requirements Concerning Gifts and Gratuities

June 6, 1994.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on May 26, 1994, the Municipal Securities Rulemaking Board ("Board" or "MSRB") filed with the Securities and Exchange Commission ("Commission") a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The purpose of the proposed rule change is to require municipal securities dealers to keep records of gifts and gratuities given to others, including issuer officials and employees, in relation to municipal securities activities. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Board is filing amendments to rule G–8 and G–9, on recordkeeping and record retention, that relate to rule G–20, on gifts and gratuities concerning suitability of recommendations. The proposed rule change requires dealers to keep records of gifts and gratuities given to others, including issuer officials and employees, in relation to municipal securities activities. The Board is requesting that the rule change become effective 30 days after approval by the Commission.

II. Self-Regulatory Organization's Statement of the Purpose Of, and Statutory Basis For, the Proposed Rule Change

In its filing with the Commission, the Board included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose Of, and Statutory Basis For, the Proposed Rule Change

Rule G–20 is intended to prevent commercial bribery. The rule has three basic parts. First, rule G–20(a) prohibits dealers from, directly or indirectly, giving or permitting to be given any thing or service of value in excess of $100 per year to any person, other than to an employee or partner of the dealer, in relation to municipal securities activities of the person's employer.[1] All gifts given by a dealer and its associated persons are used to compute the $100 limitation. The $100 limitation applies to gifts and gratuities to customers, individuals associated with issuers, and employees of other dealers. In addition, based on the rule's "directly or indirectly" language, if a third party (e.g., a consultant hired by a dealer) gives a gift to any such person at the request of the dealer, the value of the gift would be included in the $100 limitation.

Second, rule G–20(b) exempts certain payments from the $100 annual limit set forth in paragraph (a). These payments are termed "normal business dealings" and are defined as occasional gifts of meals or tickets to theatrical, sporting, and other entertainments, as well as the sponsoring of legitimate business functions that are recognized by the IRS as deductible business expenses, and gifts or reminder advertising. However, the rule also provides that such gifts cannot be so frequent or so expensive as to raise a suggestion of unethical conduct.

Finally, rule G–20(c) provides that contracts of employment with or compensation for services rendered are not considered gifts or gratuities subject to the $100 limitation. Such arrangements, however, must be in writing and must include the nature of the proposed services, the amount of the proposed compensation, and the written consent of such person's employer.

In 1993, the municipal securities market came under increased scrutiny because of concerns that municipal securities dealers were influencing municipal securities issuers to hire such dealers for municipal securities business through the payment of political contributions and other monies to persons with influence over the dealer selection process. While the Board addressed the issue of political contributions through rule G–37, the Board was concerned that other activities, such as excessive gifts, also might be viewed as influencing the dealer selection process.

The proposed rule change requires dealers to keep and retain specific records of all gifts and gratuities subject to paragraph (a) of the rule.[2] The proposed rule change also requires dealers to keep and retain records of all contracts of employment or agreements for compensation for services and all compensation paid as a result of those agreements. These amendments are consistent with the rules of other self-regulatory organizations. The Board believes that the amendments to the recordkeeping and record retention requirements related to gifts and gratuities will facilitate dealer compliance with rule G–20, and assist enforcement agencies in monitoring for compliance with the rule.

The Board believes that the proposed rule change is consistent with section 15B(b)(2)(C) of the Act, which provides that the Board's rules shall be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in municipal securities, to remove impediments to and perfect the mechanism of a free and open market in municipal securities, and, in general, to protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Board does not believe that the proposed rule change imposes any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

In January 1994, the Board published for comment the proposed rule change.[3] The Board received one comment letter that supported the proposed amendments to rules G–8 and G–9 to

[1] "Person" has been interpreted by the Board in the context of rule G–20 to apply only to natural persons because the intent of the rule is to discourage dealers from inducing individual employees to act in a manner inconsistent with their obligations to, or contrary to the interests of, their employers. MSRB Interpretation of March 19, 1980, MSRB Manual (CCH) ¶ 3571.24

[2] The proposed rule change also clarifies that dealers complying with Rule 17a–3 of the Act are required to maintain this information.

[3] MSRB Reports, Vol. 14, No. 1 (January 1994) at 11–12. The request for comment also requested information and comment on a number of specific questions regarding dealings with issuer officials

strengthen the Board's recordkeeping and record retention requirements.[4]

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period: (i) As the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of the filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted by July 1, 1994.

For the Commission by the Division of Market Regulation, pursuant to delegated authority, 17 CFR 200.30–3(a)(12).

Jonathan G. Katz,

Secretary.

Self-Regulatory Organizations; National Association of Securities Dealers, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to the Termination of the Nasdaq-London Stock Exchange Linkage

June 3, 1994.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),[1] notice is hereby given that on May 26, 1994, the National Association of Securities Dealers, Inc. ("NASD" or "Association") filed with the Securities and Exchange Commission ("Commission" or "SEC") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the NASD. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Pursuant to section 19(b)(1) of the Act, the NASD hereby files this proposed rule change to accelerate to June 30, 1994 the termination date of the experimental quotation linkage between the London Stock Exchange ("LSE") and The Nasdaq Stock Market ("Nasdaq"), a subsidiary of the NASD. The linkage had been scheduled to terminate on October 31, 1994.

II. Self-Regulatory Organization's Statement of the Purpose Of, and Statutory Basis For, the Proposed Rule Change

In its filing with the Commission, the NASD included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The NASD has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose Of, and Statutory Basis For, the Proposed Rule Change

On October 2, 1987, the SEC issued an order approving operation of an experimental market linkage between Nasdaq and LSE (formerly, the International Stock Exchange of The United Kingdom and the Republic of Ireland) for a pilot term of two years.[2] This linkage supports an interchange of quotation information ("linkage information") on about 740 securities ("linkage securities"); of that total, each marketplace has designated approximately half as its "pilot group" of linkage securities. NASD and LSE members that function as market makers in one or more of a subset of linkage securities that are quoted in both the Nasdaq and LSE dealer markets ("common issues") are entitled to access linkage information without paying a separate charge to receive it. Operation of the linkage in this fashion comports with the terms of the Commission's October 1987 Order.

Most recently, the Commission authorized an extension of this pilot linkage through October 31, 1994 by approving File No. SR–NASD–94–23.[3] The latter also stated that the linkage would terminate on or about October 31, 1994. Subsequently, the LSE advised Nasdaq that it will switch communication carriers at the end of June and that Nasdaq would have to bear the costs of new communication lines to its processors in Trumbull, Connecticut and Rockville, Maryland. After reviewing the specific communication requirements and costs, Nasdaq determined to forgo the added communication costs and terminate the Nasdaq-LSE linkage on June 30, 1994. Therefore, the sole purpose of this rule change is to accelerate the termination date for the Nasdaq-LSE linkage to June 30, 1994.

The NASD believes that the proposed rule change is consistent with the provisions of section 15A(b)(5) and 15A(b)(11) of the Act. Section 15A(b)(5) requires that the NASD's rules provide for the equitable allocation of reasonable dues, fees, and other changes among members or others using any facility or system that the NASD operates or controls. Section 15A(b)(11) authorizes the NASD to adopt rules governing the form and content of quotations disseminated by member firms. Termination of the Nasdaq-LSE linkage on June 30, 1994 will obviate the imposition of additional communication costs (which could not be readily recovered) to support a service that is infrequently used by eligible NASD members and that duplicates market data offerings by commercial vendors. Similarly, LSE members that wish to

[2] Securities Exchange Act Release No. 24979 (Oct 2, 1987), 52 FR 37684 (Oct. 8, 1987) (the "October 1987 Order").

[3] Securities Exchange Act Release No. 33946 (Apr. 21, 1994), 59 FR 22036 (Apr 28, 1994)

receive comprehensive quotation and transaction information from Nasdaq can easily do so by subscribing to an appropriate vendor service. From either perspective, a vendor-sponsored service will provide access to more market information than that which is accessible through the Nasdaq-LSE linkage.

B. Self-Regulatory Organization's Statement on Burden on Competition

The NASD believes that the rule change will not result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing For Commission Action

The foregoing rule change has become effective pursuant to section 19(b)(3)(A) of the Act and subparagraph (e) of Rule 19b–4 thereunder because the proposal constitutes a stated policy, practice, or interpretation concerned solely with the administration of a pilot system whose operation had been extended, on an interim basis, by numerous rule changes filed by the NASD. In this regard, the establishment of a revised date for terminating this experimental system is an administrative matter that does not involve the enforcement or interpretation of any NASD rules.

At any time within 60 days of the filing of such rule change, the Commission may summarily abrogate the rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Copies of the submissions, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the NASD. All submissions should refer to file number SR–NASD–94–33 and should be submitted by July 1, 1994.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[4]

Jonathan G. Katz,

Secretary.

[Release No. 34–34153; File No. SR–NYSE–94–08]

Self-Regulatory Organizations; New York Stock Exchange, Inc.; Order Approving Proposed Rule Change Relating to the Same-Day Comparison of Initial Trade Data in Listed Stocks Through the NYSE's On-Line Comparison System

June 3, 1994.

On March 10, 1994, the New York Stock Exchange, Inc. ("NYSE") filed with the Securities and Exchange Commission ("Commission") a proposed rule change (File No. SR–NYSE–94–08) under section 19(b) of the Securities Exchange Act of 1934 ("Act").[1] Notice of the proposed rule change was published in the **Federal Register** on May 18, 1994, to solicit comments from interested persons.[2] No comments were received by the Commission. This order approves the proposal.

I. Description of the Proposal

The proposed rule change will allow the NYSE to implement its On-Line Comparison System ("OCS"). With OCS, NYSE clearing members will be able to submit trade data on listed stocks to NYSE on trade date for initial comparison. Implementation of NYSE's same-day comparison will be in a phased-in approach similar to that which was used to implement next-day ("T+1") comparison of NYSE transactions.[3] The NYSE's target date for full implementation of trade-date comparison is June 30, 1995. The NYSE filed this proposal with the Commission to provide the NYSE community with almost eighteen months advance notice in order to afford them time to plan and implement the operational changes that may be necessary.[4]

Beginning on June 1, 1994, the NYSE will require its member clearing firms to submit to it periodically during the trading day trade data for transactions in listed stocks, rights, and warrants effected on the NYSE for "regular way,"[5] "next day,"[6] "cash,"[7] and "seller's option" settlement.[8] Trade data for transactions in listed stocks traded on an "issued," "when issued,"[9] and "when distributed"[10] basis also will have to be submitted periodically during the trading day. The NYSE's existing Overnight Comparison System will be the main processor of the data submitted for initial comparison. Accordingly, the NYSE has changed that system's name to the On-Line Comparison System and will continue to use the same acronym of OCS. Compared trades will be submitted by the NYSE to a "qualified clearing agency"[11] to complete the clearance and settlement process.

Implementation of trade-date comparison will require clearing firms to meet three general requirements. First, they will have to suppress certain comparison data submissions to

[1] 15 U.S.C. 78s(b) (1988).

[2] Securities Exchange Act Release No. 34023 (May 6, 1994), 59 FR 25979.

[3] In March 1989, the Commission approved the NYSE's Rule 130. That rule, which was used to implement overnight comparison over the eighteen months following its approval, established the principle that "regular way" transactions in listed stocks, rights, and warrants must be compared or closed out within one business day after the trade date. Securities Exchange Act Release No. 26627 (March 14, 1989) 54 FR 11470 [File No. SR–NYSE–88–36] (order approving proposed rule change)

[4] The NYSE has distributed to its members a circular, dated January 29, 1994, describing implementation of trade date comparison.

[5] The term "regular way" settlement means settlement on T+5. NYSE Rule 64(3).

[6] "Next day" settlement means settlement on T+1 NYSE Rule 64(2).

[7] "Cash" settlement means settlement on trade date. NYSE Rule 64(1).

[8] "Seller's option" settlement means settlement within the time specified in the contract. NYSE 64(4).

[9] A "when issued" stock refers to a stock which trades after the date of issue but before the certificates have been issued. NYSE Rule 440B.16, D. Scott, Wall Street Words 385 (1988).

[10] A "when distributed" stock refers to a stock which trades after the date of issue but before the certificates have been issued. NYSE Rule 440B.16, D. Scott, Wall Street Words 385 (1988).

[11] For this purpose, the term "qualified clearing agency" means a clearing agency that is registered under the Act, that maintains facilities through which NYSE trades may be compared or settled, that has agreed to supply the NYSE with data in connection with the NYSE's compliance duties under the Act, and that has agreed to establish rules and procedures to facilitate comparison of transactions as provided in NYSE Rule 130, NYSE Rules 130, Supplementary Material .10, and 142 Supplementary Material .10

qualified clearing agencies as the NYSE locks-in additional trades. Second, they will have to submit their comparison data to the NYSE for comparison rather than to a qualified clearing agency. Third, they will have to submit virtually all comparison data to the NYSE during the trading session rather than after the close of trading.[12]

As mentioned above, the implementation of trade date comparison will use a phased-in approach, which the NYSE found successful in implementing T+1 overnight comparison. Beginning June 1, 1994, NYSE clearing members will be required to submit trade data directly to OCS within two hours of trade execution. In August or September of 1994, clearing members will be required to submit trade data within one hour of execution. In October of 1994, clearing members will be required to make on-line, real time submissions of trade data. These time frames are flexible and may be altered by the NYSE as it evaluates clearing firms' abilities to comply. The NYSE intends to monitor closely the implementation of each phase and will not implement a new phase until it is satisfied that no significant operational problems exist.

II. Discussion

For the reasons discussed below, the Commission believes the proposal is consistent with the Act. Section 6(b)(5) of the Act states that exchange rules should be designed to foster cooperation and coordination with persons engaged in regulating, clearing, settling, and processing information with respect to securities transactions; to remove impediments to a free and open market; and to protect investors and the public interest.[13]

The risks posed by uncompared trades and by the long span of time between trade execution and trade comparison (i.e., as long as five business days) came under intense scrutiny after the Market Break of October 1987. The leading studies of the Market Break of 1987 identified uncompared trades as a major stress point in post-trade processing which, together with the unprecedented trading volume and the unprecedented price volatility during the Market Break, posed an unacceptable threat to the marketplace.[14] The Commission, in its recommendations to Congress in February of 1988, proposed that markets accelerate their efforts to compare all trades on trade date.[15]

Since 1988, the NYSE, among others, has sought to improve clearing operations and to reduce exposure to losses associated with market volatility occurring during the period between execution and settlement. The NYSE reduced its comparison cycle in stocks first from T+5 in 1990.[16] T+1 comparison also was made applicable to NYSE listed options in 1992 [17] and to NYSE listed bonds in 1993.[18] Currently, according to the NYSE, more than seventy-five percent of all trades executed on the NYSE trading floor are captured and locked-in electronically. The NYSE views the electronic capture of the remaining twenty-five percent of its trades, which primarily occur in trading crowds on its trading floor, as a major goal of OCS.

The NYSE's main objectives as it moves toward complete implementation of OCS include: (1) Increasing the percentage of electronically locked-in trades; (2) maintaining a low rate of uncompared trades rate during the various phases of the project; (3) electronic capture and comparison of trades, especially trading crowd transactions, that currently are not captured by any electronic order entry system; and (4) elimination of any redundant comparison processing. Significantly, as the NYSE moves through its various implementation phases of OCS, its current Rule 130 will remain in operation. That rule requires that each transaction effected on the NYSE be compared or closed out by NYSE's close of business on T+1.

The required changes may affect numerous clearing and non-clearing firms' operations, including such things as trading floor operations, purchase and sales department procedures, clearing operations, and internal account balancing and reconciliation procedures. Because of these significant changes, the NYSE has established two committees, a steering committee and a working group, to advise it on the best methods by which trade-date comparison may be achieved. Additionally, this program of trade-date comparison is being implemented in conjunction with the National Securities Clearing Corporation and the American Stock Exchange, Inc.

As stated above, the Commission believes that the proposed rule change, by shortening the NYSE comparison cycle from T+1 to trade date, will make NYSE's comparison process safer in terms of the risks resulting from market price volatility and more efficient in terms of the time and expense involved in post-trade processing. The Commission believes that the proposal will offer additional protection to investors, brokers, and other persons that safeguard investors' funds and facilitate investors' transactions. In the Commission's view, this proposal will provide fundamental and important improvements to the marketplace.

III. Conclusion

For the reasons discussed above, the Commission finds that the proposed rule change is consistent with the Act, particularly with sections 6(b)(5) of the Act, and the rules and regulations thereunder.

It is therefore ordered, pursuant to section 19(b)(2) of the Act, that the above-mentioned proposed rule change (File No. SR–NYSE–94–08) be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[19]

Self-Regulatory Organizations; Participants Trust Company; Order Approving Proposed Rule Change Relating to the Eligibility of Certain Securities Guaranteed by the Government National Mortgage Association

June 3, 1994.

On April 4 1994, the Participants Trust Company ("PTC") filed with the Securities and Exchange Commission ("Commission") a proposed rule change (File No. SR–PTC–94–01) pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act").[1] The proposed rule change allows PTC to designate certain securities guaranteed by the Government National Mortgage Association ("GNMA")[2] as "eligible securities" as permitted by PTC's Rules. The Commission published notice of the proposed rule change in the **Federal Register** on April 26, 1994.[3] No comments were received. For the reasons discussed below, the Commission is approving the proposed rule change.

I. Description

The proposed rule change allows PTC to designate certain securities guaranteed by GNMA and eligible securities as permitted by Article I, Rule 2 of PTC's Rules. PTC currently acts as depository for single-class GNMA I and GNMA II MBS and REMIC securities[4] guaranteed by the Department of Veterans Affairs ("VA").[5]

GNMA is now establishing a GNMA REMIC program under which GNMA will guarantee multi-class securities issued by REMIC trusts. The GNMA REMIC securities will be issued through single-purpose trusts created by GNMA-approved sponsors which will assemble GNMA-guaranteed single-class mortgage-backed securities to constitute the corpus of the REMIC trust. The sponsors will be private-sector entities such as investment bankers. Upon issuance, the General Counsel of HUD will render an opinion that GNMA's obligations under the GNMA guarantee of its REMIC securities will constitute absolute and unconditional general obligations of the United States, for which the full faith and credit of the United States is pledged.

The authorizing Federal statute[6] provides that the GNMA REMIC program be implemented by GNMA's publication of a notice in the **Federal Register**, and that GNMA subsequently publish regulations within twelve moths of the publication of the initial notice, based upon the comments received and the experience of GNMA in carrying out the program.

GNMA will implement its REMIC program in two stages. During the initial stage, GNMA will restrict participation in the REMIC program to a small number of participants (consisting of sponsors, co-sponsors, trustees, trust counsel, and accounting firms) and a limited number of REMIC issuances. The initial stage will commence upon the closing of the first transaction, after publication of the notice in the **Federal Register**, and is expected to last several months, during which time GNMA will establish standard documentation, and guidelines and procedures applicable to the full implementation of the REMIC program.[7]

While GNMA has not yet determined the characteristics of the GNMA REMIC tranches, for processing purposes it is assumed that the GNMA REMIC classes will have the same basic processing requirements as the VA REMICs, which PTC has had on deposit for approximately the last two years. It is assumed that, as in the case with the VA REMIC securities, all classes of the GNMA REMIC securities except the residual class will be established and maintained in book-entry form through the facilities of PRTC, although holders will have the right to request certificated securities.

II. Discussion

The Commission believes that PTC's proposed rule change is consistent with section 17A of the Act,[8] and in particular, section 17A(b)(3)(F) of the Act. Section 17A(b)(3)(F) requires that the rules of a clearing agency be designed to remove impediments to and perfect the mechanism of a national system for the prompt and accurate clearance and settlement of securities transactions. The Commission believes that PTC's proposal to designate certain securities guaranteed by GNMA as eligible securities for deposit with PTC is consistent with this goal.

As previously stated, REMIC issuances will be limited during the initial stage of the program. Once the REMIC program is fully established, however, GNMA anticipates that a substantial percentage of its annual production of GNMA single-class securities will be securitized in GNMA REMICs. GNMA has stated they anticipate approximately $75 billion is the average deal size, this will result in approximately 150 REMIC deals issued each year.

It is anticipated that each class of the GNMA REMIC securities will be issued initially in the form of one or more physical certificates registered in the name of MBSCC & Co., nominee for PTC, and held in physical form by PTC's custodian, with participants receiving and delivering REMIC securities by book-entry on PTC's books. REMIC securities may be held subsequent to original issuance in either certificated form, outside of PTC, or on PTC's book-entry system, as is currently the case with the GNMA I and GNMA II single-class MBS and the VA REMIC securities on deposit at PTC. PTC's current custody agreement with its custodian, Chemical Bank, accommodates the deposit of GMNA REMIC securities with the custodian.

The REMIC securities will be supported entirely by the cash flows on the underlying GMA-guaranteed GNMA I MBS. REMIC trustees will be required to pay principal and interest ("P&I") on the REMIC securities in same day funds on the 16th day of the month, or the first business day thereafter if the 16th is not a business day. REMIC P&I will therefore be paid to REMIC holders on the same day that the PSI on the underlying MBS is paid to MBS holders. PTC will pass through the REMIC payment on the same day as received.

Not later than the 14th day of each month, the trustee will deliver to PTC and Chemical Bank the factor

---

[1] 15 U.S.C. 78s(b)(1) (1988).

[2] GNMA is a wholly-owned corporate instrumentality of the United States within the Department of Housing and Urban Development ("HUD"). Through its single-class GNMA I and GNMA II mortgage-backed securities ("MBS") programs, GNMA guarantees the timely payment of principal and interest on securities issued by private institutions and backed by pools of federally insured or guaranteed mortgage loans. The GNMA guarantee is backed by the full faith and credit of the United States.

[3] Securities Exchange Act Release No. 33927 (April 19, 1994), 59 FR 21794.

[4] REMIC is an acronym for "real estate mortgage investment conduit," as pass-through vehicle created under the Tax Reform Act of 1986 to issue multiclass mortgage-backed securities

[5] As of December 31, 1993, PTC had approximately 260,000 pools of GNMA single-class securities on deposit, representing $850 billion in par value (95% of total GNMA single-class securities par value outstanding), and 71 tranches of VA REMIC securities, representing $4.6 billion in par value, from a total of 5 REMIC transactions (100% of all VA REMIC par value outstanding).

For a more detailed description of PTC's VA REMIC program, see Securities Exchange Act Release Nos. 30792 (June 10, 1992), 57 FR 27495, and 31914 (February 24, 1993), 58 FR 12295.

[6] Section 306(g) of the National Housing Act, 12 U.S.C. 1721(g), as amended by sec. 3004 of the Omnibus Budget Reconciliation Act of 1993, 107 Stat. 339.

[7] GNMA has not yet announced the date on which the initial stage of the REMIC program will commence.

[8] 15 U.S.C. 78q–1 (1988).

information for payment on the REMIC securities. PTC will follow the instructions from the trustee for disbursement of funds received on the GNMA MBS collateralizing the REMIC trust.

The volume of the GNMA REMIC securities initially deposited at FTC will be modest compared to the total face amount of GNMA securities now on deposit at FTC and is expected to have a comparably small impact on FTC's overall transaction volume.[9] GNMA I's that constitute the corpus of a GNMA REMIC trust will remain immobilized at FTC and, therefore, will be removed from FTC's transaction volume after the creation of the REMIC.

It is expected that FTC will utilize pricing sources and the methodology employed for the VA REMIC pricing at FTC for the GNMA REMIC product.[10] As an eligible security, functionally and legally comparable to GNMA single-class and VA REMIC securities, PTC's Rules and procedures are currently consistent with, and govern PTC's and it's participants' rights and obligations with respect to, the GNMA REMIC securities. PTC end of day borrowing agreements also currently apply to GNMA REMIC securities without the change. Finally, PTC anticipates that the fees imposed by PTC for providing depository services for GNMA REMIC securities will be the same as those in effect for GNMA MBS.

PTC has gained almost six years of experience with GNMAs. The Commission believes that PTC's experience with GNMAs serves as a good foundation for continuing to handle REMICs. In addition, PTC has been accepting VA REMICS for deposit for almost two years. PTC's experience with the VA REMIC program has provided a basis for determining the depository services which will be required for the GNMA REMIC. The Commission therefore believes that this proposal furthers the perfection of the national system for the clearance and settlement of securities transactions becuase GNMA REMIC will be processed within a centralized, electronic book-entry environment.

III. Conclusion

On the basis of the foregoing, the Commission finds that the proposed rule change is consistent with the Act, and in particular with section 17A of the act, and with the rules and regulations thereunder.

It Is Therefore Ordered, pursuant to section 19(b)(2) of the Act,[11] that the proposed rule change (File No. SR–PTC–94–01) be, and hereby is, approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.[12]

Jonathan G. Katz,

Secretary.

[9] The total face amount of GNMA securities now on deposit at FTC is approximately $880 billion.

[10] For further information regarding the pricing sources and methodology employed by PTC, see Securities Exchange Act Release No. 34017 (May 5, 1994) 59 FR 24495.

[Release No. 34–34158; File No. SR–Phlx–94–30]

Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change by the Philadelphia Stock Exchange, Inc. Adopting Rule 1015, Quotation Guarantees, Including a Trade or Fade Provision

June 3, 1994

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"), 15 U.S.C. 78s(b)(1), notice is hereby given that on June 1, 1994, the Philadelphia Stock Exchange, Inc. ("Phlx" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Purpose of and the Statutory Basis for the Proposed Rule Change

The Phlx, pursuant to Rule 19b–4 of the Act, proposes to adopt Phlx Rule 1015 relating to quotation guarantees, to mirror the text of Floor Procedure Advice ("Advice") A–11, with the addition of a "trade or fade" provision.[1]

II. Self-Regulatory Organization's Statements Regarding the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of and Statutory Basis for the Proposed Rule Change

Currently, Rule 1033(a) states that all bids/offers in Phlx equity/index options are deemed to be for one contract, unless otherwise specified; in addition, specialists and Registered Options Traders ("ROTs") are required to fill public orders to a minimum depth of ten contracts at the best quoted bid/offer. Consequently, orders for public customers are provided with preferential treatment not afforded to other types of orders.

The Phlx proposes to adopt a "trade or fade" provision comparable to the proposals of the other options exchanges for the handling of orders other than public customer orders.

Specifically, when a non-public order is represented in the trading crowd at the displayed market on the Exchange, the trading crowd would be required to either satisfy the order at that price or better, or fade (withdraw) to a newly disseminated price. If the quote is faded, immediate re-display of the previously disseminated quote without a change in market conditions to warrant such action would be considered conduct inconsistent with just and equitable principles of trade,[2] which could result in an Exchange disciplinary proceeding. For purposes of this rule, non-public orders include broker-dealer orders and that portion of customer orders exceeding the contract size guaranteed by the respective crowd.

The proposed rule is similar to proposals of other option exchanges in that it would expressly require the members of an options trading crowd to respond to non-public orders represented in that trading crowd by either satisfying the order or updating the market in that option series.

The proposed rule change is consistent with Section 6 of the Act in general, and in particular, with Section 6(b)(5), in that it is designed to promote just and equitable principles of trade, prevent fraudulent and manipulative acts and practices, to remove impediments to and perfect the mechanism of a free and open market and a national market system, as well as to protect investors and the public interest.

[11] 15 CFR 78s(b)(12) (1988).

[12] 17 CFR 200.30(a)(12).

[1] See SR–Phlx–91–45, as amended, for text of Advice A–11.

[2] Phlx Rule 707

B. Self-Regulatory Organization's Statement on Burden on Competition

The Phlx does not believe that the proposed rule change will impose any inappropriate burden on competition.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Phlx consents, the Commission will:

(A) by order approve such proposed rule change, or,

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW, Washington, DC 20549. Copies of such filing will also be available for inspection and copying at the principal office of the Phlx. All submissions should refer to File No. SR–Phlx–94–30 and should be submitted by July 1, 1994.

For the Commission by the Division of Market Regulation, pursuant to delegated authority. 17 CFR 200.30–3(a)(12).

Jonathan G. Katz,

Secretary.

SMALL BUSINESS ADMINISTRATION

Reporting and Recordkeeping Requirements Under OMB Review

ACTION: Notice of Reporting Requirements Submitted for Review.

SUMMARY: Under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35), agencies are required to submit proposed reporting and recordkeeping requirements to OMB for review and approval, and to publish a notice in the **Federal Register** notifying the public that the agency has made such a submission.

DATES: Comments should be submitted within 30 days of this publication in the **Federal Register**. If you intend to comment but cannot prepare comments promptly, please advise the OMB Reviewer and the Agency Clearance Officer before the deadline.

COPIES: Request for clearance (S.F. 83), supporting statement, and other documents submitted to OMB for review may be obtained from the Agency Clearance Officer. Submit comments to the Agency Clearance Officer and the OMB Reviewer.

FOR FURTHER INFORMATION CONTACT:

Agency Clearance Officer: Cleo Verbillis, Small Business Administration, 409 3RD Street, SW., 5th Floor, Washington, DC 20416; Telephone: (202) 205–6629.

OMB Reviewer: Donald Arbuckle, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Washington, DC 20503.

Title: National Training Participant Evaluation Questionnaire.

Form No.: SBA 20.

Frequency: On occasion.

Description of Respondents: Individuals receiving SBA training and counseling assistance.

Annual Responses: 26,000.

Annual Burden: 6,500.

Dated: June 2, 1994.

Cleo Verbillis,

Chief, Administrative Information Branch.

DEPARTMENT OF STATE

[Public Notice No. 2020]

Shipping Coordinating Committee; Notice of Meeting

The Working Group on Lifesaving, Search and Rescue of the Subcommittee on Safety of Life at Sea (SOLAS) will conduct an open meeting at 9:30 a.m. on Friday, June 17, 1994 in room 1103 at Coast Guard Headquarters, 2100 Second Street SW., Washington, DC.

The purpose of the meeting is to review the outcome of the 25th Session of the International Maritime Organization (IMO) Sub-Committee on Lifesaving, Search and Rescue (LSR), held April 11–15, 1994, at the IMO Headquarters in London, and to begin planning of action items for the next session. Specific items to be discussed include:

—Amendments to SOLAS Chapter III approved by the LSR Sub-Committee for forwarding to the Maritime Safety Committee (MSC) for adoption

—Draft revisions to the Recommendation on Testing and Evaluation of Life-Saving Appliances, including new sections on marine evacuation systems and "anti-exposure suits," and a draft proposal for inflatable liferaft fabric requirements

—Amendments to MSC Circular 617 on Guidelines for Passenger Safety Instructions, and a working paper on guidelines for emergency escape arrangements on passenger ships

—Information concerning the European Free Trade Association (EFTA) "Scheme for the Reciprocal Recognition of Tests and Inspections carried out Ships' Equipment"

The IMO LSR Sub-Committee works to develop international agreements, guidelines, and standards for Search and Rescue and for lifesaving equipment installed on commercial ships. Because of the potential impact of the Sub-Committee's work on U.S. regulations and standards, the U.S. SOLAS Working Group serves an excellent forum for the U.S. maritime industry to express their ideas in the areas under the Sub-Committee's purview. Members of the public may attend this meeting up to the seating capacity of the room. Due to unforeseen administrative delays, the notice of this meeting is being published late. The Committee apologizes for any inconvenience.

For further information contact Mr. Kurt J. Heinz at (202) 267-1444, U.S. Coast Guard Headquarters (G-MVI-3/1404), 2100 Second Street, SW., Washington, DC 20593-0001.

Dated: June 6, 1994.

Geoffrey Odgen,

Chairman, Shipping Coordinating Committee.

BILLING CODE 4710-07-M

DEPARTMENT OF TRANSPORTATION

Federall Aviation Administration

Notice of Proposed Modification of Airport Improvement Program Grant Assurances

AGENCY: Federal Aviation Administration (FAA), (DOT).

SUMMARY: The FAA proposes to modify the standard grant assurances required of a sponsor receiving a grant under the Airport Improvement Program (AIP). This modification is due to changes in existing legislation. The Secretary of Transportation is required to provide notice in the **Federal Register** and an opportunity for the public to comment upon proposals to modify assurances or to require any additional assurances under AIP pursuant to subsection 511(f) of the Airport and Airway Improvement Act of 1982, as amended.

DATES: These proposed modifications to the Grant Assurances will be effective July 11, 1994. Comments must be submitted on or before June 27, 1994.

ADDRESSES: Comments may be delivered or mailed to the FAA, Airports Financial Assistance Division, APP-500, room 615, 800 Independence Ave, SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: Ms. Leslie S. Haener (Management and Program Analyst) Telephone (202) 267-5879.

SUPPLEMENTARY INFORMATION: The Secretary must receive certain assurances from a sponsor (applicant) under the Airport and Airway Improvement Act of 1982, as amended. These assurances are submitted as part of a sponsor's application for Federal Assistance and are incorporated in all grant agreements. The current assurances were published on February 3, 1988, at 53 FR 3104 and amended on September 6, 1988, at 53 FR 34361, and on August 29, 1989, at 54 FR 35748. As need dictates, these assurances are modified from time to time to reflect new Federal requirements. Notice of such proposed modifications are published in the **Federal Register** and an opportunity provided for comment by the public. FAA is planning to modify the assurances currently in use to reflect some changes in the general requirements.

FAA uses three separate sets of standard assurances: Airport Sponsors (owners/operators); Planning Agency Sponsors; and Nonairport Sponsors Undertaking Noise Compatibility Program Projects (herein after referred to as Nonairport Sponsor Assurances).

Assurance 1, General Federal Requirements, of the Airport Sponsor Assurances and Nonairport Sponsor Assurances is modified to add Executive Order 12699—Seismic Safety of Federal and Federally Assisted New Building Construction, to the Executive Orders section of both sets of assurances. Further, Assurance 1 is modified to add 49 CFR part 41, Seismic safety of Federal and federally assisted or regulated new building construction, to the Federal Regulations section of both sets of assurances.

Assurance 1 is also modified to add 49 CFR Part 20, New restrictions on lobbying, to the Federal Regulations section of all three sets of assurances. The addition of this regulation will alleviate the need for project sponsors to file with the FAA, a separate certification stating that they have not made, and will not make, any payment prohibited by paragraph (a), § 20.100 of 49 CFR part 20. A disclosure of lobbying activities form, however, must still be filed with the FAA if required by paragraph (c), § 20.100 of 49 CFR part 20.

Assurance 1 of all three sets of assurances is also modified to correct the titles of certain Federal Regulations.

Assurance 9 of the Airport Sponsor Assurances has been rewritten to incorporate the provision of Public Law 102-581, which requires the sponsor to certify that the airport management board either has voting representation from the communities where the project is located or has advised the communities that they have the right to petition the Secretary concerning a proposed project.

Assurance 23 of the Airport Sponsor Assurances has been rewritten to bring this assurance into conformance with section 511(a)(2) of the Airport and Airway Improvement Act of 1982, as amended.

Assurance 26 of the Airport Sponsor Assurances has been rewritten to incorporate the provision of Public Law 102-581, which requires that the airport sponsor assure that a report of the airport budget is available to the public at reasonable times and places.

Assurance 31 of the Airport Sponsor Assurances, and Assurance 20 of the Nonairport Sponsor Assurances, titled Disposal of Land, have been rewritten to incorporate the provisions of Public Law 101-236, which relaxed the requirement that an airport sponsor must dispose of land which was originally acquired with Federal grant funds for airport development purposes but is no longer needed for such purposes.

Assurance 36 of the Airport Sponsor Assurances, Assurance 13 of the Planning Agency Sponsor Assurances. and Assurance 22 of the Nonairport Sponsor Assurances have been deleted. The grant applicant's requirements for compliance are set forth in the Drug-Free Workplace Act of 1988—41 U.S.C. 702 through 706 and 49 CFR Part 29—Governmentwide debarment and suspension (non-procurement) and governmentwide requirements for drug-free workplace (grants), which are included in Assurance 1. Therefore a separate assurance detailing these requirements is unnecessary.

Issued in Washington, DC on May 13, 1994.

Paul L. Galis,

Director, Office of Airport Planning and Programming.

Airport Improvement Program Grant Assurances

1. The Airport Sponsor Assurances are amended as follows:

a. Assurance C.1. is revised as follows:

C.1. General Federal Requirements

* * * * *

Executive Orders

Executive Order 12699—Seismic Safety of Federal and Federally Assisted New Building Construction

Federal Regulations

f. 49 CFR Part 29—Governmentwide debarment and suspension (non-

procurement) and governmentwide requirements for drug-free workplace (grants).

i. 29 CFR Part 3—Contractors and subcontractors on public building or public work financed in whole or part by loans or grants from the United States.

m. 49 CFR Part 41—Seismic safety of Federal and federally assisted or regulated new building construction.

n. 49 CFR Part 20—New restrictions on lobbying.

b. Assurance 9 is revised to read:

9. Public Hearings. In projects involving the location of an airport, an airport runway, or a major runway extension, it has afforded the opportunity for public hearings for the purpose of considering the economic, social, and environmental effects of the airport or runway location and its consistency with goals and objectives of such planning as has been carried out by the community and it shall, when requested by the Secretary, submit a copy of the transcript of such hearings to the Secretary. Further, for such projects, it has on its management board either voting representation from the communities where the project is located or has advised the communities that they have the right to petition the Secretary concerning a proposed project.

c. Assurance 23 is revised to read:

23. Exclusive Rights. It will permit no exclusive right for the use of the airport by any person providing, or intending to provide, aeronautical services to the public.

For purposes of this paragraph, the providing of the services at an airport by a single fixed-based operator shall not be construed as an exclusive right if both of the following apply:

a. It would be unreasonably costly, burdensome, or impractical for more than one fixed-based operator to provide such services, and

b. If allowing more than one fixed-based operator to provide such services would require the reduction of space leased pursuant to an existing agreement between such single fixed-based operator and such airport.

It further agrees that it will not, either directly or indirectly, grant or permit any person, firm, or corporation, the exclusive right at the airport to conduct any aeronautical activities, including, but not limited to charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity, and that it will terminate any exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under the Airport and Airway Improvement Act of 1982.

d. Assurance 26 is revised to read:

26. Reports and Inspections. It will submit to the Secretary such annual or special financial and operations reports as the Secretary may reasonably request. A report of the airport budget will be available to the public at reasonable times and places. For airport development projects, it will also make the airport and all airport records and documents affecting the airport, including deeds, leases, operation and use agreements, regulations and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request. For noise compatibility program projects, it will also make records and documents relating to the project and continued compliance with the terms, conditions, and assurances of the grant agreement including deeds, leases, agreements, regulations, and other instruments, available for inspection by any duly authorized agent of the Secretary upon reasonable request.

e. Assurance 31 is revised to read:

31. Disposal of Land.

a. For land purchased under a grant for airport noise compatibility purposes, it will dispose of the land, when the land is no longer needed for such purposes, at fair market value, at the earliest practicable time. That portion of the proceeds of such disposition which is proportionate to the United States' share of acquisition of such land will, at the discretion of the Secretary, (1) be paid to the Secretary for deposit in the Trust Fund, or (2) be reinvested in an approved noise compatibility project as prescribed by the Secretary.

b. (1) For land purchased under a grant for airport development purposes (other than noise compatibility), it will, when the land is no longer needed for airport purposes, dispose of such land at fair market value or make available to the Secretary an amount equal to the United States' proportionate share of the fair market value of the land. That portion of the proceeds of such disposition which is proportionate to the United States' share of the cost of acquisition of such land will, (a) upon application to the Secretary, be reinvested in another eligible airport improvement project or projects approved by the Secretary at that airport or within the national airport system, or (b) be paid to the Secretary for deposit in the Trust Fund if no eligible project exists.

(2) Land shall be considered to be needed for airport purposes under this assurance if (a) it may be needed for aeronautical purposes (including runway protection zones) or serve as noise buffer land, and (b) the revenue from interim uses of such land contributes to the financial self-sufficiency of the airport. Further, land purchased with a grant received by an airport operator or owner before December 31, 1987, will be considered to be needed for airport purposes if the Secretary or Federal agency making such grant before December 31, 1987, was notified by the operator or owner of the uses of such land, did not object to such use, and the land continues to be used for that purpose, such use having commenced no later than December 15, 1989.

c. Disposition of such land under (a) or (b) will be subject to the retention or reservation of any interest or right therein necessary to ensure that such land will only be used for purposes which are compatible with noise levels associated with operation of the airport.

f. Assurance 36 is deleted:

36. Drug-Free Workplace. It will provide a drug-free workplace at the site of work specified in the grant application in accordance with 49 CFR part 29 by (1) publishing a statement notifying its employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the sponsor's workplace and specifying the action that will be taken against its employees for violation of such prohibition; (2) establishing a drug-free awareness program to inform its employees about the dangers of drug abuse in the workplace and any available drug counseling, rehabilitation, and employees' assistance programs; (3) notifying the FAA within 10 days after receiving notice of an employee criminal drug statute conviction for a violation occurring in the workplace; and (4) making a good faith effort to maintain a drug-free workplace.

2. The Planning Agency Sponsor Assurances are amended as follows:

a. Assurance C.1. is revised as follows:

C. 1. General Federal Requirements

* * * * *

Federal Regulations

d. 49 CFR Part 29—Governmentwide debarment and suspension (non-procurement) and governmentwide requirements for drug-free workplace (grants).

n. 49 CFR Part 20—New restrictions on lobbying.

b. Assurance 13 is deleted:

13. Drug-Free Workplace. It will provide a drug-free workplace at the site of work specified in the grant application in accordance with 49 CFR part 29 by (1) publishing a statement notifying its employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the sponsor's workplace and specifying the actions that will be taken against its employees for violation of such prohibition; (2) establishing a drug-free awareness program to inform its employees about the dangers of drug abuse in the workplace and any available drug counseling, rehabilitation, and employees' assistance programs; (3) notifying the FAA within 10 days after receiving notice of an employee criminal drug statute conviction for a violation occurring in the workplace; and (4) making a good faith effort to maintain a drug-free workplace.

3. The Nonairport Sponsor Assurances are amended as follows:

a. Assurance C.1. is revised as follows:

C.1. General Federal Requirements

* * * * *

Executive Orders

Executive Order 12699—Seismic Safety of Federal and Federally Assisted New Building Construction

Federal Regulations

f. 49 CFR Part 29—Governmentwide debarment and suspension (non-procurement) and governmentwide requirements for drug-free workplace (grants).

i. 29 CFR Part 3—Contractors and subcontractors on public building or public work financed in whole or part by loans or grants from the United States.

m. 49 CFR Part 41—Seismic safety of Federal and federally assisted or regulated new building construction.

n. 49 CFR Part 20—New restrictions on lobbying.

b. Assurance 20 is revised to read:

20. Disposal of Land.

a. For land purchased under a grant for airport noise compatibility purposes, it will dispose of the land, when the land is no longer needed for such purposes, at fair market value, at the earliest practicable time. That portion of the proceeds of such disposition which is proportionate to the United States' share of acquisition of such land will, at the discretion of the Secretary, 1) be paid to the Secretary for deposit in the Trust Fund, or 2) be reinvested in an approved noise compatibility project as prescribed by the Secretary.

b. Disposition of such land under (a) will be subject to the retention or reservation of any interest or right therein necessary to ensure that such land will only be used for purposes which are compatible with noise levels associated with operation of the airport.

c. Assurance 22 is deleted.

22. Drug-Free Workplace. It will provide a drug-free workplace at the site of work specified in the grant application in accordance with 49 CFR part 29 by (1) publishing a statement notifying its employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the sponsor's workplace and specifying the actions that will be taken against its employees for violation of such prohibition; (2) establishing a drug-free awareness program to inform its employees about the dangers of drug abuse in the workplace and any available drug counseling, rehabilitation, and employees' assistance programs; (3) notifying the FAA within 10 days after receiving notice of an employee criminal drug statute conviction for a violation occurring in the workplace; and (4) making a good faith effort to maintain a drug-free workplace.

BILLING CODE 4910–13–M

Federal Aviation Administration

Receipt of Revision No. 2 to Approved Noise Compatibility Program and Request for Review; Phoenix Sky Harbor International Airport, Phoenix, AZ

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces that it is reviewing a proposed second revision to the approved noise compatibility program that was submitted for Phoenix Sky Harbor Airport under the provisions of Title I of the Aviation Safety and Noise Abatement Act of 1979 (Pub. L. 96–193) (hereinafter referred to as "the Act") and 14 CFR part 150 by the City of Phoenix, Arizona. The Noise Compatibility program was submitted subsequent to a determination by FAA that associated noise exposure maps submitted under 14 CFR part 150 for Phoenix Sky Harbor Airport were in compliance with applicable requirements effective November 17, 1988. The Noise Compatibility Program for Phoenix Sky Harbor International Airport was approved by the FAA on April 2, 1990. Revision No. 1 to the approved Noise Compatibility Program was approved by the FAA on August 14, 1992. The proposed second revision to the approved noise compatibility program will be approved or disapproved on or before November 23, 1994.

EFFECTIVE DATE: The effective date of the start of FAA's review of the revision to the approved noise compatibility program is May 27, 1994. The public comment period ends July 26, 1994.

FOR FURTHER INFORMATION CONTACT: David B. Kessler, Airport Planner, Airports Division, AWP–611.2, Western-Pacific Region, Federal Aviation Administration, P.O. Box 92007, Worldway Postal Center, Los Angeles, California 90009–2007, Telephone: 310/297–1534. Comments on the proposed second revision to the approved noise compatibility program should also be submitted to the above office.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA is reviewing a proposed second revision to the approved noise compatibility program for Phoenix Sky Harbor International Airport which will be approved or disapproved on or before November 23, 1994. This notice also announces the availability of this revision for public review and comment.

An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) part 150, promulgated pursuant to Title I of the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes for the reduction of existing noncompatible uses and for the prevention of the introduction of additional noncompatible uses.

The FAA has formally received the second revision to the approved noise compatibility program for Phoenix Sky Harbor International Airport, effective on May 27, 1994. It was requested that the FAA review this material and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved

as a noise compatibility program under section 104(b) of the Act. On April 2, 1990, the FAA approved the noise compatibility program for Phoenix Sky Harbor International Airport. An announcement of FAA's approval of the noise compatibility program was published in the **Federal Register** on May 1, 1990. Revision Number 1 to the approved noise compatibility program was approved by the FAA on August 14, 1992. An announcement of FAA's approval of the Revision Number 1 was published in the **Federal Register** on September 14, 1992. Preliminary review of the submitted material for the second revision indicates that it conforms to the requirements for the submittal of noise compatibility programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of 180 days, will be completed on or before November 23, 1994.

The FAA's detailed evaluation will be conducted under the provisions of 14 CFR part 150, § 150.33. The primary considerations in the evaluation process are whether the proposed measure may reduce the level of aviation safety, create an undue burden on interstate or foreign commerce, or be reasonably consistent with obtaining the goal of reducing existing noncompatible land uses and preventing the introduction of additional noncompatible land uses.

Interested persons are invited to comment on the proposed revision with specific reference to these factors. All comments, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the noise exposure maps, the FAA's evaluation of the maps, and the proposed second revision to the approved noise compatibility program are available for examination at the following locations:

Federal Aviation Administration, 800 Independence Avenue, SW., room 617, Washington, DC 20591.

Federal Aviation Administration, Western-Pacific Region, Airports Division, room 3012, 15000 Aviation Boulevard, Hawthorne, California 90261.

City of Phoenix, Aviation Department, 3400 Sky Harbor Boulevard, Phoenix, Arizona 85034–4420.

Questions may be directed to the individual named above under the heading, **FOR FURTHER INFORMATION CONTACT.**

Issued in Hawthorne, California, on May 27, 1994.

Herman C. Bliss,

Manager, Airports Division, AWP–600, Western-Pacific Region.

[FR Doc. 94–14143 Filed 6–9–94; 8:45 am]

BILLING CODE 4910–13–M

Approval of Noise Compatibility Program; Seattle-Tacoma International Airport; Seattle, WA

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its findings on the noise compatibility program submitted by the Director of Aviation Planning for Seattle-Tocoma International Airport under the provisions of Title I of the Aviation Safety and Noise Abatement Act of 1979 (Pub. L. 96–193) and 14 CFR part 150. These findings are made in recognition of the description of Federal and non-Federal responsibilities in Senate Report No. 96–52 (1980).

On April 15, 1993, the FAA determined that the noise exposure maps submitted by the Director of Aviation Planning under Part 150 were in compliance with applicable requirements. On May 18, 1994, the Assistant Administrator for Airports approved the Seattle-Tacoma International Airport noise compatibility program. All of the program elements were approved.

EFFECTIVE DATE: The effective date of the FAA's approval of the Seattle-Tacoma International Airport noise compatibility program is May 18, 1994.

FOR FURTHER INFORMATION CONTACT: Dennis G. Ossenkop; Federal Aviation Administration; Northwest Mountain Region; Airports Division, ANM–611; 1601 Lind Avenue, SW., Renton, Washington, 98055–4056. Documents reflecting this FAA action may be reviewed at this same location.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA has given its overall approval to the noise compatibility program for Seattle-Tacoma International Airport, effective May 18, 1994. Under Section 104(a) of the Aviation Safety and Noise Abatement Act of 1979 (hereinafter referred to as "the Act", an airport operator who has previously submitted a noise exposure map may submit to the FAA a noise compatibility program which sets forth the measures taken or proposed by the airport operator for the reduction of existing noncompatibility land uses and prevention of additional noncompatibile land uses within the area covered by the noise exposure maps. The Act requires such a program to be developed in consultation with interested and affected parties including the state, local communities, government agencies, airport users, and FAA personnel.

Each airport noise compatibility program developed in accordance with Federal Aviation Regulation (FAR) Part 150 is a local program, not a Federal program. The FAA does not substitute its judgment for that of the airport proprietor with respect to which measures should be recommended for action. The FAA's approval or disapproval of FAR Part 150 program recommendations is measured according to the standards expressed in Part 150 and the Act and is limited to the following determinations:

a. The noise compatibility program was developed in accordance with the provisions and procedures of FAR Part 150;

b. Program measures are reasonably consistent with achieving the goals of reducing existing noncompatible land uses around the airport and preventing the introduction of additional noncompatible land uses;

c. Program measures would not create an undue burden on interstate or foreign commerce, unjustly discriminate against types of classes of aeronautical uses, violate the terms of airport grant agreements, or intrude into areas preempted by the Federal Government; and

d. Program measures relating to the use of flight procedures can be implemented within the period covered by the program without derogating safety, adversely affecting the efficient use and management of the navigable airspace and air traffic control systems, or adversely affecting other powers and responsibilities of the Administrator prescribed by law.

Specific limitations with respect to FAA's approval of an airport noise compatibility program are delineated in Far part 150, § 150.5. Approval is not a determination concerning the acceptability of land uses under Federal, state, or local law. Approval does not by itself constitute an FAA implementing action. A request for Federal action or approval to implement specific noise compatibility measures may be required, and an FAA decision on the request may require an environmental assessment of the proposed action. Approval does not constitute a commitment by the FAA to financially assist in the implementation of the program nor a determination that all

measures covered by the program are eligible for grant-in-aid funding from the FAA. Where Federal funding is sought, requests for project grants must be submitted to the FAA Airports District Office in Seattle, Washington.

The Port of Seattle submitted to the FAA the noise exposure maps, descriptions, and other documentation produced during the noise compatibility planning study conducted at Seattle-Tacoma International Airport. The Seattle-Tacoma International Airport noise exposure maps were determined by FAA to be in compliance with applicable requirements on April 15, 1993. Notice of this determination was published in the **Federal Register** on April 27, 1993.

The Seattle-Tacoma International Airport noise compatibility program contains a proposed noise compatibility program comprised of actions designed for phased implementation by airport management and adjacent jurisdictions from the date of study completion to the year 1996. It was requested that the FAA evaluate and approve this material as a noise compatibility program as described in Section 104(b) of the Act. The FAA began its review of the program on November 19, 1993 and was required by a provision of the Act to approve or disapprove the program within 180 days (other than the use of new flight procedures for noise control). Failure to approve or disapprove such program within the 180-day period shall be deemed to be an approval of such program.

The submitted program contained 10 proposed actions for noise mitigation on and off the airport. The FAA completed its review and determination that the procedural and substantive requirements of the Act and FAR 150 have been satisfied. The overall program, therefore, was approved by the Assistant Administrator for Airports effective May 18, 1994.

These determinations are set forth in detail in a Record of Approval endorsed by the Assistant Administrator for Airports on May 18, 1994. The Record of Approval, as well as other evaluation materials and the documents comprising that submittal, are available for review at the FAA office listed above and at the administrative offices of the Seattle-Tacoma International Airport.

Issued in Renton, Washington, on May 25, 1994.

David Field,

Acting Manager, Airports Division, Northwest Mountain Region.

BILLING CODE 4910-13-M

Aviation Rulemaking Advisory Committee; Transport Airplane and Engine Issues

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of establishment of the Braking Systems Harmonization Working Group.

SUMMARY: Notice is given of the establishment of the Braking Systems Harmonization Working Group by the Aviation Rulemaking Advisory Committee (ARAC). This notice informs the public of the activities of the ARAC.

FOR FURTHER INFORMATION CONTACT: Michael H. Borfitz, Assistant Executive Director, Aviation Rulemaking Advisory Committee, Transport Airplane and Engine Issues, FAA Engine & Propeller Directorate, 12 New England Executive Park, Burlington, Massachusetts 01803; telephone (617) 238–7110, fax (617) 238–7199.

SUPPLEMENTARY INFORMATION: On January 22, 1991 (56 FR 2190), the Federal Aviation Administration (FAA) established the Aviation Rulemaking Advisory Committee (ARAC). The committee provides advice and recommendations to the FAA Administrator, through the Associate Administrator for Regulation and Certification, on the full range of the FAA's rulemaking activities with respect to aviation-related issues.

In order to develop such advice and recommendations, the ARAC may choose to establish working groups to which specific tasks are assigned. Such working groups are comprised of experts from those organizations having an interest in the assigned tasks. A working group member need not be a representative of the full committee. Recently the ARAC established the Braking Systems Harmonization Working Group.

The FAA announced at the Joint Aviation Authorities (JAA)-Federal Aviation Administration (FAA) Harmonization Conference in Toronto, Canada June 2–5, 1992 that it would consolidate within the ARAC structure an ongoing objective to "harmonize" the Joint Aviation Requirements (JAR) and the Federal Aviation Regulations (FAR).

Tasks

The Braking Systems Harmonization Working Group is charged with recommending to the ARAC new or revised requirements for approval of brakes installed on transport category airplanes. The product of this exercise is intended to be a harmonized standard, acceptable to both the FAA and the Joint Aviation Authorities (JAA).

Reports

The Braking Systems Harmonization Working Group should develop and present to the ARAC:

1. A recommended work plan for completion of the task, including the rationale supporting such plan, for consideration at the meeting of the ARAC to consider transport airplane and engine issues held following publication of this notice;

2. A detailed conceptual presentation on the proposed recommendation(s), prior to proceeding with the work stated in item 3. below;

3. A draft Notice of Proposed Rulemaking (NPRM), with supporting economic and other required analyses, and/or any other related guidance material or collateral documents the working group determines to be appropriate; or, if new or revised requirements or compliance methods are not recommended, a draft report stating the rationale for not making such recommendations; and

4. A status report at each meeting of the ARAC held to consider transport airplane and engine issues.

Participation in Working Group Task

An individual who has expertise in the subject matter and wishes to become a member of the working group should write to the person listed under the caption FOR FURTHER INFORMATION CONTACT expressing that desire, describing his or her interest in the task and stating the expertise he or she would bring to the working group. The request will be reviewed with the assistant chairman and working group leader, and the individual will be advised whether or not the request can be accommodated.

The Secretary of Transportation has determined that the information and use of the Aviation Rulemaking Advisory Committee are necessary in the public interest in connection with the performance of duties imposed on the FAA by law. Meetings of the Aviation Rulemaking Advisory Committee will be open to the public, except as authorized by section 10(d) of the Federal Advisory Committee Act. Meetings of the working group will not be open to the public, except to the extent that individuals with an interest and expertise are selected to participate. No public announcement of working group meetings will be made.

Issued in Washington, DC, on June 3, 1994.

Chris A. Christie,

Executive Director, Aviation Rulemaking Advisory Committee.

[FR Doc. 94–14146 Filed 6–9–94; 8:45 am]

BILLING CODE 4910–13–M

Aviation Rulemaking Advisory Committee; Transport Airplane and Engine Issues

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of new task assignments for the Aviation Rulemaking Advisory Committee.

SUMMARY: Notice is given of new task assignments for the Loads and Dynamics Harmonization Working Group of the Aviation Rulemaking Advisory Committee (ARAC). This notice informs the public of the activities of the ARAC.

FOR FURTHER INFORMATION CONTACT: Michael H. Borfitz, Assistant Executive Director, Aviation Rulemaking Advisory Committee, Transport Airplane and Engine Issues, FAA Engine & Propeller Directorate, 12 New England Executive Park, Burlington, Massachusetts 01803; telephone (617) 238–7110, fax (617) 238–7199.

SUPPLEMENTARY INFORMATION: On January 22, 1991 (56 FR 2190), the Federal Aviation Administration (FAA) established the Aviation Rulemaking Advisory Committee (ARAC). The committee provides advice and recommendations to the FAA Administrator, through the Associate Administrator for Regulation and Certification, on the full range of the FAA's rulemaking activities with respect to aviation-related issues..

In order to develop such advice and recommendations, the ARAC may choose to establish working groups to which specific tasks are assigned. Such working groups are comprised of experts from those organizations having an interest in the assigned tasks. A working group member need not be a representative of the full committee. One of the working groups established by the ARAC is the Loads and Dynamics Harmonization Working Group.

The FAA announced at the Joint Aviation Authorities (JAA)-Federal Aviation Administration (FAA) Harmonization Conference in Toronto, Canada June 2–5, 1992, that it would consolidate within the ARAC structure an ongoing objective to "harmonize" the Joint Aviation Requirements (JAR) and the Federal Aviation Regulations (FAR).

Tasks

The Loads and Dynamics Harmonization Working Group's tasks are as follows:

Task 1—Interaction of Systems and Structure: Review existing special conditions for fly-by-wire airplanes and existing requirements for control systems, including automatic and/or power-operated systems, and recommend to the ARAC any new revised general requirements needed for flight control systems and structures affected by those systems (§§ 25.302, 25.671, 25.1329, part 25 appendix K).

Task 2—Continuous Turbulence Loads: Review the requirement for the continuous turbulence standard in light of the ARAC proposal for a tuned discrete gust requirement in order to determine whether the continuous turbulence requirement should be revised or removed from the FAR/JAR for better consistency with the new proposed tuned discrete gust criteria (§ 25.305(d)).

Task 3—Strength and Deformation: Review the recent requirements adopted in the FAR by Amendment 25–77 (for the design of transport airplanes against buffet and forced structural vibrations) and consider appropriate changes for the JAR and FAR to harmonize these rules (§§ 25.305 (e) and (f)).

Task 4—Design Flap Speeds: Review the current flap design loads requirements to resolve differences in interpretation between the FAA and JAA concerning the structural design stall speeds on which the flap design speeds are based. Recent measurements of gust speeds at low altitudes, where flaps are normally extended, indicate a more severe gust environment may be present. Review all aspects of the flap design load requirements, including the design airspeeds, vertical and head-on design gust criteria, and the effects of automatic retraction and load relief systems (§ 25.335(e)).

Task 5—Residual Strength Loads for Damage Tolerance: Review the differences in residual strength design load requirements between the FAR and JAR and resolve differences to harmonize this rule. Prepare a Notice of Proposed Rulemaking or make recommendations to other ARAC efforts concerning FAR § 25.571, so that they can be included in rulemaking that may be forthcoming from those efforts (§ 25.571(b)).

Task 6—Shock Absorption Tests: Review the changes recently introduced into the JAR that have resulted in differences between the FAR and JAR in regard to the requirement for shock absorption tests. Review those changes in view of harmonizing the FAR and JAR (§ 25.723(a)).

Task 7—Rough Air Speed: The ARAC has proposed a new § 25.1517 concerning rough air speed design standards in its proposal for a tuned discrete gust requirement. This action is harmonized with the current JAR 25.1517; however, further changes in the rough air speed requirement may be needed in both the FAR and JAR. Review JAR 25.1517 and the new proposed FAR 25.1517 to determine if further changes are needed. If so, prepare a Notice of Proposed Rulemaking, or, if possible, combine these changes with other rulemaking efforts (§ 25.1517).

Task 8—Taxi, Takeoff, and Landing Roll: Prepare an advisory circular that establishes criteria that may be used to calculate rough runway and taxiway loads, as required by §§ 25.491, 25.235, and 25.305.

Task 9—Braked Roll Conditions: Review the provisions of § 25.493 of the FAR and JAR concerning the braked roll condition and finalize a harmonized Notice of Proposed Rulemaking.

Reports

For each task listed, the Loads and Dynamics Harmonization Working Group should develop and present to the ARAC:

1. A recommended work plan for completion of the task, including the rationale supporting such plan, for consideration at the meeting of the ARAC to consider transport airplane and engine issues held following publication of this notice;

2. A detailed conceptual presentation on the proposed recommendation(s), prior to proceeding with the work stated in item 3. below;

3. A draft Notice of Proposed Rulemaking, with supporting economic and other required analyses, and/or any other related guidance material or collateral documents the working group determines to be appropriate; or, if new or revised requirements or compliance methods are not recommended, a draft report stating the rationale for not making such recommendations; and

4. A status report at each meeting of the ARAC held to consider transport airplane and engine issues.

Participation in Working Group Task

An individual who has expertise in the subject matter and wishes to become a member of the working group should write to the person listed under the caption **FOR FURTHER INFORMATION CONTACT** expressing that desire, describing his or her interest in the task(s), and stating the expertise he or

she would bring to the working group. The request will be reviewed with the assistant chairman and working group leader, and the individual will be advised whether or not the request can be accommodated.

The Secretary of Transportation has determined that the information and use of the Aviation Rulemaking Advisory Committee are necessary in the public interest in connection with the performance of duties imposed on the FAA by law. Meetings of the Aviation Rulemaking Advisory Committee will be open to the public, except as authorized by section 10(d) of the Federal Advisory Committee Act. Meetings of the working group will not be open to the public, except to the extent that individuals with an interest and expertise are selected to participate. No public announcement of working group meetings will be made.

Issued in Washington, DC, on June 3, 1994.

Chris A. Christie,

Executive Director, Aviation Rulemaking Advisory Committee.

BILLING CODE 4910–13–M

Air Traffic Procedures Advisory Committee

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of meeting.

SUMMARY: The FAA is issuing this notice to advise the public that a meeting of the Federal Aviation Administration Air Traffic Procedures Advisory Committee (ATPAC) will be held to review present air traffic control procedures and practices for standardization, clarification, and upgrading of terminology and procedures.

DATES: The meeting will be held from July 11 through July 14, 1994, from 9 a.m. to 5 p.m. each day.

ADDRESSES: The meeting will be held at the Helicopter Association International, 1635 Prince Street, Alexandria, VA.

FOR FURTHER INFORMATION CONTACT: Mr. W. Frank Price, Executive Director, ATPAC, Air Traffic Rules and Procedures Service, 800 Independence Avenue, SW., Washington, DC 20591, telephone (202) 267–3726.

SUPPLEMENTARY INFORMATION: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463m; 5 U.S.C. App.2), notice is hereby given of a meeting of the ATPAC to be held from July 11 through July 14, 1994, at the Helicopter Association International, 1635 Prince Street, Alexandria. VA.

The agenda for this meeting will cover a continuation of the Committee's review of present air traffic control procedures and practices for standardization, clarification, and upgrading of terminology and procedures. It will also include:

1. Approval of Minutes.
2. Submission and Discussion of Areas of Concern.
3. Discussion of Potential Safety Items.
4. Report from Executive Director.
5. Items of Interest.
6. Discussion and agreement of location and dates for subsequent meetings.

Attendance is open to the interested public but limited to the space available. With the approval of the Chairperson, members of the public may present oral statements at the meeting. Persons desiring to attend and persons desiring to present oral statements should notify the person listed above not later than July 8, 1994. The next quarterly meeting of the FAA ATPAC is planned to be held from October 17–20, 1994, in Washington, DC. Any member of the public may present a written statement to the Committee at any time at the address given above.

Issued in Washington, DC, on June 3, 1994.

W. Frank Price,

Executive Director, Air Traffic Procedures Advisory Committee.

[FR Doc. 94–14150 Filed 6–9–94; 8:45 am]

BILLING CODE 4910–13–M

Aviation Rulemaking Advisory Committee; Transport Airplane and Engine Issues

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of new task assignment for the Aviation Rulemaking Advisory Committee.

SUMMARY: Notice is given of new task assignments for the Flight Test Working Group of the Aviation Rulemaking Advisory Committee (ARAC). This notice informs the public of the activities of the ARAC.

FOR FURTHER INFORMATION CONTACT: Michael H. Borfitz, Assistant Executive Director, Aviation Rulemaking Advisory Committee, Transport Airplane and Engine Issues, FAA Engine & Propeller Directorate, 12 New England Executive Park, Burlington, Massachusetts 01803; telephone (617) 238–7110, fax (617) 238–7199.

SUPPLEMENTARY INFORMATION: On January 22, 1991 (56 FR 2190), the Federal Aviation Administration (FAA) established the Aviation Rulemaking Advisory Committee (ARAC). The committee provides advice and recommendations to the FAA Administrator, through the Associate Administrator for Regulation and Certification, on the full range of the FAA's rulemaking activities with respect to aviation-related issues.

In order to develop such advice and recommendations, the ARAC may choose to establish working groups to which specific tasks are assigned. Such working groups are comprised of experts from those organizations having an interest in the assigned task. A working group member need not be a representative of the full committee. One of the working groups established by the ARAC is the Flight Test Working Group.

The FAA announced at the Joint Aviation Authorities (JAA)-Federal Aviation Administration (FAA) Harmonization Conference in Toronto. Canada June 2–5, 1992, that it would consolidate within the ARAC structure an ongoing objective to "harmonize" the Joint Aviation Requirements (JAR) and the Federal Aviation Regulations (FAR).

Task

The Flight Test Working Group's tasks are as follows:

Task 1—Gate Requirements for High Lift Devices: Recommend to the ARAC simplified and clarified requirements related to gated positions on the control used by the pilot select the position of an airplane's high lift devices.

Task 2—Flight Characteristics in Icing Conditions: Recommend to the ARAC new or revised requirements and compliance methods related to airplane performance and handling characteristics in icing conditions.

Reports

For each task listed above, the Flight Test Working Group should develop and present to the ARAC:

1. A recommended work plan for completion of the task, including the rationale supporting such plan, for consideration at the meeting of the ARAC to consider transport airplane and engine issues held following publication of this notice;

2. A detailed conceptual presentation on the proposed recommendation(s), prior to proceeding with the work stated in item 3. below;

3. A draft Notice of Proposed Rulemaking (NPRM), with supporting economic and other required analyses, and/or any other related guidance material or collateral documents the working group determines to be appropriate; or, if new or revised

requirements of compliance methods are not recommended, a draft report stating the rationale for not making such recommendations; and

4. A status report at each meeting of the ARAC held to consider transport airplane and engine issues.

Participation in Working Group Task

An individual who has expertise in the subject matter and wishes to become a member of the working group should write to the person listed under the caption **FOR FURTHER INFORMATION CONTACT** expressing that desire, describing his or her interest in the task and stating the expertise he or she would bring to the working group. The request will be reviewed with the assistant chairman and working group leader, and the individual will be advised whether or not the request can be accommodated.

The Secretary of Transportation has determined that the information and use of the Aviation Rulemaking Advisory Committee are necessary in the public interest in connection with the performance of duties imposed on the FAA by law. Meetings of the Aviation Rulemaking Advisory Committee will be open to the public, except as authorized by section 10(d) of the Federal Advisory Committee Act. Meetings of the working group will not be open to the public, except to the extent that individuals with an interest and expertise are selected to participate. No public announcement of working group meetings will be made.

Issued in Washington, DC, on June 3, 1994.

Chris A. Christie,

Executive Director, Aviation Rulemaking Advisory Committee.

[FR Doc. 94–14145 Filed 6–9–94; 8:45 am]

BILLING CODE 4910–13–M

Passenger Facility Charge (PFC) Approvals and Disapprovals

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Monthly Notice of PFC Approvals and Disapprovals. In May 1994, there were six applications approved.

SUMMARY: The FAA publishes a monthly notice, as appropriate, of PFC approvals and disapprovals under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IV of the Omnibus Budget Reconciliation Act of 1990) (Pub. L. 101–508) and part 158 of the Federal Aviation Regulations (14 CFR part 158). This notice is published pursuant to paragraph d of § 158.29.

PFC Applications Approved

Public Agency: City of Boise, Idaho.

Application Number: 94–01–C–00–BOI.

Application Type: Impose and Use PFC Revenue.

PFC Level: $3.00.

Total Approved Net PRC Revenue: $6,857,774.

Charge Effective Date: August 1, 1994.

Estimated Charge Expiration Date: October 1, 1998.

Class of Air Carriers Not Required To Collect PFC's: Part 135 air taxi/commercial operators who conduct operations in air commerce carrying persons for compensation or hire, except air taxi/commercial operators of public or private charters in aircraft with a seating capacity of 10 or more.

Determination: Approved. Based on information submitted by the public agency, the FAA has determined that the proposed class accounts for less than 1 percent of the total enplanements at Boise Air Terminal.

Brief Description of Projects Approved For Collection and Use: Taxiway safety improvements, Aircraft rescue and firefighting (ARFF) improvements, Terminal safety improvements, Air carrier capacity improvements, Land acquisition and perimeter road, Snow removal equipment safety improvements.

Brief Description of Project Approved-In-Part For Collection and Use: Planning studies.

Determination: Approved in part. The financial plan duplicates work already accomplished in the master plan update completed in 1993; therefore, the FAA has determined that this element of the project does not meet any of the project eligibility criterion set forth in section 158.15(a).

Decision Date: May 13, 1994.

For Further Information Contact: Sandra M. Simmons, Seattle Airports District Office, (206) 227–2656.

Public Agency: Metropolitan Airports Commission, Minneapolis, Minnesota.

Application Number: 94–02–C–00–MSP.

Application Type: Impose and Use PFC Revenue.

PFC Level: $3.00.

Total Approved Net PRC Revenue: $113,064,000.

Earliest Charge Effective Date: August 1, 1994.

Estimated Charge Expiration Date: June 1, 1998.

Class of Air Carriers Not Required To Collect PFC's: Air taxi/commercial operators filing FAA Form 1800–31.

Determination: Approved. Based on information submitted by the public agency, the FAA has determined that the proposed class accounts for less than 1 percent of the total enplanements at Minneapolis-St. Paul International Airport.

Brief Description of Projects Approved For Collection and Use: Airport noise and operations monitoring system, Centennial School noise abatement—phase 3, Airside electrical modifications, Airfield drainage adjustments, HHH remote apron blast fence, Home insulation/home buyouts—Part 150 sound insulation projects, 1993 airfield guidance signage, 1993 airside bituminous, New Ford Town/Rich Acres acquisition, Airport security system modifications, Airside bituminous construction, Apron lighting upgrade, Security checkpoints relocation, Pavement rehabilitation—aprons, taxiways, and others, Pavement rehabilitation—runways 4/22 and 11R/29L intersection, Airfield drainage strip reconstruction, School noise abatement projects—Part 150 sound insulation, Pavement rehabilitation—runway 11R/29L, Pavement rehabilation—runway 11L/29R segment 2.

Brief Description of Project Approved-In-Part For Collection and Use: Lindbergh terminal chiller replacement.

Determination: Approved in part. This chiller serves both eligible and ineligible areas. PRC approval is limited to the eligible volume of space served by the chiller.

Decision Date: May 13, 1994.

For Further Information Contact: Franklin Benson, Minneapolis Airports District Office, (612) 725–4221.

Public Agency: Muscle Shoals Regional Airport Authority, Muscle Shoals, Alabama.

Application Number: 94–02–C–00–MSL.

Application Type: Impose and Use PFC Revenue.

PFC Level: $3.00.

Total Approved Net PFC Revenue $60,000.

Estimated Charge Effective Date: February 1, 1995.

Estimated Charge Expiration Date For This Approval: February 1, 1997.

Class of Air Carriers Not Required To Collect PFC'S: None.

Brief Description of Projects Approved For Collection and Use: Purchase ARFF vehicle, Complete construction of taxiway B, Install security fencing, Seal air carrier ramp.

Decision Date: May 17, 1994.

For Further Information Contact: Elton E. Jay, Jackson Airports District Office, (601) 965–4628.

Public Agency: Fort Smith Airport Commission, Fort Smith, Arkansas.

Application Number: 94–01–I–00–FSM.

Application Type: Impose PFC Revenue.

PFC Level: $3.00

Total Approved Net PFC Revenue: $4,040,076.

Charge Effective Date: August 1, 1994.

Estimated Charge Expiration Date: April 1, 2007.

Class of Air Carriers Not Required To Collect PFC'S: Unscheduled part 135 air taxi and charter operators using aircraft with 12 seats or less.

Determination: Approved. Based on information submitted by the public agency, the FAA has determined that the proposed class accounts for less than 1 percent of the total enplanements at Fort Smith Regional Airport.

Brief Description of Projects Approved For Collection Only: PFC reimbursable Airport Improvement Program (AIP) projects: Land acquisition for noise compatibility, Reconstruction of east portion of general aviation ramp, Reconstruction of west portion of general aviation ramp, Noise monitoring and noise study update, Construction of west portion of taxiway A, taxiway E, and taxiway F, Construction of east portion of taxiway A. Disabled passenger lift, Acquire power sweeper, Overlay and marking of runway 7/25, Overlay of taxiway B, Overlay and marking of runway 1/19—south end, Airport master plan update and terminal area development plan, Terminal complex development, Terminal parking apron, Terminal automobile parking lot and access road, Rehabilitate airfield pavement, Install surface condition scanner [sensor] on runway 7/25, Install security improvements, Purchase maintenance/snow removal equipment [blower unit and liquid urea spreader].

Brief Description of Projects Disapproved: Extend runway 7/25 and parallel taxiway with holding apron; relocate instrument landing system visual approach slope indicator's, and approach lights.

Determination: Disapproved. The FAA determined that these projects do not meet the requirements of § 158.25(b)(14)(i); therefore, this project is not PFC eligible. The funding for this project relies heavily upon AIP discretionary funds. The Fort Smith Airport Commission did not submit an alternate funding plan which shows that the project can be accomplished without AIP discretionary funds. Remove hangars at terminal area.

Determination: Disapproved. This project is not AIP eligible because section 513(c)(2) of the Airport and Airway Improvement Act, as amended, generally prohibits funds to be expended on hangar relocation or demolition.

Decision Date: May 18, 1994.

For Further Information Contact: Ben Guttery, Southwest Region Airport Division, (817) 222–5614.

Public Agency: Town of Harrietstown, Saranac Lake, New York.

Application Number: 94–01–C–00–SLK.

Application Type: Impose and Use PFC Revenue.

PFC Level: $3.00.

Total Approved Net PFC Revenue: $121,952.

Earliest Charge Effective Date: August 1, 1994.

Estimated Charge Expiration Date: January 1, 2003.

Class of Air Carriers Not Required To Collect PFC'S: None.

Brief Description of Projects Approved For Collection and Use: Prepare PFC application, Purchase snow removal equipment, Runway 5/23 crack repair and drainage improvements, Airport beacon rehabilitation, Airline terminal building expansion, Airfield signage improvements, Construct ARFF vehicle/snow removal equipment building rehabilitation and expansion.

Brief Description of Project Disapproved: Runway 9/27 crack repair.

Determination: The FAA determined that this project did not meet the eligibility criteria as stated in paragraph 521(c) of FAA Order 5100.38A, AIP Handbook, for additional runways. Runway 5/23 is the main runway which provides the necessary wind coverage for the Adirondack Regional Airport. Paragraph 521(c) states that AIP participation in runway development will be limited to a single runway at an airport unless additional runways can be justified using stated criteria.

Decision Date: May 18, 1994.

For Further Information Contact: Philip Brito, New York Airports District Office, (718) 553–1882.

Public Agency: City of Modesto, California.

Application Number: 94–01–C–00–MOD.

Application Type: Impose and Use PFC Revenue.

PFC Level: $3.00.

Total Approved Net PFC Revenue: $300,370.

Charge Effective Date: August 1, 1994.

Estimated Charge Expiration Date: August 1, 2000.

Class of Air Carriers Not Required To Collect PFC'S: Air taxi/commercial operators.

Determination: Approved. Based on information submitted by the public agency, the FAA has determined that the proposed class accounts for less than 1 percent of the total enplanements at Modesto City-County Airport—Harry Sham Field.

Brief Description of Projects Approved for Collection and Use: Airfield sign upgrade, Pavement rehabilitation—cap seal and pavement overlay, construction of taxiway, Passenger lift vehicle, Airport Way resurfacing and extension. General aviation apron slurry seal, Passenger terminal parking lot, General aviation and terminal security lighting upgrade, Rewire runway and taxiway light circuits.

Brief Description of Projects Approved for Collection Only: Airport perimeter security upgrade, Widen air carrier and transient apron, Runway 10L/28R holding bays, Taxiway B and miscellaneous general aviation area pavement rehabilitation and air carrier apron expansion, runway 10R/28L pavement overlay, Relocate runway 10R/28L edge lights.

Decision Date: May 23, 1994.

For Further Information Contact: Joseph Rodriquez, San Francisco Airports District Office, (415) 876–2805.

Issued in Washington, DC on June 3, 1994.

Donna Taylor,

Manager, Passenger Facility Charge Branch.

BILLING CODE 4910–13–M

Federal Highway Administration

Environmental Impact Statement: Carroll, Lafayette, and Saline Counties, Missouri

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed project in Carroll, Lafayette, and Saline Counties, Missouri.

FOR FURTHER INFORMATION CONTACT: Mr. Donald Neumann, Federal Highway Administration, P.O. Box 1787, Jefferson City, MO 65102, Telephone Number 314–636–7104; or Mr. Bob Sfreddo, Design Engineer, Missouri Highway and Transportation Department, P.O. Box 270, Jefferson City, MO 65102, Telephone Number 314–751–2876.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Missouri Highway and Transportation Department (MHTD), will prepare an environmental impact statement (EIS) on a proposal to improve U.S. Route 65 in Carroll, Lafayette, and Saline Counties, Missouri.

1. The proposed improvement would involve the reconstruction of U.S. Route 65 from immediately south of Marshall to just north of Carrollton. The project would be approximately 54.7 kilometers (34 miles) long. Improvements in the corridor are considered necessary to (1) provide additional capacity in the U.S. Route 65 regional corridor between the

Iowa and Arkansas state lines to accommodate increasing traffic, and (2) improve regional mobility and connections to major linkages within the corridor. The U.S. route 65 corridor is the only mid-state, continuous, north-south corridor across Missouri. This proposal also includes the replacement of a functionally obsolete bridge across the Missouri River.

2. Alternatives under consideration include (1) a "no build" option; (2) using alternative travel modes; (3) phased construction of a four-lane freeway, with fully controlled access, substantially parallel to the existing route; (4) phased construction of a four-lane freeway substantially parallel to the existing route on a new location; and (5) phased construction of a four-lane freeway in an alternative corridor between Carrollton and Marshall.

3. To date, preliminary information has been issued to local officials and other interested parties. The scoping process has been initiated with Federal, State, and local agencies. Formal agency and public scoping meetings will be held. In addition, public hearings will be held. Public notice will be given in advance of the date and time of each meeting. The draft EIS will be available prior to the public hearing for public review and comment. To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Any comments or questions concerning this proposed action and the EIS should be directed to the FHW or the Missouri Highway and Transportation Department at the address provided above.

Issued on: May 25, 1994.

Donald Neumann,

Program Review Engineer, Jefferson City.

[FR Doc. 94–14183 filed 6–9–94; 8:45 am]

BILLING CODE 4910–22–M

Environmental Impact Statement: Clark and Lewis Counties, Missouri

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed project in Clark and Lewis Counties, Missouri, and Henry and Lee Counties, Iowa.

FOR FURTHER INFORMATION CONTACT: Mr. Donald Neumann, Federal Highway Administration, P.O. Box 1787, Jefferson City, MO 65102, Telephone Number 314–636–7104; or Mr. Bob Sfreddo, Design Engineer, Missouri Highway and Transportation Department, P.O. Box 270, Jefferson City, MO 65102, Telephone Number 314–751–2876.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Missouri Highway and Transportation Department (MHTD), will prepare an environmental impact statement (EIS) on a proposal to improve a portion of U.S. Route 61 (the Avenue of the Saints roadway) in Clark and Lewis Counties, Missouri, and Henry and Lee Counties, Iowa.

1. The proposed improvement would provide a four-lane highway from Canton, Missouri, to approximately 1.61 kilometers (1 mile) south of Mount Pleasant, Iowa. The project is approximately 90 kilometers (56 miles) long. The Missouri Section would be an expressway on expressway right of way, with freeway and interchange right of way purchased at major state routes. It would run for 37 kilometers (23 miles) along the corridor of existing portions of U.S. 61, U.S. 136 Spur, U.S. 136, and Missouri Route B. The Iowa section would be designed to expressway standards and would generally follow U.S. 218 and Iowa 394 for 53 kilometers (33 miles). The corridor crosses the Des Moines River and includes the crossing now occupied by Iowa 394 and Missouri Route B. However, the new crossing will be at a different location. Several wetland areas associated with rivers and streams will be crossed.

2. In Missouri, alternatives under consideration include (1) a "no build" option, (2) improvement of the existing alignment, and (3) two alternatives on new alignments.

The first Missouri alternate on new alignment would begin north of the junction on U.S. 61 and Missouri 16, just west of Canton, and would extend along a new alignment west of U.S. 61 and generally west of U.S. 136 Spur. It would provide a western bypass around Wayland, Missouri, and continue northwest to Missouri Route B. St. Francisville, Missouri, would be bypassed on the west.

The second Missouri alternative on new alignment would also begin north of the U.S. 61 and Missouri 16 junction and would extend north on an alignment east of U.S. 61 and U.S. 136 Spur. It would bypass Wayland and continue north to Missouri Route B. South of St. Francisville, it would cross Route B and bypass St. Francisville to the east. Within Missouri, combinations of build alternatives are possible.

In Iowa, alternatives being considered include (1) a "no build" option, (2) improvement of the existing alignment, and (3) a construction alternative that includes some sections on new alignment combined with upgrading the existing alignment. This alternative consists of improving existing two-lane sections of U.S. 218 and Iowa 394 to four-lane expressway standards with eastern bypasses of the communities of Donnellson and Argyle.

3. To date, preliminary information has been issued to local officials and other interested parties. The scoping process was initiated with Federal, State, and local agencies in September of 1993. Formal agency and public scoping meetings were held on October 12, 1993, in Donnellson, Iowa. A meeting with local government officials and community leaders was held in Wayland, Missouri, on February 8, 1994. On February 24, 1994, a second public information meeting was held near Wayland to gain public input about alternatives being considered for the project. In addition, public hearings will be held. Public notice will be given in advance of the date and time of each meeting. The draft EIS will be available prior to the public hearing for public review and comment. To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Any comments or questions concerning this proposed action and the EIS should be directed to the FHWA or the Missouri Highway and Transportation Department at the addresses provided above. Missouri is the lead state for the proposed action.

Issued on: June 1, 1994.

Donald Neumann,

Program Review Engineer, Jefferson City.

BILLING CODE 4910–22–M

National Highway Traffic Safety Administration

[Docket No. 94–47; Notice 1]

Program Plan for Evaluating the Effectiveness of Existing Regulations, 1994–98

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Request for comments.

SUMMARY: This notice announces the publication by NHTSA of its Evaluation Program Plan for 1994–98. The report describes the agency's ongoing and planned evaluations of its existing Federal Vehicle Safety Standards [49 CFR part 571] and its other safety and

consumer programs. It also summarizes the results of completed evaluations. The agency's evaluation program responds to Executive Order 12866, which provides for Government-wide review of existing significant Federal regulations. This notice solicits public review and comment on the evaluation plan. Comments received will be used to improve the plan.

DATES: Comments must be received no later than August 9, 1994.

ADDRESSES: *Report:* Interested persons may obtain a copy of the report free of charge by sending a self-addressed mailing label to Ms Glorious Harris (NAD–51, National Highway Traffic Safety Administration, 400 Seventh Street SW., Washington, DC 20590.

Comments: All comments should refer to the docket and notice number of this notice and be submitted to: Docket section, room 5109, Nassif Building, 400 Seventh Street, SW., Washington DC 20590. [Docket hours, 9:30 a.m.–4 p.m., Monday through Friday.] It is requested but not required that 10 copies of comments be submitted.

FOR FURTHER INFORMATION CONTACT: Mr. Frank Ephraim, Chief, Evaluation Division, Office of Strategic Planning and Evaluation, Plans and Policy, National Highway Traffic Safety Administration, room 5208, 400 Seventh Street, SW., Washington, DC 20590 (202–336–1574).

SUPPLEMENTARY INFORMATION: NHTSA has rigorously evaluated its major programs as a matter of policy since 1970. The evaluation of the effectiveness of the Federal Motor Vehicle Safety Standards (FMVSS) began in 1975. Executive Order 12866, issued in October 1993, is the formal government-wide requirement for Federal agencies to evaluate their existing regulations and programs. Since the mid-1970's NHTSA was a leader among Federal agencies in evaluating the effectiveness of its regulations. There are large data bases of motor vehicle accidents which can be analyzed to find out what vehicle and traffic safety programs works best.

This five-year plan presents and discusses the programs, regulations, and related areas NHTSA proposes to evaluate, and it summarizes the findings of past evaluations. Depending on scope, evaluations typically take a year or more, counting initial planning, contracting for support, Office of Management and Budget clearance for surveys, internal review, approval, report publication for comment, and the last phase of preparing options for subsequent agency action.

Most of NHTSA's crashworthiness and several crash avoidance standards have been evaluated at least once since 1975. A number of consumer-oriented regulations, e.g., bumpers, theft protection, and fuel economy, have also been evaluated. The plan for the next five years includes evaluations of new and existing safety and consumer information and protection regulations, plus assessments of specific enforcement and highway safety programs.

NHTSA welcomes public review of the plan and invites the reviewers to comment about the selection, priority, and schedule of the regulations to be evaluated. The agency is interested in learning of any additional data that may be useful in the evaluations. The plan will be periodically updated in response to public and agency needs, with a complete revision scheduled very four years.

Those persons desiring to be notified upon receipt of their comments in the rules docket should enclose, in the envelope with their comments, a self-addressed stamped postcard. Upon receiving the comments, the docket supervisor will return the postcard by mail.

(15 U.S.C. 1392, 1401, 1407; delegation of authority at 49 CFR 1.50 and 501.8)

Issued on: June 3, 1994.

Donald C. Bischoff,

Associate Administrator for Plans and Policy

Research and Special Programs Administration

International Standards on the Transport of Radioactive Materials; Public Meeting

AGENCY: Research and Special Programs Administration (RSPA), Department of Transportation.

ACTION: Notice of public meeting.

SUMMARY: This notice is to advise interested persons that RSPA will conduct a public meeting to discuss issues to be considered at the International Atomic Energy Agency (IAEA) Technical Committee Meeting (TCM) during June 27–July 1, 1994. A TCM is a meeting of experts from member nations assembled to address the technical aspects of a particular proposal.

DATES: June 15, 1994 at 9:30 am.

ADDRESSES: Room 8442, Nassif Building, 400 Seventh Street SW., Washington, DC 20590.

FOR FURTHER INFORMATION CONTACT: George Brown, Chief, Radioactive Materials Branch, Office of Hazardous Materials Transportation, Department of Transportation, Washington, DC 20590; (202) 366–4545.

SUPPLEMENTARY INFORMATION: This meeting will be held to discuss several issues being considered for incorporation into the next publication of international regulations. The IAEA meeting will be held in Vienna, Austria, June 27–July 1, 1994. Topics to be covered include:

1. The impact of the new recommendations proposed by the International Council on Radiological Protection (ICRP) and the draft of the IAEA Basic Safety Standards on the "Regulations for Safe Transport of Radioactive Material," IAEA Safety Series #6.

2. Review status of changes to the "Q" System. The "Q" system is an index of the relative hazards of each radionuclide, and is the basis for determining such issues as Type A and Type B quantities.

3. Exemption/Exception criteria. The issue is to investigate the merits of replacing the current generic radioactivity threshold of .002 uCi/g of any radionuclide with a threshold based on each individual radionuclide.

4. Minimum weight limit for packages labeled "Radioactive Yellow III". The proposal is to require a minimum weight of 10 kg for these packages.

The public is invited to attend without prior notification.

Documents

Copies of documents related to the issues to be covered at the tenth meeting of SAGSTRAM may be obtained from RSPA. Documents may be ordered by contacting RSPA's Dockets Unit (202–366–4453). For more information on the use of the HMIX system, contact the HMIX information center: 1–800–PLANFOR (752–6367); in Illinois, 1–800–367–9592; Monday through Friday, 8:30 a.m. to 5 p.m. Central time.

Issued in Washington, DC, on June 7, 1994.

Robert A. McGuire,

Deputy Associate Administrator for Hazardous Materials Safety.

BILLING CODE 4910–60–M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Commissioner's Advisory Group: Public Meeting

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice of Public Meeting of Commissioner's Advisory Group.

SUMMARY: Public meeting of the Commissioner's Advisory Group will be held in Washington, DC.

DATES: The meeting will be held June 16, 1994.

FOR FURTHER INFORMATION CONTACT: Patricia Andrews, PC:E, 1111 Constitution Avenue, NW., room 1311, Washington, DC 20224. Telephone No. (202) 622–5026, (not a toll-free number).

Notice is hereby given pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. (1988), that a public meeting of the Commissioner's Advisory Group will be held on June 16, 1994, in room 3313 beginning at 8:30 a.m., main Internal Revenue Service Building, 1111 Constitution Avenue, NW., Washington, DC 20224.

The agenda will include the following topics:

IRS Small Business Study
Commercial Return Preparers Conference on Professionalism
Protecting Privacy and Security
Legislative Update
Business Master Plan Overview
Compliance Subgroup Status Report
FY 1995 Compliance Initiatives
Recommendations for Electronic Filing Strategy
Taxlink Update

Note: Last minute changes to the agenda or order of topic discussion are possible and could prevent effective advance notice.

The meeting, which will be open to the public will be in a room that accommodates approximately 50 people, including members of the Commissioner's Advisory Group and IRS officials. Due to the limited conference space, notification of intent to attend the meeting must be made with Patricia Andrews, Senior Program Analyst, no later than June 10, 1994. Ms. Andrews can be reached on (202) 622–5026 (not toll-free).

If you would like to have the committee consider a written statement, please call or write: Ms. Patricia Andrews, Strategic Planning and Communications, PC:E, Internal Revenue Service, 1111 Constitution Avenue, NW., room 1311, Washington, DC 20224.

FOR FURTHER INFORMATION CONTACT: Patricia Andrews, Program Analyst, (202) 622–5026 (not toll-free).

Margaret Milner Richardson,
Commissioner.

BILLING CODE 4830–01–U

UNITED STATES INFORMATION AGENCY

Educational Advising Program for International Students From Hong Kong

ACTION: Notice—Request for proposals.

SUMMARY: The Bureau of Educational and Cultural Affairs of the United States Information Agency (USIA) seeks applications from non-profit applicants willing to establish and maintain an educational advising center in Hong Kong. The advising center will facilitate international educational exchange through overseas educational advising, orientation, and information services for international students and scholars seeking information on opportunities in U.S. higher education.

USIA anticipates awarding up to $90,000 for the implementation and coordination of the advising center. Grants will only be awarded to eligible applicants with at least four years of experience in conducting international exchange programs.

Announcement Name and Number

All communications with USIA concerning this announcement should refer to the above title and reference number E/ASA–94–04.

DATES: *Deadline for proposals:* All proposals must be received at the U.S. Information Agency by close of business (5 p.m., Eastern Standard Time) Friday, July 14, 1994. Faxed documents will not be accepted, nor will documents postmarked on July 14, 1994, but received at a later date.

Duration

The duration of the grant should be from October 1, 1994 through September 30, 1995. Programs may begin no earlier than October 1, 1994. No funds may be expended until the grant agreement is signed.

ADDRESSES: A total of fifteen copies of the application should be submitted to the office below. Three copies (one a signed original) should include the completed application, including tabs A–U; the other 12 copies should include tabs A–D.

U.S. Information Agency, Reference number: E/ASA–94–04, Grants Management Division, E/XE, 301 4th Street SW., room 336, Washington, DC. 20547.

FOR FURTHER INFORMATION CONTACT: Interested U.S. applicants should contact Alexandra Hattemer at the United States Information Agency, 301 4th Street SW., Advising and Student Services Branch (E/ASA), Room 349, Washington, DC. 20547, 202–619–5434 to request detailed application packets, which include award criteria additional to this announcement, all necessary forms, and guidelines for preparing proposals, including specific budget preparation information.

SUPPLEMENTARY INFORMATION: Pursuant to the Bureau's authorizing legislation, programs must maintain a non-political character and should be balanced and representative of the diversity of American political, social, and cultural life.

Overall authority for this program is contained in the Mutual Educational and Cultural Exchange Act of 1961, as amended, Pub. L. 87–256 (Fulbright Hays Act). The purpose of the Act is to "enable the Government of the United States to increase mutual understanding between the people of the United States and the people of other countries; to strengthen the ties which unite us with other nations by demonstrating the educational and cultural interests, developments, and achievements of the people of the United States and other nations and thus to assist in the development of friendly, sympathetic and peaceful relations between the United States and other countries of the world." Programs and projects must conform with all Agency requirements and guidelines and are subject to final review by the USIA contracting officer.

Overview

An ideal program would provide a state-of-the-art advising center dedicated to providing information, orientation, and advice to international students in Hong Kong interested in studying in the U.S.

Guidelines

The proposal should be presented in three parts.

I. Applicant's Background and Overview

The first part should contain an overview of the applicant's history and purpose. Evidence of previous experience with advising or educational exchange of international students and scholars should be included. The overview should indicate the total amount of funding requested with a justification as well as a budget presentation outlining the total project costs.

A listing of names, titles, addresses, and telephone numbers of the executive officer(s) and of the person(s) ultimately responsible for project, must be included in the proposal. Resumes or vitae of key personnel must be provided. USIA also recommends the inclusion of brochures and general information concerning the applicant, e.g. organizational charts, job descriptions, the names of board members (or similar group), the number of employees, etc.

II. Advising Center Operational and Services

The second part of the proposal should contain details on the advising center's proposed location and hours of operation, proposed staffing pattern (including the percentage of time each employee will devote to advising activities and a description of their functions and responsibilities), budget, and advising services to be provided. A resume or brief narrative explaining the qualifications of the person or persons who will have primary responsibility for conducting advising and/or providing oversight of the advising center staff should be included. The proposal should demonstrate the center's ability to provide the following educational advising services to international students and scholars:

1. Information and guidance on U.S. educational institutions, systems, tuition and related costs, fields of study, specialized training, etc;
2. Information and advice on U.S. standardized tests, e.g. TOEFL, GRE, GMAT, FMGEMS, etc., to include the provision of registration application forms, maintenance of bulletins and testing schedules;
3. Information and research on short-term institutional training in technical and professional fields;
4. Information on English language training programs in the U.S.;
5. Group and individual advising sessions, pre-departure orientation and reentry programs, as appropriate.

The center will also be required to monitor the status of the educational system in Hong Kong and to share that information with USIA and United States Information Service (USIS) office at the American Consulate. The applicant should be willing to assist and support educational outreach activities of the USIS post abroad by developing a network of contacts with the local Ministry of Education, universities, and other appropriate institutions.

The center should also be willing to serve as an information resource for overseas educational advising centers in the People's Republic of China. The proposal should address the applicant's ability to do so.

III. Provision of Resource Materials, Equipment and Training

The third part of the proposal should address the extent to which the U.S. headquarters office will support its advising center abroad through the provision of educational advising resource materials and professional development activities and training.

Student access to a comprehensive university catalog collection, in print and/or microfiche or computer software programs, and an extensive collection of current references on U.S. educational institutions and programs, through print or computer networks, is an integral component of an educational advising center and the applicant's ability to provide such should be made clear in this section.

Office equipment that facilitates the processing of inquiries, such as electronic mail, facsimile machines, and telexes, would be regarded as an asset to the advising function and mention of such equipment should be made in the proposal. The Agency expects the advising center to be equipped with audio visual aids for students' use. Videos on U.S. study and life should complement the presentation and materials offered at group and individual advising sessions.

Proposed Budget

Applicants must submit a comprehensive line-item budget for which specific details are available in the application packet. The budget should not exceed $90,000.

Cost-sharing is encouraged. Cost-sharing may be in the form of allowable direct or indirect costs. The recipient must maintain written records to support all allowable costs which are claimed as being its contribution to cost participation, as well as cost to be paid by the Federal government. Such records are subject to audit. The basis for determining the value of cash and in-kind contributions must be in accordance with OMB Circular A110, Attachment E. Cost sharing and matching should be described in the proposal. In the event the recipient does not provide the minimum amount of cost-sharing as stipulated in the recipient's budget, the Agency's contribution will be reduced in proportion to the recipient's contribution.

The recipient's proposal shall include the cost of an audit that: (1) Complies with the requirements of OMB Circular No. A–133, Audits of Institutions of Higher Education and Other Nonprofit Institutions; (2) complies with the requirements of American Institute of Certified Public Accountants (AICPA) Statement of Position (SOP) No. 92–9; and (3) includes review by the recipient's independent auditor of a recipient-prepared supplemental schedule of indirect cost rate computation, if such a rate is being proposed.

The audit costs shall be identified separately for: (1) Preparation of basic financial statements and other accounting services; and (2) preparation of the supplemental reports and schedules required by OMB Circular No. A–133, AICPA SOP 92–9, and the review of the supplemental schedule of indirect cost rate computation.

Applicants should refer to the application package for a list of allowable costs.

Review Process

USIA will acknowledge receipt of all proposals and will review them for technical eligibility. Proposals will be deemed ineligible if they do not fully adhere to the guidelines established herein and in the application packet. Eligible proposals will be forwarded to panels of USIA officers for advisory review. All eligible proposals will also be reviewed by the appropriate geographic area office, and the USIA budget and contracts offices. Proposals may also be reviewed by the Agency's Office of General Counsel. Funding decisions are at the discretion of the Associate Director for Educational and Cultural Affairs. Final technical authority for grant awards resides with USIA's contracting officer.

Review Criteria

Technically eligible applications will be competitively reviewed according to the following criteria:

a. *Quality of program plan:* Proposals should exhibit a thorough knowledge and understanding of the needs of students from Hong Kong and exhibit originality, substance, and rigor.

b. *Program planning:* Proposals must include a detailed agenda and relevant workplan of program activities. The agenda should adhere to the program overview and guidelines described above.

c. *Ability to achieve program objectives/institutional capacity:* Proposed personnel and institutional resources should be adequate and appropriate to achieve the program goals and adhere to the guidelines described above. The applicant should demonstrate an ability to recruit and

maintain a professional staff to successfully accomplish the goals of the program.

d. *Multiplier effect/impact:* Program activities should be designed to foster long-term mutual understanding between citizens of the United States and Hong Kong.

e. *Institution's track record/ability:* Proposals should demonstrate a track record of successful programs, including responsible fiscal management and full compliance with all reporting requirements for Agency grants. The Agency will consider the past performance of prior grantees and the demonstrated potential of new applicants.

f. *Evaluation plan:* Proposals should provide a plan for evaluation by the grantee institution, including periodic progress reports.

g. *Cost-effectiveness:* The overhead and administrative components of grants, as well as salaries and honoraria, should be kept as low as possible. All other items should be necessary and appropriate.

h. *Cost-sharing:* Proposals should maximize cost-sharing through other private sector support as well as institutional direct-funding contributions. Evidence of such cost sharing should be detailed in the proposal.

Notice

The terms and conditions published in the RFP are binding and may not be modified by any USIA representative. Explanatory information provided by the Agency that contradicts published language will not be binding. Issuance of the RFP does not constitute an award commitment on the part of the Government. Final awards cannot be made until funds have been fully appropriated by Congress, and allocated and committed through internal USIA procedures.

Notification

All applicants will be notified of the results of the review process on or about September 15, 1994. Funded proposals will be subject to periodic reporting and evaluation requirements.

Dated: June 6, 1994.

John P. Loiello,

Associate Director, Bureau of Educational and Cultural Affairs.

BILLING CODE 8230–04–M

Educational Advising Program for International Students From Mexico and a Regional Educational Advising Consultancy for Overseas Educational Advising Centers Throughout Central America

ACTION: Notice—Request for proposals.

SUMMARY: The Bureau of Educational and Cultural Affairs of the United States Information Agency (USIA) seeks applications from non-profit applicants willing to establish and maintain an educational advising center in Mexico City which would also serve as the Regional Educational Advising Consultancy (REAC) for overseas educational advising centers throughout Mexico and Central America. The advising center will facilitate international educational exchange through overseas educational advising, orientation, and information services for international students and scholars seeking information on opportunities in U.S. higher education.

USIA anticipates awarding up to $130,000 for the implementation and coordination of the advising center and the REAC. Grants will only be awarded to eligible applications with at least four years of experience in conducting international exchange programs.

Announcement Name and Number

All communications with USIA concerning this announcement should refer to the above title and reference number E/ASA–94–03.

DATES: *Deadline for proposals:* All proposals must be received at the U.S. Information Agency by close of business (5 p.m., Eastern Standard Time) Friday, July 14, 1994. Faxed documents will not be accepted, nor will documents postmarked on July 14, 1994, but received at a later date.

Duration

The duration of the grant should be from October 1, 1994 through September 30, 1995. Programs may begin no earlier than October 1, 1994. No funds may be expended until the grant agreement is signed.

ADDRESSES: A total of fifteen copies of the application should be submitted to the office below. Three copies (one a signed original) should include the completed application, including tabs A–U; the other 12 copies should include tabs A–D.

U.S. Information Agency, Reference number: E/ASA–94–03, Grants Management Division, E/XE, 301 4th Street SW., room 336, Washington, DC 20547.

FOR FURTHER INFORMATION CONTACT: Interested U.S. applicants should contact Alexandra Hattemer at the United States Information Agency, 301 4th Street SW., Advising and Student Services Branch (E/ASA), room 349, Washington, DC 20547, 202–619–5434 to request detailed application packets.

SUPPLEMENTARY INFORMATION: Pursuant to the Bureau's authorizing legislation, programs must maintain a non-political character and should be balanced and representative of the diversity of American political, social, and cultural life.

Overall authority for this program is contained in the Mutual Educational and Cultural Exchange Act of 1961, as amended, Pub. L. 87–256 (Fulbright Hays Act). The purpose of the Act is to "enable the Government of the United States to increase mutual understanding between the people of the United States and the people of other countries; to strengthen the ties which unite us with other nations by demonstrating the educational and cultural interests, developments, and achievements of the people of the United States and other nations and thus to assist in the development of friendly, sympathetic and peaceful relations between the United States and the other countries of the world." Programs and projects must conform with all Agency requirements and guidelines and are subject to final review by the USIA contracting officer.

Overview

An ideal program would provide a state-of-the-art advising center dedicated to providing information, orientation, and advice to international students in Mexico interested in study in the U.S. and would also serve as a well informed resource on U.S. education to overseas educational advisers throughout Mexico and Central America.

Guidelines

The proposal should be presented in four parts.

I. Applicant's Background and Overview

The first part should contain an overview of the applicant's history and purpose. Evidence of previous experience with advising or educational exchange of international students and scholars should be included. The overview should indicate the total amount of funding requested with a justification as well as a budget presentation outlining the total project costs.

A listing of names, titles, addresses, and telephones numbers of the executive officer(s) and of the person(s) ultimately responsible for project, must
